Article 4. Enforcement by EA and Review by Board

§ 18301. Scope.

This article applies to the activities of EAs in enforcing the state minimum standards, permits, and related state solid waste laws and regulations within their purview. It also applies to the activities of the board in reviewing such activities of LEAs and in acting in the place of LEAs that have failed to take appropriate actions or, when the board is the EA in a particular jurisdiction.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 43209, 43216.5 and 45012, Public Resources Code.

HISTORY

1. Amendment of article heading and section and new NOTE filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18302. Written Complaints of Alleged Violations.

(a) Any person having information alleging a facility or operation is being operated without a required permit or notification, in violation of one or more terms or conditions of a permit, in violation of the state minimum standards, or in violation of any related state solid waste laws or regulations, or that a permit was obtained wholly or partially by misrepresentation or nondisclosure of relevant facts, may file a complaint regarding such allegation in writing to the EA. The compliant shall include the following:

(1) The name, address and telephone number of the person making the complaint, however nothing in this chapter shall be construed to prevent

the making of anonymous complaints by omitting the identity of the reporting party from the complaint;

(2) The identity and location, if known, of the facility or operation and the names and addresses, if known, of the persons responsible for the violation;

(3) The nature of the violation and/or the relevant misrepresented or non–disclosed facts; and

(4) All known facts relevant to the alleged violation or likely to be of assistance to the EA in investigating the complaint, including but not limited to information relating to witnesses and physical evidence.

(b) The person making the complaint may forward a copy to the board.

(c) Upon receipt of a complaint, the EA shall within fifteen days examine the report and determine whether its allegations, if true, would constitute a violation of a state minimum standard, permit term or condition or any related state solid waste law or regulation. The EA shall make its determination on the basis of the substance of the allegations rather than on the basis of the complaint's technical compliance with the Act or this chapter. Should the EA determine that the complaint fails to allege facts constituting a violation of a state minimum standard, permit term or condition or related state solid waste law or regulation, it shall so advise the reporting party in writing at the address given in the complaint if an address is given and place a copy in its files.

(d) The EA may decline to investigate a complaint if, in its judgment, investigation is unwarranted because the allegations are contrary to facts known to the EA. Should the EA decline to investigate on that ground, it shall so advise the complaining party in writing at the address given in the complaint if an address is given and place a copy in its files.

(e) Except as provided in subsection (c) or subsection (d) of this section, the EA shall commence an investigation of the facts alleged in the complaint.

(f) If an LEA has a complaint review and investigation initiation procedure that contains substantially the same basic requirements as this section, and accomplishes the intended purposes of this section within its board–approved EPP, it may follow that equivalent process in lieu of subsections (c), (d) and (e) of this section. Section 18302 is intended to insure that every person making a written complaint of an alleged unlawful condition at a solid waste facility or operation can assume that his or her complaint will receive appropriate attention.

(g) If the board receives a complaint in a jurisdiction where it is not the EA, the complaint shall be forwarded to the appropriate LEA within 5 days of its receipt, unless the LEA has already received a copy from the complaining party.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 43209, 44012, 44015 and 45000–45024, Public Resources Code.

HISTORY

1. Amendment filed 8–3–77 as an emergency; effective upon filing (Register 77, No. 32).
2. Certificate of Compliance filed 11–1–77 (Register 77, No. 45).
3. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
4. Amendment of section heading, section and NOTE filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18303. Investigations.

(a) The EA shall conduct investigations of allegations made to it as required by subsection (e) of Section 18302 or, if applicable, as required by its own equivalent complaint review and investigation initiation procedure as described in its board–approved EPP, and shall conduct investigations of all other disposal sites, facilities and operations where it has reason to believe violations exist. In addition, the EA shall conduct such periodic investigations as it deems necessary to insure compliance with all related state solid waste laws and regulations. In any investigation of possible violation of a health–related standard, the LEA, if it is not the local health department, shall consult as appropriate with the local health department concerning enforcement and any other related actions. If an investigation of possible violation of a health–related standard is conducted by the board, it shall obtain and consider the recommendation of the State Department of Health Services in addition to that of the local health department/health officer.

(b) Investigations by LEAs shall be conducted in accordance with the procedures in their board–approved EPPs. The procedures shall include the requirements found in subsection (c).

(c) The EA shall maintain a record of each investigation. The record shall include but not be limited to the following:

(1) The names of all persons interviewed and the date ad location of each interview;

(2) A description of all documentary and other physical evidence examined;

(3) The dates, times, and locations of all inspections of the facility;

(4) A list of correspondence, including any written reports by the permittee;

(5) Any other evidence leading to resolve the issues.

(6) A summary of the findings and conclusions of each completed investigation.

(d) The summary of the findings and conclusions of each completed investigation shall be included in the next periodic inspection report, as applicable.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 44100 and 44101, Public Resources Code.

HISTORY

1. Amendment of subsection (b) filed 8–3–77 as an emergency; effective upon filing (Register 77, No. 32).
2. Certificate of Compliance filed 11–1–77 (Register 77, No. 45).
3. Amendment of section and new NOTE filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18304. Notices and Orders.

(a) The EA as it deems appropriate or when required by statute, shall issue a notice and order pursuant to subsection (b) and section 18304.1 if, in the course of an investigation or at any other time, the EA determines that any facility, disposal site, operation or person(s):

(1) Is in violation of Division 30 of the Public Resources Code;

(2) Is in violation of any regulations adopted pursuant to Division 30;

(3) Is in violation of any of the terms or conditions of the solid waste facility permit under which the facility or disposal site is operating;

(4) Causes or threatens to cause a condition of hazard, or pollution; or

(5) Poses a potential or actual threat to public health and safety or the environment.

(b) The notice and order shall contain the following information:

(1) The identity of the EA.

(2) The name or names of each person or entity to whom it is directed.

(3) A description of the facility, operation or site where the violation was documented with a specific description of the location of the violation

(4) A description of the violation.

(5) The statutes, regulations, or permit terms or conditions the EA has determined are being violated.

(6) A schedule, as described in section 18304.1(a), by which the operator is to take specified action(s).

(7) The penalty for not complying within the specified schedule, as described in section 18304.1(b).

(8) A notice informing the owner/operator of their right to appeal the notice and order to the hearing panel or hearing officer under PRC 44307.

(9) The date of issuance and signature of an authorized officer or employee of the EA.

(c) The notice and order shall be accompanied by a declaration or affidavit under penalty of perjury of an employee or officer of the EA stating that the allegations contained in the notice and order are based either on personal knowledge or information and belief. If the basis of the allegations is the personal knowledge of the declarant or affiant, the declaration or affidavit shall state generally how such knowledge was obtained, including the date of any inspection. If the basis of the allegations is information and belief, the declaration or affidavit shall state generally the

source of the information; however, in no case shall the identity of an informant be required to be revealed.

(d) Within five business days of issuance of the notice and order, it shall be served on the owner and operator of the site, facility or operation, or person as applicable, in the following manner:

(1) If the site or facility has been issued a permit, or if an application for the site or facility is pending, or if the EA has received a Notification for the operation, by certified mail, return receipt requested, to the address last given by the owner and operator or by personal service if certified mail attempts are unsuccessful; or

(2) If no permit has been issued and no application is pending, or no Notification has been filed, by posting a copy at no less than one conspicuous place at the site or facility. Additional copies shall be mailed to addresses of the owner and operator if known to the EA.

(e) A copy of any notice and order shall be sent to the board within five business days of issuance.

Enforcement: For efficient administration, a single notice and order form will be used to initiate any of the various enforcement actions provided by the Act. However, it should be noted that certain enforcement actions are available only for certain types of violations.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 45000–45024, Public Resources Code.

HISTORY

1. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
2. Amendment of section and NOTE filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).
3. Change without regulatory effect amending subsection (b)(8) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18304.1. Types of Notices and Orders; Enforcement Thereof.

The EA shall include in a notice and order at least one of the orders listed in subsection (a), and shall include the applicable notices listed in subsection (b):

(a) Orders

(1) Corrective Action Order

An order requiring the owner or operator of a facility, disposal site or operation to take specified action by a specified date to abate a nuisance, or to protect public health and safety or the environment.

Example: Typical circumstances under which this order may be issued: Conditions at the facility, disposal site or operation are creating a nuisance or posing a threat to human health and safety or the environment.

(2) Cease and Desist Order

An order requiring the owner or operator of a facility, disposal site or operation to cease and desist any improper action, as specified in PRC section 45005, by a specified date. Example: Typical circumstances under which this order may be issued: Facility, disposal site or operation is in violation of Division 30 of the Public Resources Code, any regulations adopted pursuant to Division 30, or causes or threatens to cause a condition of hazard, pollution or nuisance.

(3) Compliance Order

Upon any of the grounds specified in PRC section 45011(a)(1), an order establishing a time schedule according to which the owner or operator of the facility, disposal site or operation shall correct any violations and/or abate a potential or actual threat to public health and safety or the environment. Example: Typical circumstances under which this order may be issued: Facility, disposal site or operation is in violation of Division 30 of the Public Resources Code, any regulations adopted pursuant to Division 30, any corrective action or cease and desist order, or poses a potential or actual threat to public health and safety or the environment. A compliance order must be issued pursuant to PRC section 45011 as a prelude to the assessment of administrative civil penalties.

(b) Notices

(1) Notice informing the owner and operator that failure to comply by a specified date in a final corrective action order may result in the EA contracting for corrective action.

Enforcement: As more fully described in PRC section 45000, if the owner or operator fails to take corrective action as specified in a final order by the specified date, the EA or the board may either take corrective action itself or contract for corrective action to be completed by an outside party. Corrective actions taken by the EA, the board, or an outside party will be at the expense of the owner, operator or both and are recoverable pursuant to PRC section 45000.

(2) Notice informing the owner or operator that the EA may take action to impose administrative civil penalties upon failure to comply with applicable deadlines in a final compliance order.

Enforcement: Pursuant to PRC section 45011, if the owner or operator fails to achieve compliance by applicable deadlines in the order, the EA may impose penalties through written notification to the owner or operator. The notification shall include the amount of the penalty and the due date for payment, which in no case should be later than 30 days after the date the order becomes final.

(3) Notice informing the owner or operator that the EA is conditionally imposing administrative civil penalties in a specified amount per day with a specified start date for penalty accrual, upon failure to comply with applicable deadlines in a final compliance order.

Enforcement: If the owner or operator fails to achieve compliance by applicable deadlines in the order issued pursuant to PRC section 45011, the EA shall notify the owner or operator in writing of the amount of the penalty and the due date for payment, which in no case should be later than 30 days after the date the order becomes final.

(4) Notice informing the owner or operator that failure to comply by the deadline in a final order may result in the EA petitioning the superior court to enjoin the violations, and that continued violation after the granting of an injunction may be punishable as contempt of court.

Enforcement: If the owner or operator fails to comply by the deadline in a final order, the notice may be enforced by filing an appropriate petition in superior court.

(5) Notice informing the owner or operator that upon failure to comply with a deadline in a final order, the EA may bring an action in the superior court to impose upon the owner or operator civil penalties.

Enforcement: If the owner or operator fails to comply by the deadline in a final order, the notice may be enforced by filing an appropriate petition in superior court pursuant to PRC sections 45023 and 45024.

(6) Notice informing the owner or operator that the EA, subject to the applicable requirements of PRC sections 44305 and 44306, may take action to suspend or revoke the permit for the facility upon failure to comply with applicable deadlines in a final order.

Enforcement: If the owner or operator fails to comply by the deadline in a final order, the notice may be enforced by revoking or suspending the permit for the facility pursuant to PRC sections 44305 and 44306.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 45000–45024 and 44305–44306, Public Resources Code.

HISTORY

1. New section filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18304.2. Final Orders.

An order becomes final when either:

(a) A notice and order has been requested by the operator and/or owner to be reviewed by the local hearing panel or hearing officer, and the hearing process has been completed pursuant to PRC sections 44307 & 44310, and any subsequent appeals to the board or Superior Court have been resolved pursuant to PRC sections 45030–45042, or;

(b) Within 15 days of receipt if no review was requested by the operator.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 44307, 44310, 45017 and 45030–45042, Public Resources Code

HISTORY

1. New section filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

2. Change without regulatory effect amending subsection (a) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18304.3. Mandated Enforcement Actions.

An EA shall take the following enforcement actions for specific violations or situations:

(a) Issue a cease and desist order to cease operations immediately if the EA determines that a solid waste facility is operating without a permit or that an operation is operating without proper notification;

(b) If a facility is included on the Inventory of Solid Waste Facilities Which Violate State Minimum Standards pursuant to PRC section 44104, the EA is required to develop a compliance schedule which ensures that diligent progress is made by the operator to bring the facility into compliance pursuant to PRC section 44106. The compliance schedule may be incorporated into a notice and order.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 44002, 44104 and 44106, Public Resources Code.

HISTORY

1. New section filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18304.4. Notice of Compliance Status.

Whenever the LEA issues a notice and order pursuant to sections 18304 and 18304.1 or develops a compliance schedule, the LEA shall, 30 days after the final compliance deadline or expiration date in the order or schedule, provide notification of the compliance status with the order or schedule to the board. The notice of compliance status may be included as part of an LEA's periodic inspection report and shall include a determination as to whether the operator is in compliance with the notice and order or schedule and whether the notice and order or schedule has been completed, extended or enforced, as the LEA deems applicable and appropriate, along with the justification and reasoning for the determination.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 45000–45024, Public Resources Code.

HISTORY

1. New section filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18304.5. Notification of Enforcement.

Upon the taking of any action described in a notice as authorized by section 18304.1, the LEA shall within five business days advise the board of the action in writing and include a copy of any court documents that have been filed.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 45000–45024, Public Resources Code.

HISTORY

1. New section filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18305. Enforcement of Notices and Orders.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 45000–45300, 44501–44503 and 45505–45507, Public Resources Code.

HISTORY

1. Amendment of subsection (b) filed 8–3–77 as an emergency; effective upon filing (Register 77, No. 32).
2. Certificate of Compliance filed 11–1–77 (Register 77, No. 45).
3. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
4. Repealer filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18306. Emergency Actions.

(a) If the EA or the board determines that a violation exists that poses an imminent threat to public health and safety or the environment, the EA or the board may clean up, abate, or otherwise remedy the violation immediately upon failure of the owner and operator to take corrective actions by the deadline in a corrective action order issued pursuant to sections 18304 and 18304.1. An owner's or operator's request to review the EA's or board's action by a hearing panel or hearing officer pursuant to PRC section 44307, and any subsequent appeals, does not stay the effect of the order or prevent the EA or board from taking or contracting for corrective action.

(b) If any action is taken pursuant to subsection (a) of this section, the EA or the board shall give notice in the manner specified in section 18304(d) to the owner and operator as soon as practicable, but in no case later than five business days after taking the action. A copy of the notice shall be transmitted to the board within five business days of issuance.

(c) The EA or the board may bring an action in the superior or municipal court to recover the costs of emergency remedial measures. Upon the bringing of such an action, the EA shall advise the board of the action in writing accompanied by a copy of the complaint within five business days. When the board brings its own action in superior or municipal court, it shall notify the appropriate EA of the action in writing, accompanied by a copy of the complaint within five business days.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 45000–45024, Public Resources Code.

HISTORY

1. Amendment of subsection (c) filed 8–3–77 as an emergency; effective upon filing (Register 77, No. 32).
2. Certificate of Compliance filed 11–1–77 (Register 77, No. 45).
3. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
4. Amendment of section and NOTE filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).
5. Change without regulatory effect amending subsection (a) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18307. Actions to Suspend or Revoke a Permit.

(a) If the EA determines that there is cause for suspension or revocation of a permit pursuant to PRC sections 44305 or 44306 respectively, and the EA has previously notified the operator in writing of the violation or other condition which is cause for suspension or revocation, the EA may issue to the operator, via certified mail with return receipt requested or by personal service if certified mail attempts are unsuccessful, a Notice of Intent to Suspend (NIS) or a Notice of Intent to Revoke (NIR) the permit. The NIS or NIR shall inform the operator of the EA's intent to suspend or revoke the permit and of the operator's right to request the matter to be heard in front of the hearing panel or hearing officer pursuant to PRC section 44310. If the operator does not request a hearing within 15 days of receipt of the NIS or NIR, the EA may take action to suspend or revoke the permit without a hearing or it may hold a hearing prior to taking such action.

(b) The EA may, in its discretion, precede the issuance of the NIS or NIR filing by service of an appropriate notice and order in the manner specified in section 18304, or it may include the NIS or NIR within a notice and order as long as the EA has previously notified the operator in writing of the violation or other condition which is cause for suspension or revocation.

(c) Within five business days of issuing a NIS or NIR, the EA shall notify the board by providing it with a copy of the NIS or NIR.

(d) If, after an NIS or NIR has been issued the proceeding to suspend or revoke a permit is terminated in any manner other than by decision of the hearing panel or hearing officer, the LEA shall so advise the board in writing.

4. Repealer filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

Article 5. Enforcement by Board

§ 18350. Enforcement Actions by Board.

(a) Should the board find good cause exists for the issuance of a notice and order (N&O) or for the taking of any other enforcement action and should the board further find that the LEA has failed to take such an action pursuant to the LEA performance criteria in section 18084, the board may take such an action after implementing the following procedures:

(1) Request in writing an increased enforcement response by the LEA, consisting of additional enforcement action pursuant to its EPP and, if applicable, to a previously issued N&O, and offer technical assistance. The request shall include documentation of the lack of appropriate enforcement action on the part of the LEA;

(2) If the LEA fails to respond within 30 days of receipt of the request with an increased enforcement response, the board shall issue a Notice of Intent to Take Action (NIA) to the LEA and the operator. The NIA shall include the date and time for a board hearing which shall be scheduled in no case earlier than 30 days from the date the NIA is sent;

(3) If the LEA still fails to respond with an increased enforcement response, the board shall hold a public hearing regarding its intent to take action. At the hearing, the board may decide to take enforcement action or to take any other action to improve LEA performance pursuant to PRC section 43216.5.

(b) In taking enforcement action, the board shall follow applicable procedures set forth for the EA in sections 18304 through 18307, as applicable. Notice of such action shall be given to the LEA in the same time and manner required for notice to the board by the LEA pursuant to section 18304(e).

(c) Notwithstanding section 18350(a), if the board finds that the LEA's failure to take enforcement action causes an imminent threat to public health and safety or the environment, the board may take enforcement action, as it deems necessary without prior notification or hearing.

(d) For purposes of this section, an imminent threat to public health and safety or the environment is defined as a condition which is creating a substantial probability of harm, when the probability and potential extent of harm make it reasonably necessary to take immediate action to prevent, reduce, or mitigate the damages to persons, property, natural resources, or the public health or safety.

(e) In taking any enforcement action related to health standards as defined in section 17205, the board shall coordinate its activities with the State Department of Health.

NOTE: Authority cited: Sections 40502 and 43304, Public Resources Code. Reference: Sections 45000–45024, Public Resources Code.

HISTORY

1. Change without regulatory effect pursuant to section 100(b)(1) and (b)(4), Title 1, California Code of Regulations repealing former section 18350, and renumbering former section 18308 to section 18350 filed 5–4–90; operative 6–3–90 (Register 90, No. 24).
2. Amendment of section and NOTE filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18351. Assumption of Duties of EA.

(a) The board shall assume the duties of the EA upon occurrence of any of the following circumstances:

(1) Upon agreement of the board and local governing body and designation of the board in the manner provided by law; or

(2) Upon withdrawal of a designation where no new designation is made and approved.

(b) Whenever the board assumes the duties of an EA, it shall so notify the appropriate local governing body within 10 days of its assumption of the duties.

3. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

4. Repealer filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

Article 5.1. Inventory of Solid Waste Facilities Which Violate State Minimum Standards

§ 18360. Authority and Scope.

(a) This Article sets forth the procedures associated with the Inventory of Solid Waste Facilities Which Violate State Minimum Standards, and the enforcement roles of both the enforcement agency and the board.

(b) This Article is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (Act) commencing with Section 40000 of the Public Resources Code, as amended. This article should be read together with the Act.

(c) Nothing in this Article limits or restricts the power of any federal, state, or local agency to enforce any provision of law that it is authorized or required to enforce or administer, nor to limit or restrict cities or counties from promulgating laws which are at least as strict as the regulations contained in this Article. However, no city or county may promulgate laws which are inconsistent with the provisions of this Article.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New article 5.1 (sections 18360–18368) and section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

§ 18361. Definitions.

The following definitions apply to Article 5.1.

(a) "Compliance schedule" means a written plan with milestone dates to achieve compliance for State Minimum Standard (SMS) violations. The compliance schedule could be proposed by the operator and approved by the enforcement agency or directed by the enforcement agency. The compliance schedule may be a stand–alone document or in the form of a Notice and Order pursuant to California Code of Regulations section 18304.

(b) "Executive director" means the executive director of the board or his/her designee.

(c) "Inventory" means a list of solid waste facilities operating in the State of California that have multiple violation(s) of the state minimum standards for solid waste handling and disposal. State minimum standards regulate the design and operation of solid waste facilities in order to protect public health and safety of the environment in Title 14 or Title 27, California Code of Regulations.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 44104 and 44106, Public Resources Code.

HISTORY

1. New section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

§ 18362. Notice of Intent to List a Facility for Inclusion on the Inventory.

(a) If, at a permitted facility, the enforcement agency documents the same State Minimum Standards violation(s) for two consecutive months during its inspections, then the board will send a notice of intent letter to the operator and landowner of the facility. This letter is a notification to the operator/owner of a permitted facility that the board intends to place the facility on the Inventory if the violation(s) is not corrected within 90 days of receipt of the notice. The notice of intent letter will be sent by certified mail.

(b) The board must consult with the enforcement agency verbally or in writing before sending a notice of intent letter to ensure that the notification is based on current information.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 44104, Public Resources Code.

HISTORY

1. New section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

§ 18363. Rescission of the Notice of Intent to List a Facility on the Inventory.

(a) If the enforcement agency provides written documentation that the facility is no longer in violation of all of the standard(s) listed in the notice of intent letter during the 90–day notice of intent period, then a rescission letter will be sent to the operator and landowner by the board. The rescission letter will be sent by certified mail.

(b) The enforcement agency must indicate compliance on an inspection report developed at the time compliance is determined or on the next inspection report after the determination.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 44104, Public Resources Code.

HISTORY

1. New section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

§ 18364. Inclusion of a Facility on the Inventory.

(a) If the violation(s) listed on the notice of intent letter is not corrected on or before the 90th day subsequent to the operator's receipt of the notice of intent letter, then the board will send another letter to the operator and landowner as notification that their facility has been placed on the Inventory. The inclusion letter will state the violation(s) to be listed on the Inventory, including those on the notice of intent letter that have not been complied with, and will be sent by certified mail.

(b) The board must consult with the enforcement agency verbally or in writing before sending out an inclusion letter to ensure that the notification is based on current information.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 44104, Public Resources Code.

HISTORY

1. New section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

§ 18365. Compliance Schedule.

(a) Within 15 business days following the date of the inclusion letter, the enforcement agency must issue a compliance schedule to the operator of the facility pursuant to PRC 44106(a). Within 5 business days of issuance of the compliance schedule, a copy will be sent to the board.

(b) The compliance schedule must have the final compliance date within one year from the date of the inclusion letter. The enforcement agency may issue a compliance schedule for more than one year but not to exceed two years, after informing the executive director in writing. A one–year extension beyond two years may be made prior to the expiration of the two–year period upon approval by the executive director. The executive director shall report any such approvals or disapprovals to the Board.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 44106, Public Resources Code.

HISTORY

1. New section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

§ 18366. Removal of a Family from the Inventory.

(a) When the enforcement agency provides the board with written documentation that the facility is no longer in violation of all the standard(s) listed on the inclusion letter, then a removal letter will be sent to the operator and landowner by the board. The removal letter will be sent by certified mail within 15 days of the receipt of the LEA documentation.

(b) The enforcement agency must indicate compliance in an inspection report developed at the time compliance is determined or in the next inspection report after the determination.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 44104 and 44106, Public Resources Code.

HISTORY

1. New section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

§ 18367. Publishing the Inventory.

(a) The Inventory will be published twice a year in board meeting minutes. Updates to the published Inventory will be made as needed.

(b) Each city council or county board of supervisors with a facility in its jurisdiction on the Inventory will receive a copy of the twice a year published Inventory. The jurisdiction will be notified when the facility is removed from the Inventory.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 44104, Public Resources Code.

HISTORY

1. New section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

§ 18368. Penalties.

(a) The enforcement agency may issue enforcement orders as it deems appropriate pursuant to Public Resources Code, Division 30, Part 5 (commencing at section 45000) and Title 14, California Code of Regulations, Division 7, Chapter 5, Article 4 (commencing at section 18301).

(b) The enforcement agency may revoke the permit of a solid waste facility that does not meet the requirements contained in the compliance schedule issued by the enforcement agency until the violation(s) of state minimum standards which caused the facility to be included in the Inventory are remedied, pursuant to Public Resources Code, Division 30, Part 4, sections 44305 and 44306, and Title 14, California Code of Regulations, section 18307.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 44106 and 45000–45024, Public Resources Code.

HISTORY

1. New section filed 3–5–2003; operative 4–4–2003 (Register 2003, No. 10).

Article 6. Criteria, Priority and Administration of the Loan Guarantee Program Provided Pursuant to the Waste Disposal Site Hazard Reduction Act of 1987

§ 18400. Definitions.

For the purposes of this article, the definitions found in Public Resources Code sections 46021–46028 shall apply unless otherwise indicated. The following supplementary definitions shall also govern the construction of this chapter:

(a) "Approved lending institutions" means banking organizations, including national banking associations and state chartered commercial banks and trust companies; savings and loan associations; and state and federal agencies authorized to make loans, such as the California Pollution Control Financing Authority.

(b) "Borrower" means an owner or operator of a solid waste landfill who applies for a loan, and meets the eligibility requirements set forth in section 18401 of these regulations.

(c) "Default" means the failure of a borrower or debtor to pay, when due, the principal and/or the interest owed:

(1) on an installment if the note is written for installment payments; or

(2) on maturity of the note if the note is written for a lump sum payment; or

(3) on demand of the lender if the lender has exercised the note's acceleration clause.

In the absence of the conditions stated above, failure of the debtor to comply with terms or conditions attached to a note shall not in itself constitute a default that would allow the lender to file a claim against the guarantee.

(d) "Qualifying" corrective actions are those actions which are required by a state or local enforcement agency to protect the public health or the environment, including but not limited to, events related to water contamination, air pollution, and methane gas migration at solid waste disposal facilities, and which are neither provided for in the closure or postclosure maintenance plans for a facility which are required by section 18255 of this Title; nor are required to be set forth in a facility's closure and postclosure maintenance plans by sections 18261 through 18265.3 of this title.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Sections 46021–46028, 46300–46301, 46303 and 46350–46353, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18401. Loan Guarantee Criteria.

The Board may guarantee a loan only if it determines that the borrower meets the following criteria:

(a) The borrower has met the requirements, if applicable, of Public Resources Code section 46202.

(b) The loan guarantee, if provided, shall be used to secure a loan from an approved lending institution to implement a qualifying corrective action, which is required to be taken pursuant to section 41805.5 of the Health and Safety Code or section 13273 of the Water Code, or pursuant to directions from a state or local enforcement agency.

(c) The borrower is unable to secure adequate finances for a qualifying corrective action and has provided written evidence that this guarantee is necessary in order to secure adequate finances. Evidence may include, but is not limited to, credit evaluations from approved lending institutions indicating that a guarantee is needed in order for the loan to be made.

(1) The landfill owner or operator shall have attempted to secure financing through conventional funding mechanisms. including but not limited to increased tipping fees, to cover the cost of implementing the corrective action.

(2) The borrower is unable to obtain the required financing from any of its parent, subsidiary or associated enterprises.

(d) If the facility is in the process of closing,the borrower must be undertaking the planned closure and postclosure maintenance activities. If any part of the facility has already been closed, the borrower must be undertaking the planned closure and postclosure maintenance activities on the closed portion.

(e) The borrower is able to repay the loan.

(1) Evaluation of the borrower's ability to repay shall be based on the borrower's financial statements for the previous three (3) years.

(A) Each of these statements shall consist of a balance sheet, an income statement, and a statement of changes in financial position, all of which will have been prepared according to generally accepted accounting principles.

(B) If the latest complete financial statement is more than six (6) months old, an interim financial statement not older than sixty (60) days shall be included.

(2) If financial statements are not available, the borrower will provide other information acceptable to the Board which establishes a financial ability to repay the loan, such as:

(A) Income tax returns,

(B) Credit reports from Retail Credit Association and other credit reporting agencies,

(C) An appraisal report showing the value of real and personal property which is suitable as collateral.

(f) The loan which is to be guaranteed will be secured by collateral as the Board may require, such as, but not limited to, a mortgage or security interest in real estate, and buildings or personal property of the borrower. These items may only be subject to encumbrances that the Board may approve, such as, assignment or pledges of leases, and personal or corporate guarantees. Only the unencumbered equity portion of the property accepted as collateral shall be considered as collateral. Personal guarantees of the principals shall be required, unless reasons satisfactory to the Board are presented which justify not requiring such guarantees.

(1) Real state or stationary machinery or equipment pledged as a significant portion of collateral for repayment of a guaranteed loan shall be located within the State of California. Real estate pledged as collateral shall not include land which has been used as a solid waste disposal site.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Sections 46205 and 46303–46307, Public Resources Code.

HISTORY

1. Editorial renumbering of former section 18401 to section 18499, and new section 18401 filed 4–2–90; operative 5–2–90 (Register 90, No. 14). For prior history, see Registers 89, No. 1 and 81, No. 9.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18402. Priority.

The allocation of loan guarantee funds by the Board shall be in accordance with the following order of priority:

(a) First priority will be given to applicants who need to secure financial resources for the mitigation of identified hazards to public health, damage to the environment, or nuisance to the public, of greatest severity, which are created by solid waste landfills and entail qualifying corrective actions as defined in section 18400 of this article.

(b) In the event that applications to mitigate hazards of equal severity are received, priority will be given to those applications where it is shown that there will be the greatest increase in the costs associated with the anticipated corrective action, if the corrective action is delayed.

(c) In the event that a priority between applications cannot be established by subsections (a) and (b), priority will be given to those applicants who demonstrate the best record of compliance with applicable law, regulations and permits required in the operation of landfill facilities.

(d) In the event that a priority between applications cannot be established by subsections (a) through (c), priority will be given to those applications with the smallest dollar value, in order to allow the maximum

[The next page is 806.31.]

number of guarantees to be made within the limits of the Loan Guarantee Program.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Sections 46306 and 46307, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18403. Loan Guarantee Size.

(a) The minimum loan amount that will be guaranteed is the smallest amount which an approved lending institution is willing to loan to the borrower.

(b) The maximum loan guarantee amounts shall be subject to the following limitations:

(1) A loan guarantee will not exceed $1,000,000 or the cost of the specified corrective action, whichever is less.

(2) The total loan guarantee amount awarded to any one borrower will not exceed fifty percent (50%) of the balance of funds in the Account allocated for loan guarantees at the time the guarantee is awarded.

The Board may guarantee a loan in excess of these limits if it determines that a guarantee with a greater value is necessary to mitigate hazards to public health, damage to the environment, or nuisance to the public.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Sections 46300, 46301 and 46303, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18404. Loan Guarantee Period.

(a) A loan guarantee will expire sixty (60) months after the effective date of the guarantee of on the date the loan is repaid, whichever occurs first.

(b) A guarantee may be renewed prior to its termination. The Board will determine whether to renew a guarantee using the same criteria and procedures used to establish a new loan guarantee.

(c) A guarantee may exceed sixty (60) months if the Board determines that hazards to public health will exist, or damage to the environment will ensue, or a nuisance to the public will persist if a guarantee with a longer life is not made.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Section 46303, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18405. Percentage of Guarantee.

The Board may guarantee no more than ninety percent (90%) of the principal balance to be loaned. This guarantee shall obligate the Board to purchase from the lender the guaranteed portion of a loan in the event of a default, subject to the terms and conditions of the guarantee as specified in sections

18412 and 18413, and in the loan guarantee contract.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Section 46303, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18406. Reserve Ratio.

The Board shall insure that at all times loan guarantee funds are held in reserve in an amount equal to no less than seventy–five percent (75%) of the total amount of the guaranteed principal and interest which is currently outstanding.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Sections 46300–46301, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18407. Loan Interest.

The rate of interest to be charged on guaranteed loans shall be negotiated between the lender and borrower. The lender shall inform the Board of agreed–upon interest rate for a loan at the time the loan is made.

NOTE: Authority cited: Sections 40502 and 46201, Public Resources Code. Reference: Section 46303, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18408. Application for Loan Guarantees; Fees.

(a) A landfill owner or operator shall file an application for a loan guarantee to fund a corrective action at the principal place of business of the Board.

(b) A landfill owner or operator shall file an application for a loan guarantee that includes information as specified in CIWMB Forms 201 (5/89), 202 (5/89) and 203 (5/89), which are incorporated by reference. Submittal of these forms is optional, but submittal of the information requested in these forms is mandatory.

(c) A lender shall include information on an applicant as specified in CIWMB Form 204 (5/89), which is incorporated by reference. Submittal of this form is optional, but submittal of the information requested in this form is mandatory.

(d) A minimum nonrefundable application fee of $250 or one–tenth (1/10) of one percent of the loan amount to be guaranteed, whichever is greater, shall be paid to the Board at the time of application to defray the Board's expenses in reviewing and processing the application.

NOTE: Authority cited: Sections 40502 and 46201, Public Resources Code. Reference: Sections 46204, 46308 and 46309, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18409. Board's Actions on Applications.

(a) Upon receipt of an application for a loan guarantee made by a landfill operator or owner, the Board shall review the application to determine if the application is complete. If the application is not complete, it shall be returned and the applicant notified of the deficiencies in the application within thirty (30) days. The applicant may resubmit an application to correct the identified deficiencies one time without paying a new application fee.

(b) Within ninety (90) days of the receipt of the complete application, the Board shall approve, modify or deny the application for a loan guarantee.

(c) Upon approval of a requested loan guarantee, the Chairman of the Board shall insure that the criteria and priority imposed by sections 18401 and 18402, have been fully met.

(d) Before a loan guarantee commitment is issued by the Board, the terms of a loan guarantee shall be set forth in a contract agreed to by the borrower, the lender, and the Board.

(e) In the event the Board disapproves any application, the Board will notify the applicant of the disapproval and the reasons for the disapproval. The notice shall include a statement of the applicant's right to appeal for reconsideration upon meeting the requirements set forth in the notice of disapproval. An applicant may appeal for reconsideration one time without paying a new application fee.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Section 46201, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18410. Report of Fund Condition.

(a) Guaranteed loans shall be subject to audit by the Board at any time, as the Board deems warranted. These loans shall be subject to audit by the Board from the time the guarantee is issued until three years after the guarantee has expired.

(b) If, in the course of an audit, all accounting records of the loan expenditures are not available. the borrower will produce these records within sixty (60) days. If no ledgers exist, the borrower shall provide the Board with copies of source documents such as invoices, canceled checks, time sheets and payroll registers. It is the responsibility of the borrower to maintain proper accounting records.

(1) In the event that an audit reveals that the borrower used any of the loan proceeds for purposes other than the corrective action for which the loan guarantee was awarded, the borrower will be in violation of the loan guarantee agreement. Dependent upon the scope of the misuse of funds, the Board shall take action, such as, requiring refunds of misspent funds, filing civil lawsuits or criminal prosecution.

(c) Lenders shall verify in writing the condition of loans upon request by the Board. The verification shall consist of the terms of the loan, the repayment schedule, monthly payments, and any other information needed to monitor the financial condition of loans guaranteed.

NOTE: Authority cited: Sections 46201 and 40502, Public Resources Code. Reference: Section 46205, Public Resources Code.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18411. Default Claim Procedures.

The following default claim procedures shall apply in the event a guaranteed loan is in default:

(a) The lender shall notify the Board of the debtor's delinquency by mailed notice no later than the forty–fifth (45th) day of delinquency.

(b) The lender shall supply the Board with copies of the notes, security agreements, guarantees and a summary of the loan's history, including where the loan is domiciled, the payment record, and a copy of the lender's liquidation plan by the sixtieth (60th) day of delinquency.

(c) The lender may file with the Board its claim for payment under the terms of the guarantee as stipulated in section 18412, no earlier tan the ninetieth (90th) day of delinquency. This claim shall be for the guaranteed portion of the outstanding principal balance of the loan plus the accrued unpaid interest on the guaranteed amount.

(d) Within forty–five (45) days from receipt of a claim for payment as a result of a delinquency, the Board shall notify the lender of its intent to purchase from the lender the guaranteed portion of the note for the amount specified in the claim.

(e) From the time a loan payment is first delinquent until the guaranteed portion of the note and the accrued interest is paid by the Board, the lender shall take actions necessary to secure and exercise its position as a creditor.

(f) On purchase of the guaranteed portion of a defaulted note by the Board, the lender shall assign the guaranteed portion of the note, security interest, and guarantees to the Board. The Board shall take the action it deems necessary and appropriate in order to secure payment from the debtor or the debtor's assets.

(g) In the event the Board obtains recovery on a defaulted note after its purchase from the lender, the proceeds of the recovery, minus the cost of recovery, shall be shared between the Board and lender in proportion to the exposure the Board and lender respectively bore to the defaulted note.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18412. Terms of Guarantee.

The Board shall be obligated to purchase no more than ninety percent (90%) of the outstanding principal balance and the accrued unpaid interest. In the event the lender requests the note be purchased, the Board shall pay the percentage of accrued interest guaranteed for the number of days the debtor has been delinquent, up to the day the Board notified the lender of its intent to purchase the note. Payment, however, shall be conditional upon the lender having met the conditions of the guarantee as stipulated in section 18413.

In the event that the lender has recovered part of the collateral or security interest prior to reimbursement by the Board, only the difference between the recovered money and the guaranteed portion of the principal and the interest may be claimed against the loan guarantee fund by the lender. If the lender or the Board obtains recovery on a defaulted note after purchase and reimbursement by the Board, the recovery shall be paid to the Board and the lender in proportion to the exposure the Board and the lender respectively bore to the defaulted note after the deduction of its collection costs.

No single claim shall, nor shall the aggregate of claims made by lenders, hereunder, exceed the amount allocated to the loan guarantee fund in the Account. The State shall not be liable or obligated in any way beyond the State money allocated to the loan guarantee fund in the Account.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 18413. Conditions of Guarantee.

The Board shall honor its guarantee to a lender if:

(a) The debtor is in default of the note, as defined in section 18400(c).

(b) The lender has met the conditions for the issuance of the guarantee and has observed the lender's reporting and collection requirements as specified in sections 18410 and 18411.

(c) The lender has complied with the terms of the loan guarantee contract.

HISTORY

1. New section filed 4–2–90; operative 5–2–90 (Register 90, No. 14).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

Chapter 5.9. California Integrated Waste Management Board— Conflict of Interest Code

NOTE: It having been found, pursuant to Government Code Section 11344, that the printing of the regulations constituting the Conflict of Interest Code is impractical and, being of limited and particular application, these regulations are not published in full in the California Code of Regulations. The regulations are available to the public for review or purchase at cost at the following locations:

CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD
1001 I STREET
SACRAMENTO, CA 95812

FAIR POLITICAL PRACTICES COMMISSION
428 J STREET, SUITE 800
SACRAMENTO, CA 95814

ARCHIVES
SECRETARY OF STATE
1020 "O" STREET
SACRAMENTO, CA 95814

The Conflict of Interest Code is designated as Chapter 5.9, Division 7 of Title 14, of the California Code of Regulations, and consists of sections numbered and titled as follows:

Chapter 5.9. California Integrated Waste Management Board—Conflict of Interest Code

Section
18419. General Provisions
Appendix

NOTE: Authority cited: Sections 87300 et seq., Government Code. Reference: Section 87300, et seq., Government Code.

HISTORY

1. New chapter 6 (sections 18401–18467, not consecutive) filed 2–21–78; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 1–12–78 (Register 78, No. 8).
2. Repealer of chapter 6 (articles 1–5, sections 18401–18467, not consecutive and Exhibits A and B) and new chapter 6 (section 18401 and Appendix) filed 2–26–81; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 12–1–80 (Register 81, No. 9).
3. Editorial renumbering of former section 18401 to section 18499 (Register 90, No. 14).
4. Change without regulatory effect renumbering chapter and section headings filed 1–14–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
5. Amendment of addresses, General Provisions and Appendix filed 11–15–93 for procedural review and publication only; operative 12–15–93. Approved by Fair Political Practices Commission 9–16–93 (Register 93, No. 47).
6. Amendment of addresses, NOTE and Appendices filed 12–5–2002; operative 1–4–2003. Approved by Fair Political Practices Commission 10–21–2002 (Register 2002, No. 49).
7. Amendment of addresses and Appendix filed 7–21–2005; operative 8–20–2005. Approved by Fair Political Practices Commission 3–3–2005 (Register 2005, No. 29).

Chapter 6. Permitting of Waste Tire Facilities and Waste Tire Hauler Registration and Tire Manifests

Article 1. General

§ 18420. Applicability.

(a) The operator of a waste tire facility shall acquire a waste tire facility permit in accordance with the requirements of this Chapter and PRC section 42808, unless any of the following conditions exist:

(1) The waste tires are stored or disposed at a permitted solid waste disposal facility. The permit of the solid waste facility shall be revised pursuant to Public Resources Code (PRC) section 44014 and shall conform to the requirements of Division 7, Chapter 3, Article 5.5.

(2) The facility is using fewer than 5,000 waste tires for agricultural purposes and the waste tires have been rendered incapable of holding accumulations of water.

(3) The facility is storing fewer than 500 waste tires.

(4) The facility is a tire treading business and not more than 3,000 waste tires are kept on the premises.

(5) (Reserved).

(6) The facility is an automobile dismantler, as defined in Sections 220 and 221 of the Vehicle Code, who stores waste tires on the premises of the auto dismantler for less than 90 days if not more than 1,500 waste tires are ever accumulated on the dismantler's premises.

(7) The facility is a tire dealer who stores waste tires on the dealer's premises for less than 90 days if not more than 1,500 waste tires are ever accumulated on the dealer's premises.

(b) For purposes of determining the applicability of this Chapter 6, altered waste tires shall be counted as passenger tire equivalents (PTE).

(c) (Reserved)

(d) For the purposes of Chapter 6, Articles 2 through 7 and Articles 9, 10 and 11 apply to operators and/or businesses described under Chapter 6, Article 1.

(e) A "used tire dealer" is only authorized to lawfully accept used or waste tires without a waste tire facility permit if the used tire dealer is in compliance with Section 17225.820, Article 4.1, Chapter 3 and has fewer than 1500 waste tires in accordance with Section 42808(c).

NOTE: Authority cited: Sections 40502, 42820, 42830 and 42966, Public Resources Code. Reference: Sections 42806.5, 42808, 42820, 42830, 42831, 42832, 44014 and 42950, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of subsections (a)–(a)(2) and (b), and adoption of subsections (c)–(d)(2) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of Chapter heading, new subsections (e) and (f), and amendment of NOTE filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
10. Amendment of chapter heading, new subsections (e) and (f) and amendment of NOTE refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
11. Amendment of chapter heading, new subsections (e)–(f) and amendment of NOTE refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
12. Amendment of chapter heading, new subsections (e)–(f) and amendment of NOTE refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
13. Change without regulatory effect amending subsection (d)(2) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
14. Certificate of Compliance as to 1–18–95 order including amendment of subsection (e) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
15. Repealer of subsection (a)(4), subsection renumbering, new subsection (a)(5), repealer of subsections (b) and (c), new subsection (b), subsection relettering, and amendment of newly designated subsection (c)(2) filed 6–16–98 as an emergency; operative 6–16–98 (Register 98, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–14–98 or emergency language will be repealed by operation of law on the following day.
16. Reinstatement of section as it existed prior to 6–16–98 emergency amendment by operation of Government Code section 11346.1(g) (Register 98, No. 46).
17. Repealer of subsection (a)(4), subsection renumbering, new subsection (a)(5), repealer of subsections (b) and (c), new subsection (b), subsection relettering, and amendment of newly designated subsection (c)(2) filed 11–9–98 as an emergency; operative 11–9–98 (Register 98, No. 46). A Certificate of Compliance must be transmitted to OAL by 3–9–99 or emergency language will be repealed by operation of law on the following day.
18. Repealer of subsection (a)(4), subsection renumbering, new subsection (a)(5), repealer of subsections (b) and (c), new subsection (b), subsection relettering, and amendment of newly designated subsection (c)(2) refiled 3–5–99 as an emergency; operative 3–5–99 (Register 99, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–6–99 or emergency language will be repealed by operation of law on the following day.
19. Repealer of subsection (a)(4), subsection renumbering, new subsection (a)(5), repealer of subsections (b) and (c), new subsection (b), subsection relettering, and amendment of newly designated subsection (c)(2) refiled 7–2–99 as an emergency; operative 7–6–99 (Register 99, No. 27). A Certificate of Compliance must be transmitted to OAL by 11–3–99 or emergency language will be repealed by operation of law on the following day.
20. Emergency action of 7–2–99 refiled 10–29–99 as an emergency, including transposition of subsections (a)(4) and (a)(5), repealer of subsection (b) and subsection relettering; operative 10–29–99 (Register 99, No. 44). A Certificate of Compliance must be transmitted to OAL by 2–28–2000 or emergency language will be repealed by operation of law on the following day.
21. Certificate of Compliance as to 10–29–99 order transmitted to OAL 2–22–2000 and filed 3–31–2000 (Register 2000, No. 13).

22. Amendment of section and NOTE filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).
23. Amendment of chapter heading filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18421. Scope.

NOTE: Authority cited: Sections 40502, 42020 and 42830, Public Resources Code: Reference: Sections 42820 and 42830, Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL by 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. A Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL by 10–20–92 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18422. Definitions.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 21068, 21082.2, 42800, 42820 and 42830, Public Resources Code and Sections 15002, 15064 and 15382, State CEQA Guidelines, Title 14, CCR.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Repealer of article 2 heading and section and amendment of NOTE filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

Article 2. Review of Permit Applications

§ 18423. Filing of Application.

(a) Every operator of a new or existing major or minor waste tire facility shall submit to the Board a completed original and two (2) copies of the waste tire facility permit application, as specified in Article 4 of this Chapter.

(b) Upon receipt of the application, the Board shall mark the application package with the date of receipt. Within 30 days of receipt, the Board shall examine the application package to determine whether it meets the requirements contained in this chapter and either accept the application as complete or reject the application. If the Board finds the application meets the requirements, the application shall be accepted as complete. If the Board determines that the application does not conform to the applicable requirements, it shall notify the applicant in writing enumerating the grounds for rejection.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42820, 42821, 42822, 42830, 42832 and 42833, Public Resources Code and Sections 15376 and 65943, Government Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Renumbering of former article 3 to article 2 and amendment of section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18424. Amendments to Application.

(a) At any time after an application for a waste tire facility permit has been made and before issuance or denial of a permit or revision thereof, the applicant shall notify the Board of any changes to the required information on the application. Such notice shall be given by the filing of an amendment to the application.

(b) If the Board determines that the amendment significantly alters the nature of the application, the Board may deem the amendment a new application. The new application shall supersede the previous application. In this case the time for the Board to act on the new application shall be computed from the date of filing of the amendment.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42820, 42821, 42822, 42830, 42832 and 42833, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of subsection (a) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

Article 3. Permit Issuance, Renewal, Revision, Revocation, Denial, Suspension, Reinstatement, Change of Owner, Operator, and/or Address

§ 18425. Permit Issuance.

(a) With the exception of subsection (d), within 180 days of accepting a completed application, the Board shall either issue a permit or deny the issuance of a permit in accordance with Subsections (b) and (c), respectively, unless the applicant requests an extension of time.

(b) Upon the applicant's compliance with this Chapter, the Board may make findings and issue the permit as provided in this Article. The permit shall specify the conditions under which the waste tire facility shall comply with this Chapter.

(c) If the Board denies the issuance of a permit, it shall accompany its denial with a written explanation of its action.

(d) If the Board is lead agency for the project, as defined in Government Code section 65929, for which an environmental impact report must be prepared pursuant to PRC section 21100, the Board shall have one year, from the date the application was accepted as complete, to issue or deny the issuance of a permit in accordance with subsections (b) and (c), respectively. If there has been an extension of time pursuant to PRC section 21100.2 to complete and certify the environmental impact report, the Board shall issue a permit or deny the issuance of a permit in accordance with subsections (b) and (c), respectively, within 90 days after certification of the environmental impact report. This extension of time may be extended once for an additional period, not to exceed 90 days, upon consent of both the applicant and the Board.

(e) A copy of the current permit shall be made available upon request to the Board or an authorized employee or agent of the Board during an inspection of the facility.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42821, 42822, 42832, 42833, 42840 and 42841, Public Resources Code and Sections 15376 and 65920–65961, Government Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Editorial correction of printing error in article heading (Register 93, No. 5).
6. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
7. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
8. Editorial correction of HISTORY 4 (Register 93, No. 26).
9. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsection (d) and adoption of subsection (f) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
10. Renumbering and amendment of former article 4 to article 3, repealer of subsection (e), subsection relettering and amendment of NOTE filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18426. Permit Renewal.

(a) Except as provided in Section 18429, of this Chapter every permit shall expire five years after its issuance, renewal, or most recent revision.

(b) At least 395 days prior to the expiration of an existing waste tire facility permit, the operator shall submit a completed original application for a waste tire facility permit and two (2) copies to the Board.

(c) Sections 18423 through 18425 of this Chapter shall apply to the submittal and review of the application for renewal and the issuance of a permit.

(d) If the Board determines upon review of the application for renewal that revision of the permit is not required, it shall inform the applicant of its decision and the basis for its decision.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42820, 42821, 42822, 42830, 42832, 42833, 42840 and 42841, Public Resources Code and Section 15376, Government Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18427. Permit Revision.

(a) Any permittee proposing to make a substantial change in the design or operation of the waste tire facility, the operator of the waste tire facility shall apply for a revision of the permit. The application shall be made in the manner specified in sections 18423 and 18424 of Article 2.

Except as otherwise provided in this section, the application shall be handled in the same manner as an application for a new permit.

(b) The Board may require the permittee to submit an application for revision if the revision is required to reflect changed state or federal statutes or regulations applicable to the facility.

(c) Except as provided in Paragraph (b) of this section, the permittee may at any time withdraw an application by submitting a written request to the Board.

(d) The permittee shall notify the Board in writing of each administrative change no later than seven (7) business days after the change is effective. Administrative changes shall include but are not limited to, changes to any information in the application that does not apply to the design or operation of the facility.

(e) The Board will review the information provided and determine whether or not a permit revision is required. The applicant shall be notified in writing if the information is incomplete or if it is determined that a permit revision is required. If the owner/operator has satisfied all the requirements, Board staff will make applicable administrative changes to the permit and forward the applicable pages of the permit to the permittee.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 21068, 21082.2, 42820, 42822, 42830 and 42833, Public Resources Code and Sections 15002, 15064 and 15382, State CEQA Guidelines, Title 14, CCR.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.

4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of section heading and text transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of section heading, section and NOTE filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18428. Change of Owner, Operator, and/or Address.

Owners and/or operators of a facility who plan to sell, encumber, transfer or convey the ownership or operation of the facility or land to a new owner or operator, or who plan to change their address shall notify the Board 30 days prior to the date of the planned transaction. The new owner or operator is required to submit the following information:

(1) Names(s), address(es), where notice can be sent and phone numbers(s) of the new owner/operator;

(2) Documentation that the new owner/operator meets the financial assurance and operating liability requirements, when applicable;

(3) A signed affidavit certifying that the owner/operator has read the governing permit and conditioning documents and will operate in accordance with the terms and conditions of the existing WTFP and conditioning documents and that all new information submitted is correct; and

(4) Amendments to the application package to reflect the change in owner/operator, and/or facility name.

The Board staff will make the applicable administrative changes to the permit and forward the applicable pages of the permit to the permittee.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42820 and 42830, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14). For prior history, see Register 93, No. 45.

Article 3.5. Enforcement Criteria for Waste Tire Facilities

§ 18429. Penalty Schedule for Administrative Complaints.

(a) Unpermitted Waste Tire Facilities:

(1) Determine in Table 1 whether or not this act is negligent or intentional, and whether is it the first, second, or third offense (intentional only). Match it up to the amount of tires at the site, and determine the base fine. Table 1 is to be used for violations of Public Resources Code, sections 42823, 42824, 42833, 42834, and California Code of Regulations, section 18420(a). Multiply the base fine by the applicable risk factor in Table 2A or Table 2B, dependent upon whether it is negligent or intentional, and determine the total fine/day that will be set. Multiply the total fine/day by the number of days past due with the Clean Up & Abatement Order deadline.

Table 1#

Type Of Site/Operator	*500–4,999 Tires*	*5,000–9,999 Tires*	*10,000–19,999 Tires*	*20,000–49,999 Tires*	*50,000 or More Tires*
Negligent–Capacity					
Unpermitted WTF	$500	$1,000	$1,500	$2,000	$3,000
Unpermitted WTF (*2nd Offense, etc.*)	$2,000	$2,500	$3,000	$3,500	$4,000
Intentional–Capacity					
Unpermitted WTF	$1,000	$2,000	$3,000	$4,000	$6,000
Unpermitted WTF (*2nd Offense*)	$4,000	$5,000	$6,000	$7,000	$8,000
Unpermitted WTF (*3rd Offense, etc.*)	$6,000	$7,000	$8,000	$9,000	$10,000

Total amount of penalty not to exceed maximum amounts specified in PRC sections 42825 and 42835.

Table 2A

Enhancement Issue–Negligent Act	*Risk Factor*
Serious threat to Public Health and Safety, or the Environment. Residential homes, freeway/major roads, lakes, rivers, waterways and airports within 1,000 feet.	1.00
Moderate threat to Public Health and Safety, or the Environment. Residential homes, freeway/major roads, lakes, rivers, waterways and airports within one mile, but more than 1,000 feet.	0.75
No potential threat to Public Health and Safety, or the Environment.	0.50

Table 2B

Enhancement Issue–Intentional Act	*Risk Factor*
Serious threat to Public Health and Safety, or the Environment. Residential homes, freeway/major roads, lakes, rivers, waterways and airports within 1,000 feet.	1.5
Moderate threat to public health and safety, or the environment. Residential homes, freeway/major roads, lakes, rivers, waterways and airports within one mile, but more than 1,000 feet.	1.25
No potential threat to public health and safety, or the environment.	1.00

(b) Permitted Waste Tire Facilities:

(1) Determine in Table 3 whether or not this act is negligent or intentional, and whether is it the first, second, or third offense. Match it up to the amount of tires exceeding the permitted capacity at the site, and determine what the base penalty is. Table 3 is to be used for violations of the California Code of Regulations, sections 17351(c) and 17354 (a) & (b), or permit capacity only. Multiply the base penalty by the applicable risk factor in Table 4A or Table 4B and multiply that number by the amount of days past the Clean Up & Abatement Order deadline to determine the total fine. Determine what other types of violations were observed in Table 5, determine the appropriate penalty amount –in accordance with the criteria established in PRC section 42852, and add these penalties to the total fine.

Table 3#
(For Violations Of 17351(c), 17354 (a) & (b), Or Permit Capacity only)

Type Of Site/Operator	*1–4,999 Tires**	*5,000–9,999 Tires**	*10,000–19,999 Tires**	*20,000–49,999 Tires**	*50,000 or More Tires**
Negligent Capacity					
Permitted WTF	$500	$1,000	$1,500	$2,000	$3,000
Permitted WTF (*2nd Offense, etc.*)	$2,000	$2,500	$3,000	$3,500	$4,000
Intentional Capacity					
Permitted WTF	$1,000	$2,000	$3,000	$4,000	$6,000
Permitted WTF (*2nd Offense*)	$4,000	$5,000	$6,000	$7,000	$8,000
Permitted WTF (*3rd Offense, etc.*)	$6,000	$7,000	$8,000	$9,000	$10,000

* Over permitted capacity
# Total amount of penalty not to exceed maximum amounts specified in PRC sections 42825 and 42835.

Table 4A

Enhancement Issue–Negligent Act	*Risk Factor*
Serious threat to public health and safety, or the environment. Residential homes, freeway/major roads, lakes, rivers, waterways and airports within 1,000 feet	1.00
Moderate threat to public health and safety, or the environment. Residential homes, freeway/major roads, lakes, rivers, waterways and airports within one mile, but more than 1,000 feet.	0.75
No potential threat to public health and safety, or the environment.	0.50

Table 4B

Enhancement Issue–Intentional Act	*Risk Factor*
Serious threat to public health and safety, or the environment. Residential homes, freeway/major roads, lakes, rivers, waterways and airports within 1,000 feet.	1.5
Moderate threat to public health and safety, or the environment. Residential homes, freeway/major roads, lakes, rivers, waterways and airports within one mile, but more than 1,000 feet.	1.25
No potential threat to public health and safety, or the environment.	1.00

Table 5

Additional Penalties Type of Violations	*Range of Penalty*
14 CCR 17351(a) & (b) Communications and other site equipment	$500–$5,000
14 CCR 17352 Facility Access and Security	$500–$5,000
14 CCR 17353 Vector Control Measures	$500–$5,000
14 CCR 17354 [except (a)&(b)] Parameters For Storage of Waste Tires Outdoors	$500–$5,000
14 CCR 17356 Indoor Storage Parameters	$500–$5,000
14 CCR 18427 Permit Revision	$500/day (minor) $1,000/day (major)
14 CCR 18470 Financial Assurance Requirements for Closure	$500–$5,000
Violation of any Permit conditions (except capacity violation)	$500–$5,000
14 CCR 18423(a) Filing of Application	$500–$5,000
14 CCR 18440(a) Compliance with Section 18441	$500–$5,000
14 CCR 18440(b) Submit Updated Closure Plan	$500–$5,000
14 CCR 18440(c) Approval of Major WTF Closure Plan Prior to Closure	$500–$5,000
14 CCR 18440(d) Approval of Minor WTF Closure Plan Prior to Closure	$500–$5,000
14 CCR 18440(e) Immediate Closure	$500–$5,000
14 CCR 18441(a) Closure Procedures	$500–$5,000
14 CCR 18443(d) Inspection Access	$500–$5,000

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Section 42825, 42835, 42850 and 42852, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. New article 3.5 (section 18429) and repealer and new section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18430. Reinstatement of Suspended and Revoked Permits.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42820, 42830 and 42841, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

Article 4. Permit Application

§ 18431. Application.

An application for a new permit or an application for renewal or revision of an existing permit, for a major waste tire facility, shall include items (a) through (h) of this section. An application for a new permit or an application for renewal or revision for a minor waste tire facility permit shall include items (a) through (d) and (h) of this section.

(a) A complete form CIWMB 500 "Waste Tire Facility Permit Application" (9/02), which is incorporated herein by reference. (See Appendix A.)

(b) A completed form CIWMB 501 "Waste Tire Facility Operation Plan" (9/02) as specified in section 18432 of this Article, which is incorporated herein by reference. (See Appendix A.)

(c) A completed form CIWMB 502 "Waste Tire Facility Environmental Information" (9/02) which is incorporated herein by reference. (See Appendix A.)

(d) A completed form CIWMB 503 "Waste Tire Facility Emergency Response Plan" (9/02) as described in section 18433 of this Article. This form is incorporated herein by reference. (See Appendix A.)

(e) A completed form CIWMB 504 "Waste Tire Facility Closure Plan" (9/02). This form is incorporated herein by reference. (See Appendix A.)

(f) A completed Reduction/Elimination Plan as specified in section 18434 of this Article.

(g) Financial assurance mechanisms and operating liability as specified in Articles 9 and 10 of this Chapter. These Article 9 and 10 forms are incorporated herein by reference. (See Appendix A.)

(h) Verification that applicable local, state, and federal permits and approvals have been acquired by the applicant.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 21068, 21082.2, 42821 and 42832, Public Resources Code, Sections 15002, 15064 and 15382, State CEQA Guidelines and Sections 65940 and 65941, Government Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsections (a)–(e) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
10. Renumbering of former article 5 to article 4 and amendment of section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18432. Operation Plan.

(a) The Operation Plan, as required by 18431(b) shall demonstrate conformance with the technical standards contained in 14 CCR, Division 7, Chapter 3, Article 5.5.

(b) The operator shall file amendments to the Operation Plan whenever necessary to keep the information contained in it current.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 41700, 42821 and 42832, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (b) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
10. Amendment filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18433. Emergency Response Plan.

(a) The operator of the waste tire facility shall maintain a copy of the Emergency Response Plan at the facility. At the time of permit issuance the approved Emergency Response Plan shall be forwarded to the local fire authority by the permittee. The plan shall be revised as necessary to reflect any changes in the operations of the waste tire facility or requirements of the local fire authority. The local fire authority and the Board shall be notified of any changes to the plan within 30 days of the revision.

(b) The operator of the facility shall immediately notify the Board in the event of a fire or other emergency if that emergency has potential significant off–site effects. Within 30 days of any such emergency, the operator shall submit to the Board a written report describing the cause(s) of the emergency, the results of actions taken, and an analysis of the success or failure of these actions.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42821 and 42832, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).

6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (a) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
10. Amendment filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18434. Reduction/Elimination Plan.

(a) The operator of a major waste tire facility shall submit a detailed plan and implementation schedule for the elimination or substantial reduction of existing tire piles pursuant to Public Resources Code section 42821(b).

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18435. Closure Plan.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42821 and 42832, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

Article 5. Closure

§ 18440. Closure Commencement.

(a) The operator of a major or minor waste tire facility shall comply with the requirements of section 18441 of this Article when closing the waste tire facility.

(b) The operator of a major waste tire facility shall submit to the Board for approval an updated Closure Plan (Part B), Form CIWMB 504 (9/02) as specified in section 18442 of this Article, at least 120 days prior to the anticipated closure of the site. This time period shall not apply to facilities required to close in accordance with subsection (e).

(c) The operator of a major waste tire facility shall receive approval in writing from the Board of the updated Closure Plan, prior to beginning closure of the site.

(d) Operators of minor waste tire facilities shall receive written approval from the Board concerning the final planned disposition of waste tires prior to commencing closure. Approval shall be based upon the criteria in section 18441(a)(3) of this Article.

(e) The operator of a major or minor waste tire facility shall cease to accept waste tires and shall immediately begin closure of the site in compliance with any closure conditions established in the permit and these regulations, and shall notify the Board in writing upon commencement, after receiving written approval from the Board in accordance with subsections (c) and (d), if:

(1) The waste tire facility permit expires and renewal of the permit is not applied for, or it is revoked or denied; or

(2) A Board order to cease operation is issued; or

(3) The operator is unable to comply with the Articles in this Chapter or Article 5.5 of Chapter 3.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42821 and 42832, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Renumbering of former article 6 to article 5 and amendment of subsection (b) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18441. Closure Conditions.

(a) In closing the waste tire facility, the operator shall:

(1) Close public access to the waste tire facility;

(2) Post a notice at the entrance indicating to the public that the site is closed and the location of a site where waste tires can be deposited;

(3) Remove all waste tires and tire residues in accordance with Article 8.5 of this Chapter to a destination facility(s) approved by the Board in the Closure Plan. Board approval of destination facilities, within the state, shall be based on the following criteria:

(A) Destination facilities eligible for approval by the Board shall use one or more of the methods delineated in Public Resources Code section 42821(b). If waste tires are transported first to a collection facility, the operator of the closing facility shall provide documentation to the Board

that the waste tires shall be transported from the collection facility to a destination facility approved by the Board within 90 days of receipt of each shipment of waste tires from the closing facility.

(B) A Collection or destination facility shall meet the requirements of subsection (A), and the requirements associated with any of the following facility types:

(i) the facility is a solid waste disposal facility permitted in accordance with section 18420(a) of Article 1; or

(ii) the facility is a major or minor waste tire facility permitted under this Chapter; or

(iii) the facility meets at least one of the requirements of section 18420(a)(2) and (4)–(6) of Article 1 and it meets the requirements of section 18420(b) of Article 1.

(4) Remove any debris to a recycling facility or a permitted solid waste disposal site; and

(5) Notify the Board when the closure activities are completed and the site is ready for inspection, and furnish the Board with manifests and trucking receipts or other documentation that tires and tire residues have been removed from the site and disposed of properly.

(b) After receiving notification that site closure is complete, the Board may inspect the site. If all procedures have been completed in accordance with these regulations, and the waste tires have been transported to an approved destination facility if the waste tires were first transported to a collection facility as specified in section 18441(a) of this Article, the Board shall approve the closure of a major waste tire facility in writing.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42821 and 42832, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of subsections (a)(3)–(a)(3)(B)(i), (a)(3)(B)(iii) and (a)(5) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18442. Closure Plan.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42821 and 42832, Public Resources Code.

HISTORY

1. New section filed 11–3–93; operative 11–3–93 (Register 93, No. 45).
2. Repealer filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

Article 6. Inspection of Waste Tire Facilities

§ 18443. Inspection.

(a) The Board and/or the Enforcement Agency (EA) for the jurisdiction in which the waste tire facility is located shall inspect waste tire facilities for compliance with the applicable waste tire storage and disposal standards and any terms and conditions specified in the waste tire facility permit.

(b) Prior to the initial issuance, renewal or revision of a major or minor waste tire facility permit the Board or the EA shall inspect the facility. After the issuance of a permit, a major waste tire facility shall be inspected by the EA at least once annually. Minor waste tire facilities shall be inspected at least once every two and a half years.

(c) Reports of inspections conducted by the EA shall be submitted to the Board within 30 days of the date of inspection. If the inspection identifies a violation of the permit that is an endangerment to public health, safety or the environment, the EA shall file an inspection report within 7 days of the inspection.

(d) Upon presentation of proper credentials, the Board or an authorized Board employee or agent, shall be allowed to enter the facility during normal working hours to examine and copy books, papers, records, or memoranda pertaining to the facility, and to conduct inspections and investigations pertaining to the facility.

NOTE: Authority cited: Sections 40502, 42820, 42821, 42830 and 42832, Public Resources Code. Reference: Sections 42825, 42834, 42835 and 42845, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. Editorial correction reinserting article 7 heading (Register 92, No. 40).
5. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
7. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
8. Editorial correction of HISTORY 5 (Register 93, No. 26).
9. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
10. Renumbering of former article 7 to article 6 and amendment of section and NOTE filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

Article 7. Records

§ 18445. Record Keeping.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42820 and 42830, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Renumbering of former article 8 to article 7 filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18447. Retention of Records.

Copies of all records required to be kept under this Chapter shall be retained by the operator for three (3) years at the place of business and shall be made available at the site during normal business hours for inspection and photocopy by any representative of the Board or any individual authorized by the Board.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42820, 42821, 42830 and 43832, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18448. Certification of Records.

(a) All records, summaries or reports submitted to the Board as required by this Chapter shall be signed by a person responsible for preparing and reviewing such documents as part of his or her duties in the regular course of business.

(b) Any person signing a document submitted under this Chapter shall make the following certification:

I certify that this document and all attachments were prepared under my direction or supervision. I have inquired of the person or persons who manage the system or those persons directly responsible for gathering the information, and certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete.

NOTE: Authority cited: Sections 40502, 42820 and 42830, Public Resources Code. Reference: Sections 42821 and 42832, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section, with amendments to CIWMB 154, refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments of subsection (a) and repealer and adoption of forms transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect moving forms to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
10. Amendment of NOTE filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

Article 8.5. Waste Tire Hauler Registration and Manifesting Requirements for Used and Waste Tire Haulers, Retreaders, Used and Waste Tire Generators, and Used and Waste Tire End–Use Facilities

§ 18449. Scope.

(a) This Article specifies the procedures for waste tire hauler registration and tire manifest system requirements for waste tire haulers, retreaders, waste tire generators, and end–use facilities, including reporting and documentation requirements.

(b) In addition to the regulations in this article, statutory provisions contained in Sections 42950 through 42967 of the Public Resources Code govern the Waste Tire Hauler Registration Program.

(c) This article contains different reporting provisions for retreaders than for other waste tire haulers. However, the Board's new Comprehensive Trip Log reporting system will apply the same provisions to retreaders as to other waste tire haulers. In order to provide a transition period for retreaders, the existing provisions will continue to apply to retreaders during the period of time that emergency Comprehensive Trip Log provisions are in effect. However, upon the effective date of non–emergency Comprehensive Trip Log provisions in this Article, the Retreader Trip Log shall no longer be a valid CIWMB form and retreaders shall not be required to comply with sections 18450(a)(12), (19), and (20), 18456.2.1, 18459.2.1(b), 18460.2.1, and 18461(a)(1). The three year record retention provision in sections 18459.3(b)(1) and 18462(b)(1) shall continue to apply to retreaders.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Section 42950 et seq., Public Resources Code.

HISTORY

1. New Article 8.5 (sections 18449–18462.2) and section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New article 8.5 and section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New article 8.5 and section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New article 8.5 and section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including repealer and new section heading, and amendment of section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of article heading, repealer and new subsection (a) and amendment of subsection (b) filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Amendment of article heading and subsection (a) filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
8. Amendment of article heading and subsection (a) refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
9. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
10. Amendment of article heading and subsection (a) filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
11. Amendment of article heading and subsection (a) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.

12. Certificate of Compliance as to 4–25–2005 order, including new subsection (c), transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).

13. Amendment of article heading and subsection (a) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.

14. Amendment of article heading and subsection (a) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.

15. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18450. Definitions.

(a) For the purposes of this Article, the definitions found in: Public Resources Code Sections 42950–42967; and Chapter 3, Article 4.1, of this Division (commencing with Section 17225.701); and the following shall apply:

(1) "Board" means the California Integrated Waste Management Board.

(2) "Bond" means a surety bond issued by a California admitted insurance carrier.

(3) "Business Name" means the name of the operation registered with the local government of the State of California; the business license name.

(4) "Calendar Year" means January 1 through December 31 of any year.

(5) "CIWMB" means the California Integrated Waste Management Board.

(6) "Civil Penalty" means a fine assessed as a result of a violation of an applicable provision.

(7) "Collection Center" See Facility.

(8) "Commingled" means inextricably mixed together, in that the waste components cannot be economically or practically separated.

(9) "Comprehensive Trip Log" means the California Uniform Waste and Used Tire Manifest System form developed by the Board pursuant to Public Resources Code, section 42961.5. The Comprehensive Trip Log is attached hereto as Appendix A (CIWMB 203, 03/05) and incorporated by reference herein.

(10) "Electronic report" means electronic submittal of manifest information to the CIWMB by means of Electronic Data Transfer or Web–based data entry in accordance with the requirements set forth in § 18459.1.2.

(11) "EDT Form" means a paper reporting form, approved by the Board, that is used by the hauler or responsible party for reporting manifest information in lieu of the required Comprehensive Trip Log. The EDT Form will contain the information required on the Comprehensive Trip Log.

(12) "End–Use Facility" means the facility where used or waste tires are unloaded.

(13) "Facility" means a waste tire facility, as defined in Public Resources Code Section 42808, a landfill authorized pursuant to Public Resources Code Section 42866, a facility authorized to accept used or waste tires pursuant to a state or local agency permit, or a facility which lawfully accepts used or waste tires as authorized under Title 14, Section 18420.

(14) "Incidental Revenue" means 10% or less of total annual revenue for purposes of Public Resources Code Section 42954(a)(7).

(15) "Invoice" means a document provided by a Retreader that contains the date of the transaction, the name of the customer and address, the Tire Program Identification Number of the generator or end use facility, the name of the retreader and address, the quantity of tire casings shipped.

(16) "Load" means a single transaction (a pick up or delivery) of used or waste tires between the hauler and generator or the hauler and end–use facility. There may be one or more loads on a trip.

(17) "Local Government" means a county, city, city and county, special district, joint powers agency or other political subdivision of the state.

(18) "Manifest Form" means the California Uniform Waste and Used Tire Manifest Form developed by the Board that shall be completed by the waste tire hauler, waste tire generator, or facility, which shall accompany each shipment of used or waste tires. The Manifest Form is attached hereto as Appendix A (Form #647, 01/03) and incorporated by reference herein.

(19) "New Tire Adjustment" means return or replacement of a new tire that is defective or damaged.

(20) "Person" includes an individual, sole proprietorship, co–partnership, Limited Liability Company, corporation, political subdivision, government agency, or municipality.

(21) "Place of Business" means the actual physical location where waste or used tires are picked up from, delivered to, or stored.

(22) "Registered Vehicle Owner" means the person in whom title is vested and/or to whom the vehicle is registered with the Department of Motor Vehicles for any jurisdiction, domestic and foreign, in which the vehicle is registered.

(23) "Retreader" means a business, person, entity, individual, sole proprietorship, co–partnership, Limited Liability Company, corporation, who is in the business of retreading or recapping tire casings for reuse. The Retreader shall have a Manufacturer 3–Digit Identification issued by the United States Department of Transportation pursuant to Title 49, Code of Federal Regulations, § 574.5. A completed original form CIWMB 173 (4/04) "Retreader Self–Certification" which is attached hereto as Appendix A (CIWMB 173, 4/04) and incorporated by reference herein shall be completed by the Registered Waste Tire Hauler before being deemed by CIWMB to be a self–certified retreader. Notwithstanding provisions of the manifesting requirements, the Retreader is a registered waste tire hauler and shall comply with all waste tire hauler requirements.

(24) "Retreader Trip Log" means the California Retreader Trip Log developed by the Board that shall be completed by the Retreader and shall accompany the tire casings during shipment for inspection, retreading or recapping. For the purposes of the Retreader Trip Log, this form shall only be used during the shipment of tire casings from the generator to the Retreading facility and on the return trip back to the generator, and the ownership of the tire casing(s) shall not change during either shipment. The Retreader Trip log meets the intent of Public Resources Code, section 42961.5 and is attached hereto as Appendix A (CIWMB 180, 03/04) and incorporated by reference herein.

(25) "Revenue" is annual net income earned.

(26) "Tire casing" is the carcass of a reusable tire that after inspection can be retreaded or recapped by a Retreader.

(27) "Tire Trip Log" means the California Uniform Waste and Used Tire Trip Log developed by the Board that shall be completed by the waste tire hauler and shall accompany the waste tire hauler for each shipment of used or waste tires. The Tire Trip log is attached hereto as Appendix A (Form #648, 01/03) and incorporated by reference herein.

(28) "Trip" means the hauling of waste or used tires that begins with a waste tire hauler's first pick–up of used or waste tires from a generator and ends with the hauler's last delivery of used or waste tires to an end–use facility, but in no case shall a trip exceed five (5) consecutive days.

(29) "Unregistered Hauler & Comprehensive Trip Log Substitution Form" is the form to be completed by the generator and end use facility pursuant to the requirements set forth in §§ 18461(b) and 18462(c). The Unregistered Hauler & Comprehensive Trip Log Substitution Form is attached hereto as Appendix A (CIWMB 204, 03/05) and incorporated by reference herein.

(30) "Used and Waste Tire Generator" means any person who provides used or waste tires to a waste tire hauler; including, but not limited to auto dismantlers and automotive fleet service centers.

(31) "Vehicle Description" includes the year, the model, the make of the vehicle, Vehicle Identification Number as defined in California Ve-

hicle Code Section 671, and Vehicle License Plate Number, including state of issuance, as defined in California Vehicle Code Section 4850(a).

(32) "Waste Tire Hauler Decal" is a decal issued by the Board, printed on specially prepared paper with a unique number, for affixing to the lower right hand corner of the windshield.

(33) "Waste Tire Hauler Registration" means the documents, including the decal and registration form, issued by the Board, which authorizes the holder of the documents to legally haul waste tires within California for the period of issuance.

(34) "Waste Tire Manifest System" means the California Uniform Waste and Used Tire Manifest System which includes the Comprehensive Trip Log, Retreader Trip Log, Manifest, and Tire Trip Log forms developed by the Board and all procedures and regulations applicable to the transportation of the used or waste tires from point of origin to final destination of the used or waste tires.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. New subsections (a)(12), (a)(19), (a)(20) and (a)(22) and subsection renumbering filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
8. Refiling of 8–23–2004 emergency, including new Appendix A, 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
9. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
10. New subsections (a)(12), (a)(19), (a)(20) and (a)(22), subsection renumbering and new Appendix A filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
11. Editorial correction relocating forms CIWMB 173 and CIWMB 180 from section 18450 to section 18831, Appendix A (Register 2005, No. 24).
12. New subsections (a)(9)–(a)(11), (a)(21) and (a)(29), subsection relettering and amendment of newly designated subsections (a)(18), (a)(23), (a)(24), (a)(26), (a)(30) and (a)(34) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
13. Certificate of Compliance as to 4–25–2005 order, including amendment of subsections (a)(15), (a)(19) and (a)(26), transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
14. New subsections (a)(9)–(a)(11), (a)(21) and (a)(29), subsection relettering and amendment of newly designated subsections (a)(18), (a)(23), (a)(24), (a)(26), (a)(30) and (a)(34) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
15. New subsections (a)(9)–(a)(11), (a)(21) and (a)(29), subsection relettering and amendment of newly designated subsections (a)(18), (a)(23), (a)(24), (a)(26), (a)(30) and (a)(34) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
16. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18451. Applicability of These Regulations.

(a) Waste tire haulers, retreaders, waste tire generators, and end–use facilities shall comply with these regulations, unless exempted by Section 42954 of the Public Resources Code and applicable procedures set forth in Sections 18453–18453.2.

(b) The return of new tire adjustments to the wholesale distributor or manufacturer under "warranty consideration" is not considered used or waste tire hauling for the purposes, implementation, and enforcement of this Article. The person transporting the tires must have in the vehicle documentation substantiating that the tires are being returned for "warranty consideration." Lack of documentation or false information will subject the transporter to enforcement and penalties under this Article.

(c) "Tire Derived Product" being transported from the processing facility to the end–use facility is not considered used or waste tire hauling for the purposes, implementation, and enforcement of this Chapter. The hauler shall have a copy of the letter issued by the Board to the processing facility stating that the material is "Tire Derived Product" and a bill of lading accompanying the load. The letter and bill of lading shall be carried in the vehicle while transporting the "Tire Derived Product" from the processing facility to the end–use facility. Lack of documentation or false information will subject the transporter to enforcement and penalties under this Chapter.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. New subsections (b)–(b)(6) filed 9–10–96; operative 9–10–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 37).
7. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
8. Amendment of subsection (a) filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
9. Amendment of subsection (a) refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
10. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
11. Amendment of subsection (a) filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
12. Amendment of subsection (a) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
13. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
14. Amendment of subsection (a) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
15. Amendment of subsection (a) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.

16. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18452. Exemptions from Registration As a Waste Tire Hauler.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Section 42954, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and subsections (a), (a)(3), (a)(4), and (b) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Repealer filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18453. Exemption Certification for Agricultural Purposes or Common Carrier Hauling Used or Waste Tires on a Return Trip.

(a) A person wishing to qualify for an exemption from waste tire hauler registration under Public Resources Code Section 42954(a)(5) and 42954(a)(6) shall certify in writing to the Board under penalty of perjury that they qualify for an exemption from registration as a waste tire hauler for agricultural purposes or under the common carrier exemption. This certification shall contain the following information:

(1) The name of the individual and/or business.

(2) The mailing address for the individual and/or business.

(3) The name of the contact person.

(4) The telephone number of the contact person.

(5) The number of vehicles used.

(6) The description of the business operation.

(7) A certification statement by the operator as follows: "The undersigned certifies under penalty of perjury under the laws of the State of California that the information provided herein is true and correct."

(8) The name and signature of the authorized agent on behalf of the business.

(9) The date of certification.

(b) Upon receipt of the certification letter, the Board will notify the applicant within 30 days if the certification for exemption is either:

(1) incomplete, and if so, what specific information is required.

(2) granted

(3) denied, and if so, the reason(s) for denial.

(c) If the agricultural purposes exemption or common carrier exemption is granted, the Board shall issue a non–transferable exemption document to be carried in the vehicle(s) used to transport the used or waste tires.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Section 42954, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and NOTE transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Amendment of subsection (a) filed 7–21–2004; operative 7–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).
8. Editorial correction restoring inadvertently omitted section (Register 2006, No. 47).

§ 18453.1. Cost to Receive an Exemption from Waste Tire Hauler Registration.

No fee is to be paid to the Board to certify an exemption from waste tire hauler registration.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Section 42954, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Editorial correction restoring inadvertently omitted section (Register 2006, No. 46).

§ 18453.2. Valid Exemption Period and Renewal.

(a) An exemption as described under Public Resources Code Section 42954(a)(5) and 42954(a)(6) shall be valid from the date of approval to January 1 of the following year provided that the information in the certification letter relied upon to qualify for the exemption remains unchanged.

(b) A person wishing to continue to qualify for an exemption from waste tire hauler registration under Section 42954(a)(5) and (a)(6) of the Public Resources Code shall re–certify to the Board on an annual basis, and in accordance with the requirements in Section 18453.

(c) All exemption certifications must be submitted 45 days prior to the expiration date. Renewed exemptions are valid for one calendar year, January 1 to January 1 of the following year.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Section 42954, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and newly designated subsection (a), and new subsections (b) and (c) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

6. Amendment filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Amendment of subsections (a)–(b) filed 7–21–2004; operative 7–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).
8. Amendment of subsection (b) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
9. Amendment of subsection (b) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
10. Amendment of subsection (b) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18453.3. When Should an Exemption Be Renewed?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Section 42954, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including repealer of section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18454. Waste Tire Hauler Initial Registration.

(a) Any person hauling 10 or more used or waste tires shall apply for a waste tire hauler registration, unless exempt pursuant to Section 18451, by submitting to the Board a completed original form CIWMB 60 (3/06) "Waste Tire Hauler Registration Application," which is attached hereto as Appendix A (Form #60, 3/06) and incorporated by reference herein and form CIWMB 61 "Waste Tire Hauler Bond" (2/02), which is attached hereto as Appendix A (Form #61, 2/02) and incorporated by reference herein.

(1) For purposes of Public Resources Code Section 42960, it is presumed that any person transporting used or waste tires under a valid registration issued by the Board is an agent of the registered waste tire hauler.

(b) An application may be submitted at any time.

(c) The initial waste tire hauler registration is valid form the date of issuance to January 1 of the following year.

(d) The waste tire hauler is not authorized to haul used or waste tires after the January 1 expiration date unless the waste tire hauler has applied to renew the waste tire hauler registration prior to expiration and has received the Board issued renewal registration card(s) and vehicle decal(s).

(e) There is no fee paid to the Board to apply for an initial waste tire hauler registration.

(f) The registration care and/or decal issued to a specific vehicle shall not be used for any vehicle not listed by the registered hauler.

(g) A used and waste tire hauler registration is not transferable by the person to whom it was issued to any other person.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including repealer of section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18454.4. How Do I Obtain an Initial Waste Tire Hauler Registration?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42955 and 42956, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Change without regulatory effect amending section filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
6. Certificate of Compliance as to 1–18–95 order including repealer of section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18454.5. Are There any Costs for the Initial Waste Tire Hauler Registration?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42955 and 42956, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including repealer of section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18455. Waste Tire Hauler Renewal Registration.

(a) Any person may apply for renewal of a waste tire hauler registration by submitting to the Board a new completed form CIWMB 60. If the waste tire hauler bond has expired or has been cancelled, a new bond must also be submitted with the renewal application.

(b) All renewed waste tire hauler registrations expire annually on January 1.

(c) All waste tire haulers who wish to continue to operate as waste tire haulers shall submit application for a renewed waste tire hauler registration to be received by the Board no later then 45 days prior to the January 1 expiration date.

(d) The waste tire hauler is not authorized to haul used or waste tires after the January 1 expiration date unless the waste tire hauler has applied to renew the waste tire hauler registration prior to expiration and has received Board issued renewal registration card(s) and vehicle decal(s).

(e) There is no fee paid to the Board to apply for a renewed waste tire hauler registration.

(f) The registration card and/or decal issued to a specific vehicle shall not be used for any vehicle not listed by the registered hauler.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42955, 42956 and 42958, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading, repealer of section and new section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18455.1. How do I Renew the Waste Tire Hauler Registration?

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading, repealer of section, renumbering and amendment of former section 18456.1 to subsection (a), new subsection (b), renumbering and amendment of former section 18456.2 (a) through (a)(i) to subsection (c) through (c)9. and amendment of NOTE transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Amendment of subsection (a) filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
8. Amendment of subsection (a) refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be

transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.

9. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).

10. Amendment of subsection (a) filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.

11. Amendment of section heading and section filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.

12. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).

13. Amendment of section heading and section refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.

14. Amendment of section heading and section refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.

15. Change without regulatory effect amending section filed 4–11–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 15).

16. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18456.1. Waste Tire Hauler Surety Bond Application Process.

(a) The initial application shall be accompanied by an original surety bond in the amount of $10,000 on behalf of the business owner in favor of the State of California ("surety bond"). The surety bond shall be completed by the insurance agent or bonding agent on form CIWMB 61 "Waste Tire Hauler Bond" (2/02), which is incorporated herein by reference. The surety bond shall be issued in the business name of the business owner as it appears on the application for registration as a waste tire hauler. The surety bond must be signed by a representative of the applicant.

(b) The surety bond shall remain in full force and effect during all registration periods. Failure to maintain an adequate bond pursuant to Public Resources Code 42955(d), shall result in automatic cancellation of the waste tire hauler registration. The cancelled registration may be reinstated by the Board when a new surety bond is posted.

(c) The surety company shall be licensed by the California Department of Insurance to transact the business of surety bonding in the State of California as an admitted insurance carrier.

(d) If coverage is not available as specified in (c) above, the waste tire hauler may seek coverage by a surety which, at a minimum, shall be eligible to provide surety bonds as an excess or surplus lines surety in California.

(e) If coverage is obtained as described in section (d), the surety shall be transacted by and through a surplus line broker currently licensed under the regulations of the California Department of Insurance and upon the terms and conditions prescribed in the California Insurance Code (CIC), Division 1, Part 2, Chapter 6.

(f) The Board or its designee may reasonably object to the use of any surety at anytime, whether before or after placement of coverage based on information obtained from, but not limited to, the Surplus Line Association of California, Best's Insurance Reports, and/or the Non–Admitted Insurers Quarterly List.

(g) The surety company shall become liable under the terms of the bond if the Board determines that the waste tire hauler has failed to comply with the provisions of Public Resources Code Section 42950 et. seq. or these regulations. The registered waste tire hauler is jointly and severally liable for the bond amount and any penalties, clean–up costs, or judgments resulting from hauling activities in violation of the Public Resources Code that exceed the bond amount.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955 and 42958, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including repealer and new section heading, movement of former section text to section 18456(a), renumbering and amendment of former section 18456.2(b) and (c) to section 18456.1 (a) and (b), renumbering and amendment of former section 18456.4 (a) through (f) to section 18456.1 (c) through (h) and amendment of NOTE transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18456.2. Waste Tire Hauler Registration Process.

(a) The Board shall inform an applicant in writing within 30 days from the date of receipt that the application is any of the following:

(1) incomplete and what specific information is required to complete the application;

(2) complete and approved with registration documents and vehicle decals;

(3) denied and the reason(s) for denial pursuant to the Public Resources Code Section 42960.

(b) Upon approval of the initial or renewal application, the Board will provide proof of registration in the form of decals and registration cards to the waste tire hauler. The Board will issue a waste tire hauler registration card and decal for each vehicle identified in the application. The registration card shall be carried in the corresponding vehicle. The decal shall be permanently affixed to the lower right hand corner of the windshield.

(c) Registration cards and decals are not transferable from vehicle to vehicle. They shall be present in the vehicle to which they were issued.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42958, 42959, and 42961, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Change without regulatory effect amending subsections (a) and (b) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
6. Certificate of Compliance as to 1–18–95 order including repealer and new section heading, renumbering of former subsections (a) through (a)(i) to section 18456(c) through (c)(9), renumbering of former subsections (b) and (c) to section 18456.1(a) and (b), renumbering and amendment of former section 18456.6 to section 18456.2, new subsections (d) and (e) and amendment of NOTE transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
7. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18456.2.1. Retreader Self–Certification Process.

(a) The Board shall inform the applicant for retreader self–certification in writing within 30 days from the date of receipt of the Retreader Self–Certification form of the following:

(1) Whether the Self–Certification Form is complete;

(2) If the Board determines that the Self–Certification Form is incomplete, the Board shall inform the applicant what specific information is required to complete the Certification Form;

(b) Upon a Board determination that the Retreader Self–Certification is valid and complete, the Board will provide proof of Retreader Self–Certification in the form of decals and specifically designed Retreader registration cards to the Retreader for those vehicles either owned or leased by the retreader. The Board will issue a specifically designed Retreader registration card and decal for each vehicle identified by the Retreader. The Retreader registration card shall be carried in the corresponding vehicle. The decal shall be permanently affixed to the lower right hand corner of the windshield.

(c) Registration cards and decals are not transferable from vehicle to vehicle. They shall be present in the vehicle to which they were issued.

(d) If the Board determines at any time that the information in the Self–Certification Form is false, then the Board will deem the Self–Certification Form to be invalid, and will notify the applicant. In addition, the Board will determine whether an enforcement action is necessary.

(e) Upon invalidation of the Retreader self–certification, the Retreader shall immediately return all unused Retreader Trip Logs and Retreader registration card(s) for each vehicle registered under the Retreader's Registration to the Board.

(f) If the Retreader Self–Certification is invalidated, the Retreader shall not transport any tire casings unless in possession of a Comprehensive Trip Log (CIWMB 203) or tire trip log (CIWMB 648) and accompanying manifest (CIWMB 647) in accordance with Section 18459 requirements set forth for the waste tire hauler.

(g) If the Self–Certification is deemed invalid, any hauling of tire casings not in accordance with Subsection (f) will be a cause for denial, suspension, or revocation of the Waste Tire Hauler Registration.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42958, 42960 and 42961, Public Resources Code.

HISTORY

1. New section filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2005, No. 17).
4. New section filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
5. Amendment of subsection (f) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
7. Amendment of subsection (f) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
8. Amendment of subsection (f) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18456.3. Changes in Information Provided or Lost Registration Documents.

(a) The waste tire hauler shall file a supplemental application to add or remove vehicle(s) on form CIWMB 60. The application shall be filed and approved by the Board before a vehicle is allowed to haul used or waste tires.

(b) The Board shall inform the applicant in writing within 30 days that the application for an added vehicle is any of the following:

(1) incomplete and what specific information is required to complete the application;

(2) complete with registration document(s) and vehicle decal(s).

(3) denied and the reason(s) for denial.

(c) In the event of a change in ownership of the waste tire hauler business:

(1) The owner shall notify the Board in writing 45 days prior to the change in ownership.

(2) The new owner shall apply for and obtain a waste tire hauler registration in accordance with Section 18454.

(3) The new owner may begin hauling used or waste tires when he/she has received the registration documents and vehicle decal(s) from the Board.

(4) The Board will process the change in ownership in accordance with Section 18456.2.

(5) Registrations are nontransferable.

(d) Every registered waste tire hauler shall notify the Board in writing of any change in mailing address or phone number. Notice shall be given no more than ten (10) days after the change. The waste tire hauler shall inform the Board of the prior mailing address or phone number, the new mailing address and phone number, and the effective date of the change by mailing a letter to the California Integrated Waste Management Board, Special Waste Division, Hauler & Manifest Program, P.O. Box 4025, Sacramento, CA 95812.

(e) The registered waste tire hauler shall submit a renewal application for any vehicle(s) for which decal(s) or registration(s) documents were lost. The Board will process the application as a renewal application under Section 18456.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42956 and 42958, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including repealer and new section heading, renumbering and amendment of former sections 18456.9, 18456.10, 18456.11, 18456.12 and 18456.13 to section 18456.3 and amendment of NOTE transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Change without regulatory effect amending subsection (d) filed 4–11–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 15).

§ 18456.4. Temporary Registration of Alternate Vehicles.

(a) Upon request, the Board may issue a single temporary registration certificate, specifically assigned to that registered waste tire hauler, once the Board has deemed a new waste tire hauler application complete or at the time of the yearly renewal. This certificate, for the use of a temporary vehicle, shall bear the hauler's company name, address, registration number, unique decal number, and the year the certificate is valid.

(b) The certificate shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in section 830.1 or 830.2 of the California Penal Code, or any local public officer designated by the Board.

(c) The registered waste tire hauler shall notify the Board in writing within two (2) calendar days of when the temporary registration certificate is used. Written notification shall contain the following information:

(1) Company name
(2) Inoperable vehicle license plate number, if applicable
(3) Inoperable vehicle assigned decal number, if applicable
(4) Period of time required for temporary registration
(5) Reason for temporary use
(6) Temporary vehicle license plate number
(7) Make/model of the temporary vehicle

HISTORY

1. New section filed 5-28-2003; operative 7-1-2003 (Register 2003, No. 22). For prior history, see Register 96, No. 19.
2. Amendment of subsection (a) filed 7-21-2004; operative 7-21-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).

§ 18456.6. What will the Board do with the Initial Waste Tire Hauler Registration Application Once it is Submitted for Review?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42958, 42959 and 42961, Public Resources Code.

HISTORY

1. New section filed 1-18-95 as an emergency; operative 1-18-95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5-17-95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5-18-95 as an emergency; operative 5-18-95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9-15-95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8-21-95 as an emergency; operative 8-21-95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-19-95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11-28-95 as an emergency; operative 11-28-95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3-27-96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-18-95 order including renumbering of former section 18456.6 to section 18456.2 transmitted to OAL 3-29-96 and filed 5-9-96 (Register 96, No. 19).

§ 18456.7. What will the board do with the Waste Tire Hauler Registration Renewal Application Once it is Submitted for Review?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42958, 42959 and 42961, Public Resources Code.

HISTORY

1. New section filed 1-18-95 as an emergency; operative 1-18-95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5-17-95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5-18-95 as an emergency; operative 5-18-95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9-15-95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8-21-95 as an emergency; operative 8-21-95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-19-95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11-28-95 as an emergency; operative 11-28-95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3-27-96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-18-95 order including repealer of section transmitted to OAL 3-29-96 and filed 5-9-96 (Register 96, No. 19).

§ 18456.8. When the Waste Tire Hauler Registration Application is Approved, What Documents Will be Provided to Me?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42956 and 42958, Public Resources Code.

HISTORY

1. New section filed 1-18-95 as an emergency; operative 1-18-95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5-17-95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5-18-95 as an emergency; operative 5-18-95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9-15-95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8-21-95 as an emergency; operative 8-21-95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-19-95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11-28-95 as an emergency; operative 11-28-95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3-27-96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-18-95 order including repealer of section transmitted to OAL 3-29-96 and filed 5-9-96 (Register 96, No. 19).

§ 18456.9. If an Applicant Wishes to Obtain Registration for an Additional Vehicle, Does a New Application Need to be Submitted?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42956, 42958, 42959 and 42961, Public Resources Code.

HISTORY

1. New section filed 1-18-95 as an emergency; operative 1-18-95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5-17-95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5-18-95 as an emergency; operative 5-18-95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9-15-95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8-21-95 as an emergency; operative 8-21-95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-19-95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11-28-95 as an emergency; operative 11-28-95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3-27-96 or emergency language will be repealed by operation of law on the following day.
5. Change without regulatory effect amending first paragraph filed 4-2-96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
6. Certificate of Compliance as to 1-18-95 order including renumbering of former section 18456.9 to section 18456.3 (a) through (c) transmitted to OAL 3-29-96 and filed 5-9-96 (Register 96, No. 19).

§ 18456.10. If a Registered Vehicle has been Sold or is no Longer Used for Waste Tire Hauling, Must I Inform the Board?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42956, 42958, 42959 and 42961, Public Resources Code.

HISTORY

1. New section filed 1-18-95 as an emergency; operative 1-18-95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5-17-95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5-18-95 as an emergency; operative 5-18-95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9-15-95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8-21-95 as an emergency; operative 8-21-95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-19-95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11-28-95 as an emergency; operative 11-28-95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3-27-96 or emergency language will be repealed by operation of law on the following day.
5. Change without regulatory effect amending section filed 4-2-96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

6. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18456.10 to section 18456.3 (d) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18456.11. How Do I Notify the Board of a Change in Business Ownership?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42956, 42958, 42959 and 42961, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Change without regulatory effect amending subsections (b) and (c) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
6. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18456.11 to section 18456.3 (e) through (e)(6) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18456.12. Do I Need to Notify the Board if I Change my Address?

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18456.12 to section 18456.3(f) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18456.13. What If I Lose the Decal(s) or Registration(s)?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42956 and 42958, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18456.13 to section 18456.3(g) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18457. Waste Tire Hauler Registration Denial, Suspension, and Revocation.

(a) The Board may refuse to issue or renew a waste tire hauler registration for failure to maintain a surety bond as required by Section 18455, and for the reasons stated in Public Resources Code Section 42960.

(b) The Board may suspend or revoke a waste tire hauler registration pursuant to Public Resources Code Section 42960.

(c) Upon suspension or revocation of the waste tire hauler registration, the waste tire hauler shall immediately return the decal(s) and registration card(s) to the Board.

(d) The waste tire hauler shall not transport used or waste tires, nor own, operate, or be an officer of a waste tire hauling business entity or corporation during the period of suspension or revocation. Any hauling of used and waste tires during the period of suspension or revocation will be a cause for denial, suspension, or revocation of the registration, and may subject the waste tire hauler to civil penalties pursuant to this chapter, and/or criminal penalties pursuant to the California Vehicle Code Section 31560.

(e) During the period of time for which a waste tire hauler's registration has been denied, suspended or revoked, neither the waste tire hauler, nor the waste tire hauler's vehicles, may be added to another waste tire hauler's registration. In addition, if the denial, suspension or revocation was the result of a particular driver'(s) actions, neither that driver, nor the driver's vehicles, may be added to another waste tire hauler's registration.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42960 and 42961, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading, repealer of section, renumbering and amendment of former section 18457.1 to section 18457 and amendment of NOTE transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading, section and NOTE filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. New subsection (e) filed 7–21–2004; operative 7–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).
8. Editorial correction deleting erroneously added HISTORIES 8–10 (Register 2007, No. 5).

§ 18457.1. Waste Tire Hauler Registration Suspension.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42959, 42960 and 42961, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including repealer of section heading, renumbering of former section 18457.1 to section 18457, renumbering of former section 18458 to section 18458.1 with amendment of section heading and subsection (b) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Repealer filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18458. Request for Hearing of Denial, Suspension, or Revocation of Waste Tire Hauler Registration.

(a) If the Board refuses to issue or renew (denies) a registration, or suspends, or revokes a waste tire hauler registration pursuant to Public Resources Code Section 42960, the waste tire hauler may appeal that decision and request a hearing in accordance with Government Code Sections 11505 to 11519. The request for a hearing must be in writing and received by the CIWMB Legal Office at P.O. Box 4025, Sacramento, CA 95812, within 30 days after receipt of the denial, suspension, or revocation. The Board shall consider the original application, the reasons for denial, and any additional relevant information presented by the applicant. This decision shall be the final decision by the Board.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42960 and 42961, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18458 to section 18457.1, renumbering of former section 18458.1 to section 18458 with amendment of section heading and subsection (a) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and subsection (a), repealer of subsections (b) and (c) and amendment of NOTE filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18458.1. What Steps Can I Take for Board Reconsideration of my Waste Tire Hauler Application?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42952, 42955, 42959, 42960 and 42961, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18458.1 to section 18458, transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18459. Waste Tire Manifest System Requirements.

(a) The Board will provide blank forms: CIWMB 203, CIWMB 647, CIWMB 648, and CIWMB 180 at the time of initial or renewed waste tire hauler registration. These forms will be provided at no cost. CIWMB 180 shall only be completed by a Retreader. It shall be unlawful for a waste tire hauler, who is not a Retreader determined by the Board, to use a Retreader Trip Log.

(1) The Manifest Form (CIWMB 647) and Tire Trip Log (CIWMB 648) may be used in lieu of the Comprehensive Trip Log; however, the Manifest Form and Tire Trip Log shall not be used after December 31, 2005.

(2) In lieu of (a)(1), if approved on an individual basis by the Board pursuant to Public Resources Code Section 42961.5, any person that is subject to the Comprehensive Trip Log, Retreader Trip Log, or Manifest and Tire Trip Log requirements of this section, may substitute their own functionally equivalent form, once approved by the Board, in lieu of the Board required form and submit an electronic report within ninety (90) days of the load shipment to the Board. The hauler shall provide a copy of their Board approved form to the generator or end–use facility for every waste or used tire transaction.

(3) Additional forms may be obtained from the Board by request.

(b) The Comprehensive Trip Log, Manifest Form, Tire Trip Log, and Retreader Trip Log shall be completed and signed under penalty of perjury by the appropriate representative, and accompany each shipment of used or waste tires from the point of origin to the facility.

(c) The following persons and entities shall comply with the Waste Tire Manifest System:

(1) waste and used tire hauler

(2) used or waste tire generator

(3) Federal, State, and local governments

(4) person hauling used or waste tires for agricultural purposes

(5) exempted commercial carrier

(6) a facility

(7) any person not included in Section 18459(c)(1) through (6) who gives, contracts, or arranges to have used or waste tires transported

(8) any person not included in Section 18459(c)(1) through (6) who accepts used or waste tires

(9) Retreader

(d) For purposes of this section, "waste and used tire hauler" means any person engaged in the transportation of used or waste tires, including haulers that the Board approved as exempt from registration pursuant to Public Resources Section 42954.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42954, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section heading filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section heading refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section heading refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.

4. New section heading refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Editorial Correction of HISTORY NOTES 1 through 4 (Register 96, No. 19.)
6. Certificate of Compliance as to 1–18–95 order including renumbering and amendment of former section 18459.1 to new section 18459(a) through (a)(3) and former section 18459.2 to new section 18459(b) through (b)(8) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
7. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
8. Amendment of subsections (a) and (b) and new subsection (c)(9) filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
9. Amendment of subsections (a) and (b) and new subsection (c)(9) refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
10. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
11. Amendment of subsections (a) and (b) and new subsection (c)(9) filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
12. Amendment of subsection (a), new subsections (a)(1) and (a)(2), subsection renumbering and amendment of subsections (b) and (c)(2) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
13. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
14. Amendment of subsection (a), new subsections (a)(1) and (a)(2), subsection renumbering and amendment of subsections (b) and (c)(2) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
15. Amendment of subsection (a), new subsections (a)(1) and (a)(2), subsection renumbering and amendment of subsections (b) and (c)(2) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
16. Certificate of Compliance as to 2–9–2006 order, including amendment of subsection (a)(2) and NOTE, transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18459.1. Tire Program Identification Number.

(a) On or after July 1, 2003, every waste tire generator shall apply for and obtain a CIWMB assigned Tire Program Identification Number for each location from which used or waste tires are generated and transported from. Each location shall be assigned a unique site specific Tire Program Identification Number.

(b) On or after July 1, 2003, every end–use facility shall apply for and obtain a CIWMB issued Tire Program Identification Number for each location where used or waste tires are accepted. Each location shall be assigned a unique site specific Tire Program Identification Number.

(c) Every waste tire hauler shall be assigned a CIWMB issued Tire Program Identification Number, if not already assigned, at the time of registration.

(d) Only one Tire Program Identification Number shall be assigned to any one business location. The Board shall issue a certificate with the Tire Program Identification Number for each location, which shall be posted by the operator in a conspicuous place.

(e) Every waste tire generator, waste tire hauler, or waste tire end–use facility shall submit written notification to the CIWMB upon any change of business operator or owner, business name, or business address within 10 days of the change.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18459.1 to new section 18459(a) through (a)(3), and renumbering and amendment of former section heading and section 18459.3 to section 19459.1 transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and repealer and new section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Amendment of subsection (d) filed 7–21–2004; operative 7–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).
8. Amendment of subsection (d) filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
9. Amendment of subsection (d) refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
10. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
11. Amendment of subsection (d) filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
12. Amendment of subsections (a) and (e) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
13. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
14. Amendment of subsections (a) and (e) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
15. Amendment of subsections (a) and (e) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
16. Editorial correction restoring inadvertently omitted text to subsection (d) (Register 2006, No. 9).
17. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18459.1.2. Electronic Data Transfer and Web–Based Data Entry Requirements.

(a) Pursuant to Public Resources Code Section 42961.5, any person may submit electronic reports to the Board in lieu of the required Comprehensive Trip Log, Retreader Trip Log, or Manifest or Tire Trip Log forms requirements with the following provisions:

(1) The business entity shall complete and sign the application for the Electronic Data Transfer/Web Based Data Entry project.

(2) The business shall be in good standing with the CIWMB and have no final administrative, civil, or criminal actions taken by the CIWMB or its representatives for violations of Chapter 3, Article 5.5 or Chapter 6 of these regulations.

(3) The waste tire generator, waste tire hauler, Retreader, or end–use facility must demonstrate that they have sufficient technical competency to process and transmit the required information electronically.

(4) The Business entity may use their own functionally equivalent form, once approved by the Board, in lieu of the Board required form.

(b) The CIWMB may at any time terminate the businesses' eligibility to use electronic reporting based on violations of (a) or (c).

(c) Any falsification, misrepresentation, or omission of a fact to the CIWMB, or its representative in the application for the Electronic Data Transfer/Web Based Data Entry project or the electronic transmission of manifest information may be cause to terminate the business' eligibility

to participate in either the Electronic Data Transfer or Web–Based Data Entry programs.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 2–9–2006 order, including amendment of subsection (a)(4), transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18459.2. Waste Tire Hauler Manifest Form Signature Requirements.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18459.2 to new section 18459(b) through (b)(8), and renumbering and amendment of former section heading and section 18459.4 to section 18459.2 transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Repealer filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18459.2.1. Submittal of the Comprehensive Trip Log, Manifest Form, Tire Trip Log, Retreader Trip Log, and Electronic Reporting to the Board.

As provided in this section, the Comprehensive Trip Log, or Manifest Form and Tire Trip Log, or Retreader Trip Log shall be submitted to the CIWMB by the waste tire generator, waste tire hauler or Retreader as specified in (a), (b), (c), or (d).

(a)(1) If the waste tire hauler chooses to use the Manifest form, the waste tire generator shall submit the completed original Manifest Form to the Board within ninety (90) days of the load shipment. The Manifest Form and Tire Trip Log shall be in the waste tire hauler's possession while transporting used or waste tires. The Manifest Form and the Tire Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the California Penal Code, or any local public officer designated by the Board.

(2) If the waste tire hauler chooses to use the Tire Trip Log, the waste tire hauler shall submit the completed original Tire Trip Log to the Board within ninety (90) days of the load shipment.

(3) The Manifest Form and Tire Trip Log shall not be used after December 31, 2005.

(b) On or before January 1, 2006, the waste tire hauler shall submit a copy of the completed Comprehensive Trip Log to the Board within ninety (90) days of the load shipment. The Comprehensive Trip Log shall be in the waste tire hauler's possession while transporting used or waste tires. The Comprehensive Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the California Penal Code, or any local public officer designated by the Board.

(c) If the waste or used tire is a tire casing being shipped for inspection, retreading, or recapping and is being transported by a Retreader, the waste tire generator may substitute an invoice for the required manifest form provided by the Retreader. The invoice shall contain the date of the transaction, the name of the customer and address, the Tire Program Identification Number of the generator or end use facility, the name of the retreader and address, the quantity of tire casings shipped. A copy of the invoice and Retreader Trip Log shall be in the Retreader's possession while transporting the tire casings. The copy of the invoice and Retreader Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the California Penal Code, or any local public officer designated by the Board.

(1) The Retreader shall submit the completed Retreader Trip Log to the Board within ninety (90) days of the load shipment.

(d) If approved by the Board pursuant to Public Resources Code Section 42961.5, any person that is subject to the requirements set forth in above (a), (b), or (c) may substitute their own functionally equivalent form, once approved by the Board, in lieu of the Board required form and submit an electronic report within ninety (90) days of the load shipment to the Board, in lieu of submitting the required form. The electronic report shall include all information required to be on the Comprehensive Trip Log, Retreader Trip Log, or Manifest and Tire Trip Log forms.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
2. Amendment of section heading, new subsections (b)–(b)(1) and subsection relettering filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
3. Amendment of section heading, new subsections (b)–(b)(1) and subsection relettering refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
5. Amendment of section heading, new subsections (b)–(b)(1) and subsection relettering filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
6. Amendment of section heading and section filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
7. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
8. Amendment of section heading and section refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
9. Amendment of section heading and section refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
10. Certificate of Compliance as to 2–9–2006 order, including amendment of subsection (d), transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18459.3. Maintenance of Comprehensive Trip Logs, Retreader Trip Logs, Manifest Forms and Tire Trip Logs.

(a) The waste tire generator, and end–use facility shall retain a copy of the completed Manifest Form, receipt from the Comprehensive Trip Log, or Board approved EDT form at their place of business for a period

of three (3) years. These records shall be made available to any authorized representative of the Board upon request.

(1) If the waste or used tire is a tire casing being shipped to or from a generator, or end use facility for inspection, retreading, or recapping by a Retreader, an invoice as required pursuant to 18459.2.1(c) may be substituted for the Manifest form or receipt from the Comprehensive Trip Log. This invoice shall be retained at the place of business for a period of three (3) years and be made available to any authorized representative of the Board upon request.

(b) The waste tire hauler shall retain a copy of the completed Board approved EDT form, Comprehensive Trip Log, or the Manifest Form and Tire Trip Log at their place of business for a period of three (3) years. These records shall be made available to any authorized representative of the Board upon request.

(1) The Retreader shall retain a copy of the completed Retreader Trip Log and corresponding invoices at their place of business for a period of three (3) years. These records shall be made available to any authorized representative of the Board upon request.

(c) Any person using Electronic reporting, including used and waste tire generators and end–users, must retain a copy of the Board approved EDT form from the waste tire hauler or Retreader at their place of business for a period of three (3) years and be made available to any authorized representative of the Board upon request.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Change without regulatory effect amending first paragraph filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
6. Certificate of Compliance as to 1–18–95 order including renumbering of former section heading and section 18459.3 to section 18459.1, and renumbering and amendment of former section heading and section 18459.5 to section 18459.3 transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
7. Amendment of section heading and repealer and new section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
8. New subsections (a)(1) and (b)(1) filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
9. New subsections (a)(1) and (b)(1) refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
10. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
11. New subsections (a)(1) and (b)(1) filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
12. Amendment of section heading and subsections (a)–(b) and new subsection (c) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
13. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
14. Amendment of section heading and subsections (a)–(b) and new subsection (c) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
15. Amendment of section heading and subsections (a)–(b) and new subsection (c) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
16. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18459.4. Who Signs the Manifest?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18459.4 to section 18459.2 transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18459.5. Who Receives Copies of the Manifest and When?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18459.5 to section 18459.3 transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18459.6. Who Keeps Copies of the Manifest and for How Long?

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Repealer filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).

§ 18460.1. Waste Tire Manifest System Requirements for Agricultural Uses Exemption.

(a) As provided in § 18459(a)(1), the agricultural exempt waste tire hauler shall not transport 10 or more used or waste tires without having a copy of the Comprehensive Trip Log or Manifest Form and Tire Trip Log in the vehicle while transporting the used or waste tires. The Comprehensive Trip Log or Manifest Form and Tire Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the Penal Code, or any local public officer designated by the Board.

(b) The agricultural exempt waste tire hauler shall leave one copy of the Manifest Form or receipt from the Comprehensive Trip Log with the waste tire generator, or end–use facility after the form has been completed with the required information.

(c) The agricultural exempt waste tire hauler shall submit the completed original Comprehensive Trip Log or Tire Trip Log to the Board *within ninety (90) days of the load shipment. The Comprehensive* Trip Log or Tire Trip Log shall contain the signature of the agricultural exempt waste tire hauler representative.

(d) The agricultural exempt waste tire hauler may destroy the "hauler" copy of the Comprehensive Trip Log or Manifest Form and Tire Trip Log upon reaching the end–use facility.

(e) The agricultural exempt waste tire hauler shall not haul used or waste tires to an end–use facility not legally authorized to accept used or waste tires.

(f) The agricultural exempt waste tire hauler shall contact the Board and provide the name of the company, name of the person, and phone number of a waste tire generator, or end–use facility who does not properly complete the manifest.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42954 and 42961.5, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and subsection (b) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and repealer and new section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Amendment of subsection (a) and amendment of NOTE filed 7–21–2004; operative 7–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).
8. Amendment of subsections (a)–(d) and (f) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
9. Amendment of subsections (a)–(d) and (f) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
10. Amendment of subsections (a)–(d) and (f) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18460.1.1. Waste Tire Manifest System Requirements for Common Carrier Exemption.

(a) As provided in § 18459(a)(1), the common carrier approved for exemption pursuant to Public Resource Code Section 42954 shall not transport 10 or more used or waste tires without having a copy of the Comprehensive Trip Log or Manifest Form and Tire Trip Log in the vehicle while transporting the used or waste tires. The Comprehensive Trip Log or Manifest Form and Tire Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the Penal Code, or any local public officer designated by the Board.

(b) The exempt common carrier shall leave one copy of the Manifest Form or receipt from the Comprehensive Trip Log with the waste tire generator, or end–use facility after the form has been completed with the required information.

(c) The common carrier shall keep one copy of the completed Comprehensive Trip Log or Manifest Form and Tire Trip Log.

(d) The common carrier shall submit the completed original Comprehensive Trip Log or Tire Trip Log to the Board within ninety (90) days of the load shipment. The Comprehensive Trip Log or Tire Trip Log shall contain the signature of the common carrier representative.

(e) If the used or waste tires are transported from a collection center, a new Manifest Form or receipt from the Comprehensive Trip Log shall be used until the waste tires reach an end–use facility.

(f) The common carrier shall not haul used or waste tires to an end–use facility not legally authorized to accept used or waste tires.

(g) The common carrier shall contact the Board and provide the name of the company, name of the person, and phone number of a waste tire generator, or end–use facility who does not properly complete the manifest.

HISTORY

1. New section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
2. Amendment of subsection (a) and amendment of NOTE filed 7–21–2004; operative 7–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).
3. Amendment of subsections (a)–(e) and (g) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsections (a)–(e) and (g) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
5. Amendment of subsections (a)–(e) and (g) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–9–2006 order transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18460.2. Waste Tire Manifest System Requirements for Waste Tire Haulers.

(a) The registered waste tire hauler shall show the waste tire generator the waste tire hauler registration for the vehicle being used to transport the used or waste tires.

(b) As provided in § 18459(a)(1), the registered waste tire hauler shall complete a new Manifest Form or receipt from a Comprehensive Trip Log for each pick–up or delivery of any used or waste tires in accordance with the directions on the form. If a Manifest Form is used, each pick–up or delivery of used or waste tires shall also be entered on the Tire Trip Log in accordance with the directions on the form. The waste tire hauler shall not transport any used or waste tires without having a copy of the Manifest Form and Tire Trip Log or Comprehensive Trip Log in the vehicle transporting the used or waste tires.

(1) As provided in § 18459(a)(2), the registered waste tire hauler may substitute their own functionally equivalent form, once approved by the Board, in lieu of the Board required form and substitute an electronic report for the Manifest Form and Tire Trip Log or Comprehensive Trip Log.

(c) A vehicle may contain used or waste tires from different waste tire generators. Used or waste tires from each generator shall be accompanied by their own Manifest Form or receipt from the Comprehensive Trip Log from point of origin.

(d) The waste tire hauler shall leave one copy of the Manifest Form or a completed receipt from the Comprehensive Trip Log with the waste tire generator, or end–use facility after the form or receipt has been completed.

(e) The waste tire hauler shall keep one copy of the completed Manifest Form or Comprehensive Trip Log.

(f) The waste tire hauler shall not haul used or waste tires to an end–use facility not legally authorized to accept used or waste tires.

(g) The waste tire hauler shall contact the Board and provide the name of the company, name of the person, and phone number of the waste tire generator, or end–use facility who does not provide the necessary information to the hauler in order to complete the manifest or Comprehensive Trip Log.

(h) The waste tire hauler shall not transport the used or waste tires without a properly completed Manifest Form and Tire Trip Log or Comprehensive Trip Log.

(i) Those waste and used tire haulers exempt from registration pursuant to Public Resources Code section 42954 shall be required to comply with the manifest requirements of Subsections (b) through (h) if they haul a load of 10 or more waste or used tires; however will not be allowed to participate in the electronic reporting as provided in (b)(1).

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951, 42954, 42956 and 42961.5, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and subsections (b) and (c), new subsections (d) through (e)(5), subsection relettering, amendment of newly designated subsections (f) through (j), renumbering and amendment of former section 18460.3 to section 18460.2(k) through (*l*) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Amendment of section heading and subsection (b), new subsections (i)–(i)(1) and amendment of NOTE filed 7–21–2004; operative 7–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).
8. Amendment of subsections (a)–(i) and repealer of subsection (i)(1) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
9. Amendment of subsections (a)–(i) and repealer of subsection (i)(1) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
10. Amendment of subsections (a)–(i) and repealer of subsection (i)(1) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 2–9–2006 order, including amendment of subsection (b)(1), transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18460.2.1. Waste Tire Manifest System Requirements for Retreaders.

(a) A registered waste tire hauler meeting the requirements set forth in § 18450(a)(19) shall complete, sign under penalty of perjury, and submit the Retreader Self–Certification Form (CIWMB 173) to the Board before the Board deems that registered waste tire hauler to be a Retreader.

(b) The Retreader shall show the waste tire generator the Retreader registration card for the vehicle being used to transport the tire casings.

(c) The Retreader shall complete an invoice in accordance with §§ 18459.2.1(c) and 18461(a)(1) for each pick–up or delivery of tire casings. Notwithstanding § 18459(d), each pick–up or delivery of tire casings shall also be entered on the Retreader Trip Log in accordance with the directions on the form. The Retreader shall not transport any tire casings without having a copy of the invoice and Retreader Trip Log in the vehicle transporting the tire casings.

(d) A vehicle may contain tire casings from different waste tire generators. Tire casings from each generator shall be accompanied by their own invoice form from point of origin.

(e) The Retreader shall leave one copy of the invoice form with the waste tire generator, or end–use facility after the invoice form has been completed.

(f) The Retreader shall keep one copy of the completed invoice form.

(g) The Retreader shall not haul tire casings to an end–use facility not legally authorized to accept used or waste tires.

(h) The Retreader shall not transport the tire casings without a properly completed invoice form and Retreader Trip Log.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2005, No. 17).
4. New section filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
5. Amendment of subsections (b)–(e) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
7. Amendment of subsections (b)–(e) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
8. Amendment of subsections (b)–(e) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction of subsection (c) (Register 2006, No. 28).
10. Certificate of Compliance as to 2–9–2006 order, including further amendment of subsection (f), transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18460.3. What if the Tire Dealer/Waste Tire Generator Does Not Properly Complete the Manifest Form?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18460.3 to section 18460.2(k) through (*l*) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18460.4. What are Legally Authorized Waste Tire Sites?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including repealer of section transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18461. Manifest System Requirements for Waste Tire End–Use Facilities.

The Waste Tire Manifest System requires specific actions on the part of end–use facilities including, but not limited to, the following.

(a) As provided in § 18459.3(a), an end–use facility shall retain a copy of the Manifest Form, Board approved EDT form, or the completed receipt from the Comprehensive Trip Log provided by the registered hauler.

(1) If a tire casing is being shipped to an end use facility for inspection, retreading, or recapping by a Retreader, an invoice as required pursuant to 18459.2.1(c) may be substituted for the Manifest form.

(b) The waste tire end–use facility may accept the used or waste tires from waste tire hauler(s) who are not registered with the Board and/or have no manifest as provided below:

(1) If waste or used tires are received from a registered hauler that does not have a Comprehensive Trip Log, the end use facility shall complete the Unregistered Hauler & Comprehensive Trip Log Substitution Form (CIWMB 204) within 48 hours of the tire delivery and submit the form to the CIWMB within 90 days.

(2) The end–use facility shall complete the Unregistered Hauler & Comprehensive Trip Log Substitution Form (CIWMB 204) and submit it to the Board within 30 days of the acceptance of 10 or more waste or used tires from a person who is not registered as a waste tire hauler unless that person has written authorization by the Local Enforcement Agency for purposes of an Amnesty Day Event or a One Time Exemption and is transporting no more than 20 waste or used tires to the end–use facility.

(3) If the person is hauling 20 or more waste or used tires under the written authorization of a Local Enforcement Agency for purposes of an Amnesty Day Event or a One Time Exemption, the end–use facility shall report this information on the Unregistered Hauler & Comprehensive Trip Log Substitution Form (CIWMB 204) and submit the form to the Board within 30 days of the acceptance of waste or used tires from that person.

(c) End–use facility operators shall make available for review by the waste tire hauler any Board issued permit, exemption from waste tire facility permitting requirements, or any local permit or license allowing the storage of used or waste tires on the site.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42951 and 42961.5, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and section, renumbering and amendment of former section 18461.1 to section 18461(a) through (c) and former section 18461.2 to section 18461(d) through (g) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. Amendment of subsection (c) and amendment of NOTE filed 7–21–2004; operative 7–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 30).

8. New subsection (a)(1) filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
9. New subsection (a)(1) refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
10. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
11. New subsection (a)(1) filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
12. Amendment filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
13. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
14. Amendment refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
15. Amendment refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
16. Certificate of Compliance as to 2–9–2006 order, including amendment of subsection (b), transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18461.1. My Site Accepts Waste Tires. What Shall I do as the Operator of a Destination Facility if a Waste Tire Hauler Who is Not Registered With the Board and/or Has No Manifest Delivers Waste Tires to My Site?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18461.1 to section 18461(a) through (c) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18461.2. How Can I Demonstrate That My Facility is Authorized to Accept Waste Tires?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18461.2 to section 18461(d) through (g) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18462. Manifest System Requirements for Waste Tire Generators.

(a) A waste tire generator shall not give, contract, or arrange with another person to transport used or waste tires unless that person is a registered waste tire hauler or is exempt under Public Resources Code Section 42954.

(1) If a tire casing is being shipped from a generator for inspection, retreading, or recapping by a Retreader, an invoice as required pursuant to 18459.2.1(c) may be substituted for the Manifest form. This invoice shall be retained at the place of business for a period of three (3) years and be made available to any authorized representative of the Board upon request.

(b) As provided in § 18459.3(a), a waste tire generator shall retain a Board approved EDT form, completed receipt from the Comprehensive Trip Log provided by the hauler, or, retain a copy, and forward the original Manifest Form to the Board.

(c) If waste or used tires are removed from the generator's location by a registered waste tire hauler and a completed receipt from the Comprehensive Trip Log is not provided, the generator shall complete a Unregistered Hauler & Comprehensive Trip Log Substitution Form (CIWMB 204) within 48 hours of the tire removal and submit the form to the CIWMB within 90 days.

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42954, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including amendment of section heading and section, renumbering and amendment of former section 18462.1 to section 18462(a) through (b) and former section 18462.2 to 18462(c) through (d) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).
6. Amendment of section heading and section filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
7. New subsection (b)(1) filed 8–23–2004 as an emergency; operative 8–23–2004 (Register 2004, No. 35). A Certificate of Compliance must be transmitted to OAL by 12–21–2004 or emergency language will be repealed by operation of law on the following day.
8. New subsection (b)(1) refiled 12–22–2004 as an emergency; operative 12–22–2004 (Register 2004, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–21–2005 or emergency language will be repealed by operation of law on the following day.
9. Reinstatement of section as it existed prior to 12–22–2004 emergency amendment by operation of Government Code section 11346.1(f) (Register 2005, No. 17).
10. New subsection (b)(1) filed 4–25–2005 as an emergency; operative 4–25–2005 (Register 2005, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–23–2005 or emergency language will be repealed by operation of law on the following day.
11. Amendment of section heading and section filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.

12. Certificate of Compliance as to 4–25–2005 order transmitted to OAL 8–11–2005 and filed 9–22–2005 (Register 2005, No. 38).
13. Amendment of section heading and section refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
14. Amendment of section heading and section refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
15. Certificate of Compliance as to 2–9–2006 order, including amendment of NOTE, transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18462.1. Can I Give Tires to a Person Wanting to Haul my Waste Tires but Who Doesn't Have a Registration or is Not Exempt From the Registration?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18462.1 to section 18462(a) through (b) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18462.2. Do I need to Know the Destination Site or Collection Facility for the Waste Tires?

NOTE: Authority cited: Sections 40502, 42966 and 43020, Public Resources Code. Reference: Sections 42950, 42951, 42952, 42953, 42961.5 and 42962, Public Resources Code.

HISTORY

1. New section filed 1–18–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–17–95 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 8–21–95 as an emergency; operative 8–21–95 (Register 95, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–19–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
5. Change without regulatory effect moving forms to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
6. Certificate of Compliance as to 1–18–95 order including renumbering of former section 18462.2 to section 18462(c) through (d) transmitted to OAL 3–29–96 and filed 5–9–96 (Register 96, No. 19).

§ 18463. Civil Penalties.

Any waste tire generator, end–use facility, or waste tire hauler or any party or person who commits any of the following acts shall be liable for a civil penalty:

(a) Intentionally, or negligently violates any permit, rule, regulation, standard, or requirement pursuant to Chapter 19 of the Public Resources Code relating to the generation, transportation or disposal of used or waste tires.

(b) The aiding or abetting, or allowing of any violation, or noncompliance with any permit, rule, regulation, standard, or requirement pursuant to Chapter 19 of the Public Resource Code relating to the generation, transportation or disposals of used or waste tires.

(c) Any violation of, or noncompliance with any order issued by the Board or by a hearing officer or a court relating to the generation, transportation or disposal of used or waste tires.

(d) Any false statement, misrepresentation, or omission of a significant fact or other required information in the application for a waste tire hauler registration, Comprehensive Trip Log, Retreader Trip Log, Manifest Form or Tire Trip Log, or in information regarding these matters subsequently reported to the Board.

(e) In addition to liability for a civil penalty, the Board may:

(1) File a claim against any registered waste tire hauler surety bond for activities resulting from the illegal disposal of tires or injury.

(2) Deny, suspend, or revoke a waste tire hauler registration.

NOTE: Authority cited: Sections 40502 and 42962, Public Resources Code. Reference: Section 42962, Public Resources Code.

HISTORY

1. New section filed 5–9–96; operative 5–9–96 (Register 96, No. 19).
2. Amendment filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
3. Amendment of subsection (d) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (d) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
5. Amendment of subsection (d) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–9–2006 order, including amendment of subsection (d), transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18464. Amount of Civil Penalties and Administrative Penalty Schedule.

(a) Civil penalties may be imposed administratively in accordance with the following penalty tables:

1. For waste and used tire haulers, tire generators, and end–use facilities, using Penalty Table I;

A. Determine what violations have occurred.

B. Determine the number of violations or offenses that have occurred.

C. Add up the penalties to determine the applicable fine.

Penalty Table I: For Tire Haulers, Tire Generators, and End-Use Facilities

Violation	*Description of Violation*	*1st Offense*	*2nd Offense*	*3rd and Subsequent Offenses*
PRC 42951(b)	Failure of tire haulers to transport waste or used tires to a facility that is permitted, excluded, exempted, or otherwise authorized by the board, by statute or regulation, to accept waste or used tires, or to a facility that lawfully accepts waste or used tires for reuse or disposal. (major, minor).	$1,000–$3,000	$2,000–$4,000	$3,000–$5,000
PRC 42952(b)	Falsely advertising or representing himself or herself as being in the business of a waste and used tire hauler without being registered as a waste or used tire hauler by the board.	$1,000–$2,000	$2,000–$4,000	$4,000–$5,000
PRC 42953	Any person who gives, contracts, or arranges with another person to transport waste or used tires and fails to utilize a tire hauler holding a valid waste and used tire hauler registration from the board (unless the tire hauler is exempted from registration requirements as specified in Public Resource Code Section 42954).	$500–$1,000	$1,000–$2,000	$2,000–$3,000
PRC 42956	Failure to carry waste or used tire hauler registration in vehicle; failure to permanently affix tire hauler decal to the lower right hand corner of the windshield.	$100–$500	$1,000–$3,000	$3,000–$5,000
PRC 42956(c)	Failure to present waste or used tire hauler registration upon the demand of an authorized representative of the board.	$100–$500	$500–$1,000	$1,000–$1,750
PRC 42961.5	Comprehensive Trip Log, Manifest Violations, or Electronic reporting; including failure to submit the Comprehensive Trip Log, manifests, or Electronic reporting on a quarterly basis, missing information, incomplete information, and false information.	$100–$500	$500–$1,000	$1,500–$2,500
14 CCR 18456.1(b)	Failure to maintain surety bond in full force and effect during all registration periods.	$500–$1,000	$1,000–$2,000	$2,000–$3,000
14 CCR 18456.3	Failure to notify board of changes in information provided on registration application form (CIWMB 60) as required by 14 CCR 18456.3.	$100–$300	$500–$1,000	$1,500–$2,000

2. For unregistered waste and used tire haulers, using Penalty Table II;

A. Determine the number of violations or offenses.

B. Find the number of tires hauled for each load.

C. Determine whether any other violations listed in Table I have occurred and add that fine to the fine from Table II to determine the total fine.

Penalty Table II: Violation of PRC section 42951(a)

Violation	*10–20 Tires per Load*	*21–40 Tires per Load*	*41–100 Tires per Load*	*More than 100 Tires per Load*
Unregistered Hauler *(1st Offense)*	$100–$500	$500–$750	$500–$1,000	$1,000–$2,000
Unregistered Hauler *(2nd Offense)*	$500–$1,000	$750–$1,250	$1,000–$1,750	$2,000–$4,000
Unregistered Hauler *(3rd Offense. etc)*	$1,000–$1,750	$1,250–$2,000	$1,750–$2,750	$3,000–$5,000

(b) For administrative hearings held pursuant to Public Resources Code sections 42960 and 42962, a person waives the right to a hearing when that person fails to submit to the Board a Notice of Defense pursuant to Government Code section 11506 or CIWMB Request for Hearing form within 15 days of service of the administrative complaint on that person.

NOTE: Authority cited: Sections 40502 and 42962, Public Resources Code. Reference: Sections 42960 and 42962, Public Resources Code; and Section 11506, Government Code.

HISTORY

1. New section filed 5–9–96; operative 5–9–96 (Register 96, No. 19).
2. Amendment of section heading and new subsection (b) (including Penalty Tables I–II) filed 3–6–2003 as an emergency; operative 3–6–2003 (Register

2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–7–2003 or emergency language will be repealed by operation of law on the following day.

3. Repealer of subsection (a) and relettering of former subsection (b) to subsection (a) filed 5–28–2003; operative 7–1–2003 (Register 2003, No. 22).
4. Refiling of 3–6–2003 order, including further amendment of subsections (a)1. and (a)2. and amendment of Penalty Table I, 7–7–2003 as an emergency; operative 7–7–2003 (Register 2003, No. 28). A Certificate of Compliance must be transmitted to OAL by 11–4–2003 or emergency language will be repealed by operation of law on the following day.
5. Refiling of 7–7–2003 order 11–3–2003 as an emergency; operative 11–3–2003 (Register 2003, No. 45). A Certificate of Compliance must be transmitted to OAL by 3–2–2004 or emergency language will be repealed by operation of law on the following day.
6. Editorial correction of subsection (a)1. (Register 2004, No. 10).
7. Refiling of 11–3–2003 order 3–2–2004 as an emergency, including further amendment of subsection (a)(1); operative 3–2–2004 (Register 2004, No. 10). A Certificate of Compliance must be transmitted to OAL by 6–30–2004 or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 3–2–2004 order transmitted to OAL 6–15–2004 and filed 7–21–2004 (Register 2004, No. 30).
9. Amendment filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
10. Amendment refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
11. Amendment refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
12. Certificate of Compliance as to 2–9–2006 order, including new subsection (b) and amendment of NOTE, transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

§ 18465. Criteria to Impose a Civil Penalty.

In assessing the amount of civil penalty, factors to be considered shall include, but are not limited to, the following:

(1) The nature, circumstances, extent, and gravity of the violation.

(2) Evidence that the violation was willful or negligent.

(3) The good or bad faith exhibited by the party.

(4) History of violation of the same or similar nature.

(5) The extent to which the party has cooperated with the Board in remediating the violation.

(6) The extent that the party has mitigated or attempted to mitigate any damage or injury caused by his or her violation.

(7) Evidence of any financial gain resulting from the violation.

(8) Such other matters as justice may require.

NOTE: Authority cited: Sections 40502, 42962 and 43020, Public Resources Code. Reference: Section 42962, Public Resources Code.

HISTORY

1. New section filed 5–9–96; operative 5–9–96 (Register 96, No. 19).
2. Repealer of subsection (b) filed 3–6–2003 as an emergency; operative 3–6–2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–7–2003 or emergency language will be repealed by operation of law on the following day.
3. Repealer of subsection (b) refiled 7–7–2003 as an emergency; operative 7–7–2003 (Register 2003, No. 28). A Certificate of Compliance must be transmitted to OAL by 11–4–2003 or emergency language will be repealed by operation of law on the following day.
4. Repealer of subsection (b) refiled 11–3–2003 as an emergency; operative 11–3–2003 (Register 2003, No. 45). A Certificate of Compliance must be transmitted to OAL by 3–2–2004 or emergency language will be repealed by operation of law on the following day.
5. Refiling of 11–3–2003 order 3–2–2004 as an emergency, including further amendment of NOTE; operative 3–2–2004 (Register 2004, No. 10). A Certificate of Compliance must be transmitted to OAL by 6–30–2004 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 3–2–2004 order, including repealer of subsection (a) designator, transmitted to OAL 6–15–2004 and filed 7–21–2004 (Register 2004, No. 30).

§ 18466. Procedure for Imposing Civil Penalties.

(a) Civil penalties may be administratively imposed pursuant to the Administrative Procedure Act Government Code Section 11500 et seq.

(b) Civil penalties may be imposed pursuant to the Public Resources Code Section 42962 in the discretion of the trier of fact in the civil proceeding.

NOTE: Authority cited: Sections 40502 and 42962, Public Resources Code. Reference: Sections 11500 and 42962, Public Resources Code.

HISTORY

1. New section filed 5–9–96; operative 5–9–96 (Register 96, No. 19).
2. Amendment of subsection (a) filed 6–13–2005 as an emergency; operative 6–13–2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2005 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (a) refiled 10–12–2005 as an emergency; operative 10–12–2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–9–2006 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (a) refiled 2–9–2006 as an emergency; operative 2–9–2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6–9–2006 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 2–9–2006 order, including amendment of NOTE, transmitted to OAL 6–6–2006 and filed 7–19–2006 (Register 2006, No. 29).

Article 9. Financial Assurance Requirements for Closure of a Major Waste Tire Facility

§ 18470. Scope and Applicability.

(a) This Article requires operators of major waste tire facilities to demonstrate adequate financial ability to conduct closure activities.

(b) Operators of all major waste tire facilities, except state and federal operators, shall comply with the requirements of this Article upon application for issuance of a major waste tire facilities permit pursuant to Chapter 6, Article 1, section 18420.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of subsection (a) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18471. Definitions.

(a) When used in this Article, the following terms shall have the meanings given below:

(1) "Current Closure Cost Estimate" means the most recent estimate prepared in accordance with Chapter 6, Article 6, section 18442.

(2) "Depository Trust Fund" means the fund established in conjunction with a surety bond or letter of credit and that meets the requirements of section 18474 of this Article.

(3) "Enterprise Fund" means a fund established to account for the financing of self–supporting activities of a government unit that renders services on a user–fee basis.

(4) "Government Securities" means financial obligations issued by a federal, state or local government, including general obligation bonds, revenue bonds, and certificates of participation.

(5) "Letter of Credit" means a contract by which the issuing institution promises to extend credit on behalf of an operator to the Board or its designee, on presentation of the mechanism in accordance with its terms.

(6) "Provider of financial assurance" means an entity, other than an operator, that provides financial assurance to an operator of a major waste tire facility, including but not limited to a trustee, an institution issuing a letter of credit, or a surety company.

(7) "Surety Bond" means a contract by which a surety company promises that, if the operator fails to perform required closure activities, the surety company will be liable for the operator's responsibilities as specified by the bond.

(8) "Trust fund" means a contract by which the operator transfers assets to a trustee to hold, on behalf of the Board or its designee, to pay closure costs.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of subsections (a)(1)–(2) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18472. Closure Cost Estimate Adjustments.

(a) An operator shall increase the closure cost estimate when changes to the closure plan increase the cost of closure.

(b) An operator may reduce the closure cost estimate when changes to the closure plan decrease the cost of closure. The request for reduction shall be submitted with an application for renewal or revision of the permit for approval by the Board or its designee.

(c) Each year, an operator shall submit to the Board or its designee, a report calculating the increase in the closure cost estimate due to the inflation factor for the previous calendar year.

The inflation factor is derived from the annual Implicit Price Deflator for Gross National Product as published annually by the U.S. Department of Commerce, in its Survey of Current Business. The inflation factor is the result of dividing the latest annual published deflator by the deflator for the previous year. The operator shall adjust the closure cost estimate for inflation within 60 days of the anniversary date of the establishment of the financial mechanism for closure costs. The operator shall increase the monetary amount of the financial mechanism based on this inflation factor.

(d) The mechanism(s) used to demonstrate financial responsibility shall be updated, no more than 60 days after a change in the amount of the current closure cost estimate covered by the mechanism(s).

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).

8. Certificate of Compliance as to 6–22–93 emergency order including amendment of section heading and text transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18473. Acceptable Mechanisms and Combination of Mechanisms.

(a) Subject to the limitation of subsection (c) of this section, an operator shall use any one or any combination of the mechanisms specified which are defined in the following sections of this Article:

(1) Section 18474, Trust Fund

(2) Section 18475, Surety Bond

(3) Section 18476, Letter of Credit

(4) Section 18477, Government Securities

(5) Section 18478, Enterprise Fund

(6) Section 18478.5. State Approved Mechanism

(b) If a combination of mechanisms are used, the operator shall designate one mechanism as "primary" and all others as "excess" coverage.

(c) If an operator uses a trust fund in combination with a surety bond or letter of credit, the trust fund may be used as the depository trust fund for the other mechanisms.

(d) An operator shall not combine a performance bond with any other mechanism(s).

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of subsection (a) and new subsection (a)(6) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18474. Trust Fund.

(a) An operator may establish a trust fund to meet the requirements of this Article. The trust agreement shall be submitted to the Board or its designee as an originally signed duplicate. The trustee shall be an entity which has the authority to act as a trustee, and whose trust operations are regulated and examined by a federal or state agency.

(b) The trust agreement shall be worded as specified by using form CIWMB 140 "Trust Agreement" (12/91) which is incorporated herein by reference; and also shall contain original signature of the grantor and the trustee. (See Appendix A.)

(c) The initial deposit to the trust fund shall be at least equal to the current closure cost estimate.

(d) If the value of the fund is at any time less than the amount of the current estimate, the operator shall either deposit an amount into the fund so that the value of the fund at least equals the amount of the current closure cost estimate, or obtain other financial assurance, as specified in this Article, to cover the difference.

(e) If at any time, the value of the trust fund plus the amount of coverage demonstrated by other mechanisms is greater than the closure cost estimate based on the maximum quantity of waste tires permitted for storage, the operator may request in writing that the Board or its designee authorize the release of the excess funds. After receiving such a request, the Board or its designee shall review the request and, if any excess funds are verified, shall instruct the trustee to release the funds.

(f) After the Board or its designee has approved final closure, an operator or any other person authorized by the Board to perform closure, may request reimbursement for closure expenditures by submitting to the Board for review, documentation of those expenditures, including but not limited to tire receipts. After receiving the documentation for closure activities, the Board or its designee shall determine whether the closure expenditures are in accordance with the closure plan or otherwise justified. After the Board or its designee has approved final closure, the Board or its designee shall instruct the trustee, in writing, to reimburse the fund to the grantor.

(g) The Board or its designee shall agree to termination of the trust when:

(1) An operator substitutes alternate financial assurance as specified in section 18479 of this Article; or

(2) The Board or its designee releases the operator from the requirements of this Article in accordance with section 18482.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of subsection (b) and amendment of subsections (e) and (f) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (b) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
10. Amendment of subsections (b)–(e) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18475. Surety Bond.

(a) An operator may establish a surety bond to meet the requirements of this Article. The surety company issuing the bond shall, at a minimum, be among those listed as acceptable sureties on federal bonds in the most recent issuance of Circular 570 of the U.S. Department of the Treasury.

(b) The surety bond shall be worded as specified by using one of the following forms which are incorporated by reference;

(1) Form CIWMB 141 (1/92) "Performance Bond," which is incorporated herein by reference, for a surety bond guaranteeing performance (See Appendix A.); or

(2) Form CIWMB 142 (1/92) "Financial Guarantee Bond", which is incorporated herein by reference, for a surety bond guaranteeing payment. (See Appendix A.)

(c) An operator who uses a surety bond to satisfy the requirements of this Article, or the surety who issues the bond, shall also establish a depository trust fund which meets the requirements of section 18474 of this Article if:

(1) An operator fails to demonstrate alternate financial assurance within 60 days after receiving notice of cancellation of the mechanism;

(2) An operator fails to perform closure in accordance with the applicable approved closure plan and permit requirements when required to do so by the Board or its designee; or

(3) A surety fails to perform such activities on behalf of the operator. This applies to the performance bond only.

(d) Under the terms of the bond, all payments made from the bond shall be deposited by the surety directly into the depository trust fund.

(e) A surety company shall become liable under the terms of the bond, if the Board or its designee determines that the operator has failed to perform closure as guaranteed by the bond.

(f) Under the terms of the bond, a surety may cancel the bond by sending notice of cancellation by certified mail to the operator and the Board or its designee. Cancellation shall not take effect until 120 days after the date of receipt of the notice of cancellation by both the operator and the Board or its designee, as evidenced by the return receipts.

(g) An operator may cancel a bond by sending written notice to the Surety(ies), provided, however, that no such notice shall become effective until the Surety(ies) receive(s) written authorization from the Board or its designee to terminate the bond.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsection (f) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsections (b)(1)–(2) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18476. Letter of Credit.

(a) An operator may establish a letter of credit to meet the requirements of this section. The issuing institution shall be an entity which has the authority to issue letters of credit and whose letter of credit operations are regulated and examined by a federal or state agency.

(b) The letter of credit shall be worded as specified by using form CIWMB 143 "Irrevocable Letter of Credit for Closure Costs" (12/91) which is incorporated herein by reference. (See Appendix A.)

(c) The letter of credit shall be accompanied by a letter from the operator identifying the number, issuing institution, and date of issuance of the letter of credit; and the name, address, facility number, and amount of funds assured by the letter of credit for closure for each major waste tire facility.

(d) An operator who uses a letter of credit to satisfy the requirements of this Article or the issuing institution shall also establish a depository trust fund which meets the requirements of section 18474 of this Article if:

(1) An operator fails to demonstrate alternate financial assurance within 60 days after receiving notice of cancellation of the mechanism; or

(2) An operator fails to perform closure in accordance with the applicable approved closure plan and permit requirements when required to do so by the Board or its designee.

(e) Under the terms of the letter of credit, all payments made from the letter of credit shall be deposited by the financial institution issuing the letter of credit, directly into the depository trust fund.

(f) The letter of credit shall:

(1) Be irrevocable and issued for a period of at least one year; and

(2) Provide that the expiration date will be automatically extended for a period of at least one year unless, at least 120 days before the current expiration date, the issuing institution notifies both the operator and the Board or its designee by certified mail of a decision not to extend the expiration date. Under the terms of the letter of credit, the 120 days shall begin on the date when both the operator and the Board or its designee have received the notice, as evidenced by the return receipts.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of subsection (c), adoption of subsection (d), and relettering of former subsection (d) to (e), and relettering of former subsection (e) to (f) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (b) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18477. Government Securities.

(a) Government securities may be used to cover closure costs only for major waste tire facilities operated by government agencies.

(b) The terms of issuance of government securities shall specify that proceeds from the sale of the securities shall be deposited into a financial assurance mechanism that meets the requirements of Section 18478(d) of this Article.

(c) The securities shall have been issued and the proceeds deposited into the financial assurance mechanism that provides equivalent protection to a trust fund by meeting the following requirements:

(1) Proceeds from the sale of securities shall be used exclusively to pay for closure activities;

(2) The financial operations of the provider of the financial assurance are regulated by a federal or state agency, or the provider is otherwise certain to maintain and disburse the assured funds properly;

(3) If the provider of financial assurance has authority to invest revenue deposited into the mechanism, the provider shall exercise investment discretion similar to a trustee; and

(4) The mechanism meets other requirements that the Board determines are necessary to ensure that the assured funds shall be available in a timely manner.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of subsections (a)–(c) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18478. Enterprise Fund.

(a) The enterprise fund may be used to cover closure costs only for major waste tire facilities operated by government agencies.

(b) The enterprise fund shall dedicate its revenue exclusively or with exclusive first priority to financing closure activities.

(c) The enterprise fund shall be established and the documents shall be worded as specified by using form CIWMB 144 "Enterprise Fund for Financial Assurances" (3/92), which is incorporated herein by reference. (See Appendix A.) The wording, however, may be modified to accommodate special circumstances on a case–by–case basis, as approved by the Board or its designee.

(d) Revenue generated by an enterprise fund shall be deposited into a financial assurance mechanism which:

(1) Provides equivalent protection to a trust fund as described in section 18474 of this Article;

(2) Shall be funded within five years as described in Section 18474 of this Article;

(3) Is used exclusively to finance closure activities and shall remain inviolate against all other claims, including any claims by the operator, the operator's governing body, and the creditors of the operator and its governing body;

(4) Authorizes the Board or its designee to direct the provider of financial assurance to pay closure costs if the Board or its designee determines that the operator has failed to perform closure activities covered by the mechanism;

(5) Is maintained by a provider whose financial operations are regulated by a federal or state agency, or the provider is otherwise certain to maintain and disburse the assured funds properly;

(6) Is maintained by a provider who has authority to invest revenue deposited into the mechanism.

(7) Meets other requirements that the Board determines are necessary to ensure that the assured amount of funds shall be available for closure activities in a timely manner.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendments transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (c) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18478.5. State Approved Mechanism.

(a) An operator may satisfy the requirements of this Chapter by obtaining any other mechanism that meets the following criteria, and that is approved by the Board.

(1) The financial assurance mechanism(s) must ensure that the amount of funds assured is sufficient to cover the costs assured when needed;

(2) The financial assurance mechanism(s) must ensure that funds will be available in a timely fashion when needed;

(3) The financial assurance mechanism(s) must be obtained by the operator before the first waste is received at a new facility and before any other financial mechanism is cancelled at existing facilities. The financial mechanism must be maintained until the operator is released from the financial assurance requirements under this Chapter.

(4) The financial assurance mechanism(s) must be legally valid, binding, and enforceable under California and Federal law.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Sections 40502 and 42821, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18479. Substitution of Mechanisms by Operator.

(a) An operator may substitute any alternate financial assurance mechanism(s) acceptable to the Board or its designee as specified in this Article, provided that at all times the operator maintains an effective mechanism or combination of mechanisms that satisfies the requirements of section 18473 of this Article, and informs the Board of such substitution.

(b) After obtaining alternate financial assurance, an operator may request that the Board or its designee terminate or authorize the termination of a financial assurance mechanism. The operator shall submit such a request in writing with evidence of alternate financial assurance.

(c) Following written approval by the Board or its designee, the operator may cancel a financial assurance mechanism by giving notice to the provider of financial assurance.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18480. Bankruptcy or Other Incapacity of an Operator or Provider of Financial Assurance.

(a) Within 10 days after commencement of a voluntary or involuntary proceeding under the Bankruptcy Code, Title 11, U.S.C. sections 101–1330 in which:

(1) The operator is named as debtor. The operator shall notify the Board or its designee by certified mail of such commencement.

(2) A provider of financial assurance is named as debtor, such provider shall notify the operator and the Board or its designee by certified mail of such commencement.

(b) An operator shall be deemed to be without the financial assurances in the event of bankruptcy of its provider, or in the event of a suspension or revocation of the authority of the provider to issue such coverage. If such an event occurs, the operator shall demonstrate, to the Board or its designee, alternate coverage as specified in this Article within 60 days after receiving notice of the event. If the operator fails to obtain alternate coverage within 60 days, the operator shall notify the Board or its designee within 10 days of such failure.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of section heading and subsection (a)(1) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18481. Recordkeeping and Reporting Requirements.

(a) An operator shall maintain evidence of all financial assurance mechanisms until the operator is released from the requirements of this Article, as specified in section 18482. This evidence shall be maintained at each major waste tire facility, whenever possible, or at an alternate, designated location approved by the Board or its designee and which is accessible to the operator, and available for the Board or its designee to review.

(b) An operator shall maintain the following types of evidence of financial assurance:

(1) Trust Fund. An operator using a trust fund shall maintain a copy of the trust agreement and statements verifying the current balance of the fund.

(2) Surety Bond. An operator using a surety bond shall maintain a copy of the bond and any amendments to the bond.

(3) Letter of Credit. An operator using a letter of credit shall maintain a copy of the letter of credit and any amendments to the letter of credit.

(4) Government Securities. An operator using government securities shall maintain a copy of the following:

(A) All official resolutions, forms, letters or other pertinent documents generated to issue the securities;

(B) The terms of issuance of the securities; and

(C) With respect to the financial assurance mechanism into which proceeds from the issuance are deposited, the information listed in subsection (5)(C)1., 2., and 3. of this section.

(5) Enterprise Fund. An operator using a enterprise fund shall maintain a copy of the following:

(A) All official resolutions, forms, letters, or other pertinent documents generated to establish the fund;

(B) The annual financial statements of the fund; and

(C) With respect to the financial assurance mechanism into which enterprise fund revenue is deposited:

1. The mechanism, which shall identify the major waste tire facility(ies) and the current closure cost estimates covered by the mechanism;

2. A letter from an authorized officer of the institution maintaining the mechanism, identifying the amount of coverage provided by the mechanism as of the date of its establishment and each anniversary date of establishment; and

3. Documentation that the mechanism meets the requirements of section 18478(d) of this Article.

(c) An operator shall submit current evidence of financial responsibility, as described in subsection (b) of this section, to the Board or its designee:

(1) Whenever a financial assurance mechanism is established or amended.

(A) In the case of a trust fund, letter of credit or surety bond, such documentation shall include the original mechanisms or amendments;

(B) In the case of government securities such documentation shall include the information as specified in subsection (b)(4)(C) of this section.

(C) In the case of the enterprise fund such documentation shall include the information as specified in subsection (b)(5)(C) of this section.

(2) When a closure plan is required to be submitted as required in Article 6, or when the amendment of a cost estimate is required to be submitted as required in Articles 6 or 9; or

(3) If an operator fails to increase the balance of a trust fund or an enterprise fund in accordance with section 18474(c) of this Article.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsections (b)(5)(C)2. and (c)(2) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18482. Release from Financial Assurance Requirements for Closure Costs.

(a) After approving the closure of a major waste tire facility as specified in Article 6 of Chapter 6, the Board or its designee shall notify the operator in writing, that the operator is no longer required by this Article to maintain financial assurance for closure of a particular facility; or

(b) When operational control of a major waste tire facility is transferred, the existing operator shall remain subject to the requirements of this Article until the new operator provides acceptable financial assurances to the Board or its designee. The Board or its designee shall notify the previous operator in writing that they are no longer required to maintain financial assurance for closure of that particular facility.

NOTE: Authority cited: Sections 40502 and 42820. Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsection (a) and repealer and adoption of forms transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect moving forms to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

Article 10. Financial Responsibility for Operating Liability Claims of Major Waste Tire Facilities

§ 18485. Scope and Applicability.

(a) This Article requires operators of major waste tire facilities to demonstrate adequate financial ability to compensate third parties for bodily injury and property damage caused by facility operation.

(b) Operators of all major waste tire facilities, except state and federal operators, shall comply with the requirements of this Article upon application for issuance of a major waste tire facilities permit pursuant to Chapter 6, Article 1, section 18420.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. Editorial correction of printing error in article heading (Register 92, No. 40).
5. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
7. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
8. Editorial correction of HISTORY 5 (Register 93, No. 26).
9. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsection (a) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18486. Definitions.

(a) When used in this Article, the following terms shall have the meanings described in Chapter 5, Article 3.5, section 18281:

(1) "Assets";
(2) "Current assets";
(3) "Current liabilities";
(4) "Financial reporting year";
(5) "Liabilities";
(6) "Net working capital";
(7) "Net worth";
(8) "Parent corporation"; and
(9) "Tangible net worth".

(b) When used in this Article, the following terms shall have the meanings given below:

(1) "Accidental occurrence" means an event, including pollution exposure, which occurs during the operation of a major waste tire facility prior to closure, that results in bodily injury and/or property damage, and includes continuous or repeated exposure to conditions, neither expected nor intended from the standpoint of the facility operator.

(2) "Admitted carrier" means an insurance company entitled to transact the business of insurance in this state, having complied with the laws imposing conditions precedent to transactions of such business.

(3) "Auto" means a land motor vehicle, trailer or semitrailer designed for travel on public roads, including any attached machinery or equipment. But "auto" does not include "mobile equipment."

(4) "Bodily injury" means any injury to the body, sickness or disease sustained by a person, including death resulting from any of these at any time. Damages because of "bodily injury" include damages claimed by any person or organization for care, loss of services or death resulting at any time from the "bodily injury." "Bodily injury" excludes:

(A) "Bodily injury" expected or intended from the standpoint of the operator. This exclusion does not apply to "bodily injury" resulting from the use of reasonable force to protect persons or property.

(B) "Bodily injury" for which the operator is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the operator would have in the absence of the contract or agreement.

(C) Any obligation of the operator under a workers compensation, disability benefits or unemployment compensation law or any similar law.

(D) "Bodily injury" to:

1. An employee of the operator arising out of and in the course of employment by the operator; or

2. The spouse, child, parent, brother or sister of that employee as a consequence of subsection (b)(4)(D)1 above.

This exclusion applies:

a. Whether the operator may be liable as an employer or in any other capacity; and

b. To any obligation to share damages with or repay someone else who must pay damages because of the injury.

(E) "Bodily injury" arising out of the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft owned or operated by or rented or loaned to any operator. Use includes operation and loading or unloading. This exclusion does not apply to:

1. Parking an "auto" on, or on the ways next to, premises the operator owns or rents, provided the "auto" is not owned by or rented or loaned to the operator;

2. "Bodily injury" arising out of the operation of any of the equipment listed in paragraph (F)2. or (F)3. of the definition of "mobile equipment", found in subsection 12 below.

(5) "Corporate guarantee" means a contract meeting the requirements of section 18494 of this Article through which a guarantor promises that, if an operator fails to pay a claim by a third party for bodily injury and/or property damage caused by an accidental occurrence, the guarantor shall pay the claim on behalf of the operator.

(6) "Excess coverage" means assurance for third party bodily injury and property damage costs that are above a specified level (i.e., above the primary coverage level or a limit of lower excess coverage) but up to a specified limit.

(7) "Financial means test" means the financial assurance mechanism specified in section 18493 of this Article by which an operator demonstrates his or her ability to pay third party claims for bodily injury and property damage caused by accidental occurrences by satisfying the prescribed set of financial criteria.

(8) "Government securities" means financial obligations meeting the requirements of section 18490 of this Article that are issued by a federal, state, or local government, including but not limited to, general obligation bonds, revenue bonds, and certificates of participation.

(9) "Guarantor" means a parent corporation, or a corporation with a substantial business relationship to the operator who guarantees payment of a present or future obligation(s) of an operator.

(10) "Insurance" means a contract meeting the requirements of section 18491 of this Article by which an insurer promises to pay a claim by a third party for bodily injury and property damage caused by an accidental occurrence.

(11) "Legal defense costs" means expenses that an operator or a provider of financial assurance incurs in defending claims brought:

(A) By or on behalf of a third party for bodily injury and/or property damage caused by an accidental occurrence; or

(B) By any person to enforce the terms of a financial assurance mechanism.

(12) "Mobile equipment" means any of the following types of land vehicles, including any attached machinery or equipment:

(A) Bulldozers, farm machinery, forklifts and other vehicles designed for use principally off public roads;

(B) Vehicles maintained for use solely on or next to premises the operator owns or rents;

(C) Vehicles that travel on crawler treads;

(D) Vehicles, whether self-propelled or not, maintained primarily to provide mobility to permanently mounted:

1. Power cranes, shovels, loaders, diggers or drills; or

2. Road construction or resurfacing equipment such as graders, scrapers or rollers;

(E) Vehicles not described in (A), (B), (C) or (D) above that are not self-propelled and are maintained primarily to provide mobility to permanently attached equipment of the following types:

1. Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well servicing equipment; or

2. Cherry pickers and similar devices used to raise or lower workers;

(F) Vehicles not described in (A), (B), (C) or (D) above maintained primarily for purposes other than the transportation of persons or cargo. However, self-propelled vehicles with the following types of permanently attached equipment are not "mobile equipment" but will be considered "autos":

1. Equipment designed primarily for:

a. Snow removal;

b. Road maintenance, but not construction or resurfacing;

c. Street cleaning;

2. Cherry pickers and similar devices mounted on automobile or truck chassis and used to raise or lower workers; and

3. Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well servicing equipment.

(13) "Primary coverage" means the first priority coverage for third party bodily injury and property damage costs up to a specified limit when used in combination with other coverage.

(14) "Property damage" means physical injury to tangible property, including all resulting loss of use of that property, or loss of use of tangible property that is not physically injured. "Property damage" excludes:

(A) "Property damage" expected or intended from the standpoint of the operator.

(B) "Property damage" for which the operator is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the operator would have in the absence of the contract or agreement.

(C) "Property damages" arising out of the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft owned or operated by or rented or loaned to any operator. Use includes operation and loading and unloading. This exclusion does not apply to:

1. Parking an "auto" on, or on the ways next to, premises the operator owns or rents, provided the "auto" is not owned by or rented or loaned to the operator;

2. "Property damage" arising out of the operation of any of the equipment listed in paragraph (F)2. or (F)3. of the definition of "mobile equipment", found in subsection 12 above.

(D) "Property damage" to:

1. Property the operator owns, rents, or occupies;

2. Premises the operator sells, gives away or abandons, if the "property damage" arises out of any part of those premises;

3. Property loaned to the operator;

4. Personal property in the operator's care, custody or control;

5. That particular part of real property on which the operator or any contractors or subcontractors working directly or indirectly on the operator's behalf are performing operations, if the "property damage" arises out of those operations; or

6. That particular part of any property that must be restored, repaired or replaced because the operator's work was incorrectly performed on it.

(15) "Provider of financial assurance" means an entity, other than the operator, that provides financial assurance to the operator of a major waste tire facility, including a trustee, an insurer, or a guarantor.

(16) "Substantial business relationship" means a business relationship that arises from a pattern of recent or ongoing business transactions.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2-10-92 as an emergency; operative 2-10-92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6-9-92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5-29-92 as an emergency; operative 6-8-92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-6-92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9-28-92 as an emergency; operative 10-6-92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2-3-92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1-25-93 as an emergency; operative 2-2-93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6-2-93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-25-93 order transmitted to OAL 5-26-93; disapproved by OAL on 6-22-93 (Register 93, No. 26).
6. New section filed 6-22-93 as an emergency; operative 6-22-93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10-20-93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6-22-93 emergency order including amendments transmitted to OAL 9-23-93 and filed 11-3-93 (Register 93, No. 45).
9. Amendment of subsection (b)(1) and redesignation of former subsections (b)(4)(D)1. and 2. as subsections (b)(4)(D)a. and b. filed 4-1-2003; operative 5-1-2003 (Register 2003, No. 14).

§ 18487. Amount of Required Coverage.

(a) An operator of one or more major waste tire facilities shall demonstrate financial responsibility for compensating third parties for bodily injury and property damage caused by accidental occurrences, including exposures to pollution.

(b) The required amounts of coverage shall be:

(1) $500,000 per occurrence with a $500,000 annual aggregate for each facility permitted for 5,000 to 200,000 tires or tire equivalents; or

(2) $1,000,000 per occurrence with a $1,000,000 annual aggregate for each facility permitted for 200,001 tires or more or corresponding tire equivalents.

(c) The required amounts of coverage shall be exclusive of legal defense costs, deductibles and self-insured retentions.

(d) The required amounts of coverage shall apply exclusively to an operator's facility or facilities located in the State of California.

(e) An operator may use one or more mechanisms to provide proof of financial assurance.

(f) If a trust fund or government securities is depleted to compensate third parties for bodily injuries and/or property damages caused by accidental occurrences, the operator shall, within one year of the depletion, demonstrate financial responsibility for the full amount of coverage required by section (a) by replenishing the depleted mechanism(s) and/or acquiring additional financial assurance mechanism(s).

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsection (b) and adoption of subsections (b)(1) and (b)(2) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of subsection (a) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18488. Acceptable Mechanisms and Combinations of Mechanisms.

(a) Subject to the limitations of subsections (c) and (d) of this section, an operator shall use any one, or any combination of the mechanisms which are defined in the following sections:

(1) Section 18489, Trust Fund

(2) Section 18490, Government Securities

(3) Section 18491, Insurance

(4) Section 18492, Self–Insurance and Risk Management

(5) Section 18493, Financial Means Test

(6) Section 18494, Corporate Guarantee

(7) Section 18494.5, State Approved Mechanism

(b) If a combination of mechanisms are chosen, the operator shall designate one mechanism as "primary" and all others as "excess" coverage.

(c) The government securities and self–insurance and risk management mechanisms are acceptable only for major waste tire facilities operated by government agencies.

(d) The financial means test and corporate guarantee mechanisms are acceptable only for major waste tire facilities operated by private firms.

(1) A private operator may combine a financial means test with a corporate guarantee only if, for the purpose of meeting the requirements of the financial means test, the financial statements of the operator are not consolidated with the financial statements of the guarantor.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of subsection (a) and new subsection (a)(7) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18489. Trust Fund.

(a) The trust fund shall have a trustee that is authorized to act as a trustee and whose trust operations are regulated and examined by a federal or state agency.

(b) The trust agreement shall be established by using form CIWMB 145 "Trust Agreement" (12/91) which is incorporated herein by reference; and also shall contain original signature of grantor and trustee. (See Appendix A.)

(c) If, at any time, the value of the trust fund is greater than the required amount of coverage minus the amount of coverage demonstrated by another mechanism, the operator may request in writing that the Board or its designee authorize the release of the excess funds. The Board or its designee shall review the request, and if any excess funds are verified, the Board or its designee shall instruct the trustee to release the funds.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsection (b) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (b) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18490. Government Securities.

(a) The terms of issuance of government securities shall specify that proceeds from the sale of the securities shall be deposited into a financial assurance mechanism that meets the requirements of section 18490(b) below.

(b) The securities shall have been issued and the proceeds already deposited into the financial assurance mechanism that provides equivalent protection to a trust fund by meeting the following requirements:

(1) Proceeds from the sale of securities shall be used exclusively to pay claims by third parties for bodily injury and property damage caused by accidental occurrences and shall remain inviolate against all other claims, including any claims by the operator, the operator's governing body, and the creditors of the operator and its governing body;

(2) The financial operations of the provider of the financial assurance are regulated by a federal or state agency, or the provider is otherwise certain to maintain and disburse the assured funds properly;

(3) If the provider of financial assurance has authority to invest revenue deposited into the mechanism, the provider shall exercise investment discretion similar to a trustee; and

(4) The mechanism meets other requirements that the Board or its designee determines are necessary to ensure that the assured funds shall be available in a timely manner.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18491. Insurance.

(a) The issuer of the insurance policy shall be an insurer that, at a minimum, is licensed by the California Department of Insurance to transact the business of insurance in the State of California as an admitted carrier.

(b) If coverage is not available as specified in (a) above, the operator may seek coverage by an insurer which, at a minimum, shall be eligible to provide insurance as an excess or surplus lines insurer in California.

(c) If coverage is obtained as described in section (b) of this section, the insurance shall be transacted by and through a surplus line broker currently licensed under the regulations of the California Department of Insurance and upon terms and conditions prescribed in the California Insurance Code (CIC), Division 1, Part 2, Chapter 6.

(d) The Board or its designee may object to the use of any insurer at anytime, whether before or after placement of coverage based on information obtained from, but not limited to, the Surplus Line Association of California, Best's Insurance Reports, and/or the Non–Admitted Insurers Quarterly List.

(e) Each insurance policy shall be either:

(1) Evidenced by a "Certificate of Liability Insurance" established by using form CIWMB 146 "Certificate of Liability Insurance" (12/91), which is incorporated herein by reference (See Appendix A.); or

(2) Amended and evidenced by a "Liability Insurance Endorsement" established by using form CIWMB 147 "Liability Insurance Endorsement" (12/91), which is incorporated herein by reference. (See Appendix A.)

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsections (e)(1)–(2) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18492. Self–Insurance and Risk Management.

(a) To use the self–insurance and risk management mechanism an operator shall:

(1) Be a public entity;

(2) Be self–insured;

(3) Employ a risk manager;

(4) Have an active safety and loss prevention program that seeks to minimize the frequency and magnitude of third party damages caused by accidental occurrences and other self–insured losses; and

(5) Have procedures for and a recent history of timely investigation and resolution of any claims for third party damages caused by accidental occurrences and other self–insured losses; and

(6) Satisfy any other reasonable conditions including but not limited to the submittal of audited financial statements that the Board or its designee determines are needed to ensure that the assured amount of funds shall be available in a timely manner.

(b) This coverage shall be demonstrated by using form CIWMB 148 (12/91), "Certificate of Self–Insurance and Risk Management", which is incorporated herein by reference. (See Appendix A.)

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (b) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18493. Financial Means Test.

(a) To pass the financial means test, an operator or a guarantor shall be a private entity and shall meet the criteria of section (c) or (d) based on independently audited year–end financial statements for the latest completed fiscal year.

(b) The phrase "amount of liability coverage to be demonstrated by the test" as used in sections (c) and (d) refers to the amount of liability coverage required by section 18487 of this Article.

(c) The operator or guarantor shall have:

(1) Net working capital and tangible net worth each at least six times the amount of liability coverage to be demonstrated by the test; and

(2) Tangible net worth of at least $10 million; and

(3) Assets located in the United States amounting to at least 90 percent of its total assets or at least six times the amount of liability coverage to be demonstrated by the test.

(d) The operator or guarantor shall have:

(1) A current rating for its most recent bond issuance of AAA, AA, A, or BBB issued by Standard and Poor's or Aaa, Aa, A, or Baa as issued by Moody's; and

(2) Tangible net worth of at least six times the amount of liability coverage to be demonstrated by the test; and

(3) Tangible net worth of at least $10 million; and

(4) Assets located in the United States amounting to at least 90 percent of its total assets or at least six times the amount of liability coverage to be demonstrated by the test.

(e) Within 90 days after the close of each financial reporting year, the operator or the guarantor shall submit the following items to the Board or its designee and, in the case of a guarantor, to the operator;

(1) A letter on the operator's or guarantor's official letterhead stationary that is worded and completed as specified in form CIWMB 149 "Instructions for the Letter from the Chief Financial Officer Financial Means Test for Liability" (12/91), which is incorporated herein by reference and which contains an original signature of the operator's or guarantor's chief financial officer. (See Appendix A.) An operator or guarantor shall use form CIWMB 149 to demonstrate or guarantee financial responsibility for liability coverage only. If the operator or guarantor is using a similar financial means test to demonstrate liability coverage for facilities in California or other states, such as but not limited to, hazardous waste treatment, storage, or disposal facilities, or solid waste landfills, or other waste tire facilities, the operator shall list all facilities covered by the financial means test, whether in California or not.

(2) A copy of an independent certified public accountant's report on examination of the operator's or guarantor's financial statements for the latest completed fiscal year, with a copy of the operator's or guarantor's financial statements for the latest completed fiscal year.

(3) A letter from an independent certified public accountant stating that:

(A) He or she has compared the data in the letter in section (e)(1), from the chief financial officer specified as having been derived from the financial statements for the latest completed fiscal year of the operator or the guarantor, with the amounts in the financial statements; and

(B) Based on the comparison, no matters came to his or her attention that caused him or her to believe that the specified data should be adjusted.

(4) If the operator or the guarantor is required to make such a filing, a copy of the operator's or guarantor's most recent form 10–K filed with the U.S. Securities and Exchange Commission.

(f) The Board or its designee may require updated financial statements at any time from the operator or guarantor. If the Board or its designee finds that the operator no longer meets the financial means test requirements of sections (c) or (d) based on such reports or other information, including but not limited to, credit reports and reports from other state agencies, the operator shall obtain alternate coverage within 60 days after receiving the notification of such a finding.

(g) If an operator using the financial means test fails to meet the requirements of the financial means test under sections (c) or (d), the operator shall obtain alternate coverage within 60 days after the determination of such failure.

(h) If the operator fails to obtain alternate coverage within the times specified in sections (f) or (g), the operator shall notify the Board or its designee by certified mail within 10 days of such failure.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsections (a) and (b) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (e)(1) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18494. Corporate Guarantee.

(a) The guarantor shall be:

(1) A parent corporation of the operator; or

(2) A firm whose parent corporation is also the parent corporation of the operator; or

(3) A firm engaged in a substantial business relationship with the operator and issuing the corporate guarantee as an act incident to that business relationship.

(b) The guarantor shall meet the requirements of the financial means test under sections 18493(c) or (d) of this Article based on the guarantor's audited year–end financial statements.

(c) The corporate guarantee shall be worded and completed as specified by form CIWMB 150 "Corporate Guarantee" (12/91), which is incorporated herein by reference. (See Appendix A.)

(d) The terms of the corporate guarantee shall specify that if the operator fails to satisfy a judgment or an award for bodily injury and property damage to third parties caused by accidental occurrences, or fails to pay an amount agreed in settlement of a claim arising from or alleged to arise from such injury and damage, the guarantor shall satisfy such judgment, award, or settlement agreement up to the limits of the corporate guarantee.

(e) If the guarantor fails to meet the requirements of the financial means test under section 18493(c) or (d) of this Article or wishes to terminate the corporate guarantee, the guarantor shall send notice of such failure or termination by certified mail to the operator and the Board or its designee within 90 days after the end of that financial reporting year. The corporate guarantee shall terminate no less than 60 days after the date that the operator and the Board or its designee have received the notice of such failure or termination, as evidenced by the return receipts. The guarantor shall establish alternate coverage as specified in section 18488 of this Article on behalf of the operator within 60 days after such notice, unless the operator has done so.

(f) The Board or its designee may require updated financial statements at any time from a guarantor. If the Board or its designee finds, on the basis of such reports or information from other sources, including but not limited to, credit reports and reports from other state agencies, that the guarantor no longer meets the financial means test requirements of section 18493(c) or (d) of this Article, or any requirements of section 18494 of this Article, the Board or its designee shall notify the guarantor and operator of such finding by certified mail. The guarantor shall establish alternate coverage as specified in section 18488 of this Article on behalf

of the operator within 60 days after such notice, unless the operator has done so.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsections (a)(3) and (e) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect amending subsection (c) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18494.5. State Approved Mechanism.

(a) An operator may satisfy the requirements of this Chapter by obtaining any other mechanism that meets the following criteria, and that is approved by the Board.

(1) The financial assurance mechanism(s) must ensure that the amount of funds assured is sufficient to cover the costs assured when needed;

(2) The financial assurance mechanism(s) must ensure that funds will be available in a timely fashion when needed;

(3) The financial assurance mechanism(s) must be obtained by the operator before the first waste is received at a new facility and before any other financial mechanism is cancelled at existing facilities. The financial mechanism must be maintained until the operator is released from the financial assurance requirements under this Chapter.

(4) The financial assurance mechanism(s) must be legally valid, binding, and enforceable under California and Federal law.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18495. Substitution of Mechanisms by Operator.

(a) An operator may substitute any alternate financial assurance mechanism(s) as described in sections 18489 through 18494 of this Article, provided that at all times the operator maintains an effective mechanism or a combination of effective mechanisms, that satisfies the requirements of section 18488 of this Article, and informs the Board or its designee of such substitution.

(b) In the event an operator obtains alternate financial assurance, it may request that the Board or its designee terminate or authorize the termination of the previous financial assurance mechanism. The operator shall submit such a request in writing with evidence of alternate financial assurance.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18496. Cancellation or Nonrenewal by a Provider of Financial Assurance.

(a) Except as otherwise provided in section 18497 of this Article, a provider of financial assurance may cancel or not renew a financial assurance mechanism by sending a notice of termination by certified mail to the operator and the Board or its designee.

(b) Termination of a corporate guarantee shall occur no less than 60 days after the date on which the operator and the Board or its designee have received the notice of termination, as evidenced by the return receipts.

(c) Cancellation or nonrenewal of insurance or self–insurance and risk management coverage shall occur no less than 60 days after the date on which the operator and the Board or its designee have received the notice of termination, as evidenced by the return receipts; except in the case of non–payment of insurance premiums, in which case cancellation shall occur no less than 10 days after the date on which the operator and the Board or its designee have received the notice of termination.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18497. Bankruptcy or Other Incapacity of Operator or Provider of Financial Assurance.

(a) Within 10 days after commencement of a voluntary or involuntary proceeding under the Bankruptcy Code, Title 11 U.S.C. sections 101–1330 in which:

(1) The operator is named as debtor, the operator shall notify the Board or its designee by certified mail of such commencement.

(2) A provider of financial assurance is named as debtor, such provider shall notify the operator and the Board or its designee by certified mail of such commencement.

(b) An operator shall be deemed to be without the required financial assurance in the event of bankruptcy of its provider of financial assurance, or in the event of a suspension or revocation of the authority of the provider of financial assurance to issue a mechanism. If such an event occurs, the operator shall demonstrate alternate financial assurance as spe-

cified in this Article within 60 days after receiving notice of the event. If the operator fails to obtain alternate financial assurance within 60 days, the operator shall notify the Board or its designee within 10 days of such failure.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsection (b) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18498. Recordkeeping and Reporting.

(a) An operator shall maintain evidence of all financial assurance mechanisms until the operator is released from the requirements as specified in section 18499 of this Article. This evidence shall be maintained at each major waste tire facility, whenever possible, or at an alternate, designated location approved by the Board or its designee and which is accessible to the operator, and available for Board staff review.

(b) An operator shall maintain the following types of evidence, and shall maintain an original or copy of each mechanism used to demonstrate financial responsibility under this Article:

(1) Trust Fund. An operator using a trust fund shall maintain a copy of the trust agreement and statements verifying the current balance of the fund.

(2) Government Securities. An operator using government securities shall maintain a copy of the following:

(A) All official resolutions, forms, letters, or other pertinent documents generated to issue the securities;

(B) The terms of issuance of the securities; and

(C) With respect to the mechanism into which the funds generated by the issuance are deposited:

1. Identify the major waste tire facilities covered by the fund and the amount of third party liability coverage;

2. Include a letter from an authorized officer of the institution maintaining the mechanism identifying the amount of funds provided by the mechanism as of the anniversary date of each mechanism for each year; and

3. Include a copy of the evidence documenting that the mechanism meets the requirements of section 18490(b) of this Article.

(3) Insurance. An operator using insurance shall maintain the original or a copy of the insurance policy in addition to the original or a copy of the liability insurance endorsement or the certificate of liability insurance.

(4) Self–Insurance and Risk Management. An operator using self–insurance and risk management shall maintain:

(A) The name and qualifications of the currently employed risk manager;

(B) Pertinent documents verifying the ongoing activity of the operator's safety and loss prevention program; and

(C) Pertinent documents showing procedures for timely investigation and resolution of any claims for third party damages caused by accidental occurrences and other self–insured losses.

(5) Financial Means Test. An operator using a financial means test shall maintain a copy of the information specified in section 18493(e) of this Article.

(6) Corporate Guarantee. An operator using a corporate guarantee shall maintain documentation of the corporate guarantee as specified in sections 18494(a),(b),and (c) of this Article.

(c) An operator shall submit the documentation of current evidence of financial responsibility listed in section 18498(b) to the Board or its designee whenever a financial assurance mechanism is established or amended:

(1) In the case of a trust fund such documentation shall include the original mechanism and a copy of the current statement verifying the balance of the account;

(2) In the case of government securities such documentation shall include the information as specified in section 18498(b)(2) of this Article;

(3) In the case of a financial means test, or a corporate guarantee, such documentation shall include the original mechanism; or

(4) In the case of insurance or self–insurance and risk management, such documentation shall include the original liability insurance endorsement, certificate of liability insurance, or certificate of self–insurance and risk management.

(d) An operator shall submit written notice to the Board or its designee of the number of claims paid and the total dollar amount paid as a result of an accidental occurrence at an operating facility. This information shall be compiled for the previous calendar year and submitted to the Board or its designee by March 1st of each year.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of subsection (b) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).

§ 18499. Release of an Operator from the Requirements.

(a) After approving the closure of the major waste tire facility as specified in Article 6, the Board or its designee shall notify the operator and the provider of financial assurance in writing, that he or she is no longer required to demonstrate financial responsibility by this Article for third party operating liability, at the particular facility.

(b) When operational control of a major waste tire facility is transferred, the existing operator shall remain subject to the requirements of this Article until the new operator provides acceptable financial assurances to the Board or its designee.

NOTE: Authority cited: Sections 40502 and 42820, Public Resources Code. Reference: Section 42821, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment of text and repealer and adoption of forms transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Change without regulatory effect moving forms to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

Article 11. Financial Assurances Enforcement Procedures for Major Waste Tire Facilities

§ 18499.1. Scope and Applicability.

All operators of major waste tire facilities shall be subject to the requirements of this article, except state and federal operators.

NOTE: Authority cited: Sections 40502, 42850 and 42850.1, Public Resources Code. Reference: Sections 40502, 42850 and 42850.1, Public Resources Code.

HISTORY

1. New article 11 (sections 18499.1–18499.9) and section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18499.2. Definitions.

(a) "Degree of non–compliance" means the status of compliance of an operator with the financial assurance requirements. An operator is either: 1) partially out of compliance with the requirements ("Minor"); or 2) completely out of compliance with the requirements ("Major").

(b) "Potential for harm" means the degree to which operator's actions adversely affect the public health, safety and the environment. This potential is based on the number of tires for which that facility is permitted.

(1) Major: 1,000,001 tires or more, or tire equivalents.

(2) Moderate: 200,001 to 1,000,000 tires or tire equivalents.

(3) Minor: 5000 to 200,000 tires or tire equivalents.

NOTE: Authority cited: Sections 40502, 42850 and 42850.1, Public Resources Code. References: Sections 40502, 42850 and 42850.1, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18499.3. Notice of Violation.

(a) The CIWMB shall send a written Notice of Violation to an operator violating the requirements of Articles 9 or 10 of this Chapter (commencing with section 18470).

(b) The Notice of Violation shall:

(1) describe the violation which CIWMB staff believe is occurring; and

(2) describe the consequences of continued failure to comply or respond.

(c) All operators shall submit a response to a Notice of Violation within 10 working days from receipt of the Notice of Violation.

(d) The CIWMB may consider all contacts with an operator as "good faith" efforts to comply with this Chapter, and the CIWMB may extend the timeframe for an operator to respond and/or comply, as the CIWMB deems necessary, to assure adequate financing for closure activities and operating liability.

NOTE: Authority cited: Sections 40502, 42850 and 42850.1, Public Resources Code. Reference: Sections 40502, 42850 and 42850.1, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18499.4. Issuance of Notice and Order, Cleanup and Abatement Order, and/or Stipulated Notice and Order.

(a) If an operator fails to respond to the Notice of Violation within the specified timeframe, the CIWMB shall draft and send a Notice and Order or Cleanup and Abatement Order to the operator.

(b) An operator shall respond to the CIWMB with evidence of compliance, or request an alternate schedule for compliance, within 10 working days from receipt of the Order.

(c) If an operator responds to the Order by offering partial compliance immediately, and full compliance over a period of time, which is acceptable to the CIWMB, the CIWMB may enter into a Stipulated Notice and Order with the operator.

(d) If an operator fails to conform with the compliance schedule within the specified timeframe as provided in the Notice and Order, Cleanup and Abatement Order or Stipulated Notice and Order, further enforcement action may be taken by the CIWMB, as specified in the Notice and Order, Cleanup and Abatement Order, or Stipulated Notice and Order.

NOTE: Authority cited: Sections 40502, 42850 and 42850.1, Public Resources Code. References: Sections 40502, 42850 and 42850.1, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18499.5. Compliance Options.

(a) The CIWMB may consider compliance options other than imposing penalties, to assure adequate financing for closure activities and operating liability. The CIWMB may consider options that include, but are not limited to:

(1) Placing restrictions on current financial assurance mechanism(s) being used by the operator such as more frequent reporting requirements.

(2) Prohibiting use of current financial assurance mechanism(s) being used by the operator, and requiring the operator to establish an alternate mechanism as prescribed in section 18473 and 18488 of this Title.

NOTE: Authority cited: Section 40502, 42850 and 42850.1, Public Resources Code. Reference: Sections 40502, 42850 and 42850.1 Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18499.6. Penalty Calculations.

(a) If the CIWMB chooses to impose a penalty, the daily penalty shall equal an amount determined by the gravity–based matrix, in Table 1, using the degree of non–compliance and the potential for harm as the deciding factors, added to the economic benefit an operator receives from non-compliance with this Chapter.

Table 1.

	Degree of Non–Compliance	
Potential for Harm	*Major*	*Minor*
Major	$10,000 to $905	$904 to $804
Moderate	$803 to $703	$702 to $652
Minor	$651 to $551	$550 to $500

(1) The economic benefit portion of a penalty for lack of liability coverage shall be based on a minimum annual premium for liability insurance, as identified by a CIWMB survey of the insurance industry. The premium is multiplied by the number of years an operator is out of compliance (rounded up to the next whole year if a partial year of non–compliance exists).

(2) The economic benefit portion of a penalty for lack of coverage for closure costs shall be based on the current cost of a letter of credit or bond,

as identified by a CIWMB survey of the banking industry or insurance industry, respectively. The cost for a letter of credit or bond is multiplied by the pro–rata factor for the length of time of non–compliance.

(b) Determinations of penalty amounts may be modified by the CIWMB for one or more of the following reasons:

(1) Evidence that coverage has been subsequently provided, such as bank statements, letter from county treasurer verifying balance of fund, certificate demonstrating adequate coverage, etc.

(2) Evidence of a payment schedule, if applicable, detailing the operator's good faith efforts has been subsequently provided, such as past deposits to the financial assurance mechanism, etc.

(3) An operator's good faith efforts to comply or lack of good faith.

(4) An operator's degree of willingness to comply.

(5) An operator's history of compliance.

(6) Other unique factors such as size of operation, threat to public health and safety and the environment.

(c) Penalties may be pursued by the CIWMB administratively or through superior court as specified in Public Resources Code, sections 42850 and 42850.1.

NOTE: Authority cited: Sections 40502, 42850 and 42850.1, Public Resources Code. Reference: Sections 40502, 42850 and 42850.1, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18499.7. Processing and Collection of Civil Penalty.

Processing and collection of civil penalties shall be made by the CIWMB as provided in Public Resources Code Section 42855.

NOTE: Authority cited: Sections 40502, 42850 and 42850.1, Public Resources Code. Reference: Sections 40502, 42850, 42850.1 and 42855, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18499.8. Appeals Process.

Any aggrieved person may appeal a Notice and Order or Cleanup and Abatement Order by the CIWMB, according to Public Resources Code, section 42854.

NOTE: Authority cited: Sections 40502, 42850 and 42850.1, Public Resources Code. Reference: Sections 40502, 42850, 42850.1 and 42854, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 18499.9. Continued or Recurring Violations.

(a) If an operator pays an initial penalty but fails to correct the violation pursuant to Notice and Order or Cleanup and Abatement Order, or has recurring violations within a one year period from the date of the preceding Notice of Violation:

(1) the CIWMB may re–initiate the enforcement process;

(2) the CIWMB may pursue action to revoke a permit, according to Public Resources Code section 42843, and/or pursue closure of the facility;

(3) the CIWMB may pursue both (1) and (2) above.

NOTE: Authority cited: Sections 40502, 42850 and 42850.1, Public Resources Code. Reference: Sections 40502, 42843, 42850 and 42850.1, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

Chapter 7. Special Waste Standards

NOTE: Authority cited: Sections 68042 and 66770, Government Code and Section 24389, Health and Safety Code. Reference: Chapter 1 of Title 7.8 and Sections 66770, 66771, Government Code and Chapter 3.5 of Division 29, Health and Safety Code.

HISTORY

1. New Chapter 7 (Articles 1–5, consecutive; Sections 18500–18546, not consecutive) filed 8–18–78; effective thirtieth day thereafter (Register 78, No. 33).
2. Repealer of Chapter 7 (Articles 1–5, Sections 18500–18548, not consecutive) filed 2–3–83; effective thirtieth day thereafter (Register 83, No. 6).

Article 1. General

§ 18500. Scope.

The regulations contained in chapter 7 pertain to the California Integrated Waste Management Board's requirements regarding activities related special wastes, including but not limited to household hazardous wastes.

NOTE: :Authority Cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 40052 and 46400, Public Resources Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).

Article 1.1. Definitions

§ 18502. Definitions.

(a) The following definitions shall apply to the regulations contained in this chapter.

(1) "Act" means the Solid Waste Disposal Site Hazard Reduction Act of 1989 (Statutes of 1989, chapter 1095).

(2) "Account" means the Solid Waste Disposal Site Cleanup and Maintenance Account described in section 46800 of the Public Resources Code.

(3) "Applicant" means a city, county or local agency applying for a grant award.

(4) "Board" means the California Integrated Waste Management Board.

(5) "DTSC" means the Department of Toxic Substances Control.

(6) "Fiscal Year" means the year commencing on the first day of July and ending on June 30 of each year.

(7) "Grant" means an award of funds in either one of the following manners

(A) "Discretionary Grant" means an award of funds to a city, county or local agency which is based on the evaluation and selection of the applicant's proposed or implemented Household Waste Program pursuant to section 18533.1 of article 2.2, and which is subject to fund availability in the Account after all non–discretionary grants have been awarded.

(B) "Non–discretionary Grant" means an award of funds to a city, county or local agency which has implemented a Household Hazardous Waste Program during the fiscal year prior to the grant application; and which meets the specific criteria for the non–discretionary award pursuant to section 18515 of article 2.1.

(8) "Grant Agreement" means the written document, any amendment(s) and written change orders thereto, which is signed by the Board or its designated representative and the grant recipient and which defines the terms, provisions and conditions governing the grant. The terms of the grant agreement shall be for a period negotiated between the grant recipient and the Board.

(9) "Grant Recipient" means the city, county or local agency which receives a grant award from the Board.

(10) "Grant Year" means that time period in which the grant application submittal process, selection and award distribution will occur. The time period will begin on the first day of July in one year and end on June 30 of the next calendar year.

(11) "Hazardous Waste" (HW) means waste as defined in section 40141 of the Public Resources Code and section 25117 Health and Safety Code: that is, waste or combination of wastes, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may do either of the following:

(A) Cause, or significantly contribute to, an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness.

(B) Pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed.

(12) "Household Hazardous Waste" (HHW) means waste materials determined by the Board, the Department of Toxic Substances Control (DTSC), the State Water Resources Control Board (SWRCB), or the Air Resources Board (ARB) to be:

(A) Of such a nature that they must be listed as hazardous in state statutes and regulations; or are

(B) Toxic/ignitable/corrosive/reactive; and

(C) Carcinogenic/mutagenic/teratogenic; which is discarded from householders as opposed to businesses.

(13) "HHW Program" means a program sponsored by a city, county or local agency which results in the separation of HW and/or HHW from the solid waste stream. An HHW Program may include, but is not limited to, the following activities:

(A) Load Checking Programs;

(B) Collection Programs

1) Periodic

2) Permanent

3) Mobile Collection Program

4) Residential Pick–up Service;

(C) Waste Control and Enforcement Programs;

(D) Educational Programs; and/or

(E) Other program activities incorporating reuse, reduction, or recycling of HW and HHW.

(14) "Jurisdiction" means a city, county, or local agency with responsibility for waste management.

(15) "Load Checking Program" means a program which provides for physical inspection and removal of hazardous wastes from the incoming waste stream at any solid waste facility, as defined in section 40194 of the Public Resources Code.

(16) "Local agency" means any public agency which is responsible for waste management and which sponsors a program(s) to prevent the disposal of H and/or HHW at a solid waste disposal facility.

(17) "Local Funding" means those monies originating solely from a jurisdiction which are to be used or were used to conduct a HHW collection program.

(18) "Mobile Collection Program" means two or more permanent household hazardous waste collection sites utilizing at least one transportable container for the sites and operated on an intermittent schedule.

(19) "Periodic HHW Collection Program" means a program in which a jurisdiction sponsors HHW collection activities at least once a year with each collection event beginning and ending within a one week period (seven days).

(20) "Permanent HHW Collection Program" means a program in which a jurisdiction sponsors the maintenance of a permanent HHW collection program at a specific site which is open to the public at least for one day, or a portion of that day, each week.

(21) "Proposal" means that part of a discretionary grant application from a jurisdiction specifying its intent to establish or implement a HHW Program, commencing in the fiscal year following the application period, which consists of a newly established program or incorporates a new or added service or capability to an existing HHW program.

(22) "Recycling Activities" means those projects which divert hazardous materials from non–hazardous solid waste landfills; and which utilize one or more of the processes for collecting, sorting, cleansing, treating, and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the market place. "Recycling" does not include transformation, as defined in section 40201 of the Public Resources Code.

(23) "Reduction" means to use only the required amount of a product which contains a hazardous ingredient(s) for a specific task; and/or to use a product containing a lesser amount of a hazardous ingredient(s) in comparison with other brands of the same type of product.

(24) "Regional" means any area which included two or more jurisdictions responsible for waste management. This includes two or more cities, two or more counties, or two or more local agencies, or the combination of a city (cities), a county (counties) and/or local agency (agencies).

(25) "Residential Pick–up Service" means the service sponsored by a city, county or local agency for the residents of a community whereby HHW is picked up from each resident's home.

(26) "Reuse" means the use of a product containing a hazardous ingredient after it is no longer needed by the person who originally purchased and/or used the product.

(27) "Waste Control and Enforcement Programs" means a program as provided in section 46400(b) of the Public Resources Code.

NOTE: Authority cited: Sections 40502, 46205 and 46208, Public Resources Code. References: Section 40180, 40201, 46400 and 46401, Public Resources Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).
2. Amendment filed 7–22–92; operative 7–22–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 30).

Article 2. General Provisions

§ 18504. Scope and Applicability.

a) The regulations contained in this article set forth the criteria needed by cities, counties and local agencies responsible for waste management to apply for and receive a grant of funds from the Solid Waste Disposal Site Cleanup and Maintenance Account (Account).

b) This article applies to all cities, counties and local agencies which are either:

1. currently implementing a program or activity which prevents the disposal of HW, including HHW into solid waste landfills, or

2. proposing the establishment of programs or services to prevent the disposal of HW; including HHW; into solid waste landfills.

NOTE: Authority cited: Sections 46205 and 46208, Public Resources Code. Reference: Sections 46400 and 46401, Public Resources Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).

§ 18505. Programs Eligible for Funding.

HHW Programs eligible for funding from the account include, but are not limited to, the following activities:

(a) Load Checking Programs;

(b) Collection Programs

1) Periodic

2) Permanent

3) Mobile

4) Residential Pick–up Service;

(C) Waste Control and Enforcement Programs;

(D) Educational Programs; and/or

(E) Other program activities incorporating reuse, reduction, or recycling of HW and HHW.

NOTE: Authority cited: Sections 46205, 46208, 46400 and 46401, Public Resources Code. Reference: Sections 46400 and 46401, Public Resources Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).

§ 18506. Grant Application Process.

a) A jurisdiction, with an eligible program, shall submit the documents specified in section 18515 of article 2.1 or sections 18533 and 18533.1 of article 2.2, whichever are applicable, in order to apply for a grant award.

b) Documents required in (a) of this section shall be submitted to the principal place of business of the California Integrated Waste Management Board, in care of the HHW Management Program.

c) An original and three (3) copies of the documents required in (a) of this section shall be submitted to the Board. All materials submitted will become the property of the Board and will be retained for a minimum of three years.

d) The required application documents shall be received by the Board on or before the close of the application period specified in either section 18511 of article 2.1 or section 18531 of article 2.2, whichever is applicable.

NOTE: Authority cited: Sections 46205 and 46208, Public Resources Code. Reference: Sections 46400 and 46401, Public Resources Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).
2. Change without regulatory effect repealing section filed 3–28–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 13).

Article 2.2. Discretionary Grants

§ 18530. Grant Eligibility.

a) A jurisdiction which has not received a non–discretionary grant in accordance with Article 2.1, Section 18512, and which submits a grant application for a HHW program to ensure that HW, including, but not limited to, HHW, is not disposed of in a solid waste landfill, and which meets the definition of a HHW Program under Section 18502(a)(13) and that of a proposal under Section 18502(a)(21) of this Chapter, is eligible for a discretionary grant.

b) A jurisdiction which has received a non–discretionary grant in accordance with article 2.1, section 18512, remains eligible to receive a discretionary grant under this article for the following:

1) A HHW program which meets the definitions under Section 18502(a)(13) and Section 18502(a)(21) of this Chapter; and/or

2) a portion of an HHW program which was not funded under article 2.1 of this chapter in the same grant year.

NOTE: Authority cited: Sections 46205 and 46208, Public Resources Code. Reference: Sections 46400 and 46401, Public Resources Code.

HISTORY
1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).
2. Amendment filed 7–22–92; operative 7–22–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 30).

§ 18531. Grant Application Period.

Applications for discretionary grants will be accepted beginning on the first Monday in December of each year commencing in December, 1990, until 4:00 p.m. on the last Friday in February of the next calendar year. Applications received after that date will be returned to the applicant.

NOTE: Authority cited: Sections 46205 and 46208, Public Resources Code. Reference: Section 46401, Public Resources Code.

HISTORY
1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).
2. Amendment filed 7–22–92; operative 7–22–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 30).

§ 18532. Grant Amount.

The Board may award a discretionary grant to an eligible jurisdiction in an amount to determined by the Board, but the amount shall not exceed $120,000 for any individual grant. The award amount will be based upon the amount of monies remaining in the Account after all non–discretionary grants have been awarded for the previous calendar year.

NOTE: Authority cited: Sections 46205 and 46208, Public Resources Code. Reference: Sections 46400 and 46401, Public Resources Code.

HISTORY
1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).

§ 18533. Contents of the Grant Application.

Any jurisdiction which applies for a discretionary grant shall submit an application to the Board which includes, but is not limited to, the following:

a) An application cover sheet, CIWMB Form 302, 3/90 which is incorporated by reference.

b) A grant application shall, at a minimum, incorporate the following elements describing the proposed or implemented program:

1) A description of the HHW disposal problem in the applicant's jurisdiction, including, the amount of HHW generated in the geographic area to be serviced. Include a discussion of the jurisidiction's Waste Generation Study as it relates to the identified HHW disposal problem.

2) The HHW Element of the Countywide Integrated Waste Management Plan prepared pursuant to Public Resources Code section 41750.

3) A general description of program goals or objectives for the proposed or completed program, including specific actions which will be taken or have been taken to mitigate the HHW disposal problem. This section must include a description of the program being proposed and discuss the proposed program in relation to the applicant's HHW Element.

4) An identification of the tasks necessary to complete the proposed program and an implementation schedule for the proposed tasks.

5) The geographic area to be serviced, or the geographic area that was serviced.

6) A budget report describing the costs for each completed program or proposed project within the overall HHW program. This shall include the actual or projected costs of staff, hazardous waste contractor fees, and the actual or projected costs for education, public awareness and/or advertising.

7) A description of funding sources other than the Account, which will be used, or which have been used for the program.

8) A report on insurance coverage for the project(s) as required by title 22, California Code of Regulations, section 66264.147, if applicable.

9) A copy of or status report on any required variances or permits from the DTSC, and the federal Environmental Protection Agency generator identification number.

10) A description of any recycling and/or reuse efforts for HHW which will be, or which have been, utilized in conjunction with the proposed project, or completed program, whichever is applicable.

11) A description of public education and awareness efforts to be utilized or which have been utilized.

12) A description of cooperative efforts between local government agencies and interested citizen associations and groups, if any, regarding implementation of the program.

13) Methods of jurisdiction plans to use to evaluate the success of the program, or methods which were used to evaluate the success of the program, whichever is applicable.

14) A resume of management personnel for the program, detailing their qualifications and experience.

15) A resolution from the jurisdiction's governing body authorizing submittal of the grant application and identifying the individual authorized to execute all necessary applications, contracts, agreements and amendments to carry out the purposes specified in the application.

c) The grant application for a discretionary grant may be accompanied by a list of the costs associated with the implementation of specific tasks of the grant application required by (a)(3) in order for the Board to provide partial funding for the program.

NOTE: Authority cited: Sections 46205 and 46208, Public Resources Code. Reference: Sections 41750, 46400 and 46401, Public Resources Code; section 25135.1(d)(4), Health and Safety Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).
2. Repealer of subsection (b) and NOTE and removal of text from section 18533.1 to section 18533 and amendment filed 7–22–92; operative 7–22–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 30).

§ 18533.1. Contents of the Grant Proposal.

NOTE: Authority cited: Sections 46205 and 46208, Public Resources Code. Reference: Sections 41750 and 46401, Public Resources Code; Section 25135.1(d)(4), Health and Safety Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).
2. Removal of text to section 18533 and amendment filed 7–22–92; operative 7–22–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 30).

§ 18534. Review of Grant Application.

a) The Board shall review a discretionary grant application for the following:

1) to verify that the application is complete; and

2) to verify that the grant proposal incorporates the elements required by sections 18533 and 18533.1 of this article; and

3) to evaluate the application to determine its eligibility for partial funding of an HHW Program.

b) The Board may request additional information related to the discretionary grant application required pursuant to section 18533 of this article. The applicant will have 10 (ten) working days, or as specified by the Board, to submit the requested information to the Board or it will be disqualified from consideration for a discretionary grant.

NOTE: Authority cited: Sections 46205 and 46208, Public Resources Code. Reference: Sections 46400 and 46401.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).

§ 18534.1. Selection of Grant Recipient.

a) The Board shall select one or more grant recipients based upon the recipient's satisfaction of the grant proposal elements required pursuant to section 18533.1 of this article.

b) The Board shall give lower priority for grant awards to grant applicants who have received funding for non–discretionary grants under article 2.1 of this Chapter in the same grant year; and for those applicants who had received discretionary grant funding in the year prior to the current grant year cycle.

NOTE: Authority cited: Sections 46208, Public Resources Code. Reference: Sections 46400 and 46401, Public Resources Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).
2. Amendment of subsection (b) filed 7–22–92; operative 7–22–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 30).

§ 18535. Payment of Grant Funds.

Discretionary grant recipients will be awarded grant funds no later than June 30 of each year, commencing in June, 1991.

NOTE: Authority cited: Sections 46208 and 46400, Public Resources Code. Reference: Section 46401, Public Resources Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).

§ 18536. Grant Agreement.

a) The grant recipient and the Board shall enter into a written grant agreement which contains the grant proposal as approved and which identifies and ensures compliance with the terms and conditions specified in section 18536.1 and any other special conditions or terms which the Board may deem necessary.

b) Written Approval of Changes to Grant Agreement. The recipient shall obtain prior written approval from the Board, or its designated representative, for any changes to the grant agreement. All requests shall include a description of the proposed change(s) and the reason(s) for the changes.

NOTE: Authority cited: Section 46208, Public Resources Code. Reference: Section 46205, Public Resources Code.

HISTORY

1. New section filed 8–30–90; operative 8–30–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 46).

§ 18536.1. Terms and Conditions of a Grant Agreement.

The grant recipient shall comply with the following terms and conditions:

a) Quarterly Progress Reports. The grant recipient shall submit a quarterly progress report to the Board within 30 days following the end of each quarter. The report shall include, but not be limited to:

1) A statement that the program(s) is or is not on schedule, and a description of the program tasks or milestones and the status of each. Pertinent reports or interim findings shall be appended.

2) A discussion of any difficulties or special problems encountered in accomplishing the project tasks.

3) A financial report comparing costs to date with the approved scope of work and the original budget. The report should state whether the program(s) is progressing within the approved budget, and an explanation of any current or anticipated deviations. The report shall include a Balance Sheet showing the program's current assets and liabilities as well as a Statement of Expenditures.

4) A report of any changes in management personnel.

5) The report for the fourth quarter will be the Final Report required pursuant to (e) of this section.

b) Compliance. Grant recipients shall comply with all applicable federal, state and local laws, ordinances, regulations and permits. The recipient shall secure any permits or variances required by the DHS and EPA and any other authorities having jurisdiction over the program(s) including but not limited to, the California Integrated Waste Management Board and the appropriate Regional Water Quality Control Boards. The grant recipients shall maintain or revise all applicable permits, such as solid waste facility permits, as needed.

c) Auditing.

1) All grant recipients shall maintain an accounting system for the program that utilizes generally accepted accounting principles and practices. The Board, the State Controller's Office and the State Auditor General's Office or their designated representative(s) shall have absolute right of access to all of the grant recipient's records pertaining to the grant agreement in order to conduct reviews and/or audits.

2) In addition to accounting records, all source documents associated with the accounting records shall be maintained. Source documents include, but are not limited to, bid summaries, contracts with the grant recipient, change orders showing approval by a city or county engineer, purchase orders, invoices, paid warrants, time sheets, labor distribution reports and payroll registers.

3) The accounting records and source documents shall be retained by the grant recipient for at least three (3) years after expiration of the grant agreement, or until the completion of a Board action and/or resolution of issues which may arise as a result of any litigation, claim negotiation or audit.

4) If an audit reveals that grant funds have not been spent in accordance with the grant agreement, the recipient shall be required to forfeit the unexpended portion of the grant and repay any improperly spent monies, plus interest at the rate the state would have earned on this money had it remained in the Account. Such forfeitures shall revert to the Account.

d) Grant Termination. The Board may terminate any grant in whole, or in part, at any time before the date of completion, whenever it is deter-

mined by the Board as a whole, that the recipient has failed to comply with the terms or conditions of the grant agreement. The Board shall notify the recipient within five working days, in writing, of the determination, the reasons for the termination of the grant, and the effective date of termination.

e) Final Report. At the end of each fiscal year during which funds are received, the grant recipient shall submit a final report. The report shall be submitted within 60 days of the end of the fiscal year and include, but not be limited to:

1) A Table of Contents.

2) A brief summary of the objectives of the grant and how these objectives were accomplished.

3) Any findings, conclusions, or recommendations for additional activities which result from the successful completion of the program for the grant year. A statement, if applicable, of future public and/or private support to maintain or further develop the program.

4) A list of contractors who participated, in whole or in part, in the grant program, including the names, addresses and a description of their work.

5) Final Financial Statement for the Program. This report shall provide information that enables the Board to determine the final specific use for all grant funds. It shall indicate all other sources of funds utilized by the program. The report shall also account for all revenues generated by the program.

4. New section filed 4–11–2001 as an emergency; operative 4–11–2001 (Register 2001, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–9–2001 or emergency language will be repealed by operation of law on the following day.
5. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 35).

Article 4. Selection Process

§ 18574. Allocation of Funds.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 115814, Health and Safety Code. Reference: Sections 115810, 115811 and 115813, Health and Safety Code.

HISTORY

1. New article 4 (sections 18574–18576) and section filed 8–10–2000 as an emergency; operative 8–10–2000 (Register 2000, No. 32). A Certificate of Compliance must be transmitted to OAL by 12–8–2000 or emergency language will be repealed by operation of law on the following day.
2. New article 4 (sections 18574–18576) and section refiled 12–8–2000 as an emergency; operative 12–8–2000 (Register 2000, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–9–2001 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 15).
4. New article 4 (sections 18574–18576) and section filed 4–11–2001 as an emergency; operative 4–11–2001 (Register 2001, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–9–2001 or emergency language will be repealed by operation of law on the following day.
5. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 35).

§ 18575. Criteria.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 115814, Health and Safety Code. Reference: Sections 115810, 115811 and 115813, Health and Safety Code.

HISTORY

1. New section filed 8–10–2000 as an emergency; operative 8–10–2000 (Register 2000, No. 32). A Certificate of Compliance must be transmitted to OAL by 12–8–2000 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 12–8–2000 as an emergency; operative 12–8–2000 (Register 2000, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–9–2001 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 15).
4. New section filed 4–11–2001 as an emergency; operative 4–11–2001 (Register 2001, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–9–2001 or emergency language will be repealed by operation of law on the following day.
5. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 35).

§ 18576. Requests Exceeding Funds.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 115814, Health and Safety Code. Reference: Sections 115810, 115811 and 115813, Health and Safety Code.

HISTORY

1. New section filed 8–10–2000 as an emergency; operative 8–10–2000 (Register 2000, No. 32). A Certificate of Compliance must be transmitted to OAL by 12–8–2000 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 12–8–2000 as an emergency; operative 12–8–2000 (Register 2000, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–9–2001 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 15).
4. New section filed 4–11–2001 as an emergency; operative 4–11–2001 (Register 2001, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–9–2001 or emergency language will be repealed by operation of law on the following day.
5. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 35).

Article 5. Grant Amount and Eligible Costs

§ 18577. Grant Amount.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 115814, Health and Safety Code. Reference: Section 115813, Health and Safety Code.

HISTORY

1. New article 5 (sections 18577–18580) and section filed 8–10–2000 as an emergency; operative 8–10–2000 (Register 2000, No. 32). A Certificate of Compliance must be transmitted to OAL by 12–8–2000 or emergency language will be repealed by operation of law on the following day.
2. New article 5 (sections 18577–18580) and section refiled 12–8–2000 as an emergency; operative 12–8–2000 (Register 2000, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–9–2001 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 15).
4. New article 5 (sections 18577–18580) and section filed 4–11–2001 as an emergency; operative 4–11–2001 (Register 2001, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–9–2001 or emergency language will be repealed by operation of law on the following day.
5. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 35).

§ 18578. Eligible Costs.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 115814, Health and Safety Code. Reference: Sections 115810, 115811 and 115813, Health and Safety Code.

HISTORY

1. New section filed 8–10–2000 as an emergency; operative 8–10–2000 (Register 2000, No. 32). A Certificate of Compliance must be transmitted to OAL by 12–8–2000 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 12–8–2000 as an emergency; operative 12–8–2000 (Register 2000, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–9–2001 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 15).
4. New section filed 4–11–2001 as an emergency; operative 4–11–2001 (Register 2001, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–9–2001 or emergency language will be repealed by operation of law on the following day.
5. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 35).

§ 18579. Ineligible Costs.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 115814, Health and Safety Code. Reference: Sections 115730, 115810, 115811 and 115813, Health and Safety Code.

HISTORY

1. New section filed 8–10–2000 as an emergency; operative 8–10–2000 (Register 2000, No. 32). A Certificate of Compliance must be transmitted to OAL by 12–8–2000 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 12–8–2000 as an emergency; operative 12–8–2000 (Register 2000, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–9–2001 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 15).
4. New section filed 4–11–2001 as an emergency; operative 4–11–2001 (Register 2001, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–9–2001 or emergency language will be repealed by operation of law on the following day.
5. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 35).

§ 18580. Payments.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 115814, Health and Safety Code. Reference: Sections 115810, 115811 and 115813, Health and Safety Code.

HISTORY

1. New section filed 8–10–2000 as an emergency; operative 8–10–2000 (Register 2000, No. 32). A Certificate of Compliance must be transmitted to OAL by 12–8–2000 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 12–8–2000 as an emergency; operative 12–8–2000 (Register 2000, No. 49). A Certificate of Compliance must be transmitted to OAL by

4–9–2001 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 15).
4. New section filed 4–11–2001 as an emergency; operative 4–11–2001 (Register 2001, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–9–2001 or emergency language will be repealed by operation of law on the following day.
5. Repealed by operation of Government Code section 11346.1(g) (Register 2001, No. 35).

Chapter 8. Used Oil Recycling Program

Article 1. General Provisions and Definitions

§ 18600. Introduction.

For the purposes of this Chapter, both the question and answer in each section have regulatory effect for implementation and enforcement. This Chapter has been adopted by the California Integrated Waste Management Board pursuant to and for the purpose of implementing the California Oil Recycling Enhancement Act, Sections 48600 through 48691 of the Public Resources Code. Nothing in this Chapter is intended to limit the authority of any other state or local agency in its proper exercise of regulatory authority over oil manufacturers, used oil haulers, or used oil recycling facilities.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48600, 48630 and 48680, Public Resources Code.

HISTORY

1. New chapter 8 (sections 18600–18675, not consecutive, articles 1–7) filed 10–23–78; effective thirtieth day thereafter (Register 78, No. 43).
2. Repealer of chapter 8 (articles 1–7, sections 18600–18675, not consecutive) and new chapter 8 (articles 1–6, sections 18600–18654, not consecutive) filed 12–22–83; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 84, No. 1).

The reorganization of Chapter 8 is being printed as a repealer and adoption for clarity.

3. Repealer and new section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18601. Definitions.

(a) In addition to the definitions provided in the Public Resources Code, the following definitions shall apply whenever the terms are used in this Chapter.

(1) "Act" means the California Oil Recycling Enhancement Act as described in Division 30, Part 7, Chapter 4 of the Public Resources Code.

(2) "Annual report" means a report that is submitted to the Board by each grant recipient beginning on the first January 1 after receiving a block grant and on or before January 1 thereafter for the term of the grant agreement, and as defined in Section 48674 of the Public Resources Code.

(3) "Anonymously donated" means delivered to a used oil collection center under circumstances which prevent identification of the generator, such as delivery after hours.

(4) "Block grant" means an award of funds from the California Used Oil Recycling Fund to a local agency which is based on the evaluation of an applicant's used oil collection program submitted pursuant to Section 48690 of the Public Resources Code.

(5) "Block grant account" means monies available for block grants to local governments as described in Section 48653(a)(4) of the Public Resources Code.

(6) "Board" means the California Integrated Waste Management Board.

(7) "CIWMB Oil manufacturer registration number" means the registration number provided by the Board or its designee to all oil manufacturers. All oil manufacturers must obtain a registration number from the Board prior to submitting reports to the Board.

(8) "Curbside collection program" means a service which collects used oil from households on a monthly or more regular basis, and which may collect other recyclable materials, including but not limited to newspaper, glass containers, aluminum cans, and bi–metals.

(9) "Department" means the Department of Toxic Substances Control.

(10) "Fee" means the $0.16 per gallon fee that oil manufacturers must pay to the Board for each gallon of lubricating oil sold, pursuant to Section 48650(a) of the Public Resources Code.

(11) "Fiscal Year" means the year commencing on July 1 and ending on June 30 of each year.

(12) "Generator" means any entity which generates used oil or causes a used oil hauler to transport such oil.

(13) "Generator category" includes:

(A) Collection station (i.e., service station, shop, garage, recycling center, curbside recycling operation)

(B) Industrial source

(C) Marine source

(D) Agricultural source

(E) Governmental source

(F) Outside California

(G) Other Haulers

(14) "Grant Agreement" means the written document, and any amendment(s) and written change orders thereto, which is signed by the Board or by its designated representative and the grant recipient, which defines the terms, provisions and conditions governing a block grant.

(15) "Grant Recipient" means the local agency which receives a block grant from the Board.

(16) "Grant Year" means the time period in which the grant application submittal, evaluation, selection, and award distribution will occur. The time period will begin on the first day of July in one year and end on June 30 of the next calendar year.

(17) "Incentive claim/report" means the formal request for payment of incentive fees on used lubricating oil either used to generate electricity by an electric utility, or transported by a used oil hauler to a certified used oil recycling facility or to an out–of–state facility registered with the U.S. EPA and in compliance with the regulations of the state in which the facility is located. The incentive claim/report is designed to satisfy the report requirements described in Public Resources Code Section 48670.

(18) "Industrial oil", as it is defined in Public Resources Code, Section 48616, includes, but is not limited to, any compressor, turbine, or bearing oil, hydraulic oil, metal–working oil, or refrigeration oil. Industrial oil does not include di–electric fluids.

(19) "Internal combustion engine" includes engines powered by gasoline, methanol, alcohol fuels, diesel, compressed natural gas, propane or butane.

(20) "Local agency" means a public entity which is a city, county, or district, or any political subdivision but not the State.

(21) "Lubricating oil", as it is defined in Public Resources Code, Section 48618, includes any oil which is intended for use in machinery powered by an internal combustion engine. Lubricating oil includes oil intended for use in an internal combustion engine crankcase, transmission, gearbox, or differential in an automobile, bus, truck, vessel, plane, train, heavy equipment, or other machinery powered by an internal combustion engine. Lubricating oil also includes consumer additives which are intended to be mixed with lubricating oils in an internal combustion engine and synthetic lubricating oils. Lubricating oil does not include oil intended for use in a 2–cycle engine where the oil is entirely consumed during usage.

(22) "Manifest" means a uniform hazardous waste manifest as defined in Section 25160 of the Health and Safety Code, which is hereby incorporated by reference.

(23) "Modified Manifest Receipt" means the receipt completed for each generator and attached to the manifest pursuant to Section

25250.8(b)(3) of the Health and Safety Code, which is hereby incorporated by reference.

(24) "Must" means a provision is mandatory.

(25) "Oil manufacturer" as it is defined in Section 48619 of the Public Resources Code, means the first person or entity in California to take title to lubricating or industrial oil for sale, use or transfer in California. For purposes of this chapter a person or entity who first takes title to lubricating or industrial oil from an out–of–state entity, for purposes of sale or distribution, is the oil manufacturer.

(26) "Operator" means the person or entity responsible for the handling and collection of used oil at a certified used oil collection center, curbside collection program, private business, state or local governmental agency, nonprofit organization, or electric utility.

(27) "Patron" means the person or entity delivering used oil to a certified collection center for storage and transportation to a recycling facility.

(28) "Quarter" means a three month period during a calendar year. For each year, the first quarter commences January 1 and ends March 31, the second quarter commences April 1 and ends June 30, the third quarter commences July 1 and ends September 30, and the fourth quarter commences October 1 and ends December 31, all inclusive.

(29) "Recycling Incentive" means the amount the Board pays for each quart of lubricating oil recycled, to every industrial generator, curbside collection program, certified used oil collection center, or electric utility pursuant to Sections 48651(a) and (b) of the Public Resources Code.

(30) "Regional" means any geographic area which includes two or more local agencies.

(31) "Used lubricating oil generated by a certified used oil collection center" means used lubricating oil generated on–site by the certified used oil collection center. It does not include used oil generated by an entity other than the center, except used oil delivered by the public in quantities of no more than 20 gallons per person per day.

(32) "Used oil collection program" means a program undertaken by a local agency to encourage the collection, recycling, and proper disposal of used oil generated at households. A used oil collection program includes but is not limited to, integration of used oil collection into an existing curbside collecting program, household hazardous waste program, and a public education and awareness program to promote opportunities for, and to educate the public as to the benefits from, recycling of used oil.

(33) "Used oil storage facility" means a hazardous waste facility which stores used oil, as defined in Section 25123.3(a) of the Health and Safety Code.

(34) "Used oil transfer facility" means a hazardous waste transfer facility that either stores used oil for periods greater than 144 hours, or that transfers used oil from one container to another as defined in Section 25123.3(c) of the Health and Safety Code.

(35) "U.S. EPA" means the United States Environmental Protection Agency.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48601, 48616, 48618, 48619, 48651, 48660, 48670, 48674, 48690 and 48691, Public Resources Code.

HISTORY

1. Repealer and new section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Amendment of section and NOTE filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order with amendment of subsections (a)(5)(G) and (H), (a)(12) and (a)(15)–(16) transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).
4. Editorial correction amending subsection (a)(12) and HISTORY 3 (Register 93, No. 28).
5. Certificate of Compliance as to 1–21–93 order including repealer and new subsection (a)(3), amendment of subsections (a)(7) and (a)(15), new subsection (a)(30) and subsection renumbering transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
6. Amendment of section and NOTE filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

Article 2. General Recordkeeping Requirements

§ 18610. Scope and Applicability.

The regulations contained in this Article set forth recordkeeping requirements with which oil manufacturers, used oil haulers, and operators of used oil recycling facilities must comply.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48631(d), 48671, 48672 and 48673, Public Resources Code.

HISTORY

1. New article heading and section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18611. Will the Board Examine My Books and Records to Determine Whether I Comply with These Regulations?

(a) Yes. The Board, or persons authorized by the Board, may conduct examinations of the books and records of oil manufacturers, used oil haulers, and operators of used oil recycling facilities, for the purposes of determining compliance with the provisions of the Act. Nothing herein

[The next page is 806.71.]

shall limit the authority of the Board pursuant to the Act to audit, examine, review, inspect, or otherwise determine the compliance of any person with the Act.

(b) An examination is a review or inspection of any books or records or other documentation of sales or transfers of new or used lubricating or industrial oil. Such reviews may include verification of measurements or procedures regarding reporting, payments and other activities related to the Act.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48657, 48671, 48672 and 48673, Public Resources Code.

HISTORY

1. Repealer of article heading and section and new section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18612. Are the Reports and Information that I Submit to the Board Public Documents?

(a) All information obtained by the Board, or persons authorized by the Board may be disclosed to the public upon request, unless the information is exempt from disclosure pursuant to the Act, the Public Records Act (Government Code Section 6250 et seq.), or other applicable law. Information exempt from public disclosure may include, but is not limited to, proprietary information concerning specific sales or purchases of new or used lubricating or industrial oil; market reports; personal financial data; and trade secrets which the reporter has requested not be publicly disclosed.

(b) If you believe that any information submitted to the Board is a trade secret, you must identify this information at the time of submission. Any information not identified by you as a trade secret shall be made available to the public, unless exempted from disclosure by another provision of law.

(c) Regarding trade secrets, the Board shall determine whether any or all of the information has been properly identified as a trade secret.

(d) Upon receipt of a written request for records pertaining to information obtained by the Board pursuant to this Chapter, the Board shall determine whether the requested information is exempt from disclosure.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48675, Public Resources Code.

HISTORY

1. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18613. Articles 3, 4, and 5 of this Chapter Describe Specific Records that I Must Maintain. How Must I Maintain These Records?

Any records which you are required to maintain pursuant to this Chapter or the Act must be kept in accordance with the following provisions:

(a) You must give the Board notice of the location of your records on or before November 30, 1992. Notice of any change in location, or intent to establish a new location of such records, must be provided no less than 10 days prior to any change in location or establishment of a new location. Notice shall mean written notice stating the name of the business entity, the complete present and potential future addresses of the location of the records, if applicable, and the names and telephone numbers of the individuals responsible for such records.

(b) Oil manufacturers must maintain records for at least four years. Used oil haulers and used oil recycling facilities must maintain records for at least three years.

(c) All records maintained pursuant to this Chapter must include the books of account that are ordinarily maintained by the average prudent businessperson engaged in the same activity, together with all bills, receipts, invoices, manifests, cash register tapes, or other documents of original entry supporting the entries in the books of account. An Automatic Data Processing (ADP) system must have built into its program a method of producing visible and legible records which will provide the necessary information to determine compliance with the requirements of this Chapter.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48657, 48671, 48672 and 48673, Public Resources Code.

HISTORY

1. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18614. Articles 3, 4, and 5 of this Chapter Contain Specific Reporting Requirements. How Do I Submit Reports, Notices, and Applicable Supporting Documents to the Board?

(a) Except where specifically provided otherwise, any reports and notices must be prepared and submitted in the form designated by the Board. Oil manufacturer reports must include the information specified in Section 18622 of this Chapter. Used oil hauler reports must include the information specified in Section 18634 of this Chapter. Operators of used oil recycling facilities must include the information specified in section 18642 of this Chapter. Only notices and reports containing such information and bearing an original signature pursuant to (c)(4), below, will be acceptable.

(b) Reports, notices, and applicable supporting data must be accurate, complete, and typed or legibly handwritten in English.

(c) All reports to the Board must contain all of the following information:

(1) The full name, address, and identification number of the person preparing the report;

(A) For used oil hauler and used oil recycling facility reports, the identification number will be the U.S. EPA Identification number.

(B) For oil manufacturer reports, the identification number will be the Oil Recycler Fee Permit Number as issued by the Board or its representative.

(C) If an entity preparing the report has no EPA Identification number or Oil Recycler Fee Permit Number, an identification number must be obtained from the Board upon written request.

(2) The name and telephone number of a contact person for purposes of the report;

(3) The reporting period, if applicable, and date of preparation of the report;

(4) The signature and title of the representative of the entity authorized to prepare the report. The signature block must state that the information ion the report is correct to the best knowledge and belief of the person submitting the report;

(5) The date of signing of the report.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48671, 48672 and 48673, Public Resources Code.

HISTORY

1. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18614.1. What If My Report Does Not Contain All of the Information Required by Section 18614 of this Article?

The Board will reject your report if it fails to comply with the reporting requirements of Section 18614. Any such rejection shall not extend any applicable due date or time period.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48671, 48672 and 48673, Public Resources Code.

HISTORY

1. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18615. When are Reports Due to the Board?

Report due dates are discussed in this Chapter as follows: in Section 18622 for oil manufacturers, Section 18634 for used oil haulers, and Section 18642 for used oil recycling facilities.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48650(a), 48671, 48672 and 48673, Public Resources Code.

HISTORY

1. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18616. On What Date is a Report, Complaint, Payment, Notice or Other Information Considered to be Submitted to the Board?

Reports, complaints, payments, notices and other information will be considered submitted to the Board on the postmarked date if deemed complete by the Board.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48650(a), 48671, 48672 and 48673, Public Resources Code.

HISTORY

1. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order with amendment transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

Article 2.1. Recordkeeping, Auditing, and Administrative Actions for Entities Claiming Recycling Incentives

§ 18619.1. Scope and Applicability.

The regulations contained in this Article set forth recordkeeping requirements with which certified used oil collection centers, industrial generators, curbside collection programs, and electric utilities wishing to claim recycling incentives must comply.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48631(d), 48660, 48670 and 48680, Public Resources Code.

HISTORY

1. New article 2.1 (sections 18619.1–.5) filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18619.2. Will The Board Examine My Books, Records, and Operations to Determine Whether I Am in Compliance With The Program Requirements?

(a) Yes. An operator of a certified or registered program shall provide access to the Board or persons authorized by the Board for any one or all of the following purposes:

(1) To determine compliance with the provisions of the Act and this Chapter;

(2) To determine the accuracy of any information provided to the Board;

(3) For the investigation of complaints related to compliance with the provisions of the Act and this Chapter; or

(4) To inspect any records required by the Act or this Chapter.

(b) An applicant for certification or registration shall provide access to the Board or persons authorized by the Board for the purposes listed in subparts (a)(1), (a)(2), and (a)(4) of this Section.

(c) Failure to provide access, as required, may result in one or more of the following:

(1) Denial of a pending application;

(2) Cancellation of a certification or registration, or denial of a recertification request;

(3) Legal actions pursuant to Public Resources Code Section 48680;

(4) Recoupment of monies previously paid by the Board, which were the subject of the inspection; or

(5) Rejection of incentive claims made to the Board.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48631(d), 48660, 48670 and 48680, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18619.3. How Must Records Be Maintained to Satisfy The Requirements of This Chapter?

(a) Any records which you are required to maintain pursuant to this Chapter or the Act must be kept in accordance with the following provisions:

(1) You must give the Board notice of the location of your records on or before April 1, 1993, or upon certification or registration pursuant to Articles 6 and 6.1 of this Chapter, respectively. "Notice" of any change in location, or intent to establish a new location of such records, must be provided no less than ten (10) days prior to any change in location or establishment of a new location. "Notice" shall mean a written notice stating the name of the business entity, the complete present and potential future addresses of the location of the records, if applicable, and the names and telephone numbers of the individual(s) responsible for such records.

(2) Records must be retained for at least three years.

(3) All records maintained pursuant to this Chapter must include the books of account that are ordinarily maintained by the average prudent businessperson engaged in the same activity, together with all bills, receipts, invoices, manifests, cash register tapes, or other documents of original entry supporting the entries in the books of account. If records are maintained in an Automatic Data Processing (ADP) system, it must have built into its program a method of producing visible and legible records which will provide the necessary information to determine compliance with the requirements of this Chapter.

(4) All records maintained pursuant to this Chapter shall be suitable for examination. Records satisfy this standard when they are prepared and retained in accordance with generally accepted accounting principles and good business practice.

NOTE: Authority cited: Sections 40502 and 48651, Public Resources Code. Reference: Sections 48631(d), 48660, 48670 and 48680, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18619.4. Are the Reports and Information That I Submit to the Board Public Documents?

(a) All information obtained by the Board, or persons authorized by the Board, may be disclosed to the public upon request, unless the information is exempt from disclosure pursuant to the Act, the Public Records Act (Government Code Section 2650 et. seq.), or another applicable law. Information exempt from public disclosure may include, but is not limited to: proprietary information concerning specific sales or purchases of new or used lubricating or industrial oil; market reports; personal financial data; and trade secrets, as defined in the Public Resource Code, which the reporter has requested not be publicly disclosed.

(b) If you believe that any information submitted to the Board is a trade secret, you must identify this information at the time of submission. Any information not identified by you as a trade secret shall be made available to the public, unless exempted from disclosure by another provision of law.

(c) Regarding trade secrets, the Board shall determine whether any or all of the information has been properly identified as a trade secret.

(d) Upon receipt of a written request for records pertaining to information obtained by the Board pursuant to this Chapter, the Board shall determine whether the requested information is exempt from disclosure.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48675, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18619.5. What Happens If My Certified or Registered Used Oil Collection Program Is Not In Compliance With the Requirements of the Act or of This Chapter?

Violations of the Act or any regulation contained in this Chapter may be subject to the provisions of Section 48680 of the Public Resources Code.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48631(d), 48660 and 48680, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

Article 3. Oil Manufacturers

§ 18620. Applicability.

In addition to the general requirements of this Chapter, oil manufacturers must comply with the provisions of this Article.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48671, Public Resources Code.

HISTORY

1. New article heading and section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18621. As an Oil Manufacturer, What Records Am I Required to Maintain?

Beginning May 1, 1992, you must maintain records of all industrial oil sold in California and all lubricating oil sold in California which is not exempt from payment of the fee pursuant to Section 48650 of the Public Resources Code. Records must include:

(a) the amount, in gallons, of lubricating oil sold monthly;

(b) the amount, in gallons, of industrial oil sold monthly.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48671, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18622. As an Oil Manufacturer, What Reports Must I Submit to the Board?

All oil manufacturers must prepare and submit to the Board a report in accordance with the general requirements for reporting contained in section 18614 of this Chapter.

(a) You must submit a report for the period between May 1, 1992, and September 30, 1992, which includes:

(1) the amount, in gallons, of lubricating oil sold monthly in California;

(2) the amount, in gallons, of industrial oil sold monthly in California. This report is due to the Board by January 31, 1993.

(b) For the quarter beginning October 1, 1992, and each following quarter, you must submit reports which include:

(1) the amount, in gallons, of lubricating oil sold monthly in California;

(2) the amount, in gallons, of industrial oil sold monthly in California;

(3) the total amount of fees due pursuant to Section 48650 of the Public Resources Code.

(A) you must calculate the total amount of fees due by multiplying the number of gallons of lubricating oil sold during the quarter by $0.16 per gallon.

Reports must be submitted to the Board on or before the last day of the month following each quarter, as defined in Section 18601 of this Chapter. For example, lubricating oil sold during the quarter commencing October 1 and ending December 31 must be reported by January 31.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48650(a) and (b) and 48671, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order with amendment of subsections (a)(2) and (b) transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18623. What Date is Considered the Date of Sale?

The date of sale of lubricating or industrial oil is the date of receipt by the purchaser, as evidenced by an invoice.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48650(a) and (b), Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order with amendment transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18624. How Should Payments be Made to the Board and When Are They Due?

(a) All payments made pursuant to Sections 48650(a) and (b) of the Public Resources Code must accompany the report submitted pursuant to Section 18622 of this Chapter. Payments received after the due date of this report shall be deemed late.

(b) All payments must be reported and recorded in currency of the United States of America ("U.S. dollars"). All payments to the Board must be made in U.S. dollars and made by either check, draft, money order or cashier's check payable to the State of California, Integrated Waste Management Board or an entity designated by the Board to collect payments.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48650(a) and (b) and 48671, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18625. How Do I Notify Those Who Purchase Lubricating Oil From Me That the Fee Has Been Paid?

You must inform your customers that the fee has been paid by one of the following methods:

(a) A sales invoice or a contract which clearly states that the fee is included in the invoiced or contracted amount;

(b) Documentation showing that the fee has been paid to the Board.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48650(a) and (b), Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

Article 3.1. Exemptions

§ 18626. Exemption Certificates.

(a) Scope and Applicability. All sales or transfers of lubricating oil in the state by an oil manufacturer are subject to the oil recycling fee unless exempted.

(b) Exemption from Responsibility for the Oil Recycling Program Fee. A seller is exempt from responsibility for the oil recycling fee when the purchaser certifies in writing, in a timely manner, to the seller that the lubricating oil purchased will be used in an exempt manner as provided in PRC section 48650. To be considered timely, an exemption certificate shall be given:

(1) At any time before the seller bills the purchaser for the lubricating oil; or

(2) At any time within the seller's normal billing and payment cycle; or

(3) Any time at or prior to delivery of the subject oil to the purchaser.

Exemption certificates are valid until there is a change in the use of the oil as described in the certificate. The purchaser is responsible for submitting a revised exemption certificate prior to any change in use of the oil purchased.

(c) Liability for the Fee for Other Uses If a purchaser certifies in writing to a seller that the lubricating oil purchased will be used in an exempt manner, as provided in PRC section 48650(b), and instead uses the lubricating oil in some manner which is not exempt, the purchaser shall be liable for payment of the oil recycling fee as if the purchaser were the first person or entity to take title to the lubricating oil for sale, use, or transfer in this state. The fee will apply at the time of the sale, use or transfer by the purchaser.

(d) Form of Exemption Certificates.

(1) All purchasers qualifying for an exemption must provide certification as follows:

(A) the name and address of the purchaser;

(B) the purchaser's CIWMB oil manufacturer registration number;

(i) if the purchaser is not required to hold an oil manufacturer registration number, a statement to that effect and the reasons;

(C) a description of the lubricating oil purchases associated with the certificate, including the number of gallons;

(D) a statement describing the exempt use of the lubricating oil pursuant to the exemptions described in PRC section 48650(b);

(E) date;

(F) signature of the purchaser.

(2) Submission to the Board of form CIWMB 36 "State of California Oil Recycling Program Fee Exemption Certificate" (rev. 11/94), which is incorporated herein by reference, will satisfy the requirements of part d(1), above. (See Appendix A.)

(e) "Qualified" Fee Exemption Certificates. Purchasers may issue "Qualified" Fee Exemption Certificates if a portion of the total oil purchased is to be used in an exempt manner. In these cases, the CIWMB Fee Exemption Certificate Form Number 36 (rev. 11/94) requires that a purchase order be attached. Each purchase order must indicate that the oil is purchased for exempt use. If a purchase order does not so specify, it will be presumed that the oil purchased is to be used in a nonexempt manner, and is subject to the fee.

(f) Untimely Exemption Certificates. An exemption certificate which is not issued in a timely manner is not retroactive, and will not relieve the seller of the responsibility for the fee, unless the seller presents satisfactory evidence that (1) the specific oil was used in an exempt manner or (2) that the fee was paid to the state by the purchaser.

(g) Good Faith. A seller will be presumed to have been issued a certificate in good faith in the absence of evidence to the contrary. A seller will not be relieved of the responsibility for the oil recycling fee if it knew, or should have known, that the lubricating oil would not be used by the purchaser in an exempt manner.

(h) Penalties for Improper Use of an Exemption Certificate. Civil penalties, as described in Public Resources Code (PRC) section 48680, may be assessed if there is unauthorized issuance or use of an Exemption Certificate.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48650 and 48680, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. Renumbering of former section 18626 to section 18626.99 and new article 3.1, section and CIWMB form 36 filed 6–16–95; operative 7–17–95 (Register 95, No. 24).
3. Change without regulatory effect amending subsection (d)(2) and moving form to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18626.99. Certificate of Registration.

NOTE: Authority cited: Section 3470(b), Public Resources Code. Reference: Sections 3470(b) and (c), Public Resources Code.

HISTORY

1. Renumbering of former section 18626 to section 18626.99 filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18627. Refund of Lubricating Oil Payment.

Any person who has made the lubricating oil payment on oil which is later sold or used for an exempt purpose pursuant to PRC section 48650, may request a refund. For this chapter, an exempt purpose shall include lubricating oil that is subsequently sold to an agency of the Federal Government and on which the payment was not made by that agency. The request for a refund must include the information in Section 18613 of this chapter.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48650(a) and (b), 48671 and 48680, Public Resources Code.

HISTORY

1. Change without regulatory effect adding section filed 3–13–2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 11).

Article 4. Used Oil Haulers

§ 18630. Scope and Applicability.

In addition to the general requirements of Article 2 of this Chapter, used oil haulers must comply with the provisions of this Article.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48672, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New article heading and section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order with amendment of article heading transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18631. As a Used Oil Hauler, What Records Am I Required to Maintain?

You must keep all manifests and modified manifest receipts as described in Section 25250.8 of the Health and Safety Code and Section 66263.22 of Title 22 of the California Code of Regulations. These documents must be made available to the Board for examination pursuant to Section 18611 of this Chapter. These records must be maintained in accordance with the general requirements set forth in Section 18613 of this Chapter, in addition to any recordkeeping requirements of the Department of Toxic Substances Control.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48672, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.

3. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18632. What Specific Information Am I Required to Include on Each Modified Manifest Receipt?

In addition to the information required by Section 25250.8 of the Health and Safety Code, you must include the following information on each modified manifest receipt:

(a) the generator category of the entity generating the used oil, as defined in Section 18601 of this Chapter;

(b) an estimate of the amount, in gallons, of lubricating oil and the amount, in gallons, of industrial oil collected from the generator.

(1) To obtain an estimate, you must ask each generator to provide an approximation of the amount of used lubricating oil and the amount of used industrial oil being collected.

(2) If the generator fails to provide you with an estimate of the amount of lubricating versus industrial oil, you must use your best judgment to provide an estimate based upon your knowledge, if any, of the types of machinery used by the generator.

(3) You will not be held liable for the accuracy of estimates made pursuant to (1) and (2), above.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48672, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18633. Am I Required to Provide Any Specific Information to the Recipients of the Used Oil I Deliver?

Yes. Used oil haulers must provide the recipients of their used oil (i.e., a used oil transfer facility, a used oil storage facility, or a used oil recycling facility) with either:

(a) a receipt containing the following information for each delivery:

(1) the manifest number;

(2) an estimate of the amount, in gallons, of lubricating oil and the amount, in gallons, of industrial oil contained in the delivery; or

(b) an estimate in box 11 or box 15 of the Uniform Hazardous Waste Manifest, of the amount, in gallons, of lubricating oil and the amount, in gallons, of industrial oil contained in the delivery.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48672 and 48673, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order with amendment of subsections (a) and (b) transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18634. As a Used Oil Hauler, What Reports Must I Submit to the Board?

All used oil haulers must prepare and submit to the Board a report in accordance with the general requirements for reporting contained in Section 18614 of this Chapter.

(a) All reports must be submitted to the Board no later than 10 days after the end of each quarter, as defined in section 18601 of this Chapter. For example, used oil transported during the quarter commencing July 1 and ending September 30 must be reported by October 31, and used oil transported during the quarter commencing October 1 and ending December 31 must be reported by January 31.

(b) Reports must contain all of the following information for the used oil that you collected during the reporting period:

(1) an estimate, by generator category, of the total amount, in gallons, of lubricating oil collected and transported;

(2) an estimate, by generator category, of the total amount, in gallons, of industrial oil collected and transported;

(3) the sum total, in gallons, of all used lubricating and industrial oil collected and transported;

(4) if you are also the operator of a used oil transfer facility or a used oil storage facility, indicate the amount of used oil included in this report which was, or will be, to the best of your knowledge, reported to the Board by another hauler;

(5) a listing of all the locations to which you transported used oil during the reporting period, including used oil transfer facilities, used oil storage facilities, and used oil recycling facilities. For each location, you must specify the name of the entity, the street address, the mailing address, the telephone number, and the U.S. EPA Identification Number.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48672, Public Resources Code.

HISTORY

1. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order with amendment of subsection (a) transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

Article 5. Used Oil Recycling Facilities

§ 18640. Scope and Applicability.

In addition to the general requirements of Article 2 of this Chapter, used oil recycling facilities, as defined in Section 48624 of the Public Resources Code, shall comply with the provisions of this Article.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48624, 48662 and 48673, Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New article heading and section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Amendment of section and NOTE filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).
5. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18641. As the Operator of a Used Oil Recycling Facility, What Records Am I Required to Maintain?

You must maintain the following records in accordance with the general requirements set forth in Section 18613 of this Chapter.

(a) Manifests, maintained pursuant to Section 66264.71(a)(6) of Title 22 of the California Code of Regulations, must be made available for examination pursuant to Section 18611 of this Chapter.

(b) For each delivery received, you must estimate the amount, in gallons, which is used lubricating oil and the amount which is used industrial oil. You may obtain an estimate of these amounts from the used oil hauler delivering the used oil pursuant to Section 18633 of this Chapter.

(c) You must maintain records of the amount of used oil processed at your facility. These records must include:

(1) the amount, in gallons, of recycled oil produced. For purposes of this section, recycled oil includes used oil which is prepared for reuse, as it is defined in the Section 25250.1 of the Health and Safety Code, including used oil which is:

(A) re–refined as motor vehicle oil;

(B) re–refined as industrial oil;

(C) processed into fuel oil;

(D) processed into asphalt;

(E) consumed in the process of preparing it for reuse, including being burned for energy recovery;

(2) the amount, in gallons, of used oil transferred to another facility for processing or treatment;

(3) the amount, in gallons, of residual material produced.

For purposes of this section, residual material includes constituents of the used oil which remain after processing, including those:

(A) produced as a nonhazardous waste (e.g., water);

(B) produced as a hazardous waste;

(C) other.

If "other" is indicated, you must indicate the specific residual material produced.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48673, Public Resources Code.

HISTORY

1. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–20–92 order transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18642. As an Operator of a Used Oil Recycling Facility, What Reports Must I Submit to the Board?

(a) You must prepare and submit to the Board a report in accordance with the general requirements for reporting contained in Section 18614 of this Chapter.

(b) All reports must be submitted on or before the last day of the month following each quarter, as defined in section 18601 of this Chapter. For example, used oil received and recycled during the quarter commencing July 1 and ending September 30 must be reported by October 31, and used oil received and recycled during the quarter commencing October 1 and ending December 31 must be reported by January 31.

(c) Your reports must contain all of the following information for the reporting period:

(1) the total amount, in gallons, of used oil received during the reporting period, including:

(A) an estimate of the total amount of lubricating oil received;

(B) an estimate of the total amount of industrial oil received.

(2) the amount of used lubricating and used industrial oil received from:

(A) within California;

(B) outside of California.

If used oil is received from outside of California, the report must include the state or country from which the used oil was received.

(3) the total amount, in gallons, of recycled oil produced by the facility. For purposes of this section, recycled oil includes used oil which is prepared for reuse, as it is defined in the Section 25250.1 of the Health and Safety Code, including used oil which is:

(A) re–refined as motor vehicle oil;

(B) re–refined as industrial oil;

(C) processed into fuel oil;

(D) processed into asphalt;

(E) consumed in the process of preparing it for reuse, including being burned for energy recovery;

(4) the total amount, in gallons, of used oil transferred to another facility for processing or treatment and the name and U.S. EPA Identification number of each facility;

(5) the total amount, in gallons, of residual material produced. For purposes of this section, residual material includes constituents of the used oil which remain after processing, including those:

(A) produced as a nonhazardous waste (e.g., water);

(B) produced as a hazardous waste;

(C) other.

If "other" is indicated, you must indicate the specific residual material produced.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).
2. New section filed 8–20–92 as an emergency; operative 8–20–92 (Register 92, No. 34). A Certificate of Compliance must be transmitted to OAL 12–18–92 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8–20–92 order with amendment of subsection (b) transmitted to OAL 12–17–92 and filed 2–2–93 (Register 93, No. 6).

§ 18643. Records of Transaction.

NOTE: Authority cited: Section 3470(b), Public Resources Code. Reference: Section 3468(b), Public Resources Code.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).

§ 18643.0. Who May Become a Certified Used Oil Recycling Facility?

The Board shall consider certifying any used oil recycling facility in California, as defined in Section 48624 of the Public Resources Code.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48624 and 48662, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Editorial correction adding HISTORY 2 (Register 95, No. 19).

§ 18643.1. Why Should I Become a Certified Used Oil Recycling Facility?

It is necessary for used oil recycling facilities to become certified because recycling incentives can only be paid to certified used oil collection centers, industrial generators, or curbside collection programs that transport used oil to certified used oil recycling facilities or to an out of state recycling facility as described in Section 48651 of the Public Resources Code. Industrial oil must also be hauled to certified used oil recycling facilities.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48651, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18643.2. As An Operator of a Used Oil Recycling Facility, Must I Apply For Certification/Recertification of the Facility?

No. Once the Board receives a report from the Department following the annual inspection of your facility, the Board initiates the certification/recertification process for your facility.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48662, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18643.3. How Does The Board Certify or Recertify a Used Oil Recycling Facility?

(a) Following the annual inspection of a used oil recycling facility pursuant to Section 48661 of the Public Resources Code, the Department forwards an inspection report of the facility to the Board.

(b) Within a minimum of six (6), a median of eight (8), and a maximum of ten (10) working days of receipt of an inspection report for a used oil recycling facility, the Board notifies the operator of the facility in writing that its certification/recertification is being processed.

(c) Within a minimum of twenty–five (25), a median of thirty–five (35), and a maximum of forty–five (45) working days of receipt of the

above described inspection report, the Board notifies the operator of the facility in writing that its certification is either:

(1) Approved; or

(2) Denied, and the reasons for denial.

Denial may occur when a facility is engaged in a repeating or recurring pattern of noncompliance that poses a significant threat to public health and safety or the environment. Such a pattern may include violations as described in Public Resources Code Sections 48661 (b) and (c).

(d) If a certification is approved, the Board sends a certificate to the operator of the facility.

(e) In case of denial, the operator of the facility may submit a written request for a Board hearing.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48662, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (b), (c), (c)(2) and (e) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18643.4. As an Operator of a Used Oil Recycling Facility, What Should I Do With the Certificate That the Board Issues to Me?

(a) The certificate shall be kept on file at the used oil recycling facility. An operator may request that the certificate be kept on file at another location, and the Board may grant approval of such request when the request is submitted in writing and the following conditions are met:

(1) A copy of the certificate with a statement indicating where the original certificate is maintained is kept at the recycling facility; and

(2) The original certificate is maintained at the main business office of the operator where records and reports meeting the requirements of Article 5 of these regulations are maintained.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48662, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18643.5. How Long Is a Certificate Valid?

(a) A certificate is valid until such time that it is surrendered by the operator, or recertification is denied pursuant to Section 18643.3 of this Article.

(b) A certificate does not expire, and the operator of a used oil recycling facility is not required to submit an application for recertification. Upon receipt of the annual inspection report from the Department, the Board automatically initiates the certification/recertification process for a facility. However, upon evaluating the annual inspection report, the Board may either certify/recertify a used oil recycling facility or deny its certification/recertification pursuant to Section 18643.3 of this Article.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48662, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18643.6. Is the Certificate Transferrable?

No. The certificate is neither transferrable nor assignable to any other person. It is issued to a specific operator of a used oil recycling facility for a specific location. The operator of a used oil recycling facility must notify the Board in writing of any change in the operator, location of the facility, or cessation of facility operation. The notification shall be submitted to the Board within sixty (60) calendar days of the change occurring.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48662, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18643.7. Is There a List of Certified Used Oil Recycling Facilities Available?

(a) Yes. The Board maintains a current list of certified used oil recycling facilities. The list is available to the public upon request.

(b) The Board also maintains a current list of used oil recycling facilities whose certifications were denied by the Board. This list is also available to the public upon request.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48662, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

Article 6.0. Used Oil Collection Center Certification and Operation Standards

§ 18650.0. Scope and Applicability.

Any person wishing to have a used oil collection center certified by the Board, pursuant to Section 48660 of the Public Resources Code, must comply with the provisions of this Article.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New article 6.0 (sections 18650.0–18651.9) filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18650.1. Who May Apply for Certification?

Any operator or proposed operator of a used oil collection center is eligible to apply for certification from the Board. Application for certification of a used oil collection center is optional and is not required by the Act or this Chapter.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of sections transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18650.2. How Do I Apply for Certification?

(a) A separate, complete application containing the information requested in Section 18650.3, below, for each used oil collection center must be submitted to the Board when requesting certification.

(b) The filing period for applications is continuous.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

History

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18650.3. What Information Am I Required to Provide in the Application for Certification?

(a) To be considered complete, applications shall contain the following information:

(1) A request for either initial certification, or recertification.

(A) If the application is for recertification, it shall include only that information which has changed since the last application for certification was submitted to the Board.

(2) The name, street and mailing address, and phone number (if applicable) of the used oil collection center, and, if different, of the operator.

(3) The type of organization which the operator represents.

(A) If the organization is an individual business doing or proposing to do business under a different name, the applicant shall provide a copy of the fictitious business name statement.

(B) If the organization is a partnership, the applicant shall provide a copy of the current partnership agreement.

(C) If the organization is a corporation, the applicant shall provide the corporate number as assigned by the Secretary of State.

(D) If the organization is a husband and wife co–ownership, the application shall contain both names.

(E) If the organization is a local government agency, the applicant shall provide a copy of either an authorizing letter or a resolution from the governing board.

(F) If the operation is a private, nonprofit program, the applicant shall provide verification of nonprofit status. Any one of the following will constitute verification:

1. A copy of a letter from the Federal Internal Revenue Service confirming tax exempt status pursuant to Section 501(c)(3) of the Internal Revenue Code; or
2. A copy of a letter from the State of California Franchise Tax Board confirming tax exempt status pursuant to Section 23701(d) of the Revenue and Taxation Code; or
3. A corporate number as assigned by the Secretary of State.

(4) The federal identification number (employer ID number) of the organization.

(5) A description of the physical location of the facility in relation to the nearest cross street.

(6) If it is a proposed operation, the specific date the center intends to begin accepting used oil from the public at no charge and offering the recycling incentive.

(7) If it is an existing facility, the specific date the center began accepting used oil from the public at no charge and offering the recycling incentive.

(8) The actual days and hours the used oil collection centers is, or will be, open for business.

(9) The actual days and hours the used oil collection center is, or will be, accepting used oil from the public at no charge and offering the recycling incentive.

(10) If applicable, the hazardous waste generator identification number assigned by either the Department of Toxic Substances Control or the U.S. EPA.

(11) Description of operations conducted at the collection center, if any, in addition to the collection of used oil from the public. Description of other materials collected for disposal and/or recycling at the facility.

(12) Total anticipated or actual used oil storage vessel capacity of all storage vessels on site, in gallons.

(13) If the application is for initial certification, a description of the type and frequency of advertising which will be conducted to comply with Section 18651.4 of this Chapter.

(14) If the application is for recertification, a description of the method and frequency of each type of advertising conducted (since the previous application for certification was submitted) to comply with Section 48660(b)(4) of the Public Resources Code and Section 18651.4 of this Chapter. Whenever possible, an example or facsimile of each advertising event should be included.

(15) An indication whether the proposed operator or owner also operates or owns a used oil hauler business, as defined in Public Resources Code Section 48623, or a used oil recycling facility, as defined in Public Resources Code Section 48624.

(16) Identify the company name or individual and address to whom the Board should pay the recycling incentive.

(17) Any other information the Board determines is necessary to aid in a finding of compliance with Public Resources Code Section 48660(b).

(b) The application shall be signed by the applicant(s) as described below, under penalty of perjury. The signature block shall contain an affidavit stating the following: "I certify, under penalty of perjury, that the information contained in this application is true and correct to the best of my knowledge, and that the facility for which this application is being made is currently in compliance with all Federal, State and local requirements. I certify that the property owner is aware that I am applying to become a certified used oil collection center and will be accepting used oil from the public. I agree to operate in compliance with the requirements of the California Oil Recycling Enhancement Act, and with all related regulatory provisions."

(1) If the operator is a partnership, the application shall be signed by at least one partner with authority to bind the partnership.

(2) If the operator is a firm, association, corporation, county, city, public agency or other governmental entity, the application shall be signed by the chief executive officer or the individual with authority to legally bind the entity to a contract.

(3) If the operator is a husband and wife co–ownership, the application shall be signed by both the husband and the wife.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

History

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (a)(3)(C)1., (a)(3)(F)1.–3., (b) and (b)(3), repealer of subsections (a)(8)–(a)(8)(C) and subsection renumbering, and new subsection (a)(16) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18650.4. How Does the Board Process an Application for Certification of a Used Oil Collection Center?

(a) The Board issues an identification number to all used oil collection centers upon receipt of an application for initial certification.

(b) All applications for certification are reviewed by the Board for compliance with these regulations and with the Act.

(c) The Board will periodically conduct field investigations to verify the ongoing accuracy of information contained in a certification application.

(d) The Board will notify an applicant in writing within a minimum of six (6), a median of eight (8), and a maximum of ten (10) working days of receipt of the application that it is either:

(1) Complete and correct and accepted for further review; or

(2) Incomplete and rejected and the reason(s) for rejection.

(e) Upon determining that an application is complete and correct, the Board shall notify the applicant in writing within a minimum of twenty–five (25), a median of thirty–five (35), and a maximum of forty–five (45) calendar days that certification is either:

(1) Granted; or

(2) Denied and the reason(s) for denial.

(f) If the Board grants certification, the applicant shall receive the written notice, a certificate, and a certification sign.

(g) If the Board denies certification of a used oil collection center, and the applicant wishes a hearing on such denial, a request for hearing must be made to the Board in writing.

(h) Reasons for denial of certification may include, but are not limited to:

(1) Failure to provide information or documentation to substantiate the application as stipulated in Section 18650.3 of this Chapter;

(2) For recertification:

(A) The used oil collection center's certification history demonstrates a pattern of operation in violation of the requirements of the Act, including any relevant regulations;

(B) The used oil collection center's certification history demonstrates outstanding fines, penalties, or unresolved audit findings.

1. If the certification of a used oil collection center is denied, the applicant can reapply for certification at any time.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (d) and (h)(2)(A)–(h)(2)(B)1. transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of subsection (f) filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18650.5. May a Person Withdraw an Application for Certification?

Yes. An applicant may withdraw an application from review by the Board. Such withdrawal shall be requested in writing and submitted to the Board. A withdrawal of application does not prohibit the operator of a used oil collection center from reapplying at a later date.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18650.6. As the Operator of a Certified Used Oil Collection Center, Might There Ever be an Occasion When I Will Need to Submit a New Application?

(a) Yes. An operator shall be required to file a new application with the Board in accordance with the requirements of this Chapter when any of the following conditions occur:

(1) A change in the location of the certified used oil collection center; or

(2) A change in the operator of the certified used oil collection center; or

(3) Expiration of the certificate pursuant to Section 18650.8 of this Article.

(b) Because a certificate is not transferrable (see Section 18650.9 of this Article, an application for initial certification must be submitted whenever there is a change in the location or operator of a certified used oil collection center.

(c) An application for initial certification or recertification shall be submitted at least sixty (60) calendar days prior to any of the events listed in (a) above to avoid any loss of incentive payments.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsection (a)(1) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of subsection (c) filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18650.61. As the Operator of a Certified Used Oil Collection Center, What Should I Do if I Decide to Cease Collection Center Operations?

You should notify the Board, in writing, of your intention to cease collection center operations a minimum of thirty (30) days prior to cessation of operation. This written notice should indicate the date the collection center will cease accepting used lubricating oil from the public. Within thirty (30) days of cessation of operation, you must return your certificate and certification sign (if issued by the Board) to the Board.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 7–6–93; operative 7–6–93 (Register 93, No. 28).

§ 18650.7. What Should I Do with the Certificate Once I Have Received It?

(a) The certificate shall be kept on file at the used oil collection center. An operator may request that the certificate be kept on file at another location, and the Board may grant approval of such request when the request is submitted in writing and the following conditions are met:

(1) A copy of the certificate with a statement indicating where the original certificate is maintained is kept at the used oil collection center; and

(2) The original certificate is maintained at the main business office of the operator where records and reports meeting the requirements of this Chapter are maintained.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Editorial correction deleting duplicate, misplaced HISTORY 2 (Register 96, No. 16).

§ 18650.8. When Does My Certificate Expire?

A certificate shall be valid for two (2) years from the date certification is approved by the Board, or until such time as it is voluntarily surrendered by the operator, denied pursuant to Section 18650.4 of this Chapter, or canceled by the Board pursuant to Section 48660(a) of the Public Resources Code.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18650.9. Is a Certificate Transferrable or Assignable?

No. The certificate is issued to a specific used oil collection center operator for a specific location and is neither transferrable nor assignable to any other person.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18651.0. What Must I Do with a Certificate Sign Once I Have Received It?

(a) All certified used oil collection centers shall display a certification sign provided by the Board. The sign shall be in compliance with Public

Resources Code Section 48660(b)(4) and will also include the following information:

(1) State of California Certified;

(2) Contaminated oil, or oil suspected of contamination, may not be accepted;

(3) Space for insertion, by operator, of the center operating hours.

(b) The certification sign must be posted in a location easily readable from a public street. The sign may be posted in a different location if requested in writing and approved in writing by the Board.

(c) The certification sign shall not be displayed by any person, company, or other entity not approved for certification by the Board.

(d) The certification sign is the property of the Board and shall be returned to the Board upon surrender, expiration, or cancellation of certification.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of subsection (a), repealer of subsection (a)(2) and subsection renumbering filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18651.1. What If Local Zoning Ordinances Prevent Posting of the Sign Provided by the Board?

Where local zoning ordinances do not permit posting of the sign provided by the Board in accordance with Section 18651.0 of this Article, the Section 48660(b)(4) of the Public Resources Code, the collection center operator must petition the Board by submitting a written request describing how the center will meet these requirements. The Board shall notify the center in writing within thirty (30) calendar days of receipt of the petition that its request is either:

(a) Approved; or

(b) Denied and the reasons for denial.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (a) and (b) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18651.2. What Are the Required Operational Procedures for Certified Used Oil Collection Centers?

(a) Certified used oil collection centers operators shall operate in accordance with all Federal, State and local laws and regulations.

(b) Certified used oil collection centers shall accept used oil from the public at no charge and shall verbally offer to pay persons an amount equal to the recycling incentive the center will receive for the used oil.

(c) Certified used oil collection center operators shall not accept more than twenty (20) gallons of used oil, in containers not larger than five (5) gallons, from a person each day.

(d) Operators of certified used oil collection centers may set a maximum limit for used lubricating oil accepted at certified centers. The maximum limit may not be less than 5 gallons per person per day.

(e) Used oil received from the public may be refused if it is contaminated by materials which render the used oil infeasible for recycling. Certified used oil collection center operators shall provide the name and address of the nearest business or governmental entity which accepts contaminated oil to any member of the public whose used oil is refused due to contamination.

(f) If the collection center accepts used industrial oil in addition to used lubricating oil, it shall maintain a Used Industrial Oil Receipt Log. The Industrial Oil Receipt Log shall include:

(1) Date used industrial oil received; and

(2) Quantity of used industrial oil received, in gallons or quarts.

(g) If the collection center is owned or operated by a used oil hauler or a used oil recycling facility, it shall maintain a Used Oil Receipt Log. The Used Oil Receipt Log shall include:

(1) An entry for each receipt of used oil. This entry shall include:

(A) Printed name and signed name of patron;

(B) Date received;

(C) Quantity of oil received, in gallons or quarts;

(D) Amount of recycling incentive fee paid, if any;

(E) Indication if the oil is lubricating or industrial oil; and

(F) An indication if the used lubricating oil was:

1. From out of state (in which case no incentive payment was made); or

2. Anonymously donated.

(h) Logs must be available for inspection at the collection center, or other location specified in accordance with Section 18650.7 of this Article, during normal business hours. Logs must contain data for the last three–year period.

(i) If the collection center is owned or operated by a used oil hauler or a used oil recycling facility:

(1) The percentage of anonymously donated used lubricating oil received must not exceed ten (10) percent of the total amount received for any quarter.

(2) The Board may refuse to pay the recycling incentive to the center for the amount of anonymously donated used lubricating oil in excess of ten (10) percent of the total amount received for any quarter.

(3) Should a center wish to receive payment of the recycling incentive for a quantity of anonymously donated used lubricating oil in excess of ten (10) percent of the total amount received for any quarter, the center shall petition the Board for approval. Such petition shall be a written request describing why the center is entitled to payment. The Board shall notify the center in writing within thirty (30) calendar days of receipt of the petition that it is either:

(A) Approved, or

(B) Denied and the reasons for denial.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48660(b), 48660(c), 48660(d), and 48670, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (a) and (e), new subsections (f)–(f)(1)(F)3, and (h)–(h)(3)(B), and subsection renumbering transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of section and NOTE filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18651.3. How Do I Calculate the Amount of Recycling Incentive I Owe to a Person Delivering Used Oil?

(a) To calculate the payment, multiply the total number of quarts received by the value of the recycling incentive set by the Board. Payment to the patron must be based on a determination of the nearest quart.

(b) A certified used oil collection center shall have available at all times graduated container capable of accurately measuring, in one quart increments, and safely transferring, one liquid gallon. The graduated container shall be used for measurement if the amount of oil brought in by the public is in question by either the patron or the collection center staff.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660(b)(2), Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Editorial correction of subsection (b) (Register 95, No. 20).

§ 18651.4. As the Operator of a Certified Used Oil Collection Center, How Do I Comply with the Act's Requirement for Periodic Advertising in Local Media?

(a) Advertising using one or more of the following mechanisms at least once every six months shall constitute compliance with the requirements of the Act:

(1) Newspaper, magazine, newsletter or other periodic publication;

(2) Radio;

(3) Press releases, public service announcements, or feature news;

(4) Printed material including brochures or posters;

(5) Outdoor advertising including billboards and transit signs;

(6) Special events;

(7) Television;

(8) Direct mail;

(9) Yellow pages.

(b) An advertisement shall include the name, location, and hours used lubricating oil is accepted at the center and indicate that the center accepts used lubricating oil at no charge, and offers payment of the recycling incentive.

(c) Two or more collection centers may jointly advertise their centers provided the name, location, and hours of each center is identified, and the form and frequency of advertisement complies with part (a) of this Section. The advertisement must also indicate that each center accepts used lubricating oil at no charge and offers payment of the recycling incentive.

(d) Should a collection center wish to implement an advertising program different from that described in part (a) of this Section, the center shall petition the Board for approval by submitting a written request describing how the center will meet the advertising requirement of the Act. The Board shall notify the center in writing within a minimum of ten (10), a median of twenty (20) and a maximum of thirty (30) calendar days of receipt of the petition that its request is either:

(1) Approved; or

(2) Denied and the reasons for denial.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of subsections (b)–(d) filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18651.5. As a Certified Used Oil Collection Center, How Can I Determine If Used Oil is Contaminated in Excess of That Which Would Occur Through Normal Use?

In order to determine contamination in excess of that which would occur through normal use, a certified used oil collection center may test used oil received from the public for halogenated compounds, and may conduct verbal and/or visual screening.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48660(c), 48660.5(a), and 48660.5(b)(1), Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18651.6. Under What Conditions Will a Contaminated Used Oil Shipment Be Eligible for Reimbursement of Disposal Costs, Pursuant to Section 48660.5 of the Public Resources Code?

(a) A shipment meeting both of the following conditions will qualify for reimbursement:

(1) Used oil which meets the criteria of Public Resources Code Section 48660.5; and,

(2) Used oil which has been properly disposed of and issued a receipt of disposal. A Uniform Hazardous Waste Manifest may be used for this purpose. Disposal, for the purpose of this Section, means incinerating, burying, or otherwise processing contaminated used oil for purposes of elimination which result in a higher cost than the cost to recycle non–contaminated used oil.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660.5(a), 48660(c), Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18651.7. What Constitutes One Shipment in Regards to Reimbursement of Disposal Costs, Pursuant to Section 48660.5 of the Public Resources Code?

A shipment may not exceed the capacity of the storage tank normally used by the certified used oil collection center to contain used lubricating oil received from the public.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660.5(c), Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18651.8. How Do I Apply for Reimbursement of Additional Disposal Costs Pursuant to Public Resources Code Section 48660.5?

The Board shall reimburse an operator of a certified used oil collection center for the cost of hauling contaminated oil minus the amount normally charged to haul the same amount of uncontaminated oil pursuant to the requirements of Section 48660.5(a) of the Public Resources Code. To receive reimbursement, an operator must submit a written application to the Board.

(a) An application must include:

(1) The collection center name, its location, and its Board identification number;

(2) The hazardous waste generator identification number (ID Number) assigned by either the California Department of Toxic Substances Control or the U.S. EPA;

(3) Quantity of shipment for which reimbursement is sought, in gallons;

(4) Source, type, and level of contamination (if known);

(5) Registered hazardous waste hauler (pursuant to Article 6.5, Chapter 6.5, Division 20, Health and Safety Code) name, ID Number, and actual total disposal cost;

(6) A statement signed by the applicant(s) as described below, under penalty of perjury. The signature block shall contain an affidavit stating the following: "I certify under penalty of perjury that the information contained in this application is true and correct to the best of my knowledge.";

(7) Signature of collection center supervisor.

(b) Applicant must also submit:

(1) A copy of invoice or receipt from a used oil hauler indicating:

(A) The Uniform Hazardous Waste Manifest number for the shipment;

(B) Amount of actual total disposal cost minus the amount normally charged to pick–up the same amount of uncontaminated oil;

(2) Copy of the Uniform Hazardous Waste Manifest from the used oil hauler;

(3) Copy of established certified used oil collection center procedures for preventing contamination of oil with hazardous waste.

(c) In any calendar year, a certified used oil collection center shall be reimbursed for not more than one shipment of contaminated used oil and for not more than five thousand dollars ($5,000) in disposal costs, subject to the availability of funds pursuant to Public Resources Code Section 48656.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48660.5, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. New first paragraph filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18651.9. Must Certified Used Oil Collection Centers Maintain Written Procedures to Prevent the Acceptance of Contaminated Used Lubricating Oil?

(a) Yes. Established procedures for preventing the acceptance of contaminated used lubricating oil must be in writing and available to Board staff, collection center personnel, and the public during normal business hours.

(b) Procedures may include:

(1) Posted signs which list unacceptable contaminants;

(2) A list of questions to ask patrons regarding contaminants;

(3) A description of tests of used oil for the presence of contaminants.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48660 and 48660.5, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. New NOTE filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

Article 6.1. Registration Requirements for Industrial Generators, Operators of Curbside Collection Programs, and Electric Utilities

§ 18653.0. Scope and Applicability.

In addition to the general requirements of this Chapter, industrial generators, operators of curbside collection programs, and electric utilities wishing to claim the used oil recycling incentive must comply with the provisions of this Article.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48651, Public Resources Code.

HISTORY

1. New article 6.1 (sections 18653.0–18653.6) filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18653.1. Purpose.

The Board requires registration of all industrial generators, operators of curbside collection programs, and electric utilities to facilitate the payment of recycling incentives.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48651, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18653.2. As an Industrial Generator, Operator of Curbside Collection Program, or Electric Utility, How Do I Register to Receive Payment of Recycling Incentives?

(a) To register to receive payment of the recycling incentive, a separate, complete application must be submitted to the board by each industrial generator, operator of a curbside collection program, or electric utility.

(b) Applicants may apply for registration in either of the following ways:

(1) Register separately for each location at which used lubricating oil is collected.

(2) Register jointly for multiple used lubricating oil collection locations. If this option is chosen, a primary registrant must provide the information required by Section 18653.3 of this Chapter. The following information must also be provided for each additional location:

(A) Facility name;

(B) Street address;

(C) County;

(D) Phone number;

(E) If applicable, the hazardous waste generator identification number assigned by either the Department of Toxic Substances Control or the U.S. EPA.

(3) Only applicants for registration which are from the same category may apply following the procedures described in section (2) above. For example, an industrial generator and a curbside collection program must submit separate applications for registration.

(c) The filing period for applications is continuous.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48651, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including new subsections (b)–(b)(3) and subsection renumbering transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18653.3. What Information Am I Required to Provide in the Application for Registration?

(a) To be considered complete, applications for registration shall contain the following information:

(1) A request for either initial registration, or for a change in registration.

(A) If the application is for a change in registration, it shall include only that information which has changed since the last application for registration was submitted to the Board.

(2) The type of organization which the generator or program represents.

(A) If the organization is an individual business doing or proposing to do business under a different name, the applicant shall provide a copy of the fictitious business name statement.

(B) If the organization is a partnership, the applicant shall provide a copy of the current partnership agreement.

(C) If the organization is a corporation, the applicant shall provide the corporate number as assigned by the Secretary of State.

(D) If the organization is a husband and wife co–ownership, the application shall contain both names.

(E) If the organization is a local government agency, the applicant shall provide a copy of either the authorizing letter or resolution from the governing board.

(F) If the operation is a private, nonprofit program, the applicant shall submit verification of nonprofit status. Any one of the following will constitute verification:

1. A copy of a letter from the Federal Internal Revenue Service confirming tax exempt status pursuant to Section 501(c)(3) of the Internal Revenue Code; and

2. A copy of a letter from the State of California Franchise Tax Board confirming tax exempt status pursuant to Section 23701(d) of the Revenue and Taxation Code; or

3. A corporate number assigned by the Secretary of State.

(3) The federal identification number (employer ID number) of the organization.

(4) If the organization is an industrial generator or an electric utility, a description of the physical location of the facility in relation to the nearest cross street.

(5) If an industrial generator or an electric utility, the name, street and mailing address, and phone number of the operation.

(6) If an electric utility, the Public Utilities Commission identification number, if applicable.

(7) If a curbside collection program, the name, street and mailing address, and phone number of the offices of the program operator.

(8) If the organization is a curbside collection program, the actual days of collection, the jurisdiction or area serviced, and a description of other materials collected.

(9) If applicable, the hazardous waste generator identification number assigned by either the Department of Toxic Substances Control or the U.S. EPA.

(10) If an industrial generator, description of the type of business conducted.

(11) An indication whether the proposed applicant also operates or owns a used oil hauler business, as defined in Public Resources Code Section 48623, or a used oil recycling facility, as defined in Public Resources Code Section 48624.

(12) Identify the company name or individual and address to whom the Board should pay the recycling incentive.

(13) Any other information the Board determines is necessary to aid in a finding that the organization is eligible for payment of recycling incentives pursuant to Public Resources Code Section 48651.

(b) The application shall be signed by the applicant(s) as described below, under penalty of perjury. The signature block shall contain an affidavit stating the following: "I certify under penalty of perjury that the information contained in this application is true and correct to the best of my knowledge, and I agree to operate in compliance with the requirements of the California Oil Recycling Enhancement Act, and with all related regulatory provisions."

(1) If the operator is a partnership, the application shall be signed by at least one partner with authority to bind the partnership.

(2) If the operator is a firm, association, corporation, county, city, public agency or other governmental entity, the application shall be signed by the chief executive officer or the individual with authority to legally bind the entity to a contract.

(3) If the operator is a husband and wife co–ownership, the application shall be signed by both the husband and wife.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48651, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (a)(2)(C)1., (a)(2)(F)1.–3. and (b)(3), and new subsection (a)(11) and subsection renumbering transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18653.4. What Will the Board Do with the Application for Registration Once It is Submitted for Review?

(a) The Board will issue an identification number to all industrial generators, operators of curbside collection programs, and electric utilities upon receipt of the application for registration.

(b) All applications for registration will be reviewed by the Board for compliance with these regulations and with the Act.

(c) The Board will periodically conduct field investigations to verify the ongoing accuracy of information contained in the registration application.

(d) The Board will notify the applicant in writing within a minimum of six (6), a median of eight (8), and a maximum of ten (10) working days of receipt of the application that it is either:

(1) Complete and correct and accepted for further review; or

(2) Incomplete and rejected and the reasons for rejection.

(e) Upon determining that an application is complete and correct, the Board shall notify the applicant in writing within a minimum of twenty–five (25), a median of thirty–five (35), and a maximum of forty–five (45) calendar days that registration is either:

(1) Granted; or

(2) Denied and the reasons for denial.

(f) Reasons for denial of registration may include, but will not be limited to, any of the following:

(1) Failure to provide information or documentation to complete the application as stipulated in Section 18653.3 of this Chapter;

(2) The industrial generator's, curbside collection program's, or electric utilities' registration history demonstrates a pattern of operation in violation of the requirements of the Act, including all relevant regulations adopted herein;

(3) The industrial generator's, curbside collection program's, or electric utilities' registration history demonstrates outstanding fines, penalties, or unresolved audit findings.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48651, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (f)(2) and (f)(3) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18653.5. As an Industrial Generator, Operator of a Curbside Collection Program, or an Electric Utility, May I Withdraw an Application for Registration?

Yes. An applicant may withdraw an application from review by the Board. Such withdrawal shall be requested in writing and submitted to the Board. A withdrawal of application does not prohibit an industrial generator, an operator of a curbside collection program, or an electric utility from reapplying at a later date.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48651, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18653.6. As an Industrial Generator, an Operator of a Curbside Collection Program, or an Electric Utility Which Has Already Registered, Might There Ever Be an Occasion When I Will Need to Submit a New Application?

(a) Yes. Should there be a change in any of the information included in the most recent registration application submitted to the Board you are required to submit a new application.

(b) A new application shall be submitted at least sixty (60) calendar days prior to implementing the changes in part (a) above to avoid any lapse in incentive payments.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Section 48651, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18654. How Does the Board Calculate Used Oil Recycling Rates?

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48631(c) and (d) and 48676, Public Resources Code.

HISTORY

1. New article 6.2 (section 18654) filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Repealer of article 6.2 and section filed 7–6–93; operative 7–6–93 (Register 93, No. 28).

Article 7. Recycling Incentive Payments

§ 18655.1. Who Can Receive Recycling Incentive Payments?

Used oil collection centers certified pursuant to Article 6 of this Chapter, and industrial generators, curbside collection programs, and electric utilities registered pursuant to Article 6.1 of this chapter are eligible to receive recycling incentive payments.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b), Public Resources Code.

HISTORY

1. New article 7 (sections 18655.1–18656.0) filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18655.2. On What Used Oil Can a Recycling Incentive Be Paid?

(a) For industrial generators, certified used oil collection centers, and curbside collection programs, all lubricating oil sold or transferred in this state or imported into this state after October 1, 1992, for which a $0.04 per quart of $0.16 per gallon fee was paid to the State of California and, after use, was transported after April 1, 1993, by a used oil hauler to a certified used oil recycling facility, or to an out–of–state facility registered with the U.S. EPA and in compliance with the regulations of the state in which the facility is located, is eligible for payment of a recycling incentive.

(b) Certified used oil collection centers may claim the recycling incentive only for used lubricating oil collected from the public and/or generated on–site by the used oil collection center. A certified used oil collection center cannot claim the recycling incentive for used oil generated by an entity other than the center, except used oil delivered by the public in quantities of no more than 20 gallons per person per day.

(c) For electric utilities, all lubricating oil sold or transferred in this state or imported into this state after October 1, 1992, for which a $0.04 per quart or $0.16 per gallon fee was paid to the State of California and, after use, was used to generate electricity after April 1, 1993, is eligible for payment of a recycling incentive. Electric utilities may only claim recycling incentive payments for lubricating oil used in equipment owned by the electric utility.

(d) If the Board finds that it has paid a recycling incentive for used lubricating oil which was transported to a non–certified used oil recycling facility, or to an out–of–state facility not in compliance with regulations of the state in which the facility is located, the claimant shall be responsible for refunding the amount of the payment to the Board. Any refunds may be deducted from future recycling incentive claims.

(e) If the Board finds that it has paid the recycling incentive to the operator of a used oil collection center which was not accepting used lubricating oil from the public at no charge and offering the recycling incentive, the claimant shall be responsible for refunding the amount of the payment to the Board. Any refunds may be deducted from future recycling incentive claims.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b), Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including new subsections (b) and (d) and subsection relettering transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of subsection (d) and new subsection (e) filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18655.3. When Can an Incentive Claim Be Submitted?

No more than three incentive claims per quarter shall be submitted to the Board. The last claim for a quarter must be postmarked on or before the last day of the month following that quarter.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b) and 48670, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18655.4. How Long After Used Oil Is Hauled Away, or Used to Generate Electricity By an Electric Utility Must an Incentive Claim Be Submitted?

A claim must be submitted by the last day of the month following the quarter in which the used lubricating oil was transported by a used oil hauler to a used oil recycling facility, or used to generate electricity by an electric utility.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b), Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18655.5. How Do Incentive Claims Relate to Quarterly Reports, as Described in Public Resource Code Section 48670?

(a) Incentive claims satisfy the quarterly report requirements. Businesses must provide a quarterly report or submit a recycling incentive claim only if they want payment for used oil hauled during the quarter.

(b) Industrial generators, curbside collection programs, electric utilities, and certified used oil collection centers must submit an incentive claim/report on or before the last day of the month following each quarter in which used lubricating oil was:

(1) Transported by a used oil hauler to a certified used oil recycling facility;

(2) Transported by a used oil hauler to an out–of–state facility registered with the U.S. EPA and in compliance with the regulations of the state in which the facility is located; or

(3) Used by an electric utility to generate electricity.

(c) No more than three incentive claims/reports will be accepted for each quarter.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b), and 48670, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of subsection (a) filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18655.51. If I Operate More Than One Certified Used Oil Collection Center, May I Submit a Single Recycling Incentive Claim?

(a) Yes, upon written approval by the Board.

(b) If an operator of more than one certified collection center wishes to submit a single incentive claim for multiple centers, the operator shall make such request for approval in writing. The Board shall notify the operator in writing within forty–five (45) calendar days of receipt of the request that it is either:

(1) Approved; or

(2) Denied and the reasons for denial.

(c) A single incentive claim for multiple centers must include the information required by Sections 18655.6(b), (3), (5), (6), (7), (8), and (9) of this Chapter, for each certified center. The person completing the single incentive claim must provide the information specified in Sections 18655.6(b) (1), and (b)(2) and sign a penalty of perjury statement pursuant to part (b)(4).

(d) Manifest or modified manifest receipts and, if applicable, copies of the purchase receipts, invoices, or other documentation showing payment of the $0.04 per quart or $0.16 per gallon lubricating oil recycling fee must include the identification number as issued by the Board pursuant to Section 18650.4(a) or 18653.4(a) of this Chapter.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b), 48660, and 48670, Public Resources Code.

HISTORY

1. New section filed 7–6–93; operative 7–6–93 (Register 93, No. 28).

§ 18655.6. What Must Be Submitted With an Incentive Claim?

Incentive claims submitted by industrial generators, curbside collection programs, certified used oil collection centers and electric utilities must:

(a) Be accurate, complete, and typed or legibly handwritten in English; and

(b) Contain all of the following information:

(1) Full name, address, and telephone number of the certified or registered entity preparing the incentive claim/report; and

(2) Full name and telephone number of a contact person for purposes of the report; and

(3) The identification number as issued by the Board pursuant to Section 18650.4(a) or 18653.4(a) of this Chapter.

(4) The signature and title of the representative of the entity authorized to prepare the report. The signature block shall contain an affidavit stating the following: "I certify under penalty of perjury that the information contained in this claim/report, including attached copies of invoices, manifests and manifest receipts, is true and correct, and that no other claim has been submitted on this used oil to the best of my knowledge."; and

(5) If applicable, the amount of new lubricating oil purchased from a vendor or an oil manufacturer in the quarter or since the last incentive claim/report was submitted. Specify if no lubricating oil was purchased;

(6) If lubricating oil was purchased, copies of the purchase receipts, invoices, or other documentation showing payment of the $0.04 per quart or $0.16 per gallon lubricating oil recycling fee to a vendor or the State of California;

(7) The amount of used lubricating oil transported to a certified used oil recycling facility or to an out–of–state facility registered with the U.S. EPA and in compliance with the regulations of the state in which the facility is located for the period since the previous claim;

(8) Copies of completed, typed or legibly handwritten manifests or modified manifest receipts from used oil haulers pursuant to Health & Safety Code Section 25250.8 for the amount of used lubricating oil for which a claim is being made;

(9) Electric utilities shall include the amount of lubricating oil used to generate electricity pursuant to Public Resources Code Section 48651(b) for the period since the previous claim; and

(10) The total monetary amount being claimed.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b), and 48670, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (b)(1) and (b)(4)–(5) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of subsection (b)(8) filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

§ 18655.7. Where Are Incentive Claims Submitted?

Incentive Claims and Quarterly Reports shall be delivered to the Board's main business office, to the attention of the Accounting Section. The outside of the package containing the claims must be clearly marked: "Used Oil Recycling Incentive Claim Enclosed."

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b) and 48670, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18655.8. What Records Must I Keep to Support an Incentive Claim?

(a) Certified used oil collection centers must:

(1) If applicable, retain copies of purchasing receipts for all lubricating oil purchased that denote a fee of $0.04 per quart or $0.16 per gallon was paid to the State of California or a vendor; and

(2) Retain copies of manifests or modified manifest receipts from used oil haulers to support an incentive payment claim; and

(3) Maintain a log consistent with Section 18651.2 of this Chapter, if used industrial oil is accepted in addition to used lubricating oil.

(b) Curbside collection programs must:

(1) Retain copies of manifests or modified manifest receipts from used oil haulers to support an incentive payment claim.

(c) Electric utilities must:

(1) Retain copies of purchasing receipts for all lubricating oil purchased that denote a fee of $0.04 per quart of $0.16 per gallon was paid to the State of California or to a vendor; and

(2) Maintain documentation indicating:

(A) The date that used lubricating oil from utility–owned equipment was used to generate electricity; and

(B) The amount, in gallons of used lubricating oil from utility–owned equipment that was used to generate electricity.

(d) Industrial generators:

(1) Must retain copies of purchasing receipts for any lubricating oil purchased that specify a fee of $0.04 per quart or $0.16 per gallon was paid to the State of California, or to the distributor; and

(2) Must retain copies of manifests or modified manifest receipts from used oil haulers; and

(3) Must retain all vouchers issued by the Board verifying refunds of fees paid by the Board for lubricating oil that was ultimately used for a use exempt from payment pursuant to Section 48650 of the Public Resources Code.

NOTE: Authority cited: Sections 40502 and 48670, Public Resources Code. Reference: Sections 48651(a) and (b), and 48670, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including repealer of subsection (b)(1) and subsection renumbering transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18655.9. What Happens If My Incentive Claim is Rejected?

The Board will notify the claimant within thirty (30) calendar days if an incentive claim is rejected and include the reasons for rejection. The claimant may resubmit a revised claim. If the Board denies payment of an incentive claim, the claimant may submit a written request for a Board hearing. Request for a hearing must be submitted within thirty (30) days of notification of rejection.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48660 and 48680, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of section transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18656.0. How Long Will It Take for the Board to Process My Claim?

You can expect payment for your incentive claim within fifty (50) calendar days of the postmark date of your claim. The Board will process and forward your claim for payment to the State Controllers Office (SCO) within 35 days after the postmark date. If the Board finds cause to investigate any provisions of your claim this time period will be extended until resolution. The SCO will pay the claim within 15 calendar days of receipt of the claim from the Board.

NOTE: Authority cited: Sections 40502 and 48641, Public Resources Code. Reference: Sections 48651(a) and (b), and 48670, Public Resources Code. Section 926.17, Government Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Amendment of section and NOTE filed 6–16–95; operative 7–17–95 (Register 95, No. 24).

Article 8. General Provisions for Used Oil Recycling Grants

§ 18658.0. Scope and Applicability.

The regulations contained in this Chapter pertain to grants from the California Used Oil Recycling Fund (Fund) to local agencies for the implementation of used oil collection programs.

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Sections 48613, 48690 and 48691, Public Resources Code.

HISTORY

1. New article 8 (sections 18658.0–18658.3) filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18658.1. Programs Eligible for Funding.

(a) Used oil collection programs eligible for funding from the Fund shall provide for activities relating to the implementation of existing or new used oil collection programs. These programs shall meet either of the criteria listed below or a combination of the two based upon how many residents are served by each:

(1) Ensure that at least one certified used oil collection center is available for every 100,000 residents not served by curbside used oil collection. For example, one certified used oil collection center must be available for a program with 100,000 residents or less, and three must be available for a program serving 240,000 residents. The center shall accept used oil from the public at no charge. The center shall be open at least four days a week for a total of 20 hours of which three hours each week are outside the weekday hours of 8:00 a.m. through 5:30 p.m.

(2) Provide curbside collection at least once a month.

(b) Programs eligible for funding from the Fund shall include a public education program to inform the public of locally available used oil recycling opportunities.

(c) A local agency may implement its used oil collection program in conjunction with other similar programs in order to improve used oil recycling efficiency.

(d) A county or local agency whose program has not served a specific city or area within the county is not eligible to obtain the funds the city or area would have been eligible to receive.

(1) A county may not claim the service area of a city that provided a used oil collection program for the area if the city meets the following criteria:

(A) Was the sole sponsor of the used oil collection program for its respective jurisdiction or was part of a regional program of which the county was not a participant; and

(B) Notified the Board and the county in writing by August 31 of the grant year that it met the provisions of this section.

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Sections 48613 and 48691, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (a) and (a)(1), and new subsections (d)–(d)(1)(B) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18658.2. Grant Application Process.

(a) To apply for a block grant, an applicant must comply with the following:

(1) A local agency with an eligible program shall submit the documents specified in Section 18659.1 of this Chapter in order to apply for a grant award.

(2) An original and three (3) copies of the documents required shall be submitted to the California Integrated Waste Management Board, at its principal place of business in care of the Household Hazardous Waste Section. all materials submitted will become the property of the Board and will be retained for a minimum of three years.

(3) The required application documents must be received by the Board on or before the close of the application period specified in Section 18658.3 of this Chapter.

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Sections 48653 and 48657, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18658.3. Grant Application Period.

Grant applications will be accepted beginning on the first business day of September until the end of the workday on the last business day of October. Applications received after the last business day in October will be returned to the applicants.

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Sections 48653 and 48691, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of section transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

Article 8.1. Local Government Block Grants

§ 18659.0. Grant Amount.

(a) As specified in Section 48653 of the Public Resources Code, grants will be given for the implementation of local used oil collection programs to cities, based on the city's population, and counties, based on the population of the unincorporated area of the county. Grants to regional programs will be based on the combined population of each city or unincorporated area which is a participant in the regional program.

(b) A local agency shall receive no more than one grant per year from the Fund. Local agencies can pool grant funds to implement regional used oil collection programs.

(c) All population statistics will be obtained through the most current annually revised Department of Finance Report on Population Estimates for California Cities and Counties, which is hereby incorporated by reference.

(d) The population of the unincorporated area in each county and population of each city will be used as a base number to determine the awarded grant amount. The Board will calculate the grant amount each applicant will receive.

(e) To determine the grant amount available to a local agency, the following formula will be used:

(1) Divide A, the total amount in the block grant account, by B, the population of the state, to calculate C, the fraction or per capita value.

$$A / B = C$$

(2) Multiply C, the per capita value, by D, the population of the local agency or regional program, to calculate E, the maximum grant amount the local agency is eligible to receive.

$$C \times D = E$$

NOTE: Authority cited: Sections 48641, 48653 and 48690, Public Resources Code. Reference: Section 48613, Public Resources Code.

HISTORY

1. New article 8.1 (sections 18659.0–18659.5) filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsection (e)(2) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18659.1. Contents of the Grant Application.

(a) A local agency which is eligible for a grant award, pursuant to Section 18658.1 of this Chapter, shall submit to the Board a grant application. The grant application shall include, but not be limited to all of the following:

(1) An Application Cover Sheet, provided by the Board as form CIWMB 306 "Application Cover Sheet" (9/92), which is incorporated herein by reference. (See Appendix A.)

(2) A Program Report, which shall include:

(A) A description of the used oil collection program and the problem that the program is addressing;

(B) An explanation of the program's goals or objectives;

(C) Identification of the tasks necessary to complete the proposed program and an implementation schedule for the proposed tasks;

(D) If applicable, the geographic area to be serviced by a used oil curbside collection program;

(E) The local agency's population and the population served by the local agency's used oil collection program;

(F) The operation plan which describes how the program will be conducted. This may include, but is not limited to, frequency of pickup for a curbside collection program; days and hours of operation for a used oil collection center(s); type of equipment or facilities used; and method of used oil storage and disposal;

(G) A description of the proposed public education program to inform the public of locally available used oil recycling opportunities;

(H) A description of funding sources other than the grant from the Fund, which will be used for the program;

(I) Description of cooperative efforts between local government agencies and interested citizen associations and groups, if any, regarding implementation of the program; and

(J) If a program includes establishing a new used oil collection center(s) to meet the block grant eligibility requirements as specified in Section 48691 of the Public Resources Code, the report shall include a description of how the local agency will ensure the certification of the collection center at the earliest opportunity.

(3) A Budget Report consisting of the itemized costs of the program. This shall include, but is not limited to, the cost of staffing, used oil contractor fees, the cost of public education, public awareness and/or advertising costs, and any purchases of equipment or materials. The budget report shall also contain the source(s) of funding, fees collected, as well as the total cost of all used oil collection programs for which the request for a grant is being made.

(4) To apply for a grant as a regional program a signed copy(s) of the written agreement between the governing bodies involved authorizing the grant application to act on their behalf shall be included in the grant application.

(5) An approved resolution from each applicant's governing body authorizing submittal of the application and identifying the individual authorized to execute any agreements and contracts to carry out the program.

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Sections 48613, 48690 and 48691, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of subsections (a)(2)(F) and (a)(2)(H)–(I), new subsections (a)(2)(J) and (a)(4), and subsection renumbering transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Change without regulatory effect amending subsection (a)(1) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18659.2. Review of Grant Application.

(a) Board staff shall review an application for a grant to verify that it is complete and satisfies the criteria contained within Section 18659.1 of this Chapter.

(b) Board staff may request additional information related to the grant application required pursuant to Section 18659.1 of this Chapter if the application is incomplete. The applicant will have a minimum of 10 (ten) working days, or an additional time period specified by the Board, to submit the requested information to the Board or will be disqualified from consideration for a grant.

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Sections 48690 and 48691, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18659.3. Terms and Conditions of a Grant Agreement.

(a) The grant recipient and the Board shall enter into a written grant agreement which contains a description of the program, as approved, and which identifies and ensures compliance with the terms and conditions specified in this Section.

(b) The grant recipient shall obtain prior written approval from the Board, or its designated representative, for any changes to the grant agreement. All requests shall include a description of the proposed change(s) and the reason(s) for the change(s).

(c) The grant recipient shall submit an annual report to the Board, for the term of the grant agreement, on or before January 1 following receipt of the grant. The report shall include any amendments to the local used oil collection program; a description of the implementation of the program and the extent to which the program was successful in addressing the problem of illegal disposal of used oil; and a description of how the block grant for the previous year was expended if applicable. The report shall also include the following information:

(1) A description of the used oil collection center program and/or curbside collection program;

(2) An account of the number of participants in the program;

(3) The amount of used oil collected as a result of the used oil collection center or curbside collection program(s), whichever is applicable;

(4) A description of the public education efforts; and

(5) A description of measures taken by the local agency to continue the program.

(d) Grant recipients shall comply with all applicable federal, state and local laws, ordinances, regulations and permits. The recipient shall maintain certification of the used oil collection center(s) pursuant to Section 48660 of the Public Resources Code.

(e) If a program includes establishment of a new used oil collection center(s) or a new curbside collection program(s) to meet the block grant eligibility requirements as specified in Section 48691 of the Public Resources Code, up to fifty percent (50%) of the grant amount available to a local agency may be withheld until the new collection center(s) becomes certified or the new curbside collection program becomes operational.

(f) If during the term of the grant a collection center(s) used by a local agency to qualify for a block grant:

(1) Does not have an application(s) for certification on file with the Board; or

(2) The center's application(s) or reapplication(s) is denied; or

(3) The center's certification(s) is canceled;

Then the local agency may be required to return grant funds used for that center(s).

(g) If during the term of the grant a curbside collection program(s) used by a local agency to qualify for a block grant ceases to operate, the local agency may be required to return grant funds used for that program(s).

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Sections 48690, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including new subsections (e)–(g) transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18659.4. Payment of Grant Funds.

Block grant recipients will be awarded grant funds during January of each grant year.

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Section 48690, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order including amendment of section transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).

§ 18659.5. Auditing.

(a) The Board, the State Controller's Office, and the State Auditor General's Office, or their designated representatives, shall have an absolute right of access to all of the grant recipient's records pertaining to a California Used Oil Recycling Block Grant.

(b) All local agencies receiving block grants from the Fund shall maintain an accounting system which utilizes generally accepted accounting principles and practices. In addition to accounting records, all source documents associated with the accounting records shall be maintained. Source documents include, but are not limited to, bid summaries, contracts with the grant recipient, change orders showing approval by a city or county engineer, purchase orders, invoices, paid warrants, time sheets, labor distribution reports and payroll registers.

(c) The accounting records and pertinent documents shall be retained by the grant recipient for at least three (3) years after expiration of the grant agreement, or until the completion of a Board action and/or resolution of issues which may arise as a result of any litigation, claim negotiation or audit.

(d) If an audit reveals that grant funds have been distributed for a program which has either not met the criteria of Section 18658.1 of this Chapter, and/or has not spent grant funds in accordance with the grant agreement, the grant recipient shall repay the money received, plus interest, at the rate the State would have earned on this money had it remained in the Fund. Such forfeitures shall revert to the Fund.

(e) The Board may terminate any grant in whole, or in part, at any time before the date of completion, whenever it is determined by the Board that the recipient has failed to comply with the terms or conditions of the grant agreement. The Board shall notify the recipient within five (5) working days, in writing, of the determination, the reasons for termination of the grant, and the effective date of termination.

NOTE: Authority cited: Section 48641, Public Resources Code. Reference: Sections 48613, 48674, 48690 and 48691, Public Resources Code.

HISTORY

1. New section filed 1–21–93 as an emergency; operative 1–21–93 (Register 93, No. 4). A Certificate of Compliance must be transmitted to OAL 5–21–93 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–21–93 order transmitted to OAL 5–21–93 and filed 7–6–93 (Register 93, No. 28).
3. Change without regulatory effect moving form to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

Chapter 8.2. Electronic Waste Recovery and Recycling

Article 1. General

§ 18660.5. Definitions.

(a) For the purposes of this Chapter, the following shall apply:

(1) "Act" or "the Act" means the Electronic Waste Recycling Act of 2003 (Senate Bill 20, Chapter 526, Statutes of 2003), as amended.

(2) "Approved Collector" means an authorized collector as defined in Section 42463(b) of the Public Resources Code who applies to the CIWMB for approval and whose application is approved pursuant to this Chapter and therefore may be eligible for recovery payments from approved recyclers.

(3) "Approved Dual Entity" means an entity that is both an "approved collector" and an "approved recycler" as defined in this Section.

(4) "Approved Recycler" means a "covered electronic waste recycler" as defined in Section 42463(i) of the Public Resources Code who applies to the CIWMB for approval and whose application is approved pursuant to this Chapter and therefore may be eligible for recycling payments from the CIWMB.

(5) "Bare CRT" means a Cathode Ray Tube with the vacuum relieved and the yoke removed that has been separated from the device housing and has had all circuit boards, wiring and other components detached from the tube.

(6) "Bare Panel" means an LCD, gas plasma, or other non–CRT video display panel that has been separated from the device housing and has

had all circuit boards, lamps, wiring and other components detached from the panel.

(7) "Board" means the California Integrated Waste Management Board, when these regulations refer to an official action that be taken by Board members.

(8) "Cancellation" means a processing or treatment method that qualifies CEWs for recycling payments, removes the CEWs from the payment system eliminating the possibility of double payments, dismantles or destroys the original CEW, and results in treatment residuals as specified in Section 18660.32 of this Chapter.

(9) "Claim Activity Period" means the span of time during which an approved recycler received CEWs from approved collectors, processed and cancelled CEWs, and shipped treatment residuals that results in a recycling payment claim being submitted to the CIWMB.

(10) "CRT" means a Cathode Ray Tube with the yoke still attached that has been separated from a CRT device.

(11) "CRT device" means a whole covered electronic device containing a Cathode Ray Tube.

(12) "California Sources" of CEWs are persons as defined in Section 42463(o) of the Public Resources Code, located in California who generate CEWs after their own use of the CEW. Persons who receive, accumulate, consolidate, store, or otherwise handle discarded, donated or collected CEWs are not the California sources of those CEWs.

(13) "CIWMB" means the California Integrated Waste Management Board, when these regulations refer to the entity as a whole, including staff.

(14) "Collection log" means a record maintained by an approved collector that records CEW collection activities as specified in Section 18660.20(j) of this Chapter.

(15) "Collective Report" means a report submitted to the CIWMB through a trade association, a group of associations, or other organization that represents more than one manufacturer.

(16) "Commingled" means mixed together and impossible to economically or practically separate.

(17) "Covered Electronic Device" or "CED" has the same meaning, for the purposes of this Chapter, as a covered electronic device specified in Section 42463(f) of the Public Resources Code.

(18) "Covered Electronic Waste" or "CEW" means a discarded device that DTSC has determined to be a covered electronic device, as specified by Section 42463(f) of the Public Resources Code.

(19) "Designated Approved Collector" means an approved collector, as defined in subsection (a)(2) of this section, that has been designated by a California local government to provide CEW collection services for or on behalf of the local government and who, in the course of providing the services for the local government, would not be subject to the source documentation requirements pursuant to Section 18660.20(j)(1)(B) of this Chapter.

(20) "DTSC" means the Department of Toxic Substances Control.

(21) "End–Use Destination" means the location where the treatment residuals from the approved recycler are sent after cancellation.

(22) "Further treat" means, for the purposes of this Chapter, activities such as crushing, size reduction, washing, cleaning, smelting, or similar steps taken to process the treatment residual rendering it more marketable. "Further treat" does not mean, for the purposes or this Chapter, receiving, storing, accumulating, consolidating, brokering, shipping, disposing or other similar activities that do not alter the form of the treatment residual.

(23) "Handler", for the purposes of this Chapter, has the same meaning as a universal waste handler or CRT material handler, as applicable, as defined in Section 66273.9 of TItle 22 of the California Code of Regulations.

(24) "Illegal Disposal" means, for the purposes of this Chapter, the disposal or placement of CEWs on a property without the permission of the owner(s) of, or responsible party(ies) for, the property.

(25) "Load" means a single transfer (a pick up or delivery) of CEWs, such as from a California source to a collector or from a collector to a recycler.

(26) "Load Check Activities" means, for the purposes of this Chapter, the efforts made to identify, retrieve and divert from the disposed solid waste stream those CEWs that have been illegally discarded by generators. "Load Check Activities" do not include the rejection or acceptance of CEWs due to the lack of source documentation.

(27) "Manufacturer Payment" or "Manufacturer Take Back Payment" means a payment made by the CIWMB to a registered manufacturer that takes back covered electronic wastes (CEWs) from a California source for the purposes of recycling the CEW pursuant to Section 42476(g) of the Public Resources Code.

(28) "Manufacturer Payment Claim" means a registered manufacturer's request submitted to the CIWMB with all required documentation for a manufacturer payment.

(29) "Manufacturer Take Back" means a program administered by a registered manufacturer that accepts CEWs from California sources for the purposes of recycling.

(30) "PBBs" mean Polybrominated Biphenyls

(31) "Processing log" means a record maintained by an approved recycler that records CEW activities associated with CEW cancellation, such as but not limited to weighing, dismantling, crushing, shredding, etc., as specified in Section 18660.21(b) of this Chapter.

(32) "Product Category" means the types of covered electronic devices as defined in Section 42463(f) of the Public Resources Code. These categories include, but are not limited to, the following:

(A) Cathode Ray Tubes (CRTs) devices used in televisions,

(B) CRTs devices used in monitors,

(C) Liquid Crystal Display (LCD) monitors,

(D) Laptop computers containing LCD screens,

(E) LCD televisions,

(F) Gas plasma display televisions, and

(G) Other video display devices as specified by the DTSC pursuant to Section 25214.10.1(d) of the Health and Safety Code.

(33) "Proof of approval" means the unique identification number and expiration date, issued by the CIWMB that identifies a collector or recycler as being approved pursuant to this Chapter.

(34) "Proof of designation" means a letter or other document that must be secured by a designated approved collector from a California local government that, at a minimum, specifies the following information:

(A) The beginning and end dates of the designation.

(B) The geographic area within which the designated approved collector is providing CEW collection services for the local government and the locations(s) at which the collection service is provided.

(C) The customer type to be served by the designated approved collector (i.e. residential, commercial, etc).

(D) The nature of collections activities to be provided by the designated approved collector (i.e. drop–off receipt, curbside service, illegal disposal clean–up, etc).

(E) Contact information for the designating authority.

(F) If the proof of designation secured by the designated approved collector is a document other than a letter from the local government, the proof must also include the designated approved collector's written notification to the local government that such other document has been used. The written notification provided to the local government must be accompanied by a copy of the document being used to demonstrate designation.

(G) If, after January 1, 2005, and before the effective date of this regulation, a designated approved collector has secured a document from a local government that does not meet the definition of proof of designation as specified in this Section, such document may be used by a designated approved collector to comply with applicable requirements of this Chapter through March 31, 2006.

(35) "Receiving log" means a record maintained by an approved recycler that documents CEW transfers from approved collectors to the approved recycler.

(36) "Recovery payment" means the payment made by an approved recycler to an approved collector in exchange for the transfer of CEWs pursuant to Section 42477 of the Public Resources Code.

(37) "Recovery payment request" means an approved collector's request for recovery payment made to an approved recycler accompanying the transfer of CEWs.

(38) "Recycling payment" means the payment made by the CIWMB to an approved recycler that includes a recovery component related to recycler payments to collectors pursuant to Section 42477 of the Public Resources Code and a recycling component for CEW cancellation pursuant to Section 42478 of the Public Resources Code.

(39) "Recycling payment claim" means an approved recycler's claim that includes all required documentation submitted to the CIWMB for recycling payments for cancelled CEWs.

(40) "Registered Manufacturer" means a manufacturer as defined in Section 42463(n) of the Public Resources Code who registers with the CIWMB pursuant to this Chapter and therefore may be eligible for manufacturer payments from the CIWMB.

(41) "Source–anonymous CEWs" means CEWs whose originating California source cannot be identified in collection log information required pursuant to Section 18660.20(j)(1)(B) of this Chapter.

(42) "Source documentation" means collection logs and other information developed, maintained and transferred pursuant to Section 18660.20(h) of this Chapter that demonstrates the eligibility, originating generator and/or intermediate handlers of collected CEWs as applicable.

(43) "Standard Statewide Recovery Payment Rate" means the amount paid to an approved collector per pound of CEWs transferred to an approved recycler to cover the cost of collection, consolidation and transportation of CEWs as established pursuant to Section 42477 of the Public Resources code.

(44) "Standard Statewide Combined Recycling and Recovery Payment Rate" means the amount paid to an approved recycler per pound of CEWs cancelled and claimed to cover the cost of receiving, processing and recycling CEWs as established pursuant to Section 42478 of the Public Resources Code, and making recovery payments to approved collectors.

(45) "Transfer" or "Transferred" means physically changing possession of CEWs, such as a transfer from a California source to a collector or from a collector to a recycler.

(46) "Transfer documentation" means, for the purposes of this Chapter, records and/or receipts that record the transfer of CEWs from an approved collector to an approved recycler, which include the weight, number, and source of the transferred CEWs, and the date(s) of transfer.

(47) "Treatment residuals" means any material resulting from the dismantling or treatment of a CEW. Treatment residuals are not considered CEWs and are not eligible for payment. In some cases, treatment residuals may be used to demonstrate the prior processing of CEWs, and bills of lading for the material may be required as part of the claim for payment submitted by an approved recycler.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42463, 46465.2, 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New Chapter 8.2 (articles 1–5), article 1 (section 18660.5) and section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new Chapter 8.2 (articles 1–5), article 1 (section 18660.5) and section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. New subsections (a)(16), (a)(19), (a)(21), (a)(25), (a)(29) and (a)(35) and subsection renumbering filed 12–2–2005 as an emergency; operative 12–2–2005 (Register 2005, No. 48). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
4. Certificate of Compliance as to 12–13–2004 and 12–2–2005 orders, including further amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Article 2.0. Electronic Waste Payment System — Applicability and Limitations, Document Submittals, Records, Audits and Net Cost Report

§ 18660.6. Applicability and Limitations.

(a) Limitations on the types of CEWs eligible for payments:

(1) An approved collector may request recovery payment only for the types of CEWs specified by DTSC that are transferred to an approved recycler by the collector.

(2) An approved recycler may claim recycling payment only for the types of CEWs specified by DTSC that are received from an approved collector and are cancelled by the recycler.

(3) A registered manufacturer may claim manufacturer payment only for the types of CEWs specified by DTSC that the manufacturer takes back for recycling.

(b) Limitations on the timeframes eligible for payments:

(1) An approved collector, an approved recycler, or a registered manufacturer shall not receive payment for any CEWs transferred from a California source before January 1, 2005.

(2) An approved collector shall not request recovery payments from recyclers for transfers that occur prior to the approval of the collector's application by the CIWMB.

(3) An approved recycler shall not claim recycling payments from the CIWMB for CEWs cancelled prior to the approval of the recycler's application by the CIWMB.

(4) A registered manufacturer shall not claim manufacturer payments from the CIWMB for recycling that occurs prior to the manufacturer's registration with the CIWMB.

(c) Limitations on the Sources of CEWs and CEWs eligible for payments:

(1) Only CEWs resulting from a California source are eligible for recovery, recycling, or manufacturer payments.

(2) CEWs owned by a person in California, but used entirely outside of California are not eligible for payments.

(3) Source–anonymous CEWs, documented pursuant to Section 18660.20(j)(1)(E) of this Chapter, are eligible for recovery and recycling payments if:

(A) The source–anonymous CEWs result from load check activities as defined in Section 18660.5(a)(26) conducted at permitted solid waste facilities whose operator is an approved collector or, if not an approved collector, the source–anonymous CEWs are directly transferred from the permitted solid waste facility to an approved collector; or

(B) The source–anonymous CEWs result from illegal disposal clean–up activities conducted by an approved collector who is a local government or its designated approved collector; or

(C) The source–anonymous CEWs result from illegal disposal on property owned or managed by an approved collector.

(4) CEWs are transferred to a designated approved collector are not eligible for payments unless the CEWs are accompanied by applicable source documentation pursuant to Section 18660.20(h) of this Chapter.

(d) Limitations on the ability of collectors and recyclers to charge a fee:

(1) If the recovery payment from a recycler does not fully cover the net cost of CEW recovery, and the collector establishes a cost–free opportunity for a California source to transfer CEWs to the collector, then an approved collector may charge a fee for CEW recovery.

(2) If the recovery payment from a recycler fully covers the net cost of CEW recovery, an approved collector shall provide CEW recovery at no charge to California sources or the CIWMB may revoke approval and direct recyclers to deny recovery payments to the collector.

(3) If the recycling payment from the CIWMB does not fully cover the net cost of CEW recycling, an approved recycler may charge a fee for CEW recycling.

(4) If the recycling payment from the CIWMB fully covers the net cost of CEW recycling, an approved recycler shall provide CEW recycling at no charge to approved collectors or the CIWMB may revoke approval and deny recycling payments to the recycler.

(e) Limitations on recovery payments:

(1) An approved recycler shall make recovery payments at the rate specified in Section 18660.33 of this Chapter to approved collectors for all CEWs transferred to the recycler and that are accompanied by applicable source documentation pursuant to Section 18660.20(h) of this Chapter.

(2) The CIWMB shall revoke a recycler's approval and deny recycling payments to a recycler that fails to make recovery payments to approved collectors as specified in this Chapter.

(3) An approved recycler shall not make the recovery payments as specified in this Chapter to collectors who are not approved pursuant to this Chapter.

(4) An approved recycler may make other types of payments, not provided for under this Chapter, to a collector regardless of the collector's approval status.

(5) An approved recycler shall not provide recovery payments to a collector other than the approved collector that transfers the CEWs to the recycler, but nothing limits the collectors involved in prior transfers from negotiating payments among themselves unrelated to the recovery payment provisions of this Chapter.

(6) An approved collector is eligible for recovery payments only if the collector establishes a cost–free opportunity for a California source to transfer CEWs to the collector.

(7) An approved collector is entitled for recovery payments only for CEWs transferred to the recycler that are accompanied by applicable source documentation pursuant to Section 18660.20(h) of this Chapter.

(8) The approved collector shall repay the approved recycler the amount of recovery payment that was paid if an approved collector has received recovery payment from an approved recycler for which the approved collector was not entitled.

(f) Limitations on recycling payments:

(1) The CIWMB shall make recycling payments only to approved recyclers who:

(A) Cancel CEWs using cancellation methods as specified in Section 18660.32 of this Chapter.

(B) Document cancellation and meet the other requirements of this Chapter.

(2) The CIWMB shall not make recycling payments to a recycler other than the approved recycler that cancels the CEWs, but nothing limits the recyclers involved in subsequent transfers from negotiating payments among themselves unrelated to the recycling payment provisions of this Chapter.

(3) The CIWMB shall not make recycling payments for reuse of either a whole CEW or of a partially disassembled CEW, such as a CRT with an attached yoke.

(g) Limitations in relation to current business practices:

(1) The CIWMB shall not limit the ability of approved collectors and approved recyclers to transfer or not transfer CEWs to or from any party.

(2) The CIWMB shall not limit the ability of approved collectors and approved recyclers from entering into contracts with each other or other parties.

(3) The CIWMB shall not limit the ability of collectors to recover CEWs or recyclers to recycle CEWs without participating in the system described in this Chapter.

(4) If collectors wish to receive recovery payments or recyclers wish to receive recycling payments, then they must meet the requirements in this Chapter.

(h) Limitations on recycling payments on exported CEWs and the disposition of treatment residuals:

(1) The CIWMB shall not approve recyclers located outside the State. CEWs sent to and cancelled by unapproved recyclers are not eligible for payments pursuant to this Chapter regardless of the location of the unapproved recycler.

(2) If treatment residuals are disposed to land, water or air, then a recycler shall not be eligible for recycling payments for the original CEWs unless the treatment residual is not economically feasible to recycle and/or cannot be recycled because it would pose a hazard to public health, safety or the environment.

(i) Limitations on the manufacturer payment system:

(1) The CIWMB shall not register any entity other than a manufacturer as defined in Section 42463(n) of the Public Resources Code to be a registered manufacturer.

(2) The CIWMB shall not make manufacturer payments to any entity other than a registered manufacturer.

(3) A registered manufacturer shall only claim payment for, and the CIWMB shall only make manufacturer payments for, CEWs received from California sources that are processed for recycling that in a manner that results in cancellation as specified in Section 18660.32 of this Chapter or an equivalent result.

(4) A registered manufacturer shall not claim payment for, and the CIWMB shall not make manufacturer payments for, CEWs that are reused, repaired, refurbished or otherwise returned to use.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42472(b), 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New article 2 (sections 18660.6–18660.10) and section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new article 2.0 (sections 18660.6–18660.10) and section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. New subsections (c)(3)–(4) filed 12–2–2005 as an emergency; operative 12–2–2005 (Register 2005, No. 48). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
4. Certificate of Compliance as to 12–13–2004 and 12–2–2005 orders, including further amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.7. Document Submittals.

(a) A collector, a recycler, or a manufacturer shall prepare and submit applications, registrations, claims and/or reports required pursuant to this Chapter in the manner designated by the CIWMB.

(b) The CIWMB shall only accept collector, recycler or dual entity applications, claims and reports containing all the required information and bearing an original signature of the primary applicant, or a person with signature authority as designated by the primary applicant pursuant to Section 18660.11 of this Chapter.

(c) The CIWMB shall only accept manufacturer registrations, claims and reports containing all the required information and bearing an original signature of the primary registrant, or a person with signature authority as designated by the primary registrant pursuant to Section 18660.35 of this Chapter.

(d) The CIWMB shall provide forms upon request that may be used to meet the requirements for the applications, registrations, and payment claims specified in this Chapter.

(e) A collector, a recycler, or manufacturer shall ensure that applications, registrations, claims, reports and all applicable supporting documentation are accurate, complete, and typed or legibly handwritten in English using permanent ink. A collector or a recycler may void errors only by using a single line through the error. A collector or a recycler shall not use correction fluid, correction tape or erasures for correcting errors on any document required by or submitted to the CIWMB.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.8. Records.

(a) An approved collector, an approved recycler, or a registered manufacturer shall send written notice to the CIWMB regarding any change in location, or intent to establish a new location, of records required by this Chapter no less than 10 days prior to the change. In the written notice, an approved collector or an approved recycler shall include its name and identification number from the proof of approval, the complete present and potential future address of the location of the records, if applicable, and the names and telephone numbers of the individuals responsible for such records.

(b) All records maintained pursuant to this Chapter must include the books of account that are ordinarily maintained by a prudent business person engaged in the same activity, together with all bills, receipts, invoices, manifests, cash register tapes, or other documents of original entry supporting the entries in the books of account.

(c) An electronic data processing system must have built into its program a method of producing visible and legible records that will provide the necessary information to determine compliance with the requirements of this Chapter.

(d) An approved collector, an approved recycler, or a registered manufacturer shall maintain records for at least three years.

(e) An approved collector, an approved recycler, or a registered manufacturer shall maintain records that are originals, and typed or legibly handwritten in English.

(f) An approved collector, an approved recycler, or a registered manufacturer shall not store records in an unprotected area, in an outside location, in a motor vehicle or in a location where the records are likely to become contaminated, damaged or stolen.

(g) An approved collector, an approved recycler, or a registered manufacturer shall maintain records suitable for examination prepared and retained in accordance with generally accepted accounting principles and good business practice.

(h) If the CIWMB determines that records do not meet the conditions in this Section, the CIWMB may revoke approval and/or deny payments.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.9. Audits.

(a) The CIWMB, or persons authorized by the CIWMB, may conduct audits of approved collectors, approved recyclers, and registered manufacturers to determine compliance with the requirements of this Chapter.

(b) As part of an audit, the CIWMB may do any one or all of the following in relation to CEW recovery or recycling:

(1) Review, examine or investigate any books, records, accounts, and/or documentation.

(2) Observe, review, examine or investigate any on–site activities, operations, processes, CEWs, treatment residuals or other materials.

(3) Observe and inspect transactions.

(4) Verify measurements, counts, weights, and calculations.

(5) Examine and verify revenue, cost and net cost information and calculations.

(6) Use other examination procedures to investigate recovery payments, recycling payments, manufacturer payments, transfers of CEWs or treatment residuals, costs, revenue, net costs, or other activities related to determining compliance with this Chapter.

(c) An approved collector, an approved recycler, or a registered manufacturer shall provide CIWMB staff, or persons authorized by the CIWMB, access to location(s) and/or records for the purpose of audits related to the requirements of this Chapter, and for any or all of the following purposes in relation to CEW recovery or recycling:

(1) To determine compliance with the CIWMB's regulations and with the provisions of the Act.

(2) To determine the accuracy of the information provided in the application for approval or registration.

(3) To determine the accuracy of the information, calculations, weights, counts, and other data upon which claims for payments or payments are based.

(4) For the investigation of complaints related to recovery payments to collectors.

(5) For the investigation of complaints related to the geographic origin of CEWs.

(6) To obtain cost data, revenue data and net cost calculations required for the CIWMB to set and adjust the Standard Statewide recovery payment rate, recycler payment rate and consumer fees.

(7) To obtain sample data to calculate component weight to device weight conversion factors.

(8) To inspect any records required by this Chapter or the Act.

(d) If an approved collector, an approved recycler, or a registered manufacturer fails to provide reasonable access for audits pursuant to this Section, the CIWMB shall do one or more of the following:

(1) Deny approval or registration if a renewal is pending.

(2) Revoke an existing approval or registration.

(3) Recoup monies previously paid by the CIWMB, which were the subject of the audit, accumulated interest, and any associated penalties.

(4) Deny current and future claims for payments.

(e) An approved collector, an approved recycler or a registered manufacturer that must repay monies to the CIWMB based on the results of a CIWMB audit shall pay the entire amount, including the original amount, accumulated interest, and any associated penalties.

(f) An approved collector, an approved recycler or a registered manufacturer shall make any payments, repayments or recoupments in U.S. dollars by check, draft, money order or cashier's check payable to the State of California, Integrated Waste Management Board, or to a designee selected by the CIWMB.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.10. Net Cost Report.

(a) To adjust the statewide recovery and recycling payment rates, establish future payment schedules and adjust the consumer fees, the CIWMB shall periodically update information concerning the net costs of CEW recovery and CEW recycling.

(b) An approved collector or an approved recycler shall maintain records and provide information for use by the CIWMB in the update on their actual net costs to operate.

(c) An approved collector or an approved recycler shall use the following allowable revenues and costs for use in the calculation of net costs:

(1) Revenues in relation to CEW recovery or recycling, other than the payments required pursuant to this Chapter, including but not limited to:

(A) Up–front revenues received, such as from fees charged.

(B) End–use revenues, such as from commodity values.

(2) Costs in relation to CEW recovery or recycling including, but not limited to:

(A) The actual costs of receiving, handling, processing, storing, transferring and transporting CEWs.

(B) The actual costs of canceling CEWs.

(C) Labor.

(D) Property taxes.

(E) Depreciation.

(F) Utilities.

(G) Supplies.

(H) Fuel.

(I) Insurance.

(J) Interest.

(K) General overhead.

(L) Facilities and equipment rent or lease.

(M) Maintenance.

(N) Transportation.

(O) Handling costs.

(P) Disposition costs.

(Q) A reasonable rate of profit or return on investment.

(R) Marketing, promotion and public education.

(d) An approved collector and approved recycler shall submit to the CIWMB a report on the net costs of recovery and/or recycling for the prior calendar year, including:

(1) An annualized summary of the revenues, costs, and net cost (costs minus revenues) of CEW recovery and/or CEW recycling based on the records maintained pursuant to Sections 18660.20(j)(3) and 18660.21(*l*)(5) of this Chapter.

(2) Name, identification number and mailing address.

(3) The name and phone number of a contact person for purposes of the report.

(4) The reporting year and date of preparation of the report.

(5) The total annualized revenues excluding recovery and recycling payments received from the CIWMB, plus a list of the types of revenues included in the revenue calculation.

(6) The total annualized costs, plus a list of the types of costs included in the cost calculation.

(7) The total annualized net costs (annualized costs minus annualized revenues).

(8) The net cost per pound of CEW recovery and the net cost per pound of CEW recycling.

(9) Provide a description of the types of targeted consumers, and the methods of collection used to obtain CEWs from the California sources, including but not limited to:

(A) Drop–off at permanent location,

(B) Temporary event drop off,

(C) Pick up at source,

(D) Pick up at handler location,

(E) Curbside collection,

(F) Landfill drop off and or load check.

(10) The signature and title of a person with signature authority for net cost reports as designated pursuant to Section 18660.11 of this Chapter.

(11) The signature block shall state and certify the following statement: "I hereby declare under penalty of perjury that this net cost report, including any and all figures, calculations and accompanying documents has been examined by me and is true, correct and complete."

(12) The date and place of the signing of the report.

(e) An approved collector or an approved recycler shall convert any data captured on a per unit basis to a per pound basis for the purposes of determining revenues, costs and net costs.

(f) The CIWMB may revoke approval and/or deny recycling payments for failure to submit a net cost report, or for the submission of a fraudulent report.

(g) The net cost report shall be submitted to the CIWMB on or before March 1, 2006, and each year thereafter.

(1) The requirement to submit a net cost report subsequent to March 1, 2007, shall be determined by the Board at a public hearing.

(2) Notice of the requirement to submit a net cost report subsequent to March 1, 2007, shall be issued by the CIWMB on or before December 31 of the year proceeding the year in which the report is next due.

(h) In addition to the net cost report described by this Section, an approved collector or an approved recycler may submit test results, studies or other information for the CIWMB to consider when the Standard Statewide Recovery Payment Rate and/or the Standard Statewide Combined Recovery and Recycling Payment Rate is reviewed and, if necessary, adjusted pursuant to Sections 18660.33 and 18660.34 of this Chapter.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42464, 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Amendment of subsection (g) filed 12–2–2005 as an emergency; operative 12–2–2005 (Register 2005, No. 48). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
4. Certificate of Compliance as to 12–13–2004 and 12–2–2005 orders, including further amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Article 2.1. Electronic Waste Payment System — Applications for Approval

§ 18660.11. General Application Requirements.

(a) Collectors and recyclers may submit an application to become approved at any time.

(b) In applications for approval, collectors and recyclers shall provide the following general information:

(1) Name of organization.

(2) Type of organization:

(A) If the organization is an individual doing or proposing to do business under a different name, the applicant shall provide a copy of any fictitious business name statement.

(B) If the organization is a partnership, the applicant shall provide a copy of the current partnership agreement and any fictitious business name statement.

(C) If the organization is a corporation, the applicant shall provide the corporate number and Articles of Incorporation and name and position of all current corporate officers as filed with the Secretary of State, any fictitious business name statement, and the agent for service of process.

(D) If the organization is a corporation from a state other than California, the applicant shall provide a copy of the approved certificate from the California Secretary of State qualifying and authorizing the corporation to transact business in California.

(E) If the organization is a husband and wife co–ownership, the applicant shall provide both names and any fictitious business name statement.

(F) If the organization is a local government agency, and is applying as a recycler or dual entity, the applicant shall provide a copy of the authorizing resolution from the governing board.

(G) If the organization is a limited liability company (LLC), the applicant shall provide a copy of the Articles of Organization and Statement of Information as filed with the Secretary of State, any operating agreement, any fictitious business name statement, and the agent for service of process.

(H) If the organization is a limited liability company from a state other than California, the applicant shall provide a copy of their certificate from the California Secretary of State authorizing the LLC to transact business in California.

(I) If the organization is a non–profit or charity, the applicant shall provide a description and a copy of the appropriate designation documentation.

(3) Mailing address and physical address.

(4) Name of the contact person.

(5) Telephone number(s) of the contact person.

(6) An e–mail address of the contact person or organization, if available.

(7) List(s) of the persons (if any), in addition to the primary applicant, who are authorized to sign:

(A) Payment claims.

(B) Net cost reports.

(C) Other payment related correspondence with the CIWMB.

(8) An indication of whether the collector or recycler wishes to be included in an on–line registry.

(9) The location in which the records required by this Chapter will be maintained.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New article 2.1 (sections 18660.11–18660.19) and section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new article 2.1 (sections 18660.11–18660.19) and section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.12. Additional Application Requirements for Collectors.

(a) In addition to the general application information required in Section 18660.11 of this Chapter, a collector shall also include the following information:

(1) The date and the name under which the collector notified DTSC as a CRT and/or universal waste handler.

(2) A description of the existing or proposed collection operation, including but not limited to:

(A) The types of California sources from which the collector may recover CEWs, including but not limited to households, businesses, and/or other collectors.

(B) The type(s) of CEWs that may be recovered by the collector.

(C) Whether the collector may recover CEWs from outside of the State of California.

(D) The cost–free opportunity(ies) established by the collector for a California source to transfer CEWs to the collector as required by Section 42476(f)(2) of the Public Resources Code.

(3) Certification statements by the collector as follows:

(A) "The undersigned collector agrees under penalty of immediate revocation of approval and denial of recovery payments that as an approved collector:"

1. "I shall make reasonable efforts to ensure that any CEWs for which payment is claimed originate from a California source."
2. "I shall provide free CEW collection to California sources if the payments I receive from recyclers fully covers the net cost of collection, transportation and charges paid to the recycler."
3. "I shall operate in compliance with the requirements of this Chapter, the Act and with all applicable local, state and federal regulatory provisions."
4. "I shall establish a cost–free CEW collection opportunity for California sources."
5. "I have read and understand the requirements set forth in the statutes and regulations governing this program."

(B) "The undersigned collector certifies under penalty of perjury under the laws of the State of California that the information provided herein is true and correct."

(4) The name and signature of the primary applicant who has the authority to sign and bind the collector to this application.

(5) The date and location of application.

(b) A collector shall maintain a physical location within the state of California at which:

(1) CEWs can be handled.

(2) All records required by this Chapter shall be maintained.

(c) The CIWMB shall not approve a collector located outside the United States, unless required to by treaty. If the CIWMB must approve a collector outside the United States, the collector must comply with the requirements of Section 42476.5 of the Public Resources Code.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42476.5, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.13. Additional Application Requirements for Recyclers.

(a) In addition to the general information required in Section 18660.11 of this Chapter, a recycler shall also include the following information:

(1) Documentation that the recycler has fulfilled DTSC notification and authorization requirements regarding the handling and processing of CEWs.

(2) A description of the recycling operation, including:

(A) The method(s) of cancellation used by the recycler.

(B) The types of CEWs cancelled by the recycler, pursuant to Section 18660.32 of this Chapter.

(C) Estimated percentages of cancelled CEWs expected to originate from inside of and from outside of the State of California annually.

(3) An explanation and documentation showing how the demonstrations in Public Resources Code Section 42479(b) have been satisfied, including but not limited to the following:

(A) The recycler is in compliance with applicable requirements of Chapter 23 of Division 4.5 of Title 22 of the California Code of Regulations.

(B) The recycler demonstrates to the CIWMB that the recycler's facility meets all of the following standards:

1. The facility has been inspected by DTSC within the past 12 months, as specified in Section 42479(b)(2)(A). If a DTSC inspection has been requested but not yet completed, then the CIWMB will review the remainder of the application but withhold approval until the DTSC inspection is completed and the facility found to be in conformance.

2. The facility is accessible during normal business hours for unannounced inspections by state or local agencies.

3. The facility has health and safety, employee training, and environmental compliance plans and certifies compliance with the plans.

4. The facility meets or exceeds the standards specified in Chapter 1 (commencing with Section 1171) of Part 4 of Division 2 Division 4 (commencing with Section 3200), and Division 5 (commencing with Section 6300), of the Labor Code or, if all or part of the work is to be performed in another state, the equivalent requirements of that state.

(4) Unless the recycler is applying as a dual entity, the name, address, contact person's name and telephone number of at least one (1) collector from which the recycler has accepted, has contracted to accept or intends to contract to accept CEWs for cancellation with a letter from the collector certifying under penalty of perjury that California CEWs from that collector will be transferred to the recycler for recycling.

(5) A completed "Payee Data Record" STD. 204 form (Rev. 6–2003 or as revised) — Department of Finance, State of California with an original signature of the primary applicant. The form will be provided by the CIWMB and is hereby incorporated by reference.

(6) Certification statements by the recycler as follows:

(A) "The undersigned recycler agrees under penalty of perjury and of immediate revocation of approval and denial of recycling payments that as an approved recycler:"

1. "I shall fully reimburse an approved collector for all CEWs and/or CEWs transferred at the rate specified in this Chapter within 90 days"

2. "I shall not adjust fees, charges or other contract provisions upward for the purpose of negating the recovery payment to approved collectors."

3. "I shall provide free CEW recycling by accepting without charge CEWs from approved collectors if the payment from the CIWMB fully covers the net cost of CEW recycling."

4. "I shall operate in compliance with the requirements of this Chapter, the Act and with all applicable local, state and federal regulatory provisions."

5. "I have read and understand the requirements set forth in the statutes and regulations governing this program."

(B) "The undersigned certifies under penalty of perjury under the laws of the State of California that the information provided herein is true and correct."

(7) The name and signature of the primary applicant who has the authority to sign and bind the recycler to this application.

(8) The date and location of application.

(b) The CIWMB shall not approve a recycler located outside California.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.14. Additional Application Requirements for Dual Entities.

(a) An entity that is both a collector and a recycler at the same location may apply for both approvals, and if approved will be an approved dual entity.

(b) In addition to completing and submitting one copy of the General information required in Section 18660.11 of this Chapter, all dual entity approval applications shall contain the information required in Sections 18660.12 and 18660.13 for collector applications and recycler applications, respectively.

(c) Unless there are specific "dual entity" provisions, an approved dual entity, when acting as a collector, shall meet all the requirements in this Chapter for approved collectors.

(d) Unless there are specific "dual entity" provisions, an approved dual entity, when acting as a recycler, shall meet all the requirements in this Chapter for approved recyclers.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.15. CIWMB Review of Applications.

(a) Upon receipt of the application, the CIWMB will notify the applicant within 30 calendar days if the application is complete or incomplete.

(b) If the CIWMB determines the application is incomplete, with exception of a pending inspection by DTSC, the CIWMB notification will list the missing information, and the applicant will have 30 calendar days from the notification to provide the missing information or the CIWMB will deny the application.

(c) After the CIWMB determines that an application is complete, the CIWMB will notify the applicant within 30 calendar days whether the application has been:

(1) Approved, and if so, proof of approval bearing a unique approval identification number will be provided stating the type of approval granted:

(A) Approved collector, and/or

(B) Approved recycler.

(2) Denied, and if so, the cause(s) for denial will be listed. After denial, an application to become approved may be resubmitted at any time after the causes for denial have been corrected.

(d) The CIWMB shall not charge collector or recyclers to process an application.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.16. Approval Term and Applications for Renewal.

(a) An approved collector's approval remains valid for 2 years following the date of approval provided that the information in the original application remains unchanged, the collector continues to meet and fulfill the requirements of this Chapter, and the collector continues to operate in conformance with DTSC requirements.

(b) An approved recycler's approval remains valid for 2 years following the date of approval provided that the information in the original application remains unchanged, the recycler continues to meet and fulfill the requirements of this Chapter, and the recycler continues to operate in conformance with DTSC requirements and submit to inspections by DTSC.

(c) To renew approval, a collector or recycler shall re–apply to the CIWMB on a biennial basis at least 90 calendar days prior to the expiration date of approval.

(d) If a collector or recycler fails to renew approval, after the expiration date all of the following conditions apply:

(1) The approval is expired and invalid.

(2) The collector or recycler shall be ineligible for all payments set forth in this Chapter.

(3) The collector or recycler shall immediately return any issued proof of approval to the CIWMB.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.17. Prohibited Activities.

(a) The CIWMB may deny a renewal or revoke or suspend the approval of a collector or recycler for any of the following prohibited activities:

(1) Failure by a collector or recycler to operate in conformance with DTSC requirements.

(2) Failure by a recycler to submit to a DTSC inspection within any 12–month period.

(3) Failure by a recycler to provide recovery payments to approved collectors as specified in this Chapter.

(4) Failure to submit to CIWMB audits as specified by this Chapter.

(5) Failure to submit a net cost report as specified in Section 18660.10.

(6) Transferring an approval or proof of approval to any other person.

(7) Altering the proof of approval.

(8) A material breach of any of the certification statements contained in the application.

(9) Fraudulently requesting a recovery payment.

(10) Fraudulently claiming a recycling payment.

(11) Submitting a fraudulent net cost report.

(12) Failure to secure, maintain and/or transfer documentation as specified by this Chapter.

(13) Failure to notify the CIWMB of changes to information contained in the application.

(b) If the CIWMB denies a renewal or revokes an approval for prohibited activities, all of the following conditions apply:

(1) The approval is immediately invalid.

(2) The collector or recycler shall be ineligible for all payments set forth in this Chapter.

(3) The collector or recycler shall immediately return any issued proof of approval to the CIWMB.

(c) A collector or recycler may not reapply for approval until 180 calendar days after denial or revocation for prohibited activities.

(d) If the CIWMB suspends an approval for prohibited activities, all the following conditions apply until the CIWMB determines that the cause for suspension has been remedied:

(1) The approval is temporarily invalid.

(2) The collector or recycler shall be ineligible for all payments set forth in this Chapter for recovery and/or recycling activities conducted during the suspension of approval.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.18. Changes to an Approved Application.

(a) An approved collector or an approved recycler shall reapply to the CIWMB for approval at least 90 calendar days prior to the change taking effect, if one of the following changes may occur:

(1) A change in recovery, recycling or business practices that will prevent the approved collector or approved recycler from meeting the requirements of this Chapter.

(2) A change in recovery, recycling or business practices that will result in the breach of a certified statement on the application or in a prohibited activity as specified in Section 18660.17 of this Chapter.

(b) If an unforeseen change occurs an approved collector or an approved recycler shall notify the CIWMB of the change within ten calendar days after the unforeseen change. In cases of notification after a change specified in subsections (1) or (2) in part (a) of this Section, the CIWMB may revoke the approval immediately or may require the collector or recycler to reapply for approval.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on

12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.

3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.19. Appeal of Denial, Suspension or Revocation of Approval.

(a) If the CIWMB denies an application for approval or suspends or revokes an approval, the collector or recycler may appeal that decision and request a hearing within 30 calendar days after the date of the denial, suspension or revocation. Any appeal received by the CIWMB after 30 calendar days from the date of the denial, suspension or revocation shall be denied without a hearing or consideration of the appeal.

(b) This appeal provided for in this Section is also governed by the general administrative adjudication provisions of the California Administrative Procedure Act, found at Chapter 4.5 of Part 1 of Division 3 of Title 2 of the Government Code, commencing with Section 11400. This appeal is not subject to the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, commencing with Section 11500.

(c) The collector or recycler requesting a hearing must submit the appeal in writing and ensure that it is received by the CIWMB's main business office, to the attention of the Legal Office. The collector or recycler shall clearly mark the outside of the package containing the appeal with: "e–Waste Appeal Enclosed".

(d) In an appeal, a collector or recycler shall include, at a minimum, all of the following:

(1) The collector's or recycler's name, mailing address, contact name and daytime telephone number.

(2) The type of approval: collector, recycler or both.

(3) The location and street address.

(4) The date on the notification from the CIWMB and the stated reasons for denial, suspension or revocation.

(5) A statement of the basis for objecting to the denial, suspension or revocation.

(e) At any time during the proceeding, before a final decision is issued, the CIWMB, with the consent of the petitioner, may refer the matter to mediation, or binding or non–binding arbitration, consistent with the provisions of Government Code Section 11420.10.

(f) The CIWMB shall provide a hearing before the executive director, or his or her designee, who shall act as a hearing officer. The hearing officer shall consider the application, the reasons for denial, suspension or revocation, and any additional relevant information presented by the applicant or CIWMB staff. The hearing officer shall issue a written decision stating the factual and legal basis for the decision.

(g) The Board may adopt the decision as the final decision, or review all or a part of the decision at a hearing before the Board.

(h) The CIWMB will notify the collector or recycler of the final determination in writing within 20 calendar days from the date on which the Board adopts a final decision.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42463(b) and 42479, Public Resources Code; and Sections 11400.20 and 11415.10, Government Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.

2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.

3. Certificate of Compliance as to 12–13–2004 order, including amendment of section heading and section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Article 2.2. Electronic Waste Payment System — Business Requirements

§ 18660.20. Requirements for an Approved Collector.

(a) Upon CIWMB approval of its application, an approved collector may begin requesting recovery payments for CEWs documented and transferred to approved recyclers pursuant to the requirements of this Chapter after the approval.

(b) An approved collector shall comply with the requirements of this Chapter, including:

(1) Begin collection activities from California sources within 180 calendar days of approval. The CIWMB may revoke approval if a collector fails to begin collection activities within 180 days.

(2) Transfer at least one (1) load of CEWs to an approved recycler within 180 calendar days of approval. Approved dual entities may also meet this requirement by both collecting and canceling at least one load of CEWs within 180 calendar days of approval. The CIWMB may revoke approval if a collector fails to transfer at least one load of CEWs within 180 calendar days of approval.

(c) An approved collector shall make reasonable efforts to determine if CEWs it collects are from California sources or from non–California sources and shall keep track of those materials separately. Reasonable efforts may include any of the following, but are not limited to:

(1) Posting signs and asking California sources.

(2) Conducting spot checks and/or surveys.

(3) Checking for a valid California identification of a person, a California license plate on a vehicle, and/or a bill of lading showing a California origin.

(4) Requiring additional documentation from California sources or collectors delivering large numbers of CEWs.

(5) Instituting measures to prevent CEWs from being dropped–off anonymously or illegally disposed at the approved collector's facilities or operations.

(d) An approved collector shall not request recovery payment for non–California CEWs.

(e) An approved collector shall determine if CEWs they transfer to recyclers have already been cancelled, and shall keep track of those materials separately.

(f) An approved collector shall not request recovery payment for previously cancelled CEWs.

(g) An approved collector shall provide the CIWMB–issued proof of approval identification number when transferring CEWs to or requesting recovery payments from an approved recycler. If an approved collector, or its agent, fails to provide the proof of approval, the approved recycler may deny recovery payment.

(h) An approved collector shall provide to any approved collector or approved recycler to whom it transfers CEWs information on the origin (California or non–California) and cancellation status of CEWs transferred, including but not limited to the following:

(1) Signed statement listing the sources(s) of the transferred CEWs as recorded pursuant to subsection (j) of this section.

(2) A copy(ies) of the applicable portions of the collection log specified in subsection (j) of this section that describe the collection activities that resulted in the transferred CEWs.

(3) Written description of any activity, such as storage, repair, refurbishment, resale, reuse, transfer, packaging and/or consolidation, that explains any discrepancy between the CEWs transferred and the CEWs collected as recorded in a log specified in subsection (j) of this section.

(4) A copy of any applicable proof of designation specified in subsection (k) of this section associated with CEWs collected while acting as a designated approved collector for a local government.

(i) An approved collector shall operate in accordance with all Federal, State and local laws and regulations.

(j) In addition to the general record keeping requirements in Section 18660.8 of this Chapter, an approved collector shall maintain the following records:

(1) A collection log containing:

(A) For each collection activity or event that results in CEWs transferred to the approved collector, a brief written description of the collection activity or event, including the type of California sources targeted for collection, the date and location the activity or event occurred, the number of CEWs collected, and a estimate of the weight of CEWs collected.

(B) Approved collectors that are not California local governments, nor entities acting as the designated approved collector for a California local government, shall maintain a list of all California sources who discarded the CEWs transferred to the approved collector, including the name and address of the California source and the number of CEWs discarded by the California source.

(C) When receiving five (5) or more CEWs units discarded from a non–residential California source, an approved collector shall record the name of the non–residential organization, an address, a contact person and a telephone number.

(D) A list of other handlers and approved collectors who transferred CEWs to the approved collector in any month, including the name and address of the other handler and approved collector and the number of CEWs transferred and the sources of those CEWs as recorded pursuant to parts (A) and (B) of this Section.

(E) When collecting source–anonymous CEWs, all approved collectors shall:

1. Log the source–anonymous CEW collection activity separately.

2. Provide a brief written description of the activity or incident that resulted in the source–anonymous CEWs.

3. Record the date and location of the activity or incident, the number and an estimate of the weight of source–anonymous CEWs collected from the location of the activity or incident.

4. Record the name, organizational affiliation, address and phone number of a person responsible for the site of the activity or incident.

(2) Records of transfers by load to, and recovery payments from, approved recyclers, including:

(A) Inventory records that document the relationship between the CEWs received from all sources and the CEWs transferred to the approved recycler or to other handlers.

(B) Signed and dated receipts showing the number and weight of CEWs transferred. The approved collector shall identify and record each approved recycler using the name and identification number from the recycler's "proof of approval."

(3) Records on the costs, revenues and net costs associated with the collection, transportation and disposition of all CEWs handled as specified in Section 18660.10 of this Chapter.

(k) An approved collector that is acting as a designated approved collector for a local government shall do the following:

(1) Secure proof of designation as defined in Section 18660.5(a)(29) of this of this Chapter.

(2) Provide a copy of the applicable proof of designation to another approved collector or approved recycler at the time CEWs are transferred from the designated approved collector to another approved collector or approved recycler.

(3) A designated approved collector shall be relieved only of the source documentation requirement specified by Section 18660.20(j)(1)(B) of this Chapter only for those collection activities that occur within the designation as specified in subsection k(1) of this section.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New article 2.2 (sections 18660.20–18660.21) and section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new article 2.2 (sections 18660.20–18660.21) and section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. New subsections (c)(5) and (h)(4), amendment of subsections (j)(1)(B)–(C) and new subsections (j)(1)(D) and (k)–(k)(3) filed 12–2–2005 as an emergency; operative 12–2–2005 (Register 2005, No. 48). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
4. Certificate of Compliance as to 12–13–2004 and 12–2–2005 orders, including further amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.21. Requirements for an Approved Recycler.

(a) Upon CIWMB approval of its application, an approved recycler may begin claiming recycling payments for CEWs received from an approved collector and cancelled after the approval.

(b) An approved recycler shall comply with the requirements of this Chapter, including:

(1) Begin CEW cancellation activities within 180 calendar days of approval. The CIWMB may revoke approval if a recycler fails to begin CEW cancellation within 180 days.

(2) Accept transfer of and cancel at least one (1) load of CEWs from an approved collector within 180 days of approval. Approved dual entities may also meet this requirement by both collecting and canceling at least one load of CEWs within 180 days of approval. The CIWMB may revoke approval if a recycler fails to cancel at least one load within 180 days of approval.

(3) Record each approved collector's proof of approval identification number and provide a receipt showing the weight and number of CEWs transferred and the amount of the corresponding recovery payment due to the collector.

(4) Make recovery payments to approved collectors, or their agents, for all CEWs transferred, in accordance with this Chapter, at the time of transfer of CEWs, or at a later time specified in a written contract between the approved collector and approved recycler, but not more than 90 days from the date of transfer.

(5) Cancel CEWs by one or more of the manners prescribed in Section 18660.32 of this Chapter.

(A) An approved recycler shall maintain a processing log that records the date, method of cancellation, and quantity in pounds of CEWs cancelled.

(B) An approved recycler shall maintain inventory records that document the relationship between CEWs received from approved collectors, CEWs processed and cancelled by the approved recycler, and treatment residuals shipped to end–use destinations.

(6) Submit recycling payment claims to the CIWMB as specified in Sections 18660.22 through 18660.31 of this Chapter.

(7) Submit to and obtain a DTSC inspection, within any 12–month period.

(c) Based on information supplied by approved collectors, an approved recycler shall, at a minimum, keep track of the weight of CEWs from both California and non–California sources transferred from approved collectors and ensure that recycling payments are not claimed for non–California source materials.

(d) An approved recycler shall not provide recovery payment to approved collectors for CEWs from non–California sources, or to approved collectors that fail to provide complete and applicable source documentation on CEW origin pursuant to Section 18660.20(h) of this Chapter.

(e) An approved recycler shall not claim recycling payments for non–California CEWs.

(f) Approved recyclers shall determine if CEWs they accept from collectors have already been cancelled and shall keep track of the weight of

those materials and ensure that recycling payments are not claimed for these materials.

(g) An approved recycler shall not provide recovery payment to approved collectors for previously cancelled material.

(h) An approved recycler shall not claim recycling payments for previously cancelled material.

(i) An approved recycler may deny recovery payments for commingled loads in which CEWs cannot be distinguished from other materials.

(j) An approved recycler shall operate in accordance with all Federal, State and local laws and regulations.

(k) An approved recycler shall:

(1) Be equipped with scales and be a weighmaster in accordance with Chapter 7 (commencing with Section 12700) of Division 5 of the Business and Professions Code.

(2) Measure, record and report weights in pounds and issue certified weights.

(3) Weigh CEWs and/or treatment residuals on a scale or other device approved, tested and sealed in accordance with Division 5 (commencing with Section 12500) of the Business and Professions Code.

(*l*) In addition to the general record keeping requirements in Section 18660.8 of this Chapter, an approved recycler shall maintain the following records:

(1) A receiving log containing a brief written description of CEW transfers by load from approved collectors, the number and weight of CEWs transferred, and the dates the transfers from collectors occurred.

(2) Records of CEW transfers, including all documentation received from an approved collector as specified in Section 18660.20(h), and recovery payments made and/or owed to approved collectors, including signed and dated receipts showing the number and weight of CEWs transferred.

(A) The approved recycler shall identify and record each approved collector using the name and identification number from the collector's "proof of approval."

(B) The approved recycler shall record separately the sum of estimated weights of source–anonymous CEWs reported by and transferred from an approved collector.

(3) A processing log showing the definitive cancellation of CEWs by weight, date and cancellation method, as specified in Section 18660.32 of this Chapter, upon which a payment claim is based.

(4) Records for all bills of lading for treatment residuals including the following information:

(A) Date of shipment.

(B) Quantity and material type in shipment.

(C) The full name and address of shipping service.

(D) The full name and address of the buyer or other transferee, and destination name and address if different.

(5) Records on the net costs associated with the disposition of all CEWs handled, the net costs of accepting the transfer of CEWs, the net costs of each cancellation method used, and any additional administrative costs of providing recovery payments to approved collectors.

(6) Complete records of all claims, attachments and supporting documentation for all recycling payment claims made to the CIWMB.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Amendment of subsection (*l*)(2) and new subsections (*l*)(2)(A)–(B) filed 12–2–2005 as an emergency; operative 12–2–2005 (Register 2005, No. 48). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
4. Certificate of Compliance as to 12–13–2004 and 12–2–2005 orders, including further amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Article 2.3. Electronic Waste Payment System — Recycling Payment Claims

§ 18660.22. General Requirements for Recycling Payment Claims.

(a) An approved recycler shall submit all of the following general information in a claim for recycling payments from the CIWMB:

(1) The full name, mailing address, and federal tax identification number of the recycler preparing the report.

(2) The name and phone number of a contact person for purposes of the report.

(3) The reporting month (calendar month and year) and date of preparation of the report.

(4) The claim activity period, listing the start and end dates.

(5) The total weight of CEW claimed, as calculated in Sections 18660.23, 18660.24, and 18660.25 of this Chapter.

(6) The total monetary amount being claimed.

(7) The signature and title of a person with signature authority for payment claims as designated pursuant to Section 18660.11 of this Chapter. The signature block shall include the following certification statements:

(A) "I hereby declare under penalty of perjury that:"

1. "The approved recycler whom I represent is currently in compliance with all Federal, State and local requirements, including compliance with the requirements of the Act and this Chapter."

2. "All claimed CEWs have been cancelled as specified in Section 18660.32 and are unable to re–enter the payment system, and all treatment residuals specified in Section 18660.22(c) derived from the claimed CEWs have been shipped to an end–use destination authorized to receive and further treat those treatment residuals."

3. "I have certified the weights and verified the calculations, including the adjustments for CEWs from non–California sources and for prior cancellation."

4. "This payment claim, including any and all accompanying documents has been examined by me and is true, correct and complete."

5. "I understand that errors or omissions on my part may result in the CIWMB delaying or denying payment"

6. "I further understand that fraud could result in revocation of the recycler's approval."

(8) The date and place of the signing of the claim.

(b) For each cancellation method used, an approved recycler shall submit no more than one recycling payment claim per calendar month and may only include one reporting month, as specified by Sections 18660.23, 18660.24 and 18660.25 of this Chapter, in a single recycling payment claim. An approved recycler shall prepare payment claims for different cancellation methods separately, but may submit a package containing all the claims for a reporting month.

(c) Prior to submitting a payment claim for cancelled CEWs, an approved recycler shall:

(1) Ship all the following treatment residuals derived from the cancelled CEWs to an end–use destination authorized to receive and further treat the treatment residual:

(A) CRT glass cullet if conducting CRT or CRT–containing CEW cancellation through crushing or shredding.

(B) Bare CRTs if conducting CRT or CRT–containing CEW cancellation through dismantling to a bare CRT after relieving the vacuum.

(C) Gas plasma display glass cullet if conducting non–CRT–containing CEW cancellation through crushing or shredding.

(D) Bare gas plasma display panels if conducting non–CRT–containing CEW cancellation through dismantling to a bare panel.

(2) For each cancelled non–CRT–containing CEWs, the recycler shall record and report the manufacturer name, model number, serial number and weight prior to cancellation.

(3) Only those CEWs that have been processed and documented pursuant to the applicable requirements of subsections (c)(1) and (c)(2) of this section shall be claimed for payment.

(d) An approved recycler shall attach all of the following to the payment claim:

(1) For all CEWs received from collectors during the claim activity period that are cancelled and included in the current claim, a report that includes:

(A) A list of approved collectors from which the transfers of CEWs were accepted with the name and proof of approval identification number of each.

(B) The total weight of CEWs in all loads transferred from each approved collector. Note that this weight may not equal the weight claimed for recycling payment because recovery payments are made on the weight of all CEWs transferred while recycling payments are made on the weight of only those CEWs cancelled.

(C) Signed and dated receipts documenting all CEW transfers from approved collectors.

(D) A copy(ies) of the applicable records specified in Section 18660.21(*l*)(1)–(4) pertaining to the collection and processing activities involving the CEWs cancelled and being claimed for payment.

1. Source documentation not associated with the claimed CEWs shall not be included in the report.

2. Transfer documentation not associated with the claimed CEWs shall not be included in the report.

(E) A sum of the estimated weight of source–anonymous CEWs as reported by and transferred from approved collectors.

(2) For all CEWs cancelled during the claim activity period and that are included in the current claim, a description of cancellation activities that includes:

(A) The type(s) of cancellation method used.

(B) The date(s) when cancellation occurred.

(C) The amount of CEWs processed by dismantling, crushing or shredding by date in pounds.

(D) The dates and destinations of all treatment residual shipments required prior to submitting a claim as specified in subsection (c) of this section.

(3) For all CEWs received from collectors during the claim activity period that are not included in a prior claim and that are not cancelled, a description and quantification of those activities including but not limited to storage, repair, refurbishment, resale, reuse, transfer and/or export.

(e) An approved recycler shall deliver recycling payment claims to the CIWMB's main business office, to the attention of the Accounting Section. An approved recycler shall mark the outside of the package containing the claims clearly with "e–Waste Claim Enclosed."

(f) An approved recycler shall submit timely recycling payment claims so that the CIWMB receives each claim within 45 days of the end of the reporting month, as specified by Sections 18660.23, 18660.24 and 18660.25 of this Chapter. The CIWMB may return without payment any claim received more than 45 days after the end of the reporting month, as specified by Sections 18660.23, 18660.24 and 18660.25 of this Chapter. The CIWMB shall determine a claim's receipt as either the date of the postmark on the claim package, or the date the claim package was physically received by the CIWMB, whichever is earlier.

(g) The CIWMB may reject a claim if it fails to comply with the general requirements of this Section, or the additional requirements in the applicable provisions regarding cancellation methods in Sections 18660.23, 18660.24 and/or 18660.25 of this Chapter.

(h) The CIWMB's rejection of a recycling payment claim shall not extend any applicable due date or time period.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New article 2.3 (sections 18660.22–18660.31) and section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new article 2.3 (sections 18660.22–18660.31) and section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. New subsection (c)(1)(E) filed 12–2–2005 as an emergency; operative 12–2–2005 (Register 2005, No. 48). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
4. Certificate of Compliance as to 12–13–2004 and 12–2–2005 orders, including further amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.23. Additional Requirements for Recycling Payment Claims to Demonstrate Cancellation of CRTs or CRT–Containing CEWs Through Crushing or Shredding.

(a) In addition to the general information required in Section 18660.22 of this Chapter, an approved recycler shall include the information in this Section to claim recycling payments for canceling CRT–containing CEWs through crushing or shredding as specified in Section 18660.32 of this Chapter.

(b) An approved recycler shall base recycling payment claims on the weight of CRT–containing CEWs cancelled.

(c) An approved recycler shall submit a recycling payment claim within 45 calendar days of the end of a calendar month in which one or more shipments of CRT glass cullet were sent to an end use destination.

(d) The reporting month for a recycling payment claim pursuant to this Section is the month in which shipment(s) of CRT glass cullet were made.

(e) An approved recycler shall calculate the payment and include the calculation in a recycling payment claim specific to canceling CRT–containing CEWs through crushing or shredding as follows:

(1) The total weight of CRT–containing CEWs cancelled for the reporting month from which all treatment residuals specified in Section 18660.22(c)(1) of this Chapter have been shipped to an end–use destination authorized to receive and further treat those treatment residuals.

(2) The total payment claimed, calculated by multiplying the weight of CRT–containing CEWs specified in subsection (e)(1) of this Section by the Standard Statewide Combined Recovery and Recycling Payment Rate.

(3) If the amount in subsection (e)(1) of this Section includes CEWs from outside California, CEWs without source documentation, or previously cancelled materials, then the recycler shall reduce the payment claim to reflect these corrections by adjusting the weights.

(f) An example calculation for canceling CRT–containing CEWs through crushing or shredding is included for illustration purposes as follows:

The weight of CRT–containing CEWs cancelled: *1000 pounds*
Times the per pound Standard Statewide combined recovery and recycling payment rate: *X $0.39*

Equals the payment claim for the reporting period: *= $390.00 Total Claim*

(g) An approved recycler shall attach to the payment claim the following documentation from all shipments of CRT glass cullet made during the reporting period of a calendar month:

(1) Shipping reports to end use destinations, including the names of the shipping recycler and the receiving end–use destination.

(2) The date of the shipment and the weight of the CRT glass cullet.

(3) Weight tickets of individual shipments of CRT glass cullet.

(4) Verification of post cancellation disposition, including:

(A) For shipments by sea, the proof of disposition to an end–use destination shall be the on–board bill of lading and an executed contract or other documentation from the intended recipient of the shipment.

(B) For other shipments, the proof of disposition to an end–use destination shall include a receipt issued by the person receiving the shipment and any applicable bill of lading.

(C) For all shipments of CRT glass cullet, a discussion of the ultimate disposition of the material shipped demonstrating that the disposition is not disposal to land, water or air.

(h) In addition to the documentation required in subsection (g), an approved recycler shall attach to the payment claim a description and qualification of the disposition of other treatment residuals derived from cancellation of the CRT–containing CEWs, including but not limited to metals, plastics, fibers and wood.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).
4. Amendment of subsection (f) filed 6–23–2008; operative 7–1–2008. Amendment filed without review by OAL pursuant to the exemption for regulations which establish or fix rates, prices, or tariffs (Government Code section 11340.9(g)) (Register 2008, No. 26).

§ 18660.24. Additional Requirements for Recycling Payment Claims to Demonstrate Cancellation of CRTs or CRT–Containing CEWs Through Dismantling to a Bare CRT After Relieving the Vacuum.

(a) In addition to the general information required in Section 18660.22 of this Chapter, an approved recycler shall include the information in this Section to claim recycling payments for canceling CRT containing CEWs through dismantling to a bare CRT after relieving the vacuum as specified in Section 18660.32 of this Chapter.

(b) An approved recycler shall base recycling payment claims on the weight of CRT–containing CEWs cancelled.

(c) An approved recycler shall submit a recycling payment claim within 45 calendar days of the end of a calendar month in which one or more shipments of bare CRTs were sent to an end use destination.

(d) The reporting month for a recycling payment claim pursuant to this Section is the month in which the shipment(s) of bare CRTs were made.

(e) An approved recycler shall calculate the payment and include the calculation in a recycling payment claim specific to canceling CRT–containing CEWs through dismantling to a bare CRT as follows:

(1) The total weight of CRT–containing CEWs cancelled from which all treatment residuals specified pursuant to Section 18660.22(c)(1) of this Chapter have been shipped to an end–use destination authorized to receive and further treat those treatment residuals.

(2) The total payment claimed, calculated by multiplying the weight of CRT–containing CEWs specified in subsection (e)(1) of this Section by the Standard Statewide Combined Recovery and Recycling Payment Rate.

(3) If the amount in subsection (1) of this Section includes CEWs from outside California, CEWs without source documentation, or previously cancelled materials, then the recycler shall reduce the payment claim to reflect these corrections by adjusting the weights.

(f) An example calculation for canceling CRT containing CEWs through dismantling to a bare CRT after relieving the vacuum is included for illustration purposes as follows:

The weight of CRT–containing CEWs cancelled: *1000 pounds*
Times the per pound Standard Statewide combined recovery and recycling payment rate: *X $0.39*

Equals the payment claim for the reporting period: *= $390.00 Total Claim*

(g) An approved recycler shall attach the following documentation for all shipments of bare CRTs made during the reporting period of a calendar month:

(1) Shipping reports to end use destinations, including the names of the shipping recycler and the receiving end–use destination.

(2) The date of the shipment and the weight of the bare CRTs.

(3) Weight tickets of individual shipments of bare CRTs.

(4) Verification of post cancellation disposition, including:

(A) For shipments by sea, the proof of disposition to an end–use destination shall be the on–board bill of lading and an executed contract or other documentation from the intended recipient of the shipment.

(B) For other shipments, the proof of disposition to an end–use destination shall include a receipt issued by the person receiving the shipment and any applicable bill of lading.

(C) For all shipments of bare CRTs, a discussion of the ultimate disposition of the material shipped demonstrating that the disposition is not disposal to land, water or air.

(h) In addition to the documentation required in subsection (g), an approved recycler shall attach to the payment claim a description and qualification of the disposition of other treatment residuals derived from cancellation of the CRT–containing CEWs, including but not limited to metals, plastics, fibers and wood.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).
4. Amendment of subsection (f) filed 6–23–2008; operative 7–1–2008. Amendment filed without review by OAL pursuant to the exemption for regulations which establish or fix rates, prices, or tariffs (Government Code section 11340.9(g)) (Register 2008, No. 26).

§ 18660.25. Additional Requirements for Recycling Payment Claims to Demonstrate Cancellation of Non–CRT–Containing CEWs.

(a) In addition to the general information required in Section 18660.22 of this Chapter, an approved recycler shall include the information in this Section to claim recycling payments for canceling non–CRT–containing CEWs through dismantling to a bare panel or crushing/shredding of the entire CEW as specified in Section 18660.32 of this Chapter.

(b) An approved recycler shall base recycling payment claims on the weight of the cancelled non–CRT–containing CEWs.

(c) An approved recycler shall submit a recycling payment claim within 45 calendar days of the end of a calendar month in which it cancels non–CRT–containing CEWs.

(d) The reporting month for a recycling payment claim pursuant to this Section is the calendar month the cancellation occurs.

(e) An approved recycler shall calculate the payment and include the calculation in a recycling payment claim specific to canceling non–

CRT–containing CEWs through dismantling to a bare panel or crushing/shredding of the entire CEW as follows:

(1) The total weight of cancelled non–CRT–containing CEWs for the reporting month from which all treatment residuals specified pursuant to Section 18660.22(c)(1) of this Chapter have been shipped to an end–use destination authorized to receive and further treat those treatment residuals. Note that non–CRT–containing CEWs commingled with other material are ineligible for recycling payment.

(2) The total payment claimed, calculated by multiplying the weight of non–CRT–containing CEWs specified in subsection (e)(1) of this Section by the Standard Statewide Combined Recovery and Recycling Payment Rate.

(3) If the amount in subsection (1) of this Section includes CEWs from outside California or previously cancelled materials, then the recycler shall reduce the payment claim to reflect these corrections by adjusting the weights.

(4) For each cancelled non–CRT–containing CEWs, the recycler shall record and report the manufacturer name, model number, serial number and weight prior to cancellation.

(f) An example calculation for canceling non–CRT–containing CEWs through dismantling to a bare panel or crushing/shredding of the entire CEW is included for illustration purposes as follows:

The weight of non–CRT–containing CEWs cancelled: *1000 pounds*
Times the per pound Standard Statewide combined recovery and recycling payment rate: *X $0.39*

Equals the payment claim for the reporting period: *= $390.00 Total Claim*

(g) An approved recycler shall attach the following documentation for all shipments of circuit boards from non–CRT–containing CEWs made during the reporting period of a calendar month:

(1) Shipping reports to end use destinations, including the names of the shipping recycler and the receiving end–use destination.

(2) The date of the shipment and the weight of the circuit boards.

(3) Weight tickets of individual shipments of the circuit boards.

(4) Verification of post cancellation disposition, including:

(A) For shipments by sea, the proof of disposition to an end–use destination shall be the on–board bill of lading.

(B) For other shipments, the proof of disposition to an end–use destination shall include a receipt issued by the person receiving the shipment and any applicable bill of lading.

(C) For all shipments of non–CRT–containing CEWs circuit boards, a discussion of the ultimate disposition of the material shipped demonstrating that the disposition is not disposal to land, water or air.

(h) In addition to the documentation required in subsection (g), an approved recycler shall attach to the payment claim a description and qualification of the disposition of other treatment residuals derived from cancellation of the non–CRT–containing CEWs, including but not limited to metals, plastics, and fibers.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).
4. Amendment of subsection (f) filed 6–23–2008; operative 7–1–2008. Amendment filed without review by OAL pursuant to the exemption for regulations which establish or fix rates, prices, or tariffs (Government Code section 11340.9(g)) (Register 2008, No. 26).

§ 18660.30. CIWMB Review of Recycling Payment Claims.

(a) The CIWMB shall review a recycling payment claim and determine if a recycling payment is due pursuant to this Chapter. If the CIWMB has cause to investigate any aspect of a claim, the review may be extended until resolution of all issues aspects under investigation.

(b) The CIWMB may deny or adjust payment for any of the following reasons:

(1) The CIWMB determines that:

(A) The signature on the claim is not that of a person with signature authority for recycling payment claims as designated pursuant to Section 18660.11 of this Chapter.

(B) The recycler did not have current approval for the reporting period and/or the cancellation period in the claim.

(C) The approved recycler failed to meet the requirements in this Chapter or committed an activity prohibited in this Chapter.

(D) The payment claim contains a numerical discrepancy between values or calculations reported on the claim and the CIWMB verified values and calculations.

(E) The facility has not been inspected by DTSC within the past 12 months, as specified in Section 42479(b)(2)(A) of the Public Resources Code.

(F) The recycler is ineligible for payment pursuant to Section 42479(b)(1) of the Public Resources Code.

(G) The payment claim is deficient with regard to any of the following:

1. CEW source documentation
2. CEW transfer documentation
3. CEW processing documentation
4. Treatment residual disposition documentation
5. Any other documentation required as part of a payment claim as specified in Sections 18660.22 through 18660.25 of this Chapter.

(2) The CIWMB has prevailed against the claimant in a civil or administrative action and money is owed to the CIWMB as a result of the action.

(3) The CIWMB discovers, as part of an application review, claim review or an audit, significant inconsistencies or fraud.

(c) If the CIWMB adjusts or denies a payment claim based on deficiencies in documentation specified in subsection (b)(1)(G) of this section, an approved recycler shall not resubmit as part of a future claim that same documentation, or any revised form of that documentation, seeking payment for those CEWs for which payment had been denied.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.31. Appeal of Denied or Adjusted Recycling Payment Claims.

(a) An approved recycler may file a formal appeal by writing to the CIWMB within 30 calendar days of the warrant date of an adjusted payment or the date of the notice denying the claim.

(b) Any appeal received by the CIWMB after 30 calendar days from the date of the adjustment letter from the CIWMB on an adjusted payment or the date of the notice denying the claim shall be denied without a hearing or consideration of the appeal.

(c) An approved recycler shall include all of the following information in a written appeal:

(1) The recycler's name and identification number from its proof of approval.

(2) The month(s) and year(s) in question.

(3) A copy of the recycling payment claim and the notice denying the claim, or a copy of the remittance advice if a payment adjustment is being appealed.

(4) An explanation of why the adjustment or denial was in error.

(5) Any other documentation that supports the appeal.

(d) At any time during the proceeding, before a final decision is issued, the CIWMB, with the consent of the petitioner, may refer the matter to mediation, or binding or non-binding arbitration, consistent with the provisions of Government Code Section 11420.10.

(e) The CIWMB shall provide a hearing before the executive director, or his or her designee, who shall act as a hearing officer. The hearing officer shall consider the claim, the reasons for payment denial or payment adjustment, and any additional relevant information presented by the claimant or CIWMB staff. The hearing officer shall issue a written decision stating the factual and legal basis for the decision.

(f) The CIWMB may adopt the decision as the final decision, or review all or a part of the decision at a hearing before the Board.

(g) The CIWMB will notify the recycler of the final determination in writing within 20 calendar days from the date on which Board adopts a final decision.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Section 42479, Public Resources Code; and Sections 11400.20 and 11415.10, Government Code.

HISTORY

1. New section filed 5-10-2004 as an emergency; operative 5-10-2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5-10-2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12-13-2004 as an emergency; operative 12-13-2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12-14-2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12-13-2004 order transmitted to OAL 10-13-2006 and filed 11-27-2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Article 2.4. Electronic Waste Payment System — Cancellation Methods, Recovery Payment Rate, and Combined Recovery and Recycling Payment Rate

§ 18660.32. Cancellation Methods.

(a) The CIWMB shall not pay recycling payment claims unless the cancellation method used meets the requirements of this Section.

(b) An approved recycler shall not use or propose cancellation methods that are inconsistent with any DTSC requirements for handling or otherwise processing CEWs.

(c) An approved recycler may use the following standard CEW cancellation methods that qualify for recycling payments as specified in the requirements of this Chapter:

(1) CRT or CRT-containing CEW cancellation through crushing or shredding.

(2) CRT or CRT-containing CEW cancellation through dismantling to a bare CRT after relieving the vacuum.

(3) Cancellation of non-CRT-containing CEWs through crushing/shredding of the entire CEW.

(4) Cancellation of non-CRT-containing CEWs through dismantling to a bare panel.

(d) An approved recycler may submit proposals for alternative cancellation methods to the CIWMB for review on a case-by-case basis. The CIWMB, in consultation with DTSC, shall act within 180 calendar days to disapprove an alternative method, approve an alternative method for use only by the requesting recycler, or approve an alternative method for use by all recyclers.

(e) An approved recycler shall not claim, and the CIWMB shall not pay, recycling payments for CEWs "cancelled" with an alternative method unless the CIWMB has previously approved the alternative method. The CIWMB shall deny payment on any CEWs "cancelled" with an alternative method prior to CIWMB approval.

(f) Reuse of either an intact CEW or of a partially disassembled CEW, such as a CRT with an attached yoke, is not cancellation and is not eligible for recycling payments.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New article 2.4 (sections 18660.32-18660.35) and section filed 5-10-2004 as an emergency; operative 5-10-2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5-10-2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new article 2.4 (sections 18660.32-18660.34) and section filed 12-13-2004 as an emergency; operative 12-13-2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12-14-2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12-13-2004 order, including amendment of section, transmitted to OAL 10-13-2006 and filed 11-27-2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.33. Standard Statewide Recovery Payment Rate.

(a) An approved recycler shall pay an approved collector the Standard Statewide Combined Recovery Payment Rate for all CEWs transferred to the recycler that are accompanied by applicable source documentation pursuant to Section 18660.20(h) of this Chapter regardless of the real or anticipated disposition of the CEWs.

(b) Beginning July 1, 2008, the Standard Statewide Recovery Payment Rate is $0.16 per pound.

(c) The CIWMB shall review the Standard Statewide Recovery Payment Rate at a public meeting of the Board and establish the rate pursuant to Section 42477 of the Public Resources Code.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5-10-2004 as an emergency; operative 5-10-2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5-10-2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12-13-2004 as an emergency; operative 12-13-2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12-14-2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12-13-2004 order, including amendment of section, transmitted to OAL 10-13-2006 and filed 11-27-2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).
4. Amendment of subsection (b) filed 6-23-2008; operative 7-1-2008. Amendment filed without review by OAL pursuant to the exemption for regulations which establish or fix rates, prices, or tariffs (Government Code section 11340.9(g)) (Register 2008, No. 26).

§ 18660.34. Standard Statewide Combined Recovery and Recycling Payment Rate.

(a) The CIWMB shall pay an approved recycler the Standard Statewide Combined Recovery and Recycling Payment Rate for the weight of CEWs cancelled and claimed pursuant to the requirements of this Chapter, which includes a component for recovery costs and a component for recycling costs.

(b) Beginning July 1, 2008 and ending on September 15, 2008 the Standard Statewide Combined Recovery and Recycling Payment Rate is $0.43 per pound.

(c) Beginning September 16, 2008, the Standard Statewide Combined Recovery and Recycling Payment Rate is $0.39 per pound.

(d) The CIWMB shall review the Standard Statewide Recovery and Recycling Payment Rate at a public meeting of the Board and establish

the rate pursuant to Sections 42477 and 42478 of the Public Resources Code.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476, 42477, 42478 and 42479, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).
4. Amendment of subsection (b), new subsection (c) and subsection relettering filed 6–23–2008; operative 7–1–2008. Amendment filed without review by OAL pursuant to the exemption for regulations which establish or fix rates, prices, or tariffs (Government Code section 11340.9(g)) (Register 2008, No. 26).

Article 2.5. Electronic Waste Payment System — Manufacturer Payments

§ 18660.35. Manufacturer Registration.

(a) A manufacturer may apply to become registered, to renew an existing registration, or to revise an existing registration at any time by submitting a complete application.

(b) In an application for registration, manufacturers shall provide the following general information:

(1) Name of manufacturer.

(2) Mailing address and physical address.

(3) Name of the employee or officer of the manufacturer who is the contact person.

(4) Telephone number(s) of the contact person.

(5) An e–mail address of the contact person.

(6) Name of the employee or officer of the manufacturer who is the primary applicant authorized to sign:

(A) Payment claims.

(B) Reports.

(C) Other payment–related documentation and/or correspondence required by the CIWMB.

(7) Name of the employee or officer of the manufacturer (if any), in addition to the primary applicant, who is authorized to sign:

(A) Payment claims.

(B) Reports.

(C) Other–payment related documentation and/or correspondence required by the CIWMB.

(8) An indication of whether the manufacturer wishes to be included in an on–line registry.

(9) The location in which the records required by this Chapter will be maintained.

(c) In an application for registration, a manufacturer shall also include the following information about its take back program or activities, including but not limited to:

(1) The types of California sources from which the manufacturer may take back CEWs, including but not limited to households, businesses, and/or other collectors.

(2) The type(s) of CEWs that the manufacturer may take back for recycling.

(3) The mechanism(s) by which the manufacturer will accept CEWs into the take back program, such as mail–in, drop–off, trade–in, or pick–up.

(4) Any conditions the manufacturer may place on accepting CEWs.

(5) Whether the manufacturer may recover for the purposes of recycling discarded electronic devices similar to CEWs from outside of the State of California.

(d) In an application for registration, a manufacturer shall also include the following information regarding the recycling of the CEWs received into its take back program:

(1) The name and address of the recycling facility(ies) used by the manufacturer.

(2) A description of the recycling operation used by the manufacturer, including the recycling process that results in cancellation as specified in Section 18660.32 of this Chapter or an equivalent result.

(e) In an application for registration, a manufacturer shall make the following certification statements:

(1) "The undersigned manufacturer agrees under penalty of immediate revocation of registration and denial of manufacturer payments that as an registered manufacturer:"

(A) "I shall ensure that any CEWs for which payment is claimed originate from a California source."

(B) "I shall only claim payment for those CEWs that I take back and process for recycling."

(C) "I shall operate in compliance with the requirements of this Chapter, the Act and with all applicable local, state and federal regulatory provisions."

(2) "The undersigned manufacturer certifies under penalty of perjury under the laws of the State of California that the information provided herein is true and correct."

(A) The name and signature of the primary applicant who has the authority to sign and bind the manufacturer to this application.

(B) The date and location of application execution.

(f) In an application for registration, a manufacturer shall submit a completed "Payee Data Record" STD. 204 Form (Rev. 6–2003 or as revised) — Department of Finance, State of California with an original signature of the primary applicant. The form will be provided by the CIWMB and is hereby incorporated by reference.

(g) Within 30 calendar days upon receipt of the application for registration, the CIWMB will notify the manufacturer if the applicant is a registered manufacturer and provide a registration number to be used in all correspondence and claims.

(h) A registered manufacturer's registration remains valid for 2 years following the date of registration provided that the information in the original application remains unchanged and the manufacturer continues to meet and fulfill the requirements of this Chapter.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a) and 42476, Public Resources Code.

HISTORY

1. New section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. New article 2.5 (sections 18660.35–18660.39) and repealer and new section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.36. Requirements for a Registered Manufacturer.

(a) Upon registration with the CIWMB, a registered manufacturer may claim manufacturer payments for those CEWs received by the manufacturer's take back program after the effective date of registration and processed for recycling as specified in Section 18660.6(i)(3) of this Chapter.

(b) A registered manufacturer shall determine if CEWs received by the manufacturer's take back program and processed for recycling are from California sources or from non–California sources and shall keep track of those materials separately.

(c) A registered manufacturer shall not request payment for non–California CEWs.

(d) A registered manufacturer shall not request payment for previously cancelled CEWs.

(e) A registered manufacturer shall ensure that any CEW on which the manufacturer has claimed manufacturer payment does not enter the recovery and recycling payment system.

(f) The recycling operation used by a registered manufacturer shall operate in accordance with all Federal, State and local laws and regulations.

(g) In addition to the general record keeping requirements in Section 18660.8 of this Chapter, a registered manufacturer shall obtain and maintain the following records:

(1) A written description of the take back program, including the type of consumers from whom CEWs are accepted for take back.

(2) A record of the number of CEWs collected by the product categories defined in Section 18660.5(a)(32) of this Chapter.

(3) Records of transfers by load to the recycling operation used by the registered manufacturer, including signed and dated receipts showing the weight and number of CEWs transferred.

(4) Written description of any activity, such as packaging and consolidation, which explains any discrepancy between the CEWs received through the take back program and the CEWs transferred to the recycling operation used by the manufacturer.

(5) Records showing any CEWs received through the take back program that are reused, repaired, refurbished or otherwise returned to use.

(6) Records showing any CEWs received through the take back program that are transferred to another entity without being processed for recycling.

(7) Records showing the processing for recycling of CEWs by number, screen size, weight, date and recycling method that results in cancellation as specified in Section 18660.32 of this Chapter or an equivalent result.

(8) Complete records of all claims, attachments and supporting documentation for all recycling payment claims made to the CIWMB.

(h) A registered manufacturer shall measure, record and report weights in pounds. A registered manufacturer shall weigh CEWs and/or treatment residuals on a scale or other device approved, tested and sealed in accordance with Division 5 of the Business and Professions Code (Weights and Measures) or in accordance with comparable standards of the state in which the registered manufacturer is located.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476 and 42479, Public Resources Code.

HISTORY

1. New section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
2. Amendment of subsection (g)(2) filed 12–2–2005 as an emergency; operative 12–2–2005 (Register 2005, No. 48). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 and 12–2–2005 orders, including further amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.37. Manufacturer Payment Claims.

(a) A registered manufacturer shall base a manufacturer payment claim on the number of CEWs processed for recycling by screen size(s) as listed in Section 42464(a) of the Public Resources Code.

(b) A registered manufacturer shall submit all of the following general information in a claim for manufacturer payments from the CIWMB:

(1) The full name, mailing address, registration number, and federal tax identification number of the registered manufacturer preparing the claim.

(2) The name and phone number of a contact person for purposes of the claim.

(3) The period of time covered by the claim and date of preparation of the claim.

(4) The number of CEW devices claimed:

(A) In each product category as defined in Section 18660.5(a)(32).

(B) By screen size as listed in Section 42464(a) of the Public Resources Code.

(5) The total monetary amount being claimed, as calculated in subsection (f) of this Section.

(6) The signature and title of a person with signature authority for payment claims as designated pursuant to Section 18660.35(b)(6) or (7) of this Article. The signature block shall include the following certification statements:

(A) "I hereby declare under penalty of perjury that:"

1. "All claimed CEWs were received from California sources through the manufacture take back program described in the manufacturer registration."

2. "All claimed CEWs have been processed for recycling in a manner that results in cancellation as specified in Section 18660.32 of this Chapter or an equivalent result."

3. "No claimed CEWs were transferred into the recovery and recycling payment system."

4. "I have certified the number of devices and verified the calculations."

5. "This payment claim, including any and all accompanying documents, has been examined by me and is true, correct and complete."

6. "I understand that errors or omissions on my part may result in the CIWMB delaying or denying payment"

7. "I further understand that fraud could result in revocation of the manufacturer registration."

(7) The date and place the claim was signed.

(c) A registered manufacturer shall submit no more than one payment claim per calendar month.

(d) The claim period for a manufacturer payment claim pursuant to this Section is the time period within which processing occurs and may not exceed three (3) months.

(e) A registered manufacturer shall attach all of the following to the payment claim:

(1) A written description of take back program that collected the CEWs for which payment is being claimed, including the type of consumers from whom CEWs were accepted, and a record of the number of CEWs collected by the product categories as defined in Section 18660.5(a)(32) of this Chapter.

(2) Records of transfers by load to the registered manufacturer's recycling operation, including signed and dated receipts showing the weight and number of CEWs transferred.

(3) Written description of any activity, such as packaging and consolidation, which explains any discrepancy between the CEWs received through the take back program and the CEWs transferred to the manufacturer's recycling operation.

(4) Records showing any CEWs received through the take back program that are reused, repaired, refurbished or otherwise returned to use.

(5) Records showing any CEWs received through the take back program that are transferred to another entity without being processed for recycling.

(6) Records showing the processing for recycling of CEWs by number, screen size, weight, date and recycling method that results in cancellation as specified in Section 18660.32 of this Chapter or an equivalent result.

(f) A registered manufacturer shall calculate the payment and include the calculation in a manufacturer payment claim as follows:

(1) The total number of CEWs, by screen size as specified in Section 42464(a) of the Public Resources Code, that are processed for recycling during the claim period.

(2) The total payment claimed, calculated by:

(A) Multiplying the number of CEWs in each screen size category by the value of the covered electronic waste recycling fee that applies to that category.

(B) Adding the calculations in (A) above for each screen size category calculation together.

(g) An example calculation for a manufacturer claim is included for illustration purposes as follows:

The number CEWs processed for recycling by screen size:

100 devices with less than 15 inch screen size	*100 devices*
Times the covered electronic waste recycling fee for category	*x $6.00*
	$600.00
200 devices greater than or equal to 15 inch screen size but less than 35 inch screen size	*200 devices*
Times the covered electronic waste recycling fee for category	*x $8.00*
	$1600.00

Equals the payment claim for the claim period: ($600.00+$1600.00)= $2200.00 Total Claim

(h) A registered manufacturer shall deliver manufacturer payment claims to the CIWMB's main business office, to the attention of the Accounting Section. A registered manufacturer shall mark the outside of the package containing the claims clearly with "e–Waste Claim Enclosed."

(i) A registered manufacturer shall submit timely manufacturer payment claims so that the CIWMB receives each claim within 45 days of the end of the claim period. The CIWMB may return without payment any claim received more than 45 days after the end of the claim period. The CIWMB shall determine a claim's receipt as either the date of the postmark on the claim package, or the date the claim package was physically received by the CIWMB, whichever is earlier.

(j) The CIWMB may reject a claim if it fails to comply with the requirements of this Section.

(k) The CIWMB's rejection of a manufacturer payment claim shall not extend any applicable due date or time period.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a), 42476 and 42479, Public Resources Code.

HISTORY

1. New section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
2. Amendment of subsections (b)(4)(A) and (e)(1) filed 12–2–2005 as an emergency; operative 12–2–2005 (Register 2005, No. 48). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.38. CIWMB Review of Manufacturer Payment Claims.

(a) The CIWMB shall review a manufacturer payment claim and determine if a manufacturer payment is due pursuant to this Chapter. If the CIWMB has cause to investigate any aspect of a claim, the review will be extended until resolution of all issues aspects under investigation.

(b) The CIWMB may deny payment for any of the following reasons:

(1) The CIWMB determines that:

(A) The signature on the claim is not that of a person with signature authority for registered manufacturer payment claims as designated pursuant to Section 18660.35(b)(6) or (7) of this Article.

(B) The registered manufacturer did not have current registration for the claim period.

(C) The registered manufacturer failed to meet the requirements in this Chapter or committed an activity prohibited in this Chapter.

(D) The payment claim contains a numerical discrepancy between values or calculations reported on the claim and the CIWMB verified values and calculations.

(2) The CIWMB has prevailed against the claimant in a civil or administrative action and money is owed to the CIWMB as a result of the action.

(3) The CIWMB discovers, as part of an application review, claim review or an audit, significant inconsistencies or fraud.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42475(a) and 42476, Public Resources Code.

HISTORY

1. New section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
2. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

§ 18660.39. Appeal of Denied or Adjusted Manufacturer Payment Claims.

(a) A registered manufacturer may file a formal appeal by writing to the CIWMB within 30 calendar days of the warrant date of an adjusted payment or the date of the notice denying the claim.

(b) Any appeal received by the CIWMB after 30 calendar days from the date of the adjustment letter from the CIWMB on an adjusted payment or the date of the notice denying the claim shall be denied without a hearing or consideration of the appeal.

(c) A registered manufacturer shall include all of the following information in a written appeal:

(1) The registered manufacturer's name and registration.

(2) The month(s) and year(s) in question.

(3) A copy of the manufacturer payment claim and the notice denying the claim, or a copy of the remittance advice if a payment adjustment is being appealed.

(4) An explanation of why the adjustment or denial was in error.

(5) Any other documentation that supports the appeal.

(d) At any time during the proceeding, before a final decision is issued, the CIWMB, with the consent of the petitioner, may refer the matter to mediation, or binding or non–binding arbitration, consistent with the provisions of Government Code Section 11420.10.

(e) The CIWMB shall provide a hearing before the executive director, or his or her designee, who shall act as a hearing officer. The hearing officer shall consider the claim, the reasons for payment denial or payment adjustment, and any additional relevant information presented by the claimant or CIWMB staff. The hearing officer shall issue a written decision stating the factual and legal basis for the decision.

(f) The CIWMB may adopt the decision as the final decision, or review all or a part of the decision at a hearing before the Board.

(g) The CIWMB will notify the registered manufacturer of the final determination in writing within 20 calendar days from the date on which Board adopts a final decision.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Section 42476, Public Resources Code; and Sections 11400.20 and 11415.10, Government Code.

HISTORY

1. New section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
2. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Article 3. Manufacturer Reporting

§ 18660.41. Reporting Requirements.

Each manufacturer as defined by Section 42463(n) of the Public Resources Code shall submit an annual report to the CIWMB on or before July 1, 2005, and annually thereafter, for the period of the previous calendar year. Each manufacturer shall report information by brand name of covered electronic devices sold in the state.

(a) The report shall include the following:

(1) Name and address of the manufacturer; and name, address, phone number, and email address for a contact person of the manufacturer.

(2) The information elements, as described in Section 42465.2 of the Public Resources Code and specified in Sections 18660.41(b) through (f), below.

(b) The sales reporting shall include:

(1) Data on the number of covered electronic devices sold in the state by product category.

(2) An explanation of the methodology used to estimate data.

(c) The materials reporting shall include:

(1) An estimated average amount in milligrams for mercury, cadmium, lead, hexavalent chromium, including their alloys and compounds, and PBBs used in covered electronic devices, and all their component parts by product category.

(2) Estimates may be based on either physical testing or maximum tolerance levels of the material in product design specifications.

(3) An explanation of the methodology used to estimate data.

(d) Recyclable content reporting shall include:

(1) Estimates on the amount in tons of recyclable content materials (e.g., plastics, glass, and metals) contained in covered electronic devices;

(2) The increase from the previous year in the use of recyclable content materials; and

(3) An explanation of the methodology used to estimate recyclable content.

(e) Design for recycling reporting shall include:

(1) Information on current activities and future plans related to the design of covered electronic devices, including but not limited to, the following:

(A) Ease of disassembly of covered electronic devices;

(B) Identification of resin types; and

(C) Improved materials efficiency through reduction in hazardous materials use or other approaches.

(f) List of retailers noticed pursuant to Section 42465.2(a)(1)(E) of the Public Resources Code shall include:

(1) The contact information used by the manufacturer to perform the notice, such as the name, address, contact person, phone number and/or email address of the retailer to which the notice was made.

(2) The list of covered products contained in the notice.

(g) Manufacturers shall individually submit to the CIWMB samples of the consumer information and description of all methods used to comply with Section 18660.42 of this Chapter. Manufacturers shall submit this information at the same time they comply with Section 18660.41(a) through (e), above.

(h) Each manufacturer shall maintain the report and all supporting documentation for three years after the report is submitted. If the CIWMB or DTSC requests a copy of the supporting documentation the manufacturer shall submit the supporting documentation within 10 days of the request.

(i) Each manufacturer shall provide a certification under penalty of perjury that the information is true and correct.

(j) Collective reporting — Compliance with the reporting required in Sections 18660.41(b) through (f), above, is the individual responsibility of each manufacturer. A manufacturer may comply with the reporting requirements in subsections (b) and (c), above, by submitting a collective report for the subsections containing sales and materials information, if the following conditions are met:

(1) A collective report must contain all of the information required in Sections 18660.41(b) and (c), above, but may combine the information for those manufacturers submitting information for the collective report;

(2) The collective report shall contain a list of all manufacturers whose reports are included in the collective report. This list shall include the name of the manufacturer and address of the manufacturer; and name, address, phone number, and email address for a contact person of the manufacturer;

(3) Each manufacturer shall provide a certification under penalty of perjury that the information provided for the collective report is true and correct; and

(4) Notwithstanding Section 18660.41(j)(1) through (3), above, the CIWMB may request, on a case–by–case basis, a manufacturer to submit an individual report with the information required in Sections 18660.41(b) and (c), above, and all supporting documentation of the information contained in the report. In response to CIWMB's request, the manufacturer shall submit an individual report and supporting documentation within ten days of receiving the CIWMB's request.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Section 42465.2, Public Resources Code.

HISTORY

1. New article 3 (section 18660.41) and section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new article 3 (section 18660.41) and section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order, including amendment of section, transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Article 4. Consumer Information Required of a Manufacturer

§ 18660.42. Requirements.

A manufacturer shall do the following:

(a) Make the consumer information required by Section 42465.2(a)(2) of the Public Resources Code available in English and Spanish; and

(b) If a manufacturer uses a centralized database or Internet site to meet the requirement in (a), the manufacturer must maintain the databases or Internet site for their accuracy.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Section 42465.2, Public Resources Code.

HISTORY

1. New article 4 (section 18660.42) and section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealer and new article 4 (section 18660.42) and section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.
3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Article 5. Confidential, Proprietary and Trade Secret Information

§ 18660.43. Requirements.

The protection from disclosure of information or the disclosure of information submitted to the CIWMB by a collector, a recycler, or a manufacturer of covered electronic devices, pursuant to this Chapter, shall be governed by the standards adopted by the Board found at Sections 17041 through 17046, of this Title.

NOTE: Authority cited: Sections 40502, 42475(b) and 42475.2, Public Resources Code. Reference: Sections 42465.2(c) and 42475(c), Public Resources Code

HISTORY

1. New article 5 (section 18660.43) and section filed 5–10–2004 as an emergency; operative 5–10–2004 (Register 2004, No. 20). Pursuant to Public Resources Code section 42475.2(b) a Certificate of Compliance must be transmitted to

OAL by 5–10–2006 or emergency language will be repealed by operation of law on the following day.

2. Repealer and new article 5 (section 18660.43) and section filed 12–13–2004 as an emergency; operative 12–13–2004 (Register 2004, No. 51). Pursuant to Public Resources Code section 42475.2(b), emergency language will be repealed by operation of law on 12–14–2006. A Certificate of Compliance must be transmitted to and approved by OAL prior to that day.

3. Certificate of Compliance as to 12–13–2004 order transmitted to OAL 10–13–2006 and filed 11–27–2006 pursuant to Public Resources Code section 42475.2(b) (Register 2006, No. 48).

Chapter 9. Planning Guidelines and Procedures for Preparing and Revising Countywide Integrated Waste Management Plans

(Ed. Note: For prior history see Register 89, No. 1 and 83, No. 6)

Article 3. Definitions

§ 18700. Authority.

NOTE: Authority cited: Section 66790, Government Code. Reference: Section 66796.22, Government Code.

HISTORY

1. New chapter 9 (sections 18700–18752, not consecutive) filed 11–27–78; effective thirtieth day thereafter (Register 78, No. 47).
2. Repealer of chapter 9 (articles 1–6, sections 18700–18752, not consecutive) filed 2–3–83; effective thirtieth day thereafter (Register 83, No. 6). For prior history, see Register 79, No. 23.
3. Editorial correction restoring HISTORY of section 18700 (Register 91, No. 26).
4. Amendment of chapter heading filed 3–31–94 as an emergency; operative 3–31–94 (Register 94, No. 13). A Certificate of Compliance must be transmitted to OAL by 3–31–97 pursuant to Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
5. Amendment of chapter heading filed 7–22–94; operative 8–22–94 (Register 94, No. 29)

[The next page is 806.89.]

6. Reinstatement of chapter heading as it existed prior to 3–31–94 emergency amendment filed 7–31–97 by operation of Government Code section 11346.1(g) (Register 97, No. 31).

§ 18720. Definitions.

(a) The following definitions shall apply to the regulations contained in this chapter.

(1) Agricultural wastes.

"Agricultural wastes" means solid wastes of plant and animal origin, which result from the production and processing of farm or agricultural products, including manures, orchard and vineyard prunings, and crop residues, which are removed from the site of generation for solid waste management. Agricultural refers to SIC Codes 011 through 0291.

(2) Aluminum can or aluminum container.

"Aluminum can" or "aluminum container" means any food or beverage container that is composed of at least 94% aluminum.

(3) Asbestos.

"Asbestos" means fibrous forms of various hydrated minerals, including chrysotile (fibrous serpentine), crocidolite (fibrous reibecktite), amosite (fibrous cummingtonite–grunerite), fibrous tremolite, fibrous actinolite, and fibrous anthophyllite.

(4) Ash.

"Ash" or "ashes" means the residue from the combustion of any solid or liquid material.

(5) Bi–metal container.

"Bi–metal container" means any metal container composed of at least two different types of metals, such as a steel container with an aluminum top.

(6) Best readily available and applicable data or representative data.

"Best readily available and applicable data" or "representative data" means information that is available to a jurisdiction from published sources, field sampling, the Board, or other identifiable entities which is the most current data and which addresses the situation being examined.

(7) Buy–back recycling center.

"Buy–back recycling center" means a facility which pays a fee for the delivery and transfer of ownership to the facility of source separated materials, for the purpose of recycling or composting.

(8) Capital costs.

"Capital costs" means those direct costs incurred in order to acquire real property assets such as land, buildings and building additions; site improvements; machinery; and equipment.

(9) Commercial solid wastes.

"Commercial solid waste" means solid waste originating from stores, business offices, commercial warehouses, hospitals, educational, health care, military, and correctional institutions, non–profit research organizations, and government offices. Commercial solid waste refers to SIC Codes 401 through 4939, 4961, and 4971 (transportation, communications and utilities), 501 through 5999 (wholesale and retail trade), 601 through 679 (finance, insurance and real estate), 701 through 8748 (public and private service industries such as hospitals and hotels), and 911 through 9721 (public administration). Commercial solid wastes do not include construction and demolition waste.

(10) Commercial unit.

"Commercial unit" means a site zoned for a commercial business and which generates commercial solid wastes.

(11) Composition.

"Composition" means a set of identified solid waste materials, categorized into waste categories and waste types pursuant to sections 18722(i) and (j) of article 6.1 of this chapter.

(12) Composting.

"Composting" means a method of waste treatment which produces a product meeting the definition of "compost" in Public Resources Code section 40116.

(13) Composting facility.

"Composting facility" means a permitted solid waste facility at which composting is conducted and which produces a product meeting the definition of "compost" in Public Resources Code section 40116.

(14) Construction and demolition waste.

"Construction and demolition waste" includes solid wastes, such as building materials; and packaging and rubble resulting from construction, remodeling, repair and demolition operations on pavements, houses, commercial buildings, and other structures. Construction refers to SIC Codes 152 through 1794, 1796, and 1799. Demolition refers to SIC Code 1795.

(15) Corrugated Container.

"Corrugated container" means a paperboard container fabricated from two layers of kraft linerboard sandwiched around a corrugating medium. Kraft linerboard means paperboard made from wood pulp produced by a modified sulfate pulping process, with basis weight ranging from 18 to 200 pounds, manufactured for use as facing material for corrugated or solid fiber containers. Linerboard also may mean that material which is made from reclaimed paper stock. Corrugating medium means paperboard made from chemical or semichemical wood pulps, straw or reclaimed paper stock, and folded to form permanent corrugations. Corrugated container refers to SIC Code 2653.

(16) Cost–effective.

"Cost–effective" means a measurement of cost compared to an unvalued output (e.g., the cost per ton of solid waste collected) such that the lower the cost, the more cost–effective the action.

(17) Disposal.

"Disposal" means the management of solid waste through landfilling or transformation at permitted solid waste facilities.

(18) Disposal capacity.

"Disposal capacity" means the capacity, expressed in either weight in tons or its volumetric equivalent in cubic yards, which is either currently available at a permitted solid waste landfill, or will be needed for the disposal of solid waste generated within the jurisdiction over a specified period of time.

(19) Diversion Alternative.

"Diversion alternative" means any activity, existing or occurring in the future, which has been, is, or will be implemented by a jurisdiction which could result in or promote the diversion of solid waste, through source reduction, recycling or composting, from solid waste landfills and transformation facilities.

(20) Drop–off recycling center.

"Drop–off recycling center" means a facility which accepts delivery or transfer of ownership of source separated materials for the purpose of recycling or composting, without paying a fee. Donation of materials to collection organizations, such as charitable groups, is included in this definition.

(21) Durability.

"Durability" means the ability of a product to be used for its intended purpose for a period greater than the mean useful product life span of similar products.

(22) End market or end use.

"End market" or "end use" means the use or uses of a diverted material or product which has been returned to the economic mainstream, whether or not this return is through sale of the material or product. The material or product can have a value which is less than the solid waste disposal cost.

(23) Feasible.

"Feasible" means that a specified program, method, or other activity can, on the basis of cost, technical requirements and time frame for accomplishment, be undertaken to achieve the objectives and tasks identified by a jurisdiction in a Countywide Integrated Waste Management Plan.

(24) Ferrous metals.

"Ferrous metals" means any iron or steel scrap which has an iron content sufficient for magnetic separation.

(25) Food waste.

"Food waste" means all animal and vegetable solid wastes generated by food facilities, as defined in California Health and Safety Code section 27521, or from residences, that result from the storage, preparation, cooking, or handling of food.

(26) Hazard.

"Hazard" means having one or more of the characteristics that cause a substance or combination of substances to qualify as a hazardous material, as defined by section 66084 of title 22 of the California Code of Regulations.

(27) Household hazardous waste.

"Household hazardous wastes" are those wastes resulting from products purchased by the general public for household use which, because of their quantity, concentration, or physical, chemical, or infectious characteristics, may pose a substantial known or potential hazard to human health or the environment when improperly treated, disposed, or otherwise managed.

(28) Household hazardous waste collection.

"Household hazardous waste collection" means a program activity in which household hazardous wastes are brought to a designated collection point where the household hazardous wastes are separated for temporary storage and ultimate recycling, treatment, or disposal.

(29) Implementation.

"Implementation" means the accomplishment of the program tasks as identified in each component required by section 18733 of this chapter.

(30) Industrial solid waste.

"Industrial solid waste" means solid waste originating from mechanized manufacturing facilities, factories, refineries, construction and demolition projects, and publicly operated treatment works, and/or solid wastes placed in debris boxes.

(31) Industrial unit.

"Industrial unit" means a site zoned for an industrial business and which generates industrial solid wastes.

(32) Inert solids or inert waste.

"Inert solids" or "inert waste" means a non–liquid solid waste including, but not limited to, soil and concrete, that does not contain hazardous waste or soluble pollutants at concentrations in excess of water–quality objectives established by a regional water board pursuant to division 7 (commencing with section 13000) of the California Water Code and does not contain significant quantities of decomposable solid waste.

(33) Jurisdiction.

"Jurisdiction" means the city or county responsible for preparing any one or all of the following: the Countywide Integrated Waste Management Plan, or the Countywide Siting Element, or the Source Reduction and Recycling Element.

(34) Marine wastes.

"Marine wastes" means solid wastes generated from marine vessels and ocean work platforms, solid wastes washed onto ocean beaches, and litter discarded on ocean beaches.

(35) Market development.

"Market development" means a method of increasing the demand for recovered materials so that end markets for the materials are established, improved or stabilized and thereby become more reliable.

(36) Materials recovery facility.

"Materials recovery facility" means a permitted solid waste facility where solid wastes or recyclable materials are sorted or separated, by hand or by use of machinery, for the purposes of recycling or composting.

(37) Medium–term planning period.

"Medium–term planning period" means a period beginning in the year 1996 and ending in the year 2000.

(38) Mixed paper.

"Mixed paper" means a waste type which is a mixture, unsegregated by color or quality, of at least two of the following paper wastes: newspaper, corrugated cardboard, office paper, computer paper, white paper, coated paper stock, or other paper wastes.

(39) Model component format.

"Model component format" means that format described in sections 18733.1 through 18733.6 of article 6.2 of this chapter which shall be used for preparation of several of the individual components of a SRR Element.

(40) Municipal solid waste or MSW.

"Municipal solid waste" or "MSW" means all solid wastes generated by residential, commercial, and industrial sources, and all solid waste generated at construction and demolition sites, at food–processing facilities, and at treatment works for water and waste water, which are collected and transported under the authorization of a jurisdiction or are self–hauled. Municipal solid waste does not include agricultural crop residues (SIC Codes 071 through 0724, 0751), animal manures (SIC Code 0751), mining waste and fuel extraction waste (SIC Codes 101 through 1499), forestry wastes (SIC Codes 081 through 0851, 2411 and 2421), and ash from industrial boilers, furnaces and incinerators.

(41) Non–ferrous metals.

"Non–Ferrous metals" means any metal scraps that have value, and that are derived from metals other than iron and its alloys in steel, such as aluminum, copper, brass, bronze, lead, zinc and other metals, and to which a magnet will not adhere.

(42) Non–recyclable paper.

"Non–recyclable paper" means discarded paper which has no market value because of its physical or chemical or biological characteristics or properties.

(43) Non–renewable resource.

"Non–renewable resource" means a resource which cannot be replenished, such as those resources derived from fossil fuels.

(44) Normally disposed of.

"Normally disposed of" refers to those waste categories and waste types which:

1) have been demonstrated by the Solid Waste Generation Study, conducted pursuant to section 18722 of this chapter, to constitute at least 0.001% of the total weight of solid wastes disposed in a solid waste stream attributed to the jurisdiction as of January 1, 1990;

2) which are deposited at permitted solid waste landfills or transformation facilities subsequent to any recycling or composting activities at those solid waste facilities; and

3) which are allowed to be considered in the establishment of the base amount of solid waste from which source reduction, recycling, and composting levels shall be calculated, pursuant to the limitations listed in Public Resources Code section 41781(b).

(45) Old newspaper.

"Old newspaper" means any newsprint which is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse and which may be used as a raw material in the manufacture of a new paper product.

(46) Operational costs.

"Operational costs" means those direct costs incurred in maintaining the ongoing operation of a program or facility. Operational costs do not include capital costs.

(47) Organic waste.

"Organic waste" means solid wastes originated from living organisms and their metabolic waste products, and from petroleum, which contain naturally produced organic compounds, and which are biologically decomposable by microbial and fungal action into the constituent compounds of water, carbon dioxide, and other simpler organic compounds.

(48) Other plastics.

"Other plastics" means all waste plastics except polyethylene terephthalate (PET) containers, film plastics, and high density polyethylene (HDPE) containers.

(49) Permitted capacity.

"Permitted capacity" means that volume in cubic yards or weight in tons which a solid waste facility is allowed to receive, on a periodic basis, under the terms and conditions of that solid waste facility's current Solid

Waste Facilities Permit issued by the local enforcement agency and concurred in by the California Integrated Waste Management Board.

(50) Permitted landfill.

"Permitted landfill" means a solid waste landfill for which there exists a current Solid Waste Facilities Permit issued by the local enforcement agency and concurred in by the California Integrated Waste Management Board, or which is permitted under the regulatory scheme of another state.

(51) Permitted solid waste facility.

"Permitted solid waste facility" means a solid waste facility for which there exists a Solid Waste Facilities Permit issued by the local enforcement agency and concurred in by the California Integrated Waste Management Board, or which is permitted under the regulatory scheme of another state.

(52) Plan or Countywide Integrated Waste Management Plan.

"Plan" or "Countywide Integrated Waste Management Plan" means the Countywide Integrated Waste Management Plan as defined in section 41750 of the Public Resources Code.

(53) Program.

"Program" means the full range of source reduction, recycling, composting, special waste, or household hazardous waste activities undertaken by or in the jurisdiction or relating to management of the jurisdiction's waste stream to achieve the objectives identified in the Source Reduction, Recycling, Composting, and Special Waste components, and Household Hazardous Waste Element, respectively.

(54) Purchase preference.

"Purchase preference" means a preference provided to a wholesale or retail commodity dealer which is based upon the percentage amount that the costs of products made from recycled materials may exceed that of similar non-recycled products and still be deemed the lowest bid.

(55) Rate structure.

"Rate structure" means that set of prices established by a jurisdiction, special district (as defined in Government Code section 56036), or other rate setting authority to compensate the jurisdiction, special district or rate setting authority for the partial or full costs of the collection, processing, recycling, composting, and/or transformation or landfill disposal of solid wastes.

(56) Recovered material.

"Recovered material" means material which has been retrieved or diverted from disposal or transformation for the purpose of recycling, re-use or composting. "Recovered material" does not include those materials generated from and reused on site for manufacturing purposes.

(57) Region.

"Region" means the combined geographic area of two or more incorporated areas; two or more unincorporated areas; or any combination of incorporated and unincorporated areas.

(58) Repairability.

"Repairability" means the ability of a product or package to be restored to a working or usable state at a cost which is less than the replacement cost of the product or package.

(59) Residential solid waste.

"Residential solid waste" means solid waste originating from single-family or multiple family dwellings.

(60) Residential unit.

"Residential unit" means a site occupied by a building which is zoned for residential occupation and whose occupants generate residential solid wastes.

(61) Reusability.

"Reusability" means the ability of a product or package to be used more than once in its same form.

(62) Re-use.

"Re-use" means the use, in the same form as it was produced, of a material which might otherwise be discarded.

(63) Rubber.

"Rubber" means an amorphous polymer of isoprene derived from natural latex of certain tropical plants or from petroleum.

(64) Salvage.

"Salvage" means the controlled removal of solid waste materials at a permitted solid waste facility for recycling, re-use, composting, or transformation.

(65) Seasonal.

"Seasonal" means those periods of time during the calendar year which are identifiable by distinct cyclical patterns of local climate, demography, trade or commerce.

(66) Sewage sludge.

"Sewage sludge" means residual solids and semi-solids resulting from the treatment of waste water, but does not include waste water effluent discharged from such treatment processes.

(67) Short-term planning period.

"Short-term planning period" means a period beginning in the year 1991 and ending in the year 1995.

(68) SIC Code.

"SIC Code" means the standards published in the U.S. Standard Industrial Classification Manual (1987), which is herein incorporated by reference.

(69) Sludge.

"Sludge" means residual solids and semi-solids resulting from the treatment of water, waste water, and/or other liquids. Sludge includes sewage sludge and sludge derived from industrial processes, but does not include effluent discharged from such treatment processes.

(70) Solid Waste Generation Study.

"Solid Waste Generation Study" means the study undertaken by a jurisdiction to characterize its solid waste stream and comply with all the requirements of sections 18722, 18724, and 18726 of this chapter.

(71) Source Reduction and Recycling Element or SRR Element.

"Source Reduction and Recycling Element" or "SRR Element" means the source reduction and recycling element required pursuant to Public Resources Code sections 41000 and 41300.

(72) Source separated.

"Source separated" describes the segregation, by the generator, of materials designated for separate collection for some form of materials recovery or special handling.

(73) Special waste.

"Special waste" means any hazardous waste listed in section 66740 of title 22 of the California Code of Regulations, or any waste which has been classified as a special waste pursuant to section 66744 of title 22 of the California Code of Regulations, or which has been granted a variance for the purpose of storage, transportation, treatment, or disposal by the Department of Health Services pursuant to section 66310 of title 22 of the California Code of Regulations. Special waste also includes any solid waste which, because of its source of generation, physical, chemical or biological characteristics or unique disposal practices, is specifically conditioned in a solid waste facilities permit for handling and/or disposal.

(74) Statistically representative.

"Statistically representative" means those representative and random samples of units that are taken from a population sample, pursuant to the procedures given in appendix 1 of article 6.1 of this chapter. For the purposes of this definition, population sample includes, but is not limited to, a sample from a population of solid waste generation sites, solid waste facilities and recycling facilities, or a population of items of materials and solid wastes in a refuse vehicle load of solid waste.

(75) Tin can or tin container.

"Tin can" or "tin container" means any food or beverage container that is composed of steel with a tin coating.

(76) Ton.

"Ton" means a unit of weight in the U.S. Customary System of Measurement, an avoirdupois unit equal to 2,000 pounds. Also called short ton or net ton.

(77) Transformation facility.

"Transformation facility" means a facility whose principal function is to convert, combust, or otherwise process solid waste by incineration, pyrolysis, destructive distillation, or gasification, or to chemically or biologically process solid wastes, for the purpose of volume reduction, synthetic fuel production, or energy recovery. Transformation facility does not include a composting facility.

(78) Volume.

"Volume" means a three dimensional measurement of the capacity of a region of space or a container. Volume is commonly expressed in terms of cubic yards or cubic meters. Volume is not expressed in terms of mass or weight.

(79) Waste categories.

"Waste categories" means the grouping of solid wastes with similar properties into major solid waste classes, such as grouping together office, corrugated and newspaper as a paper waste category, as identified by the solid waste classification system contained in section 18722 of article 6.1 of this chapter, except where a component-specific requirement provides alternative means of classification.

(80) Waste diversion.

"Waste diversion" means to divert solid waste, in accordance with all applicable federal, state and local requirements, from disposal at solid waste landfills or transformation facilities through source reduction, recycling or composting.

(81) Waste generator.

"Waste generator" means any person, as defined by section 40170 of the Public Resources Code, whose act or process produces solid waste as defined in Public Resources Code section 40191, or whose act first causes solid waste to become subject to regulation.

(82) Waste type.

"Waste type" means identified wastes having the features of a group or class of wastes which are distinguishable from any other waste type, as identified by the waste classification system contained in section 18722 of article 6.1 of this chapter, except where a component-specific requirement provides alternative means of classification.

(83) White goods.

"White goods" means discarded, enamel-coated major appliances, such as washing machines, clothes dryers, hot water heaters, stoves and refrigerators.

(84) Wood waste.

"Wood waste" means solid waste consisting of wood pieces or particles which are generated from the manufacturing or production of wood products, harvesting, processing or storage of raw wood materials, or construction and demolition activities.

(85) Yard waste.

"Yard waste" means any wastes generated from the maintenance or alteration of public, commercial or residential landscapes including, but not limited to, yard clippings, leaves, tree trimmings, prunings, brush, and weeds.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 41000, 41300 and 41823, Public Resources Code.

HISTORY

1. New section filed 3-19-90 as an emergency; operative 3-19-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7-17-90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7-6-90 as an emergency; operative 7-17-90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11-14-90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY No. 2 (Register 91, No. 13).
4. Request for readoption of 7-6-90 emergency regulations approved by OAL 11-6-90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2-15-91 as an emergency; operative 2-15-91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6-17-91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2-15-91 order, including amendment of subsections (a)(2), (9), (12), (13), (15), (19), (20), (22), (30), (33), (35), (36), (39), (40), (41), (44), (47), (48), (50), (51), (53), (54), (56), (64), (70), (74), and (80), transmitted to OAL on 4-29-91 and filed 5-29-91 (Register 91, No. 37).

Article 6.1. Solid Waste Generation Studies

§ 18722. Solid Waste Generation Studies—General Requirements.

(a) Relation to Waste Characterization Component. For the purposes of this Chapter, a solid waste generation study constitutes the waste characterization component of the SRR Element required by sections 41003, 41030, 41303 and 41330 of the Public Resources Code.

Each jurisdiction shall prepare an initial solid waste generation study and all subsequent solid waste generation studies in accordance with the requirements of this Article. Additional specific requirements and guidelines for the initial solid waste generation study are defined in Section 18724 of this Article.

(b) Regional and Joint Solid Waste Generation Studies.

Solid waste generation studies may be conducted by an individual jurisdiction for solid waste generated within that jurisdiction, or jointly by two or more jurisdictions for the solid waste generated within the participating jurisdictions.

(c) Solid Waste Generation Data Projections. All solid waste generation studies shall include a 15-year projection of the solid waste to be generated within the jurisdiction, and diverted and disposed by the jurisdiction. The projected time period shall commence from the date of the local adoption of a SRR Element. The projection is to include the amounts, waste categories and waste types generated, diverted from disposal, and disposed, for each year of the 15-year period, under (1) the solid waste management system conditions and diversion activities existing at the time that the Solid Waste Generation study is prepared, and under (2) the solid waste management system conditions expected to be realized after a jurisdiction's implementation of its SRR Element and its attainment of the statutory diversion mandates.

(1) Acceptable information sources which may be used by the jurisdiction to determine and project changes in population, or in governmental, residential, industrial, and commercial operations, shall be the following:

(A) documented population data available from the California Department of Finance;

(B) documented employment data available from the California State Employment Development Department;

(C) documented industrial and commercial operations data available from the California Department of Commerce or from the California State Employment Development Department;

(D) documented data available in a local jurisdiction's adopted current General Plan;

(E) documented data available from published reports of local associations of governments and chambers of commerce;

(F) documented data available from the U.S. Census Bureau;

(G) documented jurisdiction-specific demographic, economic, and solid waste data developed and published by a jurisdiction in the course of the preparation of its solid waste generation study.

(d) Annual Report on Solid Waste Generation.

The annual report on the implementation of the SRR Element, required pursuant to Section 41821 of the Public Resources Code, shall contain the jurisdiction's analysis of the need to revise its solid waste generation study, including the need to revise its data on the sources of generation, diversion and disposal, and its data on categories and types of solid waste generated, diverted and disposed.

(e) Uses of Solid Waste Generation Data.

Data obtained from a solid waste generation study shall be used to determine the total quantity of solid waste generated within the jurisdiction, and diverted and disposed, for purposes of identifying the quantities and

types of materials to be diverted from disposal pursuant to Sections 41780 and 41781 of the Public Resources Code.

(f) Measuring Solid Waste Quantity. In determining the aggregate quantity of solid waste generated, each jurisdiction shall use the following types of measurements: volume or weight. The conversion factors used to convert volume to weight, or weight to volume, shall be provided in the solid waste generation study and submitted to the Board in the SRR Element.

(1) Conversion Factors. The conversion factors used for measurement of the quantity of solid waste may be those from published sources and/or those derived from test measurements developed by a jurisdiction. A solid waste generation study shall cite all published sources of conversion factors used by a jurisdiction. For conversion factors derived from test measurements developed by a jurisdiction, a jurisdiction shall include in the solid waste generation study, a summary of the test measurement methods used. Conversion factors submitted by a jurisdiction are subject to approval by the Board at the time of the Board's consideration of approval of a jurisdiction's submitted SRR Element.

(A) By January 1, 1992, the Board shall complete a study and compile a list of acceptable conversion factors for each specific waste type listed in (j) of this section.

(2) Generation. For solid wastes sampled or estimated to be produced at the sources of generation, e.g., residential units and commercial units, or at solid waste transfer stations, the quantity of solid wastes generated shall be reported in weight. Data collected in terms of volume shall be converted to weight.

(3) Diversion. For solid wastes which are diverted from transformation and disposal facilities, and which are sampled by means of a quantitative field analysis at recycling, composting and solid waste reduction facilities, the quantities of solid wastes which are diverted by means of recycling, composting or source reduction shall be reported in weight. Data collected in terms of volume shall be converted to weight.

For solid wastes which are diverted from transformation and disposal facilities, and which are not sampled by means of a quantitative field analysis but which are estimated from existing records to be diverted from transformation or disposal facilities, the quantities of solid waste which are diverted by means of recycling, composting or source reduction shall be reported in weight. Data collected in terms of volume shall be converted to weight.

(4) Transformation and Disposal. For solid wastes sampled or estimated to be received at solid waste transformation facilities and solid waste disposal sites, the quantity of solid wastes disposed shall be reported in both volume and weight. For solid wastes disposed in permitted solid waste landfills the volume measurement shall be expressed in terms of in–place volume in the landfill, after compaction, as measured in a waste cell in the upper lift of a waste management unit excluding the volume of cover material in the cell. For the purposes of this section, cell is defined in Section 17225.9, of title 14 of the California Code of Regulations. For the purposes of this section, waste management unit is defined in Public Resources Code section 43000(a).

(A) When solid waste volumes are recorded as uncompacted solid wastes or solid wastes compacted in refuse vehicles or solid waste transfer trailers, a jurisdiction shall state the conversion factors used to convert these volumes to in–place volumes in the landfill. A solid waste generation study shall cite all published sources of conversion factors for solid waste volumes used by a jurisdiction.

(5) Mixed Loads. If a refuse collection vehicle chosen for sampling has a mixed load of solid waste that is collected from more than one source of generation, or from more than one jurisdiction, a weight or volume fraction (i.e., the quantity) arising from each source of generation or jurisdiction along the collection route shall be estimated. This estimation shall be proportionally based on the number of residential, commercial and industrial units from the solid waste collection route sampled, and/or on the weight or volume of the contents of each refuse container which is sampled at the source(s) of generation. Where the number of units, or weight or volume of each refuse container, are determined by a jurisdiction to be unavailable, a jurisdiction may use population estimates to proportionally allocate the origins of solid wastes.

(6) Weight to be Used for Compliance with Diversion Standards. The total weight of solid waste generated by a jurisdiction and diverted from disposal shall be the standard by which the Board shall measure a jurisdiction's compliance with the statutory diversion requirements of section 41780 of the Public Resources Code.

(g) Determination of Solid Waste Generation. The total solid waste generated by a jurisdiction shall be the sum of the total solid waste disposed, as quantified in the solid waste disposal characterization, plus the total solid waste diverted from permitted solid waste landfills and transformation facilities through any combination of existing source reduction, recycling, and composting programs, as quantified in the solid waste diversion characterization.

(1) The total quantity of solid waste disposed shall include only solid waste transformed or disposed in permitted solid waste transformation or disposal facilities. Solid wastes placed in illegal dumps or unpermitted landfills cannot be counted as a part of the total solid waste generated, for the purposes of the solid waste generation study.

(2) Expressed as an equation, the total solid waste generated by the jurisdiction shall be computed as follows:

$$GEN = DISP + DIVERT$$

where:

GEN = the total quantity of solid waste generated within the jurisdiction.

DISP = the total quantity of solid waste, generated within the jurisdiction, which is transformed or disposed in permitted solid waste facilities.

DIVERT = the total quantity of solid waste, generated within the jurisdiction, which is diverted from permitted solid waste transformation and disposal facilities, through existing source reduction, recycling, and composting programs.

(h) Representative Sampling of Solid Waste. The solid waste generation study shall be performed in two (2) parts, consisting of:

(1) a representative determination of the composition and quantity of solid waste disposed within and by the jurisdiction, i.e., a waste disposal characterization, and,

(2) a representative determination of the composition and quantity of solid waste generated within the jurisdiction which is diverted from solid waste landfills and solid waste transformation facilities, i.e., a waste diversion characterization.

(A) A solid waste generation study shall be representative of all residential, commercial, industrial and other sources of waste generation in the jurisdiction. It shall also be representative of all solid waste source reduction, recycling, composting, transformation and disposal activities and facilities in the jurisdiction or used by the jurisdiction and its residents and businesses.

(i) Identification of Solid Waste Sources, Categories and Types. The solid waste generation study shall identify all significant sources of solid waste generated by a jurisdiction, identify all solid waste diversion programs and activities in a jurisdiction, all solid waste diversion facilities used by a jurisdiction which are either located in that jurisdiction or used by that jurisdiction, and identify all permitted solid waste transformation and disposal facilities used by a jurisdiction. The solid waste generation study shall identify solid wastes generated, diverted and disposed by volume and/or weight, according to the requirements of section 18722(f) of this article, and by waste category and waste type from the following sources of generation within the jurisdiction:

(A) residential
(B) commercial
(C) industrial
(D) other sources

The source of waste generation listed in (D) above and titled "other sources," may be used by a jurisdiction to identify sources of solid waste

generation which it determines are not categorized as residential, commercial, or industrial sources of waste generation. Some examples of "other sources" of solid waste generators are: state and national parks and recreation areas, and self–haul vehicles.

(1) Sampling Period. Solid waste diversion and disposal characterizations shall demonstrate the composition and quantity of solid wastes diverted and disposed by the jurisdiction during a continuous twelve month period subsequent to 1984, pursuant to the requirements set forth in sections 18722(a) and (b) of this article. Data collection is not required for each day of the sampling period.

(2) Seasonal Variations. A solid waste generation study shall quantify seasonal variations in solid waste generation.

A. For a jurisdiction which uses a quantitative field analysis for the initial solid waste generation study prepared for the SRR Element, only one sampling period (e.g., one week) is required for each of the seasons identified by a jurisdiction that occur within the 6–month sampling period chosen by a jurisdiction. Only that amount of waste which enables a jurisdiction to meet the requirements of Section 41780(a)(1) of the Public Resources Code needs to be sampled by a jurisdiction.

A jurisdiction may use existing data from its own jurisdiction or from a similar jurisdiction, as defined in Section 18724(c) of this article, to determine the seasonal variation in the quantities and composition of solid wastes, and to determine the seasonal ratios of solid wastes generated, diverted and disposed, if the jurisdiction cannot obtain such data during its 6–month sampling period.

B. In subsequent solid waste generation studies prepared for revisions of SRR Elements, the data for a quantitative field analysis shall be collected with a frequency sufficient to sample the solid waste generated during all seasons identified by the jurisdiction, and in the amount needed to satisfy the requirements of section 41780 of the Public Resources Code.

C. For all solid waste generation studies, data collection is not required for each day of the seasons identified. In each season identified by a jurisdiction, the frequency of sampling shall be sufficient to provide a representative characterization of solid wastes generated, diverted, and disposed in the amounts needed to satisfy the requirements of section 41780 of the Public Resources Code. In subsequent solid waste generation studies, the frequency of sampling shall be statistically representative of the seasons sampled.

(3) Marine Wastes. A jurisdiction shall, in its solid waste generation study, identify all marine wastes generated in the jurisdiction and assign them to the waste categories and waste types listed in (j) of this section, or shall demonstrate that marine wastes generated within the jurisdiction have been accounted for within the commercial sources of solid waste generation.

(j) Solid Waste Categories and Types. A solid waste generation study shall identify solid waste generation, within a jurisdiction, by volume and weight, in accordance with the requirements of (f) of this section. A solid waste generation study shall identify solid waste generation within a jurisdiction by the following waste categories denoted by numerals 1 through 8, and the waste types which are identified by letter within each waste category:

(1) Paper:
- (A) corrugated containers and brown paper bags
- (B) mixed paper
- (C) newspaper
- (D) high grade ledger paper
- (E) other paper

(2) Plastics:
- (A) high–density polyethylene (HDPE) containers
- (B) polyethylene terephthalate (PET) containers
- (C) film plastics
- (D) other plastics

(3) Glass:
- (A) refillable glass beverage containers
- (B) California Redemption Value glass
- (C) other recyclable glass
- (D) other non–recyclable glass

(4) Metals:
- (A) aluminum cans
- (B) bi–metal containers
- (C) ferrous metals and tin cans
- (D) non–ferrous metals including aluminum scrap
- (E) white goods
- (F) other metals

(5) Yard Waste, including leaves, grass, and prunings

(6) Other Organics:
- (A) food waste
- (B) tires and rubber products
- (C) wood wastes
- (D) agricultural crop residues
- (E) manure
- (F) textiles and leather
- (G) other miscellaneous organics

(7) Other Wastes:
- (A) inert solids, including rock, concrete, brick, sand, soil, fines, asphalt, sheetrock
- (B) household hazardous waste materials and discarded household hazardous waste materials containers

(8) Special Wastes:
- (A) ash
- (B) sewage sludge
- (C) industrial sludge
- (D) asbestos
- (E) auto shredder waste
- (F) auto bodies
- (G) other special wastes

A jurisdiction may add additional waste types to this list, but only if the quantities of these additional waste types are not duplicates of the reported quantities of the waste types given in the list above.

(k) Composite Solid Wastes. A jurisdiction shall, in the case of a composite solid waste material which is readily separable into individual components, estimate in a solid waste generation study the separate percent contribution, by volume or weight, of each identifiable and separable waste category and waste type in the composite solid waste material.

(*l*) Sampling Methodologies. Each jurisdiction shall use one or more of the methodologies listed in (1) through (4) of this subsection, to characterize the waste categories, waste types and quantities of the solid wastes generated within the jurisdiction and diverted or disposed in solid waste landfills or transformation facilities, using the waste categories and types given in Sections 18722(i) and (j) of this article.

(1) Quantitative Field Analysis. The quantitative field analysis methodology shall be conducted using data which is collected in the field either from the sources of generation, from refuse collection vehicles or solid waste transfer vehicles; solid waste source reduction, recycling, and composting programs and facilities; and/or permitted solid waste transformation and disposal facilities.

For the purposes of this section, quantitative field analysis consists of two steps: (1) the physical separation and sorting of residential, commercial, industrial or other solid wastes, and/or the visual survey of the composition of the solid wastes contained in self–haul vehicles, industrial solid wastes contained in debris boxes or other industrial solid waste containers, and (2) the physical measurement or accurate estimation and recording of the weight and/or volume of the solid wastes observed when performing step (1).

(2) Materials Flow Methodology. A materials flow methodology is one in which a jurisdiction estimates, using data on the quantities of specific commodities sold in the jurisdiction's marketplace, the quantity of solid wastes generated as a result of sales of those commodities. With this methodology, adjustments are to be made for (a) import and export of

commodities to and from a jurisdiction, (b) commodity lifetime, and (c) other variables identified by a jurisdiction.

(3) Jurisdiction–Specific Data. This methodology is one in which a jurisdiction uses existing published data to estimate the amounts of solid wastes specific to its jurisdiction, e.g., data on demolition and construction wastes, sludges, automobile bodies, nonhazardous industrial wastes, incinerator residues, and other solid wastes which cannot be easily sampled or estimated by another methodology allowed by this section.

(4) Existing Data from Comparable Jurisdictions. The comparable jurisdiction methodology is one by which the jurisdiction analyzes solid waste generated in the jurisdiction by using existing solid waste composition data from another jurisdiction or jurisdictions in California, except as allowed in the following paragraphs of this subsection.

The use of out–of–state waste composition data is acceptable, provided that the jurisdiction submits with its solid waste generation study a statement of justification which satisfies its burden of proof of demonstrating the following:

1. The out–of–state data must be comparable to data available within California, and satisfy the requirements of subparagraphs (A), (B), and (C) of this section;

2. The statutory and regulatory framework of the state from which the data is derived must be consistent with the California Integrated Waste Management Act of 1989, as amended, and its attendant regulations, such that it is evident that the framework has not significantly impacted the relative composition of the solid wastes disposed and diverted in that state.

As a part of demonstrating the data's comparability and legal consistency, a jurisdiction shall submit a complete copy of the following, at the time the jurisdiction submits its SRR Element for the Board's consideration:

i). the waste characterization study and composition data it is using, and

ii). the solid waste statutory and regulatory framework of the state from which the study and data originated.

For the purposes of this section, out–of–state data refers only to data obtained from other states of the United States.

Except for the initial solid waste generation study, and as allowed by section 18724(c) of this article, data from another jurisdiction may be used to characterize the composition of solid waste generated only if all of the following criteria are met:

(A) the jurisdiction's population is within plus or minus 10% of that of the jurisdiction conducting the solid waste generation study; and

(B) the jurisdiction's total residential solid waste tonnage disposed is within plus or minus 10% of the total residential tonnage disposed by the jurisdiction conducting the solid waste generation study, or the jurisdiction's number of residential dwelling units is within plus or minus 10% of the number of residential units of the jurisdiction conducting the solid waste generation study; and

(C) the jurisdiction's total commercial solid waste tonnage disposed is within plus or minus 10% of the total commercial tonnage disposed by the jurisdiction conducting the solid waste generation study, or the jurisdiction's number of commercial units is within plus or minus 10% of the number of commercial units of the jurisdiction conducting the solid waste generation study.

(m) Solid Wastes Countable Towards Diversion.

For purposes of determining the quantity and types of solid wastes diverted, only those solid wastes which are normally disposed of at permitted solid waste landfills or permitted solid waste transformation facilities, and which are allowed to be counted toward the statutory diversion mandates pursuant to Sections 41781(a) and (b) of the Public Resources Code, as amended shall be included.

(n) Unacceptability of Double and Multiple Counting. A jurisdiction shall not double count or multiple count solid wastes that are diverted from disposal by recycling, composting and source reduction programs and facilities.

(o) Accuracy of Data. A jurisdiction shall, in compiling necessary data on the quantities and composition of solid wastes generated, diverted and disposed, develop a system of reporting procedures which will, as accurately as possible, quantify data reported from local governments, special districts, solid waste haulers, solid waste facility operators, scrap dealers, recycling facilities, recycling programs, and source reduction programs, for the purposes of the preparation of the SRRE, the Household Hazardous Waste Element, and the Countywide Siting Element. This system of reporting shall be separately outlined in the solid waste generation study when it is submitted to the Board.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 41003, 41030, 41031, 41033, 41300, 41303, 41330, 41331, 41333, 41780, 41781 and 41821, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Editorial correction of printing error in subsection (j)(7)(A) (Register 91, No. 31).
7. Certificate of Compliance as to 2–15–91 order including amendment and renumbering of prior section 18724 to subsection 18722(*l*), and amendment and renumbering of prior section 18726 to subsections 18722(m) and (n), transmitted to OAL on 4–29–91 and filed 5–29–91 (Register 91, No. 37).
8. Change without regulatory effect amending subsection (f)(3) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
9. Amendment of article heading, section heading, text and NOTE filed 3–31–94 as an emergency; operative 3–31–94 (Register 94, No. 13). A Certificate of Compliance must be transmitted to OAL by 3–31–97 pursuant to Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
10. Editorial correction of subsections (a), (e)(1), (f)(3), (f)(5), (g), (i)(3), (i)(4), (*l*), (*l*)(4)(A) and (m)(1) (Register 94, No. 37).
11. Editorial correction restoring HISTORY 6 and renumbering remaining HISTORY NOTES (Register 95, No. 19).
12. Reinstatement of article heading, section heading, section and NOTE as they existed prior to 3–31–94 emergency amendment filed 7–31–97 by operation of Government Code section 11346.1(g) (Register 97, No. 31).
13. Change without regulatory effect amending subsections (c)(1)(B)–(C) filed 7–15–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 29).

§ 18724. Additional Requirements and Guidelines for the Initial Solid Waste Generation Study.

In addition to the general requirements in section 18722 of this article, the following requirements pertain to a jurisdiction's preparation of the initial solid waste generation study for the initial SRR Element.

(a) Initial Solid Waste Generation Study Submission Dates. Each city, which is not a city and county, shall submit the initial solid waste generation study, as a part of its SRR Element, to the county in which it is located by July 1, 1991, except as provided by section 41000(b) of the Public Resources Code. Each county, and city and county, shall complete the initial solid waste generation study, as a part of its SRR Element, by July 1, 1991, except as provided by section 41000(b) of the Public Resources Code.

(b) Regional and Joint Solid Waste Generation Studies. In addition to the methodologies given in section 18722(*l*) of this article, for the initial solid waste generation study,

a jurisdiction may use data collected on an aggregate basis for a joint or regional study of which a jurisdiction is a part. For the purposes of this section, data collected on an aggregate basis are data which are collected

at solid waste facilities and recycling facilities which may not be readily disaggregated to a level in which an individual jurisdiction's solid waste generators, waste categories and/or waste types can be identified.

The aggregate data shall be disaggregated on a proportional basis, relative to the applicable demographic, economic, and residential, commercial and industrial characteristics of each jurisdiction participating in the regional or joint study. The initial solid waste generation study shall outline and describe how the proportional allocations of solid waste generated, diverted and disposed were determined and applied to the preparation of the solid waste generation study.

(c) Use of Pre–existing Solid Waste Generation Studies and Data. In addition to the methods given in section 18722(*l*) of this Article, for the initial solid waste generation study, a jurisdiction may use pre–existing solid waste generation studies or data on solid waste composition that have been prepared, subsequent to 1984, by the Board and/or by jurisdictions in California or out–of–state which have similar demographic (e.g., dwelling unit size, family size), and economic (e.g., income, employment), or solid waste (e.g., waste composition, relative proportions of solid waste generators) characteristics.

The use of out–of–state waste composition data is acceptable, provided that the jurisdiction submits with its solid waste generation study a statement of justification which satisfies its burden of proof by demonstrating the following:

1. the out–of–state data must be comparable to data available within California, and satisfy the requirements of subsection (c) of this section; and

2. the statutory and regulatory framework of the state from which the data is derived must be consistent with the California Integrated Waste Management Act of 1989, as amended, and its attendant regulations, such that it is evident that the framework has not significantly impacted the relative composition of the solid wastes disposed and diverted in that state.

As a part of demonstrating the data's comparability and legal consistency, a jurisdiction shall submit a complete copy of the following, at the time the jurisdiction submits its SRR Element for the Board's consideration:

i) the waste characterization study and composition data it is using, and

ii) the solid waste statutory and regulatory framework of the state from which the study and data originated.

For the purposes of this section, out–of–state data refers only to data obtained from other states of the United States.

A jurisdiction using solid waste generation studies or data from the Board and/or another jurisdiction with similar demographic, economic and solid waste characteristics shall list and describe in its solid waste generation study all the major characteristics which are similar between the two jurisdictions relative to the study.

(d) Measuring Solid Waste Quantity for Diversion Mandates. If a jurisdiction chooses to count specific waste types towards its statutory diversion mandates, a jurisdiction shall identify those waste types in the initial solid waste generation study.

(e) Sampling Period – Field Study and Data Projection. If a quantitative field analysis and/or materials flow methodology, as described in section 18722(*l*) of this Article, are used, data for the initial solid waste generation study shall be collected in the field during a continuous six month period subsequent to 1984 and prior to the adoption of the initial SRR Element by a jurisdiction. Based on the data collected during the 6–month field study, a jurisdiction shall project the types and quantities of solid waste generated, diverted and disposed for the following 6–month period. The field data and the projection, when combined, shall constitute the continuous 12–month study required by section 18722(i)(1) of this article.

(f) Sampling by Quantitative Field Analysis. If a quantitative field analysis for the initial solid waste generation study is selected for use by a jurisdiction, the quantitative field analysis may be conducted using the sampling procedures outlined in Appendix 1. "General Guidelines for Sampling When Performing a Quantitative Field Analysis for a Solid Waste Generation Study" (11/90).

(g) Aggregate Data. In the preparation of the initial solid waste generation study, jurisdictions jointly developing or collecting aggregate data on a county or regional basis shall use only that data related to the quantities of solid waste generated within that region, not data on quantities of solid waste generated within other regions.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 41000, 41030, 41031, 41033, 41300, 41330, 41332, 41333, 41781 and 41823, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment and renumbering of prior section 18724 to subsection 18722(*l*), and new section 18724 transmitted to OAL on 4–29–91 and filed 5–29–91; operative 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsections (c) and (c)(1) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading, text and NOTE filed 3–31–94 as an emergency; operative 3–31–94 (Register 94, No. 13). A Certificate of Compliance must be transmitted to OAL by 3–31–97 pursuant to Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
9. Editorial correction of subsection (g) (Register 94, No. 37).
10. Editorial correction restoring HISTORY NOTES 1–5, correcting HISTORY 6, and renumbering remaining HISTORY NOTES (Register 95, No. 19).
11. Reinstatement of section heading, section and NOTE as they existed prior to 3–31–94 emergency amendment filed 7–31–97 by operation of Government Code section 11346.1(g) (Register 97, No. 31).

§ 18726. Solid Waste Generation Studies for Revised SRR Elements.

In addition to the general requirements in section 18722 of this article, the following requirements pertain to a jurisdiction's preparation of solid waste generation studies for Revised SRR Elements.

(a) Individual Jurisdiction Responsibility.

For all revisions of an SRR Element in which solid waste generation studies are conducted jointly by two or more jurisdictions, each participating jurisdiction shall be responsible for specifically measuring and identifying, in its SRR Element, the estimated quantity of solid waste generated within its jurisdiction which is disposed or diverted from disposal by source reduction, recycling or composting activities.

(b) Identification of Solid Waste Sources, categories and types. Solid Waste generation studies prepared for revisions of the SRR Element shall identify the quantities of solid waste generated the jurisdiction, by source, by waste category and waste type as listed in sections 18722(i) and (j) of this Article. Data for each Solid Waste generation study submitted to the Board as a part of a revised SRR Element pursuant to revisions required by Article 7 of this Chapter shall have been collected during a continuous twelve month period.

(1) commencing no more than three years prior to the next Board submittal date for the SRR Element as required by Article 7 of this Chapter.

(c) Sampling by Quantitative Field Analysis. The quantitative field analysis for all Solid Waste generation studies for revised SRR Elements shall be conducted using the sampling procedures outlined in Appendix 1, "General Guidelines for Sampling When Performing a Quantitative Field Analysis for a Solid Waste Generation Study" (11/90), unless otherwise authorized by the Board.

(d) Requirement for Statistical Representation. Solid Waste generation studies for revised SRR Elements shall be statistically representative of the composition and quantity of solid waste generated, diverted and disposed by the jurisdiction. Statistical representation shall be established by use of the Guidelines given in Appendix 1 of this Article.

(e) Partial Solid Waste Generation Studies. If, upon review of the annual report submitted by a jurisdiction in compliance with section 41821 of the Public Resources Code, the Board finds that the lack of accurate and/or sufficient information on solid waste quantities and solid waste composition has contributed to the inability of a jurisdiction to meet the goals and objectives cited in its adopted SRR Element, and/or to meet the statutory diversion mandates given in section 41780 of the Public Resources Code, the Board may require a jurisdiction to prepare a partial solid waste generation study focused on particular sources of generation, and/or particular waste categories and waste types.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 41032, 41033, 41330, 41331, 41332, 41333, 41781, 41821, 41822 and 41823, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment and renumbering of prior section 18726 to subsections 18722(*m*) and (n), and new section 18726 transmitted to OAL on 4–29–91 and filed 5–29–91; operative 5–29–91 (Register 91, No. 37).
7. Amendment of section heading, text and NOTE filed 3–31–94 as an emergency; operative 3–31–94 (Register 94, No. 13). A Certificate of Compliance must be transmitted to OAL by 3–31–97 pursuant to Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Editorial correction restoring HISTORY NOTES 1–5 and renumbering remaining HISTORY NOTES (Register 95, No. 19).
9. Reinstatement of section heading, section and NOTE as they existed prior to 3–31–94 emergency amendment filed 7–31–97 by operation of Government Code section 11346.1(g) (Register 97, No. 31).

Appendix 1

General Guidelines for Sampling When Performing a Quantitative Field Analysis for a Solid Waste Generation Study (CIWMB – November, 1990)

1. Sampling Solid Waste Generation, Diversion and Disposal – Perform these tasks in the following order:

a. Identify the Populations.

In each jurisdiction, identify: the populations of (1) residential units, commercial units, industrial sites, and other sites of solid waste generation; (2) facilities and programs which recycle, compost, or source reduce solid wastes; and (3) solid waste transfer stations, and permitted solid waste transformation facilities and solid waste disposal sites.

For the purposes of these guidelines, a population is the aggregate from which a sample is chosen, and refers to the aggregate number of solid waste generators, solid waste diversion facilities and programs, or solid waste transfer, transformation and disposal facilities identified by the jurisdiction.

b. Stratify the Populations (Optional Step).

Stratify each identified population into distinct subpopulations. The jurisdiction shall select the subpopulations. For example, to stratify the population for a solid waste diversion characterization, the jurisdiction could stratify the population of recycling facilities into the following subpopulations: drop–off centers, buy–back centers, and thrift shops. If the number of units in the subpopulation is small, the jurisdiction may choose not to stratify the population, and instead choose a sample from the population as a whole.

c. Random Sampling.

Assign a unique number to each identified unit of a population or subpopulation. Using a random numbers table or any other unbiased sampling method, choose the units to be sampled in the population or subpopulation, for each season identified by a jurisdiction. State the type(s) of unbiased sampling methods used in the solid waste generation study, when the study is submitted to the Board as a part of the SRR Element.

2. Sampling and Variability Determination: In order to determine the minimum number of samples to be taken from a population or subpopulation, a jurisdiction may use one of the following two methods:

(a) Klee and Carruth Method.

Perform these tasks as follows:

(i) Sample, according to the requirements of sections 18722, 18724 and 18726 of this article, all of the solid waste generated, all of the solid waste diverted from disposal by recycling, composting or source reduction activities, and all of the solid waste transformed and disposed, for each identified population or subpopulation.

(ii) To determine the number of samples required for a statistically representative sampling from each population or subpopulation, the jurisdiction shall use the formula for normal approximation which is found in: A.J. Klee and D. Carruth, "Sample Weights in Solid Waste Composition Studies," American Society of Civil Engineers Journal of the Sanitary Engineering Division, volume 96(SA4), pages 945–954, August 1970, which is incorporated by reference. A 90% confidence interval shall be used in this formula.

This formula is:

$$n = \left(\frac{zs}{\delta}\right)^2$$

A 90% confidence level shall be used in this formula. Thus at 90% confidence level, z = 1.645 and s = 0.1632, where z is the normal standard deviate (one–tailed) for the confidence level desired and s is the estimated standard deviation of the sample, transformed (arcsin) basis. A jurisdiction shall use these values for z and s in computing the minimum number of samples.

A jurisdiction shall select the confidence interval and confidence width to be used in computing the minimum number of samples, i.e., the jurisdiction shall determine the δ (small delta) value to use in the formula.

In order to determine δ, a jurisdiction shall estimate its percent waste composition (X) by use of existing published data (waste category, and waste type if available) about the jurisdiction. and/or published data on percent waste composition from other jurisdictions. The source of the value of X used in the solid waste generation study shall be stated in the solid waste generation study.

Next, a jurisdiction shall select a level of precision or sensitivity (Δ) (large delta) (e.g., 1%, 2%, 3%) concomitant with its need for a given level of precision. with its population, and with the funds it has available for the solid waste generation study, as determined by the jurisdiction.

The waste category occurring in the highest percent in the selected waste stream shall be selected as the waste category for determining X and computing δ.

(iii) All solid waste generation studies prepared using the Klee and Carruth Method for the purposes of meeting the requirements of the Integrated Waste Management Act of 1989, as amended, and otherwise approved by the Board, shall be considered to meet the requirements of this article.

b. American Society of Testing Materials (ASTM) Method.

(i) Sample, according to the requirements of sections 18722, 18724 and 18726 of this article, all of the solid waste generated, all of the solid waste diverted from disposal by recycling, composting or source reduction activities, and all of the solid waste transformed and disposed, for each identified population or subpopulation in the jurisdiction.

(ii) A jurisdiction shall use section 9 and Table D of Draft No. 4 of the proposed ASTM "Method for Determination of the Composition of Unprocessed Municipal Solid Waste," dated January 24, 1990, which is incorporated by reference. A jurisdiction may also use the values for s and x in Table C of this method, or may use values for s and x found in published solid waste characterization studies which were conducted in California subsequent to 1984. Other sections of this Method may be used with section 9 and Table D. Once a final version of this Method is adopted by ASTM, that Method shall become the approved method for compliance with this article.

All solid waste generation studies prepared using the Draft ASTM Method for the purposes of meeting the requirements of the Integrated Waste Management Act of 1989, as amended, and otherwise approved by the Board, shall be considered to meet the requirements of this article.

3. Sort and Identify.

Sort and identify the solid wastes from each population and/or subpopulation, using the sources of waste generation listed in section 18722(i) of this article, and the waste categories and waste types listed in section 18722(j) of this article.

4. Assignment of Waste Category and Waste Type.

Assign each identified solid waste material to one of the waste categories and waste types listed in sections 18722(j) of this article, or to any additional waste types which a jurisdiction chooses to add to the list of waste types in section (j) of this article.

5. Volume or Weight Measurement.

Measure the volume or weight of each solid waste material that has been identified.

6. Tabulate and Analyze Data – Perform these tasks in the following order.

Tabulate and analyze all data compiled about the waste categories and waste types. As a part of the analysis, a jurisdiction shall compute (a) and (b) as follows:

a. Determination of Mean and Variability.

Compute the sample mean ($\bar{x}$) for volume or weight for each waste category and waste type identified.

Note, $\bar{x} = \Sigma x_i / n$, where x_i is a sample weight or volume and n is the total number of samples taken in the population or subpopulation sampled.

Next, compute the variance (s^2; i.e., where $s^2 = \Sigma(x_i - \bar{x})^2/n-1$) and the standard deviation of the mean(s), for volume or weight measurement for each population and subpopulation, using the following formula:

$$s = \sqrt{\frac{\Sigma (x_i - \bar{x})^2}{(n-1)}}$$

b. Set Confidence Levels for Sample Mean.

Set a 90% confidence level around the sample mean ($\bar{x}$), for each waste category and waste type identified.

Use the formula:

$$\bar{x} \pm (t_{n-1})\left(\frac{s}{\sqrt{n}}\right)$$

where t_{n-1} is the t value taken from the Student's t test values in Table 1, and where (n–1) is the degrees of freedom for the Student's t test for a 90% confidence level.

Note: This formula is used to establish a confidence interval for a population mean when the population variance is unknown. This formula is found in: M. Woodward and L.M.A. Francis, 1988, Statistics for Health Management and Research, section 7.4.3, pgs. 161–162, London: Edward Arnold Publishers, which is incorporated by reference.

7. Data Analysis Adjustment.

The data analysis conducted in steps 1 through 6 may be adjusted to include waste categories and waste types which:

(a) are known, by current written records held by the solid waste recycling, composting, source reduction, transformation or disposal facilities, to be disposed or diverted in a jurisdiction or in permitted solid waste facilities used by a jurisdiction, and

(b) may otherwise have been overlooked in the random sampling procedure.

TABLE 1
Student's t Values*

Number of Samples (n)	*Degrees of Freedom (n–1)*	*90% Confidence Level*
2	1	6.314

HISTORY

1. New Appendix 1 filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91

or emergency language will be repealed by operation of law on the following day.

6. Certificate of Compliance as to 2–15–91 order, including amendments and new TABLE 1 transmitted to OAL on 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Editorial correction of NOTE, HISTORY 6 and TABLE 1, including correct placement of NOTE and HISTORY (Register 94, No. 37).

§ 18726.1. Calculation of Maximum Disposal Tonnage.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41780, 41780.1 and 41780.2, Public Resources Code.

HISTORY

1. New section filed 3–31–94 as an emergency; operative 3–31–94 (Register 94, No. 13). A Certificate of Compliance must be transmitted to OAL by 3–31–97 pursuant to Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
2. Editorial correction clarifying tables (Register 94, No. 37).
3. Repealer filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
4. Repealer refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18726.2. Calculation of Minimum Diversion Tonnage.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41780, 41780.1 and 41780.2, Public Resources Code.

HISTORY

1. New section filed 3–31–94 as an emergency; operative 3–31–94 (Register 94, No. 13). A Certificate of Compliance must be transmitted to OAL by 3–31–97 pursuant to Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
2. Editorial correction clarifying tables (Register 94, No. 37).
3. Repealed by operation of Government Code section 11346.1(g) (Register 97, No. 31).

Article 6.2. Source Reduction and Recycling Elements

§ 18730. Scope.

(a) The Source Reduction and Recycling Element (SRRE) shall specify the means by which each jurisdiction required to prepare and implement a SRRE shall achieve the diversion mandates required by Public Resources Code section 41780 and 41780.1.

(b) The SRRE shall include items identified in chapter 9, Article 6.1, sections 18722 through 18726, and sections 18731 through 18748 of this Article, as applicable.

(c) Unless otherwise specified, this Article pertains to initial and subsequent SRREs.

(d) For the purpose of this Article, a jurisdiction is a city, county, city and county or a regional agency.

(e) For the purpose of this Article, programs which may be considered as funded or operated by a jurisdiction or local governing body are identified in Public Resources Code section 41781.2(b)(1).

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40052, 40057, 40970–40975, 41000, 41300, 41780, 41780.1 and 41781.2, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including additional amendment of subsections (a), (b) and (e) and amendment of NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18731. Goals and Objectives.

The SRRE shall include statements which define the goals and objectives for the short–term and medium–term planning periods.

(a) SRRE goals shall be consistent with the mandates of section 40051 of the Public Resources Code.

(b) SRRE objectives shall identify the amount of solid waste which the jurisdiction plans to divert from disposal at facilities to comply with the diversion requirements of Public Resources Code Sections 41780 and 41780.1 through each of the component programs described in sections 18733 through 18748 of this Article.

(c) SRRE objectives shall specify the time frame for achievement of each objective.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40051, 40052, 40900(c), 41001, 41301, 41780, 41780.1 and 41781.2, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including additional amendment of subsection (b) and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18732. Solid Waste Generation Analysis.

Each jurisdiction preparing a SRRE shall prepare a solid waste generation analysis based upon the information developed in Article 6.1 of this Chapter. The analysis shall include, but not be limited to, the following:

(a) For the initial SRRE, include a list, by specific waste categories, as denoted in section 18722, of Article 6.1 of this chapter, of the quantities of materials currently diverted from disposal, and the materials identified as being currently disposed according to the Waste Generation Study conducted by the jurisdiction.

(b) A list of the waste materials currently disposed in the jurisdiction which could potentially be diverted from disposal by use of the diversion programs described in sections 18733 through 18740, of this Article.

(c) A list of the waste materials currently disposed in the jurisdiction which cannot be diverted from disposal by diversion programs including, but not limited to, those described in sections 18733 through 18740 of this article and a discussion of why these waste materials cannot be diverted from disposal.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41030, 41051, 41071, 41201, 41330, 41351, 41371 and 41401, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of first paragraph, subsection (a) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18733. Model Component Format.

(a) The model component format, described in sections 18733.1 through 18733.6 of this Article, shall be used in the preparation of each of the following individual components of the SRRE:

(1) Source Reduction Component

(2) Recycling Component

(3) Composting Component

(4) Special Waste Component

(b) Additional requirements contained in sections 18734 through 18737.2 of this Article, shall be included in the preparation of the components, listed in section 18733(a) of this Article, in accordance with the model component format.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41003 and 41303, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsection (a) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including additional amendment of subsection (b), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18733.1. Component Objectives.

(a) Each component shall state the specific objectives to be accomplished during the short–term and medium–term planning periods. The initial SRRE component objectives shall be based upon the results of the Solid Waste Generation Analysis required by section 18732 of this Article and other local considerations which may be necessary to accomplish integrated waste management.

(b) For the initial SRRE, each jurisdiction shall identify specific waste categories or waste types, as found in the Solid Waste Generation Study conducted pursuant to section 18722, of Article 6.1 of this chapter, as priorities for waste diversion based on analysis of solid waste generation in terms of criteria which may include, but are not limited to, the following:

(1) volume of the solid waste;

(2) weight of the solid waste;

(3) hazard of the solid waste; and

(4) material, products or packages, contributing to the waste category or waste type, that are made of non–renewable resources.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41054, 41071, 41201, 41351, 41371 and 41401, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history, see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (b), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsections (a) and (b) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18733.2. Existing Conditions Description.

(a) As applicable, each component, listed in section 18733(a) of this Article, shall include a description of the existing diversion alternatives for each component program in the jurisdiction. The description shall include, but not be limited to, the following:

(1) a brief description of each existing diversion alternative implemented in the jurisdiction; and

(2) the quantity of waste diverted, listed by waste category and waste type where applicable as follows:

(A) for the initial SRRE identify the quantity of waste diverted for each existing diversion alternative. Waste quantities shall be specified by volume, expressed in cubic yards, or by weight, expressed in tons;

(B) for a subsequent SRRE, quantify each existing diversion alternative which involves recycling or composting programs that are operated or funded by a jurisdiction. Waste quantities shall be specified by weight, expressed in tons or volume, expressed in cubic yards.

(3) an identification and description of the existing diversion alternatives within the jurisdiction that will be decreased in scope, phased out or closed during the short–term and medium–term planning periods. The description shall include a discussion of the effects of such closure on existing solid waste management activities within the jurisdiction and its impact on the attainment of the solid waste diversion mandates specified in sections 41780 and 41780.1, Public Resources Code.

(b) The information provided in this section shall be used to:

(1) account for existing diversion amounts when calculating baseyear solid waste generation rates in the initial SRRE.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40901, 41031, 41333, 41780, 41780.1 and 41780.2, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including amendment of subsections (a)(2)(B), (a)(3) and (b)(1), repealer of subsection (b)(2), and amendment of NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18733.3. Evaluation of Alternatives.

Each component shall include an evaluation of diversion alternatives which have been considered for local implementation for the purpose of achieving the objectives required in section 18733.1, of this Article.

(a) Each alternative considered shall be evaluated in terms of the following criteria and any other local considerations:

(1) effectiveness in reducing either solid waste volume, weight, percentage in weight or its volumetric equivalent;

(2) hazard created by the alternative considered;

(3) ability to accommodate changing economic, technological, and social conditions;

(4) consequences of the diversion alternative on the characterized waste, such as shifting solid waste generation from one type of solid waste to another;

(5) whether it can be implemented in the short–term and medium–term planning periods; and

(6) the need for expanding existing facilities or building new facilities to support implementation of the alternative.

(b) In addition, the evaluation shall include, but not be limited to, the following:

(1) a discussion of the consistency of each alternative with applicable local policies, plans, and ordinances based upon local conditions;

(2) a discussion of any institutional barriers to local implementation of each alternative;

(3) an estimate of the costs related to the implementation of each alternative being evaluated for the short–term and medium–term planning periods; and

(4) a discussion of the availability of local, regional, state, national, and international end–uses for the materials which would be diverted through implementation of each alternative being considered.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900(c), 41053, 41073, 41203, 41250, 41260, 41353, 41373, 41403, 41450, 41460, 41780 and 41780.1, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–14–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including additional amendment of NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18733.4. Selection of Programs.

(a) Each component shall identify and describe the diversion alternatives selected, including existing diversion alternatives, expansions of existing diversion alternatives, and new diversion alternatives, which will be implemented to meet the objectives of the component and meet the solid waste diversion requirements specified in Public Resources Code, section 41780 and 41780.1. This selection shall be based upon the evaluations conducted pursuant to section 18733.3 of this Article. The program description shall include, but not be limited to, the following:

(1) a discussion of each diversion alternative selected for the program identifying why the alternative was selected for implementation. For the initial SRRE this discussion shall be based upon the data compiled in the solid waste generation study conducted pursuant to Article 6.1, of this chapter, information contained in the solid waste generation analysis required by section 18732 of this Article; and the evaluation conducted pursuant to section 18733.3 of this Article.

(2) an estimate of the anticipated quantities of solid wastes to be diverted from solid waste disposal, by diversion program and waste type, for the short–term and medium–term planning periods. Solid waste quantities shall be estimated either by volume, expressed in cubic yards, or by weight, expressed in tons. Each component shall state the anticipated percentage of contribution of the selected program towards the diversion mandates required by section 41780 and 41780.1 of the Public Resources Code;

(3) as applicable to the component, a listing of the anticipated local, regional, state, national, and/or international end–uses for diverted materials based upon the evaluation of the diversion alternative required by section 18733.3(b)(4) of this Article;

(4) as applicable to the component, a description of the proposed methods for handling and disposal which may be necessary to implement the selected program; and

(5) a description of any facilities to be utilized for the implementation of the program which section 18733.3 of this Article has shown must be expanded or built to support implementation of the selected program.

(b) Each diversion alternative which involves waste type "sludge" shall, in addition to the criteria set forth in subsections (a)(1) and (a)(2) of this section, be subject to a finding by the Board as described in Article 7.0 section 18775.2.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900(c), 41050–41053, 41070–41075, 41200–41204, 41250, 41260, 41350–41353, 41370–41375, 41400–41404, 41450, 41460, 41480, 41780 and 41780.1, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including amendment of section heading, section and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18733.5. Program Implementation.

Each component shall contain a program implementation description which includes, but is not limited to, the following:

(a) identification of government agencies and divisions thereof, organizations, and/or persons responsible for implementation of the selected program;

(b) identification of the tasks necessary to implement the selected program;

(c) identification of a short-term and medium-term planning period implementation schedule addressing each task identified in (b) of this section.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900(c), 41050, 41070, 41200, 41250, 41260, 41350, 41370, 41400, 41450, 41460 and 41780, Public Resources Code.

HISTORY

1. New section filed 3-19-90 as an emergency; operative 3-19-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7-17-90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7-6-90 as an emergency; operative 7-17-90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11-14-90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7-6-90 emergency regulations approved by OAL 11-6-90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2-15-91 as an emergency; operative 2-15-91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6-17-91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2-15-91 order, including amendment of first paragraph, transmitted to OAL 4-29-91 and filed 5-29-91 (Register 91, No. 37).
7. Amendment of subsection (c) and NOTE and repealer of subsection (d) filed 1-3-94 as an emergency; operative 1-3-94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1-3-97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1-3-94 order, including additional amendment of NOTE, transmitted to OAL 12-31-96 and filed 2-13-97 (Register 97, No. 7).

§ 18733.6. Monitoring and Evaluation.

(a) Each jurisdiction shall use one or more of the following methods to monitor and evaluate diversion programs being implemented:

(1) for the initial SRRE, a Waste Generation Study consistent with the waste generation study prepared under section 18722, of Article 6.1 of this Chapter;

(2) targeted solid waste characterization studies involving recycling, composting, transformation, and solid waste landfill facilities to measure changes in the volume, or weight of specific materials;

(3) an assessment of any changes in the design, production, distribution, sale, or use of selected products and packages which affect solid waste generation; or

(4) another method for which prior written approval has been given by the Board.

(b) Each jurisdiction shall provide the following information based upon the specific monitoring and evaluation methods selected for each recycling and composting program that is operated or funded by a jurisdiction:

(1) written criteria for evaluating the program's effectiveness;

(2) identification of agencies or divisions thereof, organizations, or persons responsible for the program's monitoring, evaluation, and reporting;

(3) identification of measures to be implemented if monitoring shows a shortfall in the attainment of solid waste diversion objectives of the component or a shortfall in the attainment of the diversion mandates specified in Public Resources Code, sections 41780 and 41780.1. Such measures may include, but are not limited to, provisions for:

(A) increasing the frequency of program monitoring and review, or,

(B) modification of the objectives or diversion alternatives adopted in each component program.

(c) Each recycling or composting component program that is operated or funded by a jurisdiction shall contain an explanation of how the program is to be monitored and evaluated during its implementation. A jurisdiction shall identify the methods to quantify and monitor achievement of the objectives, including but not limited to, diversion from solid waste landfills and transformation facilities and reduction of waste hazards. Actual solid waste diversion shall be quantified in cubic yards, or in tons, and as a percentage of the total solid waste generation of the jurisdiction.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40901, 41052, 41072, 41202, 41250, 41260, 41352, 41372, 41402, 41450, 41460, 41780 and 41780.1, Public Resources Code.

HISTORY

1. New section filed 3-19-90 as an emergency; operative 3-19-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7-17-90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7-6-90 as an emergency; operative 7-17-90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11-14-90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7-6-90 emergency regulations approved by OAL 11-6-90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2-15-91 as an emergency; operative 2-15-91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6-17-91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2-15-91 order, including amendment of first paragraph and subsection (b), transmitted to OAL 4-29-91 and filed 5-29-91 (Register 91, No. 37).
7. Amendment of section and NOTE filed 1-3-94 as an emergency; operative 1-3-94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1-3-97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1-3-94 order, including additional amendment of section and NOTE, transmitted to OAL 12-31-96 and filed 2-13-97 (Register 97, No. 7).

§ 18734. Source Reduction Component Specific Requirements.

The Source Reduction Component shall include the requirements contained in sections 18733.1 through 18734.3 of this Article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41050 and 41350, Public Resources Code.

HISTORY

1. New section filed 3-19-90 as an emergency; operative 3-19-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7-17-90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7-6-90 as an emergency; operative 7-17-90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11-14-90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7-6-90 emergency regulations approved by OAL 11-6-90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2-15-91 as an emergency; operative 2-15-91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6-17-91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2-15-91 order transmitted to OAL 4-29-91 and filed 5-29-91 (Register 91, No. 37).
7. Amendment of NOTE filed 1-3-94 as an emergency; operative 1-3-94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1-3-97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1-3-94 order, including amendment of section, transmitted to OAL 12-31-96 and filed 2-13-97 (Register 97, No. 7).

§ 18734.1. Source Reduction Component Objectives.

(a) Each jurisdiction shall examine and select source reduction program objectives which meet the goal of minimizing the quantity of solid waste disposed including, but not limited to, the following:

(1) reducing the use of non-recyclable materials;

(2) replacing disposable materials and products with reusable materials and products;

(3) reducing packaging;

(4) reducing the amount of yard wastes generated;

(5) purchasing repairable products; and,

(6) increasing the efficiency of the use of paper, cardboard, glass, metal, and other materials by reducing wastes from non–residential generators' production operations, processes, and equipment and considering durability, reusability, and recyclability as product selection criteria.

(b) Each jurisdiction shall identify specific waste types (materials, products, and packaging) to be targeted for the source reduction objectives, based upon criteria, which include, but are not limited to, the following:

(1) the potential to extend the useful life of affected materials, products, or packaging; and

(2) whether the waste type has limited recyclability.

NOTE: Authority cited: Sections 40502, Public Resources Code. Reference: Sections 40900(c), 41050–41054 and 41350–41354, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (a) and (c), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsection (a) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18734.2. Source Reduction Component Existing Conditions Description.

(a) The description of existing conditions shall identify the source reduction activities currently being performed by public and private entities including, but not limited to governmental, commercial, and industrial entities;

(b) For the initial SRRE, quantification of current source reductions achieved through existing programs within the jurisdiction shall meet the following criteria:

(1) the methodology, assumptions, and results shall be described, documented, and verified; and,

(2) the jurisdiction shall use the best readily available and applicable data, which may include direct observations and measurements of source reduction and the results of monitoring programs similar to those identified in section 18733.6 of this article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41050, 41053, 41350 and 41353, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsection (b) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18734.3. Evaluation of Source Reduction Program Alternatives.

Each jurisdiction shall consider source reduction program alternatives including, but not limited to, the following:

(a) Rate structure modifications, which may include, but are not limited to:

(1) local waste disposal fee modifications;

(2) quantity–based local user fees, which may include, but are not limited to, variable can rates for garbage collection services, such as fees based on the number of containers set out for collection;

(b) Creation of other economic incentives, which may include, but are not limited to:

(1) loans, grants, and loan guarantees;

(2) deposits, refunds, and rebates; and

(3) reduced business license fees;

(c) Technical assistance or instructional and promotional alternatives, which may include, but are not limited to:

(1) waste evaluations;

(2) the establishment of compost programs which assist generators to compost at the site of generation;

(3) technical assistance to industry and consumer organizations, and to source reduction businesses;

(4) educational efforts, such as consumer awareness programs, school curricula development, seminars, and public forums;

(5) awards and other types of public recognition for source reduction activities; and

(6) non–procurement source reduction programs, such as education of employees, office changes to increase the use of scrap paper, increased use of electronic mail, and increased double–sided copying.

(d) Regulatory programs, which may include, but are not limited to:

(1) local adoption of ordinances that specify that one or more of the following criteria be considered in the procurement selection of products and packaging by the jurisdiction:

(A) durability

(B) recyclability

(C) reusability

(D) recycled material content

(2) local establishment of incentives and disincentives to land–use development that promote source reduction;

(3) locally established requirements of waste reduction planning and reporting by waste generators or manufacturers;

(4) local adoption of bans on products and packaging to the extent the following can be demonstrated:

(A) the ban will result in reduction in waste at the source, rather than substitution by another product or package of equivalent or greater volume; and

(B) the ban will result in a net environmental benefit.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41050–41054 and 41350–41354, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.

3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (d)(4)(A), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsections (d)(1), (d)(2), (d)(3) and (d)(4) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of first paragraph, subsections (b) and (d)(4)(A) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 1–3–94 order, including amendment of subsection (d)(3)(A), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18735. Recycling Component Specific Requirements.

The Recycling Component shall include the requirements contained in sections 18733.1 through 18733.6 and 18735.1 through 18735.5 of this Article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41070 and 41370, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18735.1. Recycling Component Objectives.

A statement of market development objectives to be achieved in the short–term and medium–term planning periods shall be included in the goals and objectives section of the recycling component, as required by sections 41074 and 41374 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41070–41074 and 41370–41374, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18735.2. Recycling Component Program Existing Conditions Description.

The description of the existing recycling program shall include, but not be limited to, a description of existing private and public recycling activities, local market development activities, including any government procurement programs, economic development activities, consumer incentives, and education programs conducted within the jurisdiction.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41070 and 41370, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of first paragraph, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18735.3. Evaluation of Recycling Program Alternatives.

Each jurisdiction shall analyze the recycling diversion alternatives affecting residential, commercial, and industrial wastes. The analysis shall take into account existing recycling programs and their possible expansion in addition to the areas of concern specified in section 18733.3 of this Article.

(a) The alternatives shall include, but not be limited to, the following methods for accomplishing separation of the recyclable materials from the waste stream:

(1) separation of recyclable materials at the source of generation, including curbside and mobile collection systems;

(2) drop–off recycling centers;

(3) buy–back recycling centers;

(4) manual material recovery operations;

(5) mechanized material recovery operations that produce a product which has a market; and

(6) salvage at solid waste facilities.

(b) The jurisdiction shall consider changing zoning and building code practices to encourage recycling of solid wastes, such as, rezoning to allow siting of a drop–off recycling center in residential neighborhoods or revising building codes to require adequate space be allotted in new construction for interim storage of source–separated materials.

(c) The jurisdiction shall consider changing existing rate structures to encourage recycling of solid wastes.

(d) The jurisdiction shall consider the methods which it will use to increase the markets for recycled materials, including, but not limited to,

changing governmental procurement programs to promote market development by giving purchase preferences to recycled products or otherwise specifying their use.

(e) The jurisdiction shall encourage handling methods which preserve the integrity of recovered materials so that they remain usable raw materials for manufacturers of recycled content products. For this purpose, the jurisdiction shall consider the extent to which separation of recyclable materials from waste can be performed as close to the point of generation as possible.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900(d), 41075 and 41375, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Editorial correction of printing error in first paragraph (Register 91, No. 31).
7. Certificate of Compliance as to 2–15–91 order, including amendment of first paragraph and subsection (d), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
8. Amendment of first paragraph and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18735.4. Selection of Recycling Program.

(a) The recycling component shall identify the end markets or end users which will be secured during the short–term period, for the materials collected. In the event that such markets cannot be identified, the component shall describe the methods by which the jurisdiction will secure the necessary markets.

(1) The identification of markets may be described in general terms.

(2) Planned development of markets at manufacturing facilities in the jurisdiction shall also be described.

(b) The Recycling Component shall describe the measures to be taken if uneconomical market conditions or other unfavorable conditions occur which are beyond the jurisdiction's control and which would prevent the jurisdiction from satisfying the requirements of sections 41780 and 41780.1 of the Public Resource Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41074, 41374, 41780 and 41780.1, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Editorial correction of printing error in first paragraph (Register 91, No. 31).
7. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (b), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
8. Amendment of subsection (b) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including amendment of subsection (b) and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18735.5. Recycling Program Implementation.

The recycling program shall denote actions planned to deter unauthorized removal of recyclable materials which would adversely affect the recycling program's effectiveness.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41070 and 41370, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18736. Composting Component Specific Requirements.

The Composting Component shall include the requirements contained in sections 18733.1 through 18733.6 and 18736.1 through 18736.4 of this Article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41200 and 41400, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18736.1. Composting Component Objectives.

A statement of market development objectives to be achieved in the short-term and medium-term planning periods shall be provided in the Composting Component, as required by sections 41204 and 41404 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41200, 41204, 41400 and 41404, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including additional amendment of NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18736.2. Composting Component Program Existing Conditions Description.

The description of the existing composting program shall include, but not be limited to, a description of existing local market development activities, including any government procurement programs, economic development activities, or consumer incentives conducted within the jurisdiction.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41200 and 41400, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18736.3. Evaluation of Composting Program Alternatives.

(a) Composting program alternatives that qualify toward achievement of the diversion mandates specified in sections 41780 and 41780.1 of the Public Resources Code shall include only those alternatives whose products result from the controlled biological decomposition of organic wastes that are source separated from the municipal solid waste stream or separated at a centralized waste processing facility.

(b) Composting alternatives do not include composting of solid waste at the site of generation by the generator, since such an alternative constitutes a source reduction method.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41201, 41202, 41401, 41402, 41780 and 41780.1, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including amendment of subsection (a) and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18736.4. Selection of Composting Program.

(a) The Composting Component shall identify the end markets or end use which will be secured during the short-term period for the materials composted, using the selected program. In the event that such markets cannot be firmly identified, the component shall describe the methods by which the jurisdiction will secure the necessary markets. The identification of markets may be described in general terms. Planned development of markets at manufacturing facilities in the jurisdiction shall also be described.

(b) The Composting Component shall describe the measures to be taken if uneconomical market conditions occur beyond the jurisdiction's control, which would prevent the jurisdiction from satisfying the requirements of sections 41780 and 41780.1 of the Public Resource Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41200, 41204, 41400, 41404, 41780 and 41780.1, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsection (b) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including additional amendment of subsection (b) and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18737. Special Waste Component.

The Special Waste Component shall include the requirements contained in sections 18733.1 through 18733.6 and 18737.1 and 18737.2 of this article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900(c), 41250 and 41450, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18737.1. Special Waste Component Objectives.

For the initial SRRE each jurisdiction shall examine and select Special Waste Component objectives based upon data generated in the Solid Waste Generation Study, conducted pursuant to section 18722, of Article 6.1 of this chapter. The objectives shall include a plan to reduce the hazard potential of special wastes by waste type.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900(c), 41250 and 41450, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18737.2. Special Waste Component Existing Conditions Description.

(a) The description of the existing special waste program shall include, but not be limited to, a description of existing solid waste facilities which are permitted to handle or dispose of special wastes. Where applicable, the description shall include a discussion of other regulatory agency requirements, permits, or other documents associated with the operation of these facilities.

(1) regulatory agencies include, but are not limited to, regional water quality control boards, air quality management districts, and the Department of Toxics Substances Control.

(b) For the initial SRRE the jurisdiction shall provide a discussion on those special wastes identified in the Waste Generation Study conducted pursuant to section 18722, of Article 6.1 of this Chapter for which there is currently no permitted handling or disposal method within the jurisdiction.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41250 and 41450, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsections (a)(1)–(b) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including additional amendment of subsection (b), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18738. Household Hazardous Waste Component Specific Requirements.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 40900(c), 41280 and 41480, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including repeal of section 18738, transmitted to OAL 4–2–91 and filed 5–29–91 (Register 91, No. 37).

§ 18738.1. Household Hazardous Waste Component Objectives.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 40900(c), 41280 and 41480, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).

4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including repeal of section 18738.1, transmitted to OAL 4–2–91 and filed 5–29–91 (Register 91, No. 37).

§ 18738.2. Household Hazardous Waste Existing Conditions Description.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 41280 and 41480, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including repeal of section 18738.2, transmitted to OAL 4–2–91 and filed 5–29–91 (Register 91, No. 37).

§ 18738.3. Evaluation of Household Hazardous Waste Program Alternatives.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 40900(c), 41280 and 41480, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including repeal of section 18738.3, transmitted to OAL 4–2–91 and filed 5–29–91 (Register 91, No. 37).

§ 18738.4. Selection of Household Hazardous Waste Program.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 40900(c), 41280 and 41480, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including repeal of section 18738.4, transmitted to OAL 4–2–91 and filed 5–29–91 (Register 91, No. 37).

§ 18738.5. Implementation of Household Hazardous Waste Programs.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 41280 and 41480, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including repeal of section 18738.5, transmitted to OAL 4–2–91 and filed 5–29–91 (Register 91, No. 37).

§ 18740. Education and Public Information Component.

(a) Component objectives. The Education and Public Information Component shall include a statement of educational and informational objectives for the short–term and medium–term planning periods.

(b) Existing program description. The component shall include a description of all existing educational and public information programs and activities within the jurisdiction which promote source reduction, recycling, composting, and the safe handling and disposal of solid waste.

(c) Selection of program alternatives. For the initial SRRE the component shall incorporate data compiled in the solid waste generation study conducted pursuant to Article 6.1 and the solid waste generation analysis of section 18732 of this Article to identify solid waste generators that will be targeted in educational and public information programs.

(d) Program implementation. The component shall include a program implementation discussion which:

(1) identifies those agencies or divisions thereof, organizations, and/or persons responsible for implementation;

(2) identifies required implementation tasks;

(3) establishes short–term and medium–term implementation schedules for tasks;

(e) Monitoring and evaluation. For each education and public information component program which involves recycling or composting programs that are operated or funded by a jurisdiction, the component shall:

(1) identify the methods to be used to measure achievement of the education and public information objectives identified pursuant to section (a), above;

(2) establish written criteria by which to evaluate program effectiveness;

(3) identify agencies or divisions thereof, organizations, and/or persons responsible for program monitoring, evaluation, and reporting;

(4) identify measures to be implemented if monitoring performed pursuant to section 18733.6(a) of this Article shows a shortfall in the attainment of the solid waste diversion objectives; and

(5) establish a program monitoring and reporting schedule.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40901, 41220 and 41420, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.

3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including amendment of subsection (e), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18744. Facility Capacity Component.

(a) For the initial SRRE the Solid Waste Facility Capacity Component shall identify and describe all existing permitted solid waste landfills and transformation facilities within the jurisdiction. This description shall contain the following:

(1) identification of the owner and operator of each permitted solid waste disposal facility;

(2) quantity and waste types of solid waste disposed;

(3) permitted site acreage;

(4) permitted capacity;

(5) current disposal fees; and

(6) for solid waste landfills, remaining facility capacity in cubic yards and years.

(b) The Solid Waste Facility Capacity Component shall include a solid waste disposal facility needs projection which estimates the additional disposal capacity, in cubic yards per year, needed to accommodate anticipated solid waste generation within the jurisdiction for a 15–year period commencing in 1991.

(1) The solid waste disposal capacity needs projection for the initial SRRE shall be calculated based upon the solid waste generation projection conducted in accordance with section 18722, of Article 6.1 of this Chapter.

(2) The disposal capacity needs projection for the 15 year period shall be calculated using the following equation:

ADDITIONAL CAPACITY

$$\text{Year n} = [\ (G + I) - (D + TC + LF + E)\ ]_{\text{Year n}}$$

where:

G = The amount of solid waste projected to be generated in the jurisdiction;

I = The amount of solid waste which is expected to be imported to the jurisdiction for disposal in permitted solid waste disposal facilities through interjurisdictional agreement(s) with other cities or counties, or through agreements with solid waste enterprises, as defined in section 40193 of the Public Resources Code.

D = The amount diverted through successful implementation of proposed source reduction, recycling, and composting programs.

TC = The amount of volume reduction occurring through available, permitted transformation facilities.

LF = The amount of permitted solid waste disposal capacity which is available for disposal in the jurisdiction, of solid waste generated in the jurisdiction.

E = The amount of solid waste generated in the jurisdiction which is exported to solid waste disposal facilities through interjurisdictional agreement(s) with other cities, counties or states, or through agreements with solid waste enterprises, as defined in section 40193 of the Public Resources Code.

n = each year of a 15 year period commencing in 1991. [iterative in one year increments]

(c) The Solid Waste Facility Capacity Component shall include discussions of:

(1) The solid waste disposal facilities within the jurisdiction which will be phased out or closed during the short–term and medium–term planning periods and the anticipated effect from such phase–out or closure on disposal capacity needs of the jurisdiction.

(2) Plans to establish new or expanded facilities for the short–term and medium–term planning periods and the projected additional capacity of each new or expanded facility.

(3) Plans to export waste to another jurisdiction for the short–term and medium–term planning periods and the projected additional capacity of proposed export agreements.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41260, 41460 and 41821, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (b) and (c), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including additional amendment of section heading and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18746. Funding Component.

(a) The Funding Component shall demonstrate that there is sufficient funding and allocation of resources for:

(1) program planning and development;

(2) implementation of programs in order to comply with the requirements of sections 41780 and 41780.1 of the Public Resources Code.

(b) The Funding Component shall provide cost estimates for component programs scheduled for implementation in the short–term planning period.

(1) The Funding Component shall identify revenue sources sufficient to support the component programs.

(2) The Funding Component shall identify sources of contingency funding for component programs.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41230, 41430, 41780 and 41780.1, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsection (a)(2) and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.

8. Certificate of Compliance as to 1–3–94 order, including additional amendment of subsection (a)(2) and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18748. Integration Component.

(a) The Integration Component shall explain how the Source Reduction, Recycling, Composting, and Special Waste components combine to achieve the 25 and 50 percent mandates specified in Public Resources Code sections 41780 and 41780.1. The Integration component shall include, but is not limited to, the following:

(1) a description of the solid waste management practices which fulfill the legislative goals of promoting integrated solid waste management in the following order of priority:

(A) source reduction;

(B) recycling and composting; and

(C) environmentally safe transformation and environmentally safe land disposal of solid wastes;

(2) an explanation of how the jurisdiction has integrated the components to maximize the use of all feasible source reduction, recycling and composting options;

(3) an explanation of how the components jointly achieve the diversion mandates in sections 41780 and 41780.1 of the Public Resources Code;

(4) an explanation of how priorities between components were determined, and

(5) an explanation of whether the jurisdiction has been designated, or plans to apply for designation, as a California Integrated Waste Management Board Recycling Market Development Zone.

(b) An integrated schedule shall be submitted in the Integration Component which shall include the following:

(1) a calendar scheduling all implementation tasks for new and expanded programs, commencing after the effective date of the Integrated Waste Management Act of 1989 through the short–term planning period, as identified in the components specified in sections 18733(a) and 18740 of this Article. The schedule shall include a short descriptive title for each task, the entity implementing the task, the task start date and milestone dates, and a schedule for funding source availability.

(A) implementation tasks are those tasks in each component which satisfy the requirements of sections 18733.5(b) and 18740(d) of this Article.

(2) the schedule shall also show the anticipated date of achievement of the solid waste diversion mandates specified in sections 41780 and 41780.1, Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40051, 40052, 41001, 41002, 41301, 41302, 41780 and 41780.1, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90. For prior history see Registers 89, No. 1 and 83, No. 6.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsections (a), (a)(1), (a)(3) and NOTE and new subsection (a)(5) filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No.1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1–3–94 order, including amendment of subsections (a), (a)(3)–(5) and (b)(2), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

Article 6.3. Household Hazardous Waste Elements

§ 18750. Scope.

The Household Hazardous Waste (HHW) Element shall specify the means by which each jurisdiction required to prepare and implement a HHW Element shall safely collect, recycle, treat and dispose of household hazardous wastes generated by households within the jurisdiction.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41500 and 41510, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).

§ 18751. Household Hazardous Waste Element Specific Requirements.

The Household Hazardous Waste Element shall include the requirements contained in sections 18751.1 through 18751.6 of this Article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41500 and 41510, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).

§ 18751.1. Household Hazardous Waste Element Goals and Objectives.

The HHW Element shall include statements which define the goals and objectives for the short–term and medium–term planning periods.

(a) HHW Element goals and objectives shall be consistent with the mandates of section 40051 of the Public Resources Code.

(b) Each jurisdiction shall examine and select household hazardous waste element goals and objectives based upon data generated in the Solid Waste Generation Study, conducted pursuant to section 18722, of Article 6.1 of this Chapter. The objectives shall include plans to source reduce and safely collect, recycle, treat and dispose of household hazardous waste generated within the jurisdiction.

(c) The HHW Element shall specify the time frame for achievement of each objective.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40051, 41500 and 41510, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).

§ 18751.2. Household Hazardous Waste Existing Conditions Description.

All public agencies responsible for household hazardous waste (HHW) management must complete and submit either the CIWMB (Board) Form CIWMB 303a (1/06) entitled "Lead Agency Form 303a Household Hazardous Waste Collection Information For Fiscal Year ___/_____", or Form CIWMB 303b (1/06) entitled "Non–Lead Agency Form CIWMB 303b Household Hazardous Waste Collection Information For Fiscal Year ___/____", to the Board each year. Both forms are incorporated herein by reference and are located in Appendix A. Commencing with reports for Fiscal Year 2006/2007, Forms CIWMB 303a and CIWMB 303b shall be completed and submitted electronically to the Department of Toxic Substances Control each year, or, upon request to the CIWMB, the public agency may be exempted from filing electronically, and instead complete and submit a hard copy of either Form CIWMB 303a or CIWMB 303b. Form CIWMB 303a provides a description of the existing household hazardous waste program identifying the types and quantities of household hazardous wastes that are currently collected, reused, recycled, treated and/or otherwise managed and/or disposed through existing programs. Form CIWMB 303b provides only contact information for a non–lead agency, and provides, if applicable, for the types and quantities of universal waste collected and recycled by a non–lead agency.

The following are requirements for submitting Forms CIWMB 303a or CIWMB 303b:

(a) The reporting timeframe shall be July 1 of the previous fiscal year through June 30 of the current fiscal year, with the form required to be returned to the state by the first of October each year.

(b) The forms must be completed, to the extent applicable, whether or not waste was collected by a jurisdiction. If a public agency is not the lead agency collecting waste through a HHW program or a waste collection program was not conducted by their jurisdiction, only Form CIWMB 303b must be completed and submitted to the CIWMB.

(c) Each public agency acting as lead agency for Household Hazardous Waste collection must complete and submit one Form CIWMB 303a that includes all HHW program types including, but not limited to, permanent, temporary, recycle only, mobile, door–to–door, curbside (other than oil), and with a category designated as "Other" for additional program type identification.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 25218.10, Health and Safety Code. Reference: Sections 41500, 41510, 41750 and 47103, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
2. Amendment of subsection (a)(1) filed 6–14–93; operative 7–14–93 (Register 93, No. 25).
3. Amendment of subsection (a)(1) and NOTE filed 9–6–95; operative 10–6–95 (Register 95, No. 36).
4. Change without regulatory effect amending subsection (a)(1) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
5. Amendment filed 4–13–2007; operative 5–13–2007 (Register 2007, No. 15).

§ 18751.2.1.

The following terms used in this Article are defined as follows:

(a) Program types listed in Section 18751.2(c) are defined in Health and Safety Code 25218.1;

(b) With the exception of electronic waste, waste types listed in Section F of Form CIWMB 303a are defined in 49 Code of Federal Regulations Section 172.101, and

(c) Management Methods listed in Section F of Form CIWMB 303a have the following definitions:

(1) Destructive Incineration — treatment by thermal destruction at a high temperature hazardous waste incinerator where the physical destruction is the sole intent of the treatment process.

(2) Fuel Incineration — treatment by thermal destruction where the waste, either by itself or blended with another material, is burned to recover its potential thermal energy.

(3) Landfill — disposal of a waste in the ground (and in this case) at a hazardous waste landfill.

(4) Neutralization — treatment by chemically adjusting the pH of the waste so that the waste can be discharged into a publicly owned treatment works (does not apply if after neutralization, the waste is still hazardous and is sent for disposal or treatment by one of the other methods).

(5) Recycled —waste is sent for resource recovery where the raw materials used for making the material before it became a waste are recoverd to make new materials of the same or different nature (does not include fuel incineration).

(6) Reused — waste is used without further treatment or handling for the original intended purpose of the material before it became a waste.

(7) Stabilization — treatment where waste is chemically stabilized into a solid or semi–solid state such that it no longer exhibits hazardous characteristics and can be managed as non–hazardous waste (does not apply if after stabilization, waste is still hazardous and is sent for disposal or treatment by one of the other methods described here).

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 25218.10, Health and Safety Code. Reference: Sections 41500, 41510, 41750 and 47103, Public Resources Code.

HISTORY

1. New section filed 4–13–2007; operative 5–13–2007 (Register 2007, No. 15).

§ 18751.3. Evaluation of Household Hazardous Waste Program Alternatives.

The HHW Element shall include an evaluation of the Program alternatives which have been considered for local implementation consistent with the objectives of section 18751.1 of this Article, including but not limited to the following:

(a) Program alternatives including, but not limited to:

(1) collection alternatives, as follows:

(A) periodic community–wide, or neighborhood household hazardous waste collection;

(B) permanent household hazardous waste drop–off sites;

(C) mobile household hazardous waste collection; and

(D) local activities, actions or efforts to encourage the formation of privately or publicly operated fee–for–service, door–to–door, or curbside household hazardous waste collection alternatives.

(2) load–checking programs for household hazardous waste at all solid waste management facilities; and

(3) waste exchange, reuse and/or recycling alternatives for household hazardous wastes including, but not limited to, alternatives for waste oils, paints, and batteries.

(b) Each alternative considered shall be evaluated in terms of the following criteria and any other local considerations:

(1) hazards, as defined by Section 18720(a)(26) of this Chapter, which are created by the alternative considered;

(2) ability to accommodate changing economic, technological, and social conditions;

(3) whether it can be implemented in the short–term and medium–term planning periods; and

(4) the need for expanding existing facilities or constructing new facilities to support implementation of the alternative.

(5) In addition, the evaluation shall include, but not be limited to, the following:

(A) a discussion of the consistency of each alternative with applicable local policies, plans, and ordinances based upon local conditions;

(B) a discussion of any institutional barriers to local implementation of each alternative;

(C) an estimate of the costs related to the implementation of each alternative being evaluated for the short–term and medium–term planning periods; and

(D) a discussion of the availability of local, regional, state, national, and international end–uses for the materials which would be diverted through implementation of each alternative being considered.

(6) effectiveness in reducing either the volume or weight of HHW generated.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41500 and 41510, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).

§ 18751.4. Selection of Household Hazardous Waste Program.

(a) The HHW element shall identify and describe the diversion alternatives which have been selected for the jurisdiction's HHW program, including existing diversion alternatives, expansion of existing diversion alternatives, and new diversion alternatives, which will be implemented to meet the goals and objectives of the element. This selection shall be based upon the evaluations conducted pursuant to section 18751.3 of this Article. The program description shall include, but not be limited to, the following:

(1) a discussion of each diversion alternative selected for the program identifying why the alternative was selected for implementation. This discussion shall be based upon the data compiled in the solid waste generation study conducted pursuant to Article 6.1, of this Chapter; information contained in the solid waste generation analysis required by section 18732 of Article 6.2; and the evaluation conducted pursuant to section 18751.3 of this Article.

(2) as applicable to the element, a listing of the anticipated local, regional, state, national, and/or international end–uses for diverted materials based upon the evaluation of the diversion alternatives required by section 18751.3(b)(5)(D) of this Article;

(3) as applicable to the element, a description of the proposed methods for handling and disposal which may be necessary to implement the selected program; and

(4) a description of any facilities to be utilized for the implementation of the program which section 18751.2 of this Article has shown must be expanded or built to support implementation of the selected program identified in Section 18751.3 of this Article.

(b) In addition to the above requirements, the program description shall include the following:

(1) an identification of the types and quantities of household hazardous wastes anticipated to be collected, recycled, and/or disposed through proposed programs using household hazardous waste categories contained in form CIWMB–303 "Household Hazardous Waste Collection Information for Fiscal Year __/__" (5/95), which is incorporated herein by reference (See Appendix A.):

(A) where applicable, specification of the targeted Public participation goals by Percent of the Population of the affected jurisdiction for each Preferred program alternative;

(2) a description of recycling and/or reuse efforts to be used in conjunction with a proposed household hazardous waste program;

(3) a description of all proposed cooperative and/or multi–jurisdictional household hazardous waste program implementation efforts/actions/activities in which the jurisdiction intends to participate.

NOTE: Authority cited: Section 40502, Public Resources Code and Section 25218.10, Health and Safety Code. Reference: Sections 41500, 41510, 41750 and 47103, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
2. Amendment of subsection (b)(1) filed 6–14–93; operative 7–14–93 (Register 93, No. 25).
3. Amendment of subsection (b)(1) and NOTE filed 9–6–95; operative 10–6–95 (Register 95, No. 36).
4. Change without regulatory effect amending subsection (b)(1) and moving form to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18751.5. Implementation of Household Hazardous Waste Program.

(a) The element shall contain a program implementation schedule that includes, but is not limited to, the following:

(1) identification of government agencies and divisions thereof, organizations, and/or persons responsible for implementation of the selected program;

(2) identification of the tasks necessary to implement the selected program; and,

(3) identification of a short–term and medium–term planning period implementation schedule addressing each task identified in paragraph (a)(2) of this section which specifies the date each task will be completed.

(b) The jurisdiction may use technical assistance, program guidelines, and model operation plans, provided by the Board, for community household hazardous waste collection programs in the implementation of its household hazardous waste program.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41500, 41510, 47100 through 47106, and 41750, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).

[The next page is 806.113.]

§ 18751.6. Monitoring and Evaluation.

The element shall contain an explanation of how the program is to be monitored and evaluated as follows:

(a) identify the methods chosen from (b) of this section, which are being used to monitor achievement of the jurisdiction's objectives, as described in Section 18751.1, including but not limited to, the success in reducing or eliminating household hazardous waste.

(b) each jurisdiction shall use one or more of the following methods to monitor and evaluate the diversion objectives achieved within the jurisdiction:

(1) a Waste Generation Study consistent with the waste generation study prepared under section 18722, of Article 6.1 of this Chapter;

(2) targeted solid waste characterization studies involving all or a representative sample of solid waste landfill facilities, used by a jurisdiction, to measure changes in the volume, weight and hazard of specific materials, with adjustments or shifts in household hazardous waste generation resulting from source reduction;

(3) an assessment of any changes in the design, production, distribution, sale, and/or use of selected products and packages which affect household hazardous waste generation;

(4) monitoring of accurately maintained records of the volumes and types of HHW collected; or

(5) another method for which prior written approval has been given by the Board.

(c) Each jurisdiction shall provide the following information based upon the specific monitoring and evaluation methods selected for each program:

(1) written criteria for evaluating the program's effectiveness;

(2) identification of agencies or divisions thereof, organizations, and/or persons responsible for the program's monitoring, evaluation, and reporting;

(3) identification of known monitoring and evaluation funding requirements, revenues, and revenue sources; and

(4) identification of measures to be implemented if monitoring shows a shortfall in the attainment of the objectives of the element. Such measures may include, but are not limited to, provisions for:

(A) increasing the frequency of program monitoring and review,

(B) modification of the objectives, or,

(C) modification of the Program to increase its effectiveness.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41500 and 41510, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).

§ 18751.7. Education and Public Information.

(a) Objectives. The education and public information section of the element shall include a statement of educational and informational objectives for the short–term and medium–term planning periods.

(b) Existing program description. A description of all known existing educational and public information programs and activities within the jurisdiction which promote the source reduction, reuse, recycling and safe disposal of household hazardous waste shall be included.

(c) Identification of Preferred Alternatives. The public information and education section shall list the preferred alternatives both existing and proposed which will be maintained or implemented in the short and medium term Planning Periods to achieve the objectives of this section.

(d) Program implementation. A program implementation discussion which includes the following shall be submitted:

(1) identification of community audiences to be targeted in educational and public information programs;

(2) identification of those agencies or divisions thereof, organizations, and/or persons responsible for implementation;

(3) identification of the required implementation tasks;

(4) short–term and medium–term implementation schedules for tasks listed in (3) above;

(5) identification of all public and private program implementation costs, revenues, and revenue sources necessary for program implementation; and,

(6) public information and education alternatives to promote the use of safer substitute products or practices in households.

(e) Monitoring and evaluation. The section shall:

(1) identify the methods to be used to measure achievement of the education and public information objectives identified pursuant to section (a), above;

(2) establish written criteria by which to evaluate program effectiveness;

(3) identify agencies or divisions thereof, organizations, and/or persons responsible for program monitoring, evaluation, and reporting;

(4) identify monitoring and evaluation funding requirements, revenues, and revenue sources;

(5) identify measures to be implemented if monitoring performed pursuant to section 18751.6(a) of this Article shows a shortfall in the attainment of the household hazardous waste disposal objectives; and

(6) establish a program monitoring and reporting schedule.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41500 and 41510, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).

§ 18751.8. Funding.

(a) The jurisdiction shall demonstrate that there is sufficient funding and allocation of resources for:

(1) program planning and development;

(2) implementation of programs in order to comply with the requirements of sections 41500 and 41510 of the Public Resources Code.

(b) The funding section shall provide cost estimates for element programs scheduled for implementation in the short–term planning period, as follows:

(1) The funding section shall identify revenue sources sufficient to support the element programs.

(2) The funding section shall identify sources of contingency funding for element programs in the event that preferred revenue resources are insufficient.

(c) The funding section shall include a table which summarizes Program implementation costs, including public and private costs, revenues, and revenue sources necessary for implementation of the selected program.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41500 and 41510, Public Resources Code.

HISTORY

1. New section filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).

Article 6.4. Nondisposal Facility Element

§ 18752. Scope.

(a) The Nondisposal Facility Element (NDFE) shall identify the nondisposal facilities to be used by a jurisdiction to assist in reaching the diversion mandates of Public Resources Code Section 41780.

(b) The NDFE shall include the items identified in Sections 18752 through 18754.5 of this chapter.

(c) For the purpose of this Article, a nondisposal facility is any solid waste facility required to obtain a permit pursuant to Article 1 (commencing with Section 44001) Chapter 3, Part 4 of the Public Resources Code, except a disposal facility or a transformation facility.

(d) The NDFE shall reflect information available to a jurisdiction at the time of the development of the document. The NDFE may also contain additional information as determined by a jurisdiction.

(e) A jurisdiction may include other facilities not defined as nondisposal facilities (i.e. recycling centers, drop–off centers, household hazardous waste facilities, etc.).

(f) For the purpose of this Article, a jurisdiction is a city, county, city and county, or regional agency.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41730, 41731, 41732, 41733 and 41750.1, Public Resources Code.

HISTORY

1. New article 6.4 and section filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–3–94 order, including amendment of section and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18753. Description of Nondisposal Facilities within a Jurisdiction.

The NDFE shall identify all existing, expansion of existing, and proposed nondisposal facilities located within a jurisdiction which recover for reuse or recycling at least five percent of the total volume of material received by the facility.

(a) Each facility description shall include, but is not limited to:

(1) type of facility;

(2) facility capacity;

(3) anticipated diversion rate or expected diversion rate from the total amount of the waste that the facility receives; and,

(4) participating jurisdictions.

(b) Each facility location description may include, but is not limited to:

(1) address of the facility; or,

(2) description of the general area, (include a land use map, zoning map, or other type of planning map).

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41730, 41731, 41732, 41733 and 41750.1, Public Resources Code.

HISTORY

1. New section filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–3–94 order, including amendment of section heading, section and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18753.5. Description of Nondisposal Facilities outside a Jurisdiction.

The NDFE shall identify all existing, expansion of existing, and proposed nondisposal facilities which a jurisdiction, plans to utilize, but which are not located within the jurisdiction, and which recover for reuse or recycling at least five percent of the total volume of material received by the facility.

(a) Each facility description shall include, but is not limited to:

(1) type of facility;

(2) estimated amount of the waste the jurisdiction will transport to the facility;

(3) anticipated diversion rate or expected diversion rate from the total amount of the waste that the facility receives; and,

(4) location of facility.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41730, 41731, 41732, 41733 and 41750.1, Public Resources Code.

HISTORY

1. New section filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–3–94 order, including amendment of section heading, section and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18754. Description of Transfer Stations within a Jurisdiction.

The NDFE shall identify existing, expansion of existing, and proposed transfer stations located within a jurisdiction, which recover less than five percent of the volume of materials received for reuse or recycling.

(a) Each facility description shall include, but is not limited to:

(1) name of facility; and,

(2) participating jurisdictions.

(3) facility capacity.

(b) Each facility location description may include, but is not limited to:

(1) address of the facility; or,

(2) description of the general area, (include a land use map, zoning map, or other type of planning map).

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41730, 41731, 41732, 41733 and 41750.1, Public Resources Code.

HISTORY

1. New section filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–3–94 order, including amendment of section heading, section and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18754.5. Description of Transfer Stations outside a Jurisdiction.

The NDFE shall identify existing, expansion of existing, and proposed transfer stations to be used by a jurisdiction but not located within the jurisdiction, which recover less than five percent of the volume of materials received for reuse or recycling.

(a) Each facility description shall include, but is not limited to:

(1) name of facility; and,

(2) location of facility.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41730, 41731, 41732, 41733 and 41750.1, Public Resources Code.

HISTORY

1. New section filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–3–97 per Public Resources Code section 40502(c) or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 1–3–94 order, including amendment of section heading, section and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

Article 6.5. Siting Elements

§ 18755. General Requirements.

(a) The Siting Element shall demonstrate that there is a countywide or regionwide minimum of 15 years of combined permitted disposal capacity through existing or planned solid waste disposal and transformation facilities or through additional strategies.

(b) The Siting Element shall describe and identify the areas, numbers and types of new solid waste disposal and transformation facilities, as well as the expansion of existing solid waste disposal and transformation facilities necessary to provide a minimum of 15 years of combined permitted disposal capacity.

(c) If the requirements of subdivision (b) of this section cannot be demonstrated, then strategies shall be discussed for the transformation, disposal, or diversion of excess waste.

(d) The Siting Element shall include the items identified in sections 18755.1 through 18756.7 of this article.

(e) A "Siting Element" may be prepared by a regional agency when the regional agency is composed of two or more counties and all incorporated cities of those counties.

(f) For the purposes of this article, "countywide" shall be defined as including the incorporated cities within the county and the unincorporated areas of the county. For purposes of this article, "county" shall include the Board of Supervisors as the legislative and executive body of county government, and any designated agency responsible for solid waste management.

(g) For the purposes of this article, "regionwide" shall be defined as including the member agencies of the regional agency. For the purposes of this article, a "regional agency" shall be the governing entity created by a voluntary agreement between cities and counties for the purpose of

complying with Part 2 of Division 30 of the Public Resources Code. A city or county which is a party to such an agreement shall be considered a "member agency" of the regional agency. A regional agency may authorize one district, as defined in subdivision (a) of Section 41821.2 of the Public Resources Code, to be included as a member of the regional agency.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900, 40970–40972, 40977, 41700–41721.5, 41750.1 and 41821.2, Public Resources Code.

HISTORY

1. New article 6.5 and section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).
2. Change without regulatory effect amending subsection (g) and amending NOTE filed 6–26–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 26).

§ 18755.1. Goals and Policies.

(a) The Local Task Force (LTF) shall develop goals, policies, and procedures to provide guidance to the county to prepare the Siting Element. Based upon this guidance, the Siting Element shall include a statement on the goals and policies established by the county.

(b) The LTFs of each county, which are member agencies of a regional agency formed pursuant to section 18776(b) of this chapter, shall develop goals, policies, and procedures to provide guidance to the regional agency to prepare the Siting Element. Based upon this guidance, the Siting Element shall include a statement on the goals and policies of the regional agency.

(c) The goals shall be consistent with the mandates of Public Resources Code section 40051. The goals shall describe the method for the environmentally safe disposal of solid waste generated within the boundaries of the county and regional agency.

(d) The policies shall specify any programs, regulatory ordinances, actions, or strategies that may be established to meet the goals described in subdivision (c) of this section and to assist in the siting of solid waste disposal facilities. An implementation schedule shall be included which identifies tasks necessary to achieve each selected goal.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40950(d), 41700 and 41701(a), Public Resources Code.

HISTORY

1. New section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).

§ 18755.3. Disposal Capacity Requirements.

(a) Each county and regional agency, with assistance from the Local Task Force, shall include documentation in the Siting Element of the following information:

(1) the January 1, 1990 disposal capacity in cubic yards and in tons established pursuant to CCR 18777(b);

(2) the existing disposal capacity in cubic yards and in tons in the year the Siting Element is prepared; and

(3) the disposal capacity in cubic yards and in tons in any year the Siting Element is revised.

(b) The anticipated disposal capacity needs shall be described in cubic yards and tons, on an annual basis and aggregated for a minimum 15–year period, beginning with the year in which the Siting Element is prepared, and any year the Siting Element is revised.

(c) Area(s) shall be selected where solid waste disposal facilities are envisioned to be expanded or sited and constructed for the purpose of meeting a required minimum of 15 years of combined permitted disposal capacity. Each county and regional agency shall consider the following in determining the areas where solid waste disposal facilities are planned to be expanded or sited and constructed:

(1) the total amount of solid waste generated, expressed in cubic yards and in tons for volumetric capacity for the required 15–year period;

(2) the existing remainder of combined permitted disposal capacity in cubic yards and in tons for the required 15–year period; and

(3) an estimation of the total disposal capacity in cubic yards and in tons needed to meet a minimum of 15 years of combined permitted disposal capacity.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41701(b), (c) and (d), and 41791, Public Resources Code.

HISTORY

1. New section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).

§ 18755.5. Description of Existing Solid Waste Disposal Facilities.

(a) The Siting Element shall include an identification of each permitted solid waste disposal facility located countywide and regionwide. The description shall include, but not be limited to, the following information for each facility:

(1) the name of the facility and the name of the facility owner and operator;

(2) the facility permit number, permit expiration date, date of last permit review, and an estimate of remaining site life, based on remaining disposal capacity;

(3) the maximum permitted daily and yearly rates of waste disposal, in tons and cubic yards;

(4) the average rate of daily waste receipt, in tons and cubic yards;

(5) the permitted types of wastes; and,

(6) the expected land use for any site being closed or phased out within the 15–year planning period.

(b) The Siting Element description shall include a map showing each existing permitted solid waste disposal facility countywide and regionwide. The map shall be drawn to scale and the scale legend included on the map sheet. The type of map may be a 7.5 or 15 minute USGS quadrangle.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 50001, Public Resources Code.

HISTORY

1. New section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).

§ 18756. Criteria for Establishing New or for Expanding Existing Solid Waste Disposal Facilities.

(a) To establish a new solid waste disposal facility or to expand an existing solid waste disposal facility, the county and regional agency shall describe the criteria to be used in the siting process for each facility. The criteria shall include, but not be limited to, a description of the major categories of Environmental Considerations, Environmental Impacts, Socioeconomic Considerations, Legal Considerations, and additional criteria as developed by the county, cities, regional agency and member agencies. The following are examples of criteria that may be considered within those major categories:

(1) Environmental Considerations (for example: geology and solids including faulting and seismicity, ground settlement, surface hydrology and ground water, quantity and quality of ground water, surface water, surface water contamination, drainage patterns, etc.);

(2) Environmental Impacts (for example: air quality including climatic and meteorological conditions and emissions, visibility, cultural resources including regional setting, inventory and significance, paleontological resources including inventory and significance, vegetation, and wildlife, etc.);

(3) Socioeconomic considerations (for example: transportation including local and regional transportation systems, highways and major roadway corridors, rail transportation and corridors, land use including regional and local land uses such as military use, mineral extraction, agriculture, recreation/tourism, compatibility with existing and future land uses, consistency with county general plan(s) and future post–closure uses, economic factors including estimates of development costs and operational costs, etc.);

(4) Legal considerations (for example: federal, state, and local minimum standards and permits, liabilities, and monitoring, etc.);

(5) Additional criteria as may be included by the county, cities, regional agency and member agencies approving the Siting Element.

(b) The Siting Element shall describe the process instituted countywide or regionwide to confirm that the criteria set forth in (a)(1–5) of this section are included as part of the solid waste disposal facility siting process.

(c) The countywide Siting Element shall be approved by the county and the cities as described in Public Resources Code section 41721. The regionwide Siting Element shall be approved by the regional agency as described in section 18783(c) of this chapter. The Siting Element shall include: a resolution from each jurisdiction and member agency approving or disapproving of the Siting Element or any proposed amendment to the element; and a record of any jurisdiction or member agency failing to act upon the Siting Element.

(d) No solid waste disposal facility in the Siting Element shall be established that does not satisfy the minimum criteria that are adopted in the Siting Element pursuant to section 18756(a) of this article.

(e) A solid waste disposal facility not described within the Siting Element shall not be established unless an amendment to the Siting Element has been approved identifying and describing the facility, and the date of its inclusion in the element pursuant to PRC section 41721.5.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41700, 41701, 41702, 41704 and 50001, Public Resources Code.

HISTORY

1. New section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).

§ 18756.1. Proposed Facility Location and Description.

(a) The Siting Element shall include a description of each proposed new solid waste disposal facility and a description of each proposed expansion of an existing solid waste disposal facility for each county and regional agency included in the Siting Element which complies with the criteria identified in Section 18756 of this article. The description shall include the type of facility, location, size, volumetric capacity of the facility expressed in cubic yards and in tons, life expectancy (years), expansion options of the existing or proposed facility, and post–closure uses.

(1) Each Siting Element shall include one or more maps indicating the location of each proposed solid waste disposal facility and adjacent and contiguous parcels. The map(s) shall be drawn to scale and include the scale on the map sheet. The type of map(s) may be a 7.5 or 15 minute USGS quadrangle.

(b) A description shall be provided in the Siting Element of how each proposed solid waste disposal facility contributes to and maintains for each county or regional agency included in the Siting Element the minimum of 15 years of combined permitted disposal capacity as described in CCR 18755(a) of this article and is consistent with the diversion goals of Public Resources Code section 41780.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41700, 41701, 41702, 41704 and 41780, Public Resources Code.

HISTORY

1. New section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).

§ 18756.3. Consistency with City and County General Plans for New or Expanded Solid Waste Disposal Facilities.

(a) Reserved areas for proposed new or the expansion of existing solid waste disposal facilities shall be identified in the Siting Element. Verification shall be made that the expanded or proposed facilities are located in areas where the land use is designated or authorized for solid waste disposal facilities and that the areas are consistent with the applicable city and county general plans. Verification of general plan consistency shall include a resolution, notarized statement, or affidavit from each applicable city and the county. Proposed areas that are consistent with the current city and county general plans shall be reserved pursuant to the requirements of Public Resources Code sections 41702 and 41720.

(b) Proposed areas that are not situated in, coextensive with, or adjacent to an area authorized for land use as a solid waste disposal facility, within an applicable city and county general plan, may be "tentatively reserved" for future or expanded solid waste disposal facilities. Proposed areas that are inconsistent with applicable city and county general plans shall be tentatively reserved pursuant to the requirements of Public Resources Code sections 41710 through 41712.

(c) Proposed areas included in the Siting Element may be identified as "tentatively reserved" in the initial filing of a Countywide and Regionwide Integrated Waste Management Plan, as determined by Public Resources Code section 41791. However, by the first five–year revision of the Countywide and Regionwide Integrated Waste Management Plan all areas identified to assure the minimum of 15 years of combined permitted disposal capacity as described in CCR 18755(a) of this article must meet the requirements of Public Resources Code section 41702.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41702, 41704, 41710–41712 and 41720, Public Resources Code.

HISTORY

1. New section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).

§ 18756.5. Strategies for Disposing of Solid Waste in Excess of Capacity When New or Expanded Sites Are Not Available.

(a) The Siting Element shall provide an analysis describing the reasons why there are not available locations for establishing new or expanding existing solid waste disposal facilities within each county or regional agency included in the Siting Element. This analysis shall include a determination of whether the inability to establish new or to expand existing solid waste disposal facilities is due to the lack of locations with the appropriate physical or environmental site characteristics or because of other considerations; and,

(b) If new or expandable solid waste disposal facilities are not available, or are not sufficient to meet countywide or regionwide needs, each county and regional agency shall include strategies for disposing of solid waste. The discussion of strategies shall include, but is not limited to, the following:

(1) A description of the types (residential, commercial, industrial, and special) and quantities in cubic yards and in tons of waste in excess of remaining volumetric capacity of existing solid waste disposal facilities;

(2) A description of the diversion or export programs which will be implemented to safely handle and divert or dispose of excess solid waste. The description shall identify the existing solid waste disposal facilities, including those outside of the county or regional agency, that will be used to implement these strategies. The description shall document how the proposed programs shall provide the county or regional agency with sufficient disposal capacity to meet the required minimum of 15 years of combined permitted disposal capacity as described in CCR 18755(a) of this article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41703, Public Resources Code.

HISTORY

1. New section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).

§ 18756.7. Siting Element Implementation.

(a) The Siting Element shall include, but not be limited to, the following:

(1) identification of local government agencies, Local Task Forces, regional agencies, organizations, and any others, responsible for implementing the countywide or regionwide solid waste disposal facility siting program;

(2) implementation schedules addressing each task identified in Section 18755.1(d) for a minimum of 15 years beginning with the year in which the element is prepared; and,

(3) identification of revenue sources sufficient to support the administration and maintenance of the countywide or regionwide solid waste disposal facility siting program.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900 and 41700, Public Resources Code.

HISTORY

1. New section filed 7–15–94; operative 8–15–94 (Register 94, No. 28).

Article 6.6. Countywide and Regional Agency Integrated Waste Management Plans

§ 18757. General Requirements.

(a) The Countywide Integrated Waste Management Plan (CIWMP) shall include the following:

(1) for a county with no regional agency within its boundaries, the Source Reduction and Recycling Elements (SRREs), Household Hazardous Waste Elements (HHWEs), and Nondisposal Facility Elements (NDFEs) for the county and each city within the county, and the Siting Element and Summary Plan;

(2) for a county composed of one or more regional agencies:

(A) a SRRE, HHWE, and NDFE for each city that is not a member agency of the regional agency and for the county if it is not a member agency of the regional agency;

(B) a SRRE, HHWE, and NDFE for each city that is a member agency of the regional agency and for the county if it is a member agency of the regional agency, or the SRRE, HHWE, and NDFE for the regional agency, if the regional agency has elected to prepare one or more of these as regional documents; and

(C) a countywide Siting Element and Summary Plan.

(b) The Regional Agency Integrated Waste Management Plan (RAIWMP) shall include the following:

(1) for a regional agency composed of two or more counties and all of the cities within those counties, either:

(A) a SRRE, HHWE, and NDFE for each city and county which are member agencies of the regional agency and the Siting Element and Summary Plan for each county; or

(B) a SRRE, HHWE, and NDFE, Siting Element, and Summary Plan for the regional agency.

(2) for a regional agency composed of more than one county, but which does not encompass all of the cities within those counties, a SRRE, HHWE, and NDFE for the regional agency;

(3) for a regional agency composed of more than one county, and which includes all of the cities and the unincorporated area within at least one of those counties, but not all of the cities within the other county(ies), a SRRE, HHWE, and NDFE for the regional agency, a Siting Element and Summary Plan for each county that is wholly encompassed by the regional agency.

(c) The Summary Plan shall include the items identified in sections 18757.1 through 18758 of this article.

(d) For the purposes of this article, "countywide" shall be defined as including the incorporated cities within the county and the unincorporated areas of the county. For purposes of this article, "county" shall include the Board of Supervisors as the legislative and executive body of county government, and any designated agency responsible for solid waste management.

(e) For the purposes of this article, "regionwide" shall be defined as including the member agencies of a regional agency. For the purposes of this article, "Regional Agency" shall be the governing entity created by a voluntary agreement between cities and counties to carry out the mandates of Public Resources Code section 41780. A city or county which is party to such an agreement shall be considered a "member agency" of the Regional Agency. A regional agency may authorize one district, as defined in subdivision (a) of Section 41821.2 of the Public Resources Code, to be included as a member of the regional agency.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40977, 41750–41760 and 41821.2, Public Resources Code.

HISTORY

1. New article 6.6 and section filed 7–12–94; operative 8–11–94 (Register 94, No. 28).

2. Change without regulatory effect amending subsection (e) and amending NOTE filed 6–26–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 26).

§ 18757.1. Goals and Objectives.

The Local Task Force (LTF) shall develop goals, policies, and objectives to provide guidance to the county or regional agency in coordinating countywide and regionwide diversion programs, marketing strategies, and disposal strategies for the medium–term planning (1996–2000) period. Based upon this guidance, the Summary Plan shall include a statement on the goals, policies, and objectives established by the county or regional agency.

(a) The goals shall be consistent with the mandates of Public Resources Code section 40051. The goals shall express plans for integrating strategies aimed towards reducing, diverting, marketing, and safely handling and disposing of all solid waste generated countywide or regionwide.

(b) The Summary Plan shall identify policies within the Source Reduction and Recycling Elements and Household Hazardous Waste Elements that facilitate the reduction of solid waste for incorporated cities and the unincorporated area of the county or the regional agency.

(c) The Summary Plan shall contain specific objectives for achievement of the goals stated in subdivision (a) of this section. These objectives shall allow for measurements of progress made toward achieving the goals by including an implementation schedule which identifies specific tasks and milestones necessary to achieve each objective.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41750 and 41751, Public Resources Code.

HISTORY

1. New section filed 7–12–94; operative 8–11–94 (Register 94, No. 28).

§ 18757.3. County and Regional Agency Profile and Plan Administration.

The Summary Plan shall include:

(a) A general countywide or regionwide description including, but not limited to, topography, major roadways, city boundaries, and climate.

(b) A summary of important demographic data, including, but not limited to, population, ethnicity, average age and income of the citizens, housing, seasonal demographic fluctuations, and transportation patterns.

(c) A description of the governmental solid waste management infrastructure, including all local jurisdiction waste management entities, solid waste management authorities or districts, and any other regional agencies responsible for countywide or regionwide waste handling and/or disposal.

(d) An identification of the entity(ies) responsible for the following Plan–related functions: public information; budgeting; implementation of a solid waste management program; and, administration (such as maintenance, revision, and coordination of Plan–related documents).

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41751, Public Resources Code.

HISTORY

1. New section filed 7–12–94; operative 8–11–94 (Register 94, No. 28).

§ 18757.5. Description of Current Solid Waste Management Practices.

The Summary Plan shall describe the current or most recent countywide or regionwide solid waste management practices.

(a) The Summary Plan shall contain a description of all factors affecting the current collection, removal, and disposal of solid wastes. This description shall include, but not be limited to:

(1) service areas;

(2) designation of territories served through franchises, permits, contracts, or governmental services;

(3) quantity of waste collected in each jurisdiction of the CIWMP or RAIWMP area (tons and cubic yards per day/year);

(4) a description of storage and transportation needs and existing and anticipated methods for handling the collected materials targeted for recycling.

(5) final destination of collected wastes (e.g., landfill, transformation, exportation), by quantity (tons and cubic yards).

(b) The Summary Plan shall identify all permitted solid waste facilities located countywide or regionwide. This description shall include, but not be limited to, the following information:

(1) Facility name and location; and

(2) A map showing existing permitted solid waste facilities countywide or regionwide. The map should be drawn to scale and the scale and legend included on the map sheet. The map may be a 7.5 or 15 minute USGS quadrangle.

(c) The Summary Plan may include a description of waste diversion facilities located countywide or regionwide that are exempt or have re-

ceived an exclusion from a solid waste facilities permit, to the extent practicable. For each facility this description should include:

(1) the reason for exemption or exclusion;

(2) the estimated amount and type of material recovered/processed; and,

(3) the operator(s) and owner(s).

(d) The Summary Plan shall include, for countywide or regionwide programs, a description of Recycling Market Development Zones, and applicable strategies for processing and/or marketing secondary materials, including forming regional secondary materials marketing associations and joining associations outside the jurisdictional boundaries. The description shall discuss the county's or regional agency's role in developing markets.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41751, Public Resources Code.

HISTORY

1. New section filed 7–12–94; operative 8–11–94 (Register 94, No. 28).

§ 18757.7. Summary of Source Reduction and Recycling Elements, Household Hazardous Waste Elements and Nondisposal Facility Elements.

The Summary Plan shall:

(a) Summarize the types of programs planned in the Source Reduction and Recycling Elements by component from all the jurisdictions. This summary shall include, but is not limited to, the following:

(1) a listing and description of the planned and current diversion programs;

(2) a listing and identification of all planned contingency programs and measures; and

(3) a listing of targeted materials and marketing strategies, by program.

(b) Summarize the types of programs planned in the Household Hazardous Waste Elements from all jurisdictions. This summary shall include, but is not limited to, the following:

(1) a listing and identification of all planned and contingency programs and measures; and

(2) a listing of targeted materials and marketing strategies, by program.

(c) List the types and numbers of facilities planned in the Nondisposal Facility Elements from all jurisdictions and identify which jurisdictions are served by or use the facility(ies).

(d) Describe the coordination or consolidation of programs identified in subdivisions (a) and (b) of this section to include the following:

(1) identification and description of programs that were coordinated or consolidated and those programs that may be coordinated or consolidated in the future into countrywide or regionwide programs; and

(A) implementation schedules for the coordination or consolidation of individual jurisdiction's programs into countywide or regionwide programs.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41751, Public Resources Code.

HISTORY

1. New section filed 7–12–94; operative 8–11–94 (Register 94, No. 28).

§ 18758. Countywide and Regional Agency Integrated Waste Management Plan Financing.

The Summary Plan shall:

(a) Provide cost estimations for the countywide or regionwide programs and facilities scheduled for implementation and use.

(b) Summarize funding sources and allocation of revenues for all program and facility planning and implementation tasks identified in the Summary Plan.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41751, Public Resources Code.

HISTORY

1. New section filed 7–12–94; operative 8–11–94 (Register 94, No. 28).

Article 7. Procedures for Preparing and Revising City, Regional Agency and County Source Reduction and Recycling Elements, and Household Hazardous Waste Elements and City and County Nondisposal Facility Elements

§ 18760. Applicability.

(a) The procedures for preparing Source Reduction and Recycling Elements (SRREs), Household Hazardous Waste Elements (HHWEs) and Nondisposal Facility Elements (NDFEs) apply to the counties, cities, joint power authorities, regional agencies, special districts, or other agencies which are designated by the cities or counties, and are responsible for preparing these Elements.

(1) Cities, counties and cities which are also counties may enter into agreements to prepare and implement the SRREs, HHWEs and NDFEs which are specific to each jurisdiction.

(2) A city, county or a city and county shall be held accountable for implementation of the specified goals and programs of its SRRE and HHWE.

(b) For the purposes of this article, a jurisdiction is a city, county, city and county, or regional agency.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 40950, 40971 through 40975, 41000, 41300, 41500, 41510, 41730, 41731, 41813, 41850 and 41823, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a)(1), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of article heading filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
8. Amendment of article heading, section and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction adding HISTORY 8 and changes noted therein (Register 94, No. 48).
10. Certificate of Compliance as to 1–3–94 order, including amendment of subsections (a)(1) and (b), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18761. Local Task Force (LTF).

(a) Establishment. Each county board of supervisors, and a majority of the cities within the county which contain a majority of the population in

the county, shall submit written documentation to the Board approving the membership of their LTF, within 30 days after establishment of the LTF.

(1) The documentation submitted to the Board shall denote the identity of the members in the LTF, and whether the members represent the gov-

ernmental or the private sectors, or other entities or groups. The documentation shall define the terms of membership for each member.

(2) The terms of membership shall be determined by the county board of supervisors and a majority of the cities within the county which contain a majority of the population in the county.

(3) After its establishment, each LTF shall inform the Board of how frequently it intends to meet.

(b) Role of the LTF. The LTF shall advise jurisdictions responsible for the SRRE, HHWE and NDFE preparation, and review goals, policies, and procedures for jurisdictions, which, upon implementation, will aid in meeting the solid waste management needs of the county, as well as the mandated source reduction and recycling requirements of Public Resources Code section 41780.

(1) The LTF shall assist and advise in the review of the SRRE, HHWE, and NDFE, and shall assist jurisdictions in the implementation of the SRRE, HHWE, and NDFE.

(2) The LTF shall provide technical guidance and information regarding source reduction, waste diversion, and recycling to local jurisdictions during preparation and revision of the SRRE, HHWE and NDFE. Such information may be presented to the general public at public hearings and upon request by members of local government and community organizations.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40001, 40950, 41000, 41300, 41500, 41510, 41730 and 41731, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (b), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of subsections (b)–(b)(2) filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
8. Editorial correction adding HISTORY 7 and changes noted therein (Register 94, No. 48).
9. Certificate of Compliance as to 1–3–94 order, including amendment of subsections (a) and (b)–(b)(2), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18762. SRRE, HHWE, and NDFE Preparation.

(a) A jurisdiction shall prepare the SRRE, HHWE, and NDFE pursuant to Articles 6.1, 6.2, 6.3, and 6.4 of this Chapter, as applicable.

(1) Except as provided by Public Resources Code section 41735(a), a jurisdiction shall comply with the California Environmental Quality Act (CEQA) pursuant to Public Resources Code sections 21000 et seq.

(b) A jurisdiction shall submit written documentation to the Board of its designation of an agency responsible for preparation of the SRRE, HHWE and NDFE within 30 days of said designation.

(c) A jurisdiction, in coordination with the LTF, shall prepare and adopt the SRRE, HHWE, and NDFE, by the dates specified in Public Resources Code sections 41000, 41300 and 41791, as applicable.

(d) For the purposes of this article, after a jurisdiction prepares and adopts its NDFE, the NDFE shall be appended to the SRRE by the jurisdiction at the time the SRRE is submitted to the Board. At the time of the five year revision of the SRRE, the NDFE may be incorporated into the SRRE.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 21083, 40900, 40950, 41000, 41003, 41300, 41303, 41500, 41510, 41730, 41731, 41732, 41733, 41734, 41735, 41736, 41750, 41780 and 41791, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending section heading and subsection (a)(1) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
9. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
10. Editorial correction adding HISTORY 9 and changes noted therein (Register 94, No. 48).
11. Certificate of Compliance as to 1–3–94 order, including amendment of section heading and subsections (a), (c) and (d), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).
12. Change without regulatory effect amending subsection (d) filed 8–25–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 34).

§ 18763. Circulation of the Preliminary Draft SRRE and HHWE for Review.

(a) A jurisdiction shall prepare a preliminary draft of its SRRE and HHWE.

(b) If the jurisdiction is a city, the preliminary draft SRRE and HHWE shall be sent to adjoining cities, the county or regional agency responsible for the Countywide Integrated Waste Management Plan (CIWMP) or Regional Agency Integrated Waste Management Plan (RAIWMP) preparation, and the LTF.

(c) If the jurisdiction is a county, the preliminary draft SRRE and HHWE shall be sent to adjoining cities and the LTF.

(d) If the jurisdiction is a regional agency then the following applies:

(1) If the regional agency is composed of a single county but does not include all of the cities within the county, the preliminary draft SRRE and HHWE shall be sent to adjoining cities, the agency in the county responsible for the CIWMP preparation, and to the LTF.

(2) If the regional agency is composed of a single county and all of the cities within that county, the preliminary draft SRRE and HHWE shall be sent to adjoining cities and the LTF.

(3) If the regional agency is composed of two or more counties and all of the cities within the counties, the preliminary draft SRRE and HHWE shall be sent to adjoining cities, and the LTF of each affected county.

(4) If the regional agency is composed of two or more counties but does not include all of the cities within those counties, the preliminary draft SRRE and HHWE shall be sent to adjoining cities, each of the county agencies responsible for the CIWMP, and the LTF of each affected county.

Each jurisdiction shall also submit three copies of the draft SRRE and HHWE to the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900, 41000, 41300, 41500, 41510, 41750.1 and 41790, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–19–91 order, including amendment of first paragraph, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
8. Amendment of section and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction adding HISTORY 8 and changes noted therein (Register 94, No. 48).
10. Certificate of Compliance as to 1–3–94 order, including amendment of section heading and section, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18764. Review of the Preliminary Draft SRRE and HHWE.

(a) Review Period. In accordance with Government Code section 15376, the review period shall be a minimum of 30 days, commencing upon the date of receipt of the Preliminary Draft SRRE and HHWE by a reviewing agency. The median time for review shall be 38 days. The maximum time for review shall be 45 days.

(1) Review by LTF. In reviewing the preliminary draft SRRE and HHWE, the LTF shall consider the issues of regional concern pursuant to Public Resources Code section 40950(c) to aid in ensuring that they are addressed. Copies of written comments made by the LTF on the preliminary draft SRRE and HHWE shall be sent simultaneously to the Board and to the jurisdiction that prepared the preliminary draft SRRE and HHWE.

(2) Review by Other Reviewing Agencies. The county, adjacent cities, any association of regional governments, and the Board shall review the preliminary draft SRRE and HHWE and send written comments to the jurisdiction that prepared the preliminary draft SRRE and HHWE. A copy of the Board's written comments shall be sent simultaneously to the LTF.

NOTE: Authority cited: Section 40502, Public Resources Code; Section 15376, Government Code. Reference: Sections 40950, 41000, 41300, 41500, 41510 and 41790, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
9. Amendment of section and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
10. Editorial correction adding HISTORY 9 and changes noted therein (Register 94, No. 48).
11. Certificate of Compliance as to 1–3–94 order, including amendment of section heading and subsection (a)(2), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18765. Review of the Final Draft SRRE, HHWE and NDFE.

(a) Thirty (30) days prior to the public hearing for the adoption of the SRRE and HHWE, the jurisdiction shall send a copy of the final draft of its SRRE and HHWE to the LTF(s) of the affected counties for review. Within 15 days of receipt of the final draft of the SRRE and HHWE, the LTF shall provide written comments to the jurisdiction and the Board regarding the final draft.

(b) Ninety (90) days prior to the public hearing for the adoption of the NDFE, the jurisdiction shall send a copy of the final draft NDFE to the LTF for review. Within 90 days of receipt of the final draft NDFE, the LTF shall provide written comments to the city or county and the Board regarding the final draft.

(c) If deficiencies are indicated in the LTF's comments, the LTF shall meet with the jurisdiction to resolve them. If no resolution between the jurisdiction and the LTF can be achieved, the LTF shall send a letter to the jurisdiction and the Board indicating the remaining deficiencies of the SRRE, HHWE and NDFE.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40950, 40971, 41000, 41300, 41500, 41510, 41730, 41731 and 41734, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
8. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction adding HISTORY 8 and changes noted therein (Register 94, No. 48).
10. Certificate of Compliance as to 1–3–94 order, including amendment of subsection (b), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18766. Public Participation; Notice; Local Adoption of SRRE, HHWE and NDFE.

(a) The general public, affected governmental entities, and private industries shall be given an opportunity to participate in the planning process and implementation of the SRRE, HHWE, and NDFE through attendance at informative meetings and public hearings.

(1) Pursuant to Public Resources Code section 41793, at least one public hearing shall be held to receive testimony regarding the Preliminary Draft of the SRRE and HHWE before a jurisdiction adopts its SRRE and HHWE.

(A) To inform the public of the hearing, the jurisdiction shall publish a notice in a local newspaper of general circulation at least 30 days in advance of the scheduled public hearing on the SRRE and HHWE.

(2) Jurisdictions may form advisory committees which may review and comment on draft elements, and provide technical guidance and support during the development of the SRRE, HHWE, and NDFE.

(b) In addition to the hearing or hearings held pursuant to (a)(1) of this section, the governing body of the jurisdiction, shall conduct a public hearing for the purpose of adopting the SRRE, HHWE, and NDFE. After considering all comments of the members of the governing body and the public, the jurisdiction shall, by resolution, adopt the SRRE, HHWE and NDFE.

(1) To inform the public of the hearing, the jurisdiction shall publish a notice in a newspaper of general circulation at least three (3) days in advance of the scheduled public hearing on the final draft SRRE, HHWE, and NDFE.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900, 40971, 41000, 41300, 41500, 41510, 41730, 41731 and 41793, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a)(1), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a)(2) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
9. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
10. Editorial correction adding HISTORY 9 and changes noted therein (Register 94, No. 48).
11. Editorial correction of subsection (b) (Register 95, No. 19).
12. Certificate of Compliance as to 1–3–94 order, including amendment of section, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18766.5. Revision of the SRRE prior to Board Approval.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 15376, Government Code. Reference: Sections 40950, 41000, 41300, 41781.2, 41790 and 41793, Public Resources Code.

HISTORY

1. New section filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction adding section and HISTORY 1 (Register 94, No. 48).
3. Certificate of Compliance as to 1–3–94 order, including repealer of section, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18767. Submittal of City or Regional Agency SRRE, HHWE, and NDFE to the County and County NDFE to the Cities.

(a) A city, or regional agency which is composed of some cities within a single county, shall transmit one (1) copy of its SRRE and one (1) copy of its HHWE to the county in which it is located within 30 days of its adoption by the city or regional agency for incorporation into the CIWMP.

(1) A signed resolution and documentation that the jurisdiction has complied with CEQA (Public Resources Code sections 21000 et seq.) shall accompany the SRRE and HHWE that are submitted to the county.

(b) A city, unless it is a city and county, or regional agency which is composed of some cities within a single county shall transmit a copy of its NDFE to the county in which it is located within 30 days of its adoption by the city or regional agency for incorporation into the CIWMP. This submittal shall occur no later than the applicable submittal dates in PRC section 41791.5.

(c) A county, unless it is a city and county, shall transmit a copy of its NDFE to the cities which are located within the county within 30 days of adoption of the NDFE by the county. This submittal shall occur no later than the applicable submittal dates specified in PRC 41791.5.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 21083, 40971, 41000, 41300, 41500, 41510, 41791, 41730, 41731, 41750.1 and 41793, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a) and renumbering (a)(1) to (b) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
9. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
10. Editorial correction adding HISTORY 9 and changes noted therein (Register 94, No. 48).
11. Certificate of Compliance as to 1–3–94 order, including amendment of section heading and section, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18768. Submittal of the SRRE, HHWE, and NDFE to the Board.

(a) A jurisdiction shall, according to the schedule set forth in PRC section 41791.5, submit to the Board three (3) copies of its SRRE.

(1) When submitting the SRRE to the Board, the jurisdiction shall include a copy of the public notice(s) for the public hearings on the SRRE, a copy of the resolution(s) adopting the SRRE, comments on the final draft from the LTF, and a copy of the Notice of Determination which has been filed with the State Clearinghouse in the Office of Planning and Research as verification of compliance with the CEQA (Public Resources Code sections 21000 et seq.).

(b) A jurisdiction shall, according to the schedule set forth in PRC section 41791.5, submit to the Board three (3) copies of its NDFE.

(1) When submitting the NDFE to the Board, the jurisdiction shall include a copy of the public notice(s) for the public hearing(s) on the NDFE, a copy of the resolution(s) adopting the NDFE, and comments on the final draft from the LTF.

(c) A jurisdiction shall submit its HHWE with the CIWMP or the RAIWMP according to the schedule set forth in PRC section 41791. Any city, or regional agency which is composed of some cities within a single county, may separately submit its HHWE to the Board for approval.

(1) When submitting the HHWE to the Board, the jurisdiction shall include a copy of the public notice(s) for the public hearings on the HHWE,

a copy of the resolution(s) adopting its HHWE, comments on the final draft from the LTF, and a copy of the Notice of Determination which has been filed with the State's Clearinghouse in the Office of Planning and Research as verification of compliance with the CEQA (Public Resources Code sections 21000 et seq.).

(d) The Board's 120 day review period for consideration of approval of a SRRE, HHWE, or NDFE will commence upon determination by the Board that three (3) copies of a SRRE, HHWE, or NDFE and the accompanying documents required by (a), (b) and (c) of this section have been submitted by the jurisdiction.

(1) Within 30 days of receipt of a SRRE, HHWE, or NDFE for approval, the Board shall indicate to the jurisdiction whether all requirements included in (a), (b), and (c) have been fulfilled. If the Board notifies the jurisdiction that the required documents have not been submitted, the jurisdiction shall submit the remaining required document(s) within 30 days of notification.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 15376, Government Code. Reference: Sections 21083, 40971, 41750, 41791, 41791.5, 41794, 41800 and 41802, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendments of section and renumbering of subsections (b), (c) and (c)(1) to (a)(1), (2) and (3), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a)(2) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
9. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
10. Editorial correction adding HISTORY 9 and changes noted therein (Register 94, No. 48).
11. Certificate of Compliance as to 1–3–94 order, including amendment of section heading and section, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18769. Board Approval of SRREs, HHWEs, and NDFEs.

(a) The Board shall approve, conditionally approve, or disapprove the SRRE, HHWE, and NDFE at a public hearing. After receiving testimony from the jurisdiction, the public and the LTF, the Board shall either adopt and prepare written findings approving the SRRE, HHWE, and NDFE or issue a Notice identifying deficiencies in the SRRE, HHWE, and NDFE or amendments to the NDFE.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41800, 41801, 41802 and 41810 through 41813, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
8. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction adding HISTORY 8 and changes noted therein (Register 94, No. 48).
10. Certificate of Compliance as to 1–3–94 order, including amendment of section heading and section, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18770. Amendment or Revision, and Resubmittal of the Amended or Revised SRRE, HHWE, and NDFE.

(a) If a jurisdiction revises or amends its SRRE, HHWE, or NDFE, the jurisdiction shall revise or amend and submit its SRRE, HHWE, or NDFE pursuant to the requirements of sections 18765 through 18768 of this article.

(b) A jurisdiction shall resubmit a revised or amended version of its SRRE, HHWE, or NDFE to the Board either voluntarily according to PRC section 41770.5 or within 120 days of receipt of a notice identifying the element's deficiencies.

(c) The Board's 60 day review period for consideration of approval of amendments to the NDFE prior to the five year revision of the SRRE will commence upon determination by the Board that three (3) copies of the amendments to the NDFE and the accompanying documents required by section 18768(b) have been submitted by the jurisdiction.

(1) Within 30 days of receipt of the amendments to the NDFE for approval, the Board shall indicate to the jurisdiction whether all requirements included in section 18768(b) have been fulfilled. If the Board notifies the jurisdiction that the required documents have not been submitted, the jurisdiction shall submit the remaining required document(s) within 30 days.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 21083, 40950, 41000, 41300, 41770, 41770.5, 41780, 41781.2, 41790, 41793, 41800, 41801, 41802, 41810–41813 and 41822, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (b) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
9. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
10. Editorial correction adding HISTORY 9 and changes noted therein (Register 94, No. 48).

11. Certificate of Compliance as to 1–3–94 order, including amendment of section heading, section and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18770.5. Board Approval of Revised or Amended SRREs, HHWEs, and NDFEs.

(a) If a jurisdiction is required to amend or revise its SRRE, HHWE, or NDFE due to the disapproval of the document, the Board shall approve, conditionally approve, or disapprove the element or amendment, pursuant to Public Resources Code sections 41812 and 41813, within 120 days of receipt of resubmitted elements or within 60 days of the receipt of NDFE amendments.

(b) The Board shall approve, conditionally approve, or disapprove revised or amended SRREs, HHWEs, and NDFEs at a public hearing. After considering public testimony and input from the LTF, the Board shall either adopt a resolution approving revised or amended SRREs, HHWEs, and NDFEs, or issue a notice identifying deficiencies in the SRREs, HHWEs, and NDFEs. Board approval shall be based on an evaluation of the jurisdiction's implementation of the hierarchy for waste management practices as described in Public Resources Code section 40051 of the California Integrated Waste Management Act of 1989.

(1) If revised or amended SRREs, HHWEs, and NDFEs are disapproved or conditionally approved, the Board shall send a notice identifying deficiencies within thirty (30) days of making its findings.

(2) Conditional approval or disapproval of a SRRE or HHWE, which has been revised per Section 18772 of this article, shall require the jurisdiction to reinstitute the process for preparation and approval of the SRREs and HHWEs, beginning in sections 18762 through 18768.

(3) If revised or amended SRREs, HHWEs, and NDFEs are approved, the Board shall send a copy of the resolution of approval to the jurisdiction within thirty (30) days of making its finding.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40050, 40051, 40052, 41780, 41800, 41802, 41810 through 41813 and 41822, Public Resources Code.

HISTORY

1. Certificate of Compliance as to 1–3–94 order, including renumbering and amendment of former section 18773 to 18770.5, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18771. Annual Report: Review and Revision of City, Regional Agency or County SRREs.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40050, 40051, 40052, 40950, 41000, 41300, 41780, 41790 and 41821, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (b) and (c), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsections (a)(1) and (b) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction adding HISTORY 8 and changes noted therein (Register 94, No. 48).
10. Amendment of subsection (b) filed 11–21–95 as an emergency; operative 11–21–95 (Register 95, No. 47). A Certificate of Compliance must be transmitted to OAL by 3–20–96 or emergency language will be repealed by operation of law on the following day.
11. Amendment of subsection (b) refiled 3–15–96 as an emergency; operative 3–20–96 (Register 96, No. 11). A Certificate of Compliance must be transmitted to OAL by 7–18–96 or emergency language will be repealed by operation of law on the following day.
12. Repealer filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
13. Repealer refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
14. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18772. Board's Biennial Review of the City, Regional Agency, or County SRRE and HHWE.

(a) In addition to local jurisdiction review of city, regional agency, and county SRREs and HHWEs, at least once every two years, the Board shall conduct an independent review of SRREs and HHWEs. This biennial review will enable the Board to assess each jurisdiction's progress towards meeting the mandated diversion requirements. The Board shall determine if the SRRE and HHWE programs are being implemented, and if jurisdictions are meeting the goals of their SRRE and HHWE.

(b) If the Board finds that a jurisdiction is failing to implement its SRRE and HHWE, and is not making progress towards meeting the requirements of Public Resources Code sections 41000, 41300, 41500, 41510 or 41780, as applicable, after a public hearing on the matter, the Board shall issue a compliance order for achieving those requirements.

(1) The compliance order shall identify the programs goals of the SRRE and HHWE which are not being implemented or attained by the jurisdiction, or identify areas of the SRRE and HHWE which require revision. The Board shall also set a date by which the jurisdiction shall meet the mandated requirements.

(2) The Board shall issue the compliance order within 30 days of making its finding of noncompliance.

(c) If a jurisdiction fails to bring its SRRE and HHWE into compliance by the date specified by the Board, the Board shall enforce the compliance order pursuant to Public Resources Code section 41850.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41000, 41300, 41500, 41510, 41780, 41825 and 41850, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (a) and (b), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
8. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction adding HISTORY 8 and changes noted therein (Register 94, No. 48).
10. Editorial correction of subsection (b) (Register 95, No. 19).

11. Certificate of Compliance as to 1–3–94 order, including amendment of section heading and subsection (a), transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18773. Board Approval of Revised SRRE and HHWE.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40050, 40051, 40052, 41780, 41800, 41802, 41810 through 41813 and 41822, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading and text filed 4–30–92; operative 4–30–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 19).
8. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction adding HISTORY 8 and changes noted therein (Register 94, No. 48).
10. Certificate of Compliance as to 1–3–94 order, including renumbering and amendment of former section 18773 to 18770.5, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18774. One–Year Time Extension for Meeting Diversion Requirements.

(a) Commencing in 1995, the Board may grant a one–year time extension for meeting the state mandated requirements identified in Public Resources Code section 41780.

(1) A jurisdiction requesting an extension shall demonstrate, in writing, that it meets the requirements for an extension pursuant to Public Resources Code section 41820.

(2) Within 45 days of receipt of this request, the Board shall review the adequacy of the application, and determine if the requirements of Public Resources Code section 41820 are met. Based upon this determination, the Board shall adopt written findings approving or disapproving the jurisdiction's request.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41780 and 41820, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
8. Editorial correction adding HISTORY 7 and changes noted therein (Register 94, No. 48).
9. Certificate of Compliance as to 1–3–94 order, including amendment of section heading and section, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18774.5. Two–Year Time Extension for Meeting Diversion Requirements.

(a) Commencing in 1995, the Board may grant a two–year time extension to a rural jurisdiction, as defined in Public Resources Code sections 40183 and 40184, for meeting the state mandated diversion requirements in Public Resources Code section 41780.

(1) A jurisdiction requesting an extension shall demonstrate, in writing, that it meets the requirements for an extension pursuant to Public Resources Code section 41787.4.

(2) Within 45 days of receipt of a complete request, the Board shall review the adequacy of the application, and determine if the requirements of Public Resources Code section 41787.4 are met. Based upon this determination, the Board shall adopt written findings approving or disapproving the jurisdiction's request.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40183, 40184, 41780 and 41787.4, Public Resources Code.

HISTORY

1. New section filed 2–13–97; operative 3–15–97 (Register 97, No. 7).

§ 18775. Reduction in Diversion and Planning Requirements.

(a) A rural jurisdiction, as defined in Public Resources Code sections 40183 and 40184, may petition the Board, at a public hearing, to reduce the planning requirements and diversion requirements specified in Public Resources Code section 41780. To petition for a reduction, the jurisdiction shall present verification to the Board which indicates that achievement of the requirements is not feasible. To qualify to petition for a reduction in the diversion and planning requirements, a jurisdiction must meet the following:

(1) For a rural city, have a geographic area of less than 3 square miles or a population density of less than 1500 people per square mile and a waste disposal rate of less than 100 cubic yards per day or 60 tons per day.

(2) For the unincorporated area of a rural county, the county's population shall be 200,000 or less.

(3) For a rural regional agency, consist of rural cities and counties, not to exceed more than two rural counties, unless authorized by the Board.

(4) Be located in a rural area. "Rural area" means those counties and cities located in agricultural or mountainous areas of the state and located outside the Department of Finance's Primary Metropolitan Statistical Areas.

(b) Based on information presented at the hearing, the Board may establish reduced diversion requirements, and alternative, but less comprehensive, planning requirements. A petitioner may identify those specific planning requirements from which it wants to be relieved and provide justification for the reduction. Examples of reduced planning requirements could include, but would not be limited to, reduced requirements for solid waste generation studies, and reduced requirements and consolidation of specific component requirements. These reduced planning requirements, if granted, must ensure compliance with Public Resources Code section 41782.

(c) Rural jurisdictions requesting a reduction in the diversion and planning requirements must include the following information in the reduction petition:

(1) A general description of the existing disposal and diversion systems, including documentation of the types and quantities of waste disposed and diverted. Documentation sources may include, but are not limited to, the following:

(A) Solid Waste Generation or Characterization Studies;

(B) Diversion data from public and private recycling operations;

(C) Current year waste loading information from permitted solid waste facilities used by the jurisdiction;

(2) Identification of the specific reductions being requested (i.e., diversion or planning requirements or both);

(3) Documentation of why attainment of mandated diversion and planning requirements is not feasible. Examples of documentation could include, but are not limited to:

(A) Evidence from the documentation sources specified in paragraph (c)(1) of this section;

(B) Verification of existing solid waste budget revenues and expenses from the duly authorized designated representative of the jurisdiction;

(4) The planning or diversion requirements that the jurisdiction feels are achievable, and why.

(5) Documentation verifying that the rural city or county has implemented those programs identified in Public Resources Code section 41787(a)(3).

(6) Documentation verifying that the rural regional agency has implemented those regionwide programs identified in Public Resources Code section 41787.1(c)(2).

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40183, 40184, 40973, 41787, 41787.1, 41787.2 and 41802, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. New section filed 6–17–91 as an emergency; operative 6–17–91 (Register 91, No. 35). A Certificate of Compliance must be transmitted to OAL by 10–15–91 or emergency language will be repealed by operation of law on the following day.
7. Change without regulatory effect repealing section filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. New section filed 7–29–91 as an emergency; operative 7–29–91 (Register 92, No. 17). A Certificate of Compliance must be transmitted to OAL 11–26–91 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 7–29–91 order including amendment of section transmitted to OAL 3–24–92 and filed 5–4–92 (Register 92, No. 18).
10. Amendment of section heading, text and NOTE filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
11. Editorial correction adding HISTORY 5 and changes noted therein (Register 94, No. 48).
12. Editorial correction restoring HISTORY NOTES 1–5 and renumbering remaining HISTORY NOTES (Register 95, No. 19).
13. Amendment of subsection (d), new subsection (e) and subsection relettering filed 11–21–95 as an emergency; operative 11–21–95 (Register 95, No. 47). A Certificate of Compliance must be transmitted to OAL by 3–20–96 or emergency language will be repealed by operation of law on the following day.
14. Amendment of subsection (d), new subsection (e) and subsection relettering refiled 3–15–96 as an emergency; operative 3–20–96 (Register 96, No. 11). A Certificate of Compliance must be transmitted to OAL by 7–18–96 or emergency language will be repealed by operation of law on the following day.
15. Repealer of subsections (d)–(g) filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
16. Repealer of subsections (d)–(g) refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
17. Certificate of Compliance as to 9–25–96 order, including amendment of NOTE, transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
18. Certificate of Compliance as to 1–3–94 order, including amendment of section and NOTE, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).
19. Change without regulatory effect amending subsections (a)(1)–(2) and (a)(4) filed 8–25–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 34).

§ 18775.2. Sludge Diversion.

(a) Jurisdictions that wish to claim diversion of the waste type "sludge" shall submit a written request to the Board pursuant to PRC 41781.1. Within 45 days of receipt of a jurisdiction's request, the Board shall notify the jurisdiction in writing whether sufficient information has been included in the request to enable the Board to make findings pursuant to PRC Section 41781.1. Requests that are found by the Board to be incomplete, pursuant to the criterion set forth in this section, shall be returned to the jurisdiction to correct any inadequacy. The Board shall make the findings required by PRC Section 41781.1 at a public hearing no later than 180 days after receipt of a complete request for sludge diversion credit.

(1) A request for allowing sludge diversion shall include the following information:

(A) Description of the selected diversion alternative(s);

(B) Projected annual quantity of sludge waste to be diverted through the year 2000;

(C) Documentation that waste type "sludge" has been categorized, quantified, and documented in the applicable "solid waste generation study" as defined in section 18722 of this chapter;

(D) Written certification from the agent(s) responsible for implementing the sludge diversion alternative that the intended sludge reuse meets all applicable requirements of state and federal law. Information upon which the above certification is based shall be made available to the Board upon request.

(E) Description of monitoring program(s) that are in place or which will be established to insure that the sludge diversion alternative will not pose a threat to public health or the environment.

(F) If the sludge diversion alternative receives a permit or is identified under an existing permit, waste discharge requirements, or has other conditions imposed by one or more of the agencies specified in PRC Section 41787.1, include the name of the agency(s) and identify the agency identification code or number for the permit, waste discharge requirements, or other imposed conditions.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41780 and 41781.1, Public Resources Code.

HISTORY

1. New section filed 1–3–94 as an emergency; operative 1–3–94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1–3–97 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction adding section and HISTORY 1 (Register 94, No. 48).
3. Certificate of Compliance as to 1–3–94 order, including amendment of section, transmitted to OAL 12–31–96 and filed 2–13–97 (Register 97, No. 7).

§ 18775.4. Use of Excluded Waste Types for Baseline Diversion Credit.

(a) To establish baseline diversion, jurisdictions which have included alternatives for the diversion of agricultural wastes, inert solids, or scrap metals as defined in PRC section 41781.2(b), or white goods as defined in Article 3 of this Chapter, shall follow the requirements specified in PRC section 41781.2. Within 60 days of receipt of a jurisdiction's SRRE for final review, the Board shall notify the jurisdiction in writing if there is insufficient information to determine that the criteria specified in PRC section 41781.2 have been met. This notification shall be based on the criteria specified in PRC section 41801.5(b).

(b) If the Board disapproves an element for which a jurisdiction has received a notification of excluded wastes pursuant to PRC section 41801.5(b), the jurisdiction may, concurrent with the procedures specified in section 18770 of this article, submit additional information to the Board which substantiates that the criteria specified in PRC section 41781.2 have been met. Within 60 days of receipt of the additional information, the Board shall determine whether diversion of all or a portion of the excluded waste will be allowed for the purposes of compliance with the diversion requirements of PRC section 41780.

(c) Based on the Board's determination in subsection (b), the jurisdiction shall update or revise, if necessary, its SRRE to correct any inadequacy and shall resubmit it to the Board within 120 days of the Board's determination. If a jurisdiction is unable to resubmit its updated or re-

vised SRRE within 120 days, the Board may, on a case-by-case basis, extend the deadline for resubmittal. Upon receipt of a resubmitted element, the Board shall follow the procedures specified in section 18770 of this article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41780, 41781.2, 41801.5 and 41811.5, Public Resources Code.

HISTORY

1. New section filed 1-3-94 as an emergency; operative 1-3-94 (Register 94, No. 48). A Certificate of Compliance must be transmitted to OAL by 1-3-97 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction adding section and HISTORY 1 (Register 94, No. 48).
3. Certificate of Compliance as to 1-3-94 order, including amendment of subsections (b) and (c), transmitted to OAL 12-31-96 and filed 2-13-97 (Register 97, No. 7).

Article 8. Procedures for Preparing and Revising Siting Elements, Summary Plans, and Countywide and Regional Agency Integrated Waste Management Plans

§ 18776. Procedures for the Preparation and Submittal of the Siting Element and Summary Plan.

(a) Except as provided in subsection (b)(3)(B) of this section, each county shall prepare and adopt a Siting Element and a Summary Plan which shall be part of the Countywide Integrated Waste Management Plan (CIWMP), pursuant to Public Resources Code sections 41700 through 41826.

(b) Where a regional agency has been formed, the following requirements shall apply:

(1) Each regional agency composed of member agencies that do not extend beyond the boundaries of a single county and does include the unincorporated area of the county, shall prepare and submit to the Board a Siting Element and a Summary Plan which shall be part of the CIWMP.

(2) Each regional agency composed of member agencies that do not extend beyond the boundaries of a single county, but does not include the unincorporated area of the county, shall be included in the documents prepared pursuant to subsection (a) of this section for the preparation and submittal of the Siting Element and Summary Plan.

(3) Each regional agency composed of two or more counties and all cities within those counties, shall prepare and submit to the Board one of the following as part of the Regional Agency Integrated Waste Management Plan (RAIWMP):

(A) a countywide Siting Element and Summary Plan for each county within the regional agency; or

(B) a regionwide Siting Element and Summary Plan for the regional agency.

(4) Each regional agency composed of more than one county, but which does not include all of the cities within those counties, shall be included in the documents prepared pursuant to subsection (a) of this section for the preparation and submittal of the Siting Element and Summary Plan for each county of the regional agency.

(5) Each regional agency composed of more than one county, and which includes all of the cities and the unincorporated area within at least one of those counties, but not all of the cities within the other county(ies), shall prepare and submit to the Board a Siting Element and Summary Plan as part of the RAIWMP for each county that is wholly encompassed in the regional agency.

(c) Each county and regional agency shall designate the agency responsible for preparing its Siting Element and Summary Plan; and shall notify the Board, in writing, within 30 days of the effective date of this article or the formation of a regional agency. Each county and regional agency shall notify the Board, in writing, of any change in the designation of a responsible agency within 30 days of the change.

(d) For the purposes of this article, "countywide" shall be defined as including the incorporated cities within the county and the unincorporated areas of the county. For purposes of this article, "county" shall include the Board of Supervisors as the legislative and executive body of county government, and any designated agency responsible for solid waste management.

(e) For the purposes of this article, "regionwide" shall be defined as including the member agencies of a regional agency. For the purposes of this article, "regional agency" shall be the governing entity created by a voluntary agreement between cities and/or counties to carry out the mandates of Public Resources Code section 41780. A city or county which is a party to such an agreement shall be considered a "member agency" of the regional agency. A regional agency may authorize one district, as defined in subdivision (a) of Section 41821.2 of the Public Resources Code, to be included as a member of the regional agency.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40051, 40970 - 40975, 40977, 41700, 41701, 41702, 41703, 41704, 41750, 41750.1, 41751, 41791 and 41821.2, Public Resources Code.

HISTORY

1. New section filed 3-19-90 as an emergency; operative 3-19-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7-17-90.
2. New section refiled 7-6-90 as an emergency; operative 7-17-90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11-14-90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7-6-90 emergency regulations approved by OAL 11-6-90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2-15-91 as an emergency; operative 2-15-91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6-17-91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2-15-91 order, including amendment of subsections (b) and (c), transmitted to OAL 4-29-91 and filed 5-29-91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (c) filed 7-11-91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of article heading, section heading and subsection (a), repealer of subsection (b) and new subsections (b)-(b)(5), amendment of subsection (c), repealer of subsection (d) and new subsections (d)-(e) and amendment of NOTE filed 7-22-94; operative 8-22-94 (Register 94, No. 29).
9. Change without regulatory effect amending subsection (e) and amending NOTE filed 6-26-2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 26).

§ 18777. Role of the Lock Task Force.

(a) The role of the Local Task Force (LTF) shall be to assist and advise the agency(ies) responsible for preparation of the Siting Element and the Summary Plan. The LTF shall guide the preparation and review of these documents prior to their circulation to reviewing agencies and to the Board, to aid in ensuring that the county or regional agency adequately plans for meeting future solid waste handling and disposal needs.

(b) Within 30 days of its establishment, the LTF shall determine and verify the remaining permitted combined disposal capacity of existing solid waste disposal facilities in the county or regional agency.

(c) If the county and the cities within the county determine that the representation of the current LTF is not adequately addressing the needs of the county, cities, or public, a new LTF may be established. The new LTF membership shall be approved as described in Public Resources Code Section 40950. Within 30 days of the establishment of the new LTF, a membership roster containing the names, phone numbers, and member representation shall be sent to the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40001, 40950, 41751 and 41791, Public Resources Code.

HISTORY

1. New section filed 3-19-90 as an emergency; operative 3-19-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7-17-90.
2. New section refiled 7-6-90 as an emergency; operative 7-17-90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11-14-90 or emergency language will be repealed by operation of law on the following day.

3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (a), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and subsections (a)–(b), repealer of subsections (b)(1)–(2), new subsection (c) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18778. Public Participation in the Preparation of the Preliminary Draft Siting Element and Summary Plan.

(a) The general public, affected governmental entities, and private industries shall be given an opportunity to comment on the development and implementation of the preliminary Siting Element and Summary Plan at informative meetings and public hearings.

(1) The agency(ies) responsible for preparing the preliminary Siting Element and Summary Plan shall hold at least one public meeting to receive public comment on these preliminary draft documents. Notice of the public meeting shall be provided pursuant to section 18782 of this article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900 and 41793, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a)(1) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading, text and NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18779. Procedures for the Preparation and Review of the Preliminary Draft Siting Element and Summary Plan.

(a) Preparation of the Preliminary Draft Siting Element and Summary Plan. Each county and regional agency shall prepare a preliminary draft of its Siting Element and Summary Plan. The agency(ies) responsible for preparation of the preliminary draft(s) shall consider LTF recommendations and public input during the development and revision phases. The preliminary draft(s) shall be sent to the LTF, incorporated cities within the county, member agencies within the regional agency, and the Board.

(b) Review by LTF. The preliminary draft Siting Element and Summary Plan shall be reviewed by the LTF. Within 45 days of receipt of each preliminary draft, the LTF shall send written comments to the Board and to the agency preparing each preliminary draft document.

(c) Review by Incorporated Cities. Within 45 days of receipt of the preliminary draft Siting Element and Summary Plan, each incorporated city within the county and regional agency, shall review each preliminary draft and send written comments to the agency responsible for preparing each preliminary draft document.

(d) Review by Member Agencies. Within 45 days of receipt of the preliminary draft Siting Element and Summary Plan, each member agency within the regional agency, shall review each preliminary draft and send written comments to the agency responsible for preparing each preliminary draft document.

(e) Review by the Board. Three hardcopies of the the preliminary draft Siting Element and Summary Plan or two hardcopies and two magnetically coded disks in a Board approved format shall be submitted to the Board. Within 45 days of receipt of the required copies of the the preliminary draft Siting Element and Summary Plan, the Board shall send written comments on the adequacy of each preliminary draft to meet the requirements of the Integrated Waste Management Act of 1989, as amended, to the agency responsible for preparing each draft document. A copy of the Board's preliminary draft Siting Element and Summary Plan comments shall be simultaneously sent to the LTF.

(f) Other Agencies. A copy of the the preliminary draft Siting Element and Summary Plan shall be submitted to all associations of governments and to any Local Enforcement Agency located within the boundaries of the county or regional agency. Within 45 days of receipt of the the preliminary draft Siting Element and Summary Plan, each of those agencies receiving a copy may send written comments to the agency responsible for preparing the preliminary draft document.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (a), (b) and (c), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and subsections (a)–(c), new subsections (d)–(f) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18780. Procedures for the Preparation of the Final Draft Siting Element and Summary Plan.

No later than 105 days after the close of the 45 day review period for the preliminary draft Siting Element and Summary Plan, the agency responsible for preparing each draft document shall respond in writing to each comment received on each preliminary draft, and prepare the final draft Siting Element and Summary Plan.

(a) A copy of the final draft countywide Siting Element and Summary Plan, including a copy of the written responses to comments received, shall be sent to the LTF, each incorporated city in the county, each Local Enforcement Agency (LEA) in the county, applicable associations of governments, and any regional agencies in the county.

(b) A copy of the final draft regionwide Siting Element and Summary Plan, including a copy of the written responses to comments received, shall be sent to each member agency of the regional agency formed pursuant to section 18776(b)(3) of this chapter, each LTF and LEA in the regional agency, and applicable associations of governments.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40900, 40950, 41700, 41701, 41703, 41704, 41710, 41750 and 41751, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading and first paragraph, new subsections (a)–(b) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18781. Local Task Force Review Process.

(a) Within 45 days of receipt of the final draft Siting Element and Summary Plan, the LTF shall provide written comments to the following:

(1) the county or regional agency responsible for the preparation of the final draft Siting Element and Summary Plan;

(2) each incorporated city within the county or each member agency within the regional agency;

(3) each regional agency within the county; and

(4) the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40950 and 41751, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (a) and (b), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading, repealer of subsections (a)–(c), new subsections (a)–(a)(4) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18782. Notice Requirements for Public Hearings.

(a) At least 30 days in advance of the scheduled public hearing to take comments on the preliminary draft Siting Element and Summary Plan as specified in CCR section 18778 of this article, the county shall publish a notice of the public hearing in a local newspaper of general circulation.

(b) At least 30 days in advance of the scheduled public hearing for the purposes of adopting the final draft Siting Element and Summary Plan, as specified in CCR section 18783 of this article, each incorporated city within the county and the county or designee shall publish a notice of the public hearing in a local newspaper of general circulation.

(c) At least 30 days in advance of the scheduled public hearing to take comments on the preliminary draft Siting Element and Summary Plan, as specified in CCR section 18778 of this article, the regional agency formed pursuant to section 18776(b)(3) of this article shall publish a notice of the public hearing in a local newspaper of general circulation.

(d) At least 30 days in advance of the scheduled public hearing for the purpose of adopting the final draft Siting Element and Summary Plan, as specified in CCR section 18783 of this article, each member agency within the regional agency and the regional agency shall publish a notice of the public hearing in a local newspaper of general circulation.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41793, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.

6. Certificate of Compliance as to 2–15–91 order, including amendment of first paragraph, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading, designation and amendment of subsection (a), new subsections (b)–(c) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18783. Local Adoption of the Final Draft Siting Element and Summary Plan, and the Countywide and Regional Agency Integrated Waste Management Plans.

(a) Local adoption of the CIWMP will occur when the final draft Siting Element and Summary Plan are adopted by the county and the cities within the county as described in Public Resources Code section 41721 and 41760. A final draft Siting Element and Summary Plan submitted for local adoption shall be accompanied by environmental documentation verifying compliance with the California Environmental Quality Act (CEQA), pursuant to Public Resources Code sections 21000 et seq.

(1) Each incorporated city in the county, and the county, shall conduct a public hearing for the purpose of adopting the final draft Siting Element and Summary Plan. After considering all public comments, the county and each city within the county shall, by resolution, either approve or disapprove the final draft Siting Element and Summary Plan. Failure by a city to take action on the Siting Element or Summary Plan shall be deemed an approval of the Siting Plan or Summary Plan by that city.

(2) If the final draft Siting Element and Summary Plan are not approved by the county and the cities within the county, pursuant to PRC sections 41721 and 41760, then the county shall revise the deficient areas within 90 days of the close of the local jurisdiction review period specified in PRC section 41721 and recirculate them for local approval, pursuant to sections 18780 through 18785 of this article. These revised documents shall be approved as described in Public Resources Code sections 41721 and 41760.

(b) Local adoption of the RAIWMP for a regional agency preparing documents pursuant to section 18776(b)(3)(A) and (5) of this article will occur when the final draft Siting Element and Summary Plan from each county that makes up the regional agency have been adopted by the county and cities within the county. These revised documents shall be approved as described in Public Resources Code sections 41721 and 41760. A final draft Siting Element and Summary Plan shall be accompanied by environmental documentation verifying compliance with CEQA, pursuant to Public Resources Code sections 21000 et seq.

(1) Each incorporated city in the county, and each county, shall conduct a public hearing for the purpose of adopting the final draft Siting Element and Summary Plan. After considering all public comments, each county and each city within the county shall, by resolution, either approve or disapprove the final draft Siting Element and Summary Plan.

(2) If the final draft Siting Element and Summary Plan are not approved by each county and the cities within each county as described in Public Resources Code sections 41721 and 41760, then the county responsible for preparing the final draft Siting Element and Summary Plan shall revise the deficient areas within 90 days of the close of the local jurisdiction review period specified in PRC section 41721 and recirculate them for local approval, pursuant to sections 18780 through 18785 of this article.

(c) Local adoption of the RAIWMP for a regional agency preparing documents pursuant to section 18776(b)(3)(B) of this article will occur when the final draft Siting Element and Summary Plan have been approved by the regional agency and by a majority of the member agencies within the regional agency except in those regional agencies which have only two member agencies, in which case the Siting Element and Summary Plan are subject to approval of the member agency which contains a majority of the population of the member agencies of the county. Each member agency shall act upon the Siting Element and the Summary Plan within 90 days after receipt of the documents. If a member agency fails to act upon the Siting Element and Summary Plan within 90 days after receipt of the element and plan, the member agency shall be deemed to have approved the Siting Element and Summary Plan as submitted. A final draft Siting Element and Summary Plan submitted for local adoption shall be accompanied by environmental documentation verifying compliance with CEQA, pursuant to Public Resources Code sections 21000 et seq.

(1) Each member agency, and the regional agency, shall conduct a public hearing for the purpose of adopting the final draft Siting Element and Summary Plan. After considering all public comments, the regional agency and each member agency within the regional agency shall, by resolution, either approve or disapprove the final draft Siting Element and Summary Plan.

(2) If the final draft Siting Element and Summary Plan are not approved as provided in subsection (c) of this section, then the regional agency responsible for preparing the final draft Siting Element and Summary Plan shall revise the deficient areas within 90 days of the close of the local jurisdiction review period specified in PRC section 41721 and recirculate them for local approval, pursuant to sections 18780 through 18785 of this article. These revised documents shall be approved as described in subsection (c) above.

(d) Local approval of the RAIWMP for a regional agency formed pursuant to section 18776(b)(4) of this article will occur when the final draft Siting Element and Summary Plan for each county where the regional agency exists have been adopted by the cities and each county. The final draft Siting Element and Summary Plan shall be approved as described in Public Resources Code sections 41721 and 41760. A final draft Siting Element and Summary Plan submitted for local adoption shall be accompanied by environmental documentation verifying compliance with CEQA, pursuant to Public Resources Code sections 21000 et seq.

(1) Each incorporated city in each county, and each county, shall conduct a public hearing for the purpose of adopting the final draft Siting Element and Summary Plan. After considering all public comments, each county and city within each county shall, by resolution, either approve or disapprove the final draft Siting Element and Summary Plan.

(2) If the final draft Siting Element and Summary Plan are not approved by each county and cities within each county, then each county shall revise the deficient areas within 90 days of the close of the local jurisdiction review period specified in PRC section 41721 of this article and recirculate them for local approval, pursuant to sections 18780 through 18785 of this article. These documents shall be approved as described in Public Resources Code section 41721 and 41760. These revised documents shall be approved as described in this subsection (d) above.

(e) If a jurisdiction or member agency disapproves the Siting Element or the Summary Plan, the jurisdiction or member agency shall give written notification to the LTF, the County Board of Supervisors and the Board of the deficient areas in the Siting Element or the Summary Plan within 30 days of disapproval.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40950, 40971, 41000, 41720, 41721, 41751 and 41760, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (a), (b) and (c), transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).

7. Change without regulatory effect amending subsection (c) and reference cites filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 37).
8. Amendment of section heading and subsection (a), new subsections (a)(1)–(2), repealer of subsections (b)–(b)(1) and new subsections (b)–(b)(2), repealer and new subsection (c), redesignation and amendment of subsection (c)(1) to subsection (e), new subsections (c)(1)–(d)(2) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18784. Submittal of Countywide and Regional Agency Integrated Waste Management Plan to the Board for Approval.

(a) Within 30 days of the local adoption of the CIWMP, as provided in section 18783 of this article, the county shall submit, unless any of these documents have been submitted pursuant to the requirements of this chapter, three hardcopies, or two hardcopies and two magnetically coded disks in a format approved by Board staff, of the following to the Board:

(1) for a county with no regional agency within its boundaries, a CIWMP consisting of the Source Reduction and Recycling Elements (SRRE's), Household Hazardous Waste Elements (HHWE's), and Nondisposal Facility Elements (NDFE's) for the county and each city within the county, and the Siting Element and Summary Plan.

(2) for a county which contains one or more regional agencies the CIWMP shall include:

(A) a SRRE, HHWE, and NDFE for each city that is not a member agency of the regional agency and for the county if it is not a member agency of the regional agency;

(B) a SRRE, HHWE, and NDFE for each city that is a member agency of the regional agency and for the county if it is a member agency of the regional agency, or the SRRE, HHWE, and NDFE for the regional agency, if the regional agency has elected to prepare one or more of these documents as a regional agency;

(C) a countywide Siting Element and Summary Plan.

(3) a copy of the agreement forming a regional agency pursuant to Public Resources Code section 40975;

(4) a copy of each jurisdiction's resolution adopting its SRRE, HHWE, and NDFE, and approving or disapproving the Siting Element and Summary Plan;

(5) a copy of the public notices for each jurisdiction's public hearings on the SRRE, HHWE, NDFE, Siting Element and Summary Plan;

(6) a copy of the Notice of Determination, for the project's CEQA document(s), which has been filed with the State Clearinghouse in the Office of Planning and Research;

(7) a tabulation showing that the Siting Element and Summary Plan were approved by the county and the cities within the county in accordance with sections 41721 and 41760 of the Public Resources Code.

(b) Within 30 days of the local adoption of the RAIWMP, as provided in section 18783 of this article, the regional agency shall submit, unless these documents have already been submitted pursuant to the requirements of this chapter, three hardcopies, or two hardcopies and two magnetically coded disks in a format approved by Board staff, of the following to the Board:

(1) for a regional agency composed of two or more counties and all of the cities within those counties, the RAIWMP shall include either:

(A) a SRRE, HHWE, and NDFE for each city and county which are member agencies of the regional agency and the Siting Element and Summary Plan for each county; or

(B) a SRRE, HHWE, NDFE, Siting Element, and Summary Plan for the regional agency.

(2) for a regional agency composed of more than one county, but which does not encompass all of the cities within those counties, a RAIWMP consisting of a SRRE and HHWE, and a NDFE for the regional agency;

(3) for a regional agency composed of more than one county, and which includes all of the cities and the unincorporated area within at least one of those counties, but not all of the cities within the other county(ies), the RAIWMP shall include a SRRE and HHWE for the regional agency, a NDFE for each city and the county that is a member agency of the regional agency, and a Siting Element and Summary Plan for each county that is wholly encompassed by the regional agency.

(4) a copy of the agreement forming a regional agency pursuant to Public Resources Code section 40975;

(5) a copy of each jurisdiction's resolution adopting its SRRE, HHWE, and approving or disapproving the Siting Element and Summary Plan;

(6) a copy of the public notices for each jurisdiction's public hearing on the applicable preliminary draft and final draft SRRE, HHWE, and Siting Element and Summary Plan;

(7) a copy of the Notice of Determination, for the project's CEQA document(s), which has been filed with the State Clearinghouse in the Office of Planning and Research;

(8) a tabulation showing that the Siting Element and Summary Plan were approved by the county and the cities within the county in accordance with sections 41721 and 47160 of the Public Resources Code or by each member agency of a regional agency in accordance with section 18783(c) of this article.

(c) The Board's 120 day review period for consideration of approval of the Siting Element and the Summary Plan will commence upon determination by the Board that the accompanying documents required in section 18784 of this article have been submitted and are included or referenced by the submitting jurisdiction.

(1) Within 30 days of receipt of the Siting Element and the Summary Plan submitted for approval, the Board shall indicate to the submitting jurisdiction whether all requirements in section 18784 of this article have been fulfilled. If the jurisdiction is notified that the required documents have not been submitted, the jurisdiction shall submit the remaining document(s) within 30 days of notification.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40975, 41720, 41721, 41760, 41790, 41791 and 41793, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsections (a)(1), (a)(2), (a)(3), (a)(5) and section heading transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect amending subsection (a) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and subsection (a), repealer of subsection (a)(1) and new subsections (a)(1)–(3), redesignation and amendment of subsections (a)(2)–(5) to subsections (a)(4)–(7), new subsections (b)–(c)(1) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18785. Board Approval of Countywide and Regional Agency Integrated Waste Management Plan.

(a) Following submittal of a locally adopted CIWMP or RAIWMP to the Board, the Board shall have at least 90 days, but not more than 120 days, with a median of 105 days, to review and act upon the CIWMP or RAIWMP. The Board, at a public hearing, shall determine whether the CIWMP or RAIWMP meets the requirements of the California Integrated Waste Management Act of 1989 as amended. After considering public testimony, input from the LTF, and written comments, the Board shall approve, conditionally approve, or disapprove the CIWMP or RAIWMP. The Board shall either adopt a resolution approving or condi-

tionally approving the CIWMP or RAIWMP, or issue a Notice identifying deficiencies in the CIWMP or RAIWMP.

(b) Within 30 days of approval, conditional approval, or disapproval of a CIWMP or RAIWP, the Board will send a copy of the resolution of approval or conditional approval, or a Notice identifying the deficiencies to the jurisdiction(s) responsible for preparation of the CIWMP or RAIWMP and any Element containing deficiencies.

(1) In a Notice of Deficiency, the Board shall identify the deficient areas in a CIWMP or RAIWMP and provide a written analysis of why these areas are deficient and provide recommendations to correct deficient areas.

NOTE: Authority cited: Section 40502, Public Resources Code; and Section 15736, Government Code. Reference: Sections 41790, 41800, 41801 and 41810, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a), new subsection (b)(1) and new section heading, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading, text and NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18786. Resubmittal of Countywide and Regional Agency Integrated Waste Management Plans or Designated Sections of Countywide and Regional Agency Integrated Waste Management Plans After a Finding of Deficiency.

A county or regional agency shall modify and resubmit the modified sections of the CIWMP or RAIWMP which were identified in the Notice of Deficiency, in accordance with the requirements of Public Resources Code sections 41811, 41811.5, and 41812 and with sections 18780 through 18784 of this article. If a county or regional agency is unable to submit a modified CIWMP or RAIWMP within 120 days of receipt of the Notice of Deficiency, then within 45 days of receipt of the Notice of Deficiency, a county or regional agency shall submit a modification schedule and an explanation of the need for extension to the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41790, 41810, 41811, 41812 and 41813, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of section heading, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading, text and NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18787. Annual Review of Progress Towards Solid Waste Disposal Goals.

NOTE: Authority: Section 40502, Public Resources Code. Reference: Sections 40051, 40052, 41701, 41750, 41751, 41760 and 41821, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of subsection (a) and section heading, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Change without regulatory effect repealing subsection (a)(1)(H) and amending (a)(3) filed 7–11–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 12).
8. Amendment of section heading and subsection (a), repealer of subsections (a)(1)–(a)(1)(G) and new subsections (a)(1)–(7), redesignation and amendment of subsections (a)(2)–(3) to subsection (b), repealer of subsection (a)(4) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).
9. Amendment of subsection (a) filed 11–21–95 as an emergency; operative 11–21–95 (Register 95, No. 47). A Certificate of Compliance must be transmitted to OAL by 3–20–96 or emergency language will be repealed by operation of law on the following day.
10. Amendment of subsection (a) refiled 3–15–96 as an emergency; operative 3–20–96 (Register 96, No. 11). A Certificate of Compliance must be transmitted to OAL by 7–18–96 or emergency language will be repealed by operation of law on the following day.
11. Repealer filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
12. Repealer refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
13. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18788. Five–Year Review and Revision of the Countywide or Regional Agency Integrated Waste Management Plan.

(a) CIWMP or RAIWMP Review. Prior to the fifth anniversary of Board approval of a CIWMP or RAIWMP, or its most recent revision, the LTF shall complete a review of the CIWMP or RAIWMP in accordance with Public Resources Code sections 40051, 40052, and 41822, to assure that the county's and regional agency's waste management practices remains consistent with the hierarchy of waste management practices defined in Public Resources Code, section 40051.

(1) Prior to the fifth anniversary of Board approval of the CIWMP or RAIWMP, the LTF shall submit written comments on areas of the CIWMP or RAIWMP which require revision, if any, to the county or regional agency and the Board.

(2) Within 45 days of receiving LTF comments, the county or regional agency shall determine if a revision is necessary, and notify the LTF and the Board of its findings in a CIWMP or RAIWMP Review Report.

(3) When preparing the CIWMP or RAIWMP Review Report the county or regional agency shall address at least the following:

(A) changes in demographics in the county or regional agency;

(B) changes in quantities of waste within the county or regional agency;

(C) changes in funding sources for administration of the Siting Element and Summary Plan;

(D) changes in administrative responsibilities;

(E) programs that were scheduled to be implemented but were not, a statement as to why they were not implemented, the progress of programs that were implemented, a statement as to whether programs are meeting their goals, and if not what contingency measures are being enacted to ensure compliance with Public Resources Code section 41751;

(F) changes in permitted disposal capacity, and quantities of waste disposed of in the county or regional agency;

(G) changes in available markets for recyclable materials; and

(H) changes in the implementation schedule.

(4) Within 90 days of receipt of the CIWMP or RAIWMP Review Report, the Board shall review the county's or regional agency's findings, and at a public hearing, approve or disapprove the county's or regional agency's findings. Within 30 days of its action, the Board shall send a copy of its resolution, approving or disapproving the county's or regional agency's findings, to the LTF and the county or regional agency. If the Board has identified additional areas that require revision, the Board shall identify those areas in its resolution.

(b) CIWMP or RAIWMP Revision. If a revision is necessary the county or regional agency shall submit a CIWMP or RAIWMP revision schedule to the Board.

(1) The county or regional agency shall revise the CIWMP or RAIWMP in the areas noted as deficient in the CIWMP or RAIWMP Review Report and/or as identified by the Board.

(2) The county or regional agency shall revise and resubmit its CIWMP or RAIWMP pursuant to the requirements of sections 18780 through 18784 of this article.

(c) The county shall submit all revisions of its CIWMP to the Board for approval. The revised CIWMP shall be reviewed pursuant to the requirements of sections 18784 through 18786 of this article.

(d) The regional agency shall submit all revisions of its RAIWMP to the Board for approval. The revised RAIWMP shall be reviewed pursuant to the requirements of sections 18784 through 18786 of this article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40051, 40052, 41750, 41760, 41770, and 41822, Public Resources Code.

HISTORY

1. New section filed 3–19–90 as an emergency; operative 3–19–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–17–90.
2. New section refiled 7–6–90 as an emergency; operative 7–17–90 (Register 90, No. 37). A Certificate of Compliance must be transmitted to OAL by 11–14–90 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of Certificate of Compliance due date in HISTORY 2 (Register 91, No. 13).
4. Request for readoption of 7–6–90 emergency regulations approved by OAL 11–6–90 but never filed with Secretary of State. Section repealed by operation of Government Code section 11346.1(e) (Register 91, No. 13).
5. New section refiled 2–15–91 as an emergency; operative 2–15–91 (Register 91, No. 13). A Certificate of Compliance must be transmitted to OAL by 6–17–91 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 2–15–91 order, including amendment of section, renumbering of prior subsection (b) to subsection (a)(3), new subsection (b) and amendment of section heading, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37).
7. Amendment of section heading and subsections (a)–(a)(3)(G), new subsection (a)(3)(H), amendment of subsections (a)(4)–(b)(2), new subsections (c)–(d) and amendment of NOTE filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18789. Board Approval of the Plan Revision.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code; and Section 15376, Government Code. Reference: Sections 41790, 41800, 41801, 41810 and 41822, Public Resources Code.

HISTORY

1. Certificate of Compliance as to 2–19–91 order, including repeal of prior section 18789 and amendment and renumbering of prior section 18790 to section 18789, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37). For prior history, see Register 91, No. 13.
2. Repealer filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18790. Resubmittal of a Deficient Plan Revision.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 41790, 41810, 41811, 41812 and 41813, Public Resources Code.

HISTORY

1. Certificate of Compliance as to 2–15–91 order, including amendment and renumbering of prior section 18791 to section 18790, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37). For prior history, see Register 91, No. 13.
2. Repealer filed 7–22–94; operative 8–22–94 (Register 94, No. 29).

§ 18791. Resubmittal of a Deficient Plan Revision.

NOTE: Authority cited: Sections 40502 and 41824, Public Resources Code. Reference: Sections 41790, 41810, 41811, 41812 and 41813, Public Resources Code.

HISTORY

1. Certificate of Compliance as to 2–15–91 order, including amendment and renumbering of prior section 18791 to section 18790, transmitted to OAL 4–29–91 and filed 5–29–91 (Register 91, No. 37). For prior history, see Register 91, No. 13.

Article 9.0. Annual Report Regulations

§ 18794.0. General Requirements and Due Dates.

(a) Each jurisdiction shall submit an annual report that discusses the progress achieved in implementing the programs and/or facilities described in a jurisdiction's Planning Documents. Planning Documents include the Source Reduction and Recycling Element (SRRE), Household Hazardous Waste Element (HHWE), Nondisposal Facility Element (NDFE), Siting Element (SE), Summary Plan, or Petition for Reduction.

(b) The annual report shall also discuss the progress a jurisdiction has made in achieving the disposal reduction goals required by Public Resources Code (PRC) section 41780.

(c) A jurisdiction includes a City, County, City and County, or Regional Agency, as defined in Section 18801.

(d) The annual report will serve as a basis for determining if any of the Planning Documents need to be revised to reflect new or changed local and regional solid waste management programs, facilities, and other conditions, as well as to determine compliance with the mandated disposal reduction goals.

(e) Jurisdictions shall submit the annual report as follows:

(1) Jurisdictions with Planning Documents approved or conditionally approved prior to January 1, 1996, shall submit their first annual report on these approved documents by August 1, 1996.

(2) Jurisdictions that did not have any Planning Documents approved or conditionally approved prior to January 1, 1996 shall submit their first annual report by August 1 of the year following Board–approval or conditional approval of a Planning Document.

(3) Jurisdictions shall submit subsequent annual reports every August 1 thereafter, that address all of a jurisdiction's Planning Documents that have been approved or conditionally approved by the Board either during, or prior to, the previous calendar year.

(f) Jurisdictions shall submit three copies of the annual report.

(g) If a jurisdiction includes information on disaster wastes in its annual report, "disaster" shall mean a natural catastrophe such as an earthquake, fire, flood, landslide, or volcanic eruption, or, regardless of cause, any explosion, fire, or flood. In order to be considered a disaster, a local emergency or a state of emergency shall have been duly proclaimed.

(h)(1) For the purposes of this Article, "district" means a community service district that provides solid waste handling services or implements source reduction and recycling programs. Commencing on July 1, 2001, a "district" also includes a sanitary district that provides solid waste handling services or implements source reduction and recycling programs.

(2) Each district shall provide the city, county, or regional agency in which it is located, information on the programs implemented by the district and the amount of waste disposed and diverted within the district.

(3) This information shall be supplied to the city, county, or regional agency so that it may be incorporated into the annual report.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40050, 40051, 40052, 40901, 41000, 41300, 41500, 41510, 41700, 41730, 41731, 41750, 41750.1, 41751, 41780, 41801.5, 41821, 41821.2 and 41850, Public Resources Code.

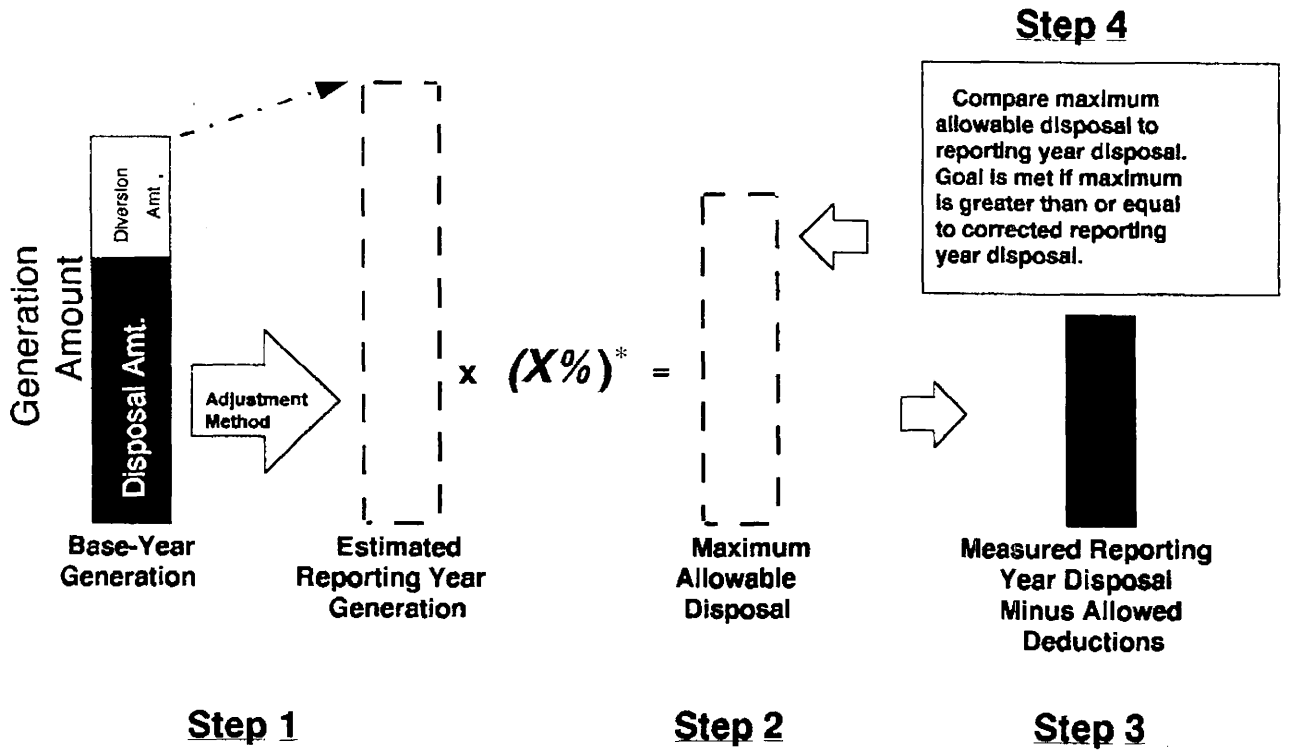
HISTORY

1. New article 9.0 (sections 18794.0–18794.6) and section filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. New article 9.0 (sections 18794.0–18794.6) and section refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 9–25–96 order, including amendment of subsection (g) and NOTE, transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
4. Change without regulatory effect adding subsections (h)(1)–(3) filed 8–25–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 34).
5. Change without regulatory effect amending subsection (h)(1) and amending NOTE filed 6–26–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 26).

§ 18794.1. Goal Achievement Calculations.

(a) A jurisdiction's annual report shall include the calculations described in this Section to measure achievement of the disposal reduction requirements of PRC section 41780. The diagram below shows the sequence of the calculations.

Measuring Goal Achievement



*** Where X% is normally 0.75 for years 1995 to 1999, and 0.50 for year 2000, unless a jurisdiction has a Board–approved disposal reduction goal.**

(b) Step 1. A jurisdiction shall first adjust its Board–approved base–year generation amount, as required in Section 18797.3. This adjustment yields the estimated reporting year generation amount.

(c) Step 2. A jurisdiction shall next calculate its maximum allowable disposal tonnage, as follows:

(1) A jurisdiction without a Board–approved petition for reduction in the goal shall multiply its estimated reporting year generation amount by 0.75 (75%) for the years 1995 through 1999, and by 0.50 (50%) for the year 2000 and beyond.

(2) A jurisdiction with a Board–approved petition for reduction in the goal, except for a jurisdiction that is a region as described in (3) below, shall multiply its estimated reporting year generation amount by the difference between 100% and the reduced goal. For example, if the reduced goal for 1995 is 15%, then the estimated reporting year generation amount would be multiplied by 85% (100% – 15% = 85%).

(3) A region that has at least one member agency that has a Board–approved petition for reduction in the goal, but does not have a reduced goal for the region as a whole, shall calculate its maximum allowable disposal as specified in PRC Section 41787.2.

(d) Step 3. A jurisdiction shall next deduct any tonnages from the reporting year disposal tonnage calculated pursuant to Section 18813 which it is authorized to subtract because:

(1) it meets the criteria in PRC section 41782 for claiming a reduction in its disposal tonnage because of a regional diversion facility, or regional medical waste treatment facility; and/or

(2) it has disposed of additional amounts of solid waste as a result of a disaster.

These deductions yield the corrected reporting year disposal tonnages.

(e) Step 4. A jurisdiction shall then compare its maximum allowable disposal tonnage (from Step 2) to its corrected reporting year disposal tonnage (from Step 3). The goal has been met if the maximum allowable tonnage is greater than or equal to the corrected reporting year disposal tonnage.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41780, 41780.1, 41780.2, 41781, 41782, 41787.2, 41821, 41821.5 and 41850, Public Resources Code.

HISTORY

1. New section filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction of subsections (c), (c)(2) and (e) (Register 96, No. 39).
3. New section refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 9–25–96 order, including amendment of subsections (d)(1) and (d)(2), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
5. Change without regulatory effect amending subsection (c)(1) filed 6–26–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 26).

§ 18794.2. Reporting Requirements for Calculations.

(a) Jurisdictions who were incorporated prior to January 1, 1995 and who submit their first annual report in 1997 or later, shall include their disposal reduction calculations for 1995, in addition to their disposal reduction calculations for the current reporting year.

(b) The information used for calculating the adjustment in Section 18794.1(b) above, shall be included in a jurisdiction's annual report to the Board.

(c) If a jurisdiction is a member of a Regional Agency, then a single combined report of the information shall be made for all the members of the Regional Agency.

(d) The annual report shall include the information listed below for the calculated adjustment:

(1) Name of all jurisdictions included in the report

(2) For the jurisdiction's base–year:

(A) base–year

(B) population factor number and data source used

(C) employment factor number and data source used

(D) uncorrected taxable sales factor number and data source used

(E) consumer price index number and data source used

(F) residential generation tonnage amount

(G) non–residential generation tonnage amount.

(3) For the jurisdiction's reporting–year:

(A) reporting–year

(B) population factor number and data source used

(C) employment factor number and data source used

(D) uncorrected taxable sales factor number and data source used

(E) consumer price index factor number and data source used

(F) a copy of all interim calculations used to reach the adjusted base–year tonnage amount

(G) estimated reporting–year generation as calculated using the equations in Section 18797.3.

(e) In addition to the information required by this Section, a jurisdiction may also submit in its annual report any other information it wishes the Board to consider relating to the base–year waste generation tonnage amounts, adjustment factors, or calculations. The additional information may include a discussion of why the adjustment method as described in Section 18797.3 may not fully represent a jurisdiction's local conditions, and what additional adjustments would be needed.

(f) If a jurisdiction made an adjustment in its reporting year disposal tonnages because of a regional medical waste treatment facility or regional diversion facility located within its borders, it shall provide the Board with documentation demonstrating it meets the criteria specified in PRC section 41782 for making such an adjustment.

(g) If a jurisdiction made an adjustment in its reporting year disposal tonnages because of a disaster, it shall provide the Board with documentation demonstrating that:

(1) the tonnages subtracted resulted from the disaster;

(2) the jurisdiction implemented to the extent feasible, diversion programs to maximize diversion through reuse, recycling, or composting of disaster–related solid waste; and,

(3) the tonnages subtracted are consistent with the additional tonnages reported by the facilities where the solid waste was disposed.

(h) A jurisdiction may also provide additional information related to the tons of waste disposed in California including "host–assigned" waste as described in Sections 18809, 18810, and 18811, or exported from California. The jurisdiction shall describe how this additional information was obtained.

(i) If a jurisdiction's calculations as described in Section 18794.1 above, show its disposal reduction goal has not been met, then a jurisdiction shall discuss in its annual report what possible problems may have prevented it from reaching its goal. Problems may include, but are not limited to:

(1) base–year innaccuracies;

(2) disposal reporting problems;

(3) changes in a jurisdiction's waste stream beyond the jurisdiction's control; or

(4) changes in the overall waste management system that may hinder achievement of the disposal reduction goals.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41780, 41780.1, 41782, 41813, 41821, 41821.5 and 41850, Public Resources Code.

HISTORY

1. New section filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction of subsections (d)(2)(D), (d)(3)(A)–(B), (e) and (h) (Register 96, No. 39).
3. New section refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Editorial correction of subsections (d)(3)(G) and (i) (Register 97, No. 3).
5. Certificate of Compliance as to 9–25–96 order, including amendment of subsections (d)(1), (d)(2), (d)(3) and (i)(1)–(4), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
6. Editorial correction of HISTORY 5 (Register 97, No. 15).

§ 18794.3. SRRE/NDFE and HHWE Implementation.

(a) SRRE/NDFE Annual Report Requirements. Each jurisdiction shall monitor its reduction of solid waste and summarize in the annual report its progress toward achieving the mandated disposal reduction goals identified in PRC section 41780. The information provided will serve as a basis for determining whether a revision of a SRRE is needed. The SRRE/NDFE section of the annual report shall address at least the following:

(1) Implementation status of selected programs;

(2) If any selected programs were not implemented, provide an explanation;

(3) Contingency programs or other measures that have been, or will be, implemented to help achieve the disposal reduction goals;

(4) Changes to selected programs, implementation schedules, or funding sources;

(5) Efforts made to inform the public of selected programs and facilities, and to increase public participation;

(6) Any barriers that may prevent achivement of the disposal reduction goals;

(7) Any changes in the use of nondisposal facilities, both existing or planned;

(8) If a jurisdiction's calculations show its disposal reduction goal has not been met, then a jurisdiction may include an expanded discussion on items 1 through 7 above;

(9) Quantities and types of waste diverted through recycling and composting programs directly funded or operated by the jurisdiction including, but not limited to, contracts or franchises;

(10) If a jurisdiction funds or operates a program through contracts or franchises and the agreement does not contain program monitoring and reporting requirements providing the information required by (9) above, the jurisdiction may include this information at the time of the contract or franchise agreement renewal, or at the jurisdiction's five year revision, whichever comes first;

(11) The adequacy of, or the need to revise, the Solid Waste Generation Study or any other Component of the SRRE; and

(12) If a jurisdiction determines that a revision of the SRRE is necessary, the annual report shall contain a timetable for making the necessary revisions.

(b) HHWE Annual Report Requirements. Each jurisdiction shall summarize in the annual report its progress toward reducing or eliminating household hazardous waste (HHW). The information provided will serve as a basis for determining whether a revision of a HHWE is needed. The HHWE section in the annual report shall address at least the following:

(1) Implementation status of selected programs;

(2) An explanation why any selected programs were not implemented;

(3) An explanation why any programs that were implemented did not achieve expected reduction of HHW disposal;

(4) Contingency programs or measures that have been or will be implemented to increase efforts or effectiveness in achieving reduction or elimination of HHW disposal;

(5) Changes to selected programs, implementation schedules, or funding sources;

(6) Efforts made to inform the public of HHW collection events or facilities;

(7) Any barriers that may prevent the reduction or elimination of HHW disposal;

(8) The adequacy of, or the need to revise, the HHWE; and

(9) If a jurisdiction determines that a revision of the HHWE is necessary, the annual report shall contain a timetable for making the necessary revisions.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40901, 40973, 41000, 41032, 41033, 41300, 41500, 41510, 41780, 41787, 41787.1, 41787.2, 41802 and 41821, Public Resources Code.

HISTORY

1. New section filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction of subsection (a)(10) (Register 96, No. 39).
3. New section refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Editorial correction of subsection (a) (Register 97, No. 3).
5. Certificate of Compliance as to 9–25–96 order, including amendment of subsections (a)(2), (a)(3), (a)(7), (a)(11) and (a)(12), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18794.4. Siting Element and Summary Plan Status.

(a) Each county or regional agency shall include in its annual report a discussion on the status of its Siting Element and Summary Plan. The information provided shall serve as a basis for determining if the Siting Element and/or Summary Plan should be revised.

(b) The Siting Element section in the annual report shall address at least the following:

(1) Any changes in the remaining disposal capacity description provided pursuant to Section 18755.5 since the Siting Element was adopted;

(2) Whether the county or regional agency has maintained, or has a strategy which provides for the maintenance of, 15 years of disposal capacity;

(3) The adequacy of, or the need to revise, the Siting Element; and

(4) If a jurisdiction determines that a revision of the Siting Element is necessary, the annual report shall contain a timetable for making the necessary revisions.

(c) The Summary Plan section in the annual report shall address at least the following:

(1) Any changes in the financing of countywide or regional programs and/or facilities and why these changes occurred;

(2) Whether new cities within the county or regional agency have incorporated since the adoption of the Summary Plan. For each new city, the city's name, date of incorporation, and population at time of incorporation shall be provided; and

(3) If a jurisdiction determines that a revision of the Summary Plan is necessary, the annual report shall contain a timetable for making the necessary revisions.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40051, 40052, 40703, 41701, 41721, 41721.5, 41751, 41770 and 41821, Public Resources Code.

HISTORY

1. New section filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction of subsection (c)(2) (Register 96, No. 39).
3. New section refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 9–25–96 order, including new subsection (b)(1), subsection renumbering, and amendment of subsection (c)(3), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18794.5. Status of Qualifying Conditions for Board–approved Petitions for Reduction.

(a) Jurisdictions with a Board–approved petition for reduction shall address the following in their annual reports:

(1) Whether the jurisdiction still qualifies to petition for the reduction as discussed in Section 18775(a);

(2) Whether the reduction is still needed, based on the Board–approved petition and items addressed in Section 18775(c).

(b) The Board may, upon review of the annual report, find that a revision or revocation of the reduction is necessary. The Board shall present any such findings at a public hearing.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40973, 41787, 41787.1, 41802 and 41821, Public Resources Code.

HISTORY

1. New section filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18794.6. Addressing an Area–of–Concern, or Conditionally Approved Planning Documents.

(a) Reporting Requirements for Areas–of–Concern. Each jurisdiction with a Planning Document for which the Board identified an area–of–concern at the time it was approved or conditionally approved, may address the concern in its annual report. Once the concern has been adequately addressed by the jurisdiction, it no longer needs to be addressed in subsequent annual reports. If a jurisdiction does not adequately address an area of concern in the annual report, the Board may consider it during its biennial review pursuant to PRC section 41825.

(b) Reporting Requirements for Conditional Approvals. Each jurisdiction with a Planning Document that was conditionally approved by the Board shall discuss how it has met the conditions in its annual report. The conditions are listed in the Resolution in which the Board conditionally approved the planning document. The Resolution is attached to the Notification letter sent to a jurisdiction pursuant to PRC section 41810. Once the conditions have been adequately addressed, they no longer need to be addressed in subsequent annual reports.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41801.5, 41802, 41810 and 41821, Public Resources Code.

HISTORY

1. New section filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction of subsection (b) (Register 96, No. 39).
3. New section refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 9–25–96 order, including amendment of subsection (b), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

Article 9.1. Adjustment Method for Calculating Changes in Waste Generation Tonnage

§ 18797.0. Scope and Purpose.

(a) The primary purpose of this Article is to implement section 41780.1(c) of the Public Resources Code.

(b) The adjustment method described in this Article has been selected by the Board as the standard method that shall be used to adjust the base-year generation tonnage amount. The resulting adjusted base-year generation tonnage number is an estimate of the generation tonnage in the reporting-year. This number will be used to calculate a jurisdiction's maximum allowable disposal amount, pursuant to section 18794.1(c).

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. Renumbering of former article 9.3 (sections 18827–18831) to article 9.1 (sections 18797.0–18797.4) and renumbering of former section 18827 to section 18797.0 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Renumbering of former article 9.3 (sections 18827–18831) to article 9.1 (sections 18797.0–18797.4) and renumbering of former section 18827 to section 18797.0 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 9–25–96 order, including amendment of subsection (b), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
4. Amendment filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18797.1. Definitions.

(a) For the purposes of this Article, the following terms have the meanings given below.

(1) "Adjustment Factors" means population, employment, taxable sales, and inflation numbers as used in the adjustment method.

(2) "Adjustment Method" means the method approved by the Board for jurisdictions to use in adjusting their base-year generation tonnage to account for changes in population, employment, taxable sales, and inflation occurring between the base-year and the reporting-year as described in this Article.

(3) "Base-Year Generation" means the combined base-year tonnage amount of disposed and diverted wastes, as approved by the Board pursuant to section 41801 of the Public Resources Code.

(4) "Industry Employment" means employment by place of work.

(5) "Jurisdiction" means a city, unincorporated county, city and county, or regional agency with responsibility for waste management. This definition is in addition to the definition found in section 18720(a)(33).

(6) "Labor Force Employment" means employment by place of residence.

(7) "Non-Residential Solid Waste" means all solid waste other than residential solid waste, including self-haul waste from non-residential sources.

(8) "Region" means an entity formed pursuant to sections 40970 through 40975 of the Public Resources Code. This definition supersedes the definition found in section 18720(a)(57).

(9) "Reporting-Year Generation" means the estimate of a jurisdiction's combined tonnage of disposed and diverted wastes for any calendar year following the base-year. The reporting-year generation estimate is derived by using the adjustment method set forth in this Article to adjust the base-year generation tonnage amount.

(10) "Residential Solid Waste" means all solid waste originating from single-family and multi-family dwellings, including self-haul wastes from residential sources. This definition is in addition to the definition in section 18720(a)(59).

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. Renumbering of former section 18828 to 18797.1 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Renumbering of former section 18828 to section 18797.1 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
4. Repealer of subsections (a)(1)–(8) and new subsections (a)(1)–(10) filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18797.2. Adjustment Factor Sources.

A jurisdiction shall perform the adjustment method using adjustment factor sources as follows:

(a) A jurisdiction shall use the following sources for factor numbers for any given calendar year:

(1) Employment as reported by the California Employment Development Department:

- countywide labor force employment, or
- countywide industry employment, or
- countywide industry employment for the non-residential adjustment factor, and countywide labor force employment for the residential adjustment factor.

(2) Population as reported by the California Department of Finance:

- countywide population, or
- jurisdiction population.

(3) Inflation as represented by the Consumer Price Index reported by the California Department of Industrial Relations:

- statewide Consumer Price Index, or
- metropolitan area Consumer Price Index.

(4) Taxable Sales as reported by the California State Board of Equalization:

- countywide Taxable Sales, or
- jurisdiction Taxable Sales.

(b) Notwithstanding subdivision (a) of this section, if a jurisdiction believes that any of the adjustment factor numbers do not validly represent the jurisdiction's population and/or economy, a jurisdiction may instead perform the adjustment method using one or more countywide or jurisdiction factor numbers from other sources, if the following conditions are met:

(1) A jurisdiction shall select a scientifically reliable, third party source for each of the jurisdiction-supplied adjustment factor numbers used. Possible sources include, but are not limited to, studies by the U.S. Census, State Agencies, Regional Councils of Government, Municipal Chambers of Commerce, accredited Universities or Colleges, or professionally recognized consultants in the field of economics, geography, or demographics. A jurisdiction shall submit a copy of each source document used to the Board at the time of the annual report.

(2) For each factor, the jurisdiction shall use the same source for both the base-year factor number and the reporting-year factor number when performing the calculations. If a base-year factor number for employment is not available, and the factor number for the year following the base-year reflects increased or no employment growth since the base-year, then the factor number for the year following the base-year may be used for the base-year factor number. A jurisdiction shall substantiate increased or no employment growth since the base-year with corroborative data from at least one scientifically reliable, third party source as described in subdivision (b)(1) of this section. A jurisdiction shall submit a copy of each source document used for the corroborative data to the Board at the time of the annual report.

(3) Board approval of the use of alternative sources. In reviewing alternative sources, the Board shall consider any jurisdiction-supplied adjustment factor numbers and sources to determine if they meet the requirements of subdivisions (b)(1) and (b)(2) of this section. If the Board disapproves any adjustment factor numbers and/or sources, a jurisdiction may choose other factor numbers and/or sources for Board consideration.

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. Renumbering of former section 18829 to section 18797.2 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Renumbering of former section 18829 to section 18797.2 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction restoring inadvertently omitted subsection (a)(2) (Register 97, No. 3).
4. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
5. Amendment filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18797.3. Adjustment Method Calculation.

(a) If a jurisdiction is a region, then the tonnage amounts, and adjustment factor number for all cities and unincorporated counties included in the region's regional agreement, shall be summed before calculating the single adjustment for the region's base–year generation.

(b) Before calculating the adjustment, a jurisdiction shall separate the base–year generation tonnage by source into residential and non–residential amounts. If a jurisdiction cannot derive the actual residential and non–residential amounts from its records, the jurisdiction may make a best estimate of how much of their base–year generation is from residential sources and how much is from non–residential sources.

(c) When calculating the values in subdivision (e) of this section, and calculating the adjusted base–year generation tonnage in subdivision (f) of this section, a jurisdiction shall use the values defined below:

RWGB	=	Base–Year Residential Waste Generation in Tons
NRWGB	=	Base–Year Non–Residential Waste Generation in Tons
PR	=	Reporting–Year Population in Persons
PB	=	Base–Year Population in Persons
ER_{LF}	=	Reporting–Year Labor Force Employment in Jobs
ER_{IN}	=	Reporting–Year Industry Employment in Jobs
EB_{LF}	=	Base–Year Labor Force Employment in Jobs
EB_{IN}	=	Base–Year Industry Employment in Jobs
TR	=	Reporting–Year Taxable Sales in Dollars
TB	=	Base–Year Taxable Sales in Dollars
CPIR	=	Reporting–Year Consumer Price Index
CPIB	=	Base–Year Consumer Price Index

For example, in the hypothetical jurisdiction of "Surfcity":

RWGB	=	15,000 tons
NRWGB	=	20,000 tons
PR	=	12,000 persons
PB	=	10,000 persons
ER_{LF}	=	6,000 jobs
EB_{LF}	=	5,500 jobs
TR	=	3,100,000 dollars
TB	=	3,000,000 dollars
CPIR	=	154.0
CPIB	=	130.7

(d) Before calculating values other than those described in section 18797.2(b) for the equations in subdivision (e) of this section, a jurisdiction shall select one of three countywide employment factor number sets:

(1) Labor force employment for calculating the non–residential adjustment factor and the residential adjustment factor; or

(2) Industry employment for calculating the non–residential adjustment factor and the residential adjustment factor, or

(3) Industry employment for calculating the non–residential adjustment factor and labor force employment for calculating the residential adjustment factor.

(e) Before performing the adjustment calculation, a jurisdiction shall calculate values for the four equations below:

(1) IM = Inflation Multiplier:

$$IM = \frac{CPI_B}{CPI_R}$$

Example:

$$IM = \frac{130.7}{154.0}$$

$$= 0.8487$$

(2) CT_R = Corrected Reporting–Year Taxable Sales in Dollars:

$$CT_R = TR \times IM$$

Example:

$$CT_R = 3{,}100{,}000 \times 0.8487$$
$$= 2{,}630{,}970$$

(3) NRAF = Non–Residential Adjustment Factor:

$$NRAF = \frac{(ER / EB) + (CT_R / TB)}{2}$$

Example 3a: Use Labor Force Employment in NRAF

$$NRAF_{LF} = \frac{(6{,}000/5{,}500) + (2{,}630{,}970/3{,}000{,}000)}{2}$$

$$= 0.984$$

Example 3b: Use Industry Employment in NRAF

$$NRAF_{IN} = \frac{(4{,}500/3{,}950) + (2{,}630{,}970/3{,}000{,}000)}{2}$$

$$= 1.008$$

(4) RAF = Residential Adjustment Factor:

$$RAF = \frac{(PR / PB) + NRAF}{2}$$

Example 4a: Use $NRAF_{LF}$

$$RAF_{LF} = \frac{(12{,}000/10{,}000) + 0.984}{2}$$

$$= 1.092$$

Example 4b: Use $NRAF_{IN}$

$$RAF_{IN} = \frac{(12{,}000/10{,}000) + 1.008}{2}$$

$$= 1.104$$

(f) Using the variables defined in subdivisions (c) and (e) of this section, a jurisdiction shall calculate the adjusted base–year generation tonnage using the equation below:

ERYG = Estimated Reporting–Year Generation:
$(RWG_B \times RAF) + (NRWG_B \times NRAF)$

Example 1: Use RAF_{LF} and $NRAF_{LF}$

$$ERYG = (RWG_B \times RAF_{LF}) + (NRWG_B \times NRAF_{LF})$$
$$= (15{,}000 \times 1.092) + (20{,}000 \times 0.984)$$
$$= 36{,}060 \text{ tons}$$

Example 2: Use RAF_{IN} and $NRAF_{IN}$

$$ERYG = (RWG_B \times RAF_{IN}) + (NRWG_B \times NRAF_{IN})$$
$$= (15{,}000 \times 1.104) + (20{,}000 \times 1.008)$$
$$= 36{,}720 \text{ tons}$$

Example 3: Use RAF_{LF} and $NRAF_{IN}$
ERYG = $(RWG_B \times RAF_{LF}) + (NRWG_B \times NRAF_{IN})$
= (15,000 x 1.092) + (20.000 x 1.008)
= 36,540 tons

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. Renumbering of former section 18830 to section 18797.3 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Renumbering of former section 18830 to section 18797.3 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of subsection (a) (Register 97, No. 3).
4. Certificate of Compliance as to 9–25–96 order, including amendment of subsections (d)(1)–(e), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
5. Amendment filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18797.4. Reporting Requirements.

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. Renumbering and repealer of subsections (b)–(d) of former section 18831 to section 18797.4 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
2. Renumbering and repealer of subsections (b)–(d) of former section 18831, including repealer of subsection (a) designator, to section 18797.4 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 9–25–96 order, including repealer of section, transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

Article 9.2. Disposal Reporting System

§ 18800. Scope and Purpose.

(a) This Article implements sections 41821.5 and 41821.2 of the Public Resources Code.

(b) Each jurisdiction in California must adopt a Source Reduction and Recycling Element showing how it will meet the diversion goals in section 41780 of the Public Resources Code. Diversion goal achievement is one of the factors that the Board will consider in its biennial review of Source Reduction and Recycling Element implementation pursuant to section 41825 of the Public Resources Code. To determine if it has met the goals, a jurisdiction will need to calculate how much solid waste it has disposed. The Disposal Reporting System in this Article shall be used to estimate the amount of disposal from each jurisdiction. The amount of disposal shall be compared to the maximum disposal tonnages calculated in section 18794.1 of Article 9.0.

(c) Nothing in this Article shall prevent an agency, district, or a jurisdiction from requiring haulers or operators to supply additional disposal information based upon their own authority to impose requirements on haulers or operators.

(d) Sections 18802, 18803, 18805, 18806, and 18807 of this Article are repealed. The content of the repealed sections has been modified and reorganized to provide information by type of entity in individual sections as follows:

(1) Hauler: Section 18808.

(A) Section 18808.4: Hauler Records: Retention, Access, and Investigations

(B) Section 18808.5: Identifying Jurisdiction of Origin

(C) Section 18808.6: Frequency of Origin Surveys

(D) Section 18808.8: Applicability of Alternative Reporting Systems

(E) Section 18808.10: Export Reporting Due Dates for a Public Contract Hauler

(2) Station: Section 18809.

(A) Section 18809.4: Station Records: Retention, Access, and Investigations

(B) Section 18809.5: Identifying Jurisdiction of Origin

(C) Section 18809.6: Frequency of Origin Surveys

(D) Section 18809.8: Applicability of Alternative Reporting Systems

(E) Section 18809.10: Disposal Reporting Due Dates for a Station

(3) Landfill: Section 18810.

(A) Section 18810.4: Landfill Records: Retention, Access, and Investigations

(B) Section 18810.5: Identifying Jurisdiction of Origin

(C) Section 18810.6: Frequency of Origin Surveys

(D) Section 18810.8: Applicability of Alternative Reporting Systems

(E) Section 18810.10: Disposal Reporting Due Dates for a Landfill

(4) Transformation Facility: Section 18811.

(A) Section 18811.4: Transformation Facility Records: Retention, Access, and Investigations

(B) Section 18811.5: Identifying Jurisdiction of Origin

(C) Section 18811.6: Frequency of Origin Surveys

(D) Section 18811.8: Applicability of Alternative Reporting Systems

(E) Section 18811.10: Disposal Reporting Due Dates for a Transformation Facility

(5) Agency: Section 18812.

(A) Section 18812.4: Agency Records: Retention, Access, and Investigations

(B) Section 18812.5: Identifying Jurisdiction of Origin

(C) Section 18812.6: Frequency of Origin Surveys

(D) Section 18812.8: Applicability of Alternative Reporting Systems

(E) Section 18812.10: Disposal Reporting Due Dates for an Agency

(6) Jurisdiction: Section 18813.

(A) Section 18813.4: Jurisdiction Records: Retention, Access, and Investigations

(B) Section 18813.5: Identifying Jurisdiction of Origin

(C) Section 18813.6: Frequency of Origin Surveys

(D) Section 18813.8: Applicability of Alternative Reporting Systems

(E) Section 18813.10: Disposal Reporting Due Date Information

(7) District: Section 18814.

(A) Section 18814.4: District Records: Retention, Access, and Investigations

(B) Section 18814.5: Identifying Jurisdiction of Origin

(C) Section 18814.6: Frequency of Origin Surveys

(D) Section 18814.8: Applicability of Alternative Reporting Systems

(E) Section 18814.10: Disposal Reporting Due Dates for a District

(e) Sections 18809.2(b), 18809.6(b), 18810.2(b), 18810.6(b), and 18811.6(b) of this Article contain provisions for facilities located in rural cities and counties. Rural cities and counties are defined in sections 40183 and 40184 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New Article 9.0 (sections 18800–18813) and section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. Renumbering of former article 9.0 (sections 18800–18813) to article 9.2 (sections 18800–18813) and amendment of subsection (b) filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of subsection (b) (Register 96, No. 39).
4. Renumbering of former article 9.0 (sections 18800–18813) to article 9.2 (sections 18800–18813 and amendment of subsection (b) refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
6. Change without regulatory effect amending subsection (a) and adding subsection (d) filed 8–25–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 34).
7. Change without regulatory effect amending subsection (d) and amending NOTE filed 6–26–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 26).

8. Amendment filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18801. Definitions.

(a) For the purposes of this Article, the following terms have the meanings given below.

(1) "Agency" means the local agency responsible for compiling the disposal information from haulers and operators. The county is the agency, unless a region is given the responsibility as part of a regional agreement.

(2) "Airspace utilization factor" (AUF) (tons of waste per cubic yard of landfill airspace) means the effective density of waste material in the landfill. The AUF is recorded as the total weight of waste material passing over the landfill scales that is placed in a known volume of landfill airspace in a given time period. The waste portion of the AUF should include only waste material for which payment of fees to the Board is reported.

(3) "Alternative daily cover" has the same meaning as in section 20690 of Title 27 of the California Code of Regulations.

(4) "Alternative intermediate cover" has the same meaning as in section 20700 of Title 27 of the California Code of Regulations.

(5) "Beneficial reuse" has the same meaning as in section 20686 of Title 27 of the California Code of Regulations.

(6) "Board" means the California Integrated Waste Management Board.

(7) "Construction and Demolition (C&D) Debris" has the same meaning as in section 17381(e) of Title 14 of the California Code of Regulations.

(8) "Designated waste" has the same meaning as defined in section 13173 of the California Water Code.

(9) "Disaster waste" has the same meaning as "disaster debris" in section 17210.1(d) in Title 14 of the California Code of Regulations.

(10) "Dispatcher" means a person who sends a public contract hauler on a specific route or to specific locations to collect solid waste for delivery to a solid waste facility. A "dispatcher" keeps records on the locations to which haulers are sent to collect and deliver waste.

(11) "District" means a community service district established in accordance with Government Code section 61000 et seq., that provides solid waste handling services or implements source reduction and recycling programs. "District" also includes a sanitary district or a public utility district that provides solid waste handling services or implements source reduction and recycling programs.

(12) "Export from California" means export outside the boundaries of the State of California or to Indian country within the boundaries of the State of California, as defined in section 1151 of Title 18 of the United States Code.

(13) "Facility" means a permitted solid waste facility, as defined in section 18720(a)(51) of the California Code of Regulations. "Facility" includes, but is not limited to transfer stations, landfills, and transformation facilities.

(14) "Gatehouse attendant" means a person who processes deliveries from haulers transporting solid waste to a facility and who may be responsible for obtaining jurisdiction of origin information.

(15) "Hauler" means a person who collects solid waste from a solid waste generator, or collects his or her own waste, and transports the waste to a solid waste facility. "Hauler" includes a public contract hauler. "Hauler" does not include a person who transports solid waste from a station to another facility.

(16) "Host jurisdiction" means a jurisdiction in which a permitted solid waste facility is located.

(17) "Import from outside California" means import of waste from outside the boundaries of the State of California or from Indian country within the boundaries of the State of California, as defined in section 1151 of Title 18 of the United States Code.

(18) "In–place waste density" (pounds of waste per cubic yard of waste) means the estimated or measured density of in–place waste material achieved by mechanical or other means in the development of the current lift of the current operating waste cell.

(19) "Inert debris" has the same meaning as in section 17381(k) of Title 14 of the California Code of Regulations.

(20) "Jurisdiction" means a city, county, city and county, or regional agency with responsibility for waste management. This definition is in addition to the definition found in section 18720(a)(33).

(21) "Load" means the solid waste delivered to a solid waste facility in a single vehicle at one time.

(22) "Operator" means a person who operates a permitted solid waste facility.

(23) "Origin survey" or "survey" means a method for determining the jurisdiction(s) of origin for solid waste delivered to a facility.

(24) "Public contract hauler" means a person who charges for or is paid for collecting solid waste from a solid waste generator and transporting the waste to a solid waste facility. A person involved in a solid waste enterprise or solid waste handling services as defined in sections 49504 and 49505 of the Public Resources Code respectively, and a person who is a franchise hauler meet the definition of a public contract hauler. A "public contract hauler" may collect solid waste from residential, commercial, industrial, or other generators.

(25) "Quarter" means one of the following four three–month periods in a calendar year: The first quarter begins January 1 and ends March 31. The second quarter begins April 1 and ends June 30. The third quarter begins July 1 and ends September 30. The fourth quarter begins October 1 and ends December 31.

(26) "Region" means an entity formed pursuant to sections 40970 through 40975 of the Public Resources Code. This definition supersedes the definition found in section 18720(a)(57) of the California Code of Regulations for the purposes of this Article.

(27) "Soil" includes clean or contaminated soil.

(A) "Clean (or noncontaminated) soil" means soil that does not contain other materials, or is below designated concentrations of contamination for other materials as allowed pursuant to section 13173 of the California Water Code.

(B) "Contaminated soil" means soil that:

(i) contains designated or nonhazardous concentrations, as set forth in Title 23, Chapter 15, Article 1, section 2510 et seq. of the California Code of Regulations, of petroleum hydrocarbons, such as gasoline and its components (benzene, toluene, xylene, and ethylbenzene), diesel and its components (benzene), virgin oil, motor oil, or aviation fuel, and lead as an associated metal; and

(ii) has been determined pursuant to section 13263(a) of the Water Code to be a waste that requires regulation by the Regional Water Quality Control Board or Local Oversight Agency.

(28) "Solid waste" or "waste" has the same meaning as defined in section 40191 of the Public Resources Code.

(29) "Station" means a permitted solid waste facility utilized to receive solid wastes, temporarily store, separate, convert, or otherwise process the materials in the solid wastes, or to transfer the solid wastes directly from smaller to larger vehicles for transport. "Station" includes permitted transfer or processing stations or facilities, and permitted materials recovery facilities. "Station" does not include permitted transformation facilities or landfills.

(30) "Track" means to collect origin information and determine tonnage for loads of waste delivered to a facility and to maintain a record of the origin and tonnage information. Data tracked during a quarter is used to compile quarterly reports.

(31) "Waste–to–cover ratio" (estimated) (volume:volume) means the unit–less expression of the proportion of the volumes of waste and cover that comprise a volume of compacted fill material, e.g. 4:1. The cover portion of the waste–to–cover ratio estimate should include only soil or approved daily or intermediate alternative cover that is not considered a waste material, i.e., payment of fees to the Board is not required. The waste portion of the waste–to–cover ratio estimate should include only waste material for which payment of fees to the Board is reported.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. Amendment of subsection (a)(2) filed 6–19–95; operative 6–19–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 25).
3. Change without regulatory effect adding subsection (a)(4) and renumbering subsections filed 8–25–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 34).
4. Change without regulatory effect amending subsection (a)(1) and amending NOTE filed 6–26–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 26).
5. Amendment filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18801.1. Use of Soil for Alternative Daily Cover, Alternative Intermediate Cover, or Beneficial Reuse.

(a) Alternative daily cover does not include the use of clean or contaminated soil segregated prior to receipt by a landfill; however, loads of materials used for alternative daily cover may include small amounts of soil (such as found in construction and demolition waste loads). For the purpose of this Article, amounts of alternative daily cover shall be reported separately from amounts of alternative intermediate cover and from amounts of other beneficial on–site reuse.

(b) Alternative intermediate cover does not include the use of clean or contaminated soil segregated prior to receipt by a landfill; however, loads of materials used for alternative intermediate cover may include small amounts of soil (such as found in construction and demolition waste loads). For the purpose of this Article, amounts of alternative intermediate cover shall be reported separately from amounts of alternative daily cover and from amounts of other beneficial on–site reuse.

(c) Beneficial reuse does not include the use of clean or contaminated soil segregated prior to receipt by a landfill; however, loads of materials reused beneficially may include small amounts of soil (such as found in construction and demolition waste loads). For the purpose of this Article, amounts of other beneficial reuse shall be reported separately from amounts of alternative daily cover and from amounts of alternative intermediate cover.

(d) For the purposes of this Division, clean soil and contaminated soil used as cover or for other beneficial reuse do not count as disposal or diversion.

2. Repealer filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18803. Applicability and Alternative Reporting Systems.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. Amendment of subsection (c)(2) filed 6–19–95; operative 6–19–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 25).
3. Repealer filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18804. Non–Compliance.

(a) This section outlines the Board's process for handling allegations of non–compliance:

(1) If an agency receives written information on specific allegations of non–compliance pursuant to sections 18808.11(a) and (b), 18809.11(a) and (b), 18810.11(a) and (b), 18811.11(a) and (b), 18812.11(a), 18813.11(a) and (b), and 18814.11(a) and (b), it shall forward this information to the Board. The agency shall send this information in writing, with any additional information it has regarding specific allegations of non–compliance, no later than 60 working days after receiving the information.

(2) If an agency has its own specific allegations of hauler or operator non–compliance, the agency shall forward the information, in writing, to the Board pursuant to section 18812.11(c).

(3) A hauler, operator, jurisdiction, or district may forward information on specific allegations of agency non–compliance in writing to the Board as set forth in sections 18808.11(c), 18809.11(c), 18810.11(c), 18811.11(c), 18813.11(c), and 18814.11(c).

(4) Board staff shall work with affected parties to investigate and attempt to resolve allegations of non–compliance, including allowing the entity accused of non–compliance a reasonable opportunity to provide relevant information regarding the allegations. If Board staff substantiates the allegations and cannot resolve them, then the Board shall make a determination on the allegations of non–compliance at a public meeting. Based on a finding of non–compliance, the Board may take one or more of the following actions:

(A) notify the affected jurisdictions of the Board's finding of non–compliance,

(B) publish the name of the hauler or operator and the finding of non–compliance for a three–year period, using electronic or print media, or

(C) other actions as the Board deems necessary.

(5) If the Board, based on its own investigation, determines that a hauler, operator, jurisdiction, agency, or district is not complying with the requirements of this Article, the Board may take one of the following actions:

(A) notify the affected jurisdictions of the Board's finding of non–compliance,

(B) publish the name of the hauler or operator and the finding of non–compliance for a three–year period, using electronic or print media, or

(C) other actions as the Board deems necessary.

(6) If an agency, a public contract hauler, or an operator that is a jurisdiction fails to comply with this Article, and that failure prevents the Board from accurately determining the agency's or jurisdiction's level of Source Reduction and Recycling Element implementation, the Board may initiate the process to issue a compliance order as set forth in section 41825 of the Public Resources Code.

(b) Nothing in this Article shall prevent an agency, district, or jurisdiction from enacting ordinances or other measures to ensure that operators and haulers comply with the requirements of this Article.

2. Change without regulatory effect adding subsection (e) filed 8–25–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 34).
3. Repealer filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808. Disposal Reporting Requirements for a Hauler.

(a) Sections 18808.1 through 18808.11 establish the requirements for a hauler as follows:

(1) Signage for a Hauler	Section 18808.1
(2) Scales and Weighing Requirements for a Hauler	Section 18808.2
(3) Training Requirements for a Public Contract Hauler	Section 18808.3
(4) Hauler Records: Retention, Access, and Investigations	Section 18808.4
(5) Identifying Jurisdiction of Origin	Section 18808.5
(6) Frequency of Origin Surveys	Section 18808.6
(7) Determining Origin of Waste for a Hauler	Section 18808.7
(8) Applicability of Alternative Reporting Systems	Section 18808.8
(9) Public Contract Hauler Export Reports: Content, Timing, and Distribution	Section 18808.9
(10) Export Reporting Due Dates for a Public Contract Hauler	Section 18808.10
(11) Non–compliance	Section 18808.11

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. Amendment of subsection (b) and NOTE filed 11–5–97; operative 11–5–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 45).
3. Repealer and new section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.1. Signage for a Hauler. (Not applicable)

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.2. Scales and Weighing Requirements for a Hauler. (Not applicable)

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.3. Training Requirements for a Public Contract Hauler.

(a) A public contract hauler shall provide training on the disposal reporting system to each vehicle driver, dispatcher, and disposal report preparer and to other employees who must comply with the requirements of this Article. Training for a vehicle driver, dispatcher, and report preparer shall cover the content of this Article as it applies to the employees' job duties.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.4. Hauler Records: Retention, Access, and Investigations.

(a) A hauler shall prepare disposal reporting records and shall:

(1) Include all information, methods, and calculations required by this Article.

(2) Keep quarterly documentation that verifies jurisdiction of origin allocations reported to facilities and agencies pursuant to sections 18808.7 and 18808.9(a), respectively.

(3) Use a reasonable method to gather the information, such as locally required or facility specific reporting forms, electronic systems, or the optional paper or electronic reporting forms developed by the Board.

(4) Maintain all records for three years in a usable format, such as on electronic media (computer files) or paper copies.

(5) Allow representatives of involved jurisdictions, the agency, operators, districts, and the Board to inspect the records during normal business hours in a single location within California. Operators shall only be allowed to inspect records relating to their own operations. A hauler is not required to provide records of a jurisdiction's disposal information for reporting years for which the Board has already completed the biennial review cycle for the applicable jurisdiction pursuant to section 41825 of the Public Resources Code.

(A) Upon a request to review records, the hauler shall make the records promptly available for inspection. The hauler shall respond to the request within ten days, but may indicate that additional time is necessary to make the records available due to time necessary to search for, collect and examine records to respond to the request. In no case shall the inspection be delayed more than an additional 14 days, unless agreed to by the requestor.

(B) If copies of specific records are requested, either in lieu of inspection or after inspection, the hauler shall respond to the request for copies within ten days, but may indicate that additional time is necessary to make the copies due to time necessary to search for, collect and examine records to respond to the request. In no case shall the copies be delayed more than an additional 14 days, unless agreed to by the requestor. The hauler may charge a fee to cover the actual cost of copying. In no case shall the fee exceed ten cents per page, unless local public records act requirements establish another rate.

(C) If a hauler or operator believes that a records request includes information that has been labeled confidential or proprietary by the entity providing that information as defined in sections 17044 through 17046, the hauler shall inform the Board. The Board shall use the procedures set forth in section 17046 to determine which records, or parts of records, may be inspected.

(b) A hauler shall respond to requests for clarification regarding their records within ten days. Requests must be specific and clearly stated in writing.

(c) The Board may investigate all information, methods, and calculations pursuant to this Article. If the Board determines that any information is inaccurate, the Board may require corrected information.

(d) If a public contract hauler that is a jurisdiction fails to comply with this section, and that failure prevents the Board from accurately determining the jurisdiction's level of Source Reduction and Recycling Element implementation, the Board may initiate the process to issue a compliance order as set forth in section 41825 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.5. Identifying Jurisdiction of Origin.

(a) When required by this Article:

(1) A hauler shall identify a jurisdiction by providing its name and specifying whether it is a city, an unincorporated county, or a region.

(2) If expressly allowed by the region, an operator may identify waste from a region formed pursuant to sections 40970 through 40975 of the Public Resources Code as originating in that region, without specifying the individual cities or unincorporated counties, unless otherwise required by the Board.

(3) A hauler shall identify solid waste imported from outside California by specifying the state, country, or Indian country of origin.

(b) Nothing in this Article shall prevent an agency, district, or jurisdiction from enacting ordinances or other measures to ensure that operators and haulers provide additional jurisdiction of origin information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY
1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.6. Frequency of Origin Surveys.

(a) Haulers shall provide jurisdiction of origin information to facility operators during the origin survey period set forth in sections 18809.6, 18810.6, and 18811.6.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY
1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.7. Determining Origin of Waste for a Hauler.

(a) All haulers who are not public contract haulers shall determine the origin of solid waste during the origin survey period required in section 18808.6:

(1) If solid waste in a load is from only one jurisdiction, a hauler shall assign all the waste in that load to that jurisdiction.

(2) If solid waste in a load is from more than one jurisdiction, a hauler shall estimate the tons or percentage of waste from each based on a reasonable method.

(3) A hauler who delivers solid waste to a facility within California shall inform the operator of the jurisdiction(s) of origin. The hauler shall provide this information on jurisdiction of origin to the operator at the time of disposal, unless prior arrangements are made with the receiving operator. In all cases the information shall be provided no later than two weeks after the end of the quarter.

(4) When requested by a receiving operator, a hauler shall inform a receiving operator of the jurisdiction of origin for all material in each load delivered during the entire quarter identified by the receiving operator as potential alternative daily cover, alternative intermediate cover, or other beneficial reuse material based on actual load tonnage. A hauler shall also inform a receiving operator of the type or types of material being supplied.

(b) All public contract haulers shall determine the origin of solid waste during the origin survey period required in section 18808.6 as follows:

(1) If solid waste in a load is from only one jurisdiction, a public contract hauler shall assign all the waste in that load to that jurisdiction.

(2) If solid waste in a load is from more than one jurisdiction, a public contract hauler shall estimate the tons or percentage of waste from each based on a reasonable method which may include adjustments for documented waste density differences, if applicable. The methods that a public contract hauler may use to make this estimate include, but are not limited to:

(A) the number of bins emptied in each jurisdiction,

(B) the total capacity of bins emptied in each jurisdiction, or

(C) the actual waste tons collected in each jurisdiction.

(3) A public contract hauler who delivers solid waste to a facility within California shall provide jurisdiction of origin information to each operator based on company dispatcher records of hauling routes and generator locations, billing records, or other relevant records. The method a public contract hauler uses to provide jurisdiction of origin information shall be reasonably designed to provide the required information in an accurate manner and in a format that is useable by the operator. The methods that a hauler may use to provide this information are:

(A) Send the jurisdiction(s) of origin information for each load electronically.

(B) For solid waste sent directly to a landfill or transformation facility, provide the information using a multi–part ticket system in which the dispatcher gives the vehicle driver a ticket with the estimated percentage of waste from each jurisdiction in the vehicle driver's route. The dispatcher may use a bar code with origin information on the ticket. The vehicle driver gives the receiving operator a portion of the ticket with origin percentage information and keeps a portion of the ticket for the public contract hauler's records.

(C) Provide the information using an alternative method that meets the requirements of this section.

(4) The public contract hauler shall provide this information on jurisdiction of origin to the operator at the time of disposal, unless prior arrangements are made with the receiving operator. In all cases the information shall be provided no later than two weeks after the end of the quarter.

(5) When requested by a receiving operator, a public contract hauler shall inform a receiving operator of the jurisdiction of origin for all material in each load delivered during the entire quarter that the receiving operator identifies as potential alternative daily cover, alternative intermediate cover, or other beneficial reuse material. The jurisdiction of origin information shall be based on actual daily tonnage. A public contract hauler shall also inform a receiving operator of the type or types of material being supplied.

(6) When requested by a receiving operator, a public contract hauler shall identify each segregated load of C&D debris/inert debris delivered during the entire quarter. The public contract hauler shall also provide the jurisdiction of origin for each load, based on actual daily tonnage.

(7) When requested by a receiving operator, a public contract hauler shall identify each segregated load of designated waste delivered during the entire quarter. The public contract hauler shall inform a receiving operator of the type or types of material being supplied. The public contract hauler shall also provide the jurisdiction of origin for each load, based on actual daily tonnage.

(8) When requested by a receiving operator, a public contract hauler shall identify each segregated load of disaster waste delivered during the entire quarter. The public contract hauler shall also provide the jurisdiction of origin for each load, based on actual daily tonnage.

(9) Pursuant to section 18808.4(a)(2), a public contract hauler shall keep documentation for verification of jurisdiction of origin allocations for each quarter. Upon request, a public contract hauler shall provide an agency with a summary of quarterly jurisdiction allocations.

NOTE: Authority cited: Sections 40502, 41781.3, 41821.5 and 43020, Public Resources Code. Reference: Sections 40508, 41821.5, and 43020, Public Resources Code.

HISTORY
1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.8. Applicability of Alternative Reporting Systems.

(a) An agency may establish alternative requirements with which a hauler must comply as set forth in section 18812.8.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY
1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.9. Public Contract Hauler Export Reports: Content, Timing, and Distribution.

(a) For the entire quarter, a public contract hauler who exports solid waste from California shall provide the agency in which the waste originated with the total tons of solid waste exported from each jurisdiction of origin during the quarter. For each jurisdiction allocation, a public contract hauler shall identify the name of the disposal site and the state, country, or Indian country to which the waste was sent. A public contract hauler shall provide this information by the due dates in section 18808.10.

(b) Upon request by a jurisdiction, a public contract hauler shall provide the jurisdiction with a quarterly report of the tons exported from the jurisdiction by the due dates in section 18808.10. In lieu of sending quarterly information directly to a jurisdiction, a hauler may electronically submit quarterly disposal information to the Board using a format that would allow the Board to make the information available on its web site.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY
1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.10. Export Reporting Due Dates for a Public Contract Hauler.

(a) When required by this Article, a public contract hauler shall send a quarterly export report, on the amounts of solid waste exported from California, to each agency in which the exported waste originated. If re-

quested by a jurisdiction, the public contract hauler shall also send a quarterly export report to the jurisdiction as set forth in section 18808.9(b). A public contract hauler shall send the report by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year. A public contract hauler shall respond to requests for clarification regarding jurisdiction of origin allocations as specified in section 18808.4.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18808.11. Non–Compliance.

(a) A hauler or operator shall inform the agency if a hauler or operator fails to comply with this Article by not providing the operator with information required for the preparation of quarterly disposal reports. The hauler or operator shall send written information on specific allegations of non–compliance to the agency by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year.

(b) A hauler or operator may inform the agency of other non–compliance issues concerning a hauler or operator. The hauler or operator shall send written information on specific allegations to the agency.

(c) A hauler or operator may inform the Board if an agency fails to comply with this Article. A hauler or operator shall send written information on specific allegations of agency non–compliance to the Board.

(d) Allegations of non–compliance shall be handled in accordance with the process set forth in section 18804.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809. Disposal Reporting Requirements for a Station.

(a) Sections 18809.1 through 18809.11 establish the requirements for a station as follows:

(1) Signage at a Station	Section 18809.1
(2) Scales and Weighing Requirements at a Station	Section 18809.2
(3) Training Requirements for a Station	Section 18809.3
(4) Station Records: Retention, Access, and Investigations	Section 18809.4
(5) Identifying Jurisdiction of Origin	Section 18809.5
(6) Frequency of Origin Surveys	Section 18809.6
(7) Determining Origin of Waste at a Station	Section 18809.7
(8) Applicability of Alternative Reporting Systems	Section 18809.8
(9) Station Disposal Reports: Content, Timing, and Distribution	Section 18809.9
(10) Disposal Reporting Due Dates for a Station	Section 18809.10
(11) Non–compliance	Section 18809.11

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. Amendment of subsection (b) and NOTE filed 11–5–97; operative 11–5–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 45).
3. Repealer and new section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.1. Signage at a Station.

(a) An operator may post a sign regarding the collection of waste origin information during the origin survey period specified in section 18809.6(a) or (b).

(b) The sign may include the following:

(1) "State law requires information on where your waste is from. Be prepared to provide it to the attendant." or

(2) "Be prepared to tell the attendant where your waste is from." or

(3) Other wording reasonably similar to the wording in subsection (1) or (2).

(c) The sign may be translated into additional languages, including but not limited to Spanish.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.5 and 43020, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.2. Scales and Weighing Requirements at a Station.

(a) A station shall be equipped with scales if both of the following criteria apply:

(1) the station accepts an annual average of more than 100 tons per operating day or an annual average volume of more than 400 cubic yards of solid waste per operating day, and

(2) the station operates more than 52 days per year.

(b) A station located in a rural city or rural county, as set forth in sections 40183 and 40184 of the Public Resources Code, shall be equipped with scales if both of the following criteria apply:

(1) the station accepts an annual average of more than 200 tons per operating day or an annual average volume of more than 800 cubic yards of solid waste per operating day, and

(2) the station operates more than 52 days per year.

(c) An operator of a station equipped with scales shall weigh every uncompacted load of solid waste greater than 12 cubic yards. An operator shall also weigh every compacted load of waste. For each uncompacted load less than or equal to 12 cubic yards that is not weighed, an operator shall use volumetric conversion factors to estimate weight as described in subsection (d). If a station's scales are inoperable for a period of time, the operator shall estimate the weight of solid waste using volumetric conversion factors as described in subsection (d) until the scales are back in operation.

(d) For all solid waste that a station operator is allowed to not weigh with scales, the operator shall use reasonable, volumetric conversion factors to estimate the weight of the waste. Volumetric conversion factors used at a station shall meet the following guidelines:

(1) A volumetric conversion factor for a given vehicle and/or trailer type and/or load type (e.g. C&D debris/inert debris load) shall be derived from the average of actual weight data collected for the vehicle and/or trailer type and/or load type during a seven–day minimum weighing period conducted at least every five years. The operator shall determine individual volumetric conversion factors for all the types of vehicles and/or trailers that haul waste to the station and/or the types of loads hauled to the station. The weight data for each vehicle and/or trailer type and/or load type shall be based on a statistically representative sample of vehicles and/or trailers and/or loads.

(2) All volumetric conversion factors for each vehicle and/or trailer type and/or load type and a description of the method used to determine the conversion factors shall be included in the station's annual report of disposal reporting methods as set forth in 18809.9(e).

(3) All volumetric conversion factors and supporting calculations and documentation shall be made available for Board staff review upon request pursuant to section 18809.4.

(4) If the Board determines that volumetric conversion factors are not reasonable or adequately supported, the Board may require the operator to collect new weight data to establish new volumetric conversion factors.

(e) An operator of a station not required to have scales as set forth in subsection (a) or (b) shall estimate the weight of every load of solid waste using reasonable and documented volumetric conversion factors for each type of vehicle and/or trailer that hauls waste to the station and/or each type of load (e.g. C&D debris/inert debris load) hauled to the station. The operator shall identify all volumetric conversion factors for each vehicle and/or trailer type and/or load type and include a description of the method used to determine the conversion factors in the station's annual report of disposal reporting methods as set forth in section 18809.9(e). The operator shall make all documentation of volumetric conversion factors available for review by Board staff upon request. If the Board determines that volumetric conversion factors are not reasonable or adequately sup-

ported, the Board may require the operator to establish new volumetric conversion factors.

(f) An operator is not to required weigh waste if the waste will be weighed at destination landfills and/or transformation facilities. If an operator determines the weight of waste by using scales at destination landfills and/or transformation facilities, the operator shall notify the agency in which the station is located in the annual report of disposal reporting methods as set forth in 18809.9(e)(7). An operator shall maintain a record of the weights obtained at all destination landfills and/or transformation facilities pursuant to section 18809.4.

(g) An operator of a station required to have scales as set forth in subsection (a) or (b) may request an exemption from the requirement to obtain scales if the station operator can demonstrate that circumstances exist that make compliance with this requirement a hardship. An operator shall submit a request for an exemption to the Board as set forth in subsections (i) through (*l*). An operator shall submit a request for an exemption no later than 150 days after January 1, 2006. If a station becomes subject to the scales requirement as set forth in subsection (a) or (b) after January 1, 2006, an operator shall submit the request for an exemption within 150 days.

(h) An operator of a station required to have scales as set forth in subsection (a) or (b) may submit a request to implement an alternative weighing system (for example, using off–site scales). An alternative weighing system must meet the minimum weighing requirements of this section. Weighing of waste at destination landfills and/or transformation facilities pursuant to subsection (f) does not require Board approval as an alternative weighing system. An operator shall submit a request for an exemption to the Board as set forth in subsections (i) through (*l*).

(i) A station operator's request for an exemption from obtaining scales or request to implement an alternative weighing system shall include the following minimum information:

(1) station name,

(2) station Solid Waste Information System (SWIS) number,

(3) station address,

(4) operator name,

(5) operator mailing address,

(6) operator telephone number,

(7) operator email address, if available,

(8) justification for the proposed exemption or alternative weighing system, such as a lack of electric utilities at the site, geographic remoteness of the site, space constraints at the site, or use of off–site scales,

(9) annual average weight (or annual average volume) of solid waste accepted per day of operation, and

(10) volumetric conversion factors to be used to estimate weight.

(j) Prior to submitting a request for an exemption from the scales requirement or a request to implement an alternative weighing system, an operator shall provide at least a 30–day notice of the proposed request to, and accept and respond to comments from applicable parties including:

(1) haulers that dispose of waste at the station,

(2) the agency in which the station is located,

(3) jurisdictions that dispose of waste at the station, and

(4) the Local Task Force established pursuant to section 18761 of this Division.

(k) An operator shall send a request for an exemption from the scales requirement or a request to implement an alternative weighing system to Board staff for review. The operator shall also send documentation showing that applicable parties were notified and include a copy of the responses to comments received on the request.

(*l*) Within 30 working days from receipt of a request, Board staff shall inform the operator, in writing, that the request is complete and accepted for filing, or that the request is deficient and what specific information is still required. Board staff shall approve or disapprove the request within 60 working days from the date the request is deemed complete. The operator may appeal the Board staff determination to the Board.

(m) If subsequent to an approval of an exemption from the scales requirement or a request to implement an alternative weighing system, the Board determines a station no longer meets the criteria of this section, the Board may rescind the approval.

(n) Nothing in this Article shall prevent an operator from weighing more loads than the minimum required by this section as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to obtain scales or requiring an operator to weigh more loads than the minimum required by this section, based upon its own authority to impose requirements on that operator.

(o) A station required to have scales as set forth in subsection (a) or (b), that has not requested and received a Board exemption from this requirement or has not received approval of an alternative weighing system, shall be required to obtain and begin operating the scales by January 1, 2007.

(p) If a station becomes subject to the scales requirement as set forth in subsection (a) or (b) subsequent to January 1, 2006, the operator shall obtain and begin operating the scales by January 1 of the year following the year the station became subject to the requirement. The operator may submit a request for an exemption from the scales requirement or a request to implement an alternative weighing system as set forth in subsections (g) through (*l*).

NOTE: Authority cited: Sections 40502, 41821.5, 43020 and 43021, Public Resources Code. Reference: Sections 40508, 41821.5, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.3. Training Requirements for a Station.

(a) A station operator shall provide training on the disposal reporting system to each gatehouse attendant and disposal report preparer and to other employees who must comply with the requirements of this Article. Training for a gatehouse attendant and report preparer shall cover the content of this Article as it applies to the employees' job duties.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.4. Station Records: Retention, Access, and Investigations.

(a) An operator shall prepare disposal reporting records and shall:

(1) Include all information, methods, and calculations required by this Article.

(2) Keep quarterly documentation that verifies jurisdiction of origin allocations reported to facilities and agencies pursuant to sections 18809.9(a) through (c).

(3) Use a reasonable method to gather the information, such as locally required or facility specific reporting forms, electronic systems, or the optional paper or electronic reporting forms developed by the Board.

(4) Maintain all records for three years in a usable format, such as on electronic media (computer files) or paper copies.

(5) Allow representatives of involved jurisdictions, the agency, haulers, operators, districts, and the Board to inspect the records during normal business hours in a single location within California. Haulers and operators shall only be allowed to inspect records relating to their own operations. An operator is not required to provide records of a jurisdiction's disposal information for reporting years for which the Board has already completed the biennial review cycle for the applicable jurisdiction pursuant to section 41825 of the Public Resources Code.

(A) Upon a request to review records, the operator shall make the records promptly available for inspection. The operator shall respond to the request within ten days, but may indicate that additional time is necessary to make the records available due to time necessary to search for, collect and examine records to respond to the request. In no case shall the inspection be delayed more than an additional 14 days, unless agreed to by the requestor.

(B) If copies of specific records are requested, either in lieu of inspection or after inspection, the operator shall respond to the request for copies within ten days, but may indicate that additional time is necessary

to make the copies due to time necessary to search for, collect, and examine records to respond to the request. In no case shall the copies be delayed more than an additional 14 days, unless agreed to by the requestor. The operator may charge a fee to cover the actual cost of copying. In no case shall the fee exceed ten cents per page, unless local public records act requirements establish another rate.

(C) If a hauler or operator believes that a records request includes information that has been labeled confidential or proprietary by the entity providing that information as defined in sections 17044 through 17046, the operator shall inform the Board. The Board shall use the procedures set forth in section 17046 to determine which records, or parts of records, may be inspected.

(b) An operator shall respond to requests for clarification regarding their records within ten days. Requests must be specific and clearly stated in writing.

(c) The Board may investigate all information, methods, and calculations pursuant to this Article. If the Board determines that any information is inaccurate, the Board may require corrected information.

(d) If an operator that is a jurisdiction, fails to comply with this section, and that failure prevents the Board from accurately determining the jurisdiction's level of Source Reduction and Recycling Element implementation, the Board may initiate the process to issue a compliance order as set forth in section 41825 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.5. Identifying Jurisdiction of Origin.

(a) When required by this Article:

(1) An operator shall identify a jurisdiction by providing its name and specifying whether it is a city, an unincorporated county, or a region.

(2) If expressly allowed by the region, an operator may identify waste from a region formed pursuant to sections 40970 through 40975 of the Public Resources Code as originating in that region, without specifying the individual cities or unincorporated counties, unless otherwise required by the Board.

(3) An operator shall identify waste imported from outside California by specifying the state, country, or Indian country of origin.

(b) Nothing in this Article shall prevent an agency, district, or jurisdiction from enacting ordinances or other measures to ensure that operators and haulers provide additional jurisdiction of origin information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.6. Frequency of Origin Surveys.

(a) At all permitted stations, origin surveys shall be conducted continuously, each day of station operation, for every load, except as described in subsections (b), (c), and (d).

(b) An operator of a station located in a rural city or county, as defined in sections 40183 and 40184 of the Public Resources Code, may conduct origin surveys as specified in subsection (a) or may conduct origin surveys during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). During the standard origin survey weeks, every load of solid waste shall be surveyed to determine jurisdiction of origin.

(c) At all permitted stations, origin surveys of each uncompacted load of waste with a volume of 12 cubic yards or less may be conducted as specified in subsection (a) or may be conducted during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). Daily origin surveys shall be conducted for all other loads as specified in subsection (a).

(d) Origin surveys are not required if:

(1) a facility is located in a Board–approved region, the region has authorized the operator to assign all waste tonnage to the region, and the Board does not otherwise require the region to assign waste to the individual cities or unincorporated counties of the region, or

(2) a city or county in which a station is located authorizes the station operator to assign all waste tonnage to that city or county.

(e) Nothing in this Article shall prevent an operator from collecting additional information as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to conduct origin surveys more frequently or to collect additional information, based upon its own authority to impose requirements on that operator.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.7. Determining Origin of Waste at a Station.

(a) An operator shall determine the origin of all solid waste during the origin survey period set forth in section 18809.6.

(b) When requested by a receiving operator, an operator who sends solid waste to another facility within California shall provide the receiving operator with the jurisdiction of origin for all material in each load delivered during the entire quarter that the receiving operator identifies as potential alternative daily cover, alternative intermediate cover, or other beneficial reuse material. The jurisdiction of origin information shall be based on actual daily tonnage. An operator shall also inform a receiving operator of the type or types of material being supplied.

(c) When requested by a receiving operator, an operator who sends solid waste to another facility within California shall notify the operator of that facility of each load of C&D debris/inert debris delivered during the entire quarter. The operator shall also provide the jurisdiction of origin for each load, based on actual daily tonnage.

(d) When requested by a receiving operator, an operator who sends solid waste to another facility within California shall notify the operator of that facility of each load of disaster waste delivered during the entire quarter. The operator shall also provide the jurisdiction of origin for each load, based on actual daily tonnage.

(e) For all loads not delivered by public contract haulers, an operator shall obtain and maintain a record of the following information:

(1) the jurisdiction of origin of the waste as set forth in 18809.5, and

(2) other additional information that the operator has determined will ensure that information provided is accurate.

(f) An operator shall collect jurisdiction of origin from public contract haulers. The public contract hauler shall provide the jurisdiction of origin as specified in section 18808.7(b).

(g) If a station accepts solid waste from only one jurisdiction, the operator shall assign the waste to that jurisdiction.

(h) If an attendant is not present during regular hours of operation, and one cannot be present to obtain jurisdiction of origin information during the survey period, and the operator does not receive origin information from the haulers delivering waste, then the operator shall assign the waste to the jurisdiction in which the station is located by labeling it as "no attendant host assigned" waste. An operator shall determine quarterly percentages of the total waste assigned to a host jurisdiction and report the percentage allocations to each facility to which waste was sent, pursuant to section 18809.9(b)(4). An operator shall also provide information on host assigned waste to a host jurisdiction if requested pursuant to section 18809.9(d).

(i) If a station accepts solid waste from more than one jurisdiction, the operator shall use the information on the jurisdictions of origin for all solid waste to estimate the percentage of waste from each jurisdiction. The percentage of waste from each jurisdiction shall be based on either the total tons accepted from each jurisdiction, the total tons of solid waste from each jurisdiction after adjusting for diversion at the station, or the total tons from each jurisdiction based on a reasonable method used at the station to allocate waste.

(j) If solid waste is delivered to the station and information on the jurisdiction of origin is not provided by the delivering hauler or operator during the survey period as specified in this Article, then the operator shall assign the waste percentage to the jurisdiction in which the station is located by labeling it as "host assigned" waste and send written notification to the agency regarding hauler or operator non–compliance as specified in section 18809.11. The operator shall determine quarterly percentages of the total waste assigned to a host jurisdiction and report the percentage allocations to each facility to which waste was sent, pursuant to section 18809.9(b)(4). The operator shall also provide information on host assigned waste to a host jurisdiction if requested pursuant to section 18809.9(d).

NOTE: Authority cited: Sections 40502, 41821.5, 43020 and 43021, Public Resources Code. Reference: Section 40508, 41821.5, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.8. Applicability of Alternative Reporting Systems.

(a) An agency may establish alternative requirements with which an operator must comply as set forth in section 18812.8.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.9. Station Disposal Reports: Content, Timing, and Distribution.

(a) Each quarter, an operator who sends solid waste to another facility within California shall provide the operator of that facility with the percentage of waste assigned to each jurisdiction as determined pursuant to section 18809.7. The operator shall provide this information by the due dates in sections 18809.10(a) and (b).

(b) An operator who sends waste to another facility in California shall send a quarterly notification to the agency in which the station is located and to each agency in which a receiving facility is located. An operator shall keep copies of the notification and all supporting documentation used to prepare the notification pursuant to the record keeping requirements in section 18809.4. The operator shall send the notifications by the due dates in section 18809.10. The quarterly notification shall contain the following information:

(1) the station name and Solid Waste Information System (SWIS) number,

(2) the reporting quarter and year,

(3) the total tons of solid waste accepted at the station,

(4) the percentage of solid waste from each jurisdiction (including host assigned waste, if applicable), based on either:

(A) the total tons of solid waste accepted from each jurisdiction,

(B) the total tons of solid waste from each jurisdiction after adjusting for diversion at the station, or

(C) the total tons of solid waste from each jurisdiction determined using a reasonable method to allocate waste,

(5) the name and Solid Waste Information System (SWIS) number of each facility in California to which waste was sent,

(6) the total initial estimated tons of solid waste sent to each facility,

(7) the total tons of each type of material identified for potential reuse as:

(A) alternative daily cover,

(B) alternative intermediate cover, and

(C) other beneficial reuse,

(8) the total tons of each type of material from each jurisdiction identified for potential reuse as:

(A) alternative daily cover, and

(B) alternative intermediate cover,

(9) the total tons of other material accepted at the station and sent off–site for reuse, recycling, or composting during the quarter, and

(10) a brief summary of the methods used to determine the jurisdictions of origin.

(c) For the entire quarter, an operator who exports waste from California shall provide the agency in which the station is located with the total tons of solid waste exported from each jurisdiction of origin during the quarter. For each jurisdiction allocation, an operator shall identify the name of the disposal site and the state, country, or Indian country to which the waste was sent. An operator shall provide this information by the due dates in section 18809.10.

(d) Upon request by a jurisdiction, an operator shall provide all quarterly information pertaining to the jurisdiction by the due dates in section 18809.10. In lieu of sending quarterly information directly to a jurisdiction, an operator may electronically submit the quarterly disposal information to the Board using a format that would allow the Board to make the information available on its web site. In addition to the information in subsections (b) and (c), a jurisdiction may request:

(1) the total tons of each type of material identified as other potential beneficial reuse material (excluding alternative daily cover and alternative intermediate cover),

(2) the total tons of C&D debris/inert debris, and

(3) the total tons of disaster waste.

(e) An operator shall send an annual report on disposal reporting methods to the agency in which the station is located. An operator shall send the annual report by the due date in section 18809.10. An operator shall keep a copy of the annual report in the station's records pursuant to section 18809.4. The report shall cover each year beginning on January 1 and ending on December 31 and shall include the following:

(1) station name and Solid Waste Information System (SWIS) number,

(2) operator name,

(3) operator mailing address,

(4) operator telephone number,

(5) operator email address, if available,

(6) number and type of scales, if applicable,

(7) notification of the use of scales at destination landfill(s) or transformation facility(ies) to weigh waste sent from the station, pursuant to section 18809.2(f), if applicable,

(8) all volumetric conversion factors used for each vehicle and/or trailer type and/or load type and a description of the method used to determine the conversion factors pursuant to section 18809.2(d)(1) or (e),

(9) the frequency of each type of origin survey,

(10) the method(s) of determining jurisdiction of origin, including the questions gatehouse attendants ask haulers,

(11) the method(s) used to verify origin information, if applicable,

(12) the method(s) used to track C&D debris/inert debris loads, if applicable,

(13) the method(s) used to track disaster waste loads, if applicable,

(14) the method(s) of determining jurisdiction allocation amounts including:

(A) a description of the method used to determine jurisdiction of origin allocation percentages as reported in subsection (b)(4), and

(B) the percentage of annual tons of waste for each jurisdiction that were assigned based on survey week data as allowed in sections 18809.6(b) and (c), and

(C) the percentage of the total tons of solid waste sent for disposal or transformation that were based on volumetric conversion factors rather than actual weight measurements,

(15) any restrictions on which jurisdictions may use the station,

(16) any differences in station tipping fees based on jurisdiction of origin,

(17) a listing or description of the computer program(s) or method used to track waste tonnage and origin information, and

(18) the days and hours of station operation, including all significant variations in the schedule during the reporting year.

NOTE: Authority cited: Sections 40502, 41821.5, 43020 and 43021, Public Resources Code. Reference: Sections 40508, 41821.5, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.10. Disposal Reporting Due Dates for a Station.

(a) An operator of a permitted station who sends waste to another permitted station in California shall send the operator of that facility the percentage of waste assigned to each jurisdiction for the quarter as set forth in section 18809.9(a). An operator shall send this information by April 30 for the first quarter, July 31 for the second quarter, October 31 for the third quarter, and January 31 for the fourth quarter of the previous year.

(b) An operator of a permitted station who sends waste to a landfill or transformation facility in California shall send the operator of that facility the percentage of waste assigned to each jurisdiction for the quarter as set forth in section 18809.9(a). An operator shall send this information by May 15 for the first quarter, August 15 for the second quarter, November 15 for the third quarter, and February 15 for the fourth quarter of the previous year.

(c) An operator of a permitted station shall send quarterly disposal information to affected agencies as set forth in sections 18809.9(b) and (c). If requested by a jurisdiction, the operator shall also send the quarterly disposal information to the jurisdiction as described in section 18809.9(d). An operator shall send the report by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year.

(1) An operator of a permitted station who sends waste to another facility within California shall send a notification every quarter to the agency in which the station is located and to each agency in which a receiving facility is located as set forth in section 18809.9(b).

(2) If a station operator exports waste outside of California, the operator shall send a quarterly report on the amounts of exported waste to the agency in which the station is located as set forth in section 18809.9(c).

(d) An operator of a permitted station shall send an annual report on disposal reporting methods to the agency in which the station is located, as described in section 18809.9(e). An operator shall send this annual report by March 15 for the previous year. A station operator shall respond to requests for clarification regarding jurisdiction of origin allocations as specified in section 18809.4.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18809.11. Non–Compliance.

(a) A hauler or operator shall inform the agency if a hauler or operator fails to comply with this Article by not providing the operator with information required for the preparation of quarterly disposal reports. The hauler or operator shall send written information on specific allegations of non–compliance to the agency by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year.

(b) A hauler or operator may inform the agency of other non–compliance issues concerning a hauler or operator. The hauler or operator shall send written information on specific allegations to the agency.

(c) A hauler or operator may inform the Board if an agency fails to comply with this Article. A hauler or operator shall send written information on specific allegations of agency non–compliance to the Board.

(d) Allegations of non–compliance shall be handled in accordance with the process set forth in section 18804.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810. Disposal Reporting Requirements for a Landfill.

(a) Sections 18810.1 through 18810.11 establish the requirements for a landfill as follows:

(1) Signage at a Landfill Section 18810.1
(2) Scales and Weighing Requirements at a Landfill Section 18810.2
(3) Training Requirements for a Landfill Section 18810.3
(4) Landfill Records: Retention, Access, and Investigations Section 18810.4
(5) Identifying Jurisdiction of Origin Section 18810.5
(6) Frequency of Origin Surveys Section 18810.6
(7) Determining Origin of Waste at a Landfill Section 18810.7
(8) Applicability of Alternative Reporting Systems Section 18810.8
(9) Landfill Disposal Reports: Content, Timing, and Distribution Section 18810.9
(10) Disposal Reporting Due Dates for a Landfill Section 18810.10
(11) Non–compliance Section 18810.11

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. Amendment of subsections (c) and (d)(5) and amendment of NOTE filed 11–5–97; operative 11–5–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 45).
3. Change without regulatory effect redesignating subsection (a) as (a)(1) and adding subsection (a)(2) filed 8–25–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 34).
4. Repealer and new section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.1. Signage at a Landfill.

(a) An operator may post a sign regarding the collection of waste origin information during the origin survey period specified in section 18810.6(a) or (b).

(b) The sign may include the following:

(1) "State law requires information on where your waste is from. Be prepared to provide it to the attendant." or

(2) "Be prepared to tell the attendant where your waste is from." or

(3) Other wording reasonably similar to the wording in subsection (1) or (2).

(c) The sign may be translated into additional languages, including but not limited to Spanish.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.5 and 43020, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.2. Scales and Weighing Requirements at a Landfill.

(a) A landfill shall be equipped with scales if both of the following criteria apply:

(1) the landfill accepts an annual average of more than 100 tons per operating day or an annual average volume of more than 400 cubic yards of solid waste per operating day, and

(2) the landfill operates more than 52 days per year.

(b) A landfill located in a rural city or rural county, as set forth in sections 40183 and 40184 of the Public Resources Code, shall be equipped with scales if both of the following criteria apply:

(1) the landfill accepts an annual average of more than 200 tons per operating day or an annual average volume of more than 800 cubic yards of solid waste per operating day, and

(2) the landfill operates more than 52 days per year.

(c) An operator of a landfill equipped with scales shall weigh every uncompacted load of solid waste greater than 12 cubic yards. An operator shall also weigh every compacted load of waste. For each uncompacted load less than or equal to 12 cubic yards that is not weighed, an operator shall use volumetric conversion factors to estimate weight as described in subsection (d). If a landfill's scales are inoperable for a period of time, the operator shall estimate the weight of solid waste using volumetric conversion factors as described in subsection (d) until the scales are back in operation.

(d) For all solid waste that a landfill operator is allowed to not weigh with scales, the operator shall use reasonable, volumetric conversion factors to estimate the weight of the waste. Volumetric conversion factors used at a landfill shall meet the following guidelines:

(1) A volumetric conversion factor for a given vehicle and/or trailer type and/or load type (e.g. C&D debris/inert debris load) shall be derived from the average of actual weight data collected for the vehicle and/or trailer type and/or load type during a seven–day minimum weighing period conducted at least every five years. The operator shall determine individual volumetric conversion factors for all the types of vehicles and/or trailers that haul waste to the landfill and/or the types of loads hauled to the landfill. The weight data for each vehicle and/or trailer type and/or load type shall be based on a statistically representative sample of vehicles and/or trailers and/or loads.

(2) All volumetric conversion factors for each vehicle and/or trailer type and/or load type and a description of the method used to determine the conversion factors shall be included in the landfill's annual report of disposal reporting methods as set forth in 18810.9(h).

(3) All volumetric conversion factors and supporting calculations and documentation shall be made available for Board staff review upon request pursuant to section 18810.4.

(4) If the Board determines that volumetric conversion factors are not reasonable or adequately supported, the Board may require the operator to collect new weight data to establish new volumetric conversion factors.

(e) An operator of a landfill not required to have scales as set forth in subsection (a) or (b), shall estimate the weight of every load of solid waste using reasonable and documented volumetric conversion factors for each type of vehicle and/or trailer that hauls waste to the landfill and/or each type of load (e.g. C&D debris/inert debris load) hauled to the landfill. The operator shall identify all volumetric conversion factors for each vehicle and/or trailer type and/or load type and include a description of the method used to determine the conversion factors used in the landfill's annual report of disposal reporting methods as set forth in section 18810.9(h). The operator shall make all documentation of volumetric conversion factors available for review by Board staff upon request. If the Board determines that volumetric conversion factors are not reasonable or adequately supported, the Board may require the operator to establish new volumetric conversion factors.

(f) An operator of a landfill required to have scales as set forth in subsection (a) or (b) may request an exemption from the requirement to obtain scales if the landfill operator can demonstrate that circumstances exist that make compliance with this requirement a hardship. An operator shall submit a request for an exemption to the Board as set forth in subsections (h) through (k). An operator shall submit a request no later than 150 days after January 1, 2006. If a landfill becomes subject to the scales requirement as set forth in subsection (a) or (b) after January 1, 2006, an operator shall submit the request for an exemption within 150 days.

(g) An operator of a landfill required to have scales as set forth in subsection (a) or (b) may submit a request to implement an alternative weighing system (for example, using off–site scales). An alternative weighing system must meet the minimum weighing requirements of this section. An operator shall submit a request for an exemption to the Board as set forth in subsections (h) through (k).

(h) A landfill operator's request for an exemption from obtaining scales or request to implement an alternative weighing system shall include the following minimum information:

(1) landfill name,

(2) landfill Solid Waste Information System (SWIS) number,

(3) landfill address,

(4) operator name,

(5) operator mailing address,

(6) operator telephone number,

(7) operator email address, if available,

(8) justification for the proposed exemption or alternative weighing system, such as a lack of electric utilities at the site, geographic remoteness of the site, space constraints at the site, occasional relief from weighing requirements during periods of time when excessive lines create public health and safety concerns, or use of off–site scales,

(9) annual average weight (or annual average volume) of waste accepted per day of operation, and

(10) volumetric conversion factors to be used to estimate weight.

(i) Prior to submitting a request for an exemption from the scales requirement or a request to implement an alternative weighing system, an operator shall provide at least a 30–day notice of the proposed request to, and accept and respond to comments from applicable parties including those listed below. However, nothing in this requirement is intended to allow any of these parties to seek or impose conditions on the requestor for favorable comments, nor does this section give them any authority to approve or disapprove the request.

(1) haulers that dispose of waste at the landfill,

(2) the agency in which the landfill is located,

(3) jurisdictions that dispose of waste at the landfill, and

(4) the Local Task Force established pursuant to section 18761 of this Division.

(j) An operator shall send a request for an exemption from the scales requirement or a request to implement an alternative weighing system to Board staff for review. The operator shall also send documentation showing that applicable parties were notified and include a copy of the responses to comments received on the request.

(k) Within 30 working days from receipt of a request, Board staff shall inform the operator, in writing, that the request is complete and accepted for filing, or that the request is deficient and what specific information is still required. Board staff shall approve or disapprove the request within 60 working days from the date the request is deemed complete. The operator may appeal the Board staff determination to the Board.

(*l*) If subsequent to an approval of an exemption from the scales requirement or a request to implement an alternative weighing system, the Board determines a landfill no longer meets the criteria of this section, the Board may rescind the approval.

(m) All volumetric conversion factor(s) used for the purposes of this Article, shall be the same as the volumetric conversion factor(s) used to determine the number of tons that are subject to the fee pursuant to section 48000 of the Public Resources Code and section 45151 of the Revenue and Taxation Code.

(n) Nothing in this Article shall prevent an operator from weighing more loads than the minimum required by this section as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to obtain scales or requiring an operator to weigh more loads than the minimum required by this section, based upon its own authority to impose requirements on that operator.

(o) A landfill required to have scales as set forth in subsection (a) or (b), that has not requested and received a Board exemption from this requirement or has not received approval of an alternative weighing system, shall be required to obtain and begin operating the scales by January 1, 2007.

(p) If a landfill becomes subject to the scales requirement as set forth in subsection (a) or (b) subsequent to January 1, 2006, the operator shall obtain and begin operating the scales by January 1 of the year following the year the landfill became subject to the requirement. The operator may submit a request for an exemption from the scales requirement or a request to implement an alternative weighing system as set forth in subsections (f) through (k).

NOTE: Authority cited: Sections 40502, 41781.3, 41821.5, 43020 and 43021, Public Resources Code. Reference: Sections 40508, 41821.5, 42245, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.3. Training Requirements for a Landfill.

(a) An operator shall provide training on the disposal reporting system to each gatehouse attendant and disposal report preparer and to other employees who must comply with the requirements of this Article. Training for a gatehouse attendant and report preparer shall cover the content of this Article as it applies to the employees' job duties.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.4. Landfill Records: Retention, Access, and Investigations.

(a) An operator shall prepare disposal reporting records and shall:

(1) Include all information, methods, and calculations required by this Article.

(2) Keep quarterly documentation that verifies jurisdiction of origin allocations reported to the agency in which the landfill is located pursuant to section 18810.9(c).

(3) Use a reasonable method to gather the information, such as locally required or facility specific reporting forms, electronic systems, or the optional paper or electronic reporting forms developed by the Board.

(4) Maintain all records for three years in a usable format, such as on electronic media (computer files) or paper copies.

(5) Allow representatives of involved jurisdictions, the agency, haulers, operators, districts, and the Board to inspect the records during normal business hours in a single location within California. Haulers and operators shall only be allowed to inspect records relating to their own operations. An operator is not required to provide records of a jurisdiction's disposal information for reporting years for which the Board has already completed the biennial review cycle for the applicable jurisdiction pursuant to section 41825 of the Public Resources Code.

(A) Upon a request to review records, the operator shall make the records promptly available for inspection. The operator shall respond to the request within ten days, but may indicate that additional time is necessary to make the records available due to time necessary to search for, collect and examine records to respond to the request. In no case shall the inspection be delayed more than an additional 14 days, unless agreed to by the requestor.

(B) If copies of specific records are requested, either in lieu of inspection or after inspection, the operator shall respond to the request for copies within ten days, but may indicate that additional time is necessary to make the copies due to time necessary to search for, collect, and examine records to respond to the request. In no case shall the copies be delayed more than an additional 14 days, unless agreed to by the requestor. The operator may charge a fee to cover the actual cost of copying. In no case shall the fee exceed ten cents per page, unless local public records act requirements establish another rate.

(C) If a hauler or operator believes that a records request includes information that has been labeled confidential or proprietary by the entity providing that information as defined in sections 17044 through 17046, the operator shall inform the Board. The Board shall use the procedures set forth in section 17046 to determine which records, or parts of records, may be inspected.

(b) An operator shall respond to requests for clarification regarding their records within ten days. Requests must be specific and clearly stated in writing.

(c) The Board may investigate all information, methods, and calculations pursuant to this Article. If the Board determines that any information is inaccurate, the Board may require corrected information.

(d) If an operator that is a jurisdiction, fails to comply with this section, and that failure prevents the Board from accurately determining the jurisdiction's level of Source Reduction and Recycling Element implementation, the Board may initiate the process to issue a compliance order as set forth in section 41825 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.5. Identifying Jurisdiction of Origin.

(a) When required by this Article:

(1) An operator shall identify a jurisdiction by providing its name and specifying whether it is a city, an unincorporated county, or a region.

(2) If expressly allowed by the region, an operator may identify waste from a region formed pursuant to sections 40970 through 40975 of the Public Resources Code as originating in that region, without specifying the individual cities or unincorporated counties, unless otherwise required by the Board.

(3) An operator shall identify waste imported from outside California by specifying the state, country, or Indian country of origin.

(b) Nothing in this Article shall prevent an agency, district, or jurisdiction from enacting ordinances or other measures to ensure that operators and haulers provide additional jurisdiction of origin information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.6. Frequency of Origin Surveys.

(a) At all permitted landfills, origin surveys shall be conducted continuously, each day of landfill operation, for every load, except as described in subsections (b), (c), and (d).

(b) An operator of a landfill located in a rural city or county, as defined in sections 40183 and 40184 of the Public Resources Code, may conduct origin surveys as specified in subsection (a) or may conduct origin surveys during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). During the standard survey weeks, every load of solid waste shall be surveyed to determine jurisdiction of origin.

(c) At all permitted landfills, origin surveys of each uncompacted load of waste with a volume of 12 cubic yards or less may be conducted as specified in subsection (a) or may be conducted during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). Daily origin surveys shall be conducted for all other loads as specified in subsection (a).

(d) Origin surveys are not required if:

(1) a facility is located in a Board–approved region, the region has authorized the operator to assign all waste tonnage to the region, and the Board does not otherwise require the region to assign waste to the individual cities or unincorporated counties of the region, or

(2) a city or county in which a landfill is located authorizes the landfill operator to assign all waste tonnage to that city or county.

(e) Nothing in this Article shall prevent an operator from collecting additional information as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to conduct origin surveys more frequently or to collect additional information, based upon its own authority to impose requirements on that operator.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.7. Determining Origin of Waste at a Landfill.

(a) An operator shall determine the origin of all solid waste during the origin survey period set forth in section 18810.6.

(b) For every load of solid waste received during the entire quarter, an operator shall record the jurisdiction of origin for all beneficial reuse material accepted. An operator shall also record the types and quantities of material being used as alternative daily, alternative intermediate cover, and other beneficial reuse. Each type of material used for alternative daily cover, alternative intermediate cover, and other beneficial reuse shall be allocated to jurisdictions using a reasonable estimation method. A reasonable method for calculating allocations may include:

(1) Determining each jurisdiction's percentage of each material type accepted and multiplying by:

(A) the total amounts of alternative daily cover used,

(B) the total amounts of alternative intermediate cover used, and/or

(C) the total amounts of other beneficial reuse material used.

(c) For every load received during the entire quarter, an operator shall track the tons of each of the following types of solid waste disposed at the landfill, allocated to each jurisdiction:

(1) C&D debris/inert debris,

(2) designated waste, by material type, and

(3) disaster waste.

(d) For all loads not delivered by public contract haulers, an operator shall obtain and maintain a record of the following information:

(1) the jurisdiction of origin of the waste as set forth in 18810.5, and

(2) other additional information that the operator has determined will ensure that information provided is accurate.

(e) An operator shall collect jurisdiction of origin from public contract haulers. The public contract hauler shall provide the jurisdiction of origin as specified in section 18808.7(b).

(f) If a landfill accepts solid waste from only one jurisdiction, the operator shall assign all the waste to that jurisdiction.

(g) If an attendant is not present during regular hours of operation, and one cannot be present for the origin survey period set forth in section 18810.6, and the operator does not receive origin information from the haulers delivering waste, then the operator shall assign the waste to the jurisdiction in which the landfill is located by labeling it as "no attendant host assigned" waste. An operator shall report to the agency, the total amounts of solid waste assigned to the host jurisdiction pursuant to 18810.9(c). An operator shall also provide information on host assigned waste to a host jurisdiction if requested pursuant to section 18810.9(g).

(h) If solid waste is delivered to the facility and information on the jurisdiction of origin is not provided by the delivering hauler or operator as specified in this Article, then the operator shall assign the waste to the jurisdiction in which the landfill is located by labeling it as "host assigned" waste and send written notification to the agency regarding hauler or operator non–compliance as specified in section 18810.11. An operator shall report to the agency, the total amounts of solid waste assigned to the host jurisdiction pursuant to 18810.9(c). An operator shall also provide information on host assigned waste to a host jurisdiction if requested pursuant to section 18810.9(g).

(i) If a landfill conducts continuous daily origin surveys as set forth in section 18810.6(a) and accepts solid waste from more than one jurisdiction, then the operator shall assign the waste tonnage based on the actual jurisdiction of origin information reported by haulers and station operators. If a landfill also conducts origin surveys for uncompacted loads of 12 cubic yards or less during at least a one–week per quarter survey period, the operator shall estimate the amount of waste assigned to each jurisdiction as described in subsection (k) and add these tonnage allocations to the tonnage allocations that were based on daily origin survey information.

(j) If a landfill in a rural jurisdiction accepts solid waste from more than one jurisdiction and only conducts origin surveys during one week per quarter as set forth in section 18810.6(b), the operator shall do the following steps in order:

(1) Obtain information on the jurisdiction(s) of origin for each load of solid waste delivered to the landfill on the dates set forth in section 18810.6(b).

Example:

Four loads delivered during the survey week.

Load 1 = 5 tons from City A

Load 2 = 5 tons from City B

Load 3 = 10 tons from City C

Load 4 = 5 tons from City B

(2) Calculate the tons of solid waste (other than soil used as cover or for other on–site uses) assigned to each jurisdiction during the survey week. The operator shall either add up the amounts accepted from each jurisdiction, or the amounts of solid waste from each jurisdiction after adjusting for diversion activity at the landfill.

Example:

City A = 5 tons (Load 1)

City B = 10 tons (Load 2 + Load 4)

City C = 10 tons (Load 3)

(3) Calculate the percentage of waste assigned to each jurisdiction during the survey week by dividing the tons determined in paragraph (2) by the total tons of waste for the survey period.

Example:

25 tons delivered during the survey week.

City A = 5 tons/25 tons = 0.2 (20%)

City B = 10 tons/25 tons = 0.4 (40%)

City C = 10 tons/25 tons = 0.4 (40%)

(4) Calculate the number of tons disposed from each jurisdiction during the quarter by multiplying the percentage from paragraph (3) with the total number of tons of solid waste disposed in each quarter from section 18810.9(a).

Example:

1000 tons disposed during quarter.

City A = 0.2 x 1000 tons = 200 tons

City B = 0.4 x 1000 tons = 400 tons

City C = 0.4 x 1000 tons = 400 tons

(k) If an operator conducts origin surveys of each uncompacted load of solid waste with a volume of 12 cubic yards or less during a one–week survey period each quarter pursuant to section 18810.6(c), then the operator shall calculate the estimated tons of solid waste delivered in these loads from each jurisdiction for the quarter. The calculated tonnage allocations shall be based on the actual origin information reported by haulers during the survey period. The operator shall do the following steps in order.

(1) Obtain information on the jurisdiction(s) of origin for each uncompacted load with a volume of 12 cubic yards or less delivered to the landfill on the dates set forth in section 18810.6(c).

Example:

Four uncompacted loads of 12 cubic yards or less delivered during the survey week.

Load 1 = 0.5 ton from City A

Load 2 = 0.5 ton from City B

Load 3 = 0.5 ton from City C

Load 4 = 0.5 ton from City B

(2) Calculate the tons of solid waste (other than soil used as cover or for other on–site uses) delivered in uncompacted loads of 12 cubic yards or less assigned to each jurisdiction during the survey week. The operator shall either add up the amounts accepted from each jurisdiction, or the amounts of solid waste from each jurisdiction after adjusting for diversion activity at the landfill.

Example:

City A = 0.5 ton (Load 1)

City B = 1 ton (Load 2 + Load 4)

City C = 0.5 ton (Load 3)

(3) Calculate the percentage of solid waste assigned to each jurisdiction during the survey week by dividing the tons determined in paragraph (2) by the total tons of solid waste delivered in uncompacted loads of 12 cubic yards or less during the survey week.

Example:

2 tons delivered in uncompacted loads of 12 cubic yards or less during survey week.

City A = 0.5 ton/2 tons = 0.25 (25%)

City B = 1 ton/2 tons = 0.5 (50%)

City C = 0.5 ton/2 tons = 0.25 (25%)

(4) Calculate the number of tons delivered in uncompacted loads of 12 cubic yards or less and disposed from each jurisdiction during the quarter by multiplying the percentages from paragraph (3) with the total tons of solid waste disposed during the quarter that were delivered in uncompacted loads of 12 cubic yards or less.

Example:

100 tons delivered in uncompacted loads of 12 cubic yards or less and disposed during the quarter.

City A = 0.25 X 100 tons = 25 tons
City B = 0.5 X 100 tons = 50 tons
City C = 0.25 X 100 tons = 25 tons

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.8. Applicability of Alternative Reporting Systems.

(a) An agency may establish alternative requirements with which an operator must comply as set forth in section 18812.8.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.9. Landfill Disposal Reports: Content, Timing, and Distribution.

(a) The following requirements shall apply to an operator of a permitted landfill:

(1) An operator shall determine the total number of tons of solid waste disposed in each quarter. The tons disposed shall be the same number of tons reported to the Board of Equalization that are subject to the fee pursuant to section 48000 of the Public Resources Code and section 45151 of the Revenue and Taxation Code.

(2) An operator of a facility that does not have to report tons disposed to the Board of Equalization pursuant to section 48007(b) of the Public Resources Codes (as added by Stats. 1999, Chapter 600), is still required to determine the total number of tons of solid waste disposed in each quarter. However, for these facilities, the tons disposed will not have to be reconciled with the tons reported to the Board of Equalization.

(3) An operator of a facility that has been exempted from the fee pursuant to section 48006 of the Public Resources Code is still required to report the total number of tons of solid waste disposed in each quarter. However, for these facilities, the tons disposed will not have to be reconciled with the tons reported to the Board of Equalization that are subject to the fee.

(b) An operator shall track the total tons of solid waste accepted by the landfill and sent off–site for reuse, recycling, or composting.

(c) An operator shall provide the following quarterly information to the agency in which the facility is located. An operator shall keep copies of the quarterly information and all supporting documentation used to prepare the information pursuant to the record keeping requirements in section 18810.4. An operator shall report, by jurisdiction of origin (including host assigned jurisdiction of origin, if applicable), information on the amounts and types of all solid waste specified in this subsection. The operator shall report:

(1) the facility name and Solid Waste Information System (SWIS) number,

(2) the reporting quarter and year,

(3) the total tons of all solid waste and all materials accepted at the facility, excluding soil used on–site,

(4) the total tons of waste reused on–site at the facility, separated as follows:

(A) the total tons of each type of alternative daily cover used during the quarter, and

(B) the total tons of each type of alternative intermediate cover used during the quarter, and

(5) the total tons of solid waste disposed at the landfill.

(d) An operator shall provide quarterly summary information to the agency in which the facility is located. The summary information shall include:

(1) the total tons of soil used as cover or for other on–site uses during the quarter,

(2) the total tons of solid waste accepted by the landfill, excluding soil used on–site,

(3) the total tons of solid waste used on–site, separated as follows:

(A) the total tons of each type of alternative daily cover,

(B) the total tons of each type of alternative intermediate cover, and

(C) the total tons of each type of other beneficial reuse material,

(4) the total tons of solid waste sent off–site for reuse, recycling, or composting,

(5) the total tons of solid waste disposed at the landfill,

(6) the total tons reported to the Board of Equalization subject to the fee pursuant to section 48000 of the Public Resources Code and section 45151 of the Revenue and Taxation Code,

(7) either:

(A) the estimated in–place density achieved at the landfill in units of pounds of waste per cubic yard of waste and the estimated waste–to–cover ratio used at the landfill during the quarter, or

(B) the airspace utilization factor (tons of waste per cubic yard of landfill airspace) for the quarter, and

(This information shall be included in the quarterly report so that the Board may accurately calculate the remaining capacity of the landfill as well as regional and statewide remaining capacity. It is not the intent of this section to subject a landfill to a Notice of Violation should it subsequently be determined that these estimates are unknowingly inaccurate.)

(8) a brief summary of the methods used to determine the jurisdictions of origin.

(e) Upon request, an operator shall provide the agency in which the facility is located with a copy of the Integrated Waste Management Fee Return submitted to the Board of Equalization.

(f) The operator shall provide all quarterly information to the agency by the due dates in section 18810.10.

(g) Upon request by a jurisdiction, an operator shall provide all quarterly information pertaining to the jurisdiction by the due dates in section 18810.10. In lieu of sending quarterly disposal information directly to a jurisdiction, an operator may electronically submit the information to the Board using a format that would allow the Board to make the information available on its web site. In addition to the amounts reported in subsection (c)(3) through (5), a jurisdiction's request for quarterly disposal information may include:

(1) the total tons of each type of other beneficial reuse material (excluding alternative daily cover and alternative intermediate cover),

(2) the total tons of C&D debris/inert debris disposed,

(3) the total tons of each type of designated waste disposed, and

(4) the total tons of disaster waste disposed.

(h) An operator shall send an annual report on disposal reporting methods to the agency in which the facility is located. An operator shall send the annual report by the due date in section 18810.10. An operator shall keep a copy of the annual report in the facility's records pursuant to section 18810.4. The report shall cover each year beginning on January 1 and ending on December 31 and shall include the following:

(1) facility name and Solid Waste Information System (SWIS) number,

(2) operator name,

(3) operator mailing address,

(4) operator telephone number,

(5) operator email address, if available,

(6) the number and type of scales, if applicable,

(7) all volumetric conversion factors used for each vehicle and/or trailer type and/or load type and a description of the method used to determine the conversion factors pursuant to section 18810.2(d)(1) or (e),

(8) the frequency of each type of origin survey,

(9) the percentage of the total tons of disposed waste assigned to each jurisdiction that was based on:

(A) origin information collected during a one–week per quarter survey period as allowed in section 18810.6(b) or 18810.6(c), if applicable, and

(B) volumetric conversion factors rather than actual weight measurements,

(10) the method(s) of determining jurisdiction of origin, including the questions gatehouse attendants ask haulers,

(11) the method(s) used to verify origin information, if applicable,

(12) any restrictions on which jurisdictions may use the landfill,

(13) any differences in landfill tipping fees based on jurisdiction of origin,

(14) a listing or description of the computer program(s) or method used to track waste tonnage and origin information,

(15) the method(s) used to track the amounts of alternative daily cover, alternative intermediate cover, and other beneficial reuse materials used at the facility,

(16) the method(s) used to track C&D debris/inert debris loads, if applicable,

(17) the designated waste types accepted and method(s) of tracking designated wastes, if applicable,

(18) the method(s) used to track disaster waste loads, if applicable,

(19) the days and hours of operation, including all significant variations in the schedule during the reporting year, and

(20) either:

(A) the calculated in–place waste density achieved at the landfill (in pounds of waste per cubic yard of waste) and a description of the method used to calculate in–place waste density achieved at the landfill, and the calculated waste–to–cover ratio used at the landfill and a description of the method used to calculate the waste–to–cover ratio(s) used at the landfill or

(B) the airspace utilization factor (tons of waste per cubic yard of landfill airspace) and a description of the method used to calculate the airspace utilization factor.

(This information shall be included in the annual report so that the Board may accurately calculate the remaining capacity of the landfill as well as regional and statewide remaining capacity. It is not the intent of this section to subject a landfill to a Notice of Violation should it subsequently be determined that these estimates are unknowingly inaccurate).

(i) If the Board determines that an operator has inaccurately reported alternative daily cover, alternative intermediate cover, other beneficial reuse, or other diversion tonnage, that should have been reported as disposal, the operator shall revise its reported disposal tonnage to reflect the Board's determination and pay the fee required by section 48000 of the Public Resources Code.

(j) If an operator amends disposal reporting information, the operator is only required to provide the amended information to the agency once per quarter (the operator shall still allow access to records in accordance with section 18810.4). An operator is not required to provide amended disposal information for reporting years once the Board has completed the biennial review cycle for those years pursuant to section 41825 of the Public Resources Code.

NOTE: Authority cited: Sections 40502, 41781.3, 41821.5, 43020 and 43021, Public Resources Code. Reference: Sections 40508, 41821.5, 42245, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.10. Disposal Reporting Due Dates for a Landfill.

(a) An operator of a landfill shall send a quarterly report to the agency in which the facility is located as described in sections 18810.9(c), (d), and (e), if applicable. If requested by a jurisdiction, the operator shall also send the quarterly disposal information to the jurisdiction as set forth in section 18810.9(g). An operator shall send the report by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year.

(b) An operator of a landfill shall send an annual report on disposal reporting methods to the agency in which the facility is located, as described in section 18810.9(h). An operator shall send this annual report by March 15 for the previous year. An operator shall respond to requests for clarification regarding jurisdiction of origin allocations as specified in section 18810.4.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18810.11. Non–Compliance.

(a) A hauler or operator shall inform the agency if a hauler or operator fails to comply with this Article by not providing the operator with information required for the preparation of quarterly disposal reports. The hauler or operator shall send written information on specific allegations of non–compliance to the agency by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year.

(b) A hauler or operator may inform the agency of other non–compliance issues concerning a hauler or operator. The hauler or operator shall send written information on specific allegations to the agency.

(c) A hauler or operator may inform the Board if an agency fails to comply with this Article. A hauler or operator shall send written information on specific allegations of agency non–compliance to the Board.

(d) Allegations of non–compliance shall be handled in accordance with the process set forth in section 18804.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811. Disposal Reporting Requirements for a Transformation Facility.

(a) Sections 18811.1 through 18811.11 establish the requirements for a transformation facility as follows:

(1) Signage at a Transformation Facility	Section 18811.1
(2) Scales and Weighing Requirements at a Transformation Facility	Section 18811.2
(3) Training Requirements for a Transformation Facility	Section 18811.3
(4) Transformation Facility Records: Retention, Access, and Investigations	Section 18811.4
(5) Identifying Jurisdiction of Origin	Section 18811.5
(6) Frequency of Origin Surveys	Section 18811.6
(7) Determining Origin of Waste at a Transformation Facility	Section 18811.7
(8) Applicability of Alternative Reporting Systems	Section 18811.8
(9) Transformation Facility Disposal Reports: Content, Timing, and Distribution	Section 18811.9
(10) Disposal Reporting Due Dates for a Transformation Facility	Section 18811.10
(11) Non–compliance	Section 18811.11

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. Repealer and new section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.1. Signage at a Transformation Facility.

(a) An operator may post a sign regarding the collection of waste origin information during the origin survey period specified in section 18811.6(a) or (b).

(b) The sign may include the following:

(1) "State law requires information on where your waste is from. Be prepared to provide it to the attendant." or

(2) "Be prepared to tell the attendant where your waste is from." or

(3) Other wording reasonably similar to the wording in subsection (1) or (2).

(c) The sign may be translated into additional languages, including but not limited to Spanish.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.2. Scales and Weighing Requirements at a Transformation Facility.

(a) An operator of a transformation facility shall weigh every uncompacted load of solid waste greater than 12 cubic yards. An operator shall also weigh every compacted load of waste. For each uncompacted load less than or equal to 12 cubic yards that is not weighed, an operator shall use volumetric conversion factors to estimate weight as described in subsection (b). If a transformation facility's scales are inoperable for a period of time, the operator shall estimate the weight of solid waste using volumetric conversion factors as described in subsection (b) until the scales are back in operation.

(b) For all solid waste that a transformation facility operator is allowed to not weigh with scales, the operator shall use reasonable, volumetric conversion factors to estimate the weight of the waste. Volumetric conversion factors used at a transformation facility shall meet the following guidelines:

(1) A volumetric conversion factor for a given vehicle and/or trailer type and/or load type (e.g. C&D debris/inert debris load) shall be derived from the average of actual weight data collected for the vehicle and/or trailer type and/or load type during a seven–day minimum weighing period conducted at least every five years. The operator shall determine individual volumetric conversion factors for all the types of vehicles and/or trailers that haul waste to the transformation facility and/or all types of loads hauled to the facility. The weight data for each vehicle and/or trailer type and/or load type shall be based on a statistically representative sample of vehicles and/or trailers and/or loads.

(2) All volumetric conversion factors for each vehicle and/or trailer type and/or load type and a description of the method used to determine the conversion factors shall be included in the transformation facility's annual report of disposal reporting methods as set forth in 18811.9(f).

(3) All volumetric conversion factors and supporting calculations and documentation shall be made available for Board review staff upon request pursuant to section 18811.4.

(4) If the Board determines that volumetric conversion factors are not reasonable or adequately supported, the Board may require the operator to collect new weight data to establish new volumetric conversion factors.

(c) An operator of a transformation facility may submit a request to implement an alternative weighing system (for example, using off–site scales). An alternative weighing system must meet the minimum weighing requirements of this section. An operator shall submit a request to implement an alternative weighing system to the Board as set forth in subsections (d) through (g).

(d) A transformation facility operator's request to implement an alternative weighing system shall include the following minimum information:

(1) transformation facility name,

(2) transformation facility Solid Waste Information System (SWIS) number,

(3) transformation facility address,

(4) operator name,

(5) operator mailing address,

(6) operator telephone number,

(7) operator email address, if available,

(8) justification for the alternative weighing system, such as use of off–site scales,

(9) annual average weight (or annual average volume) of waste accepted per day of operation, and

(10) volumetric conversion factors to be used to estimate weight.

(e) Prior to submitting a request to implement an alternative weighing system, an operator shall provide at least a 30–day notice of the proposed request to, and accept and respond to comments from applicable parties including:

(1) haulers that dispose of waste at the transformation facility,

(2) the agency in which the transformation facility is located,

(3) jurisdictions that dispose of waste at the transformation facility, and

(4) the Local Task Force established pursuant to section 18761 of this Division.

(f) An operator shall send a request to implement an alternative weighing system to Board staff for review. The operator shall also send documentation showing that applicable parties were notified and include a copy of the responses to comments received on the request.

(g) Within 30 working days from receipt of a request, Board staff shall inform the operator, in writing, that the request is complete and accepted for filing, or that the request is deficient and what specific information is still required. Board staff shall approve or disapprove the request within 60 working days from the date the request is deemed complete. The operator may appeal the Board staff determination to the Board.

(h) If subsequent to an approval of a request to implement an alternative weighing system, the Board determines a transformation facility no longer meets the criteria of this section, the Board may rescind the approval.

(i) Nothing in this Article shall prevent an operator from weighing more loads than the minimum required by this section as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to weigh more loads than the minimum required by this section, based upon its own authority to impose requirements on that operator.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.3. Training Requirements for a Transformation Facility.

(a) An operator shall provide training on the disposal reporting system to each gatehouse attendant and disposal report preparer and to other employees who must comply with the requirements of this Article. Training for a gatehouse attendant and report preparer shall cover the content of this Article as it applies to the employees' job duties.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.4. Transformation Facility Records: Retention, Access, and Investigations.

(a) An operator shall prepare disposal reporting records and shall:

(1) Include all information, methods, and calculations required by this Article.

(2) Keep quarterly documentation that verifies jurisdiction of origin allocations reported to the agency in which the transformation facility is located pursuant to section 18811.9(b).

(3) Use a reasonable method to gather the information, such as locally required or facility specific reporting forms, electronic systems, or the optional paper or electronic reporting forms developed by the Board.

(4) Maintain all records for three years in a usable format, such as on electronic media (computer files) or paper copies.

(5) Allow representatives of involved jurisdictions, the agency, haulers, operators, districts, and the Board to inspect the records during normal business hours in a single location within California. Haulers and operators shall only be allowed to inspect records relating to their own operations. An operator is not required to provide records of a jurisdiction's disposal information for reporting years for which the Board has already completed the biennial review cycle for the applicable jurisdiction pursuant to section 41825 of the Public Resources Code.

(A) Upon a request to review records, the operator shall make the records promptly available for inspection. The operator shall respond to the request within ten days, but may indicate that additional time is necessary to make the records available due to time necessary to search for, collect and examine records to respond to the request. In no case shall the inspec-

tion be delayed more than an additional 14 days, unless agreed to by the requestor.

(B) If copies of specific records are requested, either in lieu of inspection or after inspection, the operator shall respond to the request for copies within ten days, but may indicate that additional time is necessary to make the copies due to time necessary to search for, collect, and examine records to respond to the request. In no case shall the copies be delayed more than an additional 14 days, unless agreed to by the requestor. The operator may charge a fee to cover the actual cost of copying. In no case shall the fee exceed ten cents per page, unless local public records act requirements establish another rate.

(C) If a hauler or operator believes that a records request includes information that has been labeled confidential or proprietary by the entity providing that information as defined in sections 17044 through 17046, the operator shall inform the Board. The Board shall use the procedures set forth in section 17046 to determine which records, or parts of records, may be inspected.

(b) An operator shall respond to requests for clarification regarding their records within ten days. Requests must be specific and clearly stated in writing.

(c) The Board may investigate all information, methods, and calculations pursuant to this Article. If the Board determines that any information is inaccurate, the Board may require corrected information.

(d) If an operator that is a jurisdiction, fails to comply with this section, and that failure prevents the Board from accurately determining the jurisdiction's level of Source Reduction and Recycling Element implementation, the Board may initiate the process to issue a compliance order as set forth in section 41825 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.5. Identifying Jurisdiction of Origin.

(a) When required by this Article:

(1) An operator shall identify a jurisdiction by providing its name and specifying whether it is a city, an unincorporated county, or a region.

(2) If expressly allowed by the region, an operator may identify waste from a region formed pursuant to sections 40970 through 40975 of the Public Resources Code as originating in that region, without specifying the individual cities or unincorporated counties, unless otherwise required by the Board.

(3) An operator shall identify waste imported from outside California by specifying the state, country, or Indian country of origin.

(b) Nothing in this Article shall prevent an agency, district, or jurisdiction from enacting ordinances or other measures to ensure that operators and haulers provide additional jurisdiction of origin information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.6. Frequency of Origin Surveys.

(a) At all permitted transformation facilities, origin surveys shall be conducted continuously, each day of facility operation, for every load, except as described in subsections (b), (c), and (d).

(b) An operator of a transformation facility located in a rural city or county, as defined in sections 40183 and 40184 of the Public Resources Code, may conduct origin surveys as specified in subsection (a) or may conduct origin surveys during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). During the standard survey weeks, every load of solid waste shall be surveyed to determine jurisdiction of origin.

(c) At all permitted transformation facilities, origin surveys of each uncompacted load of waste with a volume of 12 cubic yards or less may be conducted as specified in subsection (a) or may be conducted during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). Daily origin surveys shall be conducted for all other loads as specified in subsection (a).

(d) Origin surveys are not required if:

(1) a facility is located in a Board–approved region, the region has authorized the operator to assign all waste tonnage to the region, and the Board does not otherwise require the region to assign waste to the individual cities or unincorporated counties of the region, or

(2) a city or county in which a transformation facility is located authorizes the facility operator to assign all waste tonnage to that city or county.

(e) Nothing in this Article shall prevent an operator from collecting additional information as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to conduct origin surveys more frequently or to collect additional information, based upon its own authority to impose requirements on that operator.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.7. Determining Origin of Waste at a Transformation Facility.

(a) An operator shall determine the origin of all solid waste during the origin survey period set forth in section 18811.6.

(b) During the entire quarter, an operator who sends solid waste to another facility within California shall provide the operator of that facility with the jurisdiction of origin for all material in each load identified by the receiving operator as potential alternative daily cover, alternative intermediate cover, or other beneficial reuse material based on actual daily tonnage. An operator shall also inform a receiving operator of the type or types of material being supplied.

(c) For each load received during the entire quarter, an operator shall track tons of each of the following types of solid waste that underwent transformation, allocated to each jurisdiction:

(1) C&D debris/inert debris,

(2) designated waste, by material type, and

(3) disaster waste.

(d) For all loads not delivered by public contract haulers, an operator shall obtain and maintain a record of the following information:

(1) the jurisdiction of origin of the waste as set forth in 18811.5, and

(2) other additional information that the operator has determined will ensure that jurisdiction of origin information provided is accurate.

(e) An operator shall collect jurisdiction of origin from public contract haulers. The public contract hauler shall provide the jurisdiction of origin as specified in section 18808.7(b).

(f) If a transformation facility accepts solid waste from only one jurisdiction, the operator shall assign all the waste to that jurisdiction.

(g) If an attendant is not present during regular hours of operation, and one cannot be present for the origin survey period set forth in section 18811.6, and the operator does not receive origin information from the haulers delivering waste, then the operator shall assign the waste to the jurisdiction in which the facility is located by labeling it as "no attendant host assigned" waste. An operator shall report to the agency, the total amounts of solid waste assigned to the host jurisdiction pursuant to 18811.9(b). An operator shall also provide information on host assigned waste to a host jurisdiction if requested pursuant to section 18811.9(e).

(h) If solid waste is delivered to the facility and information on the jurisdiction of origin is not provided by the delivering hauler or operator as specified in this Article, then the operator shall assign the waste to the jurisdiction in which the facility is located by labeling it as "host assigned" waste and send written notification to the agency regarding hauler or operator non–compliance as specified in section 18811.11. An operator shall report to the agency, the total amounts of solid waste assigned

to the host jurisdiction pursuant to 18811.9(b). An operator shall also provide information on host assigned waste to a host jurisdiction if requested pursuant to section 18811.9(e).

(i) If a transformation facility that conducts continuous daily origin surveys as set forth in section 18811.6(a) accepts solid waste from more than one jurisdiction, then the operator shall assign the waste based on the actual jurisdiction of origin information reported by haulers and station operators. If a transformation facility also conducts origin surveys for uncompacted loads of 12 cubic yards or less during at least a one-week per quarter survey period, the operator shall estimate the amount of waste assigned to each jurisdiction as described in subsection (k) and add these tonnage allocations to the tonnage allocations that were based on daily origin survey information.

(j) If a transformation facility in a rural jurisdiction accepts solid waste from more than one jurisdiction and only conducts origin surveys during one week per quarter as set forth in section 18811.6(b), the operator shall do the following steps in order:

(1) Obtain information on the jurisdiction(s) of origin for each load of waste delivered to the facility on the dates set in section 18811.6(b).

Example:

Four loads delivered during the survey week.

Load 1 = 5 tons from City A

Load 2 = 5 tons from City B

Load 3 = 10 tons from City C

Load 4 = 5 tons from City B

(2) Calculate the tons of solid waste assigned to each jurisdiction during the survey week. The operator shall either add up the tons of solid waste accepted from each jurisdiction, or the amounts of solid waste that underwent transformation from each jurisdiction after adjusting for front-end diversion at the transformation facility.

Example:

City A = 5 tons (Load 1)

City B = 10 tons (Load 2 + Load 4)

City C = 10 tons (Load 3)

(3) Calculate the percentage of waste assigned to each jurisdiction during the survey week by dividing the tons from paragraph (2) by the total tons of solid waste for the survey period.

Example:

25 tons delivered during the survey week.

City A = 5 tons/25 tons = 0.2 (20%)

City B = 10 tons/25 tons = 0.4 (40%)

City C = 10 tons/25 tons = 0.4 (40%)

(4) Calculate the number of tons of solid waste that underwent transformation from each jurisdiction during the quarter by multiplying the percentage from paragraph (3) with the total tons of solid waste that underwent transformation in each quarter.

Example:

1000 tons of solid waste underwent transformation during the quarter.

City A = 0.2 x 1000 tons = 200 tons

City B = 0.4 x 1000 tons = 400 tons

City C = 0.4 x 1000 tons = 400 tons

(k) If an operator conducts origin surveys of each uncompacted load of solid waste with a volume of 12 cubic yards or less during a one-week survey period each quarter pursuant to section 18811.6(c), then the operator shall calculate the estimated tons of solid waste delivered in these loads from each jurisdiction for the quarter. The calculated tonnage allocations shall be based on the actual origin information reported by haulers during the survey period. The operator shall do the following steps in order.

(1) Obtain information on the jurisdiction(s) of origin for each uncompacted load with a volume of 12 cubic yards or less delivered to the transformation facility on the dates set forth in section 18811.6(c).

Example:

Four uncompacted loads of 12 cubic yards or less delivered during the survey week.

Load 1 = 0.5 ton from City A

Load 2 = 0.5 ton from City B

Load 3 = 0.5 ton from City C

Load 4 = 0.5 ton from City B

(2) Calculate the tons of solid waste delivered in uncompacted loads of 12 cubic yards or less assigned to each jurisdiction during the survey week. The operator shall either add up the tons of solid waste accepted from each jurisdiction, or the amounts of solid waste that underwent transformation from each jurisdiction after adjusting for front-end diversion at the transformation facility.

Example:

City A = 0.5 ton (Load 1)

City B = 1 ton (Load 2 + Load 4)

City C = 0.5 ton (Load 3)

(3) Calculate the percentage of solid waste assigned to each jurisdiction during the survey week by dividing the tons determined in paragraph (2) by the total tons of solid waste delivered in uncompacted loads of 12 cubic yards or less during the survey week.

Example:

2 tons delivered in uncompacted loads of 12 cubic yards or less during the survey week.

City A = 0.5 ton/2 tons = 0.25 (25%)

City B = 1 ton/2 tons = 0.5 (50%)

City C = 0.5 ton/2 tons = 0.25 (25%)

(4) Calculate the number of tons delivered in uncompacted loads of 12 cubic yards or less that underwent transformation from each jurisdiction during the quarter by multiplying the percentages from paragraph (3) with the total tons of solid waste that underwent transformation during the quarter that were delivered in uncompacted loads of 12 cubic yards or less.

Example:

100 tons were delivered in uncompacted loads of 12 cubic yards or less and underwent transformation during the quarter.

City A = 0.25 X 100 tons = 25 tons

City B = 0.5 X 100 tons = 50 tons

City C = 0.25 X 100 tons = 25 tons

HISTORY

1. New section filed 9-21-2005; operative 1-1-2006 (Register 2005, No. 38).

§ 18811.8. Applicability of Alternative Reporting Systems.

(a) An agency may establish alternative requirements with which an operator must comply as set forth in section 18812.8.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9-21-2005; operative 1-1-2006 (Register 2005, No. 38).

§ 18811.9. Transformation Facility Disposal Reports: Content, Timing, and Distribution.

(a) An operator shall track the total tons of solid waste accepted by the facility and sent off-site for reuse, recycling, or composting.

(b) An operator shall provide the following quarterly information to the agency in which the facility is located. An operator shall keep copies of the quarterly information and all supporting documentation used to prepare the information pursuant to the record keeping requirements in section 18811.4. An operator shall report, by jurisdiction of origin (including host assigned jurisdiction of origin, if applicable), information on the amounts and types of all solid waste specified in this subsection. The operator shall report:

(1) the facility name and Solid Waste Information System (SWIS) number,

(2) the reporting quarter and year,

(3) the total tons of solid waste accepted at the facility,

(4) the total tons of each type of material from each jurisdiction identified for potential reuse as:

(A) alternative daily cover, and

(B) alternative intermediate cover,

(5) the total tons from each jurisdiction that underwent transformation, and

(c) An operator shall provide quarterly summary information to the agency in which the facility is located. The summary information shall include:

(1) the total tons of solid waste accepted at the facility,

(2) the total tons of solid waste identified for potential reuse, separated as follows:

(A) the total tons of each type of alternative daily cover,

(B) the total tons of each type of alternative intermediate cover, and

(C) the total tons of each type of other beneficial reuse material,

(3) the total tons of other solid waste sent off–site for reuse, recycling, or composting,

(4) the total tons of all solid waste that underwent transformation,

(5) the total tons of untreated ash resulting from the transformation process, and

(6) a brief summary of the methods used to determine the jurisdictions of origin.

(d) The operator shall provide the quarterly information in subsections (b) and (c) to the agency by the due dates in section 18811.10.

(e) Upon request by a jurisdiction, an operator shall provide all quarterly information pertaining to the jurisdiction by the due dates in section 18811.10. In lieu of sending quarterly disposal information directly to a jurisdiction, an operator may electronically submit the information to the Board using a format that would allow the Board to make the information available on its web site. In addition to the amounts reported in subsection (b)(3) through (5), a jurisdiction's request for quarterly information may include:

(1) the total tons of each type of material identified as other potential beneficial reuse material (excluding alternative daily cover and alternative intermediate cover),

(2) the total tons of C&D debris/inert debris that underwent transformation,

(3) the total tons of each type of designated waste that underwent transformation, and

(4) the total tons of disaster waste that underwent transformation.

(f) An operator shall send an annual report on disposal reporting methods to the agency in which the facility is located. An operator shall send the annual report by the due date in section 18811.10. An operator shall keep a copy of the annual report in the facility's records pursuant to section 18811.4. The report shall cover each year beginning on January 1 and ending on December 31 and shall include the following:

(1) the facility name and Solid Waste Information System (SWIS) number,

(2) operator name,

(3) operator mailing address,

(4) operator telephone number,

(5) operator email address, if available,

(6) all volumetric conversion factors used for each vehicle and/or trailer type and/or load type and a description of the method used to determine the conversion factors in compliance with section 18811.2(b)(1),

(7) the frequency of each type of origin survey,

(8) the percentage of the total tons of waste that underwent transformation assigned to each jurisdiction that was based on:

(A) origin information collected during a one–week per quarter survey period as allowed in section 18811.6(b) or (c), if applicable, and

(B) volumetric conversion factors rather than actual weight measurements,

(9) the method(s) of determining jurisdiction of origin, including the questions gatehouse attendants ask haulers,

(10) the method(s) used to verify origin information, if applicable,

(11) any restrictions on which jurisdictions may use the facility,

(12) any differences in transformation facility tipping fees based on jurisdiction of origin,

(13) a listing or description of the computer program(s) or method used to track waste tonnage and origin information,

(14) the method(s) used to track C&D debris/inert debris loads, if applicable,

(15) the designated waste types accepted and method(s) of tracking designated wastes, if applicable,

(16) the method(s) used to track disaster waste loads, if applicable,

(17) the final disposition of ash resulting from the transformation process, including the method of ash diversion, if applicable, and

(18) the days and hours of operation, including all significant variations in the schedule during the reporting year.

(g) If an operator amends disposal reporting information, the operator is only required to provide the amended information to the agency once per quarter (the operator shall still allow access to records in accordance with section 18811.4). An operator is not required to provide amended disposal information for reporting years once the Board has completed the biennial review cycle for those years pursuant to section 41825 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.10. Disposal Reporting Due Dates for a Transformation Facility.

(a) An operator of a transformation facility shall send a quarterly report to the agency in which the facility is located as described in sections 18811.9(b) and (c). If requested by a jurisdiction, the operator shall also send a quarterly report to the jurisdiction as set forth in section 18811.9(e). An operator shall send the report by May 31 for the first quarter, August 31 for the second quarter, November 30 for the third quarter, and February 28 for the fourth quarter of the previous year.

(b) An operator of a transformation facility shall send an annual report on disposal reporting methods to the agency in which the facility is located, as described in section 18811.9(f). An operator shall send this annual report by March 15 for the previous year. An operator shall respond to requests for clarification regarding jurisdiction of origin allocations as specified in section 18811.4.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18811.11. Non–Compliance.

(a) A hauler or operator shall inform the agency if a hauler or operator fails to comply with this Article by not providing the operator with information required for the preparation of quarterly disposal reports. The hauler or operator shall send written information on specific allegations of non–compliance to the agency by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year.

(b) A hauler or operator may inform the agency of other non–compliance issues concerning a hauler or operator. The hauler or operator shall send written information on specific allegations to the agency.

(c) A hauler or operator may inform the Board if an agency fails to comply with this Article. A hauler or operator shall send written information on specific allegations of agency non–compliance to the Board.

(d) Allegations of non–compliance shall be handled in accordance with the process set forth in section 18804.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812. Disposal Reporting Requirements for an Agency.

(a) Sections 18812.1 through 18812.11 establish the requirements for an agency as follows:

(1) Signage for an Agency Section 18812.1

(2) Scales and Weighing Requirements for an Agency Section 18812.2
(3) Training Requirements for an Agency Section 18812.3
(4) Agency Records: Retention, Access, and Investigations Section 18812.4
(5) Identifying Jurisdiction of Origin Section 18812.5
(6) Frequency of Origin Surveys Section 18812.6
(7) Determining Origin of Waste for an Agency Section 18812.7
(8) Applicability of Alternative Reporting Systems Section 18812.8
(9) Agency Disposal Reports: Content, Timing, and Distribution Section 18812.9
(10) Disposal Reporting Due Dates for an Agency Section 18812.10
(11) Non–compliance Section 18812.11

1. New section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. Amendment of subsection (a)(4) and NOTE filed 11–5–97; operative 11–5–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 45).
3. Change without regulatory effect adding subsection (f) filed 8–25–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 34).
4. Repealer and new section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.1. Signage for an Agency. (Not applicable)

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.2. Scales and Weighing Requirements for an Agency. (Not applicable)

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.3. Training Requirements for an Agency.

(a) An agency shall provide training on the disposal reporting system to each disposal report preparer and to other employees who must comply with the requirements of this Article. Training for a report preparer shall cover the content of this Article as it applies to the report preparer's job duties.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.4. Agency Records: Retention, Access, and Investigations.

(a) An agency shall prepare disposal reporting records and shall:

(1) Include all information, methods, and calculations required by this Article.

(2) Keep quarterly documentation that verifies jurisdiction of origin allocations reported to the Board and jurisdictions pursuant to sections 18812.9(a), (c) and (d).

(3) Use a reasonable method to gather the information, such as locally required or facility specific reporting forms, electronic systems, or the optional paper or electronic reporting forms developed by the Board.

(4) Maintain all records for three years in a usable format, such as on *electronic media* (computer files) or paper copies.

(5) Allow representatives of involved jurisdictions, haulers, operators, districts, and the Board to inspect the records during normal business hours in a single location within California. Haulers and operators shall only be allowed to inspect records relating to their own operations. An agency is not required to provide records of a jurisdiction's disposal information for reporting years for which the Board has already completed the biennial review cycle for the applicable jurisdiction pursuant to section 41825 of the Public Resources Code.

(A) Upon a request to review records, the agency shall make the records promptly available for inspection. The agency shall respond to the request within ten days, but may indicate that additional time is necessary to make the records available due to time necessary to search for, collect and examine records to respond to the request. In no case shall the inspection be delayed more than an additional 14 days, unless agreed to by the requestor.

(B) If copies of specific records are requested, either in lieu of inspection or after inspection, the agency shall respond to the request for copies within ten days, but may indicate that additional time is necessary to make the copies due to time necessary to search for, collect, and examine records to respond to the request. In no case shall the copies be delayed more than an additional 14 days, unless agreed to by the requestor. The agency may charge a fee to cover the actual cost of copying. In no case shall the fee exceed ten cents per page, unless local public records act requirements establish another rate.

(C) If an agency believes that a records request includes information that has been labeled confidential or proprietary by the entity providing that information as defined in sections 17044 through 17046, the agency shall inform the Board. The Board shall use the procedures set forth in section 17046 to determine which records, or parts of records, may be inspected.

(b) An agency shall respond to requests for clarification regarding their records within ten days. Requests must be specific and clearly stated in writing.

(c) The Board may investigate all information, methods, and calculations pursuant to this Article. If the Board determines that any information is inaccurate, the Board may require corrected information.

(d) If an agency fails to comply with this section, and that failure prevents the Board from accurately determining the agency's level of Source Reduction and Recycling Element implementation, the Board may initiate the process to issue a compliance order as set forth in section 41825 of the Public Resources Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.5. Identifying Jurisdiction of Origin.

(a) When required by this Article:

(1) An agency shall identify a jurisdiction by providing its name and specifying whether it is a city, an unincorporated county, or a region.

(2) If expressly allowed by the region, an operator may identify waste from a region formed pursuant to sections 40970 through 40975 of the Public Resources Code as originating in that region, without specifying the individual cities or unincorporated counties, unless otherwise required by the Board.

(3) An agency shall identify waste imported from outside California by specifying the state, country, or Indian country of origin.

(b) Nothing in this Article shall prevent an agency from enacting ordinances or other measures to ensure that operators and haulers provide additional jurisdiction of origin information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.6. Frequency of Origin Surveys.

(a) At all permitted solid waste facilities, origin surveys shall be conducted continuously, each day of facility operation, for every load, except as described in subsections (b), (c), and (d).

(b) An operator of a permitted solid waste facility located in a rural city or county, as defined in sections 40183 and 40184 of the Public Resources Code, may conduct origin surveys as specified in subsection (a) or may conduct origin surveys during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14,

September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to subsections [e] and [f]). During the standard survey weeks, every load of solid waste shall be surveyed to determine jurisdiction of origin.

(c) At all permitted solid waste facilities, origin surveys of each uncompacted load of waste with a volume of 12 cubic yards or less may be conducted as specified in subsection (a) or may be conducted during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to subsections [e] and [f]). Daily origin surveys shall be conducted for all other loads as specified in subsection (a).

(d) Origin surveys are not required if:

(1) a facility is located in a Board–approved region, the region has authorized the operator to assign all waste tonnage to the region, and the Board does not otherwise require the region to assign waste to the individual cities or unincorporated counties of the region, or

(2) a city or county in which a facility is located authorizes the facility operator to assign all waste tonnage to that city or county.

(e) If the standard origin survey weeks in subsections (b) and (c) are not representative of disposal activity or facility operation, an agency may request alternative survey weeks that are representative of local conditions. During the alternative survey weeks, every load of solid waste specified in subsections (b) and (c), shall be surveyed to determine jurisdiction of origin. If an agency selects origin survey weeks in addition to the standard survey weeks, the additional weeks shall not require Board staff approval as alternative survey weeks. Continuous origin surveys of every load of solid waste during each day of facility operation includes and exceeds the standard survey week, and shall not require Board staff approval as alternative survey weeks.

(f) Prior to using alternative survey weeks, the agency shall:

(1) Provide at least a 30–day notice of the proposed weeks to, and accept and respond to comments from:

(A) haulers and operators of facilities within the boundaries of the agency,

(B) jurisdictions that dispose of waste within the boundaries of the agency, and

(C) Local Task Force established pursuant to section 18761 of this Division.

(2) Submit the responses to comments received and the list of alternative survey weeks to the Board for review and approval. Within 30 working days from receipt of this material, Board staff shall inform the applicant, in writing, that the information provided is complete and accepted for filing, or that the application is deficient and what specific information is required. Board staff shall approve or disapprove of the alternative survey weeks within 60 working days from the date the agency submits a completed package. The agency may appeal the Board staff determination to the Board.

(3) Notify all haulers and operators of approval by Board staff prior to the first alternative survey week.

(g) Nothing in this Article shall prevent an operator from collecting additional information as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to conduct origin surveys more frequently or to collect additional information, based upon its own authority to impose requirements on that operator.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.7. Determining Origin of Waste for an Agency.

(a) Nothing in this Article shall prevent an agency from requiring an operator to collect additional information to document waste origin from a hauler based upon its own authority to impose requirements on that operator.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.8. Applicability of Alternative Reporting Systems.

(a) An agency shall comply with the system of requirements and performance standards set forth in this Article. To implement the performance standards, an agency may require haulers or operators to follow procedures in addition to those set forth in this Article, if necessary to address local conditions.

(b) An agency may set up an alternative reporting system that gathers the required information on the amounts and origins of solid waste, and the amounts and origins of alternative daily cover, alternative intermediate cover, and other beneficial reuse by material type from haulers and operators in a different manner than set forth in sections 18808.7 18808.9, 18809.7, 18809.9, 18810.7, 18810.9, 18811.7 and 18811.9. If a system collects at least the required information, during at least the standard origin survey period set forth in section 18812.6, and the system requires disposal information collected to be reported by the same entities, then the system shall not be considered an alternative system, and shall not require Board staff approval as an alternative system. A system that meets or exceeds all of the minimum requirements using methods specified in this Article, shall not be considered an alternative system, and shall not require Board staff approval as an alternative system. If an agency uses an alternative reporting system, that system shall:

(1) Provide all the information required by this Article.

(2) Provide information as accurate as required by the system in this Article.

(3) Provide landfill disposal information consistent with the number of tons reported to the Board of Equalization that are subject to the fee pursuant to section 48000 of the Public Resources Code and section 45151 of the Revenue and Taxation Code.

(4) Comply with all the provisions of sections 18804, 18808.4, 18808.5, 18808.10, 18808.11, 18809.4, 18809.5, 18809.10, 18809.11, 18810.4, 18810.5, 18810.10, 18810.11, 18811.4, 18811.5, 18811.10, 18811.11, 18812.4, 18812.5, 18812.9, 18812.10, 18812.11, 18813.4, 18813.5, 18813.9, 18813.10, 18813.11, 18814.4, 18814.5, 18814.9, 18814.10, and 18814.11 of this Article.

(c) Prior to using an alternative reporting system, the agency shall:

(1) Provide at least a 30–day notice of the proposed system to, and accept and respond to comments from:

(A) haulers and operators of facilities within the boundaries of the agency,

(B) jurisdictions within the boundaries of the agency,

(C) jurisdictions outside the boundaries of the agency that dispose of waste within the boundaries of the agency, and

(D) the Local Task Force established pursuant to section 18761 of this Division.

(2) Submit a description of how the alternative system meets the minimum requirements and include a copy of the responses to comments received, to the Board for review and approval. Within 30 working days from receipt of this material, Board staff shall inform the applicant, in writing, that the information provided is complete and accepted for filing, or that the application is deficient and what specific information is still required. Board staff shall approve or disapprove of the alternative system within 60 working days from the date the agency submits a completed package. The agency may appeal the Board staff determination to the Board.

(3) Notify all haulers and operators of the approval by Board staff prior to using the alternative system.

(d) If subsequent to approval of an alternative reporting system the Board determines an agency no longer meets the criteria of this section, the Board may rescind the approval.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY
1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.9. Agency Disposal Reports: Content, Timing, and Distribution.

(a) An agency shall use information provided by operators of landfills to determine quarterly totals for the amounts of solid waste specified in this subsection.

(1) For each permitted landfill located within the agency, an agency shall report:

(A) the facility name and Solid Waste Information System (SWIS) number,

(B) the reporting year and quarter,

(C) the total tons of soil accepted by the landfill and used as cover or for other on–site uses,

(D) the total tons of solid waste accepted at the landfill (excluding soil used on–site),

(E) the total tons of solid waste used on–site, separated as follows:

(i) the total tons of each type of alternative daily cover,

(ii) the total tons of each type of alternative intermediate cover, and

(iii) the total tons of each type of other beneficial reuse material,

(F) the total tons of other solid waste accepted at the landfill and sent off–site for reuse, recycling, or composting,

(G) the total tons of solid waste disposed at the landfill,

(H) either:

(i) the estimated in–place density achieved at the landfill in units of pounds of waste per cubic yard of waste and the estimated waste–to–cover ratio used at the landfill, or

(ii) the airspace utilization factor (tons of waste per cubic yard of landfill airspace), and

(This information shall be included in the quarterly report so that the Board may accurately calculate the remaining capacity of the landfill as well as regional and statewide remaining capacity. It is not the intent of this section to subject a landfill to a Notice of Violation should it subsequently be determined that these estimates are unknowingly inaccurate.)

(I) a brief summary of the methods used to determine the jurisdictions of origin.

(2) For each permitted landfill, located within the agency, an agency shall report the total tons of solid waste allocated to each region, city, and unincorporated county in California and to each state, country, and Indian country from which waste was imported. When applicable, an agency shall also separately report the total tons of waste that were host assigned to a jurisdiction. The agency shall report:

(A) the tons of all solid waste accepted at each landfill (excluding soil used as cover or for other on–site uses),

(B) the tons of solid waste reused on–site at the landfill, separated as follows:

(i) the tons of each type of alternative daily cover used during the quarter, and

(ii) the tons of each type alternative intermediate cover used during the quarter, and

(C) the tons of solid waste disposed at each landfill.

(b) Prior to submitting a quarterly report to the Board, an agency shall verify that the tons of disposal reported by a landfill equal the tons of waste subject to the Integrated Waste Management Fee as reported to the Board of Equalization on the landfill's fee return. If a landfill is not required to report tons disposed to the Board of Equalization as described in sections 18810.9(a)(2) and (3), an agency shall verify that the tons accepted at the facility minus the tons diverted equal the tons reported as disposal.

(c) An agency shall use information provided by operators of transformation facilities to determine quarterly totals for the amounts of solid waste specified in this subsection.

(1) For each permitted transformation facility located within the agency, an agency shall report:

(A) the facility name and Solid Waste Information System (SWIS) number,

(B) the reporting year and quarter,

(C) the total tons of all solid waste accepted at each transformation facility,

(D) the total tons of solid waste identified for potential reuse, separated as follows:

(i) the total tons of each type of alternative daily cover,

(ii) the total tons of each type of alternative intermediate cover, and

(iii) the total tons of each type of other beneficial reuse material,

(E) the total tons of solid waste sent off–site for reuse, recycling, or composting,

(F) the total tons of solid waste that underwent transformation,

(G) the total tons of untreated ash resulting from the transformation process, and

(H) a brief summary of the methods used to determine the jurisdictions of origin.

(2) For each permitted transformation facility located within the agency, an agency shall report the total tons of solid waste allocated to each region, city, and unincorporated county in California and to each state, country, and Indian country from which waste was imported. The agency shall report:

(A) the total tons of all solid waste accepted at each transformation facility,

(B) the total tons of each type of material identified for potential reuse as:

(i) alternative daily cover, and

(ii) alternative intermediate cover, and

(C) tons of solid waste that underwent transformation at each facility.

(d) An agency shall use information provided by public contract haulers and station operators to determine quarterly totals for:

(1) tons exported from California from within the agency, and

(2) tons exported from California from within the agency allocated to each region, individual city, or individual unincorporated county. For each tonnage allocation, an agency shall identify the name of the disposal site and the state, country, or Indian country to which the waste was sent.

(e) An agency shall compile this information using an electronic form developed by the Board, the agency's own electronic form that the Board's computer system is capable of converting, or paper forms. In lieu of sending quarterly disposal information directly to a jurisdiction, an agency may electronically submit the information to the Board using a format that would allow the Board to make the information available on its web site. An agency shall send this information to:

(1) each California jurisdiction within the agency,

(2) each California jurisdiction outside the agency that uses a facility within the agency,

(3) any region of which the agency is a member, and

(4) the Board.

(f) If an agency does not dispose of solid waste within its boundaries and does not export waste from California from within the agency, the agency shall submit a quarterly report to the Board stating that no waste was disposed within the agency or exported from California from within the agency.

(g) Each year, an agency shall forward to the Board an annual report on disposal reporting methods from each of the facilities within its boundaries.

(h) An agency shall provide the required information by the due dates in section 18812.10.

(i) If an agency receives amended disposal information from a facility operator or a hauler, the agency shall send amended information to the Board and affected jurisdictions according to the schedule set forth in section 18812.10.

(j) An agency shall keep copies of the information reported pursuant to this section and all supporting documentation used to prepare the information pursuant to the record keeping requirements in section

18812.4. An agency shall also keep a copy of each quarterly station notification received pursuant to section 18809.9(b).

(k) If a hauler or operator does not provide an agency with required information, then the agency shall send written notification to the Board regarding hauler or operator non–compliance as specified in section 18812.11.

NOTE: Authority cited: Sections 40502, 41781.3 and 41821.5, Public Resources Code. Reference: Sections 40508 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.10. Disposal Reporting Due Dates for an Agency.

(a) An agency shall send a quarterly report to the Board and affected local governments, as set forth in section 18812.9. In lieu of sending disposal information directly to a local government, an agency may electronically submit the information to the Board using a format that would allow the Board to make the information available on its web site.

(1) An agency shall send the quarterly report by July 15 for the first quarter, October 15 for the second quarter, January 15 for the third quarter of the previous year, and April 15 for the fourth quarter of the previous year.

(2) If an agency receives amended disposal information from a facility operator or a hauler, the agency shall send the Board and each affected jurisdiction an amended report for each affected quarter of the previous year. In an amended report, the agency shall highlight or otherwise identify changes from the prior version. The agency shall send the amended report between April 15 and May 15 for the previous year. An agency may not submit amended disposal information to the Board after May 15 for the previous year, unless Board staff specifically request amended information from the agency. The agency shall send amended information to the affected jurisdictions as the information becomes available throughout the year. An agency may send the required amended information to jurisdictions at the time of the next quarterly reporting due date. An agency is not required to send amended information more frequently than once a quarter. An agency is not required to provide amended disposal information for reporting years once the Board has completed the biennial review cycle for those years pursuant to section 41825 of the Public Resources Code.

(b) An agency shall forward an annual report on disposal reporting methods from each of the permitted solid waste facilities within its boundaries to the Board. An agency shall forward the reports by April 15 for the previous year. An agency shall respond to requests for clarification regarding jurisdiction of origin allocations as specified in section 18812.4.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18812.11. Non–Compliance.

(a) A hauler or operator shall inform the agency if a hauler or operator fails to comply with this Article by not providing the operator with information required for the preparation of quarterly disposal reports. The hauler or operator shall send written information on specific allegations of non–compliance to the agency by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year. The agency shall send written information on specific allegations of non–compliance to the Board no later than 60 working days after receiving information from a hauler or operator. The agency shall also send any additional information it has regarding the allegations of non–compliance in writing.

(b) A hauler or operator may inform the agency of other non–compliance issues concerning a hauler or operator. The hauler or operator shall send written information on specific allegations to the agency. The agency shall forward written information on specific allegations of non–compliance to the Board no later than 60 working days after receiving information from a hauler or operator.

(c) An agency shall inform the Board if a hauler or operator fails to comply with this Article by not providing the agency with information required for the preparation of quarterly disposal reports. The agency shall send written information on specific allegations of non–compliance to the Board by July 15 for the first quarter, October 15 for the second quarter, January 15 for the third quarter of the previous year, and April 15 for the fourth quarter of the previous year.

(d) Allegations of non–compliance shall be handled in accordance with the process set forth in section 18804.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813. Disposal Reporting Requirements for a Jurisdiction.

(a) Sections 18813.1 through 18813.11 establish the requirements for a jurisdiction as follows:

(1) Signage for a Jurisdiction	Section 18813.1
(2) Scales and Weighing Requirements for a Jurisdiction	Section 18813.2
(3) Training Requirements for a Jurisdiction	Section 18813.3
(4) Jurisdiction Records: Retention, Access, and Investigations	Section 18813.4
(5) Identifying Jurisdiction of Origin	Section 18813.5
(6) Frequency of Origin Surveys	Section 18813.6
(7) Determining Origin of Waste for a Jurisdiction	Section 18813.7
(8) Applicability of Alternative Reporting Systems	Section 18813.8
(9) Jurisdiction Disposal Reports: Content, Timing, and Distribution	Section 18813.9
(10) Disposal Reporting Due Date Information	Section 18813.10
(11) Non–compliance	Section 18813.11

(b) If a jurisdiction operates as a waste hauler, the jurisdiction shall also meet the hauler requirements specified in sections 18808.1 through 18808.11.

(c) If a jurisdiction operates as a station operator, the jurisdiction shall also meet the station requirements specified in sections 18809.1 through 18809.11.

(d) If a jurisdiction operates as a landfill operator, the jurisdiction shall also meet the landfill requirements specified in sections 18810.1 through 18810.11.

(e) If a jurisdiction operates as a transformation facility operator, the jurisdiction shall also meet the transformation facility requirements specified in sections 18811.1 through 18811.11.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 12–29–94; operative 12–29–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 52).
2. New subsections (b)–(c)(4) filed 6–19–95; operative 6–19–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 25).
3. Amendment of subsection (c)(2) filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (c)(2) refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).
6. Amendment of subsection (a)(3) and NOTE filed 11–5–97; operative 11–5–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 45).
7. Change without regulatory effect amending subsection (c) and amending NOTE filed 6–26–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 26).

8. Repealer and new section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.1. Signage for a Jurisdiction. (Not applicable)

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.2. Scales and Weighing Requirements for a Jurisdiction. (Not applicable)

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.3. Training Requirements for a Jurisdiction.

(a) A jurisdiction shall provide training on the disposal reporting system to each report preparer and to other employees who must comply with the requirements of this Article. Training for a report preparer shall cover the content of this Article as it applies to the report preparer's job duties.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.4. Jurisdiction Records: Retention, Access, and Investigations.

(a) If a jurisdiction operates as a hauler, then the jurisdiction shall prepare and retain disposal reporting records and allow affected entities access to the records as set forth in section 18808.4.

(b) If a jurisdiction operates as a station operator, then the jurisdiction shall prepare and retain disposal reporting records and allow affected entities access to the records as set forth in section 18809.4.

(c) If a jurisdiction operates as a landfill operator, then the jurisdiction shall prepare and retain disposal reporting records and allow affected entities access to the records as set forth in section 18810.4.

(d) If a jurisdiction operates as a transformation facility operator, then the jurisdiction shall prepare and retain disposal reporting records and allow affected entities access to the records as set forth in section 18811.4.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.5. Identifying Jurisdiction of Origin.

(a) When required by this Article:

(1) A jurisdiction that operates as a hauler or operator shall identify a jurisdiction by providing its name and specifying whether it is a city, an unincorporated county, or a region.

(2) If expressly allowed by the region, a jurisdiction that operates as a hauler or operator may identify waste from a region formed pursuant to sections 40970 through 40975 of the Public Resources Code as originating in that region, without specifying the individual cities or unincorporated counties, unless otherwise required by the Board.

(3) A jurisdiction that operates as a hauler or operator shall identify waste imported from outside California by specifying the state, country, or Indian country of origin.

(b) Nothing in this Article shall prevent a jurisdiction from enacting ordinances or other measures to ensure that operators and haulers provide accurate jurisdiction of origin information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.6. Frequency of Origin Surveys.

(a) At all permitted solid waste facilities, origin surveys shall be conducted continuously, each day of facility operation, for every load, except as described in subsections (b), (c), and (d).

(b) An operator of a permitted solid waste facility located in a rural city or county, as defined in sections 40183 and 40184 of the Public Resources Code, may conduct origin surveys as specified in subsection (a) or may conduct origin surveys during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). During the standard survey weeks, every load of solid waste shall be surveyed to determine jurisdiction of origin.

(c) At all permitted solid waste facilities, origin surveys of each uncompacted load of waste with a volume of 12 cubic yards or less may be conducted as specified in subsection (a) or may be conducted during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). Daily origin surveys shall be conducted for all other loads as specified in subsection (a).

(d) Origin surveys are not required if:

(1) a facility is located in a Board–approved region, the region has authorized the operator to assign all waste tonnage to the region, and the Board does not otherwise require the region to assign waste to the individual cities or unincorporated counties of the region, or

(2) a city or county in which a facility is located authorizes the facility operator to assign all waste tonnage to that city or county.

(e) Nothing in this Article shall prevent an operator from collecting additional information as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to conduct origin surveys more frequently or to collect additional information, based upon its own authority to impose requirements on that operator.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.7. Determining Origin of Waste for a Jurisdiction. (Not applicable)

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.8. Applicability of Alternative Reporting Systems.

(a) An agency may establish alternative requirements with which a jurisdiction must comply as set forth in section 18812.8.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.9. Jurisdiction Disposal Reports: Content, Timing, and Distribution.

(a) A jurisdiction shall use the information provided by agencies and districts pursuant to this Article to determine the tons of solid waste disposed from January 1 to December 31 in each year. A jurisdiction shall use this disposal amount for the purposes of measuring achievement of the 50% goal. This amount shall be the sum of solid waste from the jurisdiction, including:

(1) the tons disposed at each permitted landfill,

(2) the tons that underwent transformation at a permitted solid waste facility in excess of 10% of a jurisdiction's adjusted base–year generation as calculated in section 18797.3, and pursuant to section 41783 of the Public Resources Code,

(3) potential alternative daily cover, alternative intermediate cover, and other beneficial reuse material which is not used in accordance with the conditions set forth in sections 20690, 20700, and 20685 of Title 27 of the California Code of Regulations, unless it is otherwise diverted, and

(4) the tons exported from California, minus any portion of the waste that the jurisdiction proves was diverted.

(b) In its annual report to the Board pursuant to section 41821(f) of the Public Resources Code, a jurisdiction shall report the amounts determined pursuant to this section.

(c) In its annual report to the Board, a jurisdiction may also provide additional information related to the tons of waste disposed in California, including "host assigned" waste, or exported from California for disposal. If the jurisdiction provides additional information, the annual report shall describe how it was obtained.

(d) If a jurisdiction operates as a hauler, the jurisdiction shall also meet the reporting requirements specified in section 18808.9.

(e) If a jurisdiction operates as a station operator, the jurisdiction shall also meet the reporting requirements specified in section 18809.9.

(f) If a jurisdiction operates as a landfill operator, the jurisdiction shall also meet the reporting requirements specified in section 18810.9.

(g) If a jurisdiction operates as a transformation facility operator, the jurisdiction shall also meet the reporting requirements specified in section 18811.9.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41780 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.10. Disposal Reporting Due Date Information.

(a) An agency is required to send a quarterly report to each affected jurisdiction, as set forth in section 18812.9. Haulers, operators, and districts are required to provide quarterly disposal information as set forth in sections 18808.9, 18809.9, 18810.9, 18811.9, and 18814.9. Disposal information is due according to the following tables:

Table 1: Due Dates for Information to Facilities

Quarter	*Information Due from Haulers to Facilities*	*Information Due from Stations to Other Stations*	*Information Due from Stations to Landfills and Transformation Facilities*	*Reports Due from Districts to Facilities*
First: Jan. 1–Mar. 31	Apr. 15	Apr. 30	May 15	See section 18814.10
Second: Apr. 1–Jun. 30	Jul. 15	Jul. 31	Aug. 15	See section 18814.10
Third: Jul. 1–Sep. 30	Oct. 15	Oct. 31	Nov. 15	See section 18814.10
Fourth: Oct. 1–Dec. 31	Jan. 15	Jan. 31	Feb. 15	See section 18814.10

Table 2: Reports to Agencies, the Board, and Jurisdictions

Quarter	*Notifications Due from Stations to Agencies**	*Reports Due from Landfills and Transformation Facilities to Agencies**	*Export Reports Due from Haulers and Stations**	*Reports Due from Districts to Agencies**	*Reports Due from Agencies to the Board and Jurisdictions*
First: Jan. 1–Mar. 31	Jun. 15	Jun. 15	Jun. 15	Jun. 15	Jul. 15
Second: Apr. 1–Jun. 30	Sep. 15	Sep. 15	Sep. 15	Sep. 15	Oct. 15
Third: Jul. 1–Sep. 30	Dec. 15	Dec. 15	Dec. 15	Dec. 15	Jan. 15
Fourth: Oct. 1–Dec. 31	Mar. 15**	Mar. 15**	Mar. 15	Mar. 15	Apr. 15

* Upon request, reports may be sent to jurisdictions or made available to jurisdictions using the Board's electronic filing.
** Station, landfill, and transformation facility operators also submit annual reports on facility methods to agencies on this date.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18813.11. Non–Compliance.

(a) A hauler or operator that is a jurisdiction shall inform the agency if a hauler or operator fails to comply with this Article by not providing the hauler or operator with information required for the preparation of quarterly disposal reports. The hauler or operator shall send information on specific allegations of non–compliance, in writing, to the agency by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year.

(b) A hauler or operator that is a jurisdiction may inform the agency of other non–compliance issues concerning a hauler or operator. The hauler or operator shall send written information on specific allegations to the agency.

(c) A jurisdiction may inform the Board if an agency fails to comply with this Article. A jurisdiction shall send written information on specific allegations of agency non–compliance to the Board.

(d) Allegations of non–compliance shall be handled in accordance with the process set forth in section 18804.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18814. Disposal Reporting Requirements for a District.

(a) Sections 18814.1 through 18814.11 establish the requirements for a district as follows.

(1) Signage for a District Section 18814.1
(2) Scales and Weighing Requirements for a District Section 18814.2
(3) Training Requirements for a District Section 18814.3
(4) District Records: Retention, Access, and Investigations Section 18814.4
(5) Identifying Jurisdiction of Origin Section 18814.5
(6) Frequency of Origin Surveys Section 18814.6
(7) Determining Origin of Waste for a District Section 18814.7
(8) Applicability of Alternative Reporting Systems Section 18814.8

(9) District Disposal Reports: Content, Timing, and Distribution Section 18814.9
(10) Disposal Reporting Due Dates for a District Section 18814.10
(11) Non-compliance Section 18814.11

(b) If a district operates as a waste hauler, the district shall also meet the hauler requirements specified in sections 18808.1 through 18808.11.

(c) If a district operates as a station operator, the district shall also meet the station requirements specified in sections 18809.1 through 18809.11.

(d) If a district operates as a landfill operator, the district shall also meet the landfill requirements specified in sections 18810.1 through 18810.11.

(e) If a district operates as a transformation facility operator, the district shall also meet the transformation facility requirements specified in sections 18811.1 through 18811.11.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9-21-2005; operative 1-1-2006 (Register 2005, No. 38).

§ 18814.1. Signage for a District.

(a) If a district operates as a station operator, the district may also meet the provisions specified in section 18809.1.

(b) If a district operates as a landfill operator, the district may also meet the provisions specified in section 18810.1.

(c) If a district operates as a transformation facility operator, the district may also meet the provisions specified in section 18811.1.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

1. New section filed 9-21-2005; operative 1-1-2006 (Register 2005, No. 38).

§ 18814.4. District Records: Retention, Access, and Investigations

(a) If a district operates as a hauler, the district shall prepare and retain disposal reporting records and allow affected entities access to the records as set forth in section 18808.4.

(b) If a district operates as a station operator, the district shall prepare and retain disposal reporting records and allow affected entities access to the records as set forth in section 18809.4.

(c) If a district operates as a landfill operator, the district shall prepare and retain disposal reporting records and allow affected entities access to the records as set forth in section 18810.4.

(d) If a district operates as a transformation facility operator, the district shall prepare and retain disposal reporting records and allow affected entities access to the records as set forth in section 18811.4.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9-21-2005; operative 1-1-2006 (Register 2005, No. 38).

§ 18814.5. Identifying Jurisdiction of Origin.

(a) If a district operates as hauler, the district shall identify a jurisdiction of origin as set forth in section 18808.5.

(b) If a district operates as station operator, the district shall identify a jurisdiction of origin as set forth in section 18809.5.

(c) If a district operates as landfill operator, the district shall identify a jurisdiction of origin as set forth in section 18810.5.

(d) If a district operates as transformation facility operator, the district shall identify a jurisdiction of origin as set forth in section 18811.5.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9-21-2005; operative 1-1-2006 (Register 2005, No. 38).

§ 18814.6. Frequency of Origin Surveys.

(a) At all permitted solid waste facilities, origin surveys shall be conducted continuously, each day of facility operation, for every load, except as described in subsections (b), (c), and (d).

(b) An operator of a permitted solid waste facility located in a rural city or county, as defined in sections 40183 and 40184 of the Public Resources Code, may conduct origin surveys as specified in subsection (a) or may conduct origin surveys during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). During the standard survey weeks, every load of solid waste shall be surveyed to determine jurisdiction of origin.

(c) At all permitted solid waste facilities, origin surveys of each uncompacted load of waste with a volume of 12 cubic yards or less may be conducted as specified in subsection (a) or may be conducted during the following standard survey weeks each year: March 8 through March 14, June 8 through June 14, September 8 through September 14, and December 8 through December 14 (unless an agency has received Board approval to use alternative weeks pursuant to sections 18812.6[e] and [f]). Daily origin surveys shall be conducted for all other loads as specified in subsection (a).

(d) Origin surveys are not required if:

(1) a facility is located in a Board-approved region, the region has authorized the operator to assign all waste tonnage to the region, and the Board does not otherwise require the region to assign waste to the individual cities or unincorporated counties of the region, or

(2) a city or county in which a facility is located authorizes the facility operator to assign all waste tonnage to that city or county.

(e) Nothing in this Article shall prevent an operator from collecting additional information as part of its operation. Nothing in this Article shall prevent an agency from requiring an operator to conduct origin surveys more frequently or to collect additional information, based upon its own authority to impose requirements on that operator.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9-21-2005; operative 1-1-2006 (Register 2005, No. 38).

§ 18814.7. Determining Origin of Waste for a District.

(a) If a district operates as a waste hauler, the district shall also meet the requirements specified in section 18808.7.

(b) If a district operates as a station operator, the district shall also meet the requirements specified in section 18809.7.

(c) If a district operates as a landfill operator, the district shall also meet the requirements specified in section 18810.7.

(d) If a district operates as a transformation facility operator, the district shall also meet the requirements specified in section 18811.7.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18814.8. Applicability of Alternative Reporting Systems.

(a) An agency may establish alternative requirements with which a district must comply as set forth in section 18812.8.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18814.9. District Disposal Reports: Content, Timing, and Distribution.

(a) If a district operates as a waste hauler, the district shall also meet the reporting requirements specified in section 18808.9.

(b) If a district operates as a station operator, the district shall also meet the reporting requirements specified in section 18809.9.

(c) If a district operates as a landfill operator, the district shall also meet the reporting requirements specified in section 18810.9.

(d) If a district operates as a transformation facility operator, the district shall also meet the reporting requirements specified in section 18811.9.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18814.10. Disposal Reporting Due Dates for a District.

(a) If a district operates as a waste hauler, the district shall submit disposal reports according to the due dates set forth in section 18808.10.

(b) If a district operates as a station operator, the district shall submit disposal reports according to the due dates set forth in section 18809.10.

(c) If a district operates as a landfill operator, the district shall submit disposal reports according to the due dates set forth in section 18810.10.

(d) If a district operates as a transformation facility operator, the district shall submit disposal reports according to the due dates set forth in section 18811.10.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

HISTORY

1. New section filed 9–21–2005; operative 1–1–2006 (Register 2005, No. 38).

§ 18814.11. Non–Compliance.

(a) A district that operates as a waste hauler or facility operator shall inform the agency if a hauler or operator fails to comply with this Article by not providing the district with information required for the preparation of quarterly disposal reports. The district shall send written information on specific allegations of non–compliance to the agency by June 15 for the first quarter, September 15 for the second quarter, December 15 for the third quarter, and March 15 for the fourth quarter of the previous year.

(b) A district that operates as a waste hauler or operator may inform the agency of other non–compliance issues concerning a hauler or operator. The district shall send written information on specific allegations to the agency.

(c) A district that operates as a waste hauler or operator may inform the Board if an agency fails to comply with this Article. A district shall send written information on specific allegations of agency non–compliance to the Board.

(d) Allegations of non–compliance shall be handled in accordance with the process set forth in section 18804.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 41821.2 and 41821.5, Public Resources Code.

Article 9.3. Adjustment Method for Calculating Changes in Waste Generation Tonnage

§ 18827. Scope and Purpose.

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. New Article 9.3 (sections 18827–18831) and section filed 1–8–96; operative 1–8–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 2).
2. Renumbering of former article 9.3 (sections 18827–18831) to article 9.1 (sections 18797.0–18797.4) and renumbering of former section 18827 to section 18797.0 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
3. Renumbering of former article 9.3 (sections 18827–18831) to article 9.1 (sections 18797.0–18797.4) and renumbering of former section 18827 to section 18797.0 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18828. Definitions.

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. New section filed 1–8–96; operative 1–8–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 2).
2. Renumbering of former section 18828 to section 18797.1 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
3. Renumbering of former section 18828 to section 18797.1 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18829. Adjustment Factor Sources.

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. New section filed 1–8–96; operative 1–8–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 2).
2. Renumbering of former section 18829 to section 18797.2 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
3. Renumbering of former section 18829 to section 18797.2 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18830. Adjustment Method Calculation.

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. New section filed 1–8–96; operative 1–8–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 2).
2. Renumbering of former section 18830 to section 18797.3 filed 6–5–96 as an emergency; operative 6–5–96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–27–96 or emergency language will be repealed by operation of law on the following day.
3. Renumbering of former section 18830 to section 18797.3 refiled 9–25–96 as an emergency; operative 10–3–96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–31–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 9–25–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 18831. Reporting Requirements.

NOTE: Authority cited: Sections 40502 and 41780.1, Public Resources Code. Reference: Sections 41780.1, 41780.2, 41781 and 41821, Public Resources Code.

HISTORY

1. New section filed 1-8-96; operative 1-8-96 pursuant to Government Code section 11343.4(d) (Register 96, No. 2).
2. Change without regulatory effect moving all forms in title 14, division 7 to new appendix A filed 4-2-96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
3. Certificate of Compliance as to 1-18-95 order pertaining to forms CIWMB-60, CIWMB-61 and CIWMB-62 including amendment of "Waste Tire-Hauler Registration Application," "Vehicle Description Sheet" and "Waste Tire Hauler Bond" transmitted to OAL 3-29-96 and filed 5-9-96 (Register 96, No. 19).
4. Renumbering of former section 18831 to section 18797.4 filed 6-5-96 as an emergency; operative 6-5-96 (Register 96, No. 23). A Certificate of Compliance must be transmitted to OAL by 9-27-96 or emergency language will be repealed by operation of law on the following day.
5. Change without regulatory effect amending CIWMB Form 430 filed 6-6-96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 23).
6. Renumbering of former section 18831 to section 18797.4 refiled 9-25-96 as an emergency; operative 10-3-96 (Register 96, No. 39). A Certificate of Compliance must be transmitted to OAL by 1-31-97 or emergency language will be repealed by operation of law on the following day.
7. Change without regulatory effect moving form CIWMB-90 from section 17363 to Appendix A filed 11-4-96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 45).
8. Editorial correction clarifying HISTORIES 4 and 6 (Register 97, No. 3).
9. Certificate of Compliance as to 9-25-96 order transmitted to OAL 11-27-96 and filed 1-13-97 (Register 97, No. 3).
10. Change without regulatory effect amending CIWMB forms 83, 90 and 5000 filed 2-6-97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 6).
11. Amendment of Appendix A adding new CIWMB Form 98 filed 9-26-97; operative 9-26-97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).
12. Amendment of Appendix A adding new CIWMB Form 604 filed 4-8-98; operative 5-8-98 (Register 98, No. 15).
13. Editorial correction removing Forms 100-138 from Appendix A pursuant to 6-18-98 order and updating Appendix A Table of Contents (Register 98, No. 34).
14. Amendment of Appendix A adding new form CIWMB 607 and updating Appendix A Table of Contents filed 3-5-99; operative 3-5-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).
15. Change without regulatory effect amending forms CIWMB-57 and CIWMB-58 filed 3-11-99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
16. Change without regulatory effect amending form CIWMB 430 filed 9-14-99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 38).
17. Amendment of form CIWMB 500 filed 3-31-2000; operative 3-31-2000 (Register 2000, No. 13).
18. Change without regulatory effect amending form CIWMB 430 filed 11-17-2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).
19. Change without regulatory effect amending forms CIWMB 57 and 58 filed 11-17-2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).
20. Change without regulatory effect amending forms CIWMB 57 and 58 filed 2-4-2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 6).
21. Change without regulatory effect amending table of contents to appendix A and amending forms CIWMB 60, 61, 62, 100, 101, 102(a), 102(b), 103(a), 103(b), 103(c), 104, 105, 106, 107, 108, 109, 100, 111, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149 and 150 filed 6-21-2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 25).
22. Editorial correction of forms 107 and 108 within Appendix A (Register 2002, No. 26).
23. Editorial correction of form 106 within Appendix A (Register 2002, No. 27).
24. Amendment of CIWMB Forms 500, 501, 502, 503 and 504 filed 4-1-2003; operative 5-1-2003 (Register 2003, No. 14).
25. Editorial correction updating and adjusting placement of CIWMB Form 60 (Register 2003, No. 22).
26. Change without regulatory effect amending table of contents to appendix A and adopting new CIWMB forms 634 and 635 filed 5-28-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).
27. Editorial correction amending table of contents to appendix A and moving the following CIWMB Forms to Title 27, Division 2, Appendix 3: 100, 101, 102(a), 102(b), 103(a), 103(b), 103(c), 104, 105, 106, 107, 108, 109, 110 and 111 (Register 2003, No. 22).
28. New form 643 filed 7-10-2003; operative 8-9-2003 (Register 2003, No. 28).
29. Editorial correction relocating forms CIWMB 173 and CIWMB 180 from section 18450 to section 18831, Appendix A (Register 2005, No. 24).
30. New CIWMB forms 203, 204, 647 and 648 filed 6-13-2005 as an emergency; operative 6-13-2005 (Register 2005, No. 24). A Certificate of Compliance must be transmitted to OAL by 10-11-2005 or emergency language will be repealed by operation of law on the following day.
31. New CIWMB forms 203, 204, 647 and 648 refiled 10-12-2005 as an emergency; operative 10-12-2005 (Register 2005, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-9-2006 or emergency language will be repealed by operation of law on the following day.
32. Repealer of CIWMB form 604 filed 10-18-2005; operative 11-17-2005 (Register 2005, No. 42).
33. New CIWMB forms 203, 204, 647 and 648 refiled 2-9-2006 as an emergency; operative 2-9-2006 (Register 2006, No. 6). A Certificate of Compliance must be transmitted to OAL by 6-9-2006 or emergency language will be repealed by operation of law on the following day.
34. Change without regulatory effect amending CIWMB form 60 filed 4-11-2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 15).
35. Certificate of Compliance as to 2-9-2006 order, including new revisions of forms CIWMB 203 and 204, transmitted to OAL 6-6-2006 and filed 7-19-2006 (Register 2006, No. 29).
36. Amendment of Appendix A repealing form CIWMB 303 and adopting forms CIWMB 303a and CIWMB 303b filed 4-13-2007; operative 5-13-2007 (Register 2007, No. 15).
37. Change without regulatory effect amending Appendix A, CIWMB form 1000 filed 10-17-2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

CIWMB #57 (11/01)

CALIFORNIA INTEGRATED
WASTE MANAGEMENT BOARD

Plastic Trash Bag Manufacturer Certification

Reporting Period: January 1 through December 31, _____

California law requires you to certify to the Integrated Waste Management Board by March 1 of each year for the plastic trash bags intended for sale in California.

Instructions

1. Please fill in the year for the reporting period in the title block above.
2. Please type or print legibly in ink and return by mail or FAX (916) 319-7142.
3. If you did not manufacture regulated trash bags during the reporting period which were intended for sale in California, mark item 10 and 10a, sign and return the form.
4. If you produce your own Recycled Plastic Postconsumer Material, complete section E.
5. Use N/A for items that do not apply.

Definitions of Terms

APCM (Actual postconsumer material) - weight of postconsumer material used in a feedstock to manufacture trash bags.

Plastic Trash Bag - a bag that is manufactured for intended use as a container to hold, store, or transport materials to be discarded, composted, or recycled, including, but not limited to, garbage bags, composting bags, lawn and leaf bags, can-liner bags, kitchen bags, compactor bags, and recycling bags.

Regulated Bag - a plastic trash bag of 0.70 mil or greater thickness that is intended for sale in the state.

RPPCM (Recycled plastic postconsumer material) - a plastic feedstock which is used to manufacture trashbags which contain postconsumer material. RPPCM may contain any amount (1 - 100%) of postconsumer material; however, compliance will be determined based on the APCM content of the trash bag.

Proximate Prior Usage of RPPCM - the collected finished product from which the postconsumer material was derived prior to being processed into RPPCM for use in the regulated bag.

Section A - Manufacturer Information

Please provide your company information below

(1) Company Name		(2) Date	
(3) Contact Person	(3a) E-Mail Address (Optional)	(4) Phone Number ( )	
(5) Mailing Address Of The Company Headquarters	(6) City	(7) State	(8) Zip Code

(9a) All **plastic trash bags** intended for sale in California contained an annual aggregate Actual Postconsumer Material (APCM) equal to at least 10% of the weight of **regulated bags.** TRUE FALSE

(9b) All plastic products intended for sale in California contained an annual aggregate of 30% APCM. TRUE FALSE

(10) I did not sell any regulated trash bags in California during the reporting period TRUE FALSE

(10a) Circle each applicable exemption: 1.) less than 0.70 mil 2.) Medical waste bags 3.) Hazardous waste bags 4.) Non-plastic bags 5.) RPPCM Quality 6.) RPPCM Availability

Section B - Percent of Recycled Plastic Postconsumer Material (RPPCM) Use

Complete either Section B1 or Section B2. You are in compliance if either of the following is met:

a) In Section B1 you showed that APCM used is 10% by weight of regulated bags; or,

b) In Section B2 you showed that 30% of the materials used in all of your plastic products intended for sale in California is APCM.

Section B1- Claiming Compliance Based on Plastic Trash Bags Only

Section B1

(11) Total number of plastic trash bags intended for sale in California during the reporting period	
(12) Total tons of plastic trash bags intended for sale in California during the reporting period.	tons
Calculations for Total Tons of APCM Used	
(13) California Source	
(13a) Tons of RPPCM purchased from California sources for use in the manufacture of plastic trash bags intended for sale in California during the reporting period _____tons	
(13b) Tons of actual postconsumer material (APCM) purchased from California sources _____tons	
Example: (a) 10 tons of 80% postconsumer content resin = 8 tons of APCM (b) 10 tons of 10% postconsumer content resin = 1 tons of APCM (c) Total actual postconsumer material= (a) + (b) = 9 tons of APCM	
(14) Non-California Source	
(14a) Tons of APCM purchased from non-California sources and used to manufacture all plastic trash bags intended for sale in California during the reporting period. _____tons	
(15) Total tons of APCM used in the manufacture of all plastic trash bags intended for sale in California during the reporting period (Line 13b + Line 14a)	tons
(16) Total number of regulated trash bags intended for sale in California during the reporting period.	
(17) Total tons of regulated trash bags intended for sale in California during the reporting period.	tons
(18) Compliance Percentage: APCM used to manufacture all plastic trash bags expressed as percent by weight of regulated bags (Line 15/Line17 x 100)	%

Section B2 - Claiming Compliance Based on All Plastic Products

Section B2

(19) Total tons of materials used to manufacture all plastic products intended for sale in California during the reporting period.	tons
Calculations for Total Tons of APCM Used	
(20) California Source	
(20a) Tons of RPPCM purchased from California sources for use in the manufacture of all plastic products intended for sale in California during the reporting period _____tons	
(20b)Tons of APCM purchased from California sources (See example above in 13b to convert RPPCM to APCM) _____tons	
(21) Non-California Source	
(21a) Tons of APCM purchased from non-California sources and used to manufacture all plastic products intended for sale in California during the reporting period. _____tons	
(22) Total tons of APCM used to manufacture all plastic products intended for sale in California during the reporting period. (Line 20b + Line 21a)	tons
(23) Total tons of APCM used to comply with federal and other California RPPCM requirements (same as Line 27)	tons
(24) Total tons of APCM that can be counted for compliance with this Recycled Content Trash Bag requirement. (Line 22 minus Line 23)	tons
(25) Percent APCM used to manufacture all plastic products. (Line 24/Line19x100)	%

Section C - Other Minimum Content Mandates

Describe any other California or federal government recycled content use mandate(s) with which you are required to comply. Use additional sheets if necessary.

(26a). Mandate:	Tons of APCM used to comply:	tons
(26b) Mandate:	Tons of APCM used to comply	tons
(26c). Mandate:	Tons of APCM used to comply:	tons
(27) Total tons of APCM used to comply with other minimum content mandates		tons

Section D - Manufacturer Production Locations

For each physical address at which you manufactured regulated trash bags, list the number of regulated trash bags and the tons of regulated trash bags shipped. Use additional sheets if necessary.

(28a) Company Name	(29a) Contact Person	(30a) Phone Number		
(31a) Street Address	(32a) City	(33a) State	(34a) Zip Code	
(35a) Tons of regulated bags shipped	(36a) Number of regulated bags shipped			
(28b) Company Name	(29b) Contact Person	(30b) Phone Number		
(31b) Street Address	(32b) City	(33b) State	(34b) Zip Code	
(35b) Tons of regulated bags shipped	(36b) Number of regulated bags shipped			
(28c) Company Name	(29c) Contact Person	(30c) Phone Number		
(31c) Street Address	(32c) City	(33c) State	(34c) Zip Code	
(35c) Tons of regulated bags shipped	(36c) Number of regulated bags shipped			
(28d) Company Name	(29d) Contact Person	(30d) Phone Number		
(31d) Street Address	(32d) City	(35d) State	(34d) Zip Code	
(35d) Tons of regulated bags shipped	(36d) Number of regulated bags shipped			
(28e) Company Name	(29e) Contact Person	(30e) Phone Number ( )		
(31e) Street Address	(32e) City	(33e) State	(34e) Zip Code	
(35e) Tons of regulated bags shipped	(36e) Number of regulated bags shipped			

Section E - Recycled Plastic Postconsumer Material Production Information

Complete this section to list every location at which you produced RPPCM. Use additional sheets if necessary. If you did not produce RPPCM, mark N/A.

(37) Total tons of Recycled Postconsumer Material produced during the reporting period.				Tons
(38a) Company	(39a) Street Address	(40a) City	(41a) State	(42a) Zip Code
(43a) Tons of RPPCM produced at this location Tons	(44a) APCM content of RPPCM Tons	(45a) Phone Number ( )		
(46a) Proximate prior usage of APCM:				

(38b) Company	(39b) Street Address	(40b) City	(41b) State	(42b) Zip Code
(43b) Tons of RPPCM produced at this location Tons	(44b) APCM content of RPPCM Tons	(45b) Phone Number ( )		
(46b) Proximate prior usage of APCM:				
(38c) Company	(39c) Street Address	(40c) City	(41c) State	(42c) Zip Code
(43c) Tons of RPCM produced at this location Tons	(44c) APCM content of RPPCM Tons	(45c) Phone Number ( )		
(46c) Proximate prior usage of APCM:				
(38d) Company	(39d) Street Address	(40d) City	(41d) State	(42d) Zip Code
(43d) Tons of RPCM produced at this location Tons	(44d) APCM content of RPPCM Tons	(45d) Phone Number ( )		
(46d) Proximate prior usage of APCM:				

Section F - Recycled Plastic Postconsumer Material Supplier Information

List every supplier from whom you purchased RPPCM. Use additional sheets if necessary.

(47) Total tons of Recycled Postconsumer Material purchased during the reporting period. Tons

(48a) Company	(49a) Street Address	(50a) City	51a) State	(52a) Zip Code
(53a) Contact Person	(54a) Phone Number	(55a) Tons of RPPCM purchased from supplier listed in (48a) Tons		
(56a) APCM content of the RPPCM %	(57a) Proximate prior usage of the RPPCM.			
(48b) Company	(49b) Street Address	(50b) City	(51b) State	(52b) Zip Code
(53b) Contact Person	(54b) Phone Number	(55b) Tons of RPPCM purchased from supplier listed in (48b) Tons		
(56b) APCM content of the RPCM %	(57b) Proximate prior usage of the RPPCM.			
(48c) Company	(49c) Street Address	(50c) City	(51c) State	(52c) Zip Code
(53c) Contact Person	(54c) Phone Number	(55c) Tons of RPPCM purchased from supplier listed in (48c) Tons		
(56c) APCM content of the RPCM %	(57c) Proximate prior usage of the RPPCM.			

Section G - Recycled Plastic Postconsumer Material Customer Information

Complete this section to list every customer to whom you sold RPPCM. Use additional sheets if necessary. If you did not sell RPPCM, mark N/A.

(58) Total tons of Recycled Plastic Postconsumer Material sold during the reporting period. Tons

(59a) Company	(60a) Street Address	(61a) City	(62a) State	(63a) Zip Code
(64a) Contact Person	(65a) Phone ( )			
(59b) Company	(60b) Street Address	(61b) City	(62b) State	(63b) Zip Code
(64b) Contact Person	(65b) Phone ( )			
(59c) Company	(60c) Street Address	(61c) City	(62c) State	(63c) Zip Code
(64c) Contact Person	(65c) Phone ( )			

Section H - Certification Instructions

Certification: Only the following persons are authorized to sign this form.

* Corporation: By a responsible corporate officer or manager authorized to make management decisions which govern the operation of reporting facility.
* Partnership or sole proprietorship: The general partner or proprietor.
* Government agency: By either the principal executive officer or a designated elected official who is authorized to obligate the entity for purposes of this certification.

I certify under penalty of perjury that this document and all attachments were prepared under my direction or supervision, that to the best of my knowledge and belief, the information provided is true, accurate, and complete. I am aware that there are significant penalties for submitting false or misleading information in this certification, including the possibility of fine or imprisonment, or both for violations.

WASTE TIRE HAULER BOND

BOND NUMBER_____

KNOW ALL PEOPLE BY THESE PRESENTS:

That we, The Undersigned_____
_____, whose
address for service is _____
_____, as Principal, and
_____, a corporation
organized and existing under the laws of the State of _____ and authorized to transact a general surety business in the State of California, whose address for service is_____, as Surety, are held and firmly bound unto the State of California in the sum of TEN THOUSAND DOLLARS ($10,000) lawful money of the United States, for the payment of which well and truly to be made, we bind ourselves, our heirs, executors, administrators, personal representatives, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal is required by the provisions of Section 42955 of the Public Resources Code to file or have on file a bond as therein prescribed in the amount of ten thousand dollars ($10,000) and said Principal admits it is so required and

WHEREAS, the above–named Principal, pursuant to California Senate Bill No. 744 (McCorquodale), Chapter 511, Statutes of 1993, an act to amend Section 42889 of, and to add Chapter 19 (commencing with Section 42950) to Part 3 of Division 30 of, the Public Resources Code, relating to tire haulers, is applying to the California Integrated Waste Management Board for a registration to engage in transportation of waste tires as defined in California Statutes of 1993, Chapter 511, Part 3 of Division 30, Chapter 19, Article 1, Section 42950(b), at the following location:

_____

NOW THEREFORE, the conditions of the foregoing obligation are that if the Principal above named shall faithfully comply with all and be subject to all applicable statutes, rules, and waste tire hauler registration conditions of the State of California, then this obligation shall be null and void, otherwise to remain in full force and effect.

PROVIDED, HOWEVER, this bond is issued subject to the following express conditions:

1. This bond shall be effective on _____ day of _____, 20 __, and shall run concurrently with the period of the registration granted to the Principal, and shall remain in full force and effect for any renewals thereof, provided, however, that the penalty of said bond shall not be cumulative from year to year, and the total liability of the Surety herein shall not exceed the sum of ten thousand dollars ($10,000), regardless of the number of registration periods for which said bond is in force.

2. The conditions of this bond are as set forth in Chapter 19 (commencing with Section 42950) of Part 3 of Division 30 of the Public Resources Code and any regulations adopted to carry out this chapter or any of the California Integrated Waste Management Board's duties or responsibilities imposed pursuant to this chapter.

State of California

Waste Tire Hauler Bond

3. This bond is executed by the surety to comply with the provisions of Chapter 19 (commencing with Section 42950) of Part 3 of Division 30 of the Public Resources Code and applicable regulations and of Chapter 2, Title 14, Part 2 (commencing with Section 995.010) the Code of Civil Procedure and said bond shall be subject to all of the terms and provisions thereof.

4. Any person claiming against said bond may bring an action on this bond, provided that written claim of such right of action shall be made to a principal or the surety company within two years after the injury.

5. It shall be the responsibility of the Surety to notify the California Integrated Waste Management Board immediately upon the payment of any funds which decreases the liability of the Surety under this bond, or if there is outstanding a claim for which the principal and/or bonding company is liable.

6. This bond may be canceled by the Surety by sending a notice of cancellation by registered or certified mail to the Waste Tire Branch, Special Waste Division, MS 22, P.O. Box 4025, Sacramento, CA 95812–4025. The surety shall at the same time mail or deliver a copy of the notice of cancellation to the Principal. [see CCP Section 996.310 et. seq.] Such cancellation shall take effect 30 days from the date said notice of cancellation is received by the California Integrated Waste Management Board.

IN WITNESS WHEREOF, the above named parties have executed this instrument the ____ day of _____, 20 ___.

WASTE TIRE HAULER MANIFEST

INSTRUCTIONS ARE ON REVERSE SIDE OF FORM

PART 1. TO BE COMPLETED BY REPRESENTATIVE OF TIRE DEALER OR WASTE TIRE GENERATOR

Tire Dealer/Generator (include Board of Equalization "Tire Recycling Fee Account Number")
Name & Address

County (Area Code) Telephone Number

Date of Pickup (Month/Day/Year)

Whole Tires in this Shipment OR→	Volume of Tires in this Shipment (cubic yards) OR→	Weight of Tires in This Shipment (Circle One) pounds tons

I certify that the information provided above is true and correct. I certify that Part 2(a) and Part 3(a) were completed at the time of this certification. I am aware that falsification of this manifest may result in civil penalties or administrative civil penalties as described in Public Resources Code Section 42962 (a) and (b). (See reverse side of this form)

Waste Tire Dealer/Generator Representative Signature _____

Date **Printed Name**

PART 2. TO BE COMPLETED BY REPRESENTATIVE OF WASTE TIRE HAULER

(a)

CIWMB Waste Tire Hauler Vehicle Registration Number	Vehicle License Number(including State/Country)

(b)

ADJUSTMENT Waste Tires removed for re-use/retread _____ Remaining waste tires for delivery _____
Name and address of site receiving removed waste tires:

I certify that the information provided above is true and correct. The collector's vehicle may contain several loads from different tire generators; however, each load must be accompanied by its own manifest. I am aware that falsification of this manifest may result in suspension, revocation, or denial of renewal of my Waste Tire Hauler Registration and may result in civil penalties or administrative civil penalties as described in Public Resources Code Section 42962 (a) and (b). (See reverse side of this form)

Waste Tire Hauler Representative Signature _____

Date **Printed Name**

PART 3. TO BE COMPLETED BY REPRESENTATIVES OF WASTE TIRE HAULER AND DESTINATION SITE

(a) TO BE COMPLETED BY WASTE TIRE HAULER. TO BE CORRECTED BY DESTINATION SITE IF DIFFERENT.

Destination Site (include CIWMB Site Number if known)
Name & Address

County (Area Code) Telephone Number

(b) TO BE COMPLETED BY DESTINATION SITE

Date Tires Received (Month/Day/Year)

Are the number of tires received the same as the number of tires shipped in Part I? ☐ Yes ☐ No If NO, please complete the box(es) below:

Whole Tires in this Shipment OR→	Volume of tires in this Shipment (cubic yds) OR→	Weight of tires in this Shipment (Circle one) pounds tons

I certify that the information provided above is true and correct and that I have been authorized by the State of California or a local agency permit to accept waste tires for reuse or disposal. I am aware that falsification of this manifest may result in civil penalties or administrative civil penalties as described in Public Resources Code Section 42962 (a) and (b). (See reverse side of this form)

Waste Tire Destination Representative Signature _____

Date **Printed Name**

Pink - Tire Dealer/Waste Tire Generator; Yellow - Processor/Collection Center/Destination Site; White(original) - Waste Tire Hauler; Blue - Tire Dealer/Tire Generator if requested. A copy of each transaction must be retained by each party for a period of three years.

INSTRUCTIONS FOR COMPLETING WASTE TIRE HAULER MANIFEST (CIWMB–62)

ALL PARTIES MUST KEEP COPIES OF THE MANIFESTS FOR THREE YEARS AND MAKE THEM AVAILABLE TO AUTHORIZED REPRESENTATIVES OF THE CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD UPON REQUEST.

PART 1. TO BE COMPLETED BY WASTE TIRE DEALER/TIRE GENERATOR REPRESENTATIVE

1. Representative of the tire dealer/waste tire generator completes this section.
2. Complete the name of the company, address, city, state, zip, county, and phone number (Address stamp is acceptable on each copy).
3. Show the number of whole tires and/or processed tires in this shipment.
   For example, a shipment may contain 100 whole tires and/or 100 pounds of processed tires.
4. Certify that the information provided is true and correct in Part 1 and Part 2(a) and Part 3(a), sign, and date.
5. Keep the PINK copy of the manifest for record keeping.
6. May require the hauler to return the BLUE copy of the manifest with the destination site certification signature as proof of delivery to an authorized waste tire site.

PART 2. TO BE COMPLETED BY WASTE TIRE HAULER REPRESENTATIVE

1. Driver representing the registered waste tire hauler completes this section.
2. Complete Section 2(a) PRIOR TO LEAVING THE TIRE GENERATOR'S PREMISES
3. Complete Section 3(a) PRIOR TO LEAVING THE TIRE GENERATOR'S PREMISES (Address stamp is acceptable on each copy).
4. Complete Section 2(b) PRIOR TO ARRIVAL AT THE WASTE TIRE DESTINATION SITE
5. Certify that the information provided is true and correct, sign and date.
6. Keep the WHITE (original) copy of the manifest for record keeping.

PART 3. WASTE TIRE DESTINATION SITE CERTIFICATION

1. Representative of the receiving facility completes this section.
2. Verify Section 3(a) information.
3. Complete Section 3(b).
4. Verify number/quantity of tires received.
5. Certify that the information provided is true and correct, sign and date.
6. Keep the YELLOW copy of the manifest for record keeping.

CIWMB – 81 (rev. 1/95)

California Integrated Waste
Management Board

REGISTRATION PERMIT

Facility/Permit Number (SWIS):

Name of Facility

Name and Address of Enforcement Agency:

Signature of Local Enforcement Agency Approving Officer: Date of Issuance:

Please print or type Name and Title of Approving Officer:

This permit has been issued by the enforcement agency in accordance with Title 14, California Code of Regulations, section 18104. This registration permit incorporates by reference, as terms and conditions of the permit, all minimum standards applicable to it, as set forth in Title 14, Division 7 of the California Code of Regulations. These minimum standards include, but are not limited to the following:

The facility for which this permit has been issued may only be operated in accordance with the description provided in the attached application, which is hereby incorporated by reference.

This permit shall be reviewed at least once every five years from the date of issuance noted above pursuant to Title 14, California Code of Regulations, section 18104.7.

State of California – CIWMB Form 83 (rev. 12/96) California Integrated Waste Management Board

Registration Permit Application

Facility Name:

Address/Location:

Phone Number:

Facility Operator:	Land Owner:
Mailing Address	Mailing Address:
Address Where Process May be Served	Address Where Process May be Served:
Phone Number:	Phone Number:

Facility Information:

Section Authorizing Eligibility:

Volume and Type of Waste/Material(s) Handled:

Site Capacity: _____ Cubic Yards or Tons
Peak Loading: _____ Cubic Yards or Tons/Day
Annual Loading: _____ Cubic Yards or Tons

Days and Hours of Operation:

Facility Size: _____ Area
Operating Area: _____ Area

Traffic:
Incoming Waste Material: _____ Vehicles Per Day
Outgoing Waste Material: _____ Vehicles Per Day

One of the following Statements Must be Checked:

[ ] The facility is identified and described in or conforms with the County Solid Waste Management Plan, or otherwise complies with Public Resources Code 50000; and the facility is consistent with the city or county General Plan.

[ ] The facility is identified in either the countywide siting element, the nondisposal facility element, or in the source reduction and recycling element for the jurisdictions in which it is located; or that the facility is not required to be identified in any of these elements pursuant to section 500001 of the Public Resources Code.

I hereby acknowledge that I have read this application, and certify under penalty of perjury that the information provided is true and accurate. In operating the facility, I agree to comply with the conditions of the permit, and with federal, state, and local enactments:

Signature of Land Owner: _____ Date: _____

Signature of Operator: _____ Date: _____

This application must be accompanied by a ☐ General Description ☐ Site Plan, and ☐ Location Map.

Enforcement Agency Name and Address:	FOR ENFORCEMENT AGENCY USE ONLY Date received: Date approved: Date rejected: Filing Fee: SWIS #:

Instructions for Completing Registration Application:

Fill out this application form completely and accurately. After the Enforcement Agency has review(ed) the application, it will determine whether it meets the requirements of section 18104.1. If the Enforcement Agency finds that the application is complete and correct, a copy of this application and a permit will be returned to you. If the application is not found to be complete and correct it will not be accepted for filing. For additional information on the procedure used for processing this application refer to Title 14 of the California Code of Regulations, Section 181094 et. seq.

Facility Name: The legal name of the facility.

Facility Address/Location: The address of the facility and the a description of the location if different.

Facility Operator/Land Owner: Provide both the mailing addresses and the location/address where process may be served.

Section Authorizing Eligibility:

You must determine the appropriate Section in Chapters 3 or 3.1 of Division 7 of Title 14 of the California Code of Regulations that authorizes eligibility. After determining the appropriate section list it on the application.

Site Capacity: Total capacity of material that can be stored at the site any one time.

Peak Loading: Is the largest projected waste/material quantity to be received by an operation on any day of operation.

Annual Loading: Is the maximum amount of waste/material to be handled by an operation annually.

Days and hours of Operation: The days and hours that the facility is in operation.

Facility Size: The total acreage of the site.

Operating area: The total acreage that is used for all operations.

Traffic: State the maximum number of vehicles that will enter and haul incoming material or remove material on a daily basis.

The operator is required to supply conformance finding information. Whichever one of the two statements above is appropriate to your operation must be checked. To help you in making this determination, you can contact the Enforcement Agency, Local Task Force, or other solid waste planning agency in your city or county.

The application must include a site map and a location map. The site map should include, but not be limited to, operations areas and their relationships to property boundaries, adjacent land uses, proposed drainage systems, any excavation areas, and any other portions of the site dedicated to a specific use. The location map should show the general location of the operation at a scale size minimally equivalent to 1:24,000 USGS topographical quadrangle.

This application must be signed, under penalty of perjury, by both the land owner and the operator.

Nonhazardous Petroleum Contaminated Soil Regulatory Requirements
December 13, 1995

State of California CIWMB FORM 90 (rev. 12/96)	California Integrated Waste Management Board
STANDARDIZED CONTAMINATED SOIL SOLID WASTE FACILITIES PERMIT	
1. Facility/Permit Number (SWIS):	
2. Facility Name:	Address/Location:
3. Enforcement Agency:	Address:
4. Signature of Enforcement Agency Approving Officer: 5. Please Print or Type Name and Title of Approving Officer:	6. Date Signed:
7. Date Received by CIWMB:	
8. Signature of CIWMB Approving Officer: 9. Please Print or Type Name and Title of Approving Officer:	10. Date Signed:
11. Date of Permit Issuance:	12. Permit Review Due Date:
The facility for which this permit has been issued shall only be operated in accordance with the description provided in the application pursuant to Section 18105.1 and Report of Contaminated Soil Disposal Site Information pursuant to Section 18224.	
13. Legal Description of Facility: (description may be attached)	

14. Findings:

a. This permit is consistent with standards adopted by the California Integrated Waste Management Board, pursuant to Public Resources Code Section 44010.

b. An environmental determination has been filed with the State Clearing House (# _____) for all facilities that are not exempt from CEQA and documents pursuant to Public Resources Code Section 21081.6.

c. The following authorized agent _____ has made the determination that the facility is consistent with the applicable general plan, as required by Public Resources Code, Section 50000.5(a).

d. The operation of this facility is consistent with the [ ] County Solid Waste Management Plan (50000), or the [ ] County Integrated Waste Management Plan (50001).

e. The design of the proposed facility or the design and operation of an existing facility, as appropriate, is in compliance with State Minimum Standards for Contaminated Soil Operations and Facilities Regulatory Requirements, Title 14, Division 7, Chapter 3, Article 5.6 of the California Code of Regulations.

15. In addition to this permit, the facility may have one or more of the following permits or restrictions on its operations. Persons seeking information regarding these items should contact the appropriate regulatory agency.

CIWMB Report for Contaminated Soil Disposal Site Information
State Water Resources Control Board/Regional Water Quality Control Board Waste Discharge Requirements or Waiver
National Pollutant Discharge Elimination System (Stormwater) Permit
Fire Protection District Findings
Mitigation and Monitoring Measures (pursuant to the California Environmental Quality Act)
Conditional Use Permit
California Environmental Quality Act Environmental Impact Report or Negative Declaration
Air Pollution Permits and Variances
Coastal Commission Restrictions

16. Terms and Conditions:

a. The operator shall comply with applicable state minimum standards set forth in Title 14, Division 7, Chapter 3, Article 5.6 of the California Code of Regulations.

b. The operator shall comply with all mitigation and monitoring measures developed in accordance with a certified environmental document filed pursuant to Public Resources Code Section 21081.6.

c. The operator shall maintain a copy of this standardized permit at the facility or at a location agreed upon by enforcement agency and board personnel, to be available at all times to facility, enforcement agency, and board personnel.

d. The operator shall maintain and make available for inspection by the enforcement agency and board all correspondence and reports provided to other regulatory agencies that have jurisdiction over the facility.

e. The design capacity of ____ tons or cubic–yards per day of contained soil being disposed of shall not be exceeded.

f. Additional clarifying information concerning the design and operation of the contaminated soil facility shall be furnished upon written request of the enforcement agency, or the board.

g. Unless specifically permitted or allowed under Title 14, Division 7, Chapter 3, Article 5.6 of the California Code of Regulations, the facility shall not accept the following materials:

(1) Designated wastes as defined in Title 23, Chapter 15, Section 2522 of the California Code of Regulations
(2) Hot Ashes/Burning materials
(3) Medical wastes as defined in Section 25023.2 of the Health & Safety Code
(4) Hazardous Wastes as defined in Section 25117 of the Health & Safety Code
(5) Liquid Wastes as defined in Title 23, Chapter 15, Section 2601 of the California Code of Regulations)

h. Discharge of wastes off–site are prohibited.

i. The facility, if located outside of a city, shall be maintained in compliance with the flammable clearance provisions, pursuant to Public Resources Code Section 44151.

State of California CIWMB FORM 98 (new 7/96)	California Integrated Waste Management Board
STANDARDIZED NONHAZARDOUS ASH SOLID WASTE FACILITY PERMIT	
1. Facility/Permit Number (SWIS):	
2. Facility Name and Address/Location:	3. Operator Name and Mailing Address:
4. Owner Name and Mailing Address:	5. Enforcement Agency and Address:
6. Signature of Enforcement Agency Approving Officer: 7. Please Print or Type Name and Title of Approving Officer:	8. Date Signed:
9. Date Received by CIWMB: 10. CIWMB Concurrence Date:	
11. Signature of CIWMB Approving Officer: 12. Please Print or Type Name and Title of Approving Officer:	13. Date Signed:
14. Date of Permit Issuance:	15. Permit Review Due Date:
The facility for which this permit has been issued shall only be operated in accordance with the description provided in the application pursuant to Section 18105.1 and Report of Nonhazardous Ash Disposal Site Information pursuant to Section 18226. (Applicants may use the Standardized Permit Application CIWMB 92).	
16. Legal Description of Facility: (description may be attached)	

17. Findings:

a. This permit is consistent with standards adopted by the California Integrated Waste Management Board, pursuant to Public Resources Code Section 44010.

b. [ ] A CEQA exemption (state the type, and identify section of exemption, or N/A), _____, or [ ] a (state type of environment document, date, and SCH#) has been filed with the State Clearinghouse and adopted or certified. Where mitigation measures have been identified, a Mitigation Reporting or Monitoring Program has been adopted as part of the project pursuant to Public Resources Code Section 21081.6.

c. The following authorized agent _____ has made the determination that the facility is consistent with the applicable general plan, as required by Public Resources Code, Section 50000.5(a).

d. The operation of this facility is consistent with the [ ] County Solid Waste Management Plan (50000), or the [ ] County Integrated Waste Management Plan (50001).

e. The design of the proposed facility or the design and operation of an existing facility, as appropriate, is in compliance with State Minimum Standards for Nonhazardous Ash Operations and Facility Regulatory Requirements, Title 14, Division 7, Chapter 3, Article 5.8 of the California Code of Regulations.

f. Public Resources Code Section 44009 has been complied with.

18. In addition to this permit, the facility may have one or more of the following permits or restrictions on its operations. Persons seeking information regarding these items should contact the appropriate regulatory agency.

Report of Nonhazardous Ash Disposal Site Information
State Water Resources Control Board/Regional Water Quality Control Board Waste
Discharge Requirements or Waiver
National Pollutant Discharge Elimination System (Stormwater) Permit
Fire Protection District Findings
Mitigation and Monitoring Measures (pursuant to the California Environmental Quality Act)
Conditional Use Permit/Land Use Permit
California Environmental Quality Act Environmental Impact Report or Negative Declaration
Air Pollution Permits and Variances
Coastal Commission Restrictions

Other Permits may also apply

19. Terms and Conditions:

a. The operator shall comply with applicable state minimum standards set forth in Title 14, Division 7, Chapter 3, Article 5.8 of the California Code of Regulations.

b. The operator shall comply with all applicable mitigation and monitoring measures that are to be implemented with the enforcement agency.

c. The operator shall maintain a copy of this standardized permit at the facility or at a location agreed upon by enforcement agency, to be available at all times to facility, enforcement agency, and CIWMB personnel.

d. The operator shall maintain and make available for inspection by the enforcement agency and CIWMB all correspondence and reports provided to other regulatory agencies that have jurisdiction over the facility.

e. The design capacity of _____ tons or cubic–yards (circle one) per day of nonhazardous ash being disposed of shall not be exceeded.

f. The facility has a total operating area of _____ acres.

g. The maximum quantity of nonhazardous ash that can be received per any operating day is ___ tons or cubic yards (circle one).

h. The days and hours of operation shall be_____. For facilities with continuous operations, indicate the start of the operating day for purpose of calculating amount of nonhazardous ash received per day.

i. Additional clarifying information concerning the design and operation of the nonhazardous ash facility shall be furnished upon written request of the enforcement agency or the CIWMB.

j. Unless specifically permitted or allowed under Title 14, Division 7, Chapter 3, Article 5.8 of the California Code of Regulations, the facility shall only accept nonhazardous ash.

k. Migration of wastes, leachate, or dust off–site are prohibited.

l. The facility, if located outside of a city, shall be maintained in compliance with the flammable clearance provisions, pursuant to Public Resources Code Section 44151.

State of California California Integrated Waste Management Board

TRUST AGREEMENT

Trust Account Number: _____

This Agreement is entered into as of _____ by and between:

GRANTOR	TRUSTEE
Operator Name:	Trustee Name:
Address: Phone Number:	Address: Phone Number:
☐ Corporation ☐ Association ☐ Partnership ☐ Proprietorship In the State of _____	☐ Incorporated in the State of _____ ☐ A National Bank

TERMS OF AGREEMENT

WHEREAS, the California Integrated Waste Management Board has established regulations applicable to the Grantor in Title 14, California Code of Regulations (CCR), Division 7, Chapter 6, Article 9, requiring that an operator of a major waste tire facility shall provide assurance that funds will be available when needed for closure activities of the major waste tire facility, and

WHEREAS, the Grantor has elected to establish a trust to assure all or part of such financial responsibility for the major waste tire facility(ies) identified herein, and

WHEREAS, the Grantor, acting through its duly authorized officers, has selected the Trustee to be the trustee under this agreement, and the Trustee is willing to act as trustee,

NOW THEREFORE, the Grantor and Trustee agree as follows:

Section 1. Definitions. As used in this Agreement:

(a) The term "Grantor" means the operator who enters into this Agreement and any successors or assigns of the Grantor.

(b) The term "Trustee" means the Trustee who enters into this Agreement and any successor Trustee.

(c) The term "Beneficiary" means State of California, Integrated Waste Management Board or its designee.

Section 2. Identification of Major Waste Tire Facilities and Cost Estimates. This Agreement pertains to the major waste tire facility(ies), cost estimates, and determination of primary or excess coverage identified on attached Schedule A [for each facility identified in Schedule A, list the facility information system number, name, address, and amount of current closure cost estimate (indicate closure amounts separately for each facility), or portions thereof for which financial assurance is demonstrated by this Agreement and whether the coverage is primary or excess coverage].

Section 3. Establishment of Fund. The Grantor and the Trustee hereby establish a trust fund, hereinafter the "Fund", for the benefit of the Beneficiary. The Grantor and the Trustee intend that no third party have access to the Fund except as herein provided. The Fund is established initially as consisting of the

[The next page is 806.209.]

property, which is acceptable to the Trustee, described in Schedule B attached hereto. Such property and any other property subsequently transferred to the Trustee is referred to as the Fund, together with all earnings and profits thereon, less any payments or distributions made by the Trustee pursuant to this Agreement. The Fund shall be held by the Trustee, IN TRUST, as hereinafter provided. The Trustee shall not be responsible nor shall it undertake any responsibility for the amount or adequacy of, nor any duty to collect from the Grantor, any payments necessary to discharge any liabilities of the Grantor established by the Beneficiary.

Section 4. Payment for Closure. The Trustee shall make payments from the Fund as the Beneficiary shall direct, in writing, to provide for the payment of the costs of closure of the major waste tire facility(ies) covered by this Agreement. The Trustee shall pay the Grantor or other persons as specified by the Beneficiary from the Fund for expenditures for closure activities in such amounts as the Beneficiary specifies in writing. Upon refund, such funds shall not constitute part of the Fund as defined herein.

Section 5. Payments Comprising the Fund. Payments made to the Trustee for the Fund shall consist of cash or securities acceptable to the Trustee.

Section 6. Trustee Management. The Trustee may invest and reinvest the principal and income of the Fund and keep the Fund invested as a single fund, without distinction between principal and income, in accordance with general investment policies and guidelines that the Grantor may communicate in writing to the Trustee from time to time, subject, however, to the provisions of this Section. In investing, reinvesting, exchanging, selling, and managing the Fund, the Trustee shall discharge his or her duties with respect to the trust fund solely in the interest of the potential beneficiaries and with the care, skill, prudence and diligence under the circumstances then prevailing that persons of prudence, acting in a like capacity and familiar with such matters, would use in the conduct of an enterprise of a like character and with like aims; except that:

(i) Securities or other obligations of the Grantor, or any other operator or owner of the facilities, or any of their affiliates as defined in the Investment Company Act of 1940, as amended, Title 15 U.S.C. 80a-2(a), shall not be acquired or held, unless they are securities or other obligations of the federal or state government.

(ii) The Trustee is authorized to invest the Fund in time or demand deposits of the Trustee, to the extent insured by an agency of the federal or state government; and

(iii) The Trustee is authorized to hold cash awaiting investment or distribution uninvested for a reasonable time and without liability for the payment of interest thereon.

Section 7. Commingling and Investment. The Trustee is expressly authorized in its discretion:

(a) To transfer from time to time any or all of the assets of the Fund to any common, commingled or collective trust fund created by the Trustee in which the Fund is eligible to participate, subject to all of the provisions thereof, to be commingled with the assets of other trusts participating therein; and

(b) To purchase shares in any investment company registered under the Investment Company Act of 1940, Title 15 U.S.C. 80a-1 et seq., including one that may be created, managed, underwritten, or to which investment advice is rendered or the shares of which are sold by the Trustee. The Trustee may vote such shares in its discretion.

Section 8. Express Powers of Trustee. Without in any way limiting the powers and discretion conferred upon the Trustee by the other provisions of this Agreement or by law, the Trustee is expressly authorized and empowered:

(a) To sell, exchange, convey, transfer, or otherwise dispose of any property held by it, by public or private sale. No person dealing with the Trustee shall be bound to see to the application of the purchase money or to inquire into the validity or expediency of any such sale or other disposition;

(b) To make, execute, acknowledge, and deliver any and all documents of transfer and conveyance and any and all other instruments that may be necessary or appropriate to carry out the powers herein granted;

(c) To register any securities held in the Fund in its own name or in the name of a nominee and to hold any security in bearer form or in book entry, or to combine certificates representing such securities with certificates of the same issue held by the Trustee in other fiduciary capacities, or to deposit or arrange for the deposit of such securities in a qualified central depositary even though, when so deposited, such securities may be merged and held in bulk in the name of the nominee of such depositary with other securities deposited therein by another person, or to deposit or arrange for the deposit of any securities issued by the United States Government, or any agency or instrumentality thereof, with a Federal Reserve Bank, but the books and records of the Trustee shall at all times show that all such securities are part of the Fund;

(d) To deposit any cash in the Fund in interest-bearing accounts maintained or savings certificates issued by the Trustee, in its separate corporate capacity, or in any other banking institution affiliated with the Trustee, to the extent insured by an agency of the federal or state government; and

(e) To compromise or otherwise adjust all claims in favor of or against the Fund.

Section 9. Taxes and Expenses. All taxes of any kind that may be assessed or levied against or in respect of the Fund and all brokerage commissions incurred by the Fund shall be paid from the Fund. All other expenses incurred by the Trustee in connection with the administration of this Trust, including fees for legal services rendered to the Trustee, the compensation of the Trustee to the extent not paid directly by the Grantor, and all other proper charges and disbursements of the Trustee shall be paid from the Fund.

Section 10. Annual Valuation. The Trustee shall annually, at least 30 days prior to the anniversary date of establishment of the Fund, furnish to the Grantor and the Beneficiary a statement confirming the value of the Trust. Any securities in the Fund shall be valued at market value as of no more than 60 days prior to the anniversary date of establishment of the Fund. The failure of the Grantor to object in writing to the Trustee within 90 days after the statement has been furnished to the Grantor and the Beneficiary shall constitute a conclusively binding assent by the Grantor, barring the Grantor from asserting any claim or liability against the Trustee with respect to matters disclosed in the statement.

Section 11. Advice of Counsel. The Trustee may from time to time consult with counsel, who may be counsel to the Grantor, with respect to any question arising as to the construction of this Agreement or any action to be taken hereunder. The Trustee shall be fully protected, to the extent permitted by law, in acting on the advice of counsel.

Section 12. Trustee Compensation. The Trustee shall be entitled to reasonable compensation for its services as agreed upon in writing from time to time with the Grantor.

Section 13. Successor Trustee. The Trustee may resign or the Grantor may replace the Trustee, but such resignation or replacement shall not be effective until the Grantor has appointed a successor trustee and this successor accepts the appointment. The successor trustee shall have the same powers and duties as those conferred upon the Trustee hereunder. Upon the successor trustee's acceptance of the appointment, the Trustee shall assign, transfer, and pay over to the successor trustee the funds and properties then constituting the Fund. If, for any reason, the Grantor cannot or does not act in the event of the resignation of the Trustee, the Trustee may apply to a court of competent jurisdiction for the appointment of a successor trustee or for instructions. The successor trustee shall specify the date on which it assumes administration of the trust in a writing sent to the Grantor, the Beneficiary, and the present Trustee by certified mail ten days before such change becomes effective. Any expenses incurred by the Trustee as a result of any of the acts contemplated by this Section shall be paid as provided in Section 9.

Section 14. Instruction to the Trustee. All orders, requests, and instructions by the Grantor to the Trustee shall be in writing, signed by such persons as are designated in the attached Exhibit A or such other designees as the Grantor may designate by amendment to Exhibit A. The Trustee shall be fully protected in acting without inquiry in accordance with the Grantor's orders, requests, and instructions. All orders, requests,

and instructions by the Beneficiary to the Trustee shall be in writing, signed by the Beneficiary designees, and the Trustee shall act and shall be fully protected in acting in accordance with such orders, requests, and instructions. The Trustee shall have the right to assume, in the absence of written notice to the contrary, that no event constituting a change or a termination of the authority of any person to act on behalf of the Grantor or the Beneficiary hereunder has occurred. The Trustee shall have no duty to act in the absence of such orders, requests, and instructions from the Grantor and/or the Beneficiary, except as provided for herein.

Section 15. Notice of Nonpayment. The Trustee shall notify the Grantor, and Beneficiary, by certified mail, within 10 days following the expiration of the 30 day period after the anniversary of the establishment of the Trust, if no payment is received from the Grantor during that period. After the pay-in period is completed the Trustee shall not be required to send a notice of nonpayment.

Section 16. Amendment of Agreement. This agreement may be amended by an instrument in writing executed by the Grantor, Trustee, and the Beneficiary, or by the Trustee and the Beneficiary if the Grantor ceases to exist.

Section 17. Irrevocability and Termination. Subject to the right of the parties to amend this Agreement as provided in Section 16, this Trust shall be irrevocable and shall continue until terminated at the written agreement of the Grantor, the Trustee, and the Beneficiary, or by the Trustee and the Beneficiary, if the Grantor ceases to exist. Upon termination of the Trust, all remaining trust property, less final trust administration expenses, shall be delivered to the Grantor. The Beneficiary will agree to termination of the trust when the operator substitutes alternate financial assurance as specified in 14 CCR, Section 18479 or is released as specified in 14 CCR, Section 18482.

Section 18. Immunity and Indemnification. The Trustee shall not incur personal liability of any nature in connection with any act or omission, made in good faith, in the administration of this Trust, or in carrying out any directions by the Grantor or the Beneficiary issued in accordance with this Agreement. The Trustee shall be indemnified and saved harmless by the Grantor or from the Trust Fund, or both, from and against any personal liability to which the Trustee may be subjected by reason of any act in
conduct in its official capacity, including all expenses reasonably incurred in its defense in the event the Grantor fails to provide such defense.

Section 19. Choice of Law. This Agreement shall be administered, construed, and enforced according to the laws of the State of California.

Section 20. Interpretation. As used in this Agreement, words in the singular include the plural and words in the plural include the singular. The descriptive headings for each Section of this Agreement shall not affect the interpretation or the legal efficacy of this Agreement.

IN WITNESS WHEREOF the parties have caused this Agreement to be executed by their respective officers duly authorized and their corporate seals to be hereunto affixed and attested as of the date first above written. The parties below certify and sign under penalty of perjury under the laws of the State of California that the information in this document is true and correct to the best of his or her knowledge, and is being executed in accordance with the requirements of Title 14, California Code of Regulations, Division 7, Chapter 6, Article 9, Section 18474.

MAJOR WASTE TIRE FACILITIES COVERED

(Enter closure amounts separately and whether primary or excess coverage. All amounts must total penal amount.) If additional space needed, add attachment.

Name of Major Waste Tire Facility	Address	Major Waste Tire Facility Information Number	Closure Amount
			Total

KNOW ALL PERSONS BY THESE PRESENTS, THAT WE, the Principal and Surety(ies) hereto are firmly bound to the California Integrated Waste Management Board (Board), in the above penal sum for the payment of which we bind ourselves, our heirs, executors, administrators, successors, and assigns jointly and severally; provided that, where the Surety(ies) are corporations acting as co-sureties, we, the Sureties, bind ourselves in such sum "jointly and severally" only for the purpose of allowing a joint action or actions against any or all of us, and for all other purposes each Surety binds itself, jointly and severally with the Principal, for the payment of such sum only as is set forth opposite the name of such surety, but if no limit of liability is indicated, the limit of liability shall be the full amount of the penal sum. This bond is executed by the Surety(ies) to comply with the provisions of Title 14, California Code of Regulations, Division 7, Chapter 6, Article 9, and of Chapter 2 (Section 995.010 et seq.) Part 2 of the Code of Civil Procedure and said bond shall be subject to all the terms and provisions thereof except to the extent that such terms and provisions are inconsistent with or contradicted by statute.

WHEREAS said Principal is required, pursuant to 14 CCR, 18420, to have a permit in order to operate each major waste tire facility identified above, and

WHEREAS said Principal is required to provide financial assurance for closure, as a condition of the permit, pursuant to 14 CCR, 18470 and

WHEREAS said Principal shall establish a depository trust fund as may be required pursuant to 14 CCR, 18475 when a surety bond is used to provide such financial assurance;

NOW THEREFORE, the conditions of this obligation are such that if the Principal shall faithfully perform closure, whenever required to do so, of each major waste tire facility for which this bond guarantees closure, in accordance with the closure plan and other requirements of the permit as such plan and permit may be amended, pursuant to all applicable laws, statutes, rules, and regulations, as such laws, statutes, rules, and regulations may be amended.;

OR, if the Principal shall provide alternate financial assurance as applicable, within 60 days after the date notice of cancellation is received by the Principal and the Board or its designee from the Surety(ies), then this obligation shall be null and void, otherwise it is to remain in full force and effect.

The Surety(ies) shall become liable on this bond obligation only when the Principal has failed to fulfill the conditions described above.

Upon notification by the Board or its designee that the Principal has failed to perform as guaranteed by this bond, the Surety(ies) shall either perform closure in accordance with the closure plan and other permit requirements; or place the closure amount guaranteed for the major waste tire facility into the depository trust fund, established by the Principal, or if the Principal fails to establish a depository trust fund, established by the Surety(ies), as directed by the Board or its designee.

Upon notification by the Board or its designee that the Principal has failed to provide alternate financial assurance as required, during the 60 days following receipt by the Principal and the Board or its designee of a notice of cancellation of the bond, the Surety(ies) shall place funds in the amount guaranteed for the major waste tire facility(ies) into the depository trust fund as directed by the Board or its designee.

The Surety(ies) hereby waive(s) notification of amendments to closure plans, permits, applicable laws, statutes, rules, and regulations and agrees that no such amendment shall in any way alleviate its (their) obligation on this bond.

The liability of the Surety(ies) shall not be discharged by any payment or succession of payments hereunder, unless and until such payment or payments shall amount in the aggregate to the penal sum of the bond, but in no event shall the obligation of the Surety(ies) hereunder exceed the amount of said penal sum.

The Surety(ies) may cancel the bond by sending notice of cancellation by certified mail to the Principal and the Board or its designee, provided, however, that cancellation shall not take effect until 120 days after the date of receipt of the notice of cancellation by the Principal and the Board or its designee, as evidenced by the return receipts.

The Principal may terminate this bond by sending written notice to the Surety(ies), provided, however, that no such notice shall become effective until the Surety(ies) receive(s) written authorization from the Board or its designee for termination of the bond.

The following paragraph is an optional rider that may be included, but is not required.

Principal and Surety(ies) hereby agree to adjust the penal sum of the bond yearly so that it guarantees a new closure amount, provided the penal sum does not increase by more than 20 percent in any one year, and no decrease in the penal sum takes place without written permission from the Board or its designee.

IN WITNESS WHEREOF, the Principal and Surety(ies) have executed this Performance Bond and have affixed

their seals on the date set forth above.

The parties below certify that this document conforms with the requirements of Title 14, California Code of Regulations, Division 7, Chapter 6, Article 9, section 18475.

KNOW ALL PERSONS BY THESE PRESENTS, THAT WE, the Principal and Surety(ies) hereto are firmly bound to the California Integrated Waste Management Board (Board), in the above penal sum for the payment of which we bind ourselves, our heirs, executors, administrators, successors, and assigns jointly and severally; provided that, where the Surety(ies) are corporations acting as co-sureties, we, the Sureties, bind ourselves in such sum "jointly and severally" only for the purpose of allowing a joint action or actions against any or all of us, and for all other purposes each Surety binds itself, jointly and severally with the Principal, for the payment of such sum only as is set forth opposite the name of such surety, but if no limit of liability is indicated, the limit of liability shall be the full amount of the penal sum. This bond is executed by the Surety(ies) to comply with the provisions of Title 14, California Code of Regulations, Division 7, Chapter 6, Article 9, and of Chapter 2 (Section 995.010 et seq.) Part 2 of the Code of Civil Procedure and said bond shall be subject to all the terms and provisions thereof except to the extent that such terms and provisions are inconsistent with or contradicted by statute.

WHEREAS said Principal is required, pursuant to 14 CCR, 18420, to have a permit in order to operate each major waste tire facility identified above, and

WHEREAS said Principal is required to provide financial assurance for closure, as a condition of the permit, pursuant to 14 CCR, 18470 and

WHEREAS said Principal shall establish a depository trust fund as may be required pursuant to 14 CCR 18475 when a surety bond is used to provide such financial assurance;

NOW THEREFORE, the conditions of this obligation are such that if the Principal shall faithfully perform closure, whenever required to do so, of each major waste tire facility for which this bond guarantees closure, in accordance with the closure plan and other requirements of the permit as such plan and permit may be amended, pursuant to all applicable laws, statutes, rules, and regulations, as such laws, statutes, rules, and regulations may be amended;

OR, if the Principal shall provide alternate financial assurance as applicable, within 60 days after the date notice of cancellation is received by the Principal and the Board or its designee from the Surety(ies), then this obligation shall be null and void, otherwise it is to remain in full force and effect.

The Surety(ies) shall become liable on this bond obligation only when the Principal has failed to fulfill the conditions described above.

Upon notification by the Board or its designee that the Principal has failed to perform as guaranteed by this bond, the Surety(ies) shall place the funds in the amount guaranteed for the major waste tire facility into the depository trust fund, established by the Principal, or if the Principal fails to establish a depository trust fund, established by the Surety(ies), as directed by the Board or its designee.

Upon notification by the Board or its designee that the Principal has failed to provide alternate financial assurance as required, during the 60 days following receipt by the Principal and the Board or its designee of a notice of cancellation of the bond, the Surety(ies) shall place funds in the amount guaranteed for the major waste tire facility(ies) into the depository trust fund as directed by the Board or its designee.

The Surety(ies) hereby waive(s) notification of amendments to closure plans, permits, applicable laws, statutes, rules, and regulations and agrees that no such amendment shall in any way alleviate its (their) obligation on this bond.

The liability of the Surety(ies) shall not be discharged by any payment or succession of payments hereunder, unless and until such payment or payments shall amount in the aggregate to the penal sum of the bond, but in no event shall the obligation of the Surety(ies) hereunder exceed the amount of said penal sum.

The Surety(ies) may cancel the bond by sending notice of cancellation by certified mail to the Principal and the Board or its designee, provided, however, that cancellation shall not take effect until the 120 days after the date of receipt of the notice of cancellation by the Principal and the Board or its designee, as evidenced by the return receipts.

The Principal may terminate this bond by sending written notice to the Surety(ies), provided, however, that no such notice shall become effective until the Surety(ies) receive(s) written authorization from the Board or its designee for termination of the bond.

The following paragraph is an optional rider that may be included, but is not required.

Principal and Surety(ies) hereby agree to adjust the penal sum of the bond yearly so that it guarantees a new closure amount, provided the penal sum does not increase by more than 20 percent in any one year, and no decrease in the penal sum takes place without written permission from the Board or its designee.

IN WITNESS WHEREOF, the Principal and Surety(ies) have executed this Performance Bond and have affixed

their seals on the date set forth above.

State of California California Integrated Waste Management Board

IRREVOCABLE LETTER OF CREDIT
FOR CLOSURE COSTS
The Letter of Credit as specified in Title 14, California Code of Regulations shall preferably be on Bank Safety Paper and shall be worded as follows:

[Month, Day, Year]

Letter of Credit No._____

Executive Director
California Integrated Waste Management Board
1001 I Street
P.O. Box 4025
Sacramento, CA 95812-4025

Attention:

Dear Sir or Madam:

We hereby establish our Irrevocable Letter of Credit in your favor, at the request and for the account of

_____(Operator's name)_____(Address)_____ in the aggregate amount

$___(Spell out amount in United States dollars)___, available upon presentation by you of:

(1) Your sight draft(s) on us bearing reference to this Letter of Credit No._____;

(2) Your signed and dated statement reading as follows:

"We certify that the amount of our draft drawn under ____(Name of issuing institution) Letter of Credit No._____ is payable pursuant to regulations issued under authority of the California Solid Waste Management and Resources Recovery Act; and

Partial drawings are permitted.

Each draft must be marked "Drawn under _____(Name of issuing institution)

Letter of Credit No._____ dated _____."

Each draft must also be accompanied by the original of this Letter of Credit upon which we may endorse our payment.

We hereby agree with you that each draft drawn and presented to us at our above office in ___(City)___, (State)_____ in compliance with the terms of the Letter of Credit shall be duly honored upon presentation to us, and we shall deposit the amount of the draft directly in to the depository trust fund of ___(Operator)___ in accordance with your instructions. We also hereby agree to establish a depository trust fund in accordance with your instructions if the operator fails to establish a depository trust fund when required to do so under Title 14, California Code of Regulations, Chapter 6, Article 9, section 18476.

CIWMB 143 (12/01) Page 1 of 2

Special instructions.

This Letter of Credit is valid until [Month, Day, Year] and shall thereafter be automatically renewed for a one-year period upon such date and upon each successive anniversary of such date, unless at least one hundred twenty (120) days prior to such expiration or each successive anniversary of such date we notify you, the operator, in writing by certified mail that we elect not to renew the Letter of Credit for such additional period. In the event of such notification, any unused portion of the credit shall be available upon presentation to us of your clean sight draft on or before the then current expiration date.

Indicate whether this coverage is primary or excess coverage.

This credit is subject to (The most recent edition of the Uniform Customs and Practices for Documentary Credits, Published by the International Chamber of Commerce, or "The Uniform Commercial Code.")

This information is requested by the California Integrated Waste Management Board under Title 14, California Code of Regulations, Division 7, Chapter 6, Article 9 section 18476 in order to verify adequate financial assurance of major waste tire facilities. Submittal of the information requested in this form is mandatory. The consequence of not providing this information is denial or revocation of a permit to operate a major waste tire facility. Information may be provided to the U.S. Environmental Protection Agency, State Attorney General, Air Resources Board, California Department of Toxic Substances Control, Energy Resources Conservation and Development Commission, Water Resources Control Board, and California Regional Water Quality Control Boards. For more information or access to your records, contact the California Integrated Waste Management Board, 1001 I Street, P.O. Box 4025, Sacramento, California 95812-4025 (916) 341-6000.

ENTERPRISE FUND FOR FINANCIAL ASSURANCE

Title 14, California Code of Regulations, Division 7, Chapter 6, Article 9, specifies standards for five financial mechanisms. Section 18478 sets the standards for the use of an enterprise fund by public major waste tire facility operators. This mechanism was included by the Board in recognition of the fact that public agencies often make arrangements within their governmental structures that offer satisfactory financial assurance. For an enterprise fund to provide proper financial protection however, several conditions must be met.

To provide security over time and to ensure that the funds are available in a timely manner, Section 18478 requires that the money from the enterprise fund that is dedicated to closure activities be deposited into a mechanism that offers protection "equivalent to" a trust fund. The specifications for this subsidiary mechanism are contained in sections 18478(d)(1 - 6). If the mechanism is not a trust fund with a financial institution as specified in Section 18474, the funds should be held by a regulated public financial agency that is not directly connected with, nor is responsible for the operation of the subject major waste tire facility or operations of the county or city.

DOCUMENTATION

To demonstrate to the Board that an enterprise fund satisfies the regulations, several pieces of documentation must be prepared and submitted by an operator:

1. To indicate that the governing body accepts the obligations and requirements of the regulations, a copy of the formally adopted resolution directing that the enterprise fund be established must be provided. If an enterprise fund already exists, a resolution directing that it be modified to satisfy the regulations must be provided. The resolution must state that the governing board or council accepts the requirements of the regulations, i.e. Sections 18478 and 18474, and directs that the closure account be established.

2. To demonstrate that the appropriate depository mechanism within the enterprise fund has actually been established, a letter from the trustee must be submitted. This is a letter to the Board, typically from a county/city treasurer or auditor/controller, stating that the depository mechanism has been created and reiterating his/her intention to comply with the conditions set forth in Sections 18478(d)(1-6). These are the provisions that make this instrument a viable assurance mechanism.

3. The enterprise fund shall be established and worded as specified by using form CIWMB 144 (03/92). This form contains the proper language required for using this financial assurance mechanism. The wording, however, may be modified on a case-by-case basis to accommodate special circumstances, as approved by the Board or its designee. Additionally, the information requested in brackets [ ] will vary.

To ensure that financial assurance requirements do not unnecessarily delay Board action on permits, it is advisable to submit appropriate documentation at least two months in advance of the date that Board action is to be taken. This will allow sufficient time for errors and omissions to be corrected or details of peculiar cases to be discussed at the staff level. The advance submittal of draft documentation to the Board's staff for comment is also encouraged.

PRIVACY STATEMENT

This information is requested by the California Integrated Waste Management Board under Title 14, California Code of Regulations, Division 7, Chapter 6, Article 9 section 18478 in order to verify adequate financial assurance of major waste tire facilities. Submittal of the information requested in this form is mandatory. The consequence of not providing this information is denial or revocation of a permit to operate a major waste tire facility. Information may be provided to the U.S. Environmental Protection Agency, State Attorney General, Air Resources Board, California Department of Toxic Substances Control, Energy Resources Conservation and Development Commission, Water Resources Control Board, and California Regional Water Quality Control Boards. For more information or access to your records, contact the California Integrated Waste Management Board, 1001 I Street, P.O. Box 4025, Sacramento, California 95812-4025, (916) 341-6000.

RESOLUTION

FINANCIAL ASSURANCE FOR CLOSURE OF THE [NAME OF TIRE FACILITY]

WHEREAS, Public Resources Code Section 42820 and Sections of Title 14 of the California Code of Regulations (Regulations), Chapter 6, Article 9, require operators of major waste tire facilities demonstrate the availability of financial resources to conduct closure activities; and

WHEREAS, Sections 18478 of the Regulations specify an enterprise fund and related financial assurance mechanism as an acceptable mechanism to demonstrate financial responsibility for financing closure activities of a major waste tire facility;

NOW, THEREFORE, BE IT RESOLVED by the [Board of Supervisors/City Council] of [Name of County/City] that:

1. The [Title of Authorized Person] of [Name of County/City] is authorized and directed to establish and maintain an enterprise fund for the [Facility Name] ("the Tire Facility") and to deposit in the enterprise fund all revenue derived from the operations of the Tire Facility.

2. The [Title of Authorized Person] is further directed to withdraw funds from the enterprise fund, for deposit into the financial assurance mechanism hereafter provided, sufficient to meet the requirements of Sections 18478 of the Regulations on a timely basis. Payments into the financial assurance mechanism shall be made in accordance with the requirements of section 18474 (c) of the Regulations.

3. The funds referred to in Section 2 above shall be deposited and retained by the Treasurer of [Name of County/City] in a separate fund to be known as the [Name of Facility] Closure Fund established by the [Title of Authorized Person] of [Name of County/City] and shall be used to pay only for closure activities of the Tire Facility.

4. The Closure Fund shall be and remain inviolate against all other claims, including claims of this [County/City] or its [Board of Supervisors/City Council] or the creditors thereof, it being the intent of this Resolution that the mechanism established hereby will provide equivalent protection to a trust fund in ensuring that the assured amounts of funds will be available in a timely manner for closure activities of the Tire Facility.

5. Disbursement of funds for closure activities shall be in accordance with Sections 18474(e) of these regulations.

6. The Closure Fund shall be invested by the [Title of Authorized Person] in the manner provided by law.

7. In the event the California Integrated Waste Management Board determines that this [County/City] has failed to perform closure activities as required by law, the Board may direct the [Title of Authorized Person] to pay to the [Title of Authorized Person] from the Closure Fund such amounts as are necessary to insure sufficient closure activities, who then shall be obligated to use such funds for closure activities in accordance with the directive of the California Integrated Waste Management Board.

8. The [Title of Authorized Person] is directed to produce an annual report for transmittal to the California Integrated Waste Management Board, containing the following information concerning the [Name of Facility]:

(a) As appropriate, a revised closure cost estimate, prepared as specified by Section 18472 of the Regulations.

(b) Status, including current balance of the [Name of Facility] Closure Fund.

(c) The number of current members of the [Board of Supervisors/City Council] of this [County/City] who voted affirmatively when this resolution was adopted or last reaffirmed.

9. **[Optional]** The [Board of Supervisors/City Council] of [Name of County/City] shall reconsider this resolution whenever the number of then current members of this Board who voted affirmatively when this Resolution was adopted or last reaffirmed is less than a majority of the total members.

* * * * *

([Name of County/City])

I, [Name of Authorized Person], [Title of Authorized Person] of the [Board of Supervisors/City Council] of the [County/City] of [Name of County/City], do hereby certify that the foregoing is a full, true, and correct copy of a resolution adopted by the [Board of Supervisors/City Council] at a regular meeting held on [Month, Day, Year], and duly entered in the minutes of said [County/City].

To Whom It May Concern:

Verification of Establishment of Funds

Please be advised that the following separate funds have been established pursuant to Resolution(s) No.[_____] adopted on [Month, Day, Year] by the [Board of Supervisors/City Council] of [Name of County/City]:

1. [Name of Facility] Closure Fund

It is understood that these funds shall be used by the [Title of Authorized Person] of [Name of County/City] only for closure activities at the identified major waste tire facility, and are intended to meet applicable requirements of State law. These monies are being held in these funds to preserve their integrity and inviolacy. I will perform my duties and responsibilities in accordance with the terms and conditions of Title 14, Division 7, Chapter 6, Article 9.

This letter shall serve as verification that the [Title of Authorized Person] of [Name of County/City] has established these funds in accordance with the resolutions referenced above. The [Title of Authorized Person] is an officer of the [County/City] of [Name of County/City].

Sincerely,

[Name of Authorized Person]
[Title of Authorized Person]

[Name of County/City]
[Department Responsible for Waste Tire Facilities]

[Month, Day, Year]

California Integrated Waste Management Board
1001 I Street
P.O. Box 4025
Sacramento, California 95812-4025

To Whom It May Concern:

Certification for the Establishment of a Financial Mechanism for the Closure of the [Name of Facility]

The [Department Responsible for Waste Tire Facilities] is herein submitting the subject certification for the [Name of Facility], Major Waste Tire Facility Permit No. [NN-XX-NNNN]. The [Department Responsible for Waste Tire Facilities] is the operator of the [Name of Facility] and retains responsibility for closure activities. ON [Month, Day, Year] [Department Responsible for Waste Tire Facilities] submitted to the Board initial cost estimates for closure activities and accompanying certification for this major waste tire facility. Submittal of the enclosed certification of a financial mechanism for closure of the [Name of Facility] completes all required documentation for this major waste tire facility related to financial assurances for closure activities.

On [Date], the Board of Supervisors of [Name of County/City], the governing administrative authority for the [Department Responsible for Waste Tire Facilities], established the [Name of Facility] Closure Fund, an enterprise fund to be used exclusively for closure activities of the subject major waste tire facility. Annual deposits as required by Title 14, Division 7, Chapter 6, Article 9, will be made to the Closure Fund so that an amount equal to the current closure cost estimate for the [Name of Facility] is available at the time of closure. Official documentation of the establishment of this Closure Fund is forthcoming.

If you have any questions concerning the attached certification or related matters, please contact me.

Sincerely,

[Name of Authorized Person]
[Department Responsible for Waste Tire Facilities]

State of California California Integrated Waste Management Board

TRUST AGREEMENT

Trust Account Number: _____

This Agreement is entered into as of _____ by and between:

GRANTOR	TRUSTEE
Operator Name:	Trustee Name:
Address:	Address: Phone Number:
☐ Corporation ☐ Association ☐ Partnership ☐ Proprietorship In the State of _____	☐ Incorporated in the State of _____ ☐ A National Bank

TERMS OF AGREEMENT

WHEREAS, the California Integrated Waste Management Board has established regulations applicable to the Grantor in Title 14, California Code of Regulations (CCR), Division 7, Chapter 6, Article 10, requiring that an operator of a major waste tire facility shall demonstrate financial responsibility for bodily injury and/or property damage to third parties caused by accidental occurrences arising from the operation of the facility, and

WHEREAS, the Grantor has elected to establish a trust to assure all or part of such financial responsibility for the major waste tire facility or group of major waste tire facilities identified herein, and

WHEREAS, the Grantor, acting through its duly authorized officers, has selected the Trustee to be the trustee under this agreement, and the Trustee is willing to act as trustee,

NOW THEREFORE, the Grantor and Trustee agree as follows:

Section 1. Definitions. As used in this Agreement:

(a) The term "Grantor" means the operator who enters into this Agreement and any successors or assigns of the Grantor.

(b) The term "Trustee" means the Trustee who enters into this Agreement and any successor Trustee.

(c) The term "Beneficiary" means third party claimants who satisfy the requirements either of Section 4(a) or 4(b) of this Agreement.

(d) The term "California Integrated Waste Management Board" or "the Board" means the California Integrated Waste Management Board or its designee.

Section 2. Identification of Facilities and Coverage Amounts. This Agreement pertains to the major waste tire facilities, coverage amounts, and determination of primary or excess coverage identified on attached Schedule A [for each facility included in Schedule A, list the major waste tire facility information system number, name, address, amount of per occurrence coverage and annual aggregate coverage or portions thereof if more than one instrument affords combined coverage as demonstrated by this Agreement, and whether the coverage is primary coverage or excess coverage].

Section 3. Establishment of Fund. The Grantor and the Trustee hereby establish a trust fund, hereinafter the "Fund", for the benefit of any and all third parties injured or damaged by accidental occurrences arising from operation of the facility(ies) covered by this trust agreement, in the amounts of _____ per occurrence and _____ annual aggregate per facility for accidental occurrences, except that the Fund is not established for the benefit of third parties for the following:

(a) "Bodily injury" or "property damage" expected or intended from the standpoint or the Grantor. This exclusion does not apply to "bodily injury" resulting from the use of reasonable force to protect persons or property.

(b) "Bodily injury" or "property damage" for which the Grantor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the Grantor would have in the absence of the contract or agreement.

(c) Any obligation of the Grantor under a workers compensation, disability benefits or unemployment compensation law or any similar law.

(d) "Bodily injury" to:

(1) An employee of the Grantor arising out of and in the course of employment by the Grantor; or

(2) The spouse, child, parent, brother or sister of that employee as a consequence of (1) above.

This exclusion applies:

(1) Whether the Grantor may be liable as an employer or in any other capacity; and

(2) To any obligation to share damages with or repay someone else who must pay damages because of the injury.

(e) "Bodily injury" or "property damage" arising out of the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft owned or operated by or rented or loaned to the Grantor. Use includes operation and loading and unloading. This exclusion does not apply to:

(1) Parking an "auto" on, or on the ways next to, premises the Grantor owns or rents, provided the "auto" is not owned by or rented or loaned to the Grantor.

(2) "Bodily injury" or "property damage" arising out of the operation of any of the equipment listed in paragraph (F)2. or (F)3. of the definition of "mobile equipment" (14 CCR, Section 18486).

(f) "Property damage" to:

(1) Property the Grantor owns, rents, or occupies;

(2) Premises the Grantor sells, gives away or abandons, if the "property damage" arises out or any part of those premises;

(3) Property loaned to the Grantor;

(4) Personal property in the Grantor's care, custody or control;

(5) That particular part of real property on which the Grantor or any contractors or subcontractors working directly or indirectly on the Grantor's behalf are performing operations, if the "property damage" arises out of those operations; or

(6) That particular part of any property that must be restored, repaired or replaced because the Grantor's work was incorrectly performed on it.

The Fund is established initially as consisting of the property (cash or securities), which is acceptable to the Trustee, described in Schedule B attached hereto. Such property and any other property subsequently transferred to the Trustee is referred to as the Fund, together with all earnings and profits thereon, less any payments or distributions made by the Trustee pursuant to this Agreement. The Fund shall be held by the Trustee, IN TRUST, as hereinafter provided. The Trustee shall not be responsible nor shall it undertake any responsibility for the amount or adequacy of, nor any duty to collect from the Grantor, any payments necessary to discharge any liabilities of the Grantor established by the Board.

Section 4. Payment for Bodily Injury or Property Damage. The Trustee shall satisfy a third party liability claim by making payments from the Fund only on receipt of one of the following documents:

(a) Certification from the Grantor and the Beneficiary that the liability claim should be paid. The certification must be worded as follows:

CERTIFICATION OF VALID CLAIM

The undersigned, as parties [Grantor] and [Name and Address of Beneficiary(ies)], hereby certify that the claim of bodily injury and/or property damage caused by an accidental occurrence arising from the operation of [Grantor's] major waste tire facility should be paid in the amount of $_____.

_____	_____	__/__/__
Grantor's Signature	Notary	Date
_____	_____	__/__/__
Claimant(s) Signature	Notary	Date

(b) A valid final court order establishing a judgment against the Grantor for bodily injury or property damage caused by accidental occurrences arising from the operation of the Grantor's facility or group of facilities.

Section 5. Payments Comprising the Fund. Payments made to the Trustee for the Fund shall consist of cash or securities acceptable to the Trustee.

Section 6. Trustee Management. The Trustee may invest and reinvest the principal and income of the Fund and keep the Fund invested as a single fund, without distinction between principal and income, in accordance with general investment policies and guidelines that the Grantor may communicate in writing to the Trustee from time to time, subject, however, to the provisions of this Section. In investing, reinvesting, exchanging, selling, and managing the Fund, the Trustee shall discharge his or her duties with respect to the trust fund solely in the interest of the potential beneficiaries and with the care, skill, prudence and diligence under the circumstances then prevailing that persons of prudence, acting in a like capacity and familiar with such matters, would use in the conduct of an enterprise of a like character and with like aims; except that:

(i) Securities or other obligations of the Grantor, or any other operator or owner of the facilities, or any of their affiliates as defined in the Investment Company Act of 1940, as amended, Title 15 U.S.C. 80a-2(a), shall not be acquired or held, unless they are securities or other obligations of the federal or state government.

(ii) The Trustee is authorized to invest the Fund in time or demand deposits of the Trustee, to the extent insured by an agency of the federal or state government; and

(iii) The Trustee is authorized to hold cash awaiting investment or distribution uninvested for a reasonable time and without liability for the payment of interest thereon.

Section 7. Commingling and Investment. The Trustee is expressly authorized in its discretion:

(a) To transfer from time to time any or all of the assets of the Fund to any common, commingled or collective trust fund created by the Trustee in which the Fund is eligible to participate, subject to all of the provisions thereof, to be commingled with the assets of other trusts participating therein; and

(b) To purchase shares in any investment company registered under the Investment Company Act of 1940 as amended, Title 15 U.S.C. 80a-1 et seq., including one that may be created, managed, underwritten, or to which investment advice is rendered or the shares of which are sold by the Trustee. The Trustee may vote such shares in its discretion.

Section 8. Express Powers of Trustee. Without in any way limiting the powers and discretion conferred upon the Trustee by the other provisions of this Agreement or by law, the Trustee is expressly authorized and empowered:

(a) To sell, exchange, convey, transfer, or otherwise dispose of any property held by it, by public or private sale. No person dealing with the Trustee shall be bound to see to the application of the purchase money or to inquire into the validity or expediency of any such sale or other disposition;

(b) To make, execute, acknowledge, and deliver any and all documents of transfer and conveyance and any and all other instruments that may be necessary or appropriate to carry out the powers herein granted;

(c) To register any securities held in the Fund in its own name or in the name of a nominee and to hold any security in bearer form or in book entry, or to combine certificates representing such securities with certificates of the same issue held by the Trustee in other fiduciary capacities, or to deposit or arrange for the deposit of such securities in a qualified central depositary even though, when so deposited, such securities may be merged and held in bulk in the name of the nominee of such depositary with other securities deposited therein by another person, or to deposit or arrange for the deposit of any securities issued by the United States Government, or any agency or instrumentality thereof, with a Federal Reserve Bank, but the books and records of the Trustee shall at all times show that all such securities are part of the Fund;

(d) To deposit any cash in the Fund in interest-bearing accounts maintained or savings certificates issued by the Trustee, in its separate corporate capacity, or in any other banking institution affiliated with the Trustee, to the extent insured by an agency of the federal or state government; and

(e) To compromise or otherwise adjust all claims in favor of or against the Fund.

Section 9. Taxes and Expenses. All taxes of any kind that may be assessed or levied against or in respect of the Fund and all brokerage commissions incurred by the Fund shall be paid from the Fund. All other expenses incurred by the Trustee in connection with the administration of this Trust, including fees for legal services rendered to the Trustee, the compensation of the Trustee to the extent not paid directly by the Grantor, and all other proper charges and disbursements of the Trustee shall be paid from the Fund.

Section 10. Annual Valuation. The Trustee shall annually, at least 30 days prior to the anniversary date of establishment of the Fund, furnish to the Grantor and the Board a statement confirming the value of the Trust. Any securities in the Fund shall be valued at market value as of no more than 60 days prior to the anniversary date of establishment of the Fund. The failure of the Grantor to object in writing to the Trustee within 90 days after the statement has been furnished to the Grantor and the Board shall constitute a conclusively binding assent by the Grantor, barring the Grantor from asserting any claim or liability against the Trustee with respect to matters disclosed in the statement.

Section 11. Advice of Counsel. The Trustee may from time to time consult with counsel, who may be counsel to the Grantor, with respect to any question arising as to the construction of this Agreement or any action to be taken hereunder. The Trustee shall be fully protected, to the extent permitted by law, in acting on the advice of counsel.

Section 12. Trustee Compensation. The Trustee shall be entitled to reasonable compensation for its services as agreed upon in writing from time to time with the Grantor.

Section 13. Successor Trustee. The Trustee may resign or the Grantor may replace the Trustee, but such resignation or replacement shall not be effective until the Grantor has appointed a successor trustee and this successor accepts the appointment. The successor trustee shall have the same powers and duties as those conferred upon the Trustee hereunder. Upon the successor trustee's acceptance of the appointment, the Trustee shall assign, transfer, and pay over to the successor trustee the funds and properties then constituting the Fund. If, for any reason, the Grantor cannot or does not act in the event of the resignation of the Trustee, the Trustee may apply to a court of competent jurisdiction for the appointment of a successor trustee or for instructions. The successor trustee shall specify the date on which it assumes administration of the trust in a writing sent to the Grantor, the Board, and the present Trustee by certified mail ten days before such change becomes effective. Any expenses incurred by the Trustee as a result of any of the acts contemplated by this Section shall be paid as provided in Section 9.

Section 14. Instruction to the Trustee. All orders, requests, and instructions by the Grantor to the Trustee shall be in writing, signed by such persons as are designated in the attached Exhibit A or such other designees as the Grantor may designate by amendment to Exhibit A. The Trustee shall be fully protected in acting without inquiry in accordance with the Grantor's orders, requests, and instructions. The Trustee shall have the right to assume, in the absence of written notice to the contrary, that no event constituting a change or a termination of the authority of any person to act on behalf of the Grantor or the Board hereunder has occurred. The Trustee shall have no duty to act in the absence of such orders, requests, and instructions from the Grantor and/or the Board, except as provided for herein.

Section 15. Notice of Nonpayment. If a payment for bodily injury or property damage is made under Section 4 of this trust, the Trustee shall notify the Grantor of such payment and the amount(s) thereof within five (5) working days. The Grantor shall, within one year of such payment, either make payments to the Trustee in amounts sufficient to cause the trust to return to its value immediately prior to the payment of claims under Section 4, or shall provide written proof to the Trustee that other financial assurance for operating liability coverage has been obtained equaling the amount necessary to return the trust to its value prior to the payment of claims. If the Grantor does not either make payments to the Trustee or provide the Trustee with such proof, the Trustee shall, within 10 working days after the anniversary date of the payment, provide a written notice of nonpayment to the Board.

Section 16. Amendment of Agreement. This agreement may be amended by an instrument in writing executed by the Grantor, Trustee, and the Board, or by the Trustee and the Board if the Grantor ceases to exist.

Section 17. Irrevocability and Termination. Subject to the right of the parties to amend this Agreement as provided in Section 16, this Trust shall be irrevocable and shall continue until terminated at the written agreement of the Grantor, the Trustee, and the Board, or by the Trustee and the Board, if the Grantor ceases to exist. Upon termination of the Trust, all remaining trust property, less final trust administration expenses, shall be delivered to the Grantor. The Board will agree to termination of the trust when the operator substitutes alternate financial assurance as specified in 14 CCR, 18488 or is released as specified in 14 CCR, 18499.

Section 18. Immunity and Indemnification. The Trustee shall not incur personal liability of any nature in connection with any act or omission, made in good faith, in the administration of this Trust, or in carrying out any directions by the Grantor or the Board issued in accordance with this Agreement. The Trustee shall be indemnified and saved harmless by the Grantor or from the Trust Fund, or both, from and against any personal liability to which the Trustee may be subjected by reason of any act in conduct in its official capacity, including all expenses reasonably incurred in its defense in the event the Grantor fails to provide such defense.

Section 19. Choice of Law. This Agreement shall be administered, construed, and enforced according to the laws of the State of California.

Section 20. Interpretation. As used in this Agreement, words in the singular include the plural and words in the plural include the singular. The descriptive headings for each Section of this Agreement shall not affect the interpretation or the legal efficacy of this Agreement.

IN WITNESS WHEREOF the parties have caused this Agreement to be executed by their respective officers duly authorized and their corporate seals to be hereunto affixed and attested as of the date first above written. The parties below certify and sign under penalty of perjury under the laws of the State of California that the information in this document is true and correct to the best of his or her knowledge, and is being executed in accordance with the requirements of Title 14, California Code of Regulations, Division 7, Chapter 6, Article 10, Section 18489.

			Total:	Total:
Policy Number:			Effective Date:	

*Excluding legal defense costs and deductibles

INSURER CERTIFICATION:

1. The insurer hereby certifies that it has issued liability insurance covering personal injury and/or property damage to the insured listed above in connection with the insured's obligation to demonstrate financial responsibility under Title 14, California Code of Regulations, Division 7, Chapter 6, Article 10. The coverage applies to the above-listed facility(ies) for accidental occurrences arising from the operation of the facility(ies).

2. Indicate whether this coverage is ☐ primary or ☐ excess coverage.

3. The limits of liability are the amounts stated above for "per occurrence" and "annual aggregate", exclusive of legal defense costs. If an excess coverage insurance policy is being provided, complete the following sentence:

[$_____per occurrence and $_____annual aggregate in excess of the underlying limits of $_____per occurrence and $_____annual aggregate.]

4. The insurance coverage is subject to all of the terms and conditions of the policy; provided, however, that any provisions of the policy inconsistent with sections (a) through (e) of this paragraph shall be amended to conform with sections (a) through (e):

(a) Bankruptcy or insolvency of the insured shall not relieve the insurer of its obligations under the policy to which this certification applies.

(b) The insurer is liable for the payment of amounts within any deductible applicable to the policy, with a right of reimbursement from the insured for any such payment made by the insurer.

(c) Upon request by the Board or its designee, the insurer agrees to furnish to the Board or its designee the original policy and all endorsements.

(d) Cancellation or any other termination of this certificate, whether by the insurer or the insured, will be effective only upon written notice and only after the expiration of 60 days after a copy of such written notice is sent by certified mail, and received by the Board or its designee, as evidenced by the return receipts. (See exception, section (e))

(e) Cancellation due to non-payment of premiums is effective only upon written notice and only after the expiration of 10 days after the date on which the operator and the Board or its designee have received the notice of termination, as evidenced by return receipts.

The party below certifies and signs under penalty of perjury under the laws of the State of California that the information in this document is true and correct to the best of his or her knowledge, that this document is being executed in accordance with the requirements of Title 14, California Code of Regulations, Division 7, Chapter 6, Article 10, Section 18491, and that the insurer is licensed by the California Department of Insurance to transact the business of insurance in the State of California as an ☐ admitted carrier or ☐ eligible excess or surplus lines insurer.

State of California California Integrated Waste Management Board

INSTRUCTIONS FOR THE
Letter From the Chief Financial Officer
Financial Means Test for Liability

(a) A letter from the chief financial officer, as specified in Title 14, California Code of Regulations, Division 7, Chapter 6, Article 10, Section 18493 shall be on corporate letterhead stationery. It shall contain the original signature of the chief financial officer and shall be worded as indicated on the attached form CIWMB 149 (12/01)

(b) The letter from the chief financial officer shall be accompanied by the following items, as specified in Section 18493:

(1) A copy of an independent certified public accountant's report on examination of the operator's financial statements for the latest completed fiscal year with a copy of the firm's financial statements for the latest completed fiscal year;

(2) A special report from the independent certified public accountant to the operator stating that:

(A) The independent certified public accountant has compared the data in the letter from the chief financial officer with the amounts in the year-end financial statements for the latest completed fiscal year; and

(B) In connection with that procedure, no matters came to the independent certified public accountant's attention that caused him or her to believe that the specified data should be adjusted;

(3) A completed financial test using either Alternative I or II;

(4) A copy of the form 10-K most recently filed with the Securities and Exchange Commission, if the operator is required to make such a filing; and

(5) If applicable, the corporate guarantee with wording as specified in Title 14, California Code of Regulations, Division 7, Chapter 6, Article 10, Section 18494.

PRIVACY STATEMENT

This information is requested by the California Integrated Waste Management Board under Title 14, California Code of Regulations, Division 7, Chapter 6, Article 10, Section 18493, in order to verify adequate financial assurance for major waste tire facilities. Submittal of the information requested is mandatory. The consequence of not providing this information is denial or revocation of a permit to operate a major waste tire facility. Information may be provided to the U.S. Environmental Protection Agency, State Attorney General, Air Resources Board, California Department of Toxic Substances Control, Energy Resources Conservation and Development Commission, Water Resources Control Board, and California Regional Water Quality Control Boards. For more information or access to your records, contact the California Integrated Waste Management Board, 1001 I Street, P.O. Box 4025, Sacramento, California 95812-4025, (916) 341-6000.

Executive Director
California Integrated Waste Management Board
1001 I Street
P.O. Box 4025,
Sacramento, California 95812-4025

I am the chief financial officer of (Operator's or Guarantor's Name and Address). This letter is in support of the financial means test and/or corporate guarantee to demonstrate financial assurance for liability coverage, as specified in Title 14, California Code of Regulations (CCR), Division 7, Chapter 6, Article 10, Section 18493.

[Complete the following paragraphs regarding major waste tire facilities, including those California and out-of-state facilities for which a similar test is being used to demonstrate financial assurances, including but not limited to, closure and/or postclosure maintenance costs of hazardous waste treatment or storage facilities or solid waste landfills, or liability coverage requirements for these same or similar facilities, and associated coverage amounts. If no facilities belong in a particular paragraph, write "None" in the space indicated. For each facility, include its facility information number, name, address, and the amounts of coverage provided. Identify each coverage amount separately as to whether it is for "closure" or "postclosure maintenance" costs or "per occurrence" or "annual aggregate" liability coverage for accidental occurrences, and whether it is primary or excess coverage.]

1. This firm is the operator or owner of the following facilities for which the firm is demonstrating financial assurance for liability coverage through the financial means test as specified in 14 CCR, 18493 (list annual aggregate being provided for each facility):

2. This firm guarantees, through the corporate guarantee for liability coverage as specified in 14 CCR, 18494, the liability coverage of the following facilities (list annual aggregate being provided for each facility):

3. This firm is the operator or owner of the following facilities for which the firm is demonstrating financial assurance for liability coverage through any similar financial means test, including but not limited to, California, federal, or out-of-state hazardous waste treatment storage or disposal facilities, or solid waste landfills, or any other similar financial means tests:

4. This firm is the operator or owner of the following facilities for which the firm is demonstrating financial assurance for closure and/or postclosure maintenance through any similar financial means test, including but not limited to, California, federal, or out-of-state hazardous waste treatment storage or disposal facilities, or solid waste landfills, or any other similar financial means tests for any similar financial responsibility requirements of any operations of this firm:

5. This firm guarantees, through any similar financial means tests as specified in the laws of California, the federal government or any other state, the liability coverage requirements of any hazardous waste treatment, storage or disposal facilities, or any solid waste landfills, or any other similar guarantees for any similar financial responsibility requirements of any operations of this firm (list annual aggregate being provided for each facility):

6. This firm guarantees, through the corporate guarantee for postclosure maintenance specified in 14 CCR, Section 18291 for solid waste landfills, or through any similar financial means tests as specified in the laws of California, the federal government or any other state, the closure and/or postclosure maintenance costs of any hazardous waste treatment, storage or disposal facilities, or any solid waste landfills, or any other similar guarantees for any similar financial assurance requirements of any operations of this firm:

7. This firm is/is not required to file a form 10-K with the Securities and Exchange Commission (SEC) for the latest fiscal year.

8. The fiscal year of this firm ends on (Month/Day).

9. The figures for the following items marked with an asterisk are derived from this firm's independently audited, year-end financial statements for the latest completed fiscal year, ended _____.

10. This coverage is primary/excess coverage.

ALTERNATIVE I
(Omit if using Alternative II)

1.	Amount of annual aggregate liability coverage to be demonstrated	$ _____
2.	Sum of other liability coverage and/or closure cost estimates and/or postclosure maintenance cost estimates (from paragraphs 3, 4, 5, and/or 6)	$ _____
3.	Sum of lines 1 and 2	$ _____
*4.	Total liabilities (if any portion of the postclosure cost estimates is included in total liabilities, you may deduct the amount of that portion from this line and add that amount to lines 5 and 6)	$ _____

P.O. Box 4025
Sacramento, California 95812-4025

Guarantee made this [date] by [name of guaranteeing entity], a business corporation organized under the laws of [if incorporated within the United States insert "the State of _____ "; if incorporated outside the United States insert the name of the country in which incorporated, the principal place of business within the United States, the name and address of the registered agent in the State of the principal place of business] herein referred to as a guarantor. This guarantee is made on behalf of [Operator] [Business address] to any and all third parties who have sustained or may sustain bodily injury and/or property damage caused by accidental occurrences arising from operation of the major waste tire facility(ies) covered by this guarantee.

Recitals

1. Guarantor meets or exceeds the financial means test criteria of Title 14, California Code of Regulations (CCR), Division 7, Chapter 6, Article 10, Section 18493 and agrees to comply with the reporting requirements for guarantors as specified in 14 CCR, Sections 18493 and 18494.

2. Guarantor is a [parent corporation] of [Name of Operator]; is a [firm whose parent corporation], [Name of Corporate Parent], is also the parent corporation of [Name of Operator]; or engages in a substantial business relationship with [Name of Operator] and is issuing this guarantee as an act incident to that business relationship.

3. [Operator] operates the following facilities in the United States which are covered by this guarantee or a similar guarantee: [List for all facilities (including but not limited to hazardous waste and solid waste disposal facilities): facility information number, name and address; and if guarantor is incorporated outside the United States, list the name and address of the guarantor's registered agent for service in California.]

This corporate guarantee satisfies the Board's operating liability coverage requirements as identified in 14 CCR, Section 18487 for accidental occurrences for the facilities named above for the required amount of coverage excluding legal defense costs, deductibles and self-insured retentions.

4. [Insert appropriate phrase: "On behalf of our subsidiary" (if guarantor is a parent corporation of the operator); "On behalf of our affiliate" (if guarantor is a firm whose parent corporation is also the parent corporation of the operator); or "Incident to our business relationship with" (if guarantor is providing guarantee as an incident to a substantial business relationship with the operator) [Operator], Guarantor guarantees to the Board or its designee that for any and all third parties who may sustain bodily injury and/or property damage caused by accidental occurrences arising from operations of the facilities covered by this guarantee that in the event that [Operator] fails to satisfy a judgment or award based on a determination of liability for bodily injury or property

damage to third-parties caused by accidental occurrences arising from the operation of the facilities named above or fails to pay an amount agreed to in settlement of a claim arising from or alleged to arise from such injury or damage, the guarantor will satisfy such judgment(s), award(s), or settlement agreement(s) up to the limits of coverage.

5. In the event of combination of this guarantee with another mechanism to meet operating liability coverage requirements, this guarantee will be considered [primary/excess] coverage.

6. Guarantor agrees that if at any time during or at the end of any fiscal year before termination of this guarantee, the guarantor fails to meet the financial means test criteria, guarantor shall send within ninety (90) days of such determination, by certified mail, written notice to the Board or its designee and to [Operator] that he or she intends to provide alternate liability coverage as specified in 14 CCR, Section 18488 in the name of [Operator]. Within 120 days after the end of such fiscal year, the guarantor shall establish such liability coverage unless [Operator] has done so.

7. The guarantor agrees to send written notice to the Board or its designee, by certified mail of a voluntary or involuntary proceeding under the Bankruptcy Code, 11 U.S.C., 101-1330, naming guarantor as debtor, within ten (10) days after commencement of the proceedings.

8. Guarantor agrees that within (30) days after being notified by the Board or its designee of a determination that guarantor no longer meets the financial means test criteria or that it is disallowed from continuing as a guarantor, that alternate liability coverage shall be established as specified in 14 CCR, Section 18488 in the name of [Operator] unless [Operator] has done so.

9. Guarantor reserves the right to modify this agreement to take into account amendment or modification of the liability coverage requirements set by 14 CCR, Division 7, Chapter 6, Article 10 provided that such modification shall become effective only if the Board or its designee does not disapprove the modification within thirty (30) days of receipt of notification of the modification.

10. Guarantor agrees to remain bound under this guarantee for so long as [Operator] must comply with the applicable requirements of 14 CCR, Division 7, Chapter 6, Article 10, for the facilities listed above, except as provided in paragraph 11 of this agreement.

11. Guarantor may terminate this guarantee by sending written notice by certified mail to the Board or its designee and to [Operator], provided that this guarantee may not be terminated unless and until [Operator] obtains, and the Board or its designee approves alternative liability coverage complying with 14 CCR, Section 18488.

12. Guarantor hereby expressly waives notice of acceptance of this guarantee.

13. Guarantor agrees that this guarantee is in addition to and does not affect any other responsibility or liability of the guarantor with respect to the covered facilities.

14. The guarantor shall satisfy a third party liability claim only on receipt of one of the following documents:

(a) Certification from the operator and the third party claimant(s) that the liability claim should be paid. The certification must be worded as follows:

CERTIFICATION OF VALID CLAIM

The undersigned, as parties [Operator] and [Name and address of third party(ies)] hereby certify that the claim of bodily injury and/or property damage caused by an accidental occurrence arising from operating [Operator's] solid waste disposal facility should be paid in the amount of $_____.

_____	_____	_____
Operator's Signature	Notary	Date
_____	_____	_____
Claimant's Signature	Notary	Date

(b) A valid final court order establishing a judgment against the operator for bodily injury or property damage caused by accidental occurrences arising from the operation of the operator's facility or group of facilities.

I hereby certify and sign under penalty of perjury under the laws of the State of California that the information in this document is true and correct to the best of my knowledge, and that this letter is worded as specified, and is being executed in accordance with, the requirements of Title 14, California Code of Regulations, Division 7, Chapter 6, Article 10, Section 18494.

PRIVACY STATEMENT

This information is requested by the California Integrated Waste Management Board under Title 14, California Code of Regulations, Division 7, Chapter 6, Article 10, Section 18494, in order to verify adequate financial assurance for major waste tire facilities. Submittal of the information requested is mandatory. The consequence of not providing this information is denial or revocation of a permit to operate a major waste tire facility. Information may be provided to the U.S. Environmental Protection Agency, State Attorney General, Air Resources Board, California Department of Toxic Substances Control, Energy Resources Conservation and Development Commission, Water Resources Control Board, and California Regional Water Quality Control Boards. For more information or access to your records, contact the California Integrated Waste Management Board, 1001 I Street, P.O. Box 4025, Sacramento, California 95812-4025, (916) 341-6000.

Retreader Self-Certification

In accordance with the California Code of Regulations (CCR), §18460.2.1, **Waste Tire Manifest System Requirements for Retreaders**, the Retreader identified below transports tire casings for the sole purpose of inspection, retreading, recasing, or recapping. The transportation of any used or waste tire not meeting these aforementioned specifications shall be manifested in accordance with CCR, §18460.2. By completing this form, the Retreader agrees to complete an invoice in accordance with CCR, §18459.2.1(b) for each pick-up or delivery of tire casings. Each pick-up or delivery of tire casings shall also be entered on the Retreader Trip Log (CIWMB 180) in accordance with the directions on the form.

The Retreader shall not transport any tire casings without having a copy of the invoice form and Retreader Trip Log in the vehicle transporting the tire casings. The invoice form and Retreader Trip Log shall be shown upon demand to any representative of the Board, any officer of the California Highway Patrol, any peace officer, as defined in Section 830.1 or 830.2 of the California Penal Code, or any local public officer designated by the Board. The Retreader shall retain a copy of the completed invoice forms and Retreader Trip Logs at their place of business for a period of three (3) years. These records shall be made available to any authorized representative as stated above.

Please complete the following information:

Seq., if a request is made for disclosure of this information, the CIWMB will contact the signer(s) of this form at the address and telephone number on this receipt.

Comprehensive Trip Log Instructions

The Comprehensive Trip Log is used by the hauler to document waste tire pickups and deliveries. If waste/used tires are unloaded and stored for any period of time, the storage location becomes the end use facility and a "delivery" must be shown. The next time the tires are moved, the storage location becomes the generator site and a new receipt must be completed showing a "pick up". To order additional forms or if you have questions regarding the Used/Waste Tire Program call **1-866-896-0600** or visit CIWMB's web site at **www.ciwmb.ca.gov/Tires/**.

1. Write your **Decal Number** in the boxes provided.
2. Write your **Vehicle License Plate** and the **State of Issuance** in the boxes provided.
3. Print the **Hauler Business Name, Address, City, State,** and **Zip**. If a business stamp or preprinted label is used, stamp/label all three copies of the Comprehensive Trip Log (Original, CIWMB and Hauler copies). Check box, if common carrier exempt.
4. Print **Driver's Name** in the space provided.
5. The **Driver** shall **Sign** the form and enter the **Date** the CTL is being used.
6. As pickup and deliveries are made, the **Driver** will complete all required information in Receipts A, B, and C, respectively, for each tire transaction that is made, regardless of the amount of tires. Each receipt shall contain the following information:
    a. Complete **Hauler Tire Program Identification Number.**
    b. **Hauler Name and Telephone Number.**
    c. Whether the tire transaction is a **"Pick up" or "Delivery"**; check appropriate box.
    d. **Date** of the tire transaction (month, day, year; i.e. 03/18/05).
    e. **Type** of tire count (Whole Tire, Volume in cubic yards, Weight in Pounds, or Weight in Tons); check appropriate box.
    f. **Amount** of tires; this is the quantity of tires (use decimal for tons only).
    g. Complete **Facility Tire Program Identification Number** with suffix.
    h. **Facility Telephone number.**
    i. **Facility Business Name, Address, City, State, and Zip**. If a business stamp or preprinted label is used, stamp/label all three (3) copies of the Comprehensive Trip Log (Original, CIWMB and Hauler copies).
    j. **Same as Hauler box;** check if the facility location is also the Hauler's business location.
7. The **Generator/End Use Facility Operator** will initial the receipt after verifying the information entered by the Hauler is true and correct.
8. **Generator/End Use Facility Operator** will retain a copy of their respective receipt for a period of three (3) years at their place of business.
9. ***Hauler:*** *Mail the last copy of Comprehensive Trip Log to CIWMB within 14 days of the first transaction of this form (Receipt A) even if you have not completed all receipts on the CTL and retain copy for a minimum of 3 years.*

Instrucciones Para el Registro Único de Transporte

El Registro Único de Transporte es utilizado por el transportista para documentar la recolección y entrega de llanta de desecho. Si las llantas usadas/ de desecho se descargan y son almacenadas por cualquier periodo de tiempo, la ubicación de almacenamiento llega a ser la instalación de uso final y una "entrega" debe ser anotada. La próxima vez que se transportan las llantas, la ubicación de almacenamiento llega a ser el sitio del generador y un recibo nuevo se debe completar mostrando una "recolección". Para ordenar formas adicionales o si tiene preguntas con respecto al Programa de Llantas Usadas/ de Desecho, llame al **1-866-896-0600** o visite el sitio Web del CIWMB en **www.ciwmb.ca.gov/Tires/**.

1. Escriba su **Número de Calcomanía** en los cuadros proveídos.
2. Escriba su **Número de Placas** y el **Estado** en donde está registrado dicho vehiculo en los cuadros proveídos.
3. Escriba el **Nombre, Dirección, Ciudad, Estado,** y **Código Postal del Transportista**. Si utiliza un sello o etiqueta comercial, deben aplicarse a las tres copias del Registro Único de Transporte (Copias Originales, del CIWMB, y del Transportista). Marque la opción si es exento por ser "transportista común.
4. Escriba el **Nombre del Chofer** en el espacio proveído.
5. El **Chofer** debe **Firmar** el formulario y anotar la **Fecha** en la cual es utilizado.
6. Conforme se hacen recolecciones y entregas, el **Chofer** completará toda información requerida en Recibos A, B, y C, respectivamente, para cada transacción de llanta que se hace, sin tener en cuenta la cantidad de llantas. Cada recibo deberá contener la información siguiente:
    a. **Número de Identificación de Transportista del Programa de Llantas** completo.
    b. **Nombre y Número de Teléfono del Transportista.**
    c. Si la transacción es una **"Recolección"** o **"Entrega"**; marque la opción apropiada.
    d. **Fecha** de la transacción (mes, día, año; ejemplo 03/18/05).
    e. **Tipo** de carga (Llanta Entera, Volumen en Yardas Cúbicas, Peso en Libras, o Peso en Toneladas); marque la opción apropiada.
    f. **Cantidad** de llantas; (use el decimal para toneladas solamente).
    g. **Número de Identificación de Instalación del Programa de Llantas** completo con sufijo.
    h. **Número de Teléfono de la Instalación.**
    i. **Nombre de Negocio, Dirección, Ciudad, Estado, y Código Postal de la Instalación.** Si utiliza un sello o etiqueta comercial, deben aplicarse a las tres (3) copias del Registro Único de Transporte (Copias Originales, del CIWMB, y del Transportista).
    j. **Opción "Igual que Transportista";** marque la opción si la dirección de la instalación también es la dirección de negocio del transportista.
7. El **Operador de la Instalación** pondrá sus iniciales en el recibo después de verificar que la información anotada por el Transportista sea verdadera y correcta.
8. El **Operador de la Instalación** guardará una copia de su recibo respectivo por un periodo de tres (3) años en su lugar de negocio.
9. ***Transportista:*** *Envíe la copia del Registro Único de Transporte al CIWMB dentro de 14 días de la primera transacción de este formulario (Recibo A) aunque no haya completado todos los recibos en el mismo y guarde copia por un mínimo de 3 años.*

State of California — California Integrated
CIWMB 303a (1/06) — Waste Management Board

Lead Agency[1] Form 303a Household Hazardous Waste Collection Information For Fiscal Year ____/____

[1]If your jurisdiction or agency was the Lead for collecting HHW, you will report your waste collection and disposal activity on the Lead Agency Form 303a

Section A. Reporting Requirements:

Purpose of Forms 303a and 303b

Each jurisdiction in California is mandated to complete Forms CIWMB 303a or 303b annually, with the amount of household hazardous waste (HHW) collected and its method of management reported on the Form 303a (California Code of Regulations, Title 14, Sections 18751.2). The Forms 303a and 303b specifically fulfill the reporting requirements of the Household Hazardous Waste Element of the California Integrated Waste Management Board's (CIWMB) Countywide Integrated Waste Management Plans. The Forms 303a and 303b are also regulated to satisfy the Department of Toxic Substances (DTSC) directive (Health and Safety Code Section 25218.10) to collaboratively maintain HHW volume totals with the Board for all HHW collection events, facilities, and programs within the State.

The completed Form 303a provides the total waste volume amounts collected for all HHW programs (including permanent, temporary, recycle only, mobile, door to door, and any other type of collection program the jurisdiction identifies as part of their HHW collection program) that were sponsored in the previous fiscal year, starting July 1 of the previous year and ending June 30 of the current year. The completed Forms 303a and 303b **must be sent to the DTSC** on or before **October 1 of each year.**

Who must fill out the Forms?

Each jurisdiction must fill out a Form 303a or 303b. If your jurisdiction or agency **was the Lead** for collecting HHW, you will report your waste collection and disposal activity on the Lead Agency Form 303a. If your jurisdiction or agency **did not have** a permitted HHW collection program during the previous fiscal year, or you were **not the Lead** for the collection program, you will complete the Non-Lead Agency Form 303b to satisfy the regulatory requirements. You may download the complete Lead Agency or Non-Lead Agency forms at http://www.ciwmb.ca.gov/hhw/Reporting/default.htm or contact DTSC at (916) 323-9618 to have one sent to you.

Where do I send my completed Form?

Completed forms shall be submitted electronically to the DTSC as an email attachment to **form303@dtsc.ca.gov**. You must first save the completed spreadsheet on your own computer under a new name. Use a name that will uniquely and clearly identify your jurisdiction or agency such as form303sacramento.xls, for example. Then, send the newly named completed spreadsheet as an E-mail attachment to the address above.

Upon request to the CIWMB, you may be exempted from filing electronically, and instead print out the completed spreadsheet and mail it to:

Department of Toxic Substances Control (DTSC)
Household Hazardous Waste (HHW) Unit - Form 303
P.O. Box 806
Sacramento, CA 95814-0806

Section B. Jurisdiction:

Please do not include your contractor's name.

Name of Public Agency Reporting:					
Non-Lead Participants Represented by Reporting Jurisdiction/Agency (i.e, individual city(ies), county(ies), other agency(ies)):	1)		5)		9)
	2)		6)		10)
	3)		7)		11)
	4)		8)		12)
Mailing Address:					
City:		**Zip code:**		**County:**	
HHW Program Manager:				**Phone Number:**	
Fax Number:		**Email Address:**			
Contractor's Name (if applicable):					
Name of Permanent Facility within Program Service Area (if applicable):				**EPA ID#:**	
Site Contact Name/Title:				**Phone Number:**	
Facility Address:				**Email Address:**	
City:		**Zip Code:**		**County:**	

Name of Permanent Facility within Program Service Area (if applicable):				EPA ID#:	
Site Contact Name/Title:				Phone Number:	
Facility Address:				Email Address:	
City:		Zip Code:		County:	
Name of Permanent Facility within Program Service Area (if applicable):				EPA ID#:	
Site Contact Name/Title:				Phone Number:	
Facility Address:				Email Address:	
City:		Zip Code:		County:	

For additional permanent facilities within the program service area, please attach a separate page.

Section C. Program Types:

The program types include Permanent, Temporary (periodic), Mobile, Recycle-only program, Door-to-Door (residential), Curbside (other than oil),) Load Check and/or Other (identify type of program). **Remember - Certified Oil Centers and Curbside Oil collection programs, whose oil is reported as part of a jurisdiction's Used Oil Block grant, should not be included in Form 303 reporting.**

Section D. EPA ID Numbers:

Please list all EPA ID Numbers for each program type used last year (add additional rows if necessary).

Program Type	EPA ID Number	Program Type	EPA ID Number

Section E. Participation:

Number of Households that participated in collection program:	
Number of Households in service area:	

Section F. Waste Volumes:

Example: In the example sheet below, for the period July 1, 2004 to June 30, 2005 under the heading "Pounds Collected by Program Type" the City has entered the number of pounds of material in the waste stream "Flammable liquids / solids" collected within the City into the cell corresponding to the program type used to collect the material. In this example case, 40 pounds was collected at a permanent facility, 50 pounds at a temporary event site, and 20 pounds were collected during load checks. The spreadsheet will calculate the total amounts for you. On the right side of the spreadsheet, under "Pounds Disposed / Diverted", the City has entered the estimated number of the total pounds of collected material in the cell corresponding to the management method used to dispose or divert the material. In this case 66 pounds of the total collected material was sent to destructive incineration and 44 pounds was incinerated as fuel. The spreadsheet will calculate the total pounds for you. Please check to be sure that the "Total Pounds Collected" is the same as "Total Pounds Disposed/Diverted."

Material Type		Pounds Collected by Program Type								Pounds Disposed / Diverted by Management Method							
EXAMPLE		Permanent Facility	Temporary (periodic) Facility	Mobile Facility	Recycle-only Facility	Door to Door (residential) Program	Curbside Program (other than oil)	Load Check	Other (name) _____	Total Weight Collected (in pounds)	Destructive Incineration	Fuel Incineration	Landfill	Neutralization / Treatment	Recycled	Reused	Stabilization	Total Pounds Disposed / Diverted
1. Flammable and Poison	Flammable solids / liquids	40	50					20		110	66	44						110

Section F. Waste Volumes:

Instructions: Enter the number of pounds of material in the waste stream collected within the area into the cell corresponding to the program type used to collect the material. The spreadsheet will calculate the total amounts for you. Also enter the estimated number of pounds of the collected material in the cell corresponding to the management method used to dispose or divert the material. Definitions of the "Management Methods" are presented in Title 14, 18751.2.1 (c). The spreadsheet will calculate the total pounds disposed or diverted for you. Note: Quantities reported under "Load Check" and other collection categories should not be double counted under "Permanent Facility."

Material Type		Pounds Collected by Program Type									Pounds Disposed / Diverted by Management Method							
		Permanent Facility	Temporary (periodic) Facility	Mobile Facility	Recycle-only Facility	Door to Door (residential) Program	Curbside Program (other than oil)	Load Check	Other (name)	Total Weight Collected (in pounds)	Destructive Incineration	Fuel Incineration	Landfill	Neutralization / Treatment	Recycled	Reused	Stabilization	Total Pounds Disposed / Diverted

State of California	California Integrated
CIWMB 303b (1/06)	Waste Management Board

Non-Lead Agency[1] Form 303b Household Hazardous Waste Collection Information For Fiscal Year _____/_____

[1]If your jurisdiction or agency did not have or was not the Lead for an HHW collection program, you will complete the Non-Lead Agency Form 303b

Section A. Reporting Requirements:

Purpose of Forms 303a and 303b

Each jurisdiction in California is mandated to complete Forms CIWMB 303a or 303b annually, with the amount of household hazardous waste (HHW) collected and its method of management reported on the Form 303a (California Code of Regulations, Title 14, Sections 18751.2). The Forms 303a and 303b specifically fulfill the reporting requirements of the Household Hazardous Waste Element of the California Integrated Waste Management Board's (CIWMB) Countywide Integrated Waste Management Plans. The Forms 303a and 303b are also regulated to satisfy the Department of Toxic Substances (DTSC) directive (Health and Safety Code Section 25218.10) to collaboratively maintain HHW volume totals with the Board for all HHW collection events, facilities, and programs within the State.

The completed Form 303a provides the total waste volume amounts collected for all HHW programs (including permanent, temporary, recycle only, mobile, door to door, and any other type of collection program the jurisdiction identifies as part of their HHW collection program) that were sponsored in the previous fiscal year, starting July 1 of the previous year and ending June 30 of the current year. The completed Forms 303a and 303b **must be sent to the DTSC** on or before **October 1 of each year.**

Who must fill out the Forms?

Each jurisdiction must fill out a Form 303a or 303b. If your jurisdiction or agency **was the Lead** for collecting HHW, you will report your waste collection and disposal activity on the Lead Agency Form 303a. If your jurisdiction or agency **did not have** a permitted HHW collection program during the previous fiscal year, or you were **not the Lead** for the collection program, you will complete the Non-Lead Agency Form 303b to satisfy the regulatory requirements. You may download the complete Lead Agency or Non-Lead Agency forms at http://www.ciwmb.ca.gov/hhw/Reporting/default.htm or contact DTSC at (916) 323-9618 to have one sent to you.

Where do I send my completed Form?

Completed forms shall be submitted electronically to the DTSC as an email attachment to **form303@dtsc.ca.gov**. You must first save the completed spreadsheet on your own computer under a new name. Use a name that will uniquely and clearly identify your jurisdiction or agency such as form303sacramento.xls, for example. Then, send the newly named completed spreadsheet as an E-mail attachment to the address above.

Upon request to the CIWMB, you may be exempted from filing electronically, and instead print out the completed spreadsheet and mail it to:

Department of Toxic Substances Control (DTSC)
Household Hazardous Waste (HHW) Unit - Form 303
P.O. Box 806
Sacramento, CA 95814-0806

Section B. Non-Lead Agency Information:

Name of Public Agency Reporting:					
Jurisdiction/Agency Sponsoring Program (Who is the Lead agency that handles or sponsors your jurisdiction's HHW?):					
Reporting Agency Mailing Address:					
City:		**Zip code:**		**County:**	
Reporting Agency Contact for HHW info:				**Phone Number:**	
Fax Number:		**Email Address:**			

Section C. Universal Waste Volumes:

Instructions:	Complete this section if your Non-Lead agency/jurisdiction ran or held a community clean-up event at which univeral waste was accepted and/or which has initiated battery and/or lamp collection programs outside the Lead agency's HHW collection program and, thus, collection will not be reported by another agency.

Material Type		Pounds Collected by Program Type									Pounds Disposed / Diverted by Management Method							
		Permanent Facility	Temporary (periodic) Facility	Mobile Facility	Recycle-only Facility	Door to Door (residential) Program	Curbside Program (other than oil)	Load Check	Other (name)	Total Weight Collected (in pounds)	Destructive Incineration	Fuel Incineration	Landfill	Neutralization / Treatment	Recycled	Reused	Stabilization	Total Pounds Disposed / Diverted
Universal Waste (UW) *	Mercury containing thermostats / automatic switches / thermometers / and novelties									0								0
	Mercury containing waste (other)									0								0
	Fluorescent tubes/bulbs									0								0
	Rechargeable batteries									0								0
	Other batteries									0								0
	subtotal	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0
Electronic Waste (UW)	Covered Electronic Devices									0								0
	Universal Waste Electronic Devices									0								0
	subtotal	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0
Empty Aerosol Containers (UW)	Empty aerosol containers									0								0
Other UW	(name)									0								0
	UW Total	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0
	* To be considered Universal Waste, all waste in this category except for batteries, must be managed by recycling. Energy recovery or fuel incineration is not considered recycling. If the waste cannot be managed by recycling, it is not universal waste and must be managed as a hazardous waste. The completed Disposed/Diverted Management Methods section will show whether or not wastes were managed as a universal waste.

CALIFORNIA INTEGRATED
WASTE MANAGEMENT BOARD

Newsprint Consumer Certification

California law requires that you certify your newsprint use to the Integrated Waste Management Board by March 1 of each year.

Section I - Consumer Information Instructions

- Indicate dates as month/day/year.
- Complete spaces 1 through 12.
- If you did not use any newsprint last year, mark space 13 and 15, 16 and / or 17, sign, and return the form.
- If all the newsprint you used last year was bought or contracted before January 1, 1990, complete box 14, sign and return the form.
- If you used any newsprint last year, complete sections II, III, IV, sign and return the form.
- Optional questions - numbered page 4 of insert.

Return form to:
Integrated Waste Management Board
ATT: Newsprint Certification Program
1001 I Street, 13th Floor
Sacramento, CA 95814

❒ NAME OR ADDRESS CHANGE

Certification Document Number: _____

Section I - Consumer Information

Please type or print legibly in ink and return by mail. Use "N/A" for items which are not applicable.
Reporting Period: **January 1 through December 31, 2000.**

Contact person (first name, middle initial, last name) (1)		Date (2) / /	
Company name (3)		Phone number (4) ( ) -	
Mailing address (5)	City (6)	State (7)	ZIP® code (8)
Physical address (if different from mailing address) (9)	City (10)	State (11)	ZIP® code (12)

I did not use any newsprint in my commercial printing or publishing operation during this reporting period. ☐ (13)

I purchased all the newsprint I used before January 1, 1990. ☐ (14)

If applicable, provide the company names and addresses of your newsprint printers

_____
_____
_____

I am a: publisher ☐ (15)
printer ☐ (16)
other _____ ☐ (17)

Certification Instructions

Certification to be made by:

- **Corporation**: By a responsible corporate officer or manager authorized to make management decisions which govern the operation of the commercial printing or publishing operation.
- **Partnership or sole proprietorship**: By the general partner or the proprietor.
- **Government agency**: By either the principal executive officer or a ranking elected official.

Certification

I certify under penalty of perjury that this document and all attachments were prepared under my direction or supervision, that to the best of my knowledge and belief, the information provided is true, accurate, and complete. I am aware that there are significant penalties for submitting false information in this certification, including the possibility of fine or imprisonment, or both, for violations.

_____ _____
Signature of individual authorized to sign Title of authorized person

_____ _____ ( ) -
Typed or printed name of person signing Date Phone number

Company Name: _____ Certification Document Number: _____

Page 2

Section II - Newsprint Use Instructions

- Complete this section for newsprint used during this reporting period.
- If you meet the 50% recycled newsprint use goal, sign and return the form.
- If you did not meet the recycled newsprint use goal, complete sections III, IV, sign and return the form.
- Recycled-Content newsprint means that the fiber content contains no less than 40% post consumer waste paper.
- Please report in metric tons; 2204.6 pounds (LBS.) equals one metric ton.

Section II - Percent of Recycled-content Newsprint Used

Total **metric tons** of all newsprint used this reporting period	(1)	
Total **metric tons** of all newsprint used this reporting period that was purchased after January 1, 1990.	(2)	
Total **metric tons** of recycled-content newsprint used this reporting period that was purchased after January 1, 1990	(3)	
Total metric tons of nonrecycled-content newsprint used this reporting period that was purchased after January 1, 1990. (subtract line 3 from line 2).	(4)	
Percent of recycled-content newsprint used this reporting period. (Line 3 ÷ Line 2 x 100) Round to the nearest percent. For example, 24.5% becomes 25%, 24.4 % becomes 24%.	(5)	%

Section III - Exemptions Instructions

- Complete this section if you did not meet the recycled-content newsprint use goal of 50 percent.
- You must keep records to document your claims, but don't send them to the Board at this time.

Section III - Exemptions

Only three conditions exempt a consumer from meeting recycled-content newsprint use requirements for any reporting period. Mark the exemption or exemptions you claim.

The recycled-content newsprint was not available at a comparable price to that for newsprint which is not recycled-content newsprint. See Public Resources Code §42773 and regulation section 17966.	Exemption 1 ☐	(1)
The recycled-content newsprint did not meet the quality standards established by the Board. See Public Resources Code §42773 and regulation section 17964.	Exemption 2 ☐	(2)
The particular grade of recycled-content newsprint would not have been available in a reasonable time. See Public Resources Code §42773 and regulation section 17968.	Exemption 3 ☐	(3)

Explain specific reason: _____

_____

_____

Section IV - Good Faith Certification Instructions

- Complete this section if you did not meet the recycled-content newsprint goal of 50 percent.
- Use the section on page 3 if you need more space and insert into the form before mailing.

Section IV - Good Faith Certification

In order to make your certification of exemption in good faith, list all newsprint suppliers or producers with whom you had purchase discussions or who offered to sell you recycled-content newsprint within the preceding 12 months. See Public Resources Code §42773.

Name of Operation (1)	Contact person (2)	Phone number (3) ( ) -

Optional Questions Instructions

- This section is optional
- We are collecting information on the transfer of newsprint.
- Copy the section before you complete it if you need more space.

Optional Questions

To help us accurately assess the reliability and validity of the information contained in this certification and to determine if modification to the regulations may be necessary, we would appreciate your completing this section.

	Yes	No	
(1) Have you sold newsprint to another consumer in the last five years?			
(2) Have you traded newsprint with another consumer in the last five years?			

(3) Average transactions per year?

(4) Average metric tons per transaction?

To whom have you sold or traded newsprint in the last five years?

WASTE TIRE FACILITY OPERATION PLAN

California Code of Regulations (CCR), Title 14, §18432 requires that an Operation Plan be submitted as part of a waste tire facility permit application. For ease of reference, the applicable CCR section numbers are indicated where appropriate on this form.

I. GENERAL INFORMATION (please print or type)								**SWIS #:**	
Facility Name:									
Facility Mailing Address:									
City:		County:		State:		Zip:		Phone:	

II. FACILITY OPERATION DESCRIPTION (attach additional pages if necessary)	
Days and hours of operation:	
Days and hours open to public:	
How will waste tires be received?	☐ Self Haul ☐ Common Carrier ☐ Public ☐ Other:
How will waste tires be stored?	☐ Outdoors (Complete Sections I, II, III, V, and VI) and/or ☐ Indoors (Complete Sections I, II, IV, V, and VI)
Describe storage method(s):	
Describe on-site processing (e.g., shredding, buffing, milling, baling, product manufacturing, etc.):	
Haul Destinations/Sites:	
You will be permitted for the maximum quantity of waste tires that you intend to store during the five year permit period, not to exceed the amount that can be stored in compliance with 14 CCR, Division 7, Chapter 3, Article 5.5, sections 17350 through 17356. Financial Assurances shall be based on the permitted quantity.	
+ **Maximum quantity of waste tires to be stored:**	

III. OUTDOOR STORAGE REQUIREMENTS			
A. FIRE PREVENTION MEASURES - §17351			
On-Site Emergency Communications:	☐ Phone:	☐ Radio:	
	area code/number		type/channel, band, or net
On-Site Emergency Equipment:			
☐ One, dry chemical fire extinguisher	Weight:		
☐ One, 2½ gallon water extinguisher			
☐ One, pike pole at least 10 feet in length			
☐ One round point and one square point shovel			
Describe additional equipment on-site. Any local fire authority requirements? Attach any local fire authority agreement/approval.			

CIWMB 501 (9/02)

OPERATION PLAN

III. OUTDOOR STORAGE REQUIREMENTS CON'T

A. FIRE PREVENTION MEASURES CON'T - §17351

Water Supply (indicate flow in gallons per minute or containment capacities in gallons):

☐ Hydrant/Capacity:		☐ Water Tank/Capacity:	
☐ Well/Capacity:		☐ Other, explain:	

☐ Local fire authority agreement/approval (attach)

B. FACILITY ACCESS AND SITE SECURITY - §17352

Attendant Present?	☐ Yes ☐ No	If Yes, days/hours present:	
Access Control:	☐ Perimeter Fencing ☐ Locked Gates ☐ Other, describe:		

Is there access to the site for emergency vehicles?	☐ Yes ☐ No	If No, explain:	

C. VECTOR CONTROL MEASURES - §17353

☐ Vector Control Plan approved/certified by (attach):

- ☐ Local Environmental Health Department
- ☐ Mosquito Abatement District
- ☐ Other, specify:

☐ Describe type of cover(s) or impermeable barrier(s) if utilized for vector control:

☐ Other vector control measures, explain:

D. STORAGE OF WASTE TIRES - §17354

Provide the number of waste tire storage units (existing and/or proposed) and the dimensions of each. Indicate locations, by pile number, with distances from structures and property boundaries on site map (attach additional pages if necessary).

Pile #	Dimension (L × W × H)	Cubic Feet	Existing (E) or Proposed (P)

CIWMB 501 (9/02)

OPERATION PLAN
Page 3 of 5

III. OUTDOOR STORAGE REQUIREMENTS CON'T

D. STORAGE OF WASTE TIRES CON'T - § 17354

Do any waste tire storage units exceed 10 feet in height?

☐ No

☐ Yes (attach fire authority approved requirements)

If Yes, explain:

Do any waste tire storage units exceed 5,000 sq. ft. in area?

☐ No

☐ Yes (attach fire authority approved requirements)

If Yes, explain:

Do any waste tire storage units within 20 feet of a property line exceed 6 feet in height?

☐ No

☐ Yes (attach fire authority approved requirements)

If Yes, explain:

Are waste tires stored less than 10 feet from the property line?

☐ No

☐ Yes (attach fire authority approved requirements)

If Yes, explain:

Are waste tires stored less than 40 feet from vegetation or other flammable materials?

☐ No

☐ Yes (attach fire authority approved requirements)

If Yes, explain:

CIWMB 501 (9/02)

OPERATION PLAN
Page 4 of 5

III. OUTDOOR STORAGE REQUIREMENTS CON'T

D. STORAGE OF WASTE TIRES CON'T - §17354

Are fire lanes between adjacent waste tire storage units and between waste tire storage units and structures that are located either on-site or off-site less than the minimum width specified in §17354?

☐ No

☐ Yes (attach fire authority approved requirements)

If Yes, explain:

Describe how surface water drainage will be diverted around and away from the waste tire storage area. Describe and/or indicate on appropriate map (may be included on map required under Part V. Map Requirements on Page 5).

Describe how any nearby bodies of water will be protected from water or pyrolytic oil runoff in the event of a tire fire. Describe and/or indicate on appropriate map (may be included on map required under Part V. Map Requirements on Page 5).

Are there grades or other physical features that would interfere with fire fighting equipment or personnel?

☐ No

☐ Yes (existing facility – attach fire authority approved requirements)
(new facility – see §17354(f)(2))

If Yes, explain:

If this Operation Plan is for a new waste tire facility, will it be sited in an area subject to immersion in water during a 100-year storm?

☐ No

☐ Yes

If Yes, explain (i.e., how the facility will be designed and operated so as to prevent waste tires from migrating off-site):

IV. INDOOR STORAGE
INDOOR STORAGE REQUIREMENTS - §17356
☐ Meets NFPA 231D Standards (attach verification)
☐ Alternative standards approved by the local fire authority (attach approval)

V. MAP REQUIREMENTS (Minor facilities provide items a and b, Major facilities provide items a through f):	
a.	General area location, with additional larger scale if needed to show proximity to nearest town, city, or major highway.
b.	Plot plan of site, drawn to scale, which shows:
	1. Legal boundaries for which title or leasehold is held (attach copy of lease agreement for property, if applicable);
	2. All buildings or structures on-site, indicating use; all other structures within 200 feet of site boundary;
	3. Site access including road or street names;
	4. Location of fences, gates, and other access control measures; and
	5. Dimensions of existing and planned tire storage units, fire lanes, fire breaks.
c.	Site topography, including:
	1. Drainage swales, ditches, berms, surface waters, wetlands, 100 year floodplain boundary, and other drainage features;
	2. Wooded areas; and
	3. Other appropriate physical features.
d.	Loading, unloading, salvage, and processing areas.
e.	Locations of fire hydrants or wells for fire fighting water supply; indicate flow capacities of hydrants, mains, and wells.
f.	Site surface material, e.g., asphalt, gravel, compacted earth, etc.

VI. OPERATOR CERTIFICATION			
I certify that this document and all attachments were prepared under my direction or supervision. I have inquired of the persons directly responsible for gathering the information, and certify that the information submitted is, to the best of my knowledge and belief, true, accurate and complete.

WASTE TIRE FACILITY
ENVIRONMENTAL INFORMATION
(THIS IS NOT A CEQA DOCUMENT)

The following information will aid in the environmental review of your application as required by the California Environmental Quality Act (CEQA). IN ORDER FOR YOUR APPLICATION TO BE ACCEPTED AS COMPLETE, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY. Failure to answer all questions may result in your application being deemed incomplete and returned to you, causing delays in processing. If you need more space, attach additional pages. Additional information may be required from you to clarify the information requested in this form.

GENERAL INFORMATION (please print or type)								**SWIS #:**	
Facility Name:									
Facility Operator's Name:									
Mailing Address:									
City:		County:		State:		Zip:		Phone:	
Project Address (if different from operator):									
City:		County:		State:		Zip:		Phone:	

EXISTING WASTE TIRE FACILITIES
An existing waste tire facility is a facility which received, stored, or accumulated waste tires, or upon which waste tires were discarded, on January 1, 1990 (PRC 42808(a)).
Is the application for an existing waste tire facility: ☐ No ☐ Yes
If Yes, indicate all changes in the design and operation of the facility that occurred between January 1, 1990, and the date of submittal of this permit application:

PROJECT DESCRIPTION
Provide a brief description of your project, including but not limited to, site acreage, type of construction activity, structures to be built, and project operation:

CIWMB 502 (9/02)

ENVIRONMENTAL INFORMATION
Page 2 of 4

PROJECT DESCRIPTION CON'T			
Discuss all items checked Yes or Maybe and include as attachments to your submittal.			
	Yes	No	Maybe
Substantial alteration of ground contours?	☐	☐	☐
Change in scenic views or vistas from existing residential areas or public lands or roads?	☐	☐	☐
Generation of significant amounts of solid waste or litter?	☐	☐	☐
Changes in dust, ash, smoke, fumes, or odors in vicinity?	☐	☐	☐
Alteration of existing drainage patterns?	☐	☐	☐
Facility sited on sloped terrain?	☐	☐	☐
Use or disposal of potentially hazardous materials, such as flammables, explosives, or toxic substances?	☐	☐	☐
Substantial change in demand for municipal services (police, fire, water, vector control, sewage, etc.)?	☐	☐	☐
Proximity to wetlands, drainage, or bodies of water?	☐	☐	☐

GOVERNMENTAL REQUIREMENTS			
Before a final decision can be made on your Waste Tire Facility Permit Application, we must consider, as a responsible agency, the information contained in an environmental document prepared in compliance with the requirements of the CEQA. If an environmental document has been prepared for your project by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your project. The following questions will aid us in the determination.			
Contact your city/county planning or public works department for the following information:			
Assessor's Parcel Number(s):			
County Zoning Designation:			
Is the project site consistent with the jurisdiction's Zoning designation?	☐ Yes ☐ No		
Is the project site consistent with the jurisdiction's General Plan?	☐ Yes ☐ No		
Was an environmental document prepared for the General Plan?	☐ Yes ☐ No		
If yes, what type of document was prepared?	☐ EIR ☐ Negative Declaration	Date:	
Was a Notice of Determination filed with city/county clerk?	☐ No ☐ Yes	If Yes, attach a copy.	
Will the city/county have to issue any permits or approvals for your project?			
☐ No			
☐ Yes	If Yes, check appropriate box:		
☐ Grading Permit	☐ Zoning Change	☐ General Plan Change	
☐ Other:

GOVERNMENT REQUIREMENTS CON'T					
If any permits have been obtained, list permit type and permit number for each (attach additional pages if necessary):					
1. Permit Type:		Permit No:			
Contact:		Phone:		Date:	
Department:					
2. Permit Type:		Permit No:			
Contact:		Phone:		Date:	
Department:					
Are any additional state or federal permits required for your project? (e.g., Federal Regulatory Commission, U.S. Forest Service, Bureau of Land Management, Soil Conservation Service, Department of Water Resources (Division of Dam Safety), Reclamation Board, Coastal Commission, State Lands Commission, etc.). For each agency from which a permit is required, provide the following information (attach additional pages if necessary):					
1. Agency Name:		Permit:			
Contact:		Phone:		Date:	
2. Agency Name:		Permit:			
Contact:		Phone:		Date:	
Has your agency, or any permitting agency, prepared any environmental documents for your project?					
☐ Yes, Submit a copy of the latest environmental document with this application, including a copy of the notice of determination.					
☐ No, Will any environmental documents be prepared by any permitting agency, other than the CIWMB for your project?					
If No, explain:					
SCH #:		Name of Environmental Document:			
Note: *The final environmental document (including notice of determination) or notice of exemption must be submitted to the Board. Processing of your Waste Tire Facility Permit cannot proceed until such documents are submitted.*					

ENVIRONMENTAL SETTING
Describe the current land use of the facility and adjacent properties within 1,000 feet of the facility. If possible, attach photographs of these areas. Date and label photos.
On-site:
Adjacent Properties:

CIWMB 502 (9/02)

ENVIRONMENTAL INFORMATION
Page 4 of 4

ENVIRONMENTAL SETTING CON'T			
Describe any existing vegetation at the facility and on adjacent properties. If any threatened or endangered species occur in the project area or on adjacent properties, identify the species and indicate how they will be impacted by the proposed project. These vegetation types should be shown in the photographs submitted.			
On-site:			
Adjacent properties:			
Describe existing wildlife at the facility and on adjacent properties. If any threatened or endangered species occur in the project area or on adjacent properties, identify the species and indicate how they will be impacted by the proposed project.			
On-site:			
Adjacent properties:			
What changes in the project site and surrounding area will occur or are likely to occur because of construction and operation of your project? Include in your answer such things as appropriate number and size/age of trees to be removed or areas of vegetation/brush removal; area or extent of trenching, grading, excavation, plowing, or road, dam or building construction; etc.			
Have any archeological reports been prepared for this project?			
☐ Yes	If Yes, Name of Report:		Date:
☐ No	If No, will you be preparing an archeological report to satisfy another public agency?		
	☐ No ☐ Yes	If Yes, Agency Name:	
Do you know of any archeological or historic sites located within the general project area?			
☐ No ☐ Yes	If Yes, explain:		

OPERATOR CERTIFICATION			
I certify that this document and all attachments were prepared under my direction or supervision. I have inquired of the person or persons who manage the system or those persons directly responsible for gathering the information, and certify that the information submitted is, to the best of my knowledge and belief, true, accurate and complete.

PART A

The operator shall attach to this form a written cost estimate in accordance with Part C, in current dollars, of the cost of hiring a third party to close the major waste tire facility. Parts B and C shall be based on the maximum quantity of waste tires that the operator intends to store during the five year permit period as specified in the Operation Plan, Form CIWMB 501 (9/02).

PART B

The operator shall provide the following information to the Board prior to commencement of closure:

1. A closure schedule with a time period for completion (attach additional pages if necessary):

2. Details of the final disposition of the waste tires and waste tire products, in accordance with §18441(a). Include the name of each business that will receive the waste tires and the amounts. Provide the address and phone number for each business (attach additional pages if necessary):

3. A description of how the closure requirements of §18441 will be met (attach additional pages if necessary):

CIWMB 504 (9/02)

CLOSURE PLAN
Page 2 of 3

PART C

Closure Cost Estimate Worksheet

The estimate shall be completed by the operator/owner or duly recognized representative to include the following information:

1. The name, address, and telephone number of the authorized waste tire facility, where waste tires will be taken upon closure.

2. The cost estimate for a third party to cleanup the site along with the detail of how this estimate was calculated, as described below. The estimate shall be developed for the activities anticipated for closure, including disposition of waste tires and tire residues, equipment, labor and administration. Attach the cost estimate and all supporting documentation used in arriving at the closure cost estimate.

Calculate the Total Closure Cost Estimate in dollars for the waste tire facility being closed. You may use the formula provided below or an alternative formula that estimates the total cost to close the facility in accordance with applicable requirements.

➢ *Total Closure Cost Estimate (TCC) = 1.2 × (Transportation Cost + Destination Charge + Loading Cost + Administration Cost + Security Cost)* ➢

WHERE:

"*Transportation Cost*" represents the total cost of transportation for all loads of tires leaving the facility as well as the cost of the vehicles returning. The Transportation Cost shall be computed using the following formula:

Transportation Cost ($) = M × MT × TC

Factor "M" (miles) represents the total distance (round trip mileage) to be covered by a vehicle transporting a load, from the closing facility to a facility selected by the operator that would accept the waste tires in the form that they are, or will be stored (e.g., shreds vs. whole). The destination facility shall meet the criteria in §18441(a) of Article 5, Chapter 6, Division 7, Title 14, CCR.

Factor "MT" (number of round trips) represents the number of truck loads of waste tires that will be required during the cleanup. The number of truck loads for a particular size waste tire is determined by dividing the total number of waste tires that are of one size (e.g., passenger) by the number of waste tires of that size that can fit into one truck load. Fewer large over sized tires can be hauled by the same truck that is also used for passenger tires. "MT" should be based on the maximum number of loads that will be necessary to cleanup the site. This will be based on the maximum quantity of waste tires that the operator is seeking a permit to store as specified in the Operation Plan, CIWMB Form 501 (9/02); however the method of storage shall be taken into consideration. Fore example, if the operator intends to store only shredded waste tires in the future, but is presently storing whole waste tires, the calculations should be based on whichever storage condition requires the greatest cleanup cost.

Factor "TC " ($ per load per mile) represents the cost per mile to transport a load of waste tires. The cost includes the average expenses for transportation equipment, fuel, driver wages, tolls, and the vehicle's maintenance. This cost will vary based on the size of vehicle.

"*Destination Charge*" represents the total cost of tipping fees or disposal fees for all loads of waste tires transferred from the cleanup site to the destination facility. The Destination Charge shall be computed using the following formula:

Destination Charge ($) = MT × TF

Factor "MT" is described above.

Factor "TF" ($ per load) represents the cost to deposit waste tires at the destination facility. This may be a tipping fee or a disposal fee. If the fee is expressed in dollars per ton then this number must be multiplied by the weight of the load in order to yield dollars per load. The tipping fee should be based on the form of the waste tires (e.g., shreds vs. whole).

CIWMB 504 (9/02)

CLOSURE PLAN
Page 3 of 3

Closure Cost Estimate Worksheet Con't
"*Loading Cost*" represents the total cost of loading all loads of tires into vehicles at the closure facility and unloading the vehicles at the final destination. The Loading Cost shall be computed using the following formula: Loading Cost ($) = MT × LC Factor "MT" is described above. Factor "LC" ($ per load) represents the unit cost to load one vehicle with waste tires at the closing facility, and to unload the same waste tires at the final destination. This cost includes operational expenses, which covers wages for workers and pro rated expenses for rental or lease of equipment and machinery.
"*Administration Cost*" ($) represents the total cost of administration activities for the entire closure operation. This cost shall include the wages for personnel overseeing the cleanup activities and other operating expenses for the entire project.
"*Security Cost*" ($) represents the total cost of security arrangements for the entire closure operation. This is the cost to secure the site and restrict public access. This cost covers the expenses for the entire cleanup operation and includes installation of a site fence, installation or repair of lighting, and wages for security guards, etc.
Notes: 1. Total Closure Cost Estimate will vary according to the facility's design and operation as presented in the Operation Plan, Form CIWMB 501 (9/02). 2. All costs will be added and then multiplied by the contingency factor of 1.2 to estimate the Total Closure Cost for the cleanup. 3. Any deviations from the above formula must be explained. 4. Complete a separate closure cost estimate worksheet if the waste tires are to be transported to more than one point of destination.

PART A

The operator shall attach to this form a written cost estimate in accordance with Part C, in current dollars, of the cost of hiring a third party to clean up the site. Parts B and C shall be based on the maximum quantity of debris to be stored on site.

PART B

The operator shall provide the following information to the board prior to the commencement of the clean up:

1. A clean up schedule with a time period for completion
2. Details of the final disposition of the debris. Include the name of each business that will receive the debris and the amounts. Provide also the address and phone number for each business.

PART C
CLEAN UP COST
ESTIMATE WORKSHEET

The estimate shall be completed by the operator or duly recognized representative to include the following information:

1) The name, address, and telephone number of the site where the debris will be taken.

2) The cost estimate for a third party to cleanup the site along with the detail of how this estimate was calculated, as described below. The estimate shall be developed for the activities anticipated for the clean up including disposition of the debris, equipment, labor and administration. Attach the cost estimate and all supporting documentation used in arriving at the clean up cost estimate.

Calculate the Total Clean Up Cost Estimate in dollars for the operation or facility being cleaned up using the following formula:

Total Clean Up Cost Estimate (TCUC) = 1.2 × (Transportation Cost + Destination Charge + Loading Cost + Administration Cost + Security Cost)

Where:

"Transportation Cost" represents the total cost of transportation for all loads of debris leaving the site as well as the cost of the vehicles returning. The transportation cost shall be computed using the following formula:

Transportation Cost ($) = M × MT × TC

Factor "M" (miles) represents the total distance (Round Trip Mileage) to be covered by a vehicle transporting a load, from the site being cleaned to a facility selected by the operator that would accept the debris in the form that they are, or will be stored.

Factor "MT" (number of round trips) represents the number of truck loads of debris that will be required during the cleanup. The number of truck loads for a particular clean up is determined by dividing the total tonnage of debris by the tonnage of debris that can fit into one truck load. "MT" should be based on the maximum number of loads that will be necessary to clear the site.

Factor "TC" ($ per load per mile) represents the cost per mile to transport a load of debris. The cost includes the average expenses for transportation equipment, fuel, driver wages, tolls, and the vehicles maintenance. This cost will vary based on the size of vehicle.

The "Destination Charge" represents the total cost of tipping fees or disposal fees for all loads of debris transferred from the cleanup site to the destination facility. The Destination Charge shall be computed using the following formula:

Destination Charge ($) = MT × TF

Factor "MT" is described above.

Factor "TF" ($ per load) represents the cost to deposit the debris at the destination facility. This may be a tipping fee or a disposal fee. If the fee is expressed in dollars per ton then this number must be multiplied by the weight of the load in order to yield dollars per load.

"Loading Cost" represents the total cost of loading all loads of debris in to vehicles at the site and unloading the vehicles at the final destination. "Loading Cost" shall be computed using the following formula:

Loading Cost ($) = MT × LC

Factor "MT" is described above.

Factor "LC" ($ per load) represents the unit cost to load one vehicle with debris at the clean up site, and to unload the same debris at the final destination. This cost includes operational expenses which cover wages for workers and pro rated expenses for rental or lease of equipment and machinery.

"Administration Cost" ($) represents the total cost of administration activities for the entire clean up. This cost shall include the wages for personnel overseeing the cleanup activities and other operating expenses for the entire project.

"Security Cost" ($) represents the total cost of security arrangements for entire clean up operation. This is the cost to secure the site and restrict public access. This cost covers the expenses for the entire cleanup operation and includes installations of site fence, installations or repair of lighting, and wages for security guards, etc.

Note: 1) All costs will be added and then multiplied by the contingency factor of 1.2 to estimate Total Clean Up Costs.

2) Any deviations from the above formula must be explained.

3) Complete a separate clean up cost estimate worksheet if the debris is to be transported to more than one point of destination.

OPERATOR CERTIFICATION

NOTICE OF DESIGNATION
OF LOCAL AGENCY
(14 CCR SECTION 18051)

_____
(Name of Agency)

_____
(Street Address)

_____
(City) (State) (Zip)

_____
(Date)

TO: CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD

PLEASE TAKE NOTICE that the _____ has
(Name of Local Agency)
been designated as the local agency in:

_____
_____ on _____
(County, City, or Special District) (Date)

( ) Attached is a sheet listing additional jurisdictions:

1. The designation was made in accordance with California Public Resources Code Section 43203, using the following procedure:

   a. ( ) The local agency was designated by the County Board of Supervisors, and was approved by a majority of the cities within the county which contain a majority of the population of the incorporated area of the county;

   b. ( ) A joint exercise of powers agreement pursuant to Government Code Section 6500, was formed as referenced in Public Resources Code Section 43203(b);

   c. ( ) The local agency was designated by the _____ since the
   (City)
   city has decided to designate a separate enforcement agency;

   d. ( ) The County Board of Supervisors designated the local agency for the unincorporated areas of the county.

2. The above designation _____ in specific accordance with the designation indicated in the County-wide Integrated Waste
   (is) (is not)
   Management Plan.

3. The following are exceptions to our territorial jurisdiction shown in the first paragraph of this NOTICE: (Please include a map clearly identifying the jurisdictional boundaries)

   _____
   _____
   _____

4. The name and address of the governing body of this local agency is:

   _____
   (Name)

   _____
   (Street Address) (City) (State) (Zip Code)

   _____
   (Telephone Number)

5. Name and address of the hearing panel or hearing officer of this local agency is/are:

_____
(Name(s))

_____
(Street Address) (City) (State) (Zip Code)

(___)_____
(Telephone Number)

6. The person responsible for direction, or management, of the local agency and its designated persons are:

_____
(Name of Local Enforcement Agency Program Manager)

_____
(Telephone No.)

_____
(Name of Contact Person)

_____
(Telephone No.)

7. All resolutions and other documents relevant to compliance with Public Resources Code Section 43203, and Title 14 California Code of Regulations Sections 18051 and 18052, have been certified and are enclosed.

8. The undersigned certifies that the designated local agency is not the operating unit for any solid waste handling or disposal operation, solid waste facility, or disposal site in the designated jurisdiction.

9. Attached is a listing of every permitted, closed, abandoned, exempt, illegal, and inactive solid waste facility and disposal site in the local agency jurisdiction.

Signed by _____
(Local Governing Body or Authorized Representative)

_____
(Typed or Printed Name)

_____
(Title)

NOTE: New information necessary to update the contents of this form, other than the designated agency or its jurisdiction, may be provided in letter format. Local governing body signature is not required for minor change(s).

State of California CIWMB FORM 5000 (revised 12/96) STANDARDIZED COMPOSTING PERMIT	California Integrated Waste Management Board
1. Facility/Permit Number (SWIS):	
2. Name of Facility:	Address/Location:
3. Local Enforcement Agency:	Address:
4. Signature of Local Enforcement Agency Approving Officer: 5. Please Print or Type Name and Title of Approving Officer:	6. Date of Signature:
7. Date Received by CIWMB:	
8. Signature of CIWMB Approving Officer: 9. Please Print or Type Name and Title of Approving Officer:	10. Date of Signature:
11. Date of Permit Issuance:	12. Permit Review Due Date:
The facility for which this permit has been issued shall only be operated in accordance with the description provided in the application pursuant to Section 18105.1 and Report of Composting Site Information pursuant to Section 17863.	

13. Legal Description of Facility: (description may be attached)

14. Findings:

a. This permit is consistent with standards adopted by the California Integrated Waste Management Board pursuant to Public Resources Code Section 44010.
b. An environmental determination (i.e., Notice of Determination), has been filed with the State Clearing House (#_____) for all facilities that are not exempt from CEQA and documents pursuant to Public Resources Code Section 21081.6.
c. The following authorized agent _____ has made the determination that the facility is consistent with the applicable general plan, as required by Public Resources Code, Section 50000.5(a).
d. The operation of this facility is consistent with the [ ] County Solid Waste Management Plan (50000), or the [ ] County Integrated Waste Management Plan (50001).
e. The design of the proposed facility or the design and operation of an existing facility, as appropriate, is in compliance with State Minimum Standards for Composting Operations Regulatory Requirements, Title 14, Division 7, Chapter 3.1 (commencing with Section 17850) of the California Code of Regulations.

15. In addition to this permit, the facility may have one or more of the following permits or restrictions on its operations. Persons seeking information regarding these items should contact the appropriate regulatory agency.

Report of Composting Site Information
State Water Resources Control Board/Regional Water Quality Control Board Waste Discharge Requirements or Waiver
National Pollutant Discharge Elimination System (Stormwater) Permit
Fire Protection District Findings
Mitigation and Monitoring Measures (pursuant to the California Environmental Quality Act)
Conditional Use Permit
California Environmental Quality Act Environmental Impact Report or Negative Declaration
Air Pollution Permits and Variances
Coastal Commission Restrictions

16. Terms and Conditions:

a. The operator shall comply with applicable state minimum standards set forth in Title 14, Division 7, Chapter 3.1 (commencing with Section 17850) of the California Code of Regulations.

b. The operator shall comply with all mitigation and monitoring measures developed in accordance with a certified environmental document filed pursuant to Public Resources Code Section 21081.6.

c. The operator shall maintain a copy of this standardized permit at the facility to be available at all times to facility, enforcement agency, or board personnel.

d. The operator shall maintain and make available for inspection by the enforcement agency and board all correspondence and reports provided to other regulatory agencies that have jurisdiction over the facility.

e. The operator shall be responsible for identifying the types of feedstocks accepted for processing.

f. The design capacity of _____ cubic–yards of material undergoing the composting process shall not be exceeded. This requirement does not include on–site storage of feedstock or stabilized compost.

g. Additional clarifying information concerning the design and operation of the composting facility shall be furnished upon written request of the enforcement agency, or the board.

h. The operator shall notify the enforcement agency, in writing, within thirty (30) days of receipt of the test results, of any noncompliance with Sections 17868.2 and 17868.3 of Chapter 3.1, Division 7, Title 14, of the California Code of Regulations.

i. Unless specifically permitted or allowed under Title 14, Division 7, Chapter 3.1 of the California Code of Regulations, the facility shall not accept the following materials:

(1) Designated wastes as defined in Title 23, Chapter 15, Section 2522 of the California Code of Regulations

(2) Hot Ashes/Burning materials

(3) Medical wastes as defined in Section 25023.2 of the Health & Safety Code

(4) Hazardous Wastes as defined in Section 25117 of the Health & Safety Code

(5) Liquid Wastes as defined in Title 23, Chapter 15, Section 2601 of the California Code of Regulations (unless approved by RWQCB and the enforcement agency)

j. The following activities are prohibited:

(1) Scavenging

(2) Salvaging

(3) Discharge of wastes off–site

(4) Vector propagation or harborage

k. The facility, if located outside of a city, shall be maintained in compliance with the flammable clearance provisions, pursuant to Public Resources Code Section 44151.

Chapter 10. Solid Waste Cleanup Program

Article 1. Authority

§ 18900. Scope.

(a) Regulations contained herein are promulgated pursuant to Public Resources Code Article 2.5 of Chapter 2 of Part 7 of Division 30. The regulations implement the Solid Waste Cleanup Program, a program for the cleanup of solid waste at disposal sites and solid waste at codisposal sites where the responsible party(ies) either cannot be identified or is unable or unwilling to pay for timely remediation and where cleanup is needed to protect public health and safety and/or the environment.

(b) In implementing this program the Board is vested, in addition to its other powers, with all the powers of an enforcement agency under Division 30 of the Public Resources Code.

(c) In administering the program authorized by Public Resources Code section 48020 et seq. the Board may:

(1) Expend funds directly for remedial action;

(2) Provide loans to responsible parties who demonstrate the ability to repay state funds for remedial actions on solid waste disposal sites and codisposal sites;

(3) Provide matching grants to public entities for remedial actions on solid waste disposal sites and codisposal sites; and

(4) Provide grants to public entities for the abatement of illegal disposal sites.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48021(b), 48021(c) and 48023(b), Public Resources Code.

HISTORY

1. New chapter 10 (articles 1–7, sections 18900–18932), article 1 (section 18900) and section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

Article 2. Definitions

§ 18901. Definitions.

For the purposes of this Chapter:

(a) "Abandoned site" means a site where no responsible party can be identified or located.

(b) "Agreement" means a memorandum of understanding between the Board and a local government.

(c) "Applicant" means a person or an entity applying for a loan, matching grant, grant, or remediation managed by the California Integrated Waste Management Board.

(d) "Board" means the California Integrated Waste Management Board.

(e) "Borrower" means an applicant whose loan application has been approved and who has executed a loan agreement.

(f) "Closed site," means a disposal site that has ceased accepting waste and was closed in accordance with applicable statutes, regulations, and local ordinances in effect at the time.

(g) "Codisposal site" means a hazardous substance release site listed pursuant to section 25356 of the Health and Safety Code where the disposal of hazardous substances, hazardous wastes, and solid waste have occurred.

(h) "Grant recipient" means an applicant whose grant application has been approved and who has executed a grant agreement pursuant to Public Resources Code section 48021(b).

(i) "Illegal disposal site" means:

(1) A site where unauthorized disposal of solid waste has taken place to the extent that cleanup may be required to protect public health and safety and/or the environment, and

(2) The site is not permitted and not exempt from obtaining a permit and is not closed or excluded from the requirement to obtain a Solid Waste Facilities Permit.

(j) "Local government" means a local public entity that is a county, city, district, or any other political subdivision deemed eligible by the Board, but does not include the State.

(k) "Nuisance" includes anything which is injurious to human health or is indecent or offensive to the senses and interferes with the comfortable enjoyment of life or property, and affects at the same time an entire community, neighborhood, household or any considerable number of persons although the extent of the annoyance or damage inflicted upon an individual may be unequal and which occurs as a result of the storage, removal, transport, processing or disposal of solid waste.

(*l*) "Order" means an enforcement action taken by the enforcement agency or the board in the form of issuing a notice and order, a cease and desist order, cleanup or abatement order, or a corrective action order as authorized by Section 18304.

(m) "Person" includes an individual, firm, limited liability company, association, partnership, political subdivision, government agency, municipality, industry, public or private corporation, public or private school, college, or university, or any other entity whatsoever.

(n) "Remedial action" means any action to abate, prevent, minimize, stabilize, mitigate, or eliminate a threat to public health and safety and/or the environment.

(o) "Repayment amount" means the amount equal to the amount expended by the Board for cleanup, the Board's cost of contract administration, and an amount equal to the interest that would have been earned on the funds expended for cleanup.

(p) "Responsible party" means:

(1) Any individual person; trust; firm; joint stock company; Native American tribe; corporation, including a government corporation; partnership; joint venture; association; city; 0county; district; the state, including any department or agency thereof; or any department or agency of the United States to the extent authorized by federal law, who at the time of disposal of any solid waste owned the property;

(2) The present owner or operator of the site at which solid waste has been deposited;

(3) Any individual person; trust; firm; joint stock company; Native American tribe; corporation, including a government corporation; partnership; joint venture; association; city; county; district; the state, including any department or agency thereof; or any department or agency of the United States to the extent authorized by federal law who by contract or agreement disposed and/or transported solid waste to the site, or who otherwise arranged for the transportation to and/or disposal of solid waste at the site;

(4) Any individual person; trust; firm; joint stock company; Native American tribe; corporation, including a government corporation; partnership; joint venture; association; city; county; district; the state, including any department or agency thereof; or any department or agency of the United States to the extent authorized by federal law who was the owner or custodian of the solid waste that was deposited on the site.

(5) The term "responsible party," as defined above, may only be construed within the context of this Article and Public Resources Code sections 48020 et seq. and shall not be interpreted under any other local, state, or federal statute.

(q) "Responsible party is unable to pay" means:

(1) The responsible party does not currently, have the financial ability, as verified by independent audit, financial statements, or other documentation acceptable to Board, to pay the costs of remediation necessary to protect the public health and safety and/or the environment; or

(2) The responsible party does not have the legal power or authority to perform required site cleanup.

(r) "Responsible party is unwilling to pay" means: the responsible party has financial ability to pay for the costs of remediation necessary to protect public health and safety and/or the environment, has been is-

sued an enforcement order to perform remediation, and has refused to comply with the order.

(s) "Responsible party cannot be identified," means the responsible party cannot be identified or found after a search of public records, investigation, and consultation with other enforcement agencies.

(t) "Threat" or "threaten" means a condition creating a probability of substantial harm, when the probability and potential extent of harm make it reasonably necessary to take immediate action to prevent, reduce, or mitigate damages to persons, property, natural resources, or the public health or safety.

(u) "Trust fund" means the Solid Waste Disposal Site Cleanup Trust Fund created pursuant to Public Resources Code section 48027 of Article 2.5 of Chapter 2 of Part 7 of Division 30.

(v) "Surplus Money Investment Fund" means the fund in which excess state moneys are invested until the money is needed for its intended purpose. The fund is administered by the state treasurer's office.

HISTORY

1. New article 2 (section 18901) and section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

Article 3. Site Selection and Ranking Criteria

§ 18902. Site Eligibility.

Candidate sites may be eligible for funding if:

(a) The site is a solid waste disposal site, codisposal site, or illegal disposal site as defined in Section 18901;

(b) The responsible parties, either cannot be identified, located, or is unable or unwilling to pay for timely and proper remediation; and

(c) Remedial action is required to protect public health and safety and/or the environment.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020(b) and 48021(c), Public Resources Code.

HISTORY

1. New article 3 (sections 18902–18904) and section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18903. Site Prioritization.

(a) The Board shall prioritize sites for eligibility based on the following factors:

(1) The actual or potential degree of risk to public health and safety and/or the environment posed by conditions at the site as determined by a comparison with state minimum standards (27 CCR, Chapter 3, Subchapter 4, commencing with section 20510 and Subchapter 5, commencing with section 21099.

(2) The ability of the site owner and or responsible parties to promptly and properly remediate the site without monetary assistance;

(3) The ability of the Board to adequately remediate the site with available funds;

(4) The amount of contributions of money and/or in–kind services from local governments and responsible parties;

(5) The availability of other appropriate federal or state enforcement and/or cleanup programs to remediate the site.

(6) The ability to obtain site access for the proposed remediation.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020(b) and 48021(a), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18904. Eligible and Ineligible Remedial Actions.

(a) Remedial actions taken pursuant to the Solid Waste Cleanup Program shall, to the extent practicable, contribute to the efficient performance of any anticipated long–term remedial action with respect to the specific threat to public health and safety and/or the environment addressed under the program.

(b) Remedial actions that are appropriate for the use of funds include, but are not limited to: waste removal and disposal; security measures such as fences and warning signs; drainage controls; slope and foundation stabilization; excavation, consolidation, and capping of waste areas; field and laboratory testing; and installation of landfill gas and leachate control systems.

This list is not exhaustive and shall not prevent the Board from taking other necessary and appropriate actions and does not create a duty on the Board to take action at any particular time.

(c) Ineligible actions include, but are not limited to: closure as defined in Section 20164 of Title 27, Division 2 of the California Code of Regulations; ground water remediation; operation and maintenance of leachate, surface water, or vadose zone monitoring systems; closure and postclosure maintenance services; improvements to property for postclosure land uses; preparation of closure or postclosure maintenance plans; removal, abatement, and cleanup or otherwise handling of only hazardous substances as defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 [42 U.S.C. section 9601(14)] not codisposed with nonhazardous solid waste.

(d) The remediation of landfill or disposal site fires pursuant to this chapter will only be eligible in situations where the fire is remediated as one part of a project approved by the Board under the applicable criteria for any other project approved for remediation under this program.

(e) Eligible activities regarding emergency actions at disposal sites pursuant to this chapter include technical assistance to local emergency response agencies. The Board may consider approval of funding of final site remediation pursuant to this chapter after the emergency response if all other applicable criteria are met.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

Article 4. Loans to Local Governments

§ 18905. Purpose.

(a) The Board may make loans directly from the trust fund to local government to assist in site remedial actions. The loans shall be used to assist the Board in complying with Public Resources Code section 48020 et seq.

(b) The regulations contained in this Article set forth the requirements to apply for and receive loan funds from the trust fund.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(b), Public Resources Code.

HISTORY

1. New article 4 (sections 18905–18912) and section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18906. Loan Eligibility.

(a) Loans are available only to local governments that demonstrate:

(1) The site remediation is needed to protect public health and safety and/or the environment; and

(2) The ability to repay the loan and to pay for costs of remediation that exceeds the loan amount.

(b) Loan funds may be used only for those eligible costs pursuant to Section 18904.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(b), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18907. Loan Requirements.

Loans made pursuant to this Article shall be subject to the following requirements:

(a) The terms of any approved loan shall be specified in a loan agreement between the borrower and the Board. Notwithstanding any term of the agreement, any recipient of a loan that the Board approves shall repay the principal amount plus interest on the basis of the rate of return for money in the Surplus Money Investment Fund at the time of the loan.

(b) The Board shall not finance more than one million dollars ($1,000,000) per site.

(c) The term of any loan made pursuant to this Article shall be not more than 20 years.

(d) The money from any loan repayments and fees, including, but not limited to, principal and interest payments, fees and points, administrative fees, recovery of collection costs, income earned on any asset recovered pursuant to a loan default, and funds collected through foreclosure actions shall be deposited in the trust fund.

(e) The Board or the Department of Finance may audit the recipient's records regarding moneys received pursuant to this Article.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48027(c)(3), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18908. Loan Application Process.

(a) Applications from local governments for loan funds shall be accepted on a continuous basis.

(b) Jurisdictions with eligible sites shall submit an application package which shall include but is not limited to the following information:

(1) A copy of the grant deed with legal description. The applicant must be the owner or co–owner of the site, or the Sponsor (e.g. Redevelopment Agency) of eligible cleanup of privately owned or leased lands within their jurisdiction.

(2) Substantiation of threat to public health and safety or the environment by attaching applicable regulatory agency investigation documents or enforcement orders, solid waste assessment tests (SWAT) reports, or certified environmental assessment reports.

(3) A detailed Scope of Work and Cost Estimate prepared by a registered civil engineer.

(4) A document showing compliance with the California Environment Quality Act (e.g. Notice of Exemption, Initial Study/Negative Declaration or Environment Impact Report).

(5) Demonstrate the need for the requested loan funds by attaching the applicant's annual financial operating statements for the last three years and interim (within 90 days) independent audits, and other evidence of financial condition. Each statement must be certified by the original signature of the person completing the application.

(6) Identify and provide evidence of sources of funds to repay the loan and pay for site cleanup costs that exceed the loan amount, certified by the original signature of the person completing the application. In lieu of collateral, the applicant must identify a guaranteed revenue source which will be dedicated to repay the loan.

(7) A copy of an adopted resolution from the governing board or council authorizing submittal of the application, certifying availability of local funds needed to complete the cleanup, and identifying the title and name of the individual authorized to execute any agreements, contract, and requests for payment to carry out the project.

(8) Applications from joint power authorities consisting of several cities and/or counties must include a signed copy of a written agreement between the governing bodies authorizing the loan applicant to act on their behalf.

(9) Name, address, telephone number, and fax number of the applicant

(c) All materials submitted shall become property of the Board and will be retained for a minimum of three years.

(d) Documents required in subsection (b) of this section shall be submitted to the principal place of business of the California Integrated Waste Management Board.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18909. Preliminary Review of Loan Applications.

Upon receipt, Board staff shall review each local government application to determine whether the application is complete. Within thirty (30) days of receiving the application Board staff shall send a letter to the local government with one of the following responses:

(a) The local government application is incomplete with specification of the steps, if any, that the applicant may take to correct the identified deficiencies. Applications that fail to supply the required information shall be rejected from consideration for a loan; or

(b) The applicant is ineligible for a loan pursuant to Section 18906 of this Article; or

(c) The applicant is eligible for a loan pursuant to Section 18906 of this Article, the application is complete, and the application shall be evaluated by Board staff.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18910. Review of Complete Loan Applications and Board Approval.

Upon determination that an application is complete, Board staff shall review each application and prepare a summary of findings. Applications, which meet the following criteria shall be considered and a decision shall be made by the Board within ninety (90) days of the determination that the application is complete:

(a) The source of repayment is sufficient for the requested loan amount; and

(b) The applicant has adequately demonstrated the appropriateness of the loan for use in the project as specified pursuant to Section 18906(c) of this Article.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18911. Loan Agreement.

(a) If the Board approves the loan, the applicant and the Board shall enter into a written loan agreement that identifies and ensures compliance with the terms and conditions specified in Section 18907 of this Article and any other special conditions or terms that the Board deems necessary on a case–by–case basis.

(b) All funds shall be disbursed and repaid pursuant to the terms of the loan agreement.

(c) The borrower shall obtain prior written approval from the Board, or its designated representative, for any changes in the loan agreement. All requests shall include a description of the proposed change(s) and the reason(s) for the change(s).

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18912. Financial Condition Notification.

(a) During the application process and any time thereafter, it shall be the responsibility of the applicant or borrower to immediately notify the Board of any change in financial condition that would make them:

(1) Financially able to perform remedial action without Trust Funds; or

(2) Unable to repay the loan; or

(3) Unable to pay for remedial action costs that exceed the loan amount.

(b) Any such changes in conditions or failure to notify the Board of any such changes in conditions may nullify eligibility for use of Trust Funds.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000. No. 37).

Article 5. Grants to Public Entities to Abate Illegal Disposal Sites

§ 18913. Purpose.

(a) The Board may make grants directly from the trust fund to public entities to assist in site remediation actions. Grants shall be used to assist the Board in complying with Public Resources Code section 48020 et seq.

(b) The regulations contained in this Article set forth the requirements to apply for and receive grant funds from the trust fund.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(c), Public Resources Code.

HISTORY

1. New article 5 (sections 18913–18919) and section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18914. Grant Eligibility.

(a) Grants are available to public entities that demonstrate the following:

(1) The illegal disposal site remedial action is necessary to protect public health and safety and/or the environment; and

(2) The public entity is authorized by resolution of their local governments to file an application with the Board for grant funds and enter into and execute a grant agreement.

(b) Grants to public entities may only be used for remedial actions at illegal disposal sites within their jurisdiction.

(c) Grant funds may be used only for those eligible costs pursuant to Section 18904.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(c), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18915. Grant Requirements.

Grants made pursuant to this Article shall be subject to the following requirements:

(a) The terms of any approved grant shall be specified in a grant agreement between the grant recipient and the Board.

(b) The Board shall not finance more than five hundred thousand dollars ($500,000) per site.

(c) The Board or the Department of Finance may audit the recipient's records regarding moneys received pursuant to this Article.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48027(c)(3), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18916. Grant Application Process.

(a) Applications for grant funds shall be accepted on a continuous basis.

(b) Public entities with eligible sites shall submit an application package which shall include but is not limited to the following information:

(1) Name of the site owner and a copy of the owner's grant deed with legal description.

(2) Substantiation of actual or potential threat to public health and safety or the environment by attaching applicable regulatory agency investigation documents or enforcement orders, solid waste assessment tests (SWAT) reports, or certified environmental assessment reports.

(3) Preliminary Work Plan and Cost Estimate prepared by a registered civil engineer. If local government resources to be reimbursed with grant funds are proposed for site cleanup, costs shall be determined in accordance with procedures in State Department of Transportation Standard Specifications Section 9–1.03, Force Account Payment, except that overhead and profit markups to direct cost of labor, materials, equipment or subcontractors will not be allowed.

(4) Proof of Compliance with the California Environmental Quality Act (e.g. Notice of Exemption, Initial Study/Negative Declaration, or Environmental Impact Report).

(5) Evidence of owner's inability to pay for cost of site cleanup (e.g. owner cannot be identified or found, owner is unable to pay for site cleanup). Attach a copy of report of records search, financial statements or audits of owner, and other documents to substantiate need.

(6) A copy of the adopted resolution from the governing board or council authorizing the public entity to file an application and enter into and execute a grant agreement, and naming the title of the individual authorized to execute any agreements, contracts, and requests for payment.

(7) Name, address, telephone number, fax number of the applicant.

All materials submitted shall become the property of the Board and will be retained for a minimum of three years.

(c) Documents required in subsection (b) shall be submitted to the principal place of business of the California Integrated Waste Management.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18917. Preliminary Review of Grant Applications.

Upon receipt, Board staff shall review each application to determine whether the application is complete. Within thirty (30) days of receiving the application Board staff shall send a letter to the applicant with one of the following responses:

(a) The application is incomplete with specification of the deadline and steps, if any, which the applicant may take to correct the identified deficiencies. Following receipt of such notice, applicants that fail to supply the required information or meet any specified deadline shall be rejected from consideration for a grant.

(b) The applicant is ineligible for a grant based on failure to meet criteria under Section 18914 of this Article; or

(c) The applicant is eligible for a grant pursuant to Section 18914 of this Article, that the application is complete, and that the application shall be evaluated by Board staff.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18918. Review of Complete Grant Applications and Board Approval.

Upon determination that an application is complete, Board staff shall review each application and prepare a summary of findings. Applications, which meet the following criteria, shall be considered and a decision shall be made by the Board within ninety (90) days of the determination that the application is complete:

(a) The Local Enforcement Agency shall provide ongoing inspection and enforcement action to prevent recurring use of the illegal disposal site;

(b) The applicant has adequately demonstrated the appropriateness of the grant for use in the project as specified pursuant to Section 18904 of this Chapter; and

(c) If the applicant is other than the Local Enforcement Agency, a copy of the complete application shall be sent to the Local Enforcement Agency's office.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(c), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18919. Grant Agreement.

(a) If the Board approves the grant, the applicant and the Board shall enter into a written grant agreement that identifies and ensures compliance with the terms and conditions specified in Section 18915 and any other special conditions or terms that the Board may deem necessary.

(b) All funds shall be disbursed pursuant to the terms of the grant agreement.

(c) The grant recipient must obtain prior written approval from the Board, or its designated representative, for any changes in the grant agreement. All requests must include a description of the proposed change(s) and the reason(s) for the change(s).

(d) The Board may terminate any grant in whole, or in part, at any time prior to the date of completion whenever it is determined by the Board that the recipient has failed to comply with the terms of the grant agreement. The Board shall notify the recipient in writing of the reasons for the termination of the grant and the effective date of the termination within five working days of the determination to terminate.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

Article 6. Matching Grants to Public Entities

§ 18920. Purpose.

(a) The Board may make matching grants directly from the trust fund to public entities to assist in site remedial actions. The grants shall be used to assist the Board in complying with Public Resources Code section 48020 et seq.

(b) The regulations contained in this Article set forth the requirements to apply for and receive matching grant funds from the trust fund.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(b), Public Resources Code.

HISTORY

1. New article 6 (sections 18920–18927) and section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18921. Matching Grant Eligibility.

(a) Matching grants are available only to public entities that demonstrate the following:

(1) The site remedial action is needed to protect public health and safety and/or the environment; and

(2) The ability to pay the costs of remedial action that exceed the grant amount.

(b) Matching grant funds may be used only for those eligible costs pursuant to Section 18904.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(b), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18922. Matching Grant Requirements.

Matching grants made pursuant to this Article shall be subject to the following requirements:

(a) The terms of any approved grant shall be specified in a matching grant agreement between the matching grant recipient and the Board.

(b) The Board shall finance up to and not more than 50 percent of the cost of any project up to a maximum of seven hundred and fifty thousand dollars ($750,000) per site.

(c) The Board or the Department of Finance may audit the recipient's records regarding moneys received pursuant to this Article.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48027(c)(3), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18923. Matching Grant Application Process.

(a) Applications for matching grant funds shall be accepted on a continuous basis.

(b) Jurisdictions with eligible sites shall submit an application package which shall include but is not limited to the following information:

(1) A copy of the grant deed with legal description.

(2) Substantiation of threat to public health and safety or the environment. Attach applicable regulatory investigations or enforcement orders, solid waste assessment test (SWAT) reports, or certified environmental assessment reports.

(3) A detailed Scope of Work and Cost Estimate prepared by a registered civil engineer. Cost of eligible and ineligible work must be itemized separately. If local government resources to be reimbursed under this grant agreement are proposed for site cleanup, costs shall be determined in accordance with procedures in State Department of Transportation Standard Specifications Section 9–1.03, force Account Payment, except that overhead and profit markups to direct cost of labor, materials, equipment, or subcontractors will not be allowed.

(4) Proof of compliance with the California Environmental Quality Act (e.g. Notice of Exemption, Initial Study/Negative Declaration, or Environmental Impact Report).

(5) Demonstration of need for requested grant funds. Attach applicant's annual financial operating statements for last three years, independent audits, and other evidence of financial conditions.

(6) Identification of sources of funds to pay for local government match and project costs not eligible for matching grant included in the project.

(7) A copy of the approved resolution from the governing board or council authorizing submittal of the application, certifying availability of matching funds and funds for costs not eligible, and the naming title of the individual authorized to execute any agreements, contract, and requests for payment. This authorized individual will be the only person whose signature the Board will recognize. Applications from joint power authorities consisting of several cities and/or counties must include a signed copy of a written agreement between the governing bodies authorizing the grant applicant to act on their behalf.

(8) Name, address, telephone number, and fax number of the applicant.

All materials submitted will become property of the Board and will be retained for a minimum of three years.

(c) Documents required in subsection (b) shall be submitted to the principal place of business of the California Integrated Waste Management Board.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18924. Preliminary Review of Matching Grant Applications.

Upon receipt, Board staff shall review each application to determine whether the application is complete. Within thirty (30) days of receiving the application Board staff shall send a letter to the applicant with one of the following responses:

(a) The application is incomplete and specifying the deadline and steps, if any, which the applicant may take to correct the identified deficiencies. Following receipt of this notice, applicants that fail to supply the required information or meet any specified deadline shall be rejected from consideration for a grant; or

(b) The applicant is ineligible for a matching grant pursuant to Section 18921 of this Article; or

(c) The applicant is eligible for a matching grant pursuant to Section 18921 of this Article, that the application is complete, and that the application shall be evaluated by Board staff.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18925. Review of Complete Matching Grant Applications and Board Approval.

Upon determination that an application is complete, Board staff shall review each application and prepare a summary of findings. Applications, which meet the following criteria, shall be considered and a decision shall be made by the Board within ninety (90) days of the determination that the application is complete:

(a) The applicant's source of payment is sufficient to supply the amount of funds needed that exceed the matching grant amount; and

(b) The applicant has adequately demonstrated the appropriateness of the matching grant for use in the project as specified pursuant to Section 18902(c) of this Article.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(c), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18926. Matching Grant Agreement.

(a) If the Board approves the matching grant, the applicant and the Board shall enter into a written matching grant agreement that identifies and ensures compliance with the terms and conditions specified in Section 18923 and any other special conditions or terms that the Board may deem necessary on a case–by–case basis.

(b) All funds shall be disbursed pursuant to the terms of the grant agreement.

(c) The matching grant recipient must obtain prior written approval from the Board, or its designated representative, for any changes in the matching grant agreement. All requests must include a description of the proposed change(s) and the reason(s) for the change(s).

(d) The Board may terminate any matching grant in whole, or in part, at any time prior to the date of completion, whenever it is determined by the Board as a whole, that the recipient has failed to comply with the terms of the matching grant agreement. The Board shall notify the recipient in writing of the reasons for the termination of the matching grant and the effective date of the termination within five working days of the determination.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18927. Financial Condition Notification.

(a) During the application process and any time thereafter, it shall be the responsibility of the applicant or matching grant recipient to immediately notify the Board of any change in financial condition that would make them either:

(1) Financially able to perform remedial action without Trust Funds; or

(2) Unable to pay for remedial action costs that exceeds the matching grant amount.

(b) Any such changes in conditions and/or failure to notify the Board of any such changes in conditions may nullify eligibility for use of Trust Funds.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

Article 7. Board Managed Remediations

§ 18928. Purpose.

(a) The Board may decide to expend available moneys to perform any cleanup, abatement, or remedial action work required under the provisions set forth in Section 18904 which is required by the magnitude of the endeavor or the need for prompt action to prevent substantial pollution, nuisance, or injury to public health or safety and/or the environment. The action may be taken in default of, or in addition to remedial work by the responsible parties or other persons and regardless of whether injunctive relief is being sought.

(b) The Board may perform the work itself or in cooperation with any other governmental agency. Notwithstanding any other provisions of the law, the Board may enter into oral contracts for that work, and the contracts, whether written or oral, may include provisions for equipment rental and in addition the furnishing of labor and materials necessary to accomplish the work. The contracts are exempt from approval by the Department of General Services pursuant to section 10295 of the Public Contract Code.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(b), Public Resources Code.

HISTORY

1. New article 7 (sections 18928–18932) and section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18929. Cost Recovery.

(a) The Board shall pursue cost recovery for each site remediated with funds in accordance with this chapter unless under limited circumstances where a determination is made by the Board that cost recovery will not be pursued based on factors including but not limited to: publicly owned sites maintained in public benefit and use; property owner did not cause the disposal of waste; property owner did not and will not gain a benefit due to condition of property; value of property significantly less than cost of cleanup; hardship to property owner; and in cases where a responsible party cannot be identified.

(b) If a remedial action is taken in the case of threatened pollution or nuisance by the Board and/or any governmental agency, any costs incurred by the Board and/or governmental agency are recoverable from the responsible parties or parties who unlawfully caused such a condition or conditions. Any and all responsible parties are joint and severably liable for any such costs. The amount of those costs shall be recoverable in a civil action by, and paid to, the governmental agency and the Board to the extent of the latter's contribution to the cleanup costs from available funds.

(c) Reasonable costs shall include the amount expended, the Board's costs of contract administration, and an amount equal to the interest that would have been earned on the expended funds. The interest rate shall be based on the rate of return for money in the Surplus Money Investment Fund.

(d) Any and all responsible parties are joint and severably liable.

(e) The entry of judgement against any party to the action does not bar any future action by the Board against any other person who is later discovered to be potentially liable for costs paid from the trust fund.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48023, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18930. Responsible Parties Identification.

If, despite reasonable efforts by the Board to locate the person(s) responsible for the condition of pollution or nuisance, the person is not identified at the time of cleanup, abatement, or remedial action work

must be performed, the Board shall not be required to issue an order under this Chapter.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18931. Eligibility.

Funds may be used only for those costs eligible pursuant to Section 18904.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Section 48021(b), Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

§ 18932. Board Approval.

Upon determination that a site is eligible pursuant to Section 18904 of this Chapter, the site shall be considered by the appropriate Committee, and if necessary, for final recommendation to the Board for approval within ninety (90) days.

NOTE: Authority cited: Sections 40502 and 48025, Public Resources Code. Reference: Sections 48020 through 48028, Public Resources Code.

HISTORY

1. New section filed 9–11–2000; operative 9–11–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).

Division 8. Environmental Affairs Agency

Chapter 1. Final Application Procedures: Local Government Coastal Management Improvement Program

§ 19001. Program Description.

(a) Pursuant to SB 959 (Division 25 (commencing with Section 35000) of the Public Resources Code) the Coastal Resources and Energy Assistance Act (Public Resources Code (PRC), Section 35000 et seq.), the Secretary of Environmental Affairs (SEA) shall award grants totalling $10.5 million and on a competitive basis to coastal cities for planning, assessment, mitigation, permitting, monitoring and enforcement, public services and facilities, and for other activities related to offshore energy development. These city activities shall be consistent with requirements of the State's Coastal Management Program as defined in the California Coastal Act, PRC Division 20 commencing with Section 3000.

(b) In awarding grants, SEA will give priority to projects which address existing and/or future impacts of offshore oil and gas activities and any related onshore facilities, in accordance with PRC Section 35040. In accordance with PRC Section 35040.5, any remaining funds may be awarded to coastal cities with approved local coastal programs to assist them in improving the management of the State's coastal resources. At such time that funds become available for allocation under Section 35040.5, the appropriate application procedures will be issued by SEA.

(c) Grants provided to coastal cities shall not exceed 80 percent of the cost of carrying out the project. Block grant funds provided pursuant to the Coastal County Offshore Energy Assistance Program as defined in the Coastal Resources and Energy Assistance Act must not be used as the matching share under this program. In accordance with PRC Section 35081, grant funds shall be used only to augment and not be used to replace state funds allocated for the same eligible activities.

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Sections 35040, 35040.5, 35042 and 35081, Public Resources Code.

HISTORY

1. New Division 8 (Chapter 1, Sections 19001–19009) filed 7–22–86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–19–86.
2. Division 8 (Chapter 1, Sections 19001–19009) repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New Division 8 (Chapter 1, Sections 19000–19009) filed 1–8–87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

§ 19002. Eligible Applicants and Projects.

(a) Any coastal city is eligible to apply for grant funds. For purposes of this program, "coastal cities" are considered as those cities whose city boundaries are located wholly or partially within the coastal zone as defined in the California Coastal Act, as amended (Public Resources Code, Division 20, commencing with Section 30000). Projects addressing existing and/or future impacts of offshore energy development will first be considered. Upon determination of unused funds, SEA will invite applications to consider funding other projects pursuant to PRC Section 35040.5.

(b) Offshore energy development includes activities such as exploration, production, processing, transportation, and refining of offshore oil and gas from State and federal waters off California. Projects which address impacts of these activities may be eligible for funding. The following are examples of potentially eligible projects:

(1) Planning and Assessment.

(A) Develop local policies, regulations, or ordinances regulating offshore energy related developments.

(B) Conduct studies to identify environmental and/or socioeconomic impacts and mitigation measures associated with offshore energy development.

(C) Develop local plans or mitigation programs to address offshore energy related impacts.

(D) Conduct siting studies for onshore energy facilities for processing, transportation, and refining of offshore oil and gas.

(E) Develop an offshore energy planning process that is consistent with requirements of the State's Coastal Management Program.

(F) Analyze offshore leasing, exploration, and development proposals for purposes of commenting pursuant to the OCS Lands Act,(43 USC 1331–1356, 1801–1866), Coastal Zone Management Act, (16 USC 1451–1464), National Environmental Policy Act,(42 USC 4321—4347), California Environmental Quality Act,(PRC Sections 2100 et seq.), or similar statutes.

(2) Permitting, Monitoring and Enforcement.

(A) Develop a permitting, monitoring, and/or enforcement program for purposes of implementing state or local plans, policies, permit conditions, or regulations related to offshore energy development.

(B) Carry out monitoring and/or enforcement to ensure State or local environmental goals are attained and maintained.

(C) Conduct socioeconomic monitoring.

(3) Mitigations.

(A) Provide new or improved public facilities and/or services required to accommodate direct or indirect impacts of offshore energy development.

(B) Prevent, reduce or mitigate losses of valuable environmental or recreational resources when such losses are a result of offshore energy development.

(C) Capitalize revolving loan funds to provide low cost loans to coastal–dependent industries impacted by offshore energy development.

(D) Implement public information programs.

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Section 35040, Public Resources Code.

HISTORY

1. New section filed 7–22–86 as an emergency; effective upon filing (Register 86, No. 30). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–19–86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1–8–87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

§ 19003. Grant Process and Timetable.

(a) The schedule and key steps of this grant program are provided in Table 1. The application process consists of two stages.

(1) Stage One is pre–application. After informal consultation with the Office of Offshore Development, coastal cities will prepare and submit to SEA pre–applications for the projects which they believe should be funded. Pre–applications shall be prepared in conformance with the information requirements of Section 19004(a) below. SEA will screen the pre–applications based on the criteria in Section 19004(b). Projects meeting all criteria will advance to Stage Two.

(2) In Stage Two, coastal cities will prepare draft applications for the qualified projects. The application shall contain all information requested in Section 19005(a). In accordance with Section 35040(b), the drafts must be circulated locally and to the State Clearinghouse for public comments. At least one public hearing must be held by the applicant during the public comment period pursuant to Section 35040(b). Ten copies of each draft shall also be submitted to the State Clearing House 30 days prior to the public hearing, for review and comments by State agencies.

(b) Three copies of the final application shall then be submitted to SEA. The applications will be reviewed, and eligible applications shall be given a preliminary ranking according to the criteria in Section 19005(b). The preliminary rankings will be reviewed by SEA's Local Government OCS Advisory Committee. The Secretary will then approve the final rankings, and a notice of intent to award will be issued. As certification of compliance with California Environmental Quality Act

(CEQA), in accordance with Public Resources Code sections 21000 et seq. is completed by each applicant, the notice of intent to award will be issued on individual projects. Note that compliance with CEQA must be completed prior to the actual allocations of grant funds, in accordance with Public Resources Code section 21150.

(c) Following the Secretary's decision, issue of the notice of intent to award, a seven day protest period will be provided for filing a written appeal to the Secretary. Reasons why an application should be reconsidered shall be clearly stated. SEA shall determine whether or not to reconsider a project. Findings will be provided for projects which have received reconsideration. The decision of SEA shall be final. Rankings will be evaluated semi-annually in accordance with the ranking criteria described in Section 19005(b).

(d) Work on the approved projects shall not be initiated until the grant agreement is signed by SEA and the grantee. The agreement will include the following:

(1) Work statement contained in the grantee's application (or as amended per SEA evaluation);

(2) Schedule contained in the grantee's application (or as amended per SEA evaluation);

(3) Description of work products as contained in the grantee's application (or as amended per SEA evaluation);

(4) Written certification of compliance with the reporting and fiscal accounting requirements in Sections 19007 and 19008, below;

(5) Written certification of compliance with special conditions (if any);

(6) Written certification of compliance with CEQA, in accordance with PRC Sections 21000 et seq., and other applicable rules and regulations;

(7) Written certification of compliance with the State Coastal Management Program as constituted in Section 30008 of the California Coastal Act, PRC Division 20.

(e) The grantee shall obtain prior written approval from SEA before making changes to the grant agreement. All requests should include a description of the proposed change and reasons for the change. Such change may include budget line item revisions, task modifications, and schedule changes.

(f) SEA may terminate any grant in whole, or in part, at anytime before the date of completion, whenever SEA determines that the grantee has failed to comply with the terms and conditions of the grant. SEA shall promptly notify the grantee in writing of the determination, reasons for termination, and appeal process. Payment made to the grantee or recoveries by SEA under grants terminated for cause shall be in accord with the legal rights and liabilities of the parties.

(g) Projects funded under this grant program must be completed by May 1989 unless otherwise approved by SEA. Exceptions will be evaluated and granted on a case-by-case basis at the application stage in accordance with the ranking criteria described in Section 19005(b) below. Progress reports shall be submitted to SEA semi-annually, and a final report shall be submitted within 30 days after the end of the grant term.

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Section 3500, Public Resources Code.

HISTORY

1. New section filed 7-22-86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11-19-86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1-8-87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

TABLE 1.
LOCAL GOVERNMENT COASTAL MANAGEMENT IMPROVEMENT PROGRAM SCHEDULE

1986:	8/1	SEA disseminates program information and begins informal consultation with coastal cities
	10/1	Coastal cities submit pre-applications to SEA
	11/1	SEA releases pre-application screening results
	12/15	Coastal cities release draft applications for public comment and submit ten copies of each draft applications to the State Clearing House for circulation among the agencies 30 days prior to the dates of the required public hearings. Each applicant will announce public hearing date(s)
1987:	1/15	Public comments due to coastal cities
	2/15	Coastal cities submit final applications to SEA
	4/1	SEA submits preliminary rankings for review by the Local Government OCS Advisory Committee
	5/1	SEA approves final ranking. SEA issues notice of intent to award grant for individual projects on completion of certification of compliance with CEQA.
	5/8	Protest period ends
	5/15	SEA will issue notice of grant award after seven day protest period
	10/31	Quarterly Financial Report
1988:	1/31	Semi-annual Progress Report and Quarterly Financial Report
	4/30	Quarterly Financial Report
	7/31	Semi-annual Progress Report and Quarterly Financial Report
	10/31	Quarterly Financial Report
1989:	1/31	Semi-annual Progress Report and Quarterly Financial Report
	4/30	Quarterly Financial Report
	5/31	Maximum Grant Term
	6/30	Final Report

HISTORY

1. New Table 1 filed 7-22-86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11-19-86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1-8-87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

§ 19004. Pre-Application.

(a) Information Requirements.

(1) Name of coastal city.

(2) Mailing address.

(3) Name and title of the person in charge of the project.

(4) Name and title of the person responsible for fiscal management of the grant.

(5) Brief (2-3 pages) project narrative including:

(A) Project description;

(B) Project objectives;

(C) Past and future offshore energy activities; potential impact or planning needs for the city and region (including size, severity, and likelihood of impacts); estimate of the resources and populations affected; extent to which the project will address the impacts or planning needs;

(D) Products;

(E) Expected benefits to the city and region;

(F) Description of current local planning, assessment, mitigation, permitting, monitoring and enforcement, and public services and facilities related to offshore energy activities; and the relationship of the proposed project to these existing capabilities;

(G) Other funding sources pursued;

(H) Alternative means to accomplish the objectives of the proposed project.

(6) Estimate of project costs and documentation of the required matching funds (submit Exhibit 1).

(7) Work statement describing the major tasks.

(b) Pre-application Screening Criteria.

(1) Documentation of existing and/or future offshore energy impacts on city.

(2) Cost effectiveness of the proposed project to address these impacts.

(3) Demonstration of local needs.

(4) Consistency with the purposes and allowable activities of Public Resources Code Sections 35000 et seq.

(5) Extent to which the requested grant amount is used to leverage other funding sources, with a minimum matching share requirement of 20 percent of the total project cost as required under Section 35042, Public Resources Code.

(6) Conformance with requirements of the State's Coastal Management Program.

(7) Use of innovative approaches to address offshore energy issues.

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Section 35040, Public Resources Code.

HISTORY

1. New section filed 7–22–86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–19–86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1–8–87; effective upon filing pursuant to Government Code Section 11346.1(g) (Register 87, No. 2).

§ 19005. Application.

(a) Information Requirements.

(1) Name of coastal city.

(2) Name and title of person in charge of the project.

(3) Name and title of person responsible for fiscal management of the grant.

(4) Detailed project narrative (should follow the same format required in the pre–application, as required in Section 19004(a)).

(5) Work statement describing tasks and products in detail.

(6) Description of needed resources with a completed fiscal application attached (Exhibit 2).

(7) Project schedule to present the relationship between work tasks and the amount of time required.

(8) Identification of applicable laws and regulations, including CEQA and the State Coastal Management Program, and evidence of compliance.

(9) Letters of commitment for matching funds.

(10) Summary of public comments and hearing held in compliance with Section 19003(a)(2).

(b) Application Ranking Criteria.

(1) Documentation of existing and/or future offshore energy impacts on city, including:

(A) type, extent, severity and duration of impacts.

(2) Comparison of project to alternatives, including cost effectiveness.

(3) Demonstration of need.

(A) Offshore energy impacts or planning issues which will be addressed by the proposed project.

(B) Urgency of the needs.

(4) Consistency with the purposes and allowable activities of Public Resources Code Section 35000 et seq.

(5) Extent to which the requested grant amount is used to leverage other funding sources, with a minimum matching share requirement of 20 percent of the total project cost.

(6) Conformance with requirements of the State's Coastal Management Program.

(7) Use of innovative approaches to address offshore energy issues.

(8) Timeliness of the project to address the issue or problem.

(9) Availability of alternative sources of funding.

(10) Likelihood that the project objectives will be achieved.

(11) Evidence of compliance with CEQA and other applicable laws and regulations.

(12) Other overriding factors not reflected in the above criteria, but consistent with the intent and purposes of Public Resources Code Sections 35000 et seq.

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Section 35040, Public Resources Code.

HISTORY

1. New section filed 7–22–86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–19–86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1–8–87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

§ 19006. Payment of Grant Funds.

Payment of funds will be made on a quarterly basis. The grantee may request payment of funds in advance of or as reimbursement for work undertaken during a given quarter. The grantee must indicate the option in the financial application (Exhibit 2) and quarterly financial status form (Exhibit 3). The grantee opting for advance payment must also complete the financial status report as a part of the grant application.

(a) Advance Payment Method.

(1) Grant funds may be paid in advance. In order to receive an advance payment, the grantee must submit to SEA a completed financial status form and a narrative statement justifying the anticipated expenditures, 45 days prior to the start of each 90 day funding period. For example, a payment request must be submitted by February 15 for the April–June quarter.

(2) For the first 90 day period of the grant, a request for advance payment will be based on the estimated first quarter expenditures as detailed in the initial quarterly financial report. Subsequent payments will be based on the submitted quarterly report, projected needs, and expenditures for the previous quarter.

(3) SEA will not authorize payment for:

(A) any request submitted without the narrative justification or

(B) any single advance payment request for most or all of the grant funds.

Exceptions may be considered when it can be conclusively demonstrated by the grantee that expenditures will occur at the requested level in any one calendar quarter.

(4) The grantee is required to keep track of expenditures and make accurate estimates of cash needs for each quarter. A grantee neglecting to document expenditures and keep cash balances to a minimum will be required to switch to the reimbursement method.

(b) Reimbursement Method.

A grantee choosing to receive funds as reimbursement must submit a quarterly financial status report to SEA within 20 days following the end of each quarter. All reimbursement requests must be accompanied by documentation of expenditures. SEA will not authorize payment for any expenses not identified on the quarterly report.

(c) Release of Funds.

(1) After SEA receives the appropriate reports, it will take approximately 45 days before the funds are released to the grantee. During the 45 day period, SEA will review all submitted reports and authorize the accounting unit to file a claim with the State Controller's Office. When the State Controller receives the claim, he will process it and issue a warrant to the grantee.

(2) SEA will not release funds if any of the agreements or terms of the grant has not been kept. SEA will impose other prepayment conditions as circumstances require.

(d) Retention.

SEA will retain 10 percent of each payment request. SEA will review the grantee's final reports within 45 days after their submission. If SEA determines that the terms of the grant have been met, the funds held in retention will be authorized for release.

(e) Matching Share.

(1) Any financial assistance provided to coastal cities will not exceed 80 percent of the cost of the project. Grant funds provided to coastal coun-

ties pursuant to Section 35030 will not be used as the city's matching share.

(2) As grant expenditures occur, the grantee's matching funds must be used concurrently with state grant fund and not be held in reserve.

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Section 35042, Public Resources Code.

HISTORY

1. New section filed 7–22–86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–19–86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1–8–87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

§ 19007. Fiscal Requirements for Grants.

(a) Standards for Accounting and Financial Systems.

(1) The grantee shall establish a separate ledger account for receipt and expenditures of grant funds. The expenditures will be for items contained in the approved budget.

(2) Grantee financial management systems shall:

(A) Provide separate accountability for grant activities;

(B) Ensure that grant funds are not commingled with other funds;

(C) Include cash flow management procedures to minimize cash balances; and

(D) Feature accounting records that are supported by source documents.

(b) Budget Revisions.

The grantee may revise and expend original line item allotments up to 10 percent without approval of SEA. The grantee must request prior approval in writing from SEA for budget revisions in excess of 10 percent of any line item. Petition for variance to this requirement may be approved when it is submitted with the application package. Budget revisions include transfer of funds between line items or an increase or decrease in expenditures within a line item. When requesting approval for a budget revision, the grantee shall use the budget format used in the original grant application and attach a description of the proposed change, including reasons for the charge, and references to specific sections of the original grant agreement impacted by the change. Requests for budget revisions must be sent under a separate cover to SEA. SEA will respond in writing to such requests within 30 days.

(c) Retention of Records.

Grant records, including financial records, performance reports, and requests for advance payments, shall be retained for a period of four years after the date of the final financial status report unless otherwise specified in the grant agreement.

(d) Audits.

SEA or authorized designee reserves the right to make on–site inspections and audits of the grantee's records. Further, the grantee agrees to incorporate an audit of this program within their scheduled agency audits when requested by SEA. The grantee will inform SEA when audits are scheduled. Upon written request from SEA, the grantee shall provide detailed documentation of all expenses any time during the project.

(e) Financial Reports.

The grantee shall submit to SEA a quarterly financial report including a narrative of the status and a completed financial status form (Exhibit 3). The report shall contain projected and/or actual expenditures and receipts, and a payment request. This report shall also be submitted as a part of the semi–annual progress reports and grant closeout.

(f) Program Income.

(1) Interest earned on advances must be reported on the financial status report. Interest income must be disposed of in one of the following manners:

(A) With prior approval from SEA, use to supplement grant funds to offset eligible grant expenditures;

(B) With prior approval from SEA, use to offset grant funds required, or;

(C) Submit a check payable to SEA for the full amount of the interest.

(2) All other income earned during the grant period shall be subject to the same procedures used for interest income.

(g) Revisions.

These fiscal requirements are subject to revision as a result of changes in state grant procedures. The grantee will be sent copies of revisions.

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Section 35041, Public Resources Code.

HISTORY

1. New section filed 7–22–86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–19–86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1–8–87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

§ 19008. Program Reports.

(a) Semi–annual Progress Report.

(1) The grantee shall submit to SEA a progress report by July 31 and January 31 of each year during the grant period. Each report shall include, but not be limited to:

(A) A discussion on whether the project tasks are on schedule;

(B) A discussion of any difficulties or problems encountered in accomplishing the work statement;

(C) Corrective actions that have been and/or will be taken the grantee must obtain prior written approval from SEA before making changes to the terms or conditions of the grant agreement;

(D) A financial report (see Section 19007(e)).

(b) Final Report.

(1) The grantee shall submit a final report within 30 days after the end of the grant term. This report shall include, but not be limited to:

(A) A discussion of existing or projected offshore energy impacts faced by the city, and the extent to which the project has addressed these impacts;

(B) A statement of the objectives of the project and how these objectives were accomplished;

(C) A summary of all products, with a copy of all reports associated with the project attached;

(D) A financial report (See Section 19007(e)).

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Section 35041, Public Resources Code.

HISTORY

1. New section filed 7–22–86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–19–86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1–8–87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

§ 19009. Grant Closeout Procedure.

In the grant closeout process, the grantee will refund all unexpended grant funds, unused income, and credits to SEA unless other prior negotiated arrangements have been made. A check made payable to SEA, along with a final report, will be due 30 days after the end of the grant term. Upon approval of the final report, SEA will release the funds held in retention.

NOTE: Authority cited: Section 35041, Public Resources Code. Reference: Section 35041, Public Resources Code.

HISTORY

1. New section filed 7–22–86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–19–86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New section filed 1–8–87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).

Fiscal Application Form

1 Applicant/Payee: Indicate organization the warrant should be made out to and include the appropriate address.

2 Contact Person: Individual who can respond to questions regarding information contained in this application.

3 Proposed Grant Period: The proposed calendar period for this grant.

4 Proposed Budget: Expenditures:

4A Salaries and Wages: Costs include salaries, retirement, workers compensation, employee benefits, group insurance, overtime, etc.

4B Operating Expenses: Identify the total costs for communications, insurance, laboratory supplies, maintenance of equipment, structures, and grounds, memberships, office expenses, publications and legal notices, rents and leases, tools, travel, utilities, and any other expenses necessary for routine office operations.

4C Consulting Services: Identify the total costs for contracted outside services.

4D Construction Expenses: Identify the total costs related to construction activities.

4E Fixed Assets: Expenditures for assets exceeding $500 in value that have a useful life of more than one year. Total, Proposed Expenditures: Total the amounts for Expenditures A–E.

4 Proposed Budget: Funding:

4A Matching Funds: Identify the amount of matching funds the grantee is going to contribute. This amount must be at least 20% of the proposed expenditures pursuant to Section 35042 of the Public Resources Code.

4B Grant Funds: Identify the requested level of grant funds. This amount must be less than or equal to 80% of the proposed expenditures pursuant to Section 35042 of the Public Resources Code. Total, Proposed Funding: Total of the amounts for Funding A–B. This total will match or exceed the total proposed expenditures.

5 Funding Method: Identify which method of payment the grantee desires. See Item 6 of the procedures for definition of methods.

6 Certification: Sign signature line and date it. Type in the name and title.

7 Grant Manager Approval: Self explanatory.

8 Secretary of Environmental Affairs Approval: Self explanatory.

9 Chief, Air Resources Board Fiscal Branch Approval: The Air Resources Board provides fiscal support to the Secretary of Environmental Affairs.

Instructions for the
Financial Status Report

1a Grantee Name and Address: Self explanatory.
1b Contact Person: Individual who can respond to questions regarding information contained in this report.
2 Grant No.: Assigned by the Secretary of Environmental Affairs upon approval of the Grant Application.
3 Grant Period: Calendar period for this grant.
4 Type of Report: The initial report will be used by a grantee requesting an advance prior to start up of the project. All other types of reports are self explanatory. Include the appropriate reporting period.
5 Expenditure and Funding Statement (Use whole dollars only)
Total Budget: This column must reflect the budget as shown in the Grant Agreement. Refer to the guidelines for instructions regarding budget revisions.
This Quarter: Appropriate expenditure totals for line items during the period of this report. A grantee using the advance payment method should include actual and anticipated expenditures. Anticipated expenditures should be detailed in the Comments section.
To Date: Appropriate cumulative expenditure totals for line items from the beginning of the project up to the ending date of this report period.
Unliquidated Obligations: All funds obligated on purchase orders, contracts, etc., but not expended.
Unencumbered Balance: All funds available for expenditure or obligation. (Total Budget less To Date and Unliquidated Obligations equals Unencumbered Balance.)

Expenditures:

5A Salaries and Wages: Salaries, retirement, workers compensation, employee benefits, group insurance, overtime, etc.
5B Operating Expenses: Communications, insurance, laboratory supplies, maintenance of equipment, structure, and grounds, memberships, office expenses, publications and legal notices, rents and leases, tools, travel, utilities, and any other expenses necessary for routine office operations.
5C Consulting Services: Contracts for outside services.
5D Construction Expenses: All costs for related construction activities.
5E Fixed Assets: Expenditures for assets exceeding $500 in value that have a useful life of more than one year.
6 Funding:
6A Matching Interest, and other funds: Each of these items will be identified on their respective line. District matching funds must total at least 20% of the total grant funds expended pursuant to Section 35042 of the Public Resources Code.
6B Other: Enter all funds accounted for in the project's total budget not identified as grant funds or matching funds.
6B Grant Funds: This is the amount requested from grant funds. This amount must be less than or equal to 80% of the expenditures pursuant to Section 35042 of the Public Resources Code.
7 Cash on Hand Status Statement:
7A Cash on hand at end of quarter. Enter the grant cash on hand at the end of quarter including funds on deposit, funds on hand, and undeposited checks/warrants.
8 Interest Statement:
8A Enter only the amount of interest earned from grant funds during this quarter.
8B Itemize all activities funded this quarter with interest earned this quarter or previous quarters.
8C Enter the total of all interest earned from grant funds up to end of this quarter.
8D Enter the total of all expenditures of interest earned from grant funds up to the end of this quarter.
9 Funding Method: Indicate the chosen method for funding. See guidelines for detailed description of the advance and reimbursement methods available to grantees.
10 Grant Funds Requested: Indicate the dollar amount requested for the subsequent current quarter.
11 Comments: Space to describe special circumstances and situations impacting this report. Attach addition sheets if necessary
12 Certification: Self explanatory.
13 Grant Manager Approval: Self explanatory.
14 Chief, Office of Offshore Development Approval: Self explanatory.
15 Accounting Use Only: Space used by the Secretary of Environmental Affairs' accounting services to indicate payment information.

HISTORY

1. New Exhibit 3 filed 7-22-86 as an emergency; effective upon filing (Register 86, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11-19-86.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).
3. New Exhibit 3 filed 1-8-87; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 87, No. 2).
4. Change without regulatory effect filed 3-2-88 (Register 88, No. 11).

Chapter 2. Permit Reform Act Appeals to the Secretary of Environmental Affairs

§ 19020. Information Required to Appear on Permit Applications.

The following information shall be placed on the application forms for all permits subject to the Permit Reform Act of 1981 which are issued by the Air Resources Board or the Water Resources Control Board (hereinafter referred to as "board" or "boards"):

"The [name of board] has adopted regulations establishing time periods for the processing of permit applications in compliance with the Permit Reform Act of 1981 (Government Code section 15374 et seq.). Violations of these time periods may be appealed directly to the Secretary of Environmental Affairs, P.O. Box 2815, Sacramento, CA 95812, pursuant to regulations set forth in Title 14, California Administrative Code, sections 19020–19025. Under certain circumstances, the Secretary may order that the applicant receive a reimbursement of filing fees."

NOTE: Authority cited: Section 15378, Government Code. Reference: Sections 15374–15378, Government Code.

HISTORY

1. New section filed 9-1-87; operative 10-1-87 (Register 87, No. 36).

§ 19021. Appeals to the Secretary; Contents.

An applicant whose application for a permit, as defined in Government Code section 15375(a), has not been processed by a board within the time periods established by the regulations of the board adopted pursuant to the Permit Reform Act of 1981 may appeal in writing to the Secretary of Environmental Affairs ("Secretary"). The applicant shall set forth the time periods applicable to the permit application and a concise statement of facts and chronology of events regarding the applications.

NOTE: Authority cited: Section 15378, Government Code. Reference: Sections 15374–15378, Government Code.

HISTORY

1. New section filed 9-1-87; operative 10-1-87 (Register 87, No. 36).

§ 19022. Deadline for Appeals.

An appeal concerning a permit application on which a final decision has been made, must be filed within 30 days of the date the applicant was notified of the decision.

NOTE: Authority cited: Section 15378, Government Code. Reference: Sections 15374–15378, Government Code.

HISTORY

1. New section filed 9-1-87; operative 10-1-87 (Register 87, No. 36).

§ 19023. Review by the Secretary.

The Secretary shall promptly review an appeal filed under sections 19021 and 19022 and, shall issue a decision within 30 days after conducting any investigation of the matter which she or he deems appropriate.

NOTE: Authority cited: Section 15378, Government Code. Reference: Sections 15374–15378, Government Code.

HISTORY
1. New section filed 9–1–87; operative 10–1–87 (Register 87, No. 36).

§ 19024. Violations; Failure to Notify Whether Application Is Complete or Deficient.

If the Secretary finds that a board exceeded the time limit for informing the permit applicant whether an application is complete or is deficient and requires additional information to be processed, the Secretary shall direct the board to make its determination by a specified date and so inform the applicant. A complete application shall be considered to be filed on the date it is received, commencing the time period within which the board must issue or deny the permit.

NOTE: Authority cited: Section 15378, Government Code. Reference: Sections 15374–15378, Government Code.

HISTORY
1. New section filed 9–1–87; operative 10–1–87 (Register 87, No. 36).

§ 19025. Violations; Refunds of Filing Fees; Final Action Required.

If the Secretary finds that a board exceeded the time period for acting on a completed application without the good cause defined by Government Code section 15376(h), all filing fees paid by the permit applicant will be refunded. The Secretary shall direct that the board take final action on the permit application no later than 30 days from the Secretary's decision.

NOTE: Authority cited: Section 15378, Government Code. Reference: Sections 15374–15378, Government Code.

HISTORY
1. New section filed 9–1–87; operative 10–1–87 (Register 87, No. 36).

Chapter 3. Voluntary Registration of Environmental Assessors

§ 19030. Definitions.

NOTE: Authority cited: Sections 25570.3 and 59012, Health and Safety Code. Reference: Sections 25570–25570.4, Health and Safety Code.

HISTORY
1. New section filed 7–30–87; operative 9–1–87 (Register 87, No. 32).
2. Amendment of subsection (b), and repealer and new subsection (c) filed 7–1–96 as an emergency; operative 7–1–96 (Register 96, No. 27). A Certificate of Compliance must be transmitted to OAL by 10–29–96 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (b), repealer and new subsection (c) refiled, and amendment of subsection (a) filed 10–25–96 as an emergency; operative 10–25–96 (Register 96, No. 43). A Certificate of Compliance must be transmitted to OAL by 2–24–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 10–25–96 order transmitted to OAL 11–20–96 and filed 12–23–96 (Register 96, No. 52).
5. Amendment of section and NOTE filed 12–21–98; operative 12–21–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 52).
6. Change without regulatory effect renumbering title 14, division 8, chapter 3 (sections 19030–19044) to title 22, division 4.5, chapter 52 (sections 69200–69214) and renumbering title 14, section 19030 to title 22, section 69200 filed 7–27–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 30).

§ 19031. REA I Qualifications and Application Procedures.

NOTE: Authority cited: Sections 25570.3 and 59012, Health and Safety Code. Reference: Sections 25570–25570.4, Health and Safety Code.

HISTORY
1. New section filed 7–30–87; operative 9–1–87 (Register 87, No. 32).
2. Amendment of opening line and subsections (e) and (f) filed 7–1–96 as an emergency; operative 7–1–96 (Register 96, No. 27). A Certificate of Compliance must be transmitted to OAL by 10–29–96 or emergency language will be repealed by operation of law on the following day.
3. Amendment of opening line and subsections (e) and (f) refiled 10–25–96 as an emergency; operative 10–25–96 (Register 96, No. 43). A Certificate of Compliance must be transmitted to OAL by 2–24–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 10–25–96 order transmitted to OAL 11–20–96 and filed 12–23–96 (Register 96, No. 52).
5. Amendment of section heading, section and NOTE filed 12–21–98; operative 12–21–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 52).
6. Change without regulatory effect renumbering title 14, section 19031 to title 22, section 69201 filed 7–27–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 30).

§ 19032. REA I Registration, Renewal and Disqualification.

NOTE: Authority cited: Sections 25570.3, 59004 and 59012, Health and Safety Code. Reference: Sections 25570–25570.4, Health and Safety Code.

HISTORY
1. New Section filed 7–30–87; operative 9–1–87 (Register 87, No. 32).
2. Amendment of section filed 7–1–96 as an emergency; operative 7–1–96 (Register 96, No. 27). A Certificate of Compliance must be transmitted to OAL by 10–29–96 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction of subsection (b) (Register 96, No. 43).
4. Amendment of section refiled 10–25–96 as an emergency; operative 10–25–96 (Register 96, No. 43). A Certificate of Compliance must be transmitted to OAL by 2–24–97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 10–25–96 order transmitted to OAL 11–20–96 and filed 12–23–96 (Register 96, No. 52).
6. Amendment of section heading, section and NOTE filed 12–21–98; operative 12–21–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 52).
7. Amendment of subsections (b) and (c) and NOTE filed 5–24–2000; operative 5–24–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 21).
8. Change without regulatory effect renumbering title 14, section 19032 to title 22, section 69202 filed 7–27–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 30).

§ 19033. REA II Criteria for Registration.

NOTE: Authority cited: Sections 25570.3 and 59012, Health and Safety Code. Reference: Sections 25570–25570.4, Health and Safety Code.

HISTORY
1. New section filed 12–21–98; operative 12–21–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 52).
2. Change without regulatory effect renumbering title 14, section 19033 to title 22, section 69203 filed 7–27–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 30).

§ 19034. REA II Application for Registration.

NOTE: Authority cited: Sections 25570.3 and 59012, Health and Safety Code. Reference: Sections 25570–25570.4, Health and Safety Code.

Division 9. Delta Protection Commission

Chapter 1. Commission Hearing Procedures

§ 20000. Purpose.

These regulations establish the procedures by which the Delta Protection Commission processes, considers and resolves appeals from local governmental decisions which are brought before the Commission under the provisions of Public Resources Code §§ 29770–29772.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New division 9, chapter 1 and section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20001. Time for Appeal.

A person aggrieved by any action taken by a local government which falls within the criteria established in Public Resources Code § 29970(a) may file an appeal with the Commission within 10 calendar days of the date on which the pertinent local government has taken final action concerning the matter being appealed. For proposes of this section, "final action" means a decision of the local government that is final and not subject to any further review by any member or decision–making body of that local government.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20002. Contents and Filing of Appeal.

An appeal brought under these regulations shall be in writing and shall contain at least the following information:

a) the name and address of the appellant;

b) the name and address of the third party, if any, whose proposal is the subject of the appeal and the local government action being appealed;

c) a description of the proposal or development that is the subject of the local government action being appealed;

d) the identity of the local governmental body whose action is being appealed;

e) the specific ground(s) for appeal; and

f) a detailed statement of facts on which the appeal is based.

The appeal shall be considered "filed" with the Commission when the original letter from the appellant is received, determined by staff to contain all of the information listed above, and stamped "Filed" by the Commission with the date of filing indicated.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20003. Grounds for Appeal.

The grounds for appeal of a local government action shall be limited to those specified in Public Resources Code § 29770(a), i.e., that such action is inconsistent with the Commission's Resource Management Plan, those portions of a local government's general plan that implement the Resources Management Plan, or the Delta Protection Act.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20004. Commission Procedures Upon Receipt of Appeal.

Within five working days of receipt of an appeal, the executive director of the Commission shall:

a) post a notice and brief description of the appeal in a conspicuous location in the Commission office;

b) mail to the affected local government a copy of the same notice and brief description, together with a copy of the appeal document(s) filed with the Commission.

c) mail to the affected third party, if any, identified in § 20002(b) above a copy of the notice and brief description, together with a copy of the appeal document(s) filed with the Commission; and

d) mail copies of the notice and brief description to each member of the Commission.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20005. Effect of Appeal.

Upon receipt of a timely appeal, the executive director shall notify the affected local government and the third party, if any, identified in § 20002(b) above that the operation and effect of the local government's action has been stayed pending Commission action on the appeal as required by Public Resources Code § 29771. Upon receipt of an appeal, the executive director shall request that the affected local agency make available for inspection and copying all relevant documents and materials used by the local government in its consideration of the action being appealed. This information shall include the names and addresses of all persons who submitted written comments or testified before the local government regarding the matter being appealed. If the Commission fails to obtain access to the documents and materials on a timely basis, the Commission shall commence a hearing on the appeal as provided in § 20008, below, but shall leave the hearing open until all such relevant documents and materials are received and reviewed by the Commission.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20006. De Novo Review.

The Commission shall conduct a de novo review of the local government action being reviewed.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20007. Standard of Review.

The standard of Commission review of any appealable local government action shall be whether that action meets the requirements of Public Resources Code § 29770(a).

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20008. Hearing on Commission Jurisdiction/Appealable Issue.

a) The Commission's appellate review shall be conducted in a hearing composed of two sequential phases, held in accordance with the provisions of Public Resources Code § 29770. At the first available Commission meeting following filing of an appeal, but in no event more than 45 days thereafter, the Commission shall conduct an initial hearing and determine by majority vote whether the appeal;

i) raises issues not within the Commission's jurisdiction; or

ii) does not raise an appealable issue.

b) If the Commission finds either that the appeal raises issues outside the Commission's jurisdiction or that it fails to raise an appealable issue, the Commission shall dismiss the appeal. That dismissal constitutes final Commission action from which judicial review may be taken under Public Resources Code § 29772.

c) The Commission shall make the determination set forth in subsection (a) only after Commission staff has presented a recommendation,

orally or in writing, on the questions presented. Any written staff recommendation is a public record which shall be made available for public inspection at least five working days prior to the hearing.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20009. Hearing on Merits of Appeal.

Unless the Commission dismisses the appeal for the reasons set forth above, the Commission shall proceed to hear the appeal on its merits at the Commission's next available, regularly–scheduled meeting.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20010. Evidence and Hearing Procedures.

a) Hearings conducted by the Commission under these regulations shall be conducted in a manner deemed most suitable to ensure fundamental fairness to all parties concerned, and with a view toward securing all relevant information and material necessary to render a decision without unreasonable delay.

b) Hearings need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be considered if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in a court proceeding. Unduly repetitious or irrelevant evidence shall be excluded upon order of the Commission or its chairperson.

c) Evidence before the Commission includes, but is not limited to, the record before the local government whose action is being appealed. Except in unusual circumstances, the record will not include a transcript of the local government proceedings unless provided by a party to the proceedings.

d) Any interested person may testify before the Commission regarding an appeal. Speakers' presentation shall be to the point and shall be as brief as possible. Visual and other materials may be used as appropriate. The Commission may establish reasonable time limits for presentation(s); such time limits shall be made known to all affected persons prior to any hearing. Where speakers use or submit to the Commission visual or other materials, such materials shall become part of the hearing record and shall be identified and maintained as such. Speakers may substitute reproductions of models or other large materials but shall agree to make the originals available upon request of the executive director.

e) Commissioners may ask questions of the appellant, the affected local government's representative(s), any affected third party(s) appearing at the hearing, staff or the Commission's legal counsel. Questioning of speakers at the hearing by other persons shall not be permitted except by permission of the Chairperson.

f) Interested persons may submit written comments concerning an appeal. Any such comments will be considered by the Commission if they are received by the Commission at or before the hearing on the appeal.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20011. Commission Decision on Merits of Appeal.

a) The Commission's determination on the merits of an appeal brought under Public Resources Code § 29770 shall be by majority vote.

b) The Commission's decision shall be deemed final upon the taking of the vote, unless the Commission directs that written findings be prepared for consideration by the Commission on a subsequent date. If such findings are prepared, the Commission action shall be deemed final upon the date the findings are adopted by the Commission.

c) Written Commission findings, if any, shall be prepared by staff and presented to the Commission for consideration at the next regularly–scheduled meeting following the Commission's vote on the merits of the appeal. The time for preparation of findings may be extended by the Chair in appropriate circumstances.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20012. Notification of Commission Action.

The Commission shall notify the local government, the appellant and the affected third party, if any, identified in § 20002(b) of each formal action taking by the Commission under §§ 20008 and 20009. The notification shall be transmitted by the Executive Director within ten working days of the Commission's formal action.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

§ 20013. Ex Parte Contacts.

a) Decisions of the Commission on appeals heard under Public Resources Code § 29770 shall be based strictly on the evidence presented during the public hearing. The Commission shall not rely upon any communications, reports, staff memoranda, or other materials prepared in connection with a particular appeal unless those materials are made a part of the hearing record.

b) If commissioners receive written or oral communications from any person concerning a pending appeal outside the formal hearing process, they shall disclose, on the record and prior to a Commission vote on the appeal, both the existence and substance of the communications.

NOTE: Authority cited: Sections 29752 and 29770(b), Public Resources Code. Reference: Sections 29770–29772, Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 4–6–94 (Register 94, No. 10).

Chapter 2. Delta Protection Commission Regulations for CEQA Compliance (PRC § 21080.5)

§ 20015. Preparation of Draft Plan and Proposed Plan Amendments.

Commission staff shall prepare, or shall direct the preparation of, a draft Delta resource management plan. Commission staff shall prepare, or shall direct the preparation of, any proposed amendments to the Delta resource management plan. In addition to containing a description of standards, policies, and elements, for compliance with Public Resources Code Section 29760, the draft plan, and any proposed amendments to the plan, shall contain an analysis of potentially significant adverse environmental impacts which may result from the proposal, and an analysis of feasible alternatives and feasible mitigation measures to minimize any significant adverse environmental impacts from the proposal. The analysis shall address both short–term and long–term effects on the environment, and shall also address growth–inducing effects and potential cumulative impacts. If the analysis identifies significant adverse environmental impacts, it shall also include a statement describing public benefits which substantially lessen the significant environmental impacts of the proposal.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 21080.5, 21080.22, 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New chapter 2 and section filed 8–17–94; operative 8–17–94 (Register 94, No. 33).

§ 20016. Notice of Public Availability of Draft Plan and Any Proposed Amendments.

Commission staff shall provide notice of the availability of the draft plan, and any proposed amendments to the plan, for public review as follows:

(a) by mailing written notice to each Commission member, each agency represented by a Commission member, other agencies with jurisdiction by law over natural resources of the Delta, the Resources Agency, and any interested person, organization, or agency which has requested notice of the availability of the draft plan; and

(b) by publishing the written notice at least once in the newspaper of largest general circulation in the primary zone of the Delta. Such notice shall provide a public comment period of at least 30 days, and shall specify the date that the comment period closes. In addition to receiving written comments in response to the notice of public availability of the draft plan or proposed amendments, the Commission may hold public meetings and hearings to receive comments.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 21080.5, 21080.22, 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 8–17–94; operative 8–17–94 (Register 94, No. 33).

§ 20017. Consultation Requirements.

Commission staff shall consult with all public agencies which have jurisdiction, by law, over the activities or the natural resources addressed by the draft plan or any proposed amendments to the plan.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 21080.5, 21080.22, 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 8–17–94; operative 8–17–94 (Register 94, No. 33).

§ 20018. Response to Comments.

Commission staff shall prepare a written summary and response to all environmental points raised during the review of the proposal. The written summary and response to environmental points shall be presented for consideration and approval by the Commission before, or no later than at the same time as, the plan or proposed amendment is considered for adoption by the Commission.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 21080.5, 21080.22, 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 8–17–94; operative 8–17–94 (Register 94, No. 33).

§ 20019. Adoption of the Plan.

In addition to the procedures specified by the Delta Protection Act, before adopting the plan, or any amendments to the plan, the Commission shall determine whether the plan or amendment, as proposed, may result in significant adverse environmental impacts, and, if so, whether feasible alternatives or feasible mitigation measures would substantially lessen any significant adverse impacts. The Commission shall not adopt the plan or amendment, as proposed, if there are feasible mitigation measures or alternatives which would substantially reduce any significant adverse impacts. If significant adverse impacts will likely result even after the inclusion of feasible mitigation measures or alternatives, the Commission may adopt the plan or amendment if it first makes findings in accordance with the provisions of Public Resources Code Section 21081(c).

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 21080.5, 21080.22, 21081(c), 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 8–17–94; operative 8–17–94 (Register 94, No. 33).

§ 20020. Notice to the Resources Agency.

Commission staff shall file notice of the Commission's adoption of the plan, and any amendment thereto, with the Secretary for Resources and with the State Clearinghouse in the Office of Planning and Research.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 21080.5, 21080.22, 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 8–17–94; operative 8–17–94 (Register 94, No. 33).

§ 20021. Consideration of Local Plan Amendments.

(a) Upon receipt of local agency general plan amendments which are proposed in order to conform to Public Resources Code Section 29763.5 Commission staff shall prepare a staff report and recommendation to the Commission. The staff report shall include an analysis of the proposed amendments in comparison to the plan and an analysis identifying any potentially significant adverse environmental impacts resulting from the proposal which were not previously addressed in the commission's planning documents. If there are no new potentially significant effects identified, then the staff report shall so state. If new potentially significant environmental impacts are identified, then the staff report shall analyze such impacts, and shall identify feasible mitigation measures and feasible alternatives which would substantially reduce such impacts.

(b) Notice of the availability of the staff report and staff recommendation concerning local general plan amendments shall be provided in the same manner as notice is provided in accordance with the procedures set forth in Section 20016 of these regulations. Commission staff shall consult with all public agencies which have jurisdiction by law over the activities or resources affected by the proposed general plan amendments.

(c) Commission staff shall prepare a written summary and response to all environmental points raised during the Commission's evaluation of the proposed general plan amendments. The summary and response shall be presented to the Commission for consideration and approval prior to or at the same time as the Commission considers proposed general plan amendments for approval.

(d) In approving local general plan amendments the Commission shall follow the procedures set forth in Section 20019 of these regulations. Commission staff shall file notice of the Commission's approval of local general plan amendments with the Secretary for Resources.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 21080.5, 21080.22, 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 8–17–94; operative 8–17–94 (Register 94, No. 33).

Chapter 3. Regulations Governing Land Use and Resource Management in the Primary Zone of the Sacramento–San Joaquin Delta

§ 20030. Overview.

(a) The Delta Protection Act of 1992 (Public Resources Code Section 29760 et seq.) requires the Commission to prepare and adopt and thereafter review and maintain a comprehensive long–term resource management plan for land uses within the Primary Zone of the Delta ("resource management plan"). The resource management plan is to set forth a description of the needs and goals for the Delta and a statement of the policies, standards, and elements of the resource management plan. Within 180 days of the adoption of the resource management plan or any amendments by the Commission, all local governments, as defined in Public Resources Code Section 29725, shall submit to the Commission proposed amendments which will cause their general plans, as defined in Government Code Section 65300 et seq., to be consistent with the criteria outlined in Public Resources Code Section 29763.5 with respect to land located within the Primary Zone. The following regulations are the policies of the resource management plan. The regulations to not apply to other local agencies, as defined in Public Resources Code Section 29724, or to reclamation districts.

(b) The term "shall" in these regulations is mandatory; the terms "may", "should", and "can" are advisory.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 29760, 29763 and 29763.5, Public Resources Code; and Section 13274, Water Code.

HISTORY

1. New chapter 3 (section 20030) and section filed 1–28–97; operative 2–27–97 (Register 97, No. 5).
2. Editorial correction adding new chapter and section headings (Register 97, No. 6).
3. Amendment of chapter 3 heading, amendment of section heading, and repealer and new section filed 5–8–2001; operative 6–7–2001 (Register 2001, No. 19).

§ 20040. Environment.

(a) The priority land use of areas of prime soil shall be agriculture. If commercial agriculture is no longer feasible due to subsidence or lack of adequate water supply or water quality, land uses which protect other beneficial uses of Delta resources, and which would not adversely affect agriculture on surrounding lands, or viability or cost of levee maintenance, may be permitted. If temporarily taken out of agriculture production due to lack of adequate water supply or water quality, the land shall remain reinstateable to agricultural production for the future.

(b) Agricultural and land management practices shall minimize subsidence of peat soils. Local governments shall support studies of agricultural methods that minimize subsidence and shall assist in educating landowners and managers as to the value of utilizing these methods.

(c) Lands managed primarily for wildlife habitat shall be managed to provide several inter–related habitats. Delta–wide habitat needs should be addressed in development of any wildlife habitat plan. Appropriate programs, such as "Coordinated Resource Management and Planning" (Public Resources Code Section 9408(c)) and "Natural Community Conservation Planning" (Fish and Game Code Section 2800 et seq.) should ensure full participation by local government and property owner representatives.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 5–8–2001; operative 6–7–2001 (Register 2001, No. 19).

§ 20050. Utilities and Infrastructure.

(a) Impacts associated with construction of transmission lines and utilities can be mitigated by locating new construction in existing utility or transportation corridors, or along property lines, and by minimizing construction impacts. Before new transmission lines are constructed, the utility should determine if an existing line has available capacity. To minimize impacts on agricultural practices, utility lines shall follow edges of fields. Pipelines in utility corridors or existing rights–of–way shall be buried to avoid adverse impacts to terrestrial wildlife. Pipelines crossing agricultural areas shall be buried deep enough to avoid conflicts with normal agricultural or construction activities. Utilities shall be designed and constructed to minimize any detrimental effect on levee integrity or maintenance.

(b) New houses built in the Delta agricultural areas shall continue to be served by independent potable water and wastewater treatment facilities. Uses which attract a substantial number of people to one area, including any expansions to the Delta communities, recreational facilities or businesses, shall provide adequate infrastructure improvements or pay to expand existing facilities, and not overburden the existing limited community resources. New or expanded construction of wastewater disposal systems shall ensure highest feasible standards are met, as determined by the local governing body. Independent treatment facilities shall be monitored to ensure no cumulative adverse impact to groundwater supplies.

(c) New sewage treatment facilities (including storage ponds) and new areas for disposal of sewage effluent and sewage sludge shall not be located within the Delta Primary Zone. The Rio Vista project, as described in the adopted Final Environmental Impact Report for such project, and the Ironhouse Sanitary District use of Jersey Island for disposal of treated wastewater and biosolids are exempt from this policy.

(d) High groundwater tables and subsiding soil make the Delta an inappropriate location for solid waste disposal. Generation of waste shall be minimized through recycling programs for metals, glass, paper, cardboard, and organic materials. Recycling depots for these materials shall be located in central locations to serve Delta residents, visitors, and businesses.

(e) Surface transportation in the Delta can be dangerous and congested. Roads within the Delta shall be maintained to serve the existing agricultural uses and supporting commercial uses, recreational users, and Delta residents. Where possible, commuter traffic and through traffic should be directed to surrounding highways and freeways, or minimized through programs which promote carpools, buses or trains.

(f) Air transportation in the Delta shall be allowed to continue to serve Delta residents and agriculture–related businesses. Due to subsidence, transmission lines, high winds, fog, and high raptor and waterfowl use, the Primary Zone is not an appropriate location for new or expanded general aviation airports.

(g) Operation of draw and swing bridges shall balance needs of land and water traffic. Commercial vessels and emergency road traffic shall have right–of–way over other traffic.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 5–8–2001; operative 6–7–2001 (Register 2001, No. 19).

§ 20060. Land Use.

(a) The rich cultural heritage and strong agricultural base of the Delta shall be preserved and recognized in public/private facilities, such as museums within the existing communities.

(b) Local government general plans, as defined in Government Code Section 65300 et seq., and zoning codes shall continue to strongly promote agriculture as the primary land use in the Primary Zone; recreation land uses shall be supported in appropriate locations and where the recreation uses do not conflict with agricultural land uses or other beneficial uses, such as waterside habitat. County plans and ordinances may support transfer of development rights, lot splits with no increase in density, and clustering to support long–term agricultural viability and open space values of the Primary Zone. Clustering is intended to support efficient use of agricultural lands, not to support new urban development in the Primary Zone. Local governments shall specifically indicate when, how, and why these options would be allowed in the Primary Zone.

(c) New residential, recreational, commercial, or industrial development shall ensure that appropriate buffer areas are provided by those proposing new development to prevent conflicts between any proposed use and existing agricultural use. Buffers shall adequately protect integrity of land for existing and future agricultural uses. Buffers may include berms and vegetation, as well as setbacks of 500 to 1,000 feet.

(d) New non–agricultural residential development, if needed, shall be located within the existing Primary Zone communities where support infrastructure and flood protection are already provided.

(e) Local government general plans shall address criteria under which general plan amendments in the Primary Zone will be evaluated under Public Resources Code Section 29763.5. Proposed amendments to local government general plans for areas in the Primary Zone shall be evaluated in terms of consistency of the overall goals and program of the Delta Protection Commission.

(f) Subsidence control shall be a key factor in evaluating land use proposals.

(g) Structures shall be set back from levees and areas which may be needed for future levee expansion.

(h) Local government policies regarding mitigation of adverse environmental impacts under the California Environmental Quality Act may allow mitigation beyond county boundaries, if acceptable to reviewing fish and wildlife agencies, for example in approved mitigation banks. Mitigation in the Primary Zone for loss of agricultural lands in the Secondary Zone may be appropriate if the mitigation program supports continued farming in the Primary Zone.

(i) The implementation of the policies contained in the resource management plan shall not be achieved through the exercise of the power of eminent domain unless requested by the landowner.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 5–8–2001; operative 6–7–2001 (Register 2001, No. 19).

§ 20070. Agriculture.

(a) Commercial agriculture in the Delta shall be supported and encouraged as a key element in the State's economy and in providing the food supply needed to sustain the increasing population of the State, the Nation, and the world.

(b) Local governments, as defined in Public Resources Code Section 29725, shall identify the unique qualities of the Delta which make it well suited for agriculture. These qualities include: rich soil, ample supplies of water, long growing season, mild climate, and proximity to packaging and shipping infrastructure. The unique physical characteristics of the Delta also require that agricultural landowners maintain extensive levee systems, provide flood control, and have adequate drainage to allow the lands to be farmed.

(c) Education of the local populations about the value and rich heritage of agriculture in the State and in the Delta shall be continued and expanded.

(d) Local governments shall support long–term viability of commercial agriculture in the Delta because of its economic and environmental importance to the State and local communities.

(e) Support shall be given to current and alternative programs that help to minimize the need for costly production inputs such as fertilizers, pesticides, and herbicides as long as crop production levels and agricultural income can be maintained. Improving crop production and agricultural income is vital to the success of Delta agriculture.

(f) Each local government shall continue to implement the necessary plans and ordinances to: maximize agricultural parcel size; reduce subdivision of agricultural lands; protect ordinary agricultural activities; protect agricultural land from conversion to other uses; and clearly define areas in that jurisdiction where urban land uses are appropriate and where agricultural land uses are appropriate. An optimum package of regulatory and incentive programs would include: (1) an urban limit line; (2) minimum parcel size consistent with local agricultural practices and needs; (3) strict subdivision regulations regarding subdivision of agricultural lands to ensure that subdivided lands will continue in agriculture; (4) delete from zoning ordinances "other" land uses which are not compatible with agriculture; (5) require adequate buffers between agricultural and non–agricultural land uses particularly residential development outside but adjacent to the Primary Zone; (6) an agriculture element of the general plan; (7) a right–to–farm ordinance; and (8) a conservation easement program.

(g) Local governments shall encourage acquisition of agricultural conservation easements as mitigation for projects within each county, or through public or private funds obtained to protect agricultural and open space values, and habitat value that is associated with agricultural operations. Encourage transfer of development rights within land holdings, from parcel to parcel within the Delta, and where appropriate, to sites outside the Delta. Promote use of environmental mitigation in agricultural areas only when it is consistent and compatible with ongoing agricultural operations and when developed in appropriate locations designated on a countywide or Delta–wide habitat management plan.

(h) Local governments shall encourage management of agricultural lands which maximize wildlife habitat seasonally and year–round, through techniques such as sequential flooding in fall and winter, leaving crop residue, creation of mosaic of small grains and flooded areas, controlling predators, controlling poaching, controlling public access, and others.

(i) Local governments may continue to retain agricultural zoning and minimum parcel sizes as described in zoning codes in place January 1, 1992. Where minimum parcel size is less than 40 acres, local governments shall describe how smaller parcel sizes will support long–term viability of commercial agriculture in the Primary Zone. This policy shall not be construed to require the re–zoning of subminimum parcels.

(j)(i) Local governments may develop programs to cluster agriculture–dependent residential units or transfer development rights (TDRs) to off–site locations. Clustering on a single farm would be for family members or employees and would not exceed maximum number of units allowed under existing zoning as of January 1, 1992. Clustering would be accompanied by conditions to preserve agricultural use and open space values on the balance of the property. TDRs may involve transfers from farms to Primary Zone communities with adequate flood protection to protect residential use, or to sites out of the Primary Zone.

(ii) Local governments that pursue clustering or transfer of development rights shall proceed with adoption procedures to implement such programs as part of the local government implementation of the resource management plan.

(iii) Where portions of cities are located within the Primary Zone, cities shall indicate zoning which was in place on January 1, 1992. Future changes to city general plans or zoning ordinances shall conform to the resource management plan.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 5–8–2001; operative 6–7–2001 (Register 2001, No. 19).

§ 20080. Water.

(a) Local governments shall ensure that salinity in Delta waters allows full agricultural use of Delta agricultural lands, provide habitat for aquatic life, and meet requirements for drinking water and industrial uses.

(b) Local governments shall ensure that design, construction, and management of any flooding program to provide seasonal wildlife habitat on agricultural lands shall incorporate "best management practices" to minimize mosquito breeding opportunities and shall be coordinated with the local vector control districts. (Each of the four vector control districts in the Delta provides specific wetland/mosquito management criteria to landowners within their district.)

(c) Water agencies at local, State, and federal levels shall work together to ensure that adequate Delta water quality standards are set and met and that beneficial uses of State waters are protected consistent with the CALFED (see Water Code Section 12310 (f)) Record of Decision dated August 8, 2000.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 5–8–2001; operative 6–7–2001 (Register 2001, No. 19).

§ 20090. Recreation and Access.

(a) Where public funds are limited, local governments shall promote maintenance and supervision of existing public recreation areas over construction of new public facilities.

(b) To minimize impacts to agriculture and to wildlife habitat, local governments shall encourage expansion of existing private water–oriented commercial recreational facilities over construction of new facilities. Local governments shall ensure any new recreational facilities will be adequately supervised and maintained.

(c) Local governments shall develop siting criteria for recreation projects which will ensure minimal adverse impacts on: agricultural land uses, levees, and public drinking water supply intakes, and identified sensitive wetland and habitat areas.

(d) Local governments shall improve public safety on Delta waterways through enforcement of local, State, and federal laws.

(e) Local governments shall encourage provision of publicly funded amenities in or adjacent to private facilities, particularly if the private facility will agree to supervise and manage the facility (fishing pier, overlook, picnic area) thus lowering the long–term cost to the public.

(f) Local governments shall support multiple uses of Delta agricultural lands, such as seasonal use for hunting, or improved parking and access sites.

(g) Local governments shall support improved access for bank fishing along State highways and county roads where safe and adequate parking can be provided and with acquisition of proper rights–of–access from the

landowner. Adequate policing, garbage cleanup, sanitation facilities, and fire suppression for such access shall be provided.

(h) New, renovated, or expanded marinas shall include adequate restrooms, pumpout facilities, trash containers, oily waste disposal facilities, and other facilities necessary to meet needs of marina tenants. Use fees may be charged for the use of these facilities but such fees shall not exceed the cost of maintenance.

(i) Local governments shall encourage new recreation facilities that take advantage of the Delta's unique characteristics.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 5–8–2001; operative 6–7–2001 (Register 2001, No. 19).

§ 20100. Levees.

(a) Local governments shall ensure that Delta levees are maintained to protect human life, to provide flood protection, to protect private and public property, to protect historic structures and communities, to protect riparian and upland habitat, to promote interstate and intrastate commerce, to protect water quality in the State and federal water projects, and to protect recreational use of the Delta area. Delta levee maintenance and rehabilitation shall be given priority over other uses of the levee areas. To the extent levee integrity is not jeopardized, other uses, including support of vegetation for wildlife habitat, shall be allowed.

(b) If levee guidelines are needed, local governments shall adhere to guidelines for federal and local levee maintenance and construction at a minimum as stipulated in the Flood Hazard Mitigation Plan guidelines developed by California Office of Emergency Services and the Federal Emergency Management Agency in the 1987 agreement, and set longer term goals of meeting Public Law 84–99 (Emergency Rehabilitation of Flood Control Works or Federally Authorized Coastal Protection Works), standards administered by the Corps of Engineers. If vegetation standards are needed, local governments shall adopt the adopted vegetation guidelines, which promote native grasses and limited vegetation on specific areas of the levee.

(c) Through flood ordinances based on Flood Emergency Management Act model ordinances, developed by the International Conference of Building Officials and included in the Uniform Building Code, local governments shall carefully and prudently carry out their responsibilities to regulate new construction within flood hazard areas to protect public health, safety, and welfare. Increased flood protection shall not result in densities beyond those allowed under zoning and general plan designations in place on January 1, 1992, for lands in the Primary Zone.

(d) Local governments shall ensure that existing programs for emergency levee repair should be strengthened and better coordinated between local, State, and federal governments and shall include: interagency agreements and coordination; definition of an emergency; designation of emergency funds; emergency contracting procedures; emergency permitting procedures; and other necessary elements.

(e) Local governments shall use their authority to control levee encroachments that are detrimental to levee maintenance.

NOTE: Authority cited: Section 29752, Public Resources Code. Reference: Sections 29760, 29763 and 29763.5, Public Resources Code.

HISTORY

1. New section filed 5–8–2001; operative 6–7–2001 (Register 2001, No. 19).

§ 20110. Marine Patrol, Boater Education, and Safety Programs.

(a) Local governments that have or plan to have marine patrols shall possess adequate marine patrol equipment to ensure communication with other county marine patrols, with State patrols on Delta waters, and with the Coast Guard.

(b) Local governments that have marine patrols shall notify the Coast Guard when and where patrols are on the water.

(c) Local governments that have marine patrol units shall participate in at least one Coast Guard, or Delta Protection Commission sponsored meeting per year to coordinate with other Delta law enforcement programs to develop strategies for effective control, to discuss new laws and programs, and generally increase effectiveness and communication between the various marine patrol programs.

(d) Local governments that have or plan to have marine patrol, boater education, and/or safety programs shall develop methods for quick processing of intoxicated boat operators that would ensure that marine patrol staff remains on the water.

(e) Local governments that have or plan to have marine patrol services shall recognize towing of disabled vessels as a low priority activity and should develop relationships with volunteer groups or private vendors to provide such services.

(f) Local governments that have or plan to have marine patrol, boater education, and/or safety programs shall develop funding and implementation strategies to remove abandoned vessels from county waterways to avoid pollution of Delta waters and remove hazards to navigation.

(g) Local governments that have or plan to have marine patrol programs shall coordinate with Department of Fish and Game to provide support in enforcement of State hunting and fishing laws.

(h) Local governments that have or plan to have marine patrol programs shall provide adequate levels of marine patrol to ensure public health and safety on the waters of the Delta, taking into account funding available and the number of vessels moored in the Delta, launched into the Delta, and which travel into the Delta.

(i) Local governments that have or plan to have marine patrol, boater education, and/or safety programs shall identify problems and solutions surrounding crimes of environmental pollution which can be addressed by local governments. Local governments shall consider feasible solutions (additional pump–outs, dye tablets in holding tanks, rewards for observers, etc.).

(j) Local governments that have or plan to have marine patrol, boater education, and/or safety programs shall implement or support education and safety programs to address local, state, and federal laws aimed especially at personal water craft operators and means to encourage attendance at such programs.

(k) Local governments that have or plan to have boater education programs shall implement or support boater education programs to address local, State, and federal laws and means to encourage attendance at such programs.

(*l*) Local governments that have or plan to have marine patrol programs shall encourage and coordinate with volunteer programs within their jurisdiction as a way to supplement human resources on the Delta waterways.

(m) Local governments that have or plan to have marine patrol programs shall ensure that adequate funds are reserved for marine patrol services. Sources could include: reservation of existing funds such as vessel property tax, launch ramp fees, fines collected from violators, county share of Fish and Game Code violation fines, and possible funds generated from rental houseboats, boats or personal watercraft, or from marina berths.

Division 10. San Joaquin River Conservancy

Chapter 1. Selection Process for Private Architectural, Landscape Architectural, Engineering, Environmental, Land Surveying and Construction Project Management Firms

§ 25001. Definitions.

(a) "Firm" means any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice the professions of architecture, landscape architecture, engineering, environmental services, land surveying or construction project management.

(b) "Small Business" means a firm that complies with the provisions of Government Code Section 14837.

(c) "Executive Officer" means the Executive Officer of the San Joaquin River Conservancy.

(d) "Conservancy" means the San Joaquin River Conservancy, established pursuant to the provisions of the Public Resources Code, commencing with Section 32500.

(e) "Architectural, landscape architectural, engineering, environmental, land surveying services" and "construction project management" means those services, as defined in Section 4525 of the Government Code.

(f) The term "Disabled Veteran Business Enterprise" shall have the meaning set forth in Section 999 of the Military and Veterans Code.

NOTE: Authority cited: Section 4526, Government Code. Reference: Section 4525, Government Code; and *Monterey Mechanical Co. v. Wilson* (1997) 125 F.3d 702, 706 fn. 5.

HISTORY

1. New division 10, chapter 1 (sections 25001–25012) and section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25002. Selection Criteria.

The Executive Officer shall utilize selection criteria for each proposed project which will comprise the basis for the selection of eligible firms to perform the required services. The criteria shall include such factors as:

(a) Professional experience of the firm in performing services of similar nature.

(b) Quality and relevance of recently completed or ongoing work.

(c) Reliability, continuity, and location of firm to the project site.

(d) Staffing capability.

(e) Education and experience of key personnel to be assigned.

(f) Knowledge of applicable regulations and technology associated with the services required.

(g) Specialized experience of the firm in the services to be performed.

(h) Participation as small business firm.

(i) Other factors the Executive Officer deems relevant to the specific task to be performed.

These factors shall be weighted by the Executive Officer according to the nature of the proposed project, the complexity and special requirements of the specific services or project, and the needs of the Conservancy.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4526, 4527 and 4529.5, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25003. Announcement of Project.

(a) A statewide announcement of each proposed project shall be published in the California State Contracts Register, in accordance with the Government Code (commencing with Section 14825), and through the publications of the respective professional societies. Failure of any professional society to publish the announcement shall not invalidate any contract.

(b) The announcement for each proposed project shall include, as a minimum, a brief description of the services required, location, duration, eligibility and preferences, submittal requirements, contact person for the Conservancy, and the final response date for receipt of statements from firms of their demonstrated competence and professional qualifications.

(c) The Executive Officer shall identify potentially qualified small business firms interested in contracting with the Conservancy, and provide copies of project announcements to those small business firms that have indicated an interest in receiving the announcements. Failure of the Executive Officer to send a copy of an announcement to any firm shall not invalidate any contract.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4526 and 4527, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25004. Selection of Qualified Firms.

(a) After the expiration of the final response date in the published project announcement, the Executive Officer shall review and evaluate the written statements of demonstrated competence and professional qualifications using the selection criteria contained in Section 25002 of these regulations, and rank, in order of preference, the firms determined to be eligible to perform the required services.

(b) The Executive Officer shall conduct discussions with at least the three most eligible firms, about anticipated concepts and the benefit of alternative methods for furnishing the required services. From the firms with which discussions are held, the Executive Officer shall select, in order of preference, not less than three firms deemed to be the most highly qualified to perform the required services.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4526 and 4627, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25005. Estimate of Value of Services.

(a) Before entering into discussion with any firm selected pursuant to section 25004 of these regulations, the Executive Officer shall prepare, or direct the preparation of, an estimate of the value of the proposed project, based upon accepted rates for comparable services. The estimate will serve as a guide in determining fair and reasonable compensation in the negotiation of a satisfactory contract in accordance with the provisions of section 25007 of these regulations, and shall not be disclosed until after the award of the contract or the abandonment of the negotiation process for the services to which it relates.

(b) At any time that the Executive Officer determines the estimate of value of services to be unrealistic for any reason, the Executive Officer shall require the estimate to be reevaluated and, if deemed necessary, modified.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4526 and 4528, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25006. Statewide Participation Goals.

In the negotiation of a satisfactory contract as provided in section 25007 of these regulations, the best qualified firm must meet the statewide participation goal of not less than 3 percent for disabled veteran business enterprises, or demonstrate that a good faith effort was made to meet it, in order to comply with the statewide participation goals as required by the regulations contained in Title 2, California Code of Regulations, Sections 1896.61–1896.64.

NOTE: Authority cited: Section 4526, Government Code; Section 10115, Public Contract Code; and Section 999, Military and Veterans Code. Reference: Section 4528, Government Code; Sections 10115, 10115.1 and 10115.2, Public Contract

Code; Sections 999, 999.1, 999.2 and 999.3, Military and Veterans Code; and *Monterey Mechanical Co. v. Wilson* (1997) 125 F.3d 702, 706 fn. 5.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25007. Negotiation.

(a) From among the firms selected through the procedure described in section 25004 of these regulations, as those most highly qualified to perform the services required, the Executive Officer shall attempt to negotiate a satisfactory contract with the best qualified firm at a compensation which the Conservancy determines is fair and reasonable.

(b) If the Executive Officer is unable to negotiate a satisfactory contract with the best qualified firm at a compensation which the Conservancy determines is fair and reasonable, negotiations with that firm shall be terminated and negotiations undertaken with the second best qualified firm. If the Executive Officer is unable to negotiate a satisfactory contract with the second best qualified firm at a compensation which the Conservancy determines is fair and reasonable, then negotiations with that firm shall be terminated and negotiations undertaken with the third best qualified firm. If the Executive Officer is unable to negotiate a satisfactory contract with the third best qualified firm at a compensation which the Conservancy determines is fair and reasonable, negotiations with that firm shall be terminated.

(c) If the Executive Officer is unable to negotiate a satisfactory contract in accordance with subsections (a) and (b) immediately above, the Executive Officer shall continue the negotiations process with the remaining qualified firms, if any, in order of preference, until a satisfactory contract is reached. If unable to negotiate a satisfactory contract with any of the qualified firms, the Executive Officer shall abandon the negotiation process for the requested services.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4527 and 4528, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25008. Amendments.

If the Executive Officer determines that a change in the contract is necessary during the performance of the services being provided, then the contracting parties may, by mutual consent, in writing, agree to modifications, additions or deletions in the contract terms, conditions and specifications for the services involved, with a reasonable adjustment also in the compensation provided for the services.

NOTE: Authority cited: Section 4526, Government Code. Reference: Section 4528, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25009. Contracting in Phases.

If the Executive Officer determines it is necessary or desirable for the project to be performed in separate phases, the Executive Officer may negotiate a partial compensation for the initial phase of the services required; provided, however, that the Executive Officer first determines that the firm selected is best qualified to perform the entire project. The contract shall include a provision that the Conservancy may, at its option, utilize the firm to perform other phases of the services at a compensation which the Conservancy determines is fair and reasonable, to be later negotiated and included in a mutually acceptable written agreement. In the event that the Conservancy exercises its option under the contract to utilize the firm to perform other phases of the project, the procedures of this Chapter with regard to estimates of value of services and negotiation shall similarly be followed.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4526 and 4528, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25010. Executive Officer's Power to Require Bids.

If the Executive Officer determines that the services are technical in nature and involve little professional judgement and that requiring bids would be in the public interest, a contract shall be awarded on the basis of competitive bids and not the procedures of this Chapter.

NOTE: Authority cited: Section 4526, Government Code. Reference: Section 4529, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25011. Unlawful Consideration.

Each contract shall include a provision by which the contracting firm warrants to the state that the contract was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any Conservancy officer or employee. Failure to adhere to this warranty may be cause for contract termination and recovery of damages under the rights and remedies due the Conservancy under the default provisions of the contract.

NOTE: Authority cited: Section 4526, Government Code. Reference: Section 4526, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

§ 25012. Prohibited Relationships.

No Conservancy employee or officer who participates in the evaluation or selection process leading to award of a contract shall have a relationship with any of the firms seeking that contract, if that relationship is subject to the prohibition of Government Code Section 87100.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4526, 87100 and 87102, Government Code.

HISTORY

1. New section filed 10–15–98; operative 11–14–98 (Register 98, No. 42).

Chapter 1. Coachella Valley Mountains Conservancy

§ 25050. Conflict of Interest Code.

The Political Reform Act, Government Code Section 81000, et seq., requires state and local government agencies to adopt and promulgate conflict of interest codes. The Fair Political Practices Commission has adopted a regulation, Title 2, California Code of Regulations, Section 18730, which contains the terms of a standard Conflict of Interest Code, which can be incorporated by reference, and which may be amended by the Fair Political Practices Commission to conform to amendments to the Political Reform Act after public notice and hearings. Therefore, the terms of Title 2, California Code of Regulations, Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission, along with the attached Appendices in which officials and employees are designated and disclosure categories are set forth, are hereby incorporated by reference and constitute the Conflict of Interest Code of the Coachella Valley Mountains Conservancy.

Designated employees shall file their statements of economic interests with the Coachella Valley Mountains Conservancy. Upon receipt of the statements of the members of the Coachella Valley Mountains Conservancy, the Conservancy shall make and retain copies and forward the original of these statements to the Fair Political Practices Commission. Statements for all other designated employees will be retained by the Coachella Valley Mountains Conservancy and made available for public inspection and reproduction. (Gov. Code, § 81008).

NOTE: Authority cited: Section 87300, Government Code. Reference: Sections 87300–87302 and 87306, Government Code.

HISTORY

1. New division 11 (chapter 1), chapter 1 (section 25050), section and Appendices A and B filed 6–23–2003; operative 7–23–2003. Approved by Fair Political Practices Commission 5–12–2003 (Register 2003, No. 26).

Associate Director	1

Appendix B

Disclosures Categories

Category 1

Persons in this category are required to report:

(1) All real property or an interest in real property located within or not more than two miles from the boundaries of the Coachella Valley.[2]

(2) All sources of income from, and all investments and business positions in, entities which are of the type which provide goods, services, equipment, leased space, materials, supplies or machinery to the Conservancy.

[1]With respect to consultants the Executive Director, however, may determine in writing that a particular consultant, although a "designated person," is hired to perform a range of duties that is limited in scope and thus is not required to fully comply with the disclosure requirements described in this section. Such written determination shall include a description of the consultant's duties and, based upon that description, a statement of the extent of disclosure requirements. The Executive Director's determination is a public record and shall be retained for public inspection in the same manner and location as this conflict of interest code.

[2]For purposes of this Appendix, "Coachella Valley" means the jurisdictional limits of the Coachella Valley Mountains Conservancy as set forth in Public Resources Code § 33502.

Chapter 1. San Diego River Conservancy

§ 25201. Conflict of Interest Code.

The Political Reform Act, Government Code Section 81000 et seq., requires state and local government agencies to adopt and promulgate conflict of interest codes. The Fair Political Practices Commission has adopted a regulation, California Code of Regulations, title 2, section 18730, which contains the terms of a standard Conflict of Interest Code, which can be incorporated by reference, and which may be amended by the Fair Political Practices Commission to conform to the amendments to the Political Reform Act after public notice and hearings. Therefore, the terms of California Code of Regulations, title 2, section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission, along with the attached Appendices in which officials and employees are designated and disclosure categories are set forth, are hereby incorporated by reference and constitute the Conflict of Interest Code of the San Diego River Conservancy.

Designated employees shall file their statements of economic interests with the San Diego River Conservancy. Upon receipt of the statements of the governing board of the San Diego River Conservancy, the San Diego River Conservancy shall make and retain copies and forward the original of these statements to the Fair Political Practices Commission. Statements for all other designated employees will be retained by the San Diego River Conservancy and made available for public inspection and reproduction. (Gov. Code, § 81008).

NOTE: Authority cited: Section 87300, Government Code. Reference: Sections 87300–87302 and 87306, Government Code.

HISTORY

1. New division 13 (chapter 1), chapter 1 (section 25201), section and Appendices A and B filed 1–11–2005; operative 2–10–2005. Approved by Fair Political Practices Commission 11–9–2004 (Register 2005, No. 2).

Appendix A

Designated Positions	*Assigned Disclosure Categories*
Chairperson, Vice–Chairperson, all Board members and Designees	1
Consultants paid by the Conservancy[1]	1
Executive Officer	1

Appendix B

Disclosure Categories

Category 1

Persons in this category are required to report:

(1) All interests in real property located within or not more than two miles from the boundaries of the San Diego River Area.[2]

(2) All investments and business positions in, and income, including gifts, loans and travel payments, from entities which are of the type to provide goods, services, equipment, leased space, materials, supplies or machinery to the Conservancy.

[1]With respect to consultants the Executive Officer, however, may determine in writing that a particular consultant, although a "designated person," is hired to perform a range of duties that is limited in scope and thus is not required to fully comply with the disclosure requirements described in this section. Such written determination shall include a description of the consultant's duties and, based upon that description, a statement of the extent of disclosure requirements. The Executive Officer's determination is a public record and shall be retained for public inspection in the same manner and location as this conflict of interest code.

[2]For purposes of this appendix, "San Diego River Area" means the jurisdictional limits of the San Diego River Conservancy as set forth in Public Resources Code sections 32644 and 32632, subdivision (f).

Chapter 2. Selection Process for Private Architectural, Landscape Architectural, Engineering, Environmental, Land Surveying and Construction Project Management Firms

§ 25202. Definitions.

(a) "Firm" means any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice the professions of architecture, landscape architecture, engineering, environmental services, land surveying or construction project management.

(b) "Small Business" means a firm that complies with the provisions of Government Code Section 14837.

(c) "Executive Officer" means the Executive Officer of the San Diego River Conservancy.

(d) "Conservancy" means the San Diego River Conservancy, established pursuant to the provisions of the Public Resources Code, commencing with Section 32630.

(e) "Architectural, landscape architectural, engineering, environmental, land surveying services" and "construction project management" means those services, as defined in Section 4525 of the Government Code.

(f) The term "Disabled Veteran Business Enterprise" shall have the meaning set forth in Section 999 of the Military and Veterans Code.

NOTE: Authority cited: Section 32643, Public Resources Code; Article XXII, Sections 1 and 2, California Constitution; and Section 4526, Government Code. Reference: Section 32643, Public Resources Code; and Sections 4525–4529.5, Government Code.

HISTORY

1. New chapter 2 (sections 25202–25211) and section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25203. Selection Criteria.

With respect to architecture, landscape architecture, engineering, environmental services, land surveying or construction project management contracts, the Executive Officer shall utilize selection criteria for each proposed project which will comprise the basis for the selection of eligible firms to perform the required services. The criteria shall include such factors as:

(a) Professional experience of the firm in performing services of similar nature.

(b) Quality and relevance of recently completed or ongoing work.

(c) Reliability, continuity, and location of firm to the project site.

(d) Staffing capability.

(e) Education and experience of key personnel to be assigned.

(f) Knowledge of applicable regulations and technology associated with the services required.

(g) Specialized experience of the firm in the services to be performed.

(h) Status as a certified small business firm.

(i) Status as a disable veteran business enterprise (DVBE) and good faith effort of the contractor to contract with DVBEs to assist the Conservancy in its efforts to meet statewide participation goals for DVBEs as set forth in Public Contract Code section 10115.

(j) Other factors the Executive Officer deems relevant to the specific task to be performed. These factors shall be weighted by the Executive Officer according to the nature of the proposed project, the complexity and special requirements of the specific services or project, and the needs of the Conservancy.

NOTE: Authority cited: Section 32643, Public Resources Code; Article XXII, Sections 1 and 2, California Constitution; and Section 4526, Government Code. Reference: Section 32643, Public Resources Code; and Sections 4525–4529.5, Government Code.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25204. Announcement of Project.

(a) An annual statewide announcement of expected needs for architecture, landscape architecture, engineering, environmental services, land surveying or construction project management services shall be pub-

lished in the California State Contracts Register, in accordance with the Government Code (commencing with Section 14825), and through the publications of the respective professional societies. Failure of any professional society to publish the announcement shall not invalidate any contract.

(b) The announcement for each proposed project shall include, as a minimum, a brief description of the services required, location, duration, eligibility and preferences, submittal requirements, contact person for the Conservancy, and the final response date for receipt of statements from firms of their demonstrated competence and professional qualifications.

(c) The Executive Officer shall identify potentially qualified small business firms interested in contracting with the Conservancy, and provide copies of project announcements to those small business films that have indicated an interest in receiving the announcements. Failure of the Executive Officer to send a copy of an announcement to any firm shall not invalidate any contract.

NOTE: Authority cited: Section 32643, Public Resources Code; Article XXII, Sections 1 and 2, California Constitution; and Section 4526, Government Code. Reference: Section 32643, Public Resources Code; and Sections 4525–4529.5, Government Code.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25205. Selection of Qualified Firms.

(a) After the expiration of the final response date in the published project announcement, the Executive Officer shall review and evaluate the written statements of demonstrated competence and professional qualifications using the selection criteria contained in section 25203 of these regulations, and rank, in order of preference, the firms determined to be eligible to perform the required services.

(b) The Executive Officer shall conduct discussions with at least the three most eligible firms, about anticipated concepts and the benefit of alternative methods for furnishing the required services. From the firms with which discussions are held, the Executive Officer shall select, in order of preference, not less than three firms deemed to be the most highly qualified to perform the required services.

NOTE: Authority cited: Section 32643, Public Resources Code; Article XXII, Sections 1 and 2, California Constitution; and Section 4526, Government Code. Reference: Section 32643, Public Resources Code; and Sections 4525–4529.5, Government Code.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25206. Statewide Participation Goals.

Contracts awarded under this chapter shall have statewide participation goals of not less than three percent for DVBEs as specified in Public Contract Code section 10115.

NOTE: Authority cited: Section 32643, Public Resources Code; Article XXII, Sections 1 and 2, California Constitution; Section 4526, Government Code; Section 10115, Public Contract Code; and Section 999, Military and Veterans Code. Reference: Section 32643, Public Resources Code; Section 4528, Government Code; Sections 10115, 10115.1 and 10115.2, Public Contract Code; and Sections 999, 999.1, 999.2 and 999.3, Military and Veterans Code; and *Monterey Mechanical Co. v. Wilson* (1997) 125 F.3d 702, 706 fn. 5.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25207. Negotiation.

(a) From among the firms selected through the procedure described in section 25205 of these regulations, as those most highly qualified to perform the services required, the Executive Officer shall attempt to negotiate a satisfactory contract with the best qualified firm at a compensation which the Conservancy determines is fair and reasonable.

(b) If the Executive Officer is unable to negotiate a satisfactory contract with the best qualified firm at a compensation which the Conservancy determines is fair and reasonable, negotiations with that firm shall be terminated and negotiations undertaken with the second best qualified firm. If the Executive Officer is unable to negotiate a satisfactory contract with the second best qualified firm at a compensation which the Conservancy determines is fair and reasonable, then negotiations with that firm shall be terminated and negotiations undertaken with the third best qualified firm. If the Executive Officer is unable to negotiate a satisfactory contract with the third best qualified firm at a compensation which the Conservancy determines is fair and reasonable, negotiations with that firm shall be terminated.

(c) If the Executive Officer is unable to negotiate a satisfactory contract in accordance with subsections (a) and (b) immediately above, the Executive Officer shall continue the negotiations process with the remaining qualified firms, if any, in order of preference, until a satisfactory contract is reached. If unable to negotiate a satisfactory contract with any of the qualified firms, the Executive Officer shall abandon the negotiation process for the requested services.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4527 and 4528, Government Code.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25208. Contracting in Phases.

If the Executive Officer determines it is necessary or desirable for the project to be performed in separate phases, the Executive Officer may negotiate a partial compensation for the initial phase of the services required; provided, however, that the Executive Officer first determines that the firm selected is best qualified to perform the entire project. The contract shall include a provision that the Conservancy may, at its option, utilize the firm to perform other phases of the services at a compensation which the Conservancy determines is fair and reasonable, to be later negotiated and included in a mutually acceptable written agreement. In the event that the Conservancy exercises its option under the contract to utilize the firm to perform other phases of the project, the procedures of this Chapter with regard to estimates of value of services and negotiation shall similarly be followed.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4526 and 4528, Government Code.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25209. Executive Officer's Power to Require Bids.

If the Executive Officer determines that the services are technical in nature and involve little professional judgement and that requiring bids would be in the public interest, a contract shall be awarded on the basis of competitive bids and not the procedures of this Chapter.

NOTE: Authority cited: Section 4526, Government Code. Reference: Section 4529, Government Code.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25210. Unlawful Consideration.

Each contract shall include a provision by which the contracting firm warrants to the state that the contract was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any Conservancy officer or employee. Failure to adhere to this warranty may be cause for contract termination and recovery of damages under the rights and remedies due the Conservancy under the default provisions of the contract.

NOTE: Authority cited: Section 4526, Government Code. Reference: Section 4526, Government Code.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

§ 25211. Prohibited Relationships,

No Conservancy employee, officer or Board member who participates in the evaluation or selection process leading to award of a contract shall have a relationship with any of the firms seeking that contract, if that relationship is subject to the prohibition of Government Code Section 87100.

NOTE: Authority cited: Section 4526, Government Code. Reference: Sections 4526, 87100 and 87102, Government Code.

HISTORY

1. New section filed 1–29–2008; operative 2–28–2008 (Register 2008, No. 5).

Appendix		827

Division 14. Sierra Nevada Conservancy

Chapter 1. Sierra Nevada Conservancy

§ 25231. Conflict of Interest Code of the Sierra Nevada Conservancy.

(a) The terms of Title 2, California Administrative Code, Section 18730, and any amendments to it duly adopted by the Fair Political Practices Commission, are hereby adopted and incorporated by this reference, and together with the attached Appendix designating officials and employees and establishing disclosure categories, shall constitute the conflict of interest code of the Sierra Nevada Conservancy.

(b) Designated employees shall file their statements with the Sierra Nevada Conservancy which will make the statements available for public inspection and reproduction. Upon receipt of the statements for Board Members, Alternates and the Executive Officer, the agency shall make and retain a copy and forward the original to the Fair Political Practices Commission. Statements for all other designated employees will be retained by the agency.

Appendix

Designated Employees	*Disclosure Categories*
Board Members and Alternates	A, B
Executive Officer	A, B
Staff Members	
Staff Counsel	A, B
Staff Services Manager (Director of Administration)	A, B
Program Manager	A, B
Program Analysts	A
Information Systems Analysts	B
Executive Secretary	B
Management Services Technician	B
Consultants and Contractors paid by the Conservancy	C

Disclosure Categories

Category A

Persons in this category must report all investments, interests in real property, income (including gifts, loans and travel payments other than travel reimbursements paid by the Conservancy), and any business position with any business entity in which the person is a director, officer, partner, trustee, employee, or holds any position of management, subject to the following limitations:

(a) Income is reportable only if it is received from a source within the region or, if that source is doing business within the region, planning to do business within the region, or has done business within the region during the two–year period prior to the time any statement is required under this code.

(b) An interest in real property is reportable only if the property, or any part of it, is located within or not more than two miles outside the boundaries of the region.

(c) Investments are reportable only if the business entity has an interest in real property in the region, or does business, or plans to do business, in the region, or has done business within the region at any time during the two–year period prior to the time any statement is required under this code.

(d) Business entities are reportable for purposes of business position disclosure only if the business entity is doing business, or plans to do business, within the region or has done business within the region at any time during the two years prior to the time any statement is required under these regulations.

(e) For purposes of the above limitations the term "region" means the Sierra Nevada Region as described by Public Resources Code section 33302(f).

Category B

Persons in this category shall disclose any investment in a business entity, business position in a business entity, and income from a source (including gifts, loans, and travel payments other than travel reimbursements paid by the Conservancy), if the business entity or source of income is of a type to do business with the Conservancy or to contract with the Conservancy to provide goods, services, equipment, materials or facilities to or used by the Conservancy.

Category C

Persons in this category are considered designated employees, are subject to the disclosure categories in A and B and the disqualification requirements described in the standard Conflict of Interest Code, section 18730(b)(9). The Executive Officer, however, may determine in writing that a particular consultant, although a "designated employee," is hired to perform a range of duties that are limited in scope and thus is not required to fully comply with the disclosure requirements described in this section. Such written determination shall include a description of the consultant's duties and, based on that description, a statement of the extent of disclosure requirements. The Executive Officer's determination is a public record and shall be retained for public inspection in the same manner and location as other statements filed in accordance with this conflict of interest code.

NOTE: Authority cited: Section 33300 and 33325(b), Public Resources Code; and Sections 87300 and 87304, Government Code. Reference: Sections 87300 et seq., Government Code.

HISTORY

1. New division 14 (chapter 1), chapter 1 (section 25231), section and Appendix filed 12–28–2006; operative 1–27–2007. Approved by Fair Political Practices Commission 10–24–2006 (Register 2006, No. 52).

Bay-Delta Sport Fishing Enhancement Stamp, 14:1.18
Closures, 14:150.06
–Special provisions, 14:1.47
Commercial operations
–Abalone, 14:100
–Activity records, 14:190-14:195
–Anchovies
––Permit requirements for reduction processes, 14:147
–Barracuda imports from Mexico, inspection clearance, 14:109
–Brine shrimp, trawling in Mono Lake, 14:120.5
–Broadbill swordfish, 14:107
–Catfish, importation prohibitions, 14:171
–Coastal pelagic species, 14:159
–Crayfish, 14:116
–Dungeness crab
––Cooked, closed season restrictions, 14:133
––Importation of live, cooked, whole, or cracked, 14:132
–Experimental gear loan program, 14:13850-14:13868
–Finfish trap construction, 14:180.4

FISHING–*continued*
Commercial operations–*continued*
–Freshwater or inland fish
––Permit requirements, 14:226.7
–Gear restrictions
––Drift gill net use
–––Sharks and swordfish, 14:106
––Gill or trammel nets, 14:174
––Traps, 14:180-14:180.5
––Trawl fishing activity records, 14:176
––Trawl net use inside Golden Gate Bridge, 14:119
––Trawl or drag nets, 14:172
–Groundfish, 14:189
–Herring
––Harvesting, 14:163
––Permits
–––Eggs, 14:164
–––Penalties for violations, 14:163.5
–––Requirements, 14:163
–––Transfers, 14:163.1
–Importation
––Barracuda, inspection clearance, 14:109
––Catfish, prohibitions, 14:171
––Dungeness crabs, live, cooked, whole, or cracked, 14:132
––Salmon, 14:166
––Sardines, 14:157
––Shad, 14:135
––Steelhead trout, 14:135
––Striped bass, 14:135
––Sturgeon, 14:135
––Yellowtail, inspection clearance, 14:109
–Invertebrates, tidal, 14:123
–Kelp bass, importation for sale, 14:105
–Landing California-caught fish outside California, 14:105.1
–Live freshwater bait fish licenses
––Application procedure, 14:200
––Requirements, 14:200.11
––Retail live bait outlets, 14:200.12
––Sale and transfer prohibited, 14:200.10
––Sources, 14:200.29
––Species allowed, 14:200.13
––Species prohibited, 14:200.31
–Lobsters
––Closed season restrictions, 14:121
––Permits, 14:122
––Size verification, 14:121.5
–Marine aquaria receivers licenses, 14:188
–Market fish, common names, 14:103
–Mussels, limits, 14:115
–Nearshore fisheries
––Bycatch permits, 14:150.05
––Control dates
–––Deeper nearshore species, 14:150.02
–––Gear endorsement program, 14:150.03, 14:150.04
––Defined, 14:1.90
––Permits, 14:150, 14:150.01
––Restricted access, 14:150
–Nearshore fish stocks, 14:150.16
––Defined, 14:1.90
––Hooks, limits, 14:150.17
–Observers, state and federal, cooperation with, 14:105.5
–Pismo clams, importation, 14:110
–Prawns
––Restricted access trap fishery, 14:180.3
––Spot prawns, traps, 14:180.1
––Trawling, 14:120, 14:120.3, 14:120.4
–Recordkeeping requirements, 14:190
–Rock crab, 14:125
–Salmon
––Importation, 14:166
––Permit violation penalties, 14:167
––Restrictions, 14:182, 14:182.1
––Vessel permit requirement, 14:183
–Sampling methods, 14:146
–Sand bass, importation for sale, 14:105
–Sardines
––Importation, 14:157
––Live bait taking, 14:158
–Sea urchins, 14:120.7

FISHING–*continued*
Commercial operations–*continued*
–Shrimp
––Brine shrimp, trawling in Mono Lake, 14:120.5
––Powered equipment restrictions, 14:120.6
––Trawling, 14:120, 14:120.01
–Spotted bass, importation for sale, 14:105
–Squid, 14:149
––Experimental vessel permits, 14:149.3
––Restricted access, 14:149.1
–Surfperch, 14:112
–Swordfish, restrictions on gill net use, 14:107.1
–Tanner Crab, 14:126
–Traps, 14:180-14:180.5
–Waste of fish prevention, 14:142
–Weight conversion factors for computing landing tax, 14:187
–White croaker
––Closure of waters, 14:104
––Prohibitions, 14:104
–White seabass, 14:155
––Gill net mesh size, 14:155.10
––Purse seine and roundhaul nets, use of, 14:155.05
–Yellowtail imports from Mexico, inspection clearance, 14:109
Computer assisted remote fishing, 14:2.45
Contests offering prizes for game fish take, permits, 14:230
Dams, fishways, screens, and egg-taking stations, restrictions on take, 14:2.35
Day defined, 14:3.00
Definitions, 14:1.04-14:1.93
–Anadromous waters, 14:1.04
–Angling, 14:1.05
–Artificial fly, 14:1.08
